SECTION 1.0 - GENERAL TERMS

1.1 Intentionally Left Blank.

1.2 This Agreement is effective upon the approval of the Commission, and is between Eschelon Telecom of Utah, Inc (a "Competitive Local Exchange Carrier" or "CLEC"), a Minnesota corporation that has submitted a request, pursuant to this Agreement, to obtain Interconnection, access to Unbundled Network Elements, ancillary services, or resale of Telecommunications Services, and Qwest Corporation ("Qwest"), a Colorado corporation, pursuant to Section 252 of the Telecommunications Act of 1996, for each Party's particular purposes, including Qwest's purposes of fulfilling Qwest's obligations under Sections 222, 251(a), (b), and (c), 252, 271, and other relevant provisions of the Act and the rules and regulations promulgated thereunder. This Agreement is between CLEC and Qwest the Local Exchange Carrier, and not Qwest in its capacity as an Interexchange Carrier (IXC).

1.3 This Agreement sets forth the terms, conditions and pricing under which Qwest will offer and provide to any requesting CLEC network Interconnection, access to Unbundled Network Elements ("UNEs"), Ancillary Services and Telecommunications Services available for resale within the geographical areas in which both Parties are providing local Exchange Service at that time, and for which Qwest is the incumbent Local Exchange Carrier within the state of Utah (the "State") for purposes of providing local Telecommunications Services. Qwest shall provide such Interconnection, UNEs, Ancillary Services and Telecommunications Services on rates, terms, and conditions that are just, reasonable, and nondiscriminatory in accordance with the terms and conditions of this Agreement and the requirements of the Act and state law and the rules and regulations promulgated thereunder. This Agreement is available for the term set forth herein.

1.4 Intentionally Left Blank.

1.5 Intentionally Left Blank.

1.6 Intentionally Left Blank.

1.7 This Agreement can only be amended in writing, executed by the duly authorized representatives of the Parties as further set forth in this Agreement.

1.7.1 If the Commission orders, or Qwest chooses to offer and CLEC desires to purchase new Interconnection services, access to additional Unbundled Network Elements (UNEs), additional Ancillary Services or Telecommunications Services available for resale which are not contained in the Statement of Generally Available Terms and Conditions (SGAT) or a Tariff, Qwest will notify CLEC of the availability of these new services through the Change Management Process (CMP). CLEC must first complete the relevant section(s) of the applicable product questionnaire to establish ordering and Billing processes. In addition, the Parties shall amend this Agreement under one (1) of the following two (2) options:

1.7.1.1 If CLEC is prepared to accept Qwest's terms and conditions for such new product, CLEC shall execute a form Advice Adoption Letter (the form of which is attached hereto as Exhibit L), to be furnished by Qwest, and include as an attachment, the discreet terms and conditions available on Qwest's wholesale web site, that Qwest has identified as pertaining to the new product. CLEC shall submit the Advice Adoption Letter to the Commission for its approval. CLEC shall also provide the Advice Adoption Letter to Qwest pursuant to the

notice provisions in this Agreement and may begin ordering the new product pursuant to the terms of this Agreement as amended by such Advice Adoption Letter.

1.7.1.2 If CLEC wishes to negotiate an amendment with different terms and conditions than defined by Qwest for such new product, CLEC agrees to abide by those terms and conditions on an interim basis by executing the Interim Advice Adoption Letter (the form of which is attached hereto as Exhibit M) based upon the terms and conditions available on Qwest's wholesale web site that Qwest has identified as pertaining to the new product. The Interim Advice Adoption Letter will terminate when the final amendment is approved. The rates, and to the extent practicable, other terms and conditions contained in the final amendment will relate back to the date the Interim Advice Adoption Letter was executed. No new product offering or accompanying Interim Advice Adoption Letter will be construed to limit or add to any rates, terms or conditions existing in this Agreement.

1.7.2 Notwithstanding any other provision in this Agreement, the attached Exhibit C will be modified pursuant to the Change Management Process ("CMP") without requiring the execution of an amendment.

1.8 The Parties shall comply with Section 252(i) of the Act and any related FCC rule(s).

1.9 If at any time while this Agreement is in effect, Qwest provides, pursuant to the terms of any effective Tariff, services, Interconnection or Network Elements at rates, terms, or conditions different from those available under this Agreement, then CLEC may, at its discretion, substitute the Tariff's rates, terms and conditions in whole or in part, in place of the relevant rates, terms and conditions in this Agreement. CLEC may exercise this option by following the process set forth in Section 1.8 of this Agreement. CLEC's election of Tariff terms shall be handled pursuant to the same rules governing adoption of Interconnection Agreement terms pursuant to Section 252(i) of the Act.

1.9.1 Separate from such adoption, CLEC may choose to place orders from a Qwest Tariff. If CLEC does so, but does not choose to incorporate such Tariff terms into this Agreement, such orders shall be governed by the Tariff terms and conditions. When ordering from a Qwest Tariff, if the ordering process used by CLEC and the information contained in the order are both the same as for orders placed under this Agreement, Qwest may not be able to recognize that the order is made under a Qwest Tariff. If Qwest is not able to recognize that distinction, CLEC and Qwest will mutually agree to a process by which CLEC orders placed under a Qwest Tariff can be distinguished by Qwest as being placed under a Qwest Tariff rather than under this Agreement.

In consideration of the mutual promises contained herein and other good and valuable consideration, the Parties agree as follows:

SECTION 2.0 - INTERPRETATION AND CONSTRUCTION

2.1 This Agreement includes this Agreement and all Exhibits appended hereto, each of which is hereby incorporated by reference in this Agreement and made a part hereof. All references to Sections and Exhibits shall be deemed to be references to Sections of, and Exhibits to, this Agreement unless the context shall otherwise require. The headings and numbering of Sections and Exhibits used in this Agreement are for convenience only and will not be construed to define or limit any of the terms in this Agreement or affect the meaning and interpretation of this Agreement. Unless the context shall otherwise require, any reference to any statute, regulation, rule, Tariff, technical reference, technical publication, or any publication of Telecommunications industry administrative or technical standards, shall be deemed to be a reference to the most recent version or edition (including any amendments, supplements, addenda, or successors) of that statute, regulation, rule, Tariff, technical reference, technical publication, or any publication of Telecommunications industry administrative or technical standards that is in effect. Provided however, that nothing in this Section 2.1 shall be deemed or considered to limit or amend the provisions of Section 2.2. In the event a change in a law, rule, regulation or interpretation thereof would materially change this Agreement, the terms of Section 2.2 shall prevail over the terms of this Section 2.1. In the case of any material change, any reference in this Agreement to such law, rule, regulation or interpretation thereof will be to such law, rule, regulation or interpretation thereof in effect immediately prior to such change until the processes set forth in Section 2.2 are implemented. The existing configuration of either Party's network may not be in compliance with the latest release of technical references, technical publications, or publications of Telecommunications industry administrative or technical standards.

2.1.1 At various places in this Agreement, there are references to specific sections of Exhibit A. If, after the Effective Date of this Agreement, the numbering in Exhibit A changes as the result of a cost docket or other proceeding or an agreement of the Parties, the numbering change will not affect the substance of those provisions (i.e., the numbering may change, but the meaning of the provision remains the same). If numbering changes are extensive enough to cause confusion or for other reason the parties desire an amendment, either Party may request an amendment to the Agreement to modify the cross references to Exhibit A in the terms of this Agreement to reflect the revised numbering in Exhibit A.

2.2 The provisions in this Agreement are intended to be in compliance with and based on the existing state of the law, rules, regulations and interpretations thereof, including but not limited to state rules, regulations, and laws, as of March 11, 2005 (the Existing Rules). Nothing in this Agreement shall be deemed an admission by Qwest or CLEC concerning the interpretation or effect of the Existing Rules or an admission by Qwest or CLEC that the Existing Rules should not be changed, vacated, dismissed, stayed or modified. Nothing in this Agreement shall preclude or estop Qwest or CLEC from taking any position in any forum concerning the proper interpretation or effect of the Existing Rules or concerning whether the Existing Rules should be changed, vacated, dismissed, stayed or modified. To the extent that the Existing Rules are vacated, dismissed, stayed or materially changed or modified, then this Agreement shall be amended to reflect such legally binding modification or change of the Existing Rules. Each Party has an obligation to ensure that the Agreement is amended accordingly. Where the Parties fail to agree upon such an amendment within sixty (60) Days after notification from a Party seeking amendment due to a modification or change of the Existing Rules or if any time during such sixty (60) Day period the Parties shall have ceased to negotiate such new terms for a continuous period of fifteen (15) Days, it shall be resolved in

accordance with the Dispute resolution provision of this Agreement. It is expressly understood that this Agreement will be amended as set forth in this Section 2.2, to reflect the outcome of generic proceedings by the Commission for pricing, service standards, or other matters covered by this Agreement, except where CLEC notifies Qwest in writing that an amendment is not required. While any negotiation or Dispute resolution is pending for an amendment pursuant to this Section 2.2, the Parties shall continue to perform their obligations in accordance with the terms and conditions of this Agreement. For purposes of this Section, "legally binding" means that the legal ruling has not been stayed, no request for a stay is pending, and any deadline for requesting a stay designated by statute or regulation, has passed.

2.3 Unless otherwise specifically determined by the Commission, in cases of conflict between the Agreement and Qwest's Tariffs, PCAT, methods and procedures, technical publications, policies, product notifications or other Qwest documentation relating to Qwest's or CLEC's rights or obligations under this Agreement, then the rates, terms and conditions of this Agreement shall prevail. To the extent another document abridges or expands the rights or obligations of either Party under this Agreement, the rates, terms and conditions of this Agreement shall prevail.

2.4 If any obligation in this Agreement is less restrictive to the obligated Party than an applicable guideline or provision in Utah Administrative Code R746-365 for the identical function, product or service, Utah Administrative Code R746-365 shall govern to the extent the Agreement is inconsistent. In applying this provision, the Parties shall attempt to give effect to the provisions of this Agreement to the greatest extent possible consistent with the foregoing sentence. Nothing in this Agreement shall affect the right of a Party to seek an exemption from any provision of Utah Administrative Code R746-365, and, if a Party obtains an exemption from a provision of Utah Administrative Code R746-365, the exempted provision shall be deemed inapplicable for purposes of this Agreement.

SECTION 3.0 - CONTACT INFORMATION AND CLEC QUESTIONNAIRE

3.1 Except as otherwise required by law, Qwest will not provide or establish Interconnection, Unbundled Network Elements, ancillary services and/or resale of Telecommunications Services in accordance with the terms and conditions of this Agreement prior to CLEC's execution of this Agreement. The Parties shall complete Qwest's "New Customer Questionnaire," as it applies to CLEC's obtaining of Interconnection, Unbundled Network Elements, ancillary services, and/or resale of Telecommunications Services hereunder.

3.2 Prior to placing any orders for services under this Agreement, the Parties will jointly complete the following sections of Qwest's "New Customer Questionnaire":

General Information

Billing and Collection (Section 1)

Credit Information

Billing Information

Summary Billing

OSS and Network Outage Notification Contact Information

System Administration Contact Information

Ordering Information for LIS Trunks, Collocation, and Associated Products (if CLEC plans to order these services)

Design Layout Request – LIS Trunking and Unbundled Loop (if CLEC plans to order these services)

3.2.1 The remainder of this questionnaire must be completed within two (2) weeks of completing the initial portion of the questionnaire. This questionnaire will be used to:

Determine geographical requirements;

Identify CLEC identification codes;

Determine Qwest system requirements to support CLEC's specific activity;

Collect credit information;

Obtain Billing information;

Create summary bills;

Establish input and output requirements;

Create and distribute Qwest and CLEC contact lists; and

Identify CLEC hours and holidays.

3.2.2 CLECs that have previously completed a Questionnaire need not fill out another New Customer Questionnaire; however, CLEC will update its existing New Customer Questionnaire with any changes in the required information that have occurred and communicate those changes to Qwest. Before placing an order for a new product, CLEC will need to complete the relevant new product questionnaire and amend this Agreement, which may include an amendment pursuant to Section 1.7.1.

3.3 Upon request, CLEC and Qwest shall exchange contact and escalation lists for inquiries and problem resolution under this Agreement. The lists, which are not confidential, shall reflect contact personnel, including vice presidential-level officers. Qwest and Eschelon shall exchange at least the name, department title, telephone number, email address, and facsimile number for each Person on the lists. CLEC and Qwest will exchange up-to-date lists as reasonably necessary.

