Re: December 2009 Results of Operations Report, Net Power Cost Detail Report

Rocky Mountain Power's Results of Operations Report has traditionally provided a detailed report of normalized net power costs including unit costs of individual resources. The Results of Operations Report continues to contain summary net power cost information, however, the energy and unit cost information for certain contractual resources should remain confidential. Since this confidential information is no longer included in the Results of Operations, enclosed with this letter I am providing a confidential copy of the net power cost detail report for your information, separate from the non-confidential Results of Operations Report.

It is respectfully requested that this detailed information remain confidential in accordance with Public Service Commission of Utah Rule R746-100-16. If you have any questions, please contact me at (801) 220-4743 or Dave Taylor at (801) 220 - 2923.

Very truly yours,

Steven R. McDougal
Director, Regulation
