(Electric Light, Power Supply, Irrespective of Voltage, Overhead or Underground)

THIS LICENSE ("License"), made as of the ____ day of November, 2011 ("Effective Date") by and between **BNSF RAILWAY COMPANY**, a Delaware corporation ("Licensor") and **PACIFICORP**, an Oregon corporation ("Licensee").

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties agree to the following:

GENERAL

1. Licensor hereby grants Licensee a non-exclusive license, subject to all rights, interests, and estates of third parties including, without limitation, any leases, use rights, easements, liens or other encumbrances, and upon the terms and conditions set forth below, to construct, maintain, and use in strict accordance with the drawings and specifications approved by Licensor as part of Licensee's application process ("the Drawings and Specifications") an electric supply line containing a maximum of 1 conductor, together with its supporting or containing structures ("Electric Supply Line") across or along the premises of Licensor at or near the station of Parker, County of Yakima, State of Washington, Line Segment 0048, Mile Post 52.67, shown by bold line upon the print No. 3-52714, dated 9/15/2011 marked "Exhibit A", attached hereto and made a part hereof ("Premises").
2. Licensee shall not disturb any improvements of Licensor or Licensor's existing lessees, Licensees, easement beneficiaries or lien holders, if any, or interfere with the use of such improvements.
3. Licensee shall use the Premises solely for construction, maintenance, and use of an Electric Supply Line in accordance with the Drawings and Specifications. Licensee shall not use the Premises for any other purpose. Licensee shall not use or store hazardous substances, as defined by the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA") or petroleum or oil as defined by applicable Environmental Laws on the Premises.
4. In case of the eviction of Licensee by anyone owning or claiming title to or any interest in the Premises, Licensor shall not be liable to refund Licensee any compensation paid hereunder or for any damage Licensee sustains in connection therewith.
5. Any contractors or subcontractors performing work on the Electric Supply Line or entering the Premises on behalf of Licensee, shall be deemed servants and agents of Licensee for purposes of this License.

TERM

6. This License shall commence on the Effective Date and shall continue for a period of twenty-five (25) years, subject to prior termination as hereinafter described.

COMPENSATION

7. (a) Licensee shall pay Licensor, prior to the Effective Date, the sum of **TWO THOUSAND FIVE HUNDRED DOLLARS (\$2,500.00)** as compensation for the use of the Premises.
- (b) Licensee agrees to reimburse Licensor (within thirty (30) days after receipt of bills therefor) for all costs and expenses incurred by Licensor in connection with Licensee's use of the Premises or the presence, construction, maintenance, and use of the Electric Supply Line, including but not limited to the furnishing of Licensor's Flagman and any vehicle rental costs incurred. The cost of flagger services provided by the Railway, when deemed necessary by the Railway's representative, will be borne by the Licensee. The estimated cost for one (1) flagger is \$600.00 for an eight (8) hour basic day with time and one-half or double time for overtime, rest days and holidays. The estimated cost for each flagger includes vacation allowance, paid holidays, Railway and unemployment insurance, public liability and property damage insurance, health and welfare benefits, transportation, meals, lodging and supervision. Negotiations for Railway labor or collective bargaining agreements and rate changes authorized by appropriate Federal authorities may increase actual or estimated flagging rates. The flagging rate in effect at the time of performance by the Contractor hereunder will be used to calculate the actual costs of flagging pursuant to this paragraph.
- (c) All invoices are due thirty (30) days after the date of invoice. In the event that Licensee shall fail to pay any monies due to Licensor within thirty (30) days after the invoice date, then Licensee shall pay interest on such unpaid sum from thirty (30) days after its invoice date to the date of payment by Licensee at an annual rate equal to (i) the greater of (a) for the period January 1 through June 30, the prime rate last published in *The Wall Street Journal* in the preceding December plus two and one-half percent (2 1/2%), and for the period July 1 through December 31, the prime rate last published in *The Wall Street Journal* in the preceding June plus two and one-half percent (2 1/2%), or (b) twelve percent (12%), or (ii) the maximum rate permitted by law, whichever is less.

