Re: Docket No. 06-999-03
Rocky Mountain Power's Fossil Fuel Energy Efficiency Standard Plan

On August 10, 2007, the Utah Commission issued its Determination Concerning the PURPA Fossil Fuel Generation Efficiency Standard and adopted the PURPA Fossil Fuel Generation Efficiency Standard with a due date of March 31 each year. A sample of the Rocky Mountain Power Fossil Fuel Energy Efficiency Standard Plan was provided to the Commission on May 21, 2008, and the first full report was provided March 31, 2009. On March 3, 2010, Rocky Mountain Power requested that the due date of the current and future reports be moved to May 1 each year. On March 25, 2010 that request was granted by the Utah Commission.

Enclosed for filing is the 2010 Rocky Mountain Power Fossil Fuel Energy Efficiency Standard for all coal fired plants. The report includes a heat rate improvement plan for the PacifiCorp system followed by individual plans for each coal fired plant. Heat rate improvement plans are still being developed for gas fueled plants and therefore are not included with this report. Also included is the summary of the 2009 FERC Form 1 data.

It is respectfully requested that all formal correspondence and staff requests regarding this filing be addressed to:

By e-mail (preferred): datarequest@pacificorp.com

By regular mail: Data Request Response Center
PacifiCorp
825 NE Multnomah, Suite 2000
Portland, Oregon, 97232

Informal questions should be directed to Dave Taylor at (801) 220-2923.
