RECEIVED

Utah Public Service Commission
Heber M. Wells Building
P. O. Box 45585
Salt Lake City, UT 84145-0585

Dear Commissioners:

Questar Gas Company (Questar Gas or the Company) respectfully submits to the Utah Public Service Commission (Commission), pursuant to the order issued in Docket No. 08-057-22, dated September 21, 2009 (Order), an updated projection (Attachment 1) of the total DSM programs' expenses along with actual results (Energy Efficiency Report - Utah) thru November 30, 2009.

Attachment 1, Lines 1 thru 13, shows, by program, the actual cost for the first eleven months of 2009 and the projected costs for December 2009. Lines 16 thru 28 shows, by program, the first eleven months of actual ThermWise[®] participation as well as the projected participation for December 2009. Lines 31 thru 43 shows, by program, the deemed natural gas saving for the first eleven months of actual participation and the projected natural gas savings for December 2009.

As can be seen on Attachment 1, Column K, Row 13, the Company projects total 2009 ThermWise[®] spending to reach about \$47.4 million or 266% of the original 2009 Commission approved budget. These additional expenditures are directly related to higher than projected customer participation. The Company projects (Attachment 1, column K, row 28) total 2009 participation to reach about 147,000 customers or 237% of the original participation projection contained in the 2009 budget. This higher than expected customer participation will result in even greater natural gas savings. The Company projects (Attachment 1, column K, row 43) natural gas savings will reach nearly 865,000 Dth or 270% of the original 2009 Commission approved budget. Higher customer participation and natural gas savings rates will improve the overall cost effectiveness of the ThermWise[®] Programs.

Questar Gas also reports that in the month of November 2009 the ThermWise[®] Builder Rebates Program reached ninety percent of the 2009 program budget. Previous to this letter, the Company reported in letters dated March 25, 2009, June 30, 2009, and November 24, 2009 that the ThermWise[®] Weatherization, Multifamily, Home Energy Audit and Appliance programs had reached ninety percent of their respective 2009 program budgets. Attachment 2 (DSM Program Budget Variance Report) details the

expenditures and Dth savings through November 30, 2009, the 2009 Budget, and projections for spending and Dth savings for the full budget year and related percentages.

Questar Gas will continue to closely monitor customer participation, efficiently manage DSM spending, and report to the Commission actual spending for the year ended December 31, 2009.

Respectfully Submitted,

A handwritten signature in cursive script that reads "Barrie L. McKay". The signature is written in black ink and is positioned above the printed name.