3.3.1 As also described in Qwest's Expedites and Escalations Overview posted on Qwest's web site, escalations can be initiated for any issue, at anytime, and at any escalation point.

3.3.2 Escalation procedures will be substantially the same type and quality as Qwest employs for itself, its End User Customers, its Affiliates or any other party.

3.4 Intentionally Left Blank.

SECTION 4.0 - DEFINITIONS

NOTE: In this Agreement, the Parties have attempted to use capitalization to indicate when a term is defined. Capitalization is relevant to, but not alone determinative of, the Parties' intended use or meaning of a term.

"Access Service Request" or "ASR" means the industry guideline forms and supporting documentation used for ordering Access Services. The ASR will be used to order trunking and facilities between CLEC and Qwest for Local Interconnection Service.

"Access Service(s)" refers to the interstate and intrastate Switched Access Service and private line transport services offered for the origination and/or termination of interexchange traffic.

"Access Tandem Switch" is a Switch used to connect End Office Switches to Interexchange Carrier Switches. Qwest's Access Tandem Switches are also used to connect and switch traffic between and among Central Office Switches within the same LATA and may be used for the exchange of local traffic.

"Act" means the Communications Act of 1934 (47 U.S.C. 151 et. seq.), as amended, and as from time to time interpreted in the duly authorized rules and regulations of the FCC or the Commission.

"Advanced Intelligent Network" or "AIN" is a Telecommunications network architecture in which call processing, call routing and network management are provided by means of centralized databases.

"Advanced Services" refers to high speed, switched, broadband, wireline Telecommunications capability that enables users to originate and receive high-quality, voice, data, graphics or video Telecommunications using any technology.

"Affiliate" means a Person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another Person. For purposes of this paragraph, the term 'own' means to own an equity interest (or the equivalent thereof) of more than 10 percent.

"AMI T1" is a transmission system sometimes used on Loops to transmit DS1 signals (1.544 Mbps) using Alternate Mark Inversion (AMI) line code.

"Applicable Law" means all laws, statutes, common law, ordinances, codes, rules, guidelines, orders, permits and approval of any governmental regulations, including, but not limited to, the Act, the regulations, rules, and final orders of the FCC and the Commission, and any final orders and decisions of a court of competent jurisdiction reviewing the regulations, rules, or orders of the FCC or the Commission.

"Application Date" or "APP" means the date CLEC provides Qwest an application for service containing required information as set forth in this Agreement.

"ATIS" or "Alliance for Telecommunications Industry Solutions" is a North American telecommunication industry standards forum which, through its committees and working groups, creates, and publishes standards and guidelines designed to enable Interoperability and Interconnection for Telecommunications products and services. ATIS Standards and

Guidelines, as well as the standards of other industry fora, are referenced herein.

“Augment” or “Collocation Augment” means additions or changes to a previously accepted Collocation arrangement (i.e., the original or existing Collocation). Acceptance of the original or existing Collocation takes place upon Qwest turnover upon completion of the work and CLEC’s final payment for the original or existing Collocation. After completion of the Collocation and CLEC’s final payment, additions or changes to that original or existing Collocation are Augments.

"Automated Message Accounting" or "AMA" is the structure inherent in Switch technology that initially records telecommunication message information. AMA format is contained in the AMA document, published by Telcordia Technologies, or its successors, as GR-1100-CORE which defines the industry standard for message recording.

“Automatic Location Identification” or “ALI” is the automatic display at the Public Safety Answering Point (PSAP) of the caller’s telephone number, the address/location of the telephone and supplementary emergency services information for Enhanced 911 (E911).

“Automatic Location Identification/Database Management System” or “ALI/DBMS” is an Enhanced 911/(E911) database containing End User Customer location information (including name, service address, telephone number, and sometimes special information from the local service provider) used to determine to which Public Safety Answering Point (PSAP) to route the call and used by the PSAP for emergency call handling (i.e., dispatch of emergency aid).

“Automatic Location Identification Gateway” or "ALI Gateway" is a computer facility into which CLEC delivers Automatic Location Identification (ALI) data for CLEC Customers. Access to the ALI Gateway will be via a dial-up modem using a common protocol.

"Automatic Number Identification" or "ANI" is the Billing telephone number associated with the access line from which a call originates. ANI and Calling Party Number (CPN) usually are the same number.

“Automatic Route Selection” or “ARS” is a service feature that provides for automatic selection of the least expensive or most appropriate transmission facility for each call based on criteria programmed into a circuit Switch routing table or system.

“Basic Exchange Telecommunications Service” means, unless otherwise defined in Commission rules and then it shall have the meaning set forth therein, a service offered to End User Customers which provides the End User Customer with a telephonic connection to, and a unique local telephone number address on, the public switched Telecommunications network, and which enables such End User Customer to generally place calls to, or receive calls from, other stations on the public switched Telecommunications network. Basic residence and business line services are Basic Exchange Telecommunications Services. As used solely in the context of this Agreement and unless otherwise agreed, Basic Exchange Telecommunications Service includes access to ancillary services such as 911, Directory Assistance and operator services.

"Bill Date" means the date on which a Billing period ends, as identified on the bill.

“Billing” involves the provision of appropriate usage data by one Telecommunications Carrier to another to facilitate Customer Billing with attendant acknowledgments and status reports. It also involves the exchange of information between Telecommunications Carriers to process

claims and adjustments.

“Binder Groups” means the sub-units of a cable, usually in groups of 25, 50 or 100 color-coded twisted pairs wrapped in colored tape within a cable.

“Bona Fide Request” or “BFR” shall have the meaning set forth in Section 17.

“Bridged Tap” means the unused sections of a twisted pair subtending the Loop between the End User Customer and the Serving Wire Center or extending beyond the End User Customer's location.

“Building” for the purpose of the DS1 and DS3 Loop caps described in Section 9.2, shall mean an area under one or more roofs, occupied by one or more Customers, served by Qwest facilities through a single terminal owned or controlled by Qwest through which telecommunications services enter the structure and are subsequently routed. A Building with a single terminal would be considered one Building, while a Building with multiple terminals would be considered multiple Buildings. In multi-tenant environments (MTE), a campus with multiple Buildings and one terminal would be considered one Building.

“Business Line” means a Qwest-owned switched access line used to serve a business End User Customer, whether by Qwest itself or by a competitive LEC that leases the line from Qwest. The number of Business Lines in a Wire Center shall equal the sum of all Qwest business switched access lines, plus the sum of all UNE loops connected to that Wire Center, including UNE loops provisioned in combination with other unbundled elements. Among these requirements, Business Line tallies (1) shall include only those access lines connecting End User Customers with Qwest end-offices for switched services, (2) shall not include non-switched special access lines, (3) shall account for ISDN and other digital access lines by counting each 64 kbps-equivalent as one line. For example, a DS1 line corresponds to 24 64 kbps-equivalents, and therefore to 24 “Business Lines”.

“Busy Line Verify/Busy Line Interrupt” or “BLV/BLI Traffic” means a call to an operator service in which the caller inquires as to the busy status of or requests an interruption of a call on another End User Customer's Basic Exchange Telecommunications Service line.

“Call-Related Databases” are defined as databases, other than Operations Support Systems, that are used in signaling networks for Billing and collection, or the transmission, routing, or other provision of a telecommunications service. Call-Related Databases include the calling name database, 911 database, E911 database, Line Information Database, toll free calling database, Advanced Intelligent Network databases, and downstream number portability databases by means of physical access at the Signaling Transfer Point linked to the unbundled databases.

“Calling Party Number” or “CPN” is a Common Channel Signaling (CCS) parameter which refers to the ten digit number transmitted through a network identifying the calling Party. Reference Qwest Technical Publication 77342 and other applicable Qwest technical publications, if any.

“Carrier” or “Common Carrier” See Telecommunications Carrier.

“Carrier Liaison Committee” or “CLC” is under the auspices of ATIS and is the executive oversight committee that provides direction as well as an appeals process to its subtending fora, the Network Interconnection Interoperability Forum (NIIF), the Ordering and Billing Forum

(OBF), the Industry Numbering Committee (INC), and the Toll Fraud Prevention Committee (TFPC). On occasion, the CLC commissions ad hoc committees when issues do not have a logical home in one of the subtending forums. OBF and NIMC publish business process rules for their respective areas of concern.

“Central Office” means a Building or a space within a Building where transmission facilities or circuits are connected or switched.

"Central Office Switch" means a Switch used to provide Telecommunications Services, including, but not limited to:

“End Office Switches” which are used to terminate End User Customer station Loops, or equivalent, for the purpose of interconnecting to each other and to trunks; and

“Tandem Office Switches” - CLEC End Office Switch(es) shall be considered Tandem Office Switch(es) for the purpose of determining reciprocal compensation rates to the extent such Switch(es) serve(s) a comparable geographic area as Qwest’s Tandem Office Switch. Nothing in this definition alters the bill and keep arrangement described in Section 7.3.1 of this Agreement. If the Parties have not already agreed that CLEC’s switches meet the definition of Tandem Office Switches, a fact based consideration of geography, when approved by the Commission or mutually agreed to by the Parties, should be used to classify any Switch on a prospective basis. In addition, Qwest “Tandem Office Switches” are used to connect and switch trunk circuits between and among other End Office Switches. Access tandems typically provide connections for Exchange Access and toll traffic, and Jointly Provided Switched Access traffic while local tandems provide connections for Exchange Service (EAS/Local) traffic. CLECs may also utilize a Qwest Access Tandem for the exchange of local traffic as set forth in this Agreement.

“Centralized Automatic Message Accounting” or “CAMA” trunks are trunks using MF signaling protocol used to record Billing data.

“Centralized Message Distribution System” or “CMDS” means the operation system that Local Exchange Carriers use to exchange outcollect and IABS access messages among each other and other parties connected to CMDS.

"Charge Number" is a Common Channel Signaling parameter, which refers to the number, transmitted through the network identifying the Billing number of the calling Party. Charge Number frequently is not the Calling Party Number (CPN).

"Centrex" shall have the meaning set forth in Section 6.2.2.9.

"Collocation" is an arrangement where Qwest provides space in Qwest Premises for the placement of CLEC’s equipment to be used for the purpose of Interconnection or access to Qwest Unbundled Network Elements.

“Collocation – Point of Interconnection” or “C-POI” is the point outside Qwest’s Wire Center where CLEC’s fiber facility meets Qwest’s Fiber Entrance Facility, except where CLEC uses an Express Fiber Entrance Facility. In either case, Qwest will extend or run the Fiber Entrance Facility to CLEC’s Collocation Space.

"Commission" means the State regulatory agency with lawful jurisdiction over Telecommunications Services.

"Commercial Mobile Radio Service" or "CMRS" is defined in 47 U.S.C. Section 332 and FCC rules and orders interpreting that statute.

"Commingling" means connecting, attaching, or otherwise linking an Unbundled Network Element (UNE), or a Combination of UNEs, to one or more facilities or services that a CLEC has obtained at wholesale from Qwest, or the combining of a UNE or a Combination of UNEs, with one or more such wholesale facilities or services. "Commingled" means the act of Commingling.

"Commission-Approved Wire Center List" means a list approved by the Commission in a Wire Center Docket(s) that identifies DS1 and DS3 Unbundled Loop facilities that are non-impaired and, regarding DS1, DS3, and Dark Fiber unbundled transport facilities, identifies non-impairment designations based on Wire Center Tier Designation(s).

"Common Channel Signaling" or "CCS" means a method of exchanging call set up and network control data over a digital signaling network fully separate from the Public Switched Network that carries the actual call. Signaling System 7 (SS7) is currently the preferred CCS method.

"Communications Assistance for Law Enforcement Act" or "CALEA" refers to the duties and obligations of Carriers to assist law enforcement agencies by intercepting communications and records, and installing pen registers and trap and trace devices.

"Competitive Local Exchange Carrier" or "CLEC" is an entity authorized to provide Local Exchange Service that does not otherwise qualify as an Incumbent Local Exchange Carrier (ILEC). Before submitting a request to Qwest to obtain Interconnection, access to Unbundled Network Elements, ancillary services, or resale of Telecommunications Services, a CLEC must have an approved Interconnection agreement with Qwest.

"Confidential Information" shall have the meaning set forth in Section 5.16.

"Cross Connection" is a cabling scheme between cabling runs, subsystems, and equipment using patch cords or jumper wires that attach to connection hardware on each end.

"Custom Calling Features" comprise a group of features provided via a Central Office Switch without the need for special Customer Premises Equipment. Features include, but are not limited to, call waiting, 3-way calling, abbreviated dialing (speed calling), call forwarding, and series completing (busy or no answer).

