Mr. Delaney:

I am writing to follow up on this matter. Attached is additional correspondence from Director Chris Parker of the Utah Department of Commerce's Division of Public Utilities ("Division") regarding the above-referenced proposed carrier traffic exchange arrangement. Consistent with Mr. Parker's conclusion in the letter that neither the Division nor the Utah Public Service Commission regulates the type of transport services contemplated by proposed Comcast-Lumen arrangement, we respectfully submit that there is no necessity for the parties to file an interconnection agreement in this circumstance.

Please indicate if you concur with the Division's conclusion, have any questions or require additional information. We greatly appreciate your attention to this matter.

Sincerely,

Mark

Mr. Brown,

Based on input from the Utah Division of Public Utilities (DPU) regarding your submission with the Public Service Commission (PSC) dated November 10, 2023, the parties to the interconnection agreement(s), or other contract(s), should file the interconnection agreement(s) with the PSC so that further analysis may be conducted, as appropriate.

Thank you,

John Delaney
