To: psc@utah.gov

**Hello.**

**I want to know why utilities who want to raise their rates do not POST BONDS like they used to. After the bond is paid off, the rates return to previous levels.**

**The current raise they want is to BUILD NEW POWER PLANTS and whatever goes along with this.**

**PLEASE STOP THIS RAISE AND INSIST THAT THEY POST A BOND. Once they get these raises, they never go back down where they should be.**

**This is shameful and I want it stopped.**

**The WATER DISTRICT got their raise over ten years ago to build the water project/pump to alleviate flooding. Then they got another raise because we went into a drought years after that. Water used to be the least expensive utility we had...NOW, IT IS THE MOST EXPENSIVE and still rising. WHY?**

**Please respond to my e-mail. Please let me know the process of going before your committees. I am very unhappy with all these utility increases.**

**Thanks.**

**Brenda Phillips**
