Re: Notice of Sole Source Contract with Nationwide Boiler, Inc.

Commissioners:

In accordance with the Company's procurement policy, we hereby notify you that PacifiCorp has entered into a sole source change order in a contract with Nationwide Boiler, Inc. The estimated value of the change order is \$294,000 bringing the total contract costs to \$844,800.

On August 1, 2011, the electrical generator at the Little Mountain plant experienced a catastrophic electrical fault. In addition to providing electrical generation to Rocky Mountain Power, the combustion turbine and heat recovery system provided steam to Great Salt Lake Minerals Company. To provide a temporary source of steam to GSLM a trailer mounted boiler system was leased from Nationwide Boiler. A second trailer mounted boiler is now required to meet GSLM's 100,000 pounds per hour steam requirement. The change order also extends the lease through February 28, 2013.

This sole source procurement contract was authorized on October 30, 2012 by Dana Ralston, Vice President, Generation.

If you have any questions, please feel free to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen
Vice President, Regulation & Government Affairs
