**Re: Notice of Sole Source Contract with Nationwide Boiler, Inc.**

Commissioners:

In accordance with the Company's procurement policy, we hereby notify you that PacifiCorp has entered into a sole source change order in a contract with Nationwide Boiler, Inc. The estimated value of the change order is \$48,000 bringing the total contract costs to \$562,400.

On August 1, 2011, the electrical generator at the Little Mountain plant experienced a catastrophic electrical fault. In addition to providing electrical generation to Rocky Mountain Power, the combustion turbine and heat recovery system provided steam to Great Salt Lake Minerals Company. To provide a temporary source of steam to GSLM a trailer mounted boiler system was leased from Nationwide Boiler. This is the fourth change order to the rental contract and extends the lease through May 31, 2013.

This sole source procurement contract was authorized on April 9, 2013 by Dana Ralston, Vice President, Generation.

If you have any questions, please feel free to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen  
Vice President, Regulation and Government Affairs
