Ms. Livingston:

I am writing to express my frustration with two Public Service Commission policies:

1. The fact that it remains long-distance from Utah County to Salt Lake County. We are one metro area now and whatever thinking led to that decision years ago needs to be rethought.
2. The new 385 overlay area code is a disappointment. In my estimation it will lead to confusion and a terrible inconvenience. I would be willing to bet that if the PSC sought public input it would be overwhelmingly against this approach.

I would appreciate a response.

Regards,

Bryant Larsen
