Salt Lake City, UT 84114-6751

RECEIVED

Dear Chris:

Attached please find a copy of the Energy Efficiency Report for the year ended December 31, 2013. This report was designed and prepared based on recommendations from the DPU and Questar Gas for the purpose of providing timely information on Questar Gas' energy-efficiency programs and to assist the Division in monitoring and reporting the status of these programs. The report provides fourth quarter and year-to-date information on participants, costs, and natural gas savings for the Company's energy-efficiency programs.

Spending for the 2013 program year totaled \$28.98 million or 94% of the \$31 million Commission approved ThermWise® budget. Actual expenditures in the Appliance, Business Custom, Home Energy Plan, Weatherization, and Low Income Weatherization programs were lower than budgeted due to lower than expected participation. The market transformation expenditures were also lower than expected (67% of budget) in 2013. This was primarily due to lower than projected marketing expenses and development costs for Energy Comparison Report. The Builder program had expenditures of \$3.15 million which totaled 114% of the 2013 budget. The Business program had expenditures of \$1.93 million or 121% of the 2013 budget. In total, rebate dollars accounted for nearly 79% of total ThermWise® spending in 2013 (74% in 2013 budget) and resulted in annual natural gas savings* of 637,349 decatherms.

If you have any questions, or if we can provide additional information, please contact me.

Sincerely,

Barrie L. McKay

cc: Doug Wheelwright, DPU
Public Service Commission
Office of Consumer Services

*Reflects an approximate 20% reduction in annual Dth savings for freeridership
