Attn: Julie P. Orchard, Commission Secretary

RE: Assessment of Long Term System Wide Potential for Demand Side and Other Supplemental Resources Report Submitted Pursuant to Docket No. 08-035-56

Please find enclosed Rocky Mountain Power's report on the assessment of long term system wide potential for demand side and other supplemental resources ("DSM Potential Report" or "Report"). This report has been prepared to comply with Transaction Commitment No. 44(a), Energy Efficiency and DSM Management, approved in Docket No. 05-035-54.

A Technical Conference was held August 13, 2008 to allow parties the opportunity to comment on the DSM Potential Report. The Company has revised the Report and provided additional analysis for the comments that were agreed to at the Technical Conference. In addition, included in this filing are responses to questions received from parties prior to the Technical Conference.

In response to the filing of the Report, Rocky Mountain Power respectfully requests that the Commission acknowledge that the Company has satisfied Transaction Commitment No. 44(a) through an acknowledgement letter from the Commission.

If you have any questions or require further information, please call me at (801) 220-4907.

Sincerely,

Jeffery K. Larsen
Vice President, Regulation