"Custom Local Area Signaling Service" or "CLASS" is a set of call-management service features consisting of number translation services, such as call forwarding and caller identification, available within a Local Access and Transport Area (LATA). Features include, but are not limited to, automatic callback, automatic recall, calling number delivery, Customer originated trace, distinctive ringing/call waiting, selective call forwarding and selective call rejection.

"Current Service Provider" means the Party from which an End User Customer is planning to switch its local Exchange Service or the Party from which an End User Customer is planning to port its telephone number(s).

“Customer” is a Person to whom a Party provides or has agreed to provide a specific service or set of services, whether directly or indirectly. Customer includes Telecommunication Carriers. See also, End User Customer.

“Customer Premises Equipment” or "CPE" means equipment employed on the premises of a Person other than a Carrier to originate, route or terminate Telecommunications (e.g., a telephone, PBX, modem pool, etc.).

“Customer Usage Data” means the Telecommunications Service usage data of a CLEC Customer, measured in minutes, sub-minute increments, message units or otherwise, that is recorded by Qwest AMA equipment and forwarded to CLEC.

"Dark Fiber" shall have the meaning set forth in Section 9.7.1.

“Day” means calendar days unless otherwise specified.

"Dedicated Transport" means Qwest transmission facilities between Wire Centers or Switches owned by Qwest, or between Wire Centers or Switches owned by Qwest and Switches owned by requesting telecommunications Carriers (entrance facility), including, but not limited to, DS1, DS3, and OCn-capacity level services, as well as Dark Fiber, dedicated to a particular End User Customer or Carrier. Dedicated Transport is also described in Section 9.

"Demarcation Point" means the point where Qwest owned or controlled facilities cease, and CLEC, End User Customer, premises owner or landlord ownership or control of facilities begin.

“Design Change” is a change in circuit design after Engineering Review required by a CLEC supplemental request to change a service previously requested by CLEC. An Engineering Review is a review by Qwest personnel of the service ordered and the requested changes to determine what change in the design, if any, is necessary to meet the changes requested by CLEC. Design Changes may include a change in the type of Network Channel Interface (NCI code) on pending orders and changes in End User Customer address within the same Serving Wire Center requiring changes to facilities or terminations. Design Change does not include modifications to records without physical changes to facilities or services, such as changes in the circuit reference (CKR) (i.e., the circuit number assigned by CLEC) or Service Name (SN) (i.e., the name of the End User Customer at a circuit location).

“Designed, Verified and Assigned Date” or “DVA” means the date on which implementation groups are to report that all documents and materials have been received and are complete.

“Desired Due Date” means the desired service activation date as requested by CLEC on a service order.

"Dialing Parity" shall have the meaning set forth in Section 14.1.

“Digital Cross-Connect System” or “DCS” is a function which provides automated Cross Connection of Digital Signal Level 0 (DS0) or higher transmission bit rate digital channels within physical interface facilities. Types of DCS include but are not limited to DCS 1/0s, DCS 3/1s, and DCS 3/3s, where the nomenclature 1/0 denotes interfaces typically at the DS1 rate or greater with Cross Connection typically at the DS0 rate. This same nomenclature, at the appropriate rate substitution, extends to the other types of DCS specifically cited as 3/1 and 3/3. Types of DCS that cross-connect Synchronous Transport Signal level 1 (STS-1 s) or other Synchronous Optical Network (SONET) signals (e.g., STS-3) are also DCS, although not

denoted by this same type of nomenclature. DCS may provide the functionality of more than one of the aforementioned DCS types (e.g., DCS 3/3/1 which combines functionality of DCS 3/3 and DCS 3/1). For such DCS, the requirements will be, at least, the aggregation of requirements on the "component" DCS. In locations where automated Cross Connection capability does not exist, DCS will be defined as the combination of the functionality provided by a Digital Signal Cross-Connect (DSX) or Light Guide Cross Connect (LGX) patch panels and D4 channel banks or other DS0 and above multiplexing equipment used to provide the function of a manual Cross Connection. Interconnection is between a DSX or LGX to a Switch, another Cross Connection, or other service platform device.

"Digital Signal Level" means one of several transmission rates in the time-division multiplex hierarchy.

"Digital Signal Level 0" or "DS0" is the 64 Kbps standard speed for digitizing one voice conversation using pulse code modulation. There are 24 DS0 channels in a DS1.

"Digital Signal Level 1" or "DS1" means the 1.544 Mbps first-level signal in the time-division multiplex hierarchy. In the time-division multiplexing hierarchy of the telephone network, DS1 is the initial level of multiplexing. There are 28 DS1s in a DS3.

"Digital Signal Level 3" or "DS3" means the 44.736 Mbps third-level signal in the time-division multiplex hierarchy. In the time-division multiplexing hierarchy of the telephone network, DS3 is defined as the third level of multiplexing.

"Digital Subscriber Line Access Multiplexer" or "DSLAM" is a network device that: (i) aggregates lower bit rate DSL signals to higher bit-rate or bandwidth signals (multiplexing) and (ii) disaggregates higher bit-rate or bandwidth signals to lower bit-rate DSL signals (de-multiplexing). DSLAMs can connect DSL Loops with some combination of CLEC ATM, Frame Relay or IP networks. The DSLAM must be located at the end of a copper Loop nearest the Serving Wire Center (e.g., in a Remote Terminal, Central Office, or a Customer's premises).

"Digital Subscriber Loop" or "DSL" refers to a set of service-enhancing copper technologies that are designed to provide digital communications services over copper Loops either in addition to or instead of normal analog voice service, sometimes referred to herein as xDSL, including, but not limited to, the following:

"ADSL" or "Asymmetric Digital Subscriber Line" is a Passband digital Loop transmission technology that typically permits the transmission of up to 8 Mbps downstream (from the Central Office to the End User Customer) and up to 1 Mbps digital signal upstream (from the End User Customer to the Central Office) over one copper pair.

"HDSL" or "High-Data Rate Digital Subscriber Line" is a synchronous baseband DSL technology operating over one or more copper pairs. HDSL can offer 784 Kbps circuits over a single copper pair, T1 service over 2 copper pairs, or future E1 service over 3 copper pairs.

"HDSL2" or "High-Data Rate Digital Subscriber Line 2" is a synchronous baseband DSL technology operating over a single pair capable of transporting a bit rate of 1.544 Mbps.

"IDSL" or "ISDN Digital Subscriber Line" or "Integrated Services Digital Network Digital Subscriber Line" is a symmetrical, baseband DSL technology that permits the bi-

directional transmission of up to 128 Kbps using ISDN CPE but not circuit switching.

"RADSL" or "Rate Adaptive Digital Subscriber Line" is a form of ADSL that can automatically assess the condition of the Loop and optimize the line rate for a given line quality.

"SDSL" or "Symmetric Digital Subscriber Line" is a baseband DSL transmission technology that permits the bi-directional transmission from up to 160 Kbps to 2.048 Mbps on a single pair.

"VDSL" or "Very High Speed Digital Subscriber Line" is a baseband DSL transmission technology that permits the transmission of up to 52 Mbps downstream (from the Central Office to the End User Customer) and up to 2.3 Mbps digital signal upstream (from the End User Customer to the Central Office). VDSL can also be 26 Mbps symmetrical, or other combination.

"Directory Assistance Database" shall have the meaning set forth in Sections 10.5.2.2, 10.5.2.8, and 10.5.2.9.

"Directory Assistance Lists" shall have the meaning set forth in Section 10.6.1.1.

"Directory Assistance Service" includes, but is not limited to, making available to callers, upon request, information contained in the Directory Assistance Database. Directory Assistance Service includes, where available, the option to complete the call at the caller's direction.

"Directory Listings" are any information: (1) identifying the listed names of subscribers of a Telecommunications Carrier and such subscriber's telephone numbers, addressees, or primary advertising classifications (as such classifications are assigned at the time of the establishment of such service), or any combination of such listed names, numbers, addresses or classifications; and (2) that the Telecommunications Carrier or an Affiliate has published, caused to be published, or accepted for publication in any directory format.

"Disturber" is defined as a technology recognized by industry standards bodies that significantly degrades service using another technology (such as how AMI T1x affects DSL).

"Due Date" means the specific date on which the requested service is to be available to the CLEC or to CLEC's End User Customer, as applicable.

"DSX Panel" means a cross-connect bay or panel used for the termination of equipment and facilities operating at digital rates.

"Effective Date" shall have the meaning set forth in Section 5.2.1.

"Electronic Bonding" is a real-time and secure electronic exchange of data between information systems in separate companies. Electronic Bonding allows electronic access to services which have traditionally been handled through manual means. The heart of Electronic Bonding is strict adherence to both International and National standards. These standards define the communication and data protocols allowing all organizations in the world to exchange information.

"Electronic File Transfer" means any system or process that utilizes an electronic format and

protocol to send or receive data files.

“Emergency Service Number“ or “ESN” is a three to five digit number representing a unique combination of Emergency Response Agencies (law enforcement, fire and emergency medical service) designed to serve a specific range of addresses within a particular geographical area. The ESN facilitates Selective Routing and transfer, if required, to the appropriate PSAP and the dispatch of proper Emergency Response Agency(ies).

“End User Customer” means a third party retail Customer that subscribes to a Telecommunications Service provided by either of the Parties or by another Carrier or by two or more Carriers.

“Enhanced Services” means any service offered over Common Carrier transmission facilities that employ computer processing applications that act on the format, content, code, protocol or similar aspects of a subscriber’s transmitted information; that provide the subscriber with additional, different or restructured information; or involve End User Customer interaction with stored information.

"Enhanced 911" or "E911" shall have the meaning set forth in Section 10.3.1.

“Environmental Hazard” means any substance the presence, use, transport, abandonment or disposal of which (i) requires investigation, remediation, compensation, fine or penalty under any Applicable Law (including, without limitation, the Comprehensive Environmental Response Compensation and Liability Act, Superfund Amendment and Reauthorization Act, Resource Conservation Recovery Act, the Occupational Safety and Health Act and provisions with similar purposes in applicable foreign, State and local jurisdictions) or (ii) poses risks to human health, safety or the environment (including, without limitation, indoor, outdoor or orbital space environments) and is regulated under any Applicable Law.

“Exchange Access (IntraLATA Toll)” as used in Section 7 is defined in accordance with Qwest’s current IntraLATA toll serving areas, as determined by Qwest’s state and interstate Tariffs and excludes toll provided using Switched Access purchased by an IXC. “Exchange Access” as used in the remainder of this Agreement shall have the meaning set forth in the Act

"Exchange Message Interface" or "EMI" means the format used for exchange of Telecommunications message information among Telecommunications Carriers. It is referenced in the Alliance for Telecommunications Industry Solutions (ATIS) document that defines industry guidelines for the exchange of message records.

“Exchange Service” or “Extended Area Service (EAS)/Local Traffic” or “Exchange Service (EAS/Local)” means traffic that is originated and terminated within the same Local Calling Area as determined for Qwest by the Commission.

"Extension Technology" is the physical placement of range extension devices, Central Office powering or regenerator(s) either at the Central Office or in the outside plant facilities, within the Qwest network. Extension Technology is broken down into two components; i) Loop extension cards and ii) either Central Office or mid-span repeaters.

“FCC” means the Federal Communications Commission.

“Fiber-Based Collocator” means any carrier, unaffiliated with Qwest, that maintains a Collocation arrangement in a Qwest Wire Center, with active electrical power supply, and

operates a fiber-optic cable or comparable transmission facility that (1) terminates at a Collocation arrangement within the Wire Center; (2) leaves the Qwest Wire Center Premises; and (3) is owned by a party other than Qwest or any Affiliate of Qwest, except as set forth in this definition. Dark fiber obtained from Qwest on an indefeasible right of use basis shall be treated as non-Qwest fiber-optic cable. Two or more affiliated Fiber-Based Collocators in a single Wire Center shall collectively be counted as a single Fiber-Based Collocator. For purposes of this definition, the term "Affiliate" is defined by 47 U.S.C. § 153(1) and any relevant interpretation in that title.

"Fiber Meet" means an Interconnection architecture method whereby the Parties physically interconnect their networks via an optical fiber interface (as opposed to an electrical interface) at a mutually-agreed-upon location.

"Finished Services" means complete end to end services offered by Qwest to wholesale or retail Customers. Finished Services do not include Unbundled Network Elements or combinations of Unbundled Network Elements. Finished Services include voice messaging, Qwest provided DSL, Access Services, private lines, retail services and resold services.

