**BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH**

---

**IN THE MATTER OF  
QWEST CORPORATION'S LAND  
DEVELOPMENT AGREEMENTS (LDA)  
TARIFF PROVISIONS**

**Docket No. 03-049-62  
HALL ENGINEERING  
& CONSTRUCTION  
PETITION TO INTERVENE**

---

Pursuant to Utah Code Ann. § 63-46b-9 and Utah Admin. Rule 746-100-7, Hall Engineering & Construction respectfully petitions the Public Service Commission of Utah (the "Commission") for leave to intervene in the above-captioned proceeding concerning Qwest Corporation's Land Development Agreements tariff provisions in the state of Utah. In support of its petition, Hall Engineering & Construction represents and states as follows:

1. Hall Engineering & Construction is a Developer/ Home Builder, developing and building over 50-150 homes per year in residential subdivisions throughout the state of Utah and specifically along the Wasatch Front.
2. As a Developer/ Home Builder, Hall Engineering & Construction is required by law to provide utilities, including telephone service, to the building lots we develop and /or the homes we build in Utah. The outcome of Qwest Corporation's LDA Tariff docket could result in significant added costs to consumers. This is due to increased

development and home building time, caused by slow response time to project timetables on the part of telephone and other utilities to Hall Engineering & Construction. Thus, the legal interests of Hall Engineering & Construction could be directly affected by the outcome of this proceeding.

3. The interests of justice and the orderly and prompt conduct of this proceeding will not be impaired by allowing Hall Engineering & Construction to intervene.

WHEREFORE, Hall Engineering & Construction respectfully requests that the Commission enter an Order granting Hall Engineering & Construction Petition to Intervene as a party in this docket, allowing Hall Engineering & Construction to participate to the full extent allowed by the rules of the Commission and by Utah Law.

RESPECTFULLY SUBMITTED this \_\_\_\_\_ day of \_\_\_\_\_, 2004.

Hall Engineering & Construction
