RE: VoIP Service to Eagle Mountain

Ms. Somers,

I am following up on our conversation about Comcast's plan to provide VoIP service to Eagle Mountain, Utah. My understanding of the plan is based on the November 14, 2023, Comcast IP Phone, LLC ("Comcast") filing with the Public Service Commission indicating Comcast's plan to indirectly exchange local voice traffic with Direct Communications Cedar Valley, LLC ("Direct") to provide these services. This would also use facilities and services from Qwest Corporation d/b/a CenturyLink QC ("Lumen"). I see no statutory issues with Lumen providing these services because the services are merely transport, not local exchange services to end customers. Neither the Division nor the Commission regulates the provision of those wholesale services in this context.

I hope this helps. Please let me know if you have any questions or need anything further. Thanks,

Chris Parker
