Commissioners,

On July 25, 2023, The Division of Public Utilities (“Division”) filed a recommendation with the Public Service Commission (“Commission”) which recommended that the Commission order a technical conference with the electrical cooperatives for clarifications to be discussed regarding Rules 746-312-16 and 746-313-7.

The Utah Rural Electric Cooperative Association (“URECA”), on behalf of the electric cooperative companies in Utah, agrees with the Division’s July 25 recommendation to the Commission. We look forward to working with the Commission to schedule a technical conference to discuss the reporting requirements as they pertain to URECA cooperative members.

Below are some upcoming dates that would work for myself and Jeff Peterson, Deseret Power. Would any of the following dates be amenable for the Commission to hold the technical conference?

September 12

September 25

October 3

Respectfully,

Nathaniel
