Subject: really unhappy with area code change

I'm very, very unhappy with the change in area codes. I think this decision was not considered well and I want more information on why this decision was made. I very much would have preferred that a new area code was added to the state. It is inconvenient and tiresome to have to dial 10 digits for any phone number now instead of the usual seven. I don't know how to express my displeasure any more clearly than to say that this decision was a bad one for every user in the state of Utah. If your department was not responsible for this awful decision then can you put me in contact with who was in charge of it?

I hope this decision is reconsidered and changed.