COMPLIANCE WITH LAWS

8. (a) Licensee shall observe and comply with any and all laws, statutes, regulations, ordinances, orders, covenants, restrictions, or decisions of any court of competent jurisdiction ("Legal Requirements") relating to the construction, maintenance and use of the Electric Supply Line and the use of the Premises.

- (b) Prior to entering the Premises, Licensee shall and shall cause its contractor to comply with all Licensor's applicable safety rules and regulations. Prior to commencing any work on the Premises, Licensee shall complete and shall require its contractor to complete the safety-training program at the following Internet Website "<http://contractororientation.com>". This training must be completed no more than one year in advance of Licensee's entry on the Premises.

DEFINITION OF COST AND EXPENSE

- 9. For the purpose of this License, "cost" or "costs" "expense" or "expenses" includes, but is not limited to, actual labor and material costs including all assignable additives, and material and supply costs at current value where used.

RIGHT OF LICENSOR TO USE

- 10. Licensor excepts and reserves the right, to be exercised by Licensor and any other parties who may obtain written permission or authority from Licensor:
 - (a) to maintain, renew, use, operate, change, modify and relocate any existing pipe, power, communication lines and appurtenances and other facilities or structures of like character upon, over, under or across the Premises;
 - (b) to construct, maintain, renew, use, operate, change, modify and relocate any tracks or additional facilities or structures upon, over, under or across the Premises; or
 - (c) to use the Premises in any manner as the Licensor in its sole discretion deems appropriate, provided Licensor uses all commercially reasonable efforts to avoid material interference with the use of the Premises by Licensee for the purpose specified in Section 3 above.

LICENSEE'S OPERATIONS

- 11.
 - (a) Licensee shall notify Licensor's Roadmaster, Andy Vulgas at 602 West 3rd Street, Ellensburg, WA 98926, telephone 206-625-6880, at least five (5) business days prior to construction of the Electric Supply Line and prior to entering the Premises for any subsequent maintenance thereon.
 - (b) In performing the work described in Section 3, Licensee shall use only public roadways to cross from one side of Licensor's tracks to the other.
- 12.
 - (a) Licensee shall, at its sole cost and expense, construct and at all times maintain the Electric Supply Line in accordance with the National Electric Code.
 - (b) If the operation or maintenance of said Electric Supply Line shall at any time cause interference, including but not limited to physical interference from

electromagnetic induction, electrostatic induction, or from stray or other currents, with the facilities of the Licensor or of any lessee or Licensee of the Licensor, or in any manner interfere with the operation, maintenance, or use by the Licensor of its right-of-way, tracks, structures, pole lines, signal and communication lines, radio, or other equipment, devices, other property or appurtenances thereto, Licensee agrees immediately to make such changes in its Electric Supply Line and furnish such protective devices and/or replacement equipment to Licensor and its lessees or Licensees as shall be necessary, in the judgement of the Licensor's representative, to eliminate such interference. The cost of such protective devices and their installations shall be borne solely by Licensee. If any of the interference covered by this paragraph shall be, in the judgement of the Licensor, of such importance to the safety of the Licensor's operations as to require immediate corrective action, Licensee, upon notice from the Licensor, shall either, at the Licensor's election, cease using said Electric Supply Line for any purpose whatsoever and remove same, or reduce the voltage or load on said Electric Supply Line, or take such other interim protective measures as the Licensor may deem advisable, until the protective devices and/or replacement equipment required by this paragraph have been installed, put in operation, tested, and found to be satisfactory to correct the interference.

13. (a) Under no conditions shall Licensee be permitted to conduct any tests, investigations or any other activity using mechanized equipment and/or machinery, or place or store any mechanized equipment, tools or other materials, within twenty-five (25) feet of the centerline of any railroad track on the Premises unless Licensee has obtained prior written approval from Licensor. Licensee shall, at its sole cost and expense, perform all activities on and about the Premises in such a manner as not at any time to be a source of danger to or interference with the existence or use of present or future tracks, roadbed or property of Licensor, or the safe operation and activities of Licensor. If ordered to cease using the Premises at any time by Licensor's personnel due to any hazardous condition, Licensee shall immediately do so. Notwithstanding the foregoing right of Licensor, the parties agree that Licensor has no duty or obligation to monitor Licensee's use of the Premises to determine the safe nature thereof, it being solely Licensee's responsibility to ensure that Licensee's use of the Premises is safe. Neither the exercise nor the failure by Licensor to exercise any rights granted in this Section will alter the liability allocation provided by this License.
- (b) Licensee shall, at its sole cost and expense, and subject to the supervision of Licensor's Roadmaster, locate, construct and maintain the Electric Supply Line in such a manner and of such material that it will not at any time be a source of danger to or interference with the existence or use of present or future tracks, roadbed or property of Licensor, or the safe operation and activities of its railroad. Further, the Electric Supply Line shall be constructed, installed and maintained in conformity with the plans and specifications shown on the print attached hereto as Exhibit A and made a part hereof (which, if present, are to be deemed part of the Drawings and Specifications). Licensor may direct one of its field engineers to