"Firm Order Confirmation" or "FOC" means the notice Qwest provides to CLEC to confirm that the CLEC Local Service Order (LSR) has been received and has been successfully processed. The FOC confirms the schedule of dates committed to by Qwest for the Provisioning of the service requested.

"Grandparent(ed)(ing)" shall have the same meaning as "grandfather(ed)(ing)" as used in FCC and Commission orders and Qwest and CLEC Tariffs.

"Hub Provider" means an entity that (i) provides Common Channel Signaling (SS7) connectivity between the networks of service providers that are not directly connected to each other; or (ii) provides third party database services such as LIDB. The SS7 messages received by Hub Providers are accepted or rejected by the Hub Provider depending on whether a contractual arrangement exists between the Hub Provider and the message originator (sender) and whether the message originator has contracted for the type of SS7 messages being submitted for transmission to the Hub Provider.

"High Capacity Loop" shall mean a Loop of DS1 or higher capacity, and is further described in Section 9.

"Include" or "including" means to have as part of a whole. The terms "include" and "including" mean "includes but is not limited to" and "without limitation," regardless of whether one or both of these phrases is used, and regardless of whether the term "include" or "including" are capitalized.

"Individual Case Basis" or "ICB" shall have the meaning set forth in Exhibit I.

"Information Service" is the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via Telecommunications, and includes electronic publishing, but does not include any use of any such capability for the management, control, or operation of a Telecommunications system or the management of a Telecommunications Service.

"Integrated Digital Loop Carrier" means a subscriber Loop carrier system, which integrates

multiple voice channels within the Switch on a DS1 level signal.

“Integrated Services Digital Network” or “ISDN” refers to a digital circuit switched network service. Basic Rate ISDN (BRI) provides for channelized (2 bearer and 1 data) end-to-end digital connectivity for the transmission of voice or data on either or both bearer channels and packet data on the data channel. Primary Rate ISDN (PRI) provides for 23 bearer channels and 1 data channel. For BRI, the bearer channels operate at 64 Kbps and the data channel at 16 Kbps. For PRI, all 24 channels operate at 64 Kbps or 1.5 Mbps.

"Interconnection" is as described in the Act and refers to the connection between networks for the purpose of transmission and routing of Telephone Exchange Service traffic, Exchange Access and Jointly Provided Switched Access Service Traffic.

"Interconnection Agreement" or "Agreement" is an agreement entered into between Qwest and CLEC for Interconnection, Unbundled Network Elements or other services as a result of negotiations, adoption and/or arbitration or a combination thereof pursuant to Section 252 of the Act.

"Interconnection Entrance Facility" is the transport between a Party's POI and the other Party's Wire Center serving that POI.

"Interexchange Carrier" or "IXC" means a Carrier that provides InterLATA or IntraLATA Toll services.

“InterLATA Traffic” describes Telecommunications between a point located in a Local Access Transport and Area (LATA) and a point located outside such area.

“IntraLATA Toll Traffic” describes IntraLATA Traffic outside the Local Calling Area.

“Interoperability” means the ability of a Qwest OSS Function to process seamlessly (i.e., without any manual intervention) business transactions with CLEC's OSS application, and vice versa, by means of secure exchange of transaction data models that use data fields and usage rules that can be received and processed by the other Party to achieve the intended OSS Function and related response. (See also Electronic Bonding.)

“Jointly Provided Switched Access Service” or “Jointly Provided Switched Access” is defined and governed by the FCC and state access Tariffs, CLEC Tariffs, Multiple Exchange Carrier Access Billing (MECAB) and Multiple Exchange Carrier Ordering and Design (MECOD) or SECAB Guidelines, and is not modified by any provisions of this Agreement.

“LERG Reassignment” or “NXX Reassignment” means the reassignment of an entire NXX Code shown in the LERG from one Carrier to another Carrier.

"Line Information Database" or "LIDB" shall have the meaning as set forth in Section 9.15.1.1.

“Line Side” refers to End Office Switch connections that have been programmed to treat the circuit as a local line connected to a terminating station (e.g., an End User Customer's telephone station set, a PBX, answering machine, facsimile machine or computer).

“Local Access Transport Area” or “LATA” is as defined in the Act.

"Local Calling Area" is as defined for Qwest by the Commission.

"Local Exchange Carrier" or "LEC" means any Carrier that is engaged in the provision of Telephone Exchange Service or Exchange Access. Such term does not include a Carrier insofar as such Carrier is engaged in the provision of a commercial mobile service under Section 332(c) of the Act, except to the extent that the FCC finds that such service should be included in the definition of such term.

"Local Exchange Routing Guide" or "LERG" means a Telcordia Technologies Reference Document used by LECs and IXCs to identify NPA-NXX routing and homing information as well as Network Element and equipment designations.

"Local Interconnection Service or "LIS" Entrance Facility" is a DS1 or DS3 facility that extends from CLEC's Switch location or Point of Interconnection (POI) to the Qwest Serving Wire Center. An Entrance Facility may not extend beyond the area served by the Qwest Serving Wire Center.

"Local Interconnection Service" or "LIS" is the Qwest product name for its provision of Interconnection as described in Section 7 of this Agreement.

"Local Number Portability" or "LNP" shall have the meaning set forth in Section 10.2.1.1.

"Local Service Ordering Guide" or "LSOG" is a document developed by the OBF to establish industry-wide ordering and Billing processes for ordering local services.

"Local Service Request" or "LSR" means the industry standard forms and supporting documentation used for ordering local services.

"Location Routing Number" or "LRN" means a unique 10-digit number assigned to a Central Office Switch in a defined geographic area for call routing purposes. This 10-digit number serves as a network address and the routing information is stored in a database. Switches routing calls to subscribers whose telephone numbers are in portable NXXs perform a database query to obtain the Location Routing Number that corresponds with the Switch serving the dialed telephone number. Based on the Location Routing Number, the querying Carrier then routes the call to the Switch serving the ported number. The term "LRN" may also be used to refer to a method of LNP.

"Loop" or "Unbundled Loop" shall have the meaning set forth in Section 9.2.1.

"Loop Concentrator/Multiplexer" or "LCM" is the Network Element that does one or more of the following:

- aggregates lower bit rate or bandwidth signals to higher bit rate or bandwidth signals (multiplexing);

- disaggregates higher bit rate or bandwidth signals to lower bit rate or bandwidth signals (demultiplexing);

- aggregates a specified number of signals or channels to fewer channels (concentrating);

- performs signal conversion, including encoding of signals (e.g., analog to digital and

digital to analog signal conversion); or

in some instances performs electrical to optical (E/O) conversion.

LCM includes DLC, and D4 channel banks and may be located in Remote Terminals or Central Offices.

"Main Distribution Frame" or "MDF" means a Qwest distribution frame (e.g., COSMIC™ frame) used to connect Qwest cable pairs and line and trunk equipment terminals on a Qwest switching system.

"Maintenance and Repair" involves the exchange of information between Carriers where one initiates a request for maintenance or repair of existing products and services or Unbundled Network Elements or combinations thereof from the other with attendant acknowledgments and status reports in order to ensure proper operation and functionality of facilities.

"Maintenance of Service Charge" is a charge that relates to trouble isolation. Maintenance of Service Charges are set forth in Exhibit A. A Maintenance of Service Charge or Trouble Isolation Charge, when applicable under the terms of this Agreement, will be charged only when Qwest dispatches a technician. Basic Maintenance of Service Charges apply when the technician performs work during normal business hours. Overtime Maintenance of Service Charges apply when the technician performs work on a business day, but outside normal business hours, or on a Saturday. Premium Maintenance of Service Charges apply when the technician performs work on either a Sunday or Qwest recognized holiday.

"Master Street Address Guide" or "MSAG" is a database of street names and house number ranges within their associated communities defining particular geographic areas and their associated ESNs to enable proper routing of 911 calls.

"Meet Point" is a Point of Interconnection between two networks, designated by two Telecommunications Carriers, at which one Carrier's responsibility for service begins and the other Carrier's responsibility ends.

"Meet-Point Billing" or "MPB" or "Jointly Provided Switched Access" refers to an arrangement whereby two LECs (including a LEC and CLEC) jointly provide Switched Access Service to an Interexchange Carrier, with each LEC (or CLEC) receiving an appropriate share of the revenues from the IXC as defined by their effective access Tariffs. See Section 7.5.

"Mid-Span Meet" means an Interconnection between two (2) networks, designated by two Telecommunications Carriers, whereby each provides its own cable and equipment up to the Meet Point of the cable facilities.

"Miscellaneous Charges" mean cost-based charges assessed as described in this Agreement. Miscellaneous Charges are listed in Exhibit A.

"Multiple Exchange Carrier Access Billing" or "MECAB" refers to the document prepared by the Billing Committee of the Ordering and Billing Forum (OBF), which functions under the auspices of the Carrier Liaison Committee (CLC) of the Alliance for Telecommunications Industry Solutions (ATIS). The MECAB document, published by Telcordia Technologies as Special Report SR-BDS-000983, contains the recommended guidelines for the Billing of an Access Service provided by two or more LECs (including a LEC and a CLEC), or by one LEC in two or more states within a single LATA.

“Multiple Exchange Carrier Ordering and Design“ or “MECOD” Guidelines for Access Services - Industry Support Interface, refers to the document developed by the Ordering/Provisioning Committee under the auspices of the Ordering and Billing Forum (OBF), which functions under the auspices of the Carrier Liaison Committee (CLC) of the Alliance for Telecommunications Industry Solutions (ATIS). The MECOD document, published by Telcordia Technologies as Special Report SR STS-002643, establishes recommended guidelines for processing orders for Access Service which is to be provided by two or more LECs (including a LEC and a CLEC). It is published by Telcordia Technologies as SRBDS 00983.

“N-1 Carrier” means the Carrier in the call routing process immediately preceding the terminating Carrier. The N-1 Carrier is responsible for performing the database queries (under the FCC’s rules) to determine the LRN value for correctly routing a call to a ported number.

“National Emergency Number Association“ or “NENA” is an association which fosters the technological advancement, availability and implementation of 911 Service nationwide through research, planning, training, certification, technical assistance and legislative representation.

“Near Real Time” means that Qwest’s OSS electronically receives a transaction from CLEC, automatically processes that transaction, returns the response to that transaction to CLEC in an automatic event driven manner (without manual intervention) via the interface for the OSS Function in question. Except for the time it takes to send and receive the transaction between Qwest’s and CLEC’s OSS application, the processing time for Qwest’s representatives should be the same as the processing time for CLEC’s representatives. Current benchmarks using TCIF 98-006 averages between two and four seconds for the connection and an average transaction transmittal. The specific agreed metrics for "near-real-time" transaction processing will be contained in the Performance Indicator Definitions (PIDs), where applicable.

“Network Element” is a facility or equipment used in the provision of Telecommunications service. It also includes features, functions, and capabilities that are provided by means of such facility or equipment, including subscriber numbers, databases, signaling systems, and information sufficient for Billing and collection or used in the transmission, routing, or other provision of a Telecommunications Service.

“Network Installation and Maintenance Committee” or “NIMC” is the ATIS/CLC sub-committee responsible for developing business process rules for Maintenance and Repair or trouble administration.

“Network Interface Device” or “NID” is a Network Element that includes any means of Interconnection of Customer premises wiring to Qwest’s Distribution plant, such as a cross connect device used for that purpose.

"New Service Provider" means the Party to which an End User Customer switches its local Exchange Service or the Party to which an End User Customer is porting its telephone number(s).

"911 Service" shall have the meaning set forth in Section 10.3.1.

"911/E911 Interconnection Trunk Groups" shall have the meaning set forth in Section 10.3.7.

“Non-Impaired Facilities” are those network elements identified in an applicable FCC order as no longer available as unbundled network elements (“UNEs”) under 47 U.S.C. §251(c)(3) as

reflected in this Agreement based on non-impairment or tier designations and that have been reviewed and approved by the Commission using the process and methodology ordered in a Wire Center Docket.

"North American Numbering Council" or "NANC" means the federal advisory committee chartered by the FCC to analyze, advise, and make recommendations on numbering issues.

"North American Numbering Plan" or "NANP" means the basic numbering plan for the Telecommunications networks located in the United States as well as Canada, Bermuda, Puerto Rico, Guam, the Commonwealth of the Marianna Islands and certain Caribbean Islands. The NANP format is a 10-digit number that consists of a 3-digit NPA Code (commonly referred to as the area code) followed by a 3-digit NXX Code and 4-digit line number.

