FEEDBACK SUBMISSION

IP: 208.187.198.59
NAME: Mike Dibble

TOPIC: Telecommunications

COMMENT: This area code change is the most ridiculous solution.

A quick glance at an L.A. phonebook would have provided the tried and tested method of dealing with population growth and adding area codes.

Changing business signs and advertising is part of business and as a business owner I'd prefer paying for the changes over wearing my fingers out dialing my next door neighbors.