observe or inspect the construction and/or maintenance of the Electric Supply Line at any time for compliance with the Drawings and Specifications. If ordered at any time to halt construction or maintenance of the Electric Supply Line by Licensor's personnel due to non-compliance with the same or any other hazardous condition, Licensee shall immediately do so. Notwithstanding the foregoing right of Licensor, the parties agree that Licensor has no duty or obligation to observe or inspect, or to halt work on, the Electric Supply Line, it being solely Licensee's responsibility to ensure that the Electric Supply Line is constructed in strict accordance with the Drawings and Specifications and in a safe and workmanlike manner in compliance with all terms hereof. Neither the exercise nor the failure by Licensor to exercise any right granted by this Section will alter in any way the liability allocation provided by this License. If at any time Licensee shall, in the sole judgment of Licensor, fail to properly perform its obligations under this Section, Licensor may, at its option and at Licensee's sole expense, arrange for the performance of such work as it deems necessary for the safety of its operations and activities. Licensee shall promptly reimburse Licensor for all costs and expenses of such work, upon receipt of an invoice for the same. Licensor's failure to perform any obligations of Licensee shall not alter the liability allocation hereunder.

14. Licensee shall, at its sole cost and expense, remove all combustible material from around wooden poles and will at all times keep the space around such poles free of such material, and if removal of such combustible material shall not be attended to within fifteen (15) days after having been requested by Licensor to do so, Licensor shall have the right itself to perform the work and Licensee hereby agrees to reimburse Licensor for the expense so incurred.
15. During the construction and any subsequent maintenance performed on Electric Supply Line, Licensee shall perform such work in a manner to preclude damage to the property of Licensor, and preclude interference with the operation of its railroad. The construction of the Electric Supply Line shall be completed within one (1) year of the Effective Date. Upon completion of the construction of the Electric Supply Line and after performing any subsequent maintenance thereon, Licensee shall, at Licensee's own cost and expense, restore Licensor's premises to their former state as of the Effective Date of this License.
16. If at any time during the term of this License, Licensor shall desire the use of its rail corridor in such a manner as would, in Licensor's reasonable opinion, be interfered with by the Electric Supply Line, Licensee shall, at its sole expense, within thirty (30) days after receiving written notice from Licensor to such effect, make such changes in the Electric Supply Line as in the sole discretion of Licensor may be necessary to avoid interference with the proposed use of Licensor's rail corridor, including, without limitation, the relocation of the existing or the construction of new a Electric Supply Line.
17. (a) Prior to Licensee conducting any boring work on or about any portion of the Premises, Licensee shall explore the proposed location for such work with hand

tools to a depth of at least three (3) feet below the surface of the ground to determine whether pipelines or other structures exist below the surface, provided, however, that in lieu of the foregoing, the Licensee shall have the right to use suitable detection equipment or other generally accepted industry practice (e.g., consulting with the Underground Services Association) to determine the existence or location of pipelines and other subsurface structures prior to drilling or excavating with mechanized equipment. Upon Licensee's written request, which shall be made thirty (30) business days in advance of Licensee's requested construction of the Electric Supply Line, Licensor will provide Licensee any information that Licensor's Engineering Department has in its possession concerning the existence and approximate location of Licensor's underground utilities and pipelines at or near the vicinity of the proposed Electric Supply Line. Prior to conducting any such boring work, the Licensee will review all such material. Licensor does not warrant the accuracy of information relating to subsurface conditions and Licensee's operations will be subject at all times to the liability provisions herein.

- (b) For all bores greater than 26-inch diameter and at a depth less than 10.0 feet below bottom of rail, a soil investigation will need to be performed by the Licensee and reviewed by Licensor prior to construction. This study is to determine if granular material is present, and to prevent subsidence during the installation process. If the investigation determines in Licensor's reasonable opinion that granular material is present, Licensor may select a new location for Licensee's use, or may require Licensee to furnish for Licensor's review and approval, in its sole discretion a remedial plan to deal with the granular material. Once Licensor has approved any such remedial plan in writing, Licensee shall, at its sole cost and expense, carry out the approved plan in accordance with all terms thereof and hereof.
18. Any open hole, boring or well constructed on the Premises by Licensee shall be safely covered and secured at all times when Licensee is not working in the actual vicinity thereof. Following completion of that portion of the work, all holes or borings constructed on the Premises by Licensee shall be:
- (a) filled in to surrounding ground level with compacted bentonite grout; or
 - (b) otherwise secured or retired in accordance with any applicable Legal Requirement. All excavated materials shall not remain on Licensor's property for more than ten (10) days and shall be properly disposed of by Licensee in accordance with applicable Legal Requirements.
19. Upon termination of this License, Licensee shall, at its sole cost and expense:
- (a) remove all of its equipment from the Premises;
 - (b) remove the Electric Supply Line at Licensor's sole discretion;

- (c) report and restore any damage to the Premises arising from, growing out of, or connected with Licensee's use of the Premises;
 - (d) remedy any unsafe conditions on the Premises created or aggravated by Licensee; and
 - (e) leave the Premises in the condition which existed as of the Effective Date of this License.
20. Licensee's on-site supervision shall retain/maintain a fully-executed copy of this License at all times while on the Premises.

Other Requirements:

Where allowable by law, all policies (applying to coverage listed above) shall contain no exclusion for punitive damages and certificates of insurance shall reflect that no exclusion exists.

Licensee agrees to waive its right of recovery against Licensor for all claims and suits against Licensor. In addition, its insurers, through policy endorsement, waive their right of subrogation against Licensor for all claims and suits. The certificate of insurance must reflect waiver of subrogation endorsement. Licensee further waives its right of recovery, and its insurers also waive their right of subrogation against Licensor for loss of its owned or leased property or property under its care, custody or control.

Licensee's insurance policies through policy endorsement must include wording which states that the policy shall be primary and non-contributing with respect to any insurance carried by Licensor. The certificate of insurance must reflect that the above wording is included in evidenced policies.

All policy(ies) required above (excluding Workers Compensation and if applicable, Railroad Protective) shall include a severability of interest endorsement and shall name Licensor and Iron Horse Development, LLC as an additional insured with respect to work performed under this agreement. Severability of interest and naming Licensor and Iron Horse Development, LLC as additional insureds shall be indicated on the certificate of insurance.

Licensee is not allowed to self-insure without the prior written consent of Licensor. If granted by Licensor, any deductible, self-insured retention or other financial responsibility for claims shall be covered directly by Licensee in lieu of insurance. Any and all Licensor liabilities that would otherwise, in accordance with the provisions of this Agreement, be covered by Licensee's insurance will be covered as if Licensee elected not to include a deductible, self-insured retention, or other financial responsibility for claims.

Prior to commencing the Work, Licensee shall furnish to Licensor an acceptable certificate(s) of insurance including an original signature of the authorized representative evidencing the required coverage, endorsements, and amendments and referencing the contract audit/folder number if available. The policy(ies) shall contain a provision that obligates the insurance company(ies) issuing such policy(ies) to notify Licensor in writing at least 30 days prior to any cancellation, non-renewal, substitution or material alteration. This cancellation provision shall be indicated on the certificate of insurance. Upon request from Licensor, a certified duplicate original of any required policy shall be furnished.

Allocated Loss Expense shall be in addition to all policy limits for coverages referenced above.

Not more frequently than once every five years, Licenser may reasonably modify the required insurance coverage to reflect then-current risk management practices in the railroad industry and underwriting practices in the insurance industry.

