Subject: electrical billing

To Whom it may concern,

I am concerned that our electrical bills continue to go up when I continue to see so much advertising being done by Rocky Mountain Power on the TV. I'm sure it costs a lot to do all this advertising. If they would discontinue all that advertising and use that money to cover some of our electrical needs, it would be much better. Please consider this issue when agreeing to let Rocky Mountain Power continue to raise our electrical bills.

Alice Edvalson