"Number Portability Administration Center" or "NPAC" means one of the seven regional number portability centers involved in the dissemination of data associated with ported numbers. The NPACs were established for each of the seven, original Bell Operating Company regions so as to cover the 50 states, the District of Columbia and the U.S. territories in the North American Numbering Plan Area.

"Numbering Plan Area" or "NPA" is also sometimes referred to as an area code. It is a unique three-digit indicator that is defined by the "A," "B" and "C" digits of each 10-digit telephone number within the NANP. Each NPA contains 800 possible NXX Codes. There are two (2) general categories of NPA. "Geographic NPA" is associated with a defined geographic area, and all telephone numbers bearing such NPA are associated with services provided within that Geographic area. A "Non-Geographic NPA," also known as a "Service Access Code" (SAC Code), is typically associated with a specialized Telecommunications Service which may be provided across multiple geographic NPA areas; 500, Toll Free Service NPAs, 700, and 900 are examples of Non-Geographic NPAs.

"NXX," "NXX Code," "Central Office Code," or "CO Code" is the three digit Switch entity code which is defined by the D, E, and F digits of a 10 digit telephone number within the NANP.

"Operational Support Systems" or "OSS" shall have the meaning set forth in Section 12.

"Ordering and Billing Forum" or "OBF" means the Telecommunications industry forum, under the auspices of the Carrier Liaison Committee of the Alliance for Telecommunications Industry Solutions, concerned with inter-company ordering and Billing.

"Originating Line Information Parameter" or "OLIP" is a CCS SS7 signaling parameter that identifies the line class of service (i.e., originating screening and routing translation).

"P.01 Transmission Grade of Service" means a circuit switched trunk facility Provisioning standard with the statistical probability of no more than one call in 100 blocked on initial attempt during the average busy hour.

"Packet Switch" is a router designed to read the destination address in an incoming cell or packet, consult a routing table and route the packet toward its destination. Packetizing is done in originating CPE and reassembly is done in terminating CPE. Multiple packet formats or protocols exist (e.g., x.25, x.75, frame relay, ATM, and IP).

"Parity" means the provision of non-discriminatory access to Interconnection, Resale,

Unbundled Network Elements and other services provided under this Agreement to the extent legally required on rates, terms and conditions that are non-discriminatory, just and reasonable. Where Technically Feasible, the access provided by Qwest will be provided in "substantially the same time and manner" to that which Qwest provides to itself, its End User Customers, its Affiliates or to any other party.

"Party" means either Qwest or the CLEC identified in Section 1.2 of this Agreement and "Parties" means Qwest and the CLEC identified in Section 1.2 of this Agreement.

"Percent Local Usage" or "PLU" is a calculation which represents the ratio of the EAS/local minutes to the sum of EAS/local and all other minutes sent between the Parties over Local Interconnection Trunks.

"Person" is a general term meaning an individual or association, corporation, firm, joint-stock company, organization, partnership, trust or any other form or kind of entity.

"Performance Indicator Definitions" or "PIDs" shall have the meaning set forth in Exhibit B.

"Plant Test Date" or "PTD" means the date acceptance testing is performed with CLEC.

"Physical Collocation" shall have the meaning set forth in Section 8.1.

"Pole Attachment" shall have the meaning set forth in Section 10.8.1.

"Point of Interface", "Point of Interconnection," or "POI" is a Demarcation Point between the networks of two (2) LECs (including an ILEC and CLEC). The POI is that point where the traffic to be exchanged exits one Party's network facilities and enters the other Party's network facilities. CLEC has compromised on its view of the location of the POI and finds this acceptable as long as the compensation between the Parties is consistent with the requirements of the Act.

"Point of Presence" or "POP" means the Point of Presence of an IXC.

"Port" means a line or trunk connection point, including a line card and associated peripheral equipment, on a Central Office Switch but does not include Switch features. The Port serves as the hardware termination for line or Trunk Side facilities connected to the Central Office Switch. Each Line Side Port is typically associated with one or more telephone numbers that serve as the Customer's network address.

"POTS" means plain old telephone service.

"Power Spectral Density (PSD) Masks" are graphical templates that define the limits on signal power densities across a range of frequencies to permit divergent technologies to coexist in close proximity within the same Binder Groups.

"Premises" refers to Qwest's Central Offices and Serving Wire Centers; all Buildings or similar structures owned, leased, or otherwise controlled by Qwest that house its network facilities; all structures that house Qwest facilities on public rights-of-way, including but not limited to vaults containing Loop Concentrators or similar structures; and all land owned, leased, or otherwise controlled by Qwest that is adjacent to these Central Offices, Wire Centers, Buildings and structures.

"Product Catalog" or "PCAT" is a Qwest document that provides information needed to request services available under this Agreement. Qwest agrees that CLEC shall not be held to the requirements of the PCAT. The PCAT is available on Qwest's Web site: <http://www.qwest.com/wholesale/pcat/>

"Project Coordinated Installation" allows CLEC to coordinate installation activity as prescribed in section 9.2.2.9.7, including out of hours coordination.

"Proof of Authorization" ("POA") shall consist of verification of the End User Customer's selection and authorization adequate to document the End User Customer's selection of its local service provider.

"Proprietary Information" shall have the same meaning as Confidential Information.

"Provisioning" involves the exchange of information between Telecommunications Carriers where one executes a request for a set of products and services or Unbundled Network Elements or combinations thereof from the other with attendant acknowledgments and status reports. The term "Provisioning" includes installation.

"Pseudo Automatic Number Identification" or "Pseudo-ANI" is a number, consisting of the same number of digits as ANI, that is not a NANP telephone directory number and may be used in place of an ANI to convey special meaning, determined by agreements, as necessary, between the system originating the call, intermediate systems handling and routing the call, and the destination system.

"Public Safety Answering Point" or "PSAP" is the public safety communications center where 911/E911 calls for a specific geographic area are answered.

"Public Switched Network" includes all Switches and transmission facilities, whether by wire or radio, provided by any Common Carrier including LECs, IXCs and CMRS providers that use the NANP in connection with the provision of switched services.

"Ratcheting" means a pricing mechanism that involves Billing a single circuit at multiple rates to develop a single, blended rate. "Ratchet" means the act of Ratcheting.

"Rate Center" identifies 1) the specific geographic point identified by specific vertical and horizontal (V&H) coordinates, which are used to measure distance sensitive End User Customer traffic to/from the particular NPA-NXX designations with the specific Rate Center; and 2) the corresponding geographic area which is associated with one or more particular NPA-NXX Codes which have been assigned to a LEC for its provision of Telephone Exchange Service.

"Ready for Service" or "RFS" – A Collocation job is considered to be Ready for Service when Qwest has completed all operational work in accordance with CLEC application and makes functional space available to CLEC. Such work includes but is not necessarily limited to: DC power (fuses available, Battery Distribution Fuse Board (BDFB) is powered, and cables between CLEC and power are terminated), cage enclosures, primary AC outlet, cable racking, and circuit terminations (e.g., fiber jumpers are placed between the outside plant fiber distribution panel and the Central Office fiber distribution panel serving CLEC) and APOT/CFA are complete, telephone service, and other services and facilities ordered by CLEC for Provisioning by the RFS date.

“Records Issue Date” or “RID” means the date that all design and assignment information is sent to the necessary service implementation groups.

“Remote Premises” means all Qwest Premises other than Qwest Wire Centers or adjacent to Qwest Wire Centers. Such Remote Premises include controlled environmental vaults, controlled environmental huts, cabinets, pedestals and other Remote Terminals.

“Remote Terminal” or “RT” means a cabinet, vault or similar structure at an intermediate point between the End User Customer and Qwest’s Central Office, where Loops are aggregated and hauled to the Central Office or Serving Wire Center using LCM. A Remote Terminal may contain active electronics such as Digital Loop Carriers, fiber hubs, DSLAMs, etc.

"Reseller" is a category of CLECs who purchase the use of Finished Services for the purpose of reselling those Telecommunications Services to their End User Customers.

“Reserved Numbers” means those telephone numbers which are not in use but which are held in reserve by a Carrier under a legally enforceable written agreement for a specific End User Customer's future use.

“Route” means a transmission path between one of Qwest’s Wire Centers or Switches and another of Qwest’s Wire Centers or Switches. A Route between two points (e.g., Wire Center or Switch “A” and Wire Center or Switch “Z”) may pass through one or more intermediate Wire Centers or Switches (e.g., Wire Center or Switch “X”). Transmission paths between identical end points (e.g., Wire Center or Switch “A” and Wire Center or Switch “Z”) are the same “Route,” irrespective of whether they pass through the same intermediate Wire Centers or Switches, if any.

"Routine Network Modification(s)" means those activities of the type that Qwest regularly undertakes for its own End User Customers. Routine Network Modifications include, but are not limited to, rearrangement or splicing of cable (including rearrangement of existing pairs to include fiber hub counts); adding an equipment case; adding a doubler or repeater; adding a smart jack; installing a repeater shelf; adding a line card; deploying a new multiplexer or reconfiguring an existing multiplexer; and attachment of electronics (except for building a Loop from scratch by trenching or pulling cable). This includes activities needed to enable CLEC to light UDF-IOF. Routine Network Modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable and installing equipment casings. Routine Network Modifications do not include the installation of new aerial or new buried cable for CLEC.

“Scheduled Issued Date” or “SID” means the date the order is entered into Qwest’s order distribution system.

“Selective Router” means the equipment necessary for Selective Routing.

“Selective Routing” is the automatic routing of 911/E911 calls to the PSAP that has jurisdictional responsibility for the service address of the caller, irrespective of telephone company exchange or Wire Center boundaries. Selective Routing may also be used for other services.

"Service Control Point" or "SCP" means a node in the CCS network to which information requests for service handling, such as routing, are directed and processed. The SCP is a real time database system that, based on a query from a Service Switching Point (SSP), performs subscriber or application-specific service logic and then sends instructions back to the SSP on

how to continue call processing.

“Service Creation Environment” is a computer containing generic call processing software that can be programmed to create new Advanced Intelligent Network call processing services.

“Service Date” or “SD” means the date service is made available to the End User Customer. This also is referred to as the “Due Date.”

“Service Management Systems” or “SMS” are defined as computer databases or systems not part of the Public Switched Network that interconnect to the Service Control Point and send to the Service Control Point information and call processing instructions needed for a network Switch to process and complete a telephone call, and provide a Telecommunications Carrier with the capability of entering and storing data regarding the processing and completing of a telephone call.

"Service Provider Identification" or "SPID" is the number that identifies a service provider to the relevant NPAC. The SPID may be a state specific number.

“Serving Wire Center” denotes the Wire Center from which dial tone for Local Exchange Service would normally be provided to a particular Customer premises.

“Signaling System 7” or “SS7” is an out-of-band signaling protocol consisting of four basic sub-protocols:

- 1) Message Transfer Part (MTP), which provides functions for basic routing of signaling messages between signaling points;
- 2) Signaling Connection Control Part (SCCP), which provides additional routing and management functions for transfer of messages other than call setup between signaling points;
- 3) Integrated Services Digital Network User Part (ISUP), which provides for transfer of call setup signaling information between signaling points; and
- 4) Transaction Capabilities Application Part (TCAP), which provides for transfer of non-circuit related information between signaling points.

"Signaling Transfer Point" or "STP" means a Packet Switch that performs message routing functions and provides information for the routing of messages between signaling end points, including SSPs, SCPs, Signaling Points (SPs) and other STPs in order to set up calls and to query Call-Related Databases. An STP transmits, receives and processes Common Channel Signaling ("CCS") messages.

“Small Exchange Carrier Access Billing” or “SECAB” means the ATIS/OBF guidelines for the preparation of access bills provided by non-CABS BOS exchange Carriers. The OBF Billing Committee maintains the SECAB document.

“Special Request Process” or “SRP” shall have the meaning set forth in Exhibit F.

“Spectrum Compatibility” means the capability of two (2) Copper Loop transmission system technologies to coexist in the same cable without service degradation and to operate

satisfactorily in the presence of crosstalk noise from each other. Spectrum Compatibility is defined on a per twisted pair basis for specific well-defined transmission systems. For the purposes of issues regarding Spectrum Compatibility, service degradation means the failure to meet the Bit Error Ratio (BER) and Signal-to-Noise Ratio (SNR) margin requirements defined for the specific transmission system for all Loop lengths, model Loops, or loss values within the requirements for the specific transmission system.

