Re: PacifiCorp Notice of Affiliate Transaction  
Docket No. 05-035-54

Dear Mr. Widerburg:

Pursuant to Commitment U3(2), incorporated in the Public Service Commission of Utah's *Report and Order* approving the *Acquisition of PacifiCorp by MidAmerican Energy Holdings Company*, issued January 27, 2006, as amended March 14, 2006, and June 5, 2006, Rocky Mountain Power hereby provides notice of an affiliate interest transaction. Filed concurrently as Attachment A is the Right of Way Easement ("Easement") between PacifiCorp (the "Company"), and BNSF Railway Company ("BNSF"), Tracking No. 12-45042.

PacifiCorp is a wholly-owned indirect subsidiary of MidAmerican Energy Holdings Company ("MEHC"). MEHC is a subsidiary of Berkshire Hathaway, Inc. BNSF is also a subsidiary of Berkshire Hathaway, Inc. Therefore, Berkshire Hathaway, Inc.'s ownership interest in MEHC and BNSF may create an affiliated interest in some PacifiCorp jurisdictions.

PacifiCorp provides retail electric service to BNSF's rail yard located in Klamath Falls, Oregon. BNSF desires to upgrade its service, which will require the installation of a 12 kilovolt overhead distribution line over 145 longitudinal feet of BNSF's property. Without the Easement, the Company's ability to provide adequate, safe and reliable service to its customers would be diminished.

Typically BNSF charges \$3,000 to \$5,000 for agreements of this nature. However, because the Easement is needed so that the Company can provide electric service to BNSF, there will be no charge for the Easement.

Obtaining the Easement is in the public interest because it allows the Company to install and maintain facilities necessary to provide electric service and to meet its obligation to provide safe and reliable electric service. Not having the Easement would mean that PacifiCorp would not be able to meet its obligation to provide electric service. As the property owner, BNSF is the only entity that can provide this Easement to the Company.
