**Re: Notice of Sole Source Contract with Siemens Energy, Inc.**

Commissioners:

In accordance with the Company's procurement policy, we hereby notify you that PacifiCorp has entered into a sole source contract with Siemens Energy, Inc. which exceeds \$500,000. The contract has an estimated cost of \$625,975.

In May 2013, Siemens Energy was engaged by PacifiCorp to perform an inspection and possible repairs on the combustion turbine 12 at the Lakeside plant. As a result of the initial inspection it was determined that it was necessary to complete a turbine cover lift and removal of blade rings for further inspection which resulted in the replacement of row 2 through 4 blade rings. In addition it was necessary to install one Inner State Seal Housing (ISSH) in Unit 12.

Siemens is the original equipment manufacturer and is under contract as the long term parts and service provider for the Lakeside plant. Siemens is the only provider that can perform the needed inspection and repairs.

The sole source procurement contract was authorized on August 6, 2013, by Dana Ralston, Vice President Generation.

If you have any questions, please feel free to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen  
Vice President, Regulation & Government Affairs