“Splitter” means a device used in conjunction with a DSLAM either to combine or separate the high (DSL) and low (voice) frequency spectrums of the Loop in order to provide both voice and data over a single Loop.

“Stand-Alone Test Environment” or “SATE” shall have the meaning set forth in Section 12.2.9.3.2.

“Subloop” shall have the meaning set forth in Section 9.3.1.1.

“Suspended Lines” means subscriber lines that have been temporarily disconnected.

“Switch” means a switching device employed by a Carrier within the Public Switched Network. Switch includes but is not limited to End Office Switches, Tandem Switches, Access Tandem Switches and Remote Switching Modules. Switches may be employed as a combination of End Office/Tandem Switches.

“Switched Access Service” means the offering of transmission and switching services to Interexchange Carriers for the purpose of the origination or termination of telephone toll service. Switched Access Services include: Feature Group A, Feature Group B, Feature Group D, 8XX access, and 900 access and their successors or similar Switched Access Services.

“Switched Access Service Traffic”, as specifically defined in Qwest’s interstate Switched Access Service Tariffs, is traffic that originates at one of the Party’s End User Customers and terminates at an IXC Point of Presence, or originates at an IXC Point of Presence and terminates at one of the Party’s End User Customers, whether or not the traffic transits the other Party’s network.

“Synchronous Optical Network” or “SONET” is a TDM-based (time division multiplexing) standard for high-speed fiber optic transmission formulated by the Exchange Carriers Standards Association (ECSA) for the American National Standards Institute (“ANSI”).

“Tariff” refers to the applicable tariffs, price lists, and price schedules that have been approved or are otherwise in effect pursuant to applicable rules and laws, whether the Tariff is a Qwest retail Tariff or a CLEC Tariff. “Qwest retail Tariff” or “Qwest Tariff” refers to the applicable Qwest interstate Tariffs and State Tariffs, price lists, and price schedules that have been approved or are otherwise in effect pursuant to applicable rules and laws. “CLEC Tariff” refers to the applicable CLEC Tariffs, price lists, and price schedules that have been approved or are otherwise in effect pursuant to applicable rules and laws.

“Technically Feasible” or “Technical Feasibility”. Interconnection, access to Unbundled Network Elements, Collocation, and other methods of achieving Interconnection or access to Unbundled Network Elements at a point in the network shall be deemed Technically Feasible absent technical or operational concerns that prevent the fulfillment of a request by a Telecommunications Carrier for such Interconnection, access, or methods. A determination of Technical Feasibility does not include consideration of economic, accounting, Billing, space, or

site concerns, except that space and site concerns may be considered in circumstances where there is no possibility of expanding the space available. The fact that an incumbent LEC must modify its facilities or equipment to respond to such request does not determine whether satisfying such request is Technically Feasible. An incumbent LEC that claims that it cannot satisfy such request because of adverse network reliability impacts must prove to the Commission by clear and convincing evidence that such Interconnection, access, or methods would result in specific and significant adverse network reliability impacts.

“Telecommunications” means the transmission, between or among points specified by the user, of information of the user’s choosing, without change in the form or content of the information as sent and received.

“Telecommunications Carrier” means any provider of Telecommunications Services, except that such term does not include aggregators of Telecommunications Services (as defined in Section 226 of the Act). A Telecommunications Carrier shall be treated as a Common Carrier under the Act only to the extent that it is engaged in providing Telecommunications Services, except that the Federal Communications Commission shall determine whether the provision of fixed and mobile satellite service shall be treated as common carriage.

“Telecommunications Equipment” means equipment, other than Customer Premises Equipment, used by a Carrier to provide Telecommunications Services, and include software integral to such equipment, including upgrades.

"Telecommunications Services" means the offering of Telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

"Telephone Exchange Service" means a service within a telephone exchange, or within a connected system of telephone exchanges within the same exchange area operated to furnish to End User Customers intercommunicating service of the character ordinarily furnished by a single exchange, and which is covered by the Exchange Service charge, or comparable service provided through a system of Switches, transmission equipment or other facilities (or combinations thereof) by which a subscriber can originate and terminate a Telecommunications Service.

"TELRIC" means Total Element Long-Run Incremental Cost.

“Tier 1 Wire Center” means those Qwest Wire Centers that contain at least four (4) Fiber-Based Collocators, at least 38,000 Business Lines, or both. Tier 1 Wire Centers also are those incumbent LEC tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by competitive LECs. Once a Wire Center is determined to be a Tier 1 Wire Center, that Wire Center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

“Tier 2 Wire Center” means those Qwest Wire Centers that are not Tier 1 Wire Centers, but contain at least three (3) Fiber-Based Collocators, at least 24,000 Business Lines, or both. Once a Wire Center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

“Tier 3 Wire Center” means those Qwest Wire Centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

"Toll Free Service" means service provided with any dialing sequence that invokes Toll Free (i.e., 800-like) service processing. Toll Free Service currently includes calls to the Toll Free Service 800/888/877/866 NPA SAC codes.

"Transaction Set" is a term used by ANSI X12 and elsewhere that denotes a collection of data, related field rules, format, structure, syntax, attributes, segments, elements, qualifiers, valid values that are required to initiate and process a business function from one trading partner to another. Some business function events (e.g., pre-order inquiry and response) are defined as complimentary Transaction Sets. An example of a Transaction Set is service address validation inquiry and service address validation response.

"Transit Traffic" is defined as any traffic that originates from one Telecommunications Carrier's network, transits another Telecommunications Carrier's network, and terminates to yet another Telecommunications Carrier's network.

"Triennial Review Remand Order" means the Federal Communication Commission's Order on Remand in CC Docket Nos. 01-338 and 04-313 (released February 4, 2005).

"Trunk Side" refers to Switch connections that have been programmed to treat the circuit as connected to another switching entity.

"Unbundled Network Element" (UNE) is a Network Element that has been defined by the FCC or the Commission as a Network Element to which Qwest is obligated under Section 251(c)(3) of the Act to provide unbundled access or for which unbundled access is provided under this Agreement. Unbundled Network Elements do not include those Network Elements Qwest is obligated to provide only pursuant to Section 271 of the Act.

"UNE Combination", "Unbundled Network Element(s) Combination(s)" or "Combination of Unbundled Network Elements [or "UNEs"]" means a combination of two (2) or more Unbundled Network Elements.

"Virtual Collocation" shall have the meaning set forth in Sections 8.1.1.1 and 8.2.2.1.

"Voluntary Federal Subscriber Financial Assistance Programs" are Telecommunications Services provided to low-income subscribers, pursuant to requirements established by the Commission or the FCC.

"Waste" means all hazardous and non-hazardous substances and materials which are intended to be discarded, scrapped or recycled, associated with activities CLEC or Qwest or their respective contractors or agents perform at Work Locations. It shall be presumed that all substances or materials associated with such activities, that are not in use or incorporated into structures (including without limitation damaged components or tools, leftovers, containers, garbage, scrap, residues or by products), except for substances and materials that CLEC, Qwest or their respective contractors or agents intend to use in their original form in connection with similar activities, are Waste. Waste shall not include substances, materials or components incorporated into structures (such as cable routes) even after such components or structure are no longer in current use.

"Wire Center" denotes a Building or space within a Building that serves as an aggregation point on a given Carrier's network, where transmission facilities are connected or switched. Wire Center can also denote a Building where one or more Central Offices, used for the provision of Basic Exchange Telecommunications Services and Access Services, are located. A Wire

Center also denotes the location of a Qwest local switching facility containing one or more Central Offices, as defined in the Appendix to part 36 of chapter 1 of Title 47 of the Code of Federal Regulations. The Wire Center boundaries define the area in which all End User Customers served by a given Wire Center are located.

"Wire Center Docket" means Commission Docket No. 06-049-40 entitled "In the Matter of the Investigation into Qwest Wire Center Data," and any successor or separate Commission docket in which Qwest files a request(s) to add additional non-impaired wire center(s) to the Commission-Approved Wire Center List, and the Commission approves addition of wire center(s) to the list.

"Wire Center Tier Structure" or "Wire Center Tier Designation(s)" or "Tier Classifications" refers to the classifications of Tier 1 Wire Centers, Tier 2 Wire Centers, and Tier 3 Wire Centers.

"Wired and Office Tested Date" or "WOT" means the date by which all intraoffice wiring is completed, all plug-ins optioned and aligned, frame continuity established, and the interoffice facilities, if applicable, are tested. This includes the date that switching equipment, including translation loading, is installed and tested.

"Work Locations" means any real estate that CLEC or Qwest, as appropriate, owns, leases or licenses, or in which it holds easements or other rights to use, or does use, in connection with this Agreement.

Terms not otherwise defined here, but defined in the Act and the orders and the rules implementing the Act, shall have the meaning defined there. The definition of terms that are included here and are also defined in the Act, or its implementing orders or rules, are intended to include the definition as set forth in the Act and the rules implementing the Act.

SECTION 5.0 - TERMS AND CONDITIONS

5.1 General Provisions

5.1.1 Intentionally Left Blank.

5.1.2 The Parties are each solely responsible for participation in and compliance with national network plans, including the National Network Security Plan and the Emergency Preparedness Plan.

5.1.3 Neither Party shall use any service related to or use any of the services provided in this Agreement in any manner that interferes with other Persons in the use of their service, prevents other Persons from using their service, or otherwise impairs the quality of service to other Carriers or to either Party's End User Customers. In addition, neither Party's provision of or use of services shall interfere with the services related to or provided under this Agreement.

5.1.3.1 If such impairment is material and poses an immediate threat to the safety of either Party's employees, Customers or the public or poses an immediate threat of a service interruption, that Party shall provide immediate notice by email to the other Party's designated representative(s) for the purposes of receiving such notification. Such notice shall include 1) identification of the impairment (including the basis for identifying the other Party's facilities as the cause of the impairment), 2) date and location of the impairment, and 3) the proposed remedy for such impairment for any affected service. Either Party, in a manner consistent with industry practices, may discontinue the specific service that violates this provision or refuse to provide the same type of service if it reasonably appears that the particular service would cause similar harm, until the violation of this provision has been corrected to the reasonable satisfaction of that Party and the service shall be reinstated as soon as reasonably possible. The Parties shall work cooperatively and in good faith to resolve their differences. In the event either Party disputes any action that the other Party seeks to take or has taken pursuant to this provision, that Party may pursue immediate resolution by expedited or other Dispute resolution.

5.1.3.2 If the impairment is service impacting but does not meet the parameters set forth in Section 5.1.3.1, such as low level noise or other interference, the other Party shall provide written notice within five (5) Days of such impairment to the other Party and such notice shall include the information set forth in subsection 5.1.3.1. The Parties shall work cooperatively and in good faith to resolve their differences. If the impairment has not been corrected or cannot be corrected within five (5) business days of receipt of the notice of non-compliance, the other Party may pursue immediate resolution by expedited or other Dispute resolution.

5.1.3.3 If either Party causes non-service impacting impairment the other Party shall provide written notice within fifteen (15) Days of the impairment to the other Party and such notice shall include the information set forth in subsection 5.1.3.1. The Parties shall work cooperatively and in good faith to resolve their differences. If either Party fails to correct any such impairment within fifteen (15) Days of written notice, or if such non-compliance cannot be corrected within fifteen (15) Days of written notice of non-compliance, and if the impairing Party fails to take all appropriate steps to correct as soon as reasonably possible, the other Party may pursue immediate resolution by expedited or other Dispute resolution.

5.1.3.4 It is the responsibility of either Party to inform its End User Customers of service impacting impairment that may result in discontinuance of service as soon as the Party receives notice of same.

5.1.4 Each Party is solely responsible for the services it provides to its End User Customers and to other Telecommunications Carriers. This provision is not intended to limit the liability of either Party for its failure to perform under this Agreement.

5.1.5 The Parties shall work cooperatively to minimize fraud associated with third-number billed calls, calling card calls, and any other services related to this Agreement.

5.1.6 Nothing in this Agreement shall prevent either Party from seeking to recover the costs and expenses, if any, it may incur in (a) complying with and implementing its obligations under this Agreement, the Act, and the rules, regulations and orders of the FCC and the Commission, and (b) the development, modification, technical installation and maintenance of any systems or other infrastructure which it requires to comply with and to continue complying with its responsibilities and obligations under this Agreement. Notwithstanding the foregoing, Qwest shall not assess any charges against CLEC for services, facilities, Unbundled Network Elements, ancillary services and other related works or services covered by this Agreement, unless the charges are expressly provided for in this Agreement. All services and capabilities currently provided hereunder (including resold Telecommunications Services, Unbundled Network Elements, UNE Combinations and ancillary services) and all new and additional services or Unbundled Network Elements to be provided hereunder, shall be priced in accordance with all applicable provisions of the Act and the rules and orders of the Federal Communications Commission and orders of the Commission.

