Re: Notice of Sole Source Contract with General Electric International

Commissioners:

In accordance with the Company's procurement policy, we hereby notify you that PacifiCorp has entered into a sole source contract with General Electric, which exceeds \$500,000. The contract with General Electric is associated with the November 16, 2011 outage of Huntington Unit 1. The contract for the generator inspection and testing has a cost of \$713,217.

On November 16, 2011 at 3:30 pm the transformer at Huntington caught fire and was destroyed. This required emergency support to get the generator back on line by December 2, 2011. General Electric was onsite at the time eliminating mobilization and demobilization charges and was able to perform a thorough inspection of the generator for Huntington Unit 1 before it was brought back online.

This sole source contract was authorized by Dana Ralston, Vice President, Generation, on December 28, 2011.

If you have any questions, please feel free to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen
Vice President, Regulation & Government Affairs
