DIVISION OF PUBLIC UTILITIES

Dear Sirs and Madam-

I am writing to let you know that I am adamantly opposed to the new 10-digit dialing that is being instituted. I have small children, and I know how important it is for them to know their own phone number, let alone remember my and my husband's cell phone numbers. For them to learn another 3 digits for every phone number is a daunting task. I know there are benefits to 10-digit dialing, but I think you are doing the community a disservice by instituting such dialing along the Wasatch front, when a geographical area code would work just as well. I would urge you to reconsider this decision and act in the best interest of the population.

Paige Beal
