Re: PacifiCorp Notice of Affiliate Transaction — PacifiCorp and BHE Wind, LLC  
Docket No. 05-035-54

Dear Mr. Widerburg:

Pursuant to Commitment U3(2), incorporated in the Public Service Commission of Utah's *Report and Order* approving the *Acquisition of PacifiCorp by MidAmerican Energy Holdings Company*, issued January 27, 2006, as amended March 14, 2006, and June 5, 2006, PacifiCorp hereby provides notice of an affiliated interest transaction with BHE Wind, LLC (BHE Wind).

PacifiCorp will be selling wind turbine equipment to BHE Wind. A verified copy of the Purchase and Sale Agreement and Bill of Sale (Agreements) are included with this Notice as Confidential Attachment A and Attachment B. PacifiCorp provides both confidential attachments subject to R746-1-601–605 of the Utah Public Service Commission Rules. This confidential business information is of significant commercial value, which could expose PacifiCorp to competitive injury and/or the potential for commercial fraud against PacifiCorp if disclosure is unrestricted. Therefore, PacifiCorp requests confidential treatment on the basis that the documents contain valuable commercial information, including confidential marketing, cost, and financial information.

PacifiCorp is a wholly-owned subsidiary of Berkshire Hathaway Energy Company (BHE). BHE Renewables, LLC (BHER) is also a wholly-owned subsidiary of BHE. BHE Wind is a wholly owned subsidiary of BHER. Therefore, BHE's ownership interest in PacifiCorp and BHE Wind creates an affiliate interest relationship between PacifiCorp and BHE Wind.

Based in Phoenix, Arizona, BHE Wind owns wind projects that produce energy for both the wholesale market and for customers under long-term power agreements. PacifiCorp is

transferring certain wind turbine equipment to BHE Wind to enable a project that BHE Wind is developing to qualify for production tax credits (PTCs).

General Electric turbine equipment will be transferred from PacifiCorp to BHE Wind by a purchase and sale agreement priced at PacifiCorp's cost. This equipment is not necessary for the construction or safe harbor of PacifiCorp's recently developed wind projects and PacifiCorp has no additional projects to which the equipment could be deployed in order to qualify such project for PTCs. Furthermore, the transfer of this surplus equipment, which has not been placed in service for PacifiCorp, will benefit customers by ceasing the continued accrual of costs for storage, maintenance, and allowance of funds used during construction on PacifiCorp's books before the equipment could be incorporated into a potential future wind energy project.

Please do not hesitate to contact me if you have any questions.

Sincerely,
