Dear Emergency and Public Officials,

Recently, Marathon Pipe Line LLC (MPL) assumed operatorship of two petroleum pipeline systems in your community from the previous operator, Tesoro Logistics Operations LLC/Andeavor Logistics LP. These pipeline systems range from 4" to 16" in diameter and transport crude oil and petroleum products throughout Salt Lake City, Utah and petroleum products from Salt Lake City, Utah to Spokane, Washington.

MPL transports and controls the flow of crude oil, petroleum products, and natural gas through approximately 10,000 miles of underground pipelines in 25 states. The flow through these pipeline systems is controlled and monitored 24 hours a day, seven days a week at our pipeline operations center in San Antonio, Texas.

If you have questions or would like additional information, please contact the MPL representative listed below:

Justin Merrell – Area Manager
Phone: 801.596.4762
jrmerrell@marathonpetroleum.com

In case of a pipeline emergency, please contact MPL's 24/7 emergency phone number, 1.833.MPL.1234 (1.833.675.1234). To view an interactive map of MPL-operated pipeline systems, as well as products transported, diameter and operating pressure, download the FREE Marathon Pipeline Finder app from the App Store or Google Play Store, or visit www.marathonpipeline.com.

Sincerely,

A handwritten signature in black ink that reads "Jeff Weirich".

Jeff Weirich
Emergency Preparedness & Safety Supervisor
