Re: In the Matter of the Notice of Proposed New Rule 746-700, Standards for Interconnection of Electrical Generating Facilities to Public Jurisdiction Under the Public Service Commission, Docket 09-R312-01; DAR File No. 32881; State Admin. Rule Filing Key: 148759; Utah Admin. Code Ref. (R no): R746-312-

Rocky Mountain Power hereby submits for filing an original and five (5) copies each of its proposed standard form agreements for: (1) Interconnection Facilities Study Agreement Level 3 Net Metering Interconnection Review; (2) Impact Study Agreement Level 3 Net Metering Interconnection Review; (3) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 1 Interconnection; (4) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 2 Interconnection; and (5) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 1 Interconnection.

These filings are being made in addition to Rocky Mountain Power's reply comments to the Commission's notice of proposed rule changes to interconnection of electric generating facilities pursuant to Utah Code Section 63G-3-301 and Subsection 53G-1-201(3)(c), which are being submitted separately. Rocky Mountain Power is not submitting for filing its standard form agreements for interconnection, which have already been approved for use by the Federal Energy Regulatory Commission.
