Re: Notice of Sole Source Contract with iTron

Commissioners:

In accordance with the Company's procurement policy, we hereby notify you that PacifiCorp has entered into a sole source extension of a contract with iTron. The estimated value of the contract is estimated to be \$1,176,623.

PacifiCorp has contracted with iTron to provide meter reader hardware and software. The iTron hardware and software is used by the metering department to capture meter readings used for retail customers invoicing and collection of load study information. The iTron software is currently being upgraded to the most current fully supported version. This software upgrade necessitates the replacement of existing iTron FC200 metering reading handheld devices with the most current and fully supported handheld device, the iTron FC300. iTron is the only supplier of the FC300 and there are no other compatible devices on the market.

This sole source procurement contract was authorized on June 3, 2013 by Pat Reiten, President, Pacific Power.

If you have any questions, please feel free to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen
Vice President, Regulation & Government Affairs
