Operator Guidance for Contractor/Subcontractor MIS Report Filing and Processing

Step 1: If the operator utilized any contractors and/or subcontractors and listed them in DAMIS for 2021, print their log-in user names and passwords for use in electronically entering each contractors and/or subcontractors MIS data. This contractor log-in information will be used by either the operator or its designee.

Step 2: Operators must review the entered contractor/subcontractor MIS data and then either accept or reject it. This action indicates to the DAMIS system to consider this data as either complete (i.e., "Signed, Accepted by Operator") or problematic (i.e., "Rejected by Operator"). Operators must notify contractors/subcontractors if their data has been rejected so that the appropriate corrections can be made and the corrected data resubmit for operator review. Please note that the operator has the ultimate responsibility for timely reporting of all MIS data and accountability for the accuracy of entered data.

Note: Individual Primary Operator, Business Unit, and Contractor signed MIS reports are required to be kept for 5 years in accordance with 49 CFR Part 199.227. Summary report may assist in PHMSA audit proceedings.

Status

Company Name	Type	Data	Status	Change Status	User Name / Password
You are an operator. Each operator is responsible for ensuring the accuracy and timeliness of each MIS report submitted.					
HOLLY ENERGY PARTNERS - OPERATING, L.P. Artesia, NM	PHMSA Primary Operator	The data has been submitted. You will have to re-sign if you make changes.