5.2 Term of Agreement

5.2.1 This Agreement shall become effective on the date set forth in the Section 1.2. This Agreement shall be binding upon the Parties for a term of three (3) years and shall expire three (3) years from the Effective Date.

5.2.2 Upon expiration of the term of this Agreement, this Agreement shall continue in full force and effect until superseded by a successor agreement in accordance with this Section 5.2.2. Any Party may request negotiation of a successor agreement by written notice to the other Party no earlier than one hundred sixty (160) Days prior to the expiration of the term, or the Agreement shall renew on a month to month basis. The date of this notice will be the starting point for the negotiation window under Section 252 of the Act. The Agreement will terminate on the date a successor Agreement is approved by the Commission.

5.2.2.1 Prior to the conclusion of the term specified above, CLEC may obtain Interconnection services under the terms and conditions of a then-existing SGAT or agreement to become effective at the conclusion of the term or prior to the conclusion of the term if CLEC so chooses.

5.3 Proof of Authorization

5.3.1 Each Party shall be responsible for obtaining and maintaining Proof of Authorization (POA) as required by applicable federal and State law, as amended from time to time.

5.3.2 The Parties shall make POAs available to each other upon request in the event of

an allegation by an End User Customer of an unauthorized change in accordance with all Applicable Laws and rules and shall be subject to any penalties contained therein. Nothing in this Section 5.3 shall be deemed to allow a Party to delay or deny a carrier change.

5.4 Payment and Deposit

5.4.1 Amounts payable under this Agreement are due and payable within thirty (30) Days after the date of invoice, or within twenty (20) Days after receipt of the invoice, whichever is later (Payment Due Date). If the Payment Due Date is not a business day, the payment shall be due the next business day.

5.4.1.1 Payments shall be made in U.S. Dollars via electronic funds transfer ("EFT") to the other Party's bank account or by check. At least thirty (30) Days prior to the first transmission of data and information for payment of Connectivity Charges, Qwest and CLEC shall provide each other the name and address of its bank, its account and routing number and to whom payments for Connectivity Charges should be made payable, if this information has not been previously provided. If such banking information changes, each Party shall provide the other Party at least sixty (60) Days written notice of the change and such notice shall include the new banking information. The Parties will render payment via EFT or by check. CLEC will provide Qwest with one address to which such payments shall be rendered and Qwest will provide to CLEC with only one address to which such payments shall be rendered. In the event CLEC receives multiple Connectivity Bills from Qwest which are payable on the same date, CLEC may remit one payment for the sum of all Connectivity Bills payable to Qwest's bank account specified in this subsection.

5.4.2 One Party may discontinue processing orders for relevant services for the failure of the other Party to make full payment, less any disputed amount as provided for in Section 21.8 of this Agreement, for the relevant services provided under this Agreement within thirty (30) Days following the Payment Due Date. The Billing Party will notify the other Party in writing and the Commission on a confidential basis at least ten (10) business days prior to discontinuing the processing of orders for the relevant services. If the Billing Party does not refuse to accept additional orders for the relevant services on the date specified in the ten (10) business days notice, and the other Party's non-compliance continues, nothing contained herein shall preclude the Billing Party's right to refuse to accept additional orders for the relevant services from the non-complying Party without further notice. Additionally, the Billing Party may require a deposit (or additional deposit) from the billed Party, pursuant to Section 5.4.5. The Billing Party shall resume order processing without unreasonable delay upon receipt of full payment of all charges, and payment of a deposit, if any, for the relevant services not disputed in good faith under this Agreement. Both Parties agree, however, that the application of this provision will be suspended for the initial three (3) Billing cycles of this Agreement and will not apply to amounts billed during those three (3) cycles. In addition to other remedies that may be available at law or equity, the billed Party reserves the right to seek equitable relief, including injunctive relief and specific performance.

5.4.3 The Billing Party may disconnect any and all relevant services for failure by the billed Party to make full payment, less any disputed amount as provided for in Section 21.8 of this Agreement, for the relevant services provided under this Agreement within sixty (60) Days following the Payment Due Date. For Resale products pursuant to Section 6, the billed Party will pay the applicable tariffed non-recurring charge less the wholesale discount set forth in

Exhibit A, required to reconnect each resold End User Customer line disconnected pursuant to this paragraph. The Billing Party will notify the billed Party and the Commission in at least ten (10) business days prior to disconnection of the unpaid service(s). In case of such disconnection, all applicable undisputed charges, including termination charges, if any, shall become due. If the Billing Party does not disconnect the billed Party's service(s) on the date specified in the ten (10) business days notice, and the billed Party's noncompliance continues, nothing contained herein shall preclude the Billing Party's right to disconnect any or all relevant services of the non-complying Party without further notice. For reconnection of the non-paid service to occur, the billed Party will be required to make full payment of all past and current undisputed charges under this Agreement for the relevant services. Additionally, the Billing Party may request a deposit (or recalculate the deposit) as specified in Sections 5.4.5 and 5.4.7 from the billed Party, pursuant to this Section. Both Parties agree, however, that the application of this provision will be suspended for the initial three (3) Billing cycles of this Agreement and will not apply to amounts billed during those three (3) cycles. In addition to other remedies that may be available at law or equity, each Party reserves the right to seek equitable relief, including injunctive relief and specific performance.

5.4.4 For Billing disputes refer to Section 21 of this Agreement.

5.4.5 Each Party will determine the other Party's credit status based on previous payment history as described below or, if the Parties are doing business with each other for the first time, based on credit reports such as Dun and Bradstreet. If a Party that is doing business with the other Party for the first time has not established satisfactory credit with the other Party according to the previous sentence or the Party is Repeatedly Delinquent in making its payments, or the Party is being reconnected after a disconnection of service or discontinuance of the processing of orders by the Billing Party due to a previous non-payment situation, the Billing Party may require a deposit to be held as security for the payment of charges before the orders from the billed Party will be provisioned and completed or before reconnection of service. "Repeatedly Delinquent" means payment of any undisputed amount received more than thirty (30) Days after the Payment Due Date, for three (3) consecutive months, on the same Billing account number. The deposit may not exceed the estimated total monthly charges for an average two (2) month period within the 1st three (3) months from the date of the triggering event which would be either the date of the request for reconnection of services or resumption of order processing and/or the date CLEC is Repeatedly Delinquent as described above for all services. The deposit may be a surety bond if allowed by the applicable Commission regulations, a letter of credit with terms and conditions acceptable to the Billing Party, an – interest bearing escrow account, or some other form of mutually acceptable security such as a cash deposit. Required deposits are due and payable within thirty (30) Days after demand and conditions being met.

5.4.6 Interest will be paid on cash deposits at the rate applying to deposits under applicable Commission regulations. Cash deposits and accrued interest will be credited to the billed Party's account or refunded, as appropriate, upon the expiration of the term of the Agreement, CLEC termination of the Agreement, or the establishment of satisfactory credit with the Billing Party, which will generally be one full year of timely payments of undisputed amounts in full by the billed Party. Upon a material change in financial standing (including Qwest transfer of relevant exchanges to any unaffiliated party as described in Section 5.12.2), the billed Party may request and the Billing Party will consider a recalculation of the deposit. The fact that a deposit has been made does not relieve CLEC from any requirements of this Agreement.

5.4.7 If a Party has received a deposit pursuant to Section 5.4.5 but the amount of the deposit is less than the maximum deposit amount permitted by Section 5.4.5, the Billing Party may review the other Party's credit standing and increase the amount of deposit required, but in no event will the maximum amount exceed the amount stated in Section 5.4.5. Section 5.4 is not intended to change the scope of any regulatory agency's or bankruptcy court's authority with regard to Qwest or CLECs.

5.4.8 **Late Payment Charges.** If either Party fails to remit payment for any undisputed Connectivity Charges by the payment Due Date, or if a payment or any portion of a payment is received by either Party after the payment Due Date, or if a payment or any portion of a payment is received in funds which are not immediately available to the other Party, then a late payment penalty may be assessed. The late payment charge shall be calculated based on the undisputed portion of the payment not received by the payment date times the lesser of (i) one and one half percent (1½%) per month or (ii) the highest rate which may be levied by law for commercial transactions, compounded daily for the number of days from the payment date to and including the date that payment is actually made. In no event, however, shall interest be assessed on any previously assessed late payment charges. For disputed Connectivity Charges see Section 21.8.

5.4.9 Each Party shall be responsible for notifying its End User Customers of any pending disconnection of a non-paid service by the billed Party, if necessary, to allow those Customers to make other arrangements for such non-paid services.

5.5 Taxes

5.5.1 Any federal, state, or local sales, use, excise, gross receipts, transaction or similar taxes, fees or surcharges resulting from the performance of this Agreement shall be borne by the Party upon which the obligation for payment is imposed under Applicable Law, even if the obligation to collect and remit such taxes is placed upon the other Party. However, where the selling Party is permitted by law to collect such taxes, fees or surcharges from the purchasing Party, such taxes, fees or surcharges shall be borne by the Party purchasing the services. Each Party is responsible for any tax on its corporate existence, status or income. These amounts shall be billed as a separate item on the invoice. To the extent a sale is claimed to be for resale tax exemption, the purchasing Party shall furnish the providing Party a proper resale tax exemption certificate as authorized or required by statute or regulation by the jurisdiction providing said resale tax exemption. Until such time as a resale tax exemption certificate is provided, no exemptions will be applied. If either Party (the Contesting Party) contests the application of any tax collected by the other Party (the Collecting Party), the Collecting Party shall reasonably cooperate in good faith with the Contesting Party's challenge. The Contesting Party is entitled to the benefit of any refund or recovery resulting from the contest, provided that the Contesting Party is liable for and has paid the tax contested.

5.6 Insurance

5.6.1 Each Party shall at all times during the term of this Agreement, at its own cost and expense, carry and maintain the insurance coverage listed below with insurers having a "Best's" rating of B+XIII with respect to liability arising from that Party's operations for which that Party has assumed legal responsibility in this Agreement. If either Party or its parent company has assets equal to or exceeding \$10,000,000,000, that Party may utilize an Affiliate captive insurance company in lieu of a "Best's" rated insurer. To the extent that the parent company of a Party is relied upon to meet the \$10,000,000,000 asset threshold, such parent shall be

responsible for the insurance obligations contained in this Section 5.6.1, to the extent its Affiliated Party fails to meet such obligations.

5.6.1.1 Workers' Compensation with statutory limits as required in the state of operation and Employers' Liability insurance with limits of not less than \$100,000 each accident.

5.6.1.2 Commercial General Liability insurance covering claims for bodily injury, death, personal injury or property damage occurring or arising out of the use or occupancy of the Premises, including coverage for independent contractor's protection (required if any work will be subcontracted), Premises-operations, products and/or completed operations and contractual liability with respect to the liability assumed by each Party hereunder. The limits of insurance shall not be less than \$1,000,000 each occurrence and \$2,000,000 general aggregate limit.

5.6.1.3 Business automobile liability insurance covering the ownership, operation and maintenance of all owned, non-owned and hired motor vehicles with limits of not less than \$1,000,000 per occurrence for bodily injury and property damage.

5.6.1.4 Umbrella/Excess Liability insurance in an amount of \$10,000,000 excess of Commercial General Liability insurance specified above. These limits may be obtained through any combination of primary and excess or umbrella liability insurance so long as the total limit is \$11,000,000.

5.6.1.5 "All Risk" Property coverage on a full replacement cost basis insuring all of CLEC personal property situated on or within the premises.

5.6.2 Each Party will initially provide certificate(s) of insurance evidencing coverage, and thereafter will provide such certificate(s) upon request. Such certificates shall (1) name the other Party as an additional insured under commercial general liability coverage; (2) provide thirty (30) Days prior written notice of cancellation of, material change or exclusions in the policy(s) to which certificate(s) relate; (3) indicate that coverage is primary and not excess of, or contributory with, any other valid and collectible insurance purchased by the other Party; and (4) acknowledge severability of interest/cross liability coverage.

