To: "psc@utah.gov" <psc@utah.gov>

I demand a freeze on any and all pay rate increases until a point and time when all equipment including transmission lines have been upgraded with modern and mor effective equipment. If rocky mountain power is unwilling or incapable of filling their duties without any public financial assistance then we must seek any and all alternatives including but not limited to doing away with the monopoly they have in our community and opening up and allowing other companies willing to take on the responsibility. Clearly Rocky Mountain Power is over their head and incapable of servicing the citizens of Utah. And we deserve more then to be expected to go without power for up to days because of rocky mountain Power's unpreparedness which has been proven time and time again. ANY government officials that receive bribes in exchange for support needs to be removed from office asap. It's time to think of the citizens of Utah over rocky mountain powers best interest.
