Thank you for contacting Blue Stakes of Utah 811! This is an automated electronic positive response (EPR) confirmation for the locate request ticket number listed below. It contains the EPR responses from the member facility operators who received notice of your excavation.

EPR is voluntary for facility operators in Utah. An EPR code of "999 - VOLUNTARY ELECTRONIC POSITIVE RESPONSE (EPR) NOT POSTED BY MEMBER FACILITY OPERATOR" will be applied to the locate request if no voluntary EPR response is posted by the member facility operator. A 999 EPR code on the Locate Request means that the member facility operator did not post a response through EPR at this time. Please confirm if markings are present on site or have been cleared by the member facility operator before submitting a No Response Notice (NRSP) due to this 999 EPR code.

For your safety, please respect and protect the marks, excavate carefully around the marked facility lines, and contact Blue Stakes if you are concerned there may be unmarked facilities.

For additional information about EPR visit: <https://www.bluestakes.org/epr/>