If any portion of the operation is to be subcontracted by Licensee, Licensee shall require that the subcontractor shall provide and maintain insurance coverages as set forth herein, naming Licenser as an additional insured, and shall require that the subcontractor shall release, defend and indemnify Licenser to the same extent and under the same terms and conditions as Licensee is required to release, defend and indemnify Licenser herein.

Failure to provide evidence as required by this section shall entitle, but not require, Licenser to terminate this License immediately. Acceptance of a certificate that does not comply with this section shall not operate as a waiver of Licensee's obligations hereunder.

The fact that insurance (including, without limitation, self-insurance) is obtained by Licensee shall not be deemed to release or diminish the liability of Licensee including, without limitation, liability under the indemnity provisions of this License. Damages recoverable by Licenser shall not be limited by the amount of the required insurance coverage.

For purposes of this section, Licenser shall mean "Burlington Northern Santa Fe Corporation", "BNSF Railway Company" and the subsidiaries, successors, assigns and affiliates of each.

Licensee shall use the best efforts to

promptly respond to any release on or from the Premises. Licensee also shall give Licensors immediate notice of all measures undertaken on behalf of Licensee to investigate, remediate, respond to or otherwise cure such release or violation.

- (c) In the event that Licensors has notice from Licensee or otherwise of a release or violation of Environmental Laws arising in any way with respect to the Electric supply Line which occurred or may occur during the term of this License, Licensors may require Licensee, at Licensee's sole risk and expense, to take timely measures to investigate, remediate, respond to or otherwise cure such release or violation affecting the Premises or Licensors's right-of-way.
- (d) Licensee shall promptly report to Licensors in writing any conditions or activities upon the Premises known to Licensee which create a risk of harm to persons, property or the environment and shall take whatever action is necessary to prevent injury to persons or property arising out of such conditions or activities; provided, however, that Licensee's reporting to Licensors shall not relieve Licensee of any obligation whatsoever imposed on it by this License. Licensee shall promptly respond to Licensors's request for information regarding said conditions or activities.

ALTERATIONS

- 25. Licensee may not make any alterations to the Premises or permanently affix anything to the Premises or any buildings or other structures adjacent to the Premises without Licensors's prior written consent.

DEFAULT

28. If default shall be made in any of the covenants or agreements of Licensee contained in this document, or in case of any assignment or transfer of this License by operation of law, Licensors may, at its option, terminate this License by serving five (5) days' notice in writing upon Licensee. Any waiver by Licensors of any default or defaults shall not constitute a waiver of the right to terminate this License for any subsequent default or defaults, nor shall any such waiver in any way affect Licensors' ability to enforce any Section of this License. The remedy set forth in this Section 28 shall be in addition to, and not in limitation of, any other remedies that Licensors may have at law or in equity.

LIENS AND CHARGES

29. Licensee shall promptly pay and discharge any and all liens arising out of any construction, alterations or repairs done, suffered or permitted to be done by Licensee on Premises. Licensors is hereby authorized to post any notices or take any other action upon or with respect to Premises that is or may be permitted by law to prevent the attachment of any such liens to Premises; provided, however, that failure of Licensors to take any such action shall not relieve Licensee of any obligation or liability under this Section 29 or any other Section of this License. Licensee shall pay when due any taxes, assessments or other charges (collectively, "Taxes") levied or assessed upon the Improvements by any governmental or quasi-governmental body or any Taxes levied or assessed against Licensors or the Premises that are attributable to the Improvements.

This License may be terminated by Licensee upon execution of Licensors' Mutual Termination Letter Agreement then in effect. Upon expiration of the time specified in such notice, this License and all rights of Licensee shall absolutely cease.
31. If Licensee fails to surrender to Licensors the Premises, upon any termination of this License, all liabilities and obligations of Licensee hereunder shall continue in effect until the Premises are surrendered. Termination shall not release Licensee from any liability or obligation, whether of indemnity or otherwise, resulting from any events happening prior to the date of termination.

ASSIGNMENT

32. Neither Licensee, nor the heirs, legal representatives, successors, or assigns of Licensee, nor any subsequent assignee, shall assign or transfer this License or any interest herein, without the prior written consent and approval of Licensors, which may be withheld in Licensors' sole discretion.
