Hello,

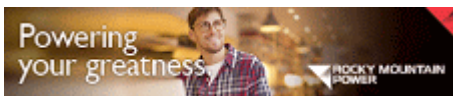

I wanted to make you aware of Rocky Mountain Power's upcoming Beck Street Transmission Line project that is scheduled to begin in September 2019 (completed March 2020). Attached is some information on the project that will be provided to our customers in the area. Official outreach will begin on April 22, 2019 which includes the company knocking on the doors of the customers in the area. We are still working on finalizing some of the details so the information in this document will not be final until April 19, 2019. We would be happy to meet to provide additional information and answer questions about the project if that would be helpful.

Thanks,

Jana Saba
Regulatory Affairs Manager
Rocky Mountain Power
