RE: In the Matter of Rulemaking for Service Reliability and Continuity Requirements for  
Electric Public Utilities – Docket No. 11-999-05

Dear Mr. Widerburg:

On January 7, 2013, In compliance with the new rule on service reliability and continuity requirements, R746-313, Rocky Mountain Power filed its proposed Utah service reliability performance baselines. In its review of filing the Division of Public Utilities expressed concerns about the methods proposed to be used in the determination of both the baselines and the notification targets. After discussing these concerns with Division, the Company agreed to revise its application. In accordance with that agreement, enclosed for filing are an original and ten copies of Rocky Mountain Power's proposed Utah service reliability performance baselines as revised.

The Company respectfully requests that all formal correspondence and requests for additional information regarding this filing be addressed to the following:
