Re: PacifiCorp Notice of Affiliate Transaction
Docket No. 05-035-54

Dear Mr. Widerburg:

Pursuant to Commitment U3(2), incorporated in the Public Service Commission of Utah's *Report and Order* approving the *Acquisition of PacifiCorp by MidAmerican Energy Holdings Company*, issued January 27, 2006, as amended March 14, 2006, and June 5, 2006, Rocky Mountain Power hereby provides notice of an affiliate interest transaction with Marmon Utility, LLC (Hendrix), for the purchase of certain "spacer cable" needed for installation on PacifiCorp's Tule Lake Circuit 5L82 in California. A copy of the Project Proposal is included as Attachment A.

PacifiCorp is a wholly-owned indirect subsidiary of MEHC. MEHC is a subsidiary of Berkshire Hathaway, Inc (Berkshire Hathaway). As of March 31, 2010, Warren E. Buffet (an individual who may be deemed to control Berkshire Hathaway), Berkshire Hathaway, various subsidiaries of Berkshire Hathaway and various employee benefit plans of Berkshire Hathaway subsidiaries together held an interest in excess of 5 percent in the Marmon Group. Therefore, Berkshire Hathaway's ownership interest in the Marmon Group may create an affiliated interest in some PacifiCorp jurisdictions.

Hendrix manufactures electrical distribution cable, cable systems, and accessories for aerial and underground utility applications. Among the items manufactured by Hendrix is covered "spacer cable." Spacer cable is designed to be resilient to incidental contact (e.g. fallen trees and limbs), have increased strength in the event of impact loads, and be tolerant to transient events such as lightning. The Company intends to use such spacer cable for part of its California Reliability Project, which is designed to increase service reliability. The Company intends to install approximately 5.8 miles of spacer cable on Tule Lake 5L82 in a wild life refuge area with a history of bird strikes.

Gary Widerburg
Notice of Affiliate Transaction
July 1, 2013

Using the spacer cable should improve reliability to customers. Hendrix is the only known manufacturer of this product and the material is proprietary. Purchasing the spacer cable is in the public interest as part of the Company's commitment to providing safe and reliable electric service.

PacifiCorp anticipates spending approximately \$207,000 based on the Project Proposal included as Attachment A. This includes materials, engineering and design assistance, and onsite field assistance of seven days divided between two weeks. The amount may be reduced by \$8,400 if the second week of field assistance is not required.

Please do not hesitate to contact me if you have any questions.

Best Regards,

A handwritten signature in blue ink that reads "Mark C. Moench". The signature is fluid and cursive, with a long horizontal stroke at the end.
