Public Service Commission
Underground Facilities Damage Dispute Board
3-30-2009

Dear Julie,

Thank you for your reply to my request for a hearing with the Underground Facilities Damage Dispute Board - Arbitration. We are pleased that this board has been formed to help contractors and utility companies resolve issues.

The reason that we are requesting a hearing is to resolve issues that we have been having with Comcast. They have been requiring the contractor, location company or homeowner, whoever is responsible for any damage to their facilities, to pay additional charges for future replacement of their facilities from their junction point to junction point, over and above the charges for the damage repairs.

We would like the Dispute Board to review this issue.

Thank you,

Robert Defries
