Hi,

In accordance with the Federal Communication Commission's Lifeline Reform Order and 47 CFR 54.416(b), TracFone Wireless Inc. submitted its 2023 FCC Form 555 Report for Utah in January, 2024. We have identified data errors that require us to resubmit a revised version for filing in docket #25-999-04, which is attached. We have also filed the corrected certification with the Federal Communications Commission.

Please accept this revised report with our apologies. Please let us know if you have any questions.

Thank you,  
Sylvia
