Local Interconnection – Facility Based Competitive Local Exchange Carriers (CLECs) V 6.0

[History Log](#)

If you are a Qwest Interconnection – Facility Based Competitive Local Exchange Carrier (CLEC) customer, use the menus below to find Product, Service and Business Procedure information.

New Customers

If you are new to the interconnection business, and considering interconnecting with Qwest as a CLEC within our [14-state local service territory](#), you have two choices as to how we conduct business based on the following criteria:

Interconnection - Facility Based CLECs provide local telecommunication products and services via their own switches and network facilities to their business and residential end-users. I want to do business as an Interconnection - Facility Based CLEC - [Let's Get Started!](#)

External Documentation Requests Process & CLEC External Process Clarification Request

Would you like Qwest to clarify language about an existing process? Is there an existing process that you need to see documented? Or, do you need to notify Qwest about an unintentional change to an undocumented or documented existing process?

The screenshot shows a Windows Internet Explorer browser window displaying the Qwest Wholesale website. The address bar shows the URL: <http://www.qwest.com/wholesale/clecs/sgatswireline.html>. The page features a blue header with the Qwest logo and navigation tabs for WHOLESALE, PRODUCTS & SERVICES, CUSTOMER SERVICE, and MANAGE MY ACCOUNT. Below the header, there is a navigation menu with links for Commercial Local Exchange, GET, ILECs/ICOs, IXCs, Interconnection, ISPs/ESPs, Resale, TRRO, Wireless, and View All. The main content area is titled "WHOLESALE" and includes a "CONTACT US" button. The page is divided into sections: "Local Business Procedures" (with links to view more local resale and interconnection procedures), "Negotiations Template Agreement (NTA)" (with a "History Log" link), "Multi-state Negotiation Interconnection Agreement" (with a description of the template and a dropdown menu to "Select Negotiations Template Agreement"), "Quick Links" (with categories for Agreements, Amendments, and SGATs), and "Additional Exhibits" (with a dropdown menu to "Select an Exhibit"). The browser's taskbar at the bottom shows the Start button, several open applications, and the system clock indicating 11:22 AM.

Qwest Non-Impaired Wired Center Lists for Loops and Dedicated Transport

The FCC's Triennial Review Remand Order (TRRO), FCC 04-290 (WC Docket No. 04-313 and CC Docket No. 01-338) released February 4, 2005, modified the rules under which Qwest is required to offer DS1, DS3, and dark fiber loops and transport as Unbundled Network Elements (UNEs) pursuant to section 251(c)(3) of the Communications Act of 1934, as amended. The FCC found that CLECs are not impaired without DS1 and DS3 loops in wire centers that meet certain criteria, and they are not impaired without DS1, DS3, and dark fiber between wire centers that meet other criteria. See 47 U.S.C. §§ 51.319(a)(4) (DS1 loops), 51.319(a)(5) (DS3 loops), 51.319(e)(2)(ii) (dedicated DS1 transport), 51.319(e)(2)(iii) (dedicated DS3 transport), 51.319(e)(2)(iv) (dark fiber transport). CLECs are not impaired without dark fiber loops in any location. See 47 U.S.C. § 51.319(a)(6).

The attached lists identify those Qwest wire centers that meet the non-impairment criteria established in the TRRO for DS1 and DS3 loops and DS1, DS3, and dark fiber transport.