5.7 Force Majeure

5.7.1 Neither Party shall be liable for any delay or failure in performance of any part of this Agreement from any cause beyond its control and without its fault or negligence including, without limitation, acts of nature, acts of civil or military authority, government regulations outside of the scope of this Agreement, embargoes, epidemics, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, work stoppages (if the Parties agree or if found by the Commission to be a Force Majeure Event), power blackouts, volcanic action, other major environmental disturbances, or unusually severe weather conditions (collectively, a Force Majeure Event). Inability to secure products or services of other Persons or transportation facilities or acts or omissions of transportation carriers shall be considered Force Majeure Events to the extent any delay or failure in performance caused by these circumstances is beyond the Party's control and without the Party's fault or negligence. The Party affected by a Force Majeure Event shall give prompt notice to the other Party, shall be excused from performance of its obligations hereunder on a day to day basis to the extent those obligations are prevented by the Force Majeure Event, and shall use reasonable efforts to

remove or mitigate the Force Majeure Event. In the event of a labor dispute or strike the Parties agree to provide service to each other at a level equivalent to the level they provide themselves.

5.8 Limitation of Liability

5.8.1 Each Party's liability to the other Party for any loss relating to or arising out of any act or omission in its performance under this Agreement, whether in contract, warranty, strict liability, or tort, including (without limitation) negligence of any kind, shall be limited to the total amount that is or would have been charged to the other Party by such breaching Party for the service(s) or function(s) not performed or improperly performed. Each Party's liability to the other Party for any other losses shall be limited to the total amounts charged to CLEC under this Agreement during the contract year in which the cause accrues or arises. Payments pursuant to the QPAP should not be counted against the limit provided for in this Agreement.

5.8.2 Neither Party shall be liable to the other for indirect, incidental, consequential, or special damages, including (without limitation) damages for lost profits, lost revenues, lost savings suffered by the other Party regardless of the form of action, whether in contract, warranty, strict liability, tort, including (without limitation) negligence of any kind and regardless of whether the Parties know the possibility that such damages could result. If the Parties enter into a Performance Assurance Plan under this Agreement, nothing in this Section 5.8.2 shall limit amounts due and owing under any Performance Assurance Plan.

5.8.3 Intentionally Left Blank.

5.8.4 Nothing contained in this Section 5.8 shall limit either Party's liability to the other for (i) willful or intentional misconduct or gross negligence (ii) repeated breach of any one or more of its material obligations under this Agreement, or (iii) damage to tangible real or personal property proximately caused solely by such Party's negligent act or omission or that of their respective agents, subcontractors or employees. Additionally, nothing in this Section 5.8 shall limit remedies available under applicable statutes, rules and regulations.

5.8.5 Nothing contained in this Section 5.8 shall limit either Party's obligations of indemnification specified in this Agreement, nor shall this Section 5.8 limit a Party's liability for failing to make any payment due under this Agreement.

5.8.6 Intentionally Left Blank.

5.8.7 All remedies prescribed in this Agreement, or otherwise available, are cumulative and not intended to be exclusive of other remedies to which the injured Party may be entitled at law or equity in case of any breach or threatened breach by the other Party of any provision of this Agreement. Use of one or more remedies shall not bar use of any other remedy for the purpose of enforcing the provisions of this Agreement. While the Parties may elect remedies from those available at law, in equity, or under the terms of this Agreement, and such remedies may be cumulative, the Parties shall not use their election of remedies to secure a double recovery of damages.

5.9 Indemnity

5.9.1 The Parties agree that unless otherwise specifically set forth in this Agreement the following constitute the sole indemnification obligations between and among the Parties:

5.9.1.1 Each of the Parties agrees to release, indemnify, defend and hold harmless

the other Party and each of its officers, directors, employees and agents (each an Indemnitee) from and against and in respect of any loss, debt, liability, damage, obligation, claim, demand, judgment or settlement of any nature or kind, known or unknown, liquidated or unliquidated including, but not limited to, reasonable costs and expenses (including attorneys' fees), whether suffered, made, instituted, or asserted by any Person or entity, for invasion of privacy, bodily injury or death of any Person or persons, or for loss, damage to, or destruction of tangible property, whether or not owned by others, resulting from the Indemnifying Party's breach of or failure to perform under this Agreement, regardless of the form of action, whether in contract, warranty, strict liability, or tort including (without limitation) negligence of any kind.

5.9.1.2 In the case of claims or loss alleged or incurred by an End User Customer of either Party arising out of or in connection with services provided to the End User Customer by the Party, the Party whose End User Customer alleged or incurred such claims or loss (the Indemnifying Party) shall defend and indemnify the other Party and each of its officers, directors, employees and agents (collectively the Indemnified Party) against any and all such claims or loss by the Indemnifying Party's, End User Customers regardless of whether the underlying service was provided or Unbundled Element was provisioned by the Indemnified Party, unless the loss was caused by the willful misconduct of the Indemnified Party. The obligation to indemnify with respect to claims of the Indemnifying Party's End User Customers shall not extend to any claims for physical bodily injury or death of any Person or Persons, or for loss, damage to, or destruction of tangible property, whether or not owned by others, alleged to have resulted directly from the negligence or intentional conduct of the employees, contractors, agents, or other representatives of the Indemnified Party.

5.9.1.3 Intentionally Left Blank.

5.9.1.4 Intentionally Left Blank.

5.9.2 The indemnification provided herein shall be conditioned upon:

5.9.2.1 The Indemnified Party shall promptly notify the Indemnifying Party of any action taken against the Indemnified Party relating to the indemnification. Failure to so notify the Indemnifying Party shall not relieve the Indemnifying Party of any liability that the Indemnifying Party might have, except to the extent that such failure prejudices the Indemnifying Party's ability to defend such claim.

5.9.2.2 If the indemnifying Party wishes to defend against such action, it shall give written notice to the indemnified Party of acceptance of the defense of such action. In such event, the Indemnifying Party shall have sole authority to defend any such action, including the selection of legal counsel, and the Indemnified Party may engage separate legal counsel only at its sole cost and expense. In the event that the Indemnifying Party does not accept the defense of the action, the Indemnified Party shall have the right to employ counsel for such defense at the expense of the Indemnifying Party. Each Party agrees to cooperate with the other Party in the defense of any such action and the relevant records of each Party shall be available to the other Party with respect to any such defense.

5.9.2.3 In no event shall the Indemnifying Party settle or consent to any judgment pertaining to any such action without the prior written consent of the

Indemnified Party. In the event the Indemnified Party withholds consent, the Indemnified Party may, at its cost, take over such defense, provided that, in such event, the Indemnifying Party shall not be responsible for, nor shall it be obligated to indemnify the relevant Indemnified Party against, any cost or liability in excess of such refused compromise or settlement.

5.10 Intellectual Property

5.10.1 Except for a license to use any facilities or equipment (including software) solely for the purposes of this Agreement or to receive any service solely (a) as provided in this Agreement or (b) as specifically required by the then-applicable federal and State rules and regulations relating to Interconnection and access to Telecommunications facilities and services, nothing contained within this Agreement shall be construed as the grant of a license, either express or implied, with respect to any patent, copyright, trade name, trade mark, service mark, trade secret, or other proprietary interest or intellectual property, now or hereafter owned, controlled or licensable by either Party. Nothing in this Agreement shall be construed as the grant to the other Party of any rights or licenses to trade or service marks.

5.10.2 Subject to Section 5.9.2, each Party (the Indemnifying Party) shall indemnify and hold the other Party (the Indemnified Party) harmless from and against any loss, cost, expense or liability arising out of a claim that the use of facilities of the Indemnifying Party or services provided by the Indemnifying Party provided or used pursuant to the terms of this Agreement misappropriates or otherwise violates the intellectual property rights of any third party. In addition to being subject to the provisions of Section 5.9.2, the obligation for indemnification recited in this paragraph shall not extend to infringement which results from (a) any combination of the facilities or services of the Indemnifying Party with facilities or services of any other Person (including the Indemnified Party but excluding the Indemnifying Party and any of its Affiliates), which combination is not made by or at the direction of the Indemnifying Party or (b) any modification made to the facilities or services of the Indemnifying Party by, on behalf of or at the request of the Indemnified Party and not required by the Indemnifying Party. In the event of any claim, the Indemnifying Party may, at its sole option (a) obtain the right for the Indemnified Party to continue to use the facility or service; or (b) replace or modify the facility or service to make such facility or service non-infringing. If the Indemnifying Party is not reasonably able to obtain the right for continued use or to replace or modify the facility or service as provided in the preceding sentence and either (a) the facility or service is held to be infringing by a court of competent jurisdiction or (b) the Indemnifying Party reasonably believes that the facility or service will be held to infringe, the Indemnifying Party shall notify the Indemnified Party and the Parties shall negotiate in good faith regarding reasonable modifications to this Agreement necessary to (1) mitigate damage or comply with an injunction which may result from such infringement or (2) allow cessation of further infringement. The Indemnifying Party may request that the Indemnified Party take steps to mitigate damages resulting from the infringement or alleged infringement including, but not limited to, accepting modifications to the facilities or services, and such request shall not be unreasonably denied.

5.10.3 To the extent required under applicable federal and State law, Qwest shall use its best efforts to obtain, from its vendors who have licensed intellectual property rights to Qwest in connection with facilities and services provided hereunder, licenses under such intellectual property rights as necessary for CLEC to use such facilities and services as contemplated hereunder and at least in the same manner used by Qwest for the facilities and services provided hereunder. Qwest shall notify CLEC immediately in the event that Qwest believes it has used its best efforts to obtain such rights, but has been unsuccessful in obtaining such

rights.

5.10.3.1 Qwest covenants that it will not enter into any licensing agreements with respect to any Qwest facilities, equipment or services, including software, that contain provisions that would disqualify CLEC from using or interconnecting with such facilities, equipment or services, including software, pursuant to the terms of this Agreement. Qwest warrants and further covenants that it has not and will not knowingly modify any existing license agreements for any network facilities, equipment or services, including software, in whole or in part for the purpose of disqualifying CLEC from using or interconnecting with such facilities, equipment or services, including software, pursuant to the terms of this Agreement. To the extent that providers of facilities, equipment, services or software in Qwest's network provide Qwest with indemnities covering intellectual property liabilities and those indemnities allow a flow-through of protection to third parties, Qwest shall flow those indemnity protections through to CLEC.

5.10.4 Except as expressly provided in this Intellectual Property Section, nothing in this Agreement shall be construed as the grant of a license, either express or implied, with respect to any patent, copyright, logo, trademark, trade name, trade secret or any other intellectual property right now or hereafter owned, controlled or licensable by either Party. Neither Party may use any patent, copyright, logo, trademark, trade name, trade secret or other intellectual property rights of the other Party or its Affiliates without execution of a separate agreement between the Parties.

5.10.5 Neither Party shall without the express written permission of the other Party, state or imply that: 1) it is connected, or in any way Affiliated with the other or its Affiliates; 2) it is part of a joint business association or any similar arrangement with the other or its Affiliates; 3) the other Party and its Affiliates are in any way sponsoring, endorsing or certifying it and its goods and services; or 4) with respect to its marketing, advertising or promotional activities or materials, the resold goods and services are in any way associated with or originated from the other or any of its Affiliates. Nothing in this paragraph shall prevent either Party from truthfully describing the Network Elements it uses to provide service to its End User Customers, provided it does not represent the Network Elements as originating from the other Party or its Affiliates in any marketing, advertising or promotional activities or materials.

5.10.6 For purposes of resale only and notwithstanding the above, unless otherwise prohibited by Qwest pursuant to an applicable provision herein, CLEC may use the phrase "CLEC is a Reseller of Qwest Services" (the "Authorized Phrase") in CLEC's printed materials provided:

5.10.6.1 The Authorized Phrase is not used in connection with any goods or services other than Qwest services resold by CLEC.

5.10.6.2 CLEC's use of the Authorized Phrase does not cause End User Customers to believe that CLEC is Qwest.

5.10.6.3 The Authorized Phrase, when displayed, appears only in text form (CLEC may not use the Qwest logo) with all letters being the same font and point size. The point size of the Authorized Phrase shall be no greater than one fourth the point size of the smallest use of CLEC's name and in no event shall exceed 8 point size.

5.10.6.4 CLEC shall provide all printed materials using the Authorized Phrase to

Qwest for its prior written approval.

5.10.6.5 If Qwest determines that CLEC's use of the Authorized Phrase causes End User Customer confusion, Qwest may immediately terminate CLEC's right to use the Authorized Phrase.

5.10.6.6 Upon termination of CLEC's right to use the Authorized Phrase or termination of this Agreement, all permission or right to use the Authorized Phrase shall immediately cease to exist and CLEC shall immediately cease any and all such use of the Authorized Phrase. CLEC shall either promptly return to Qwest or destroy all materials in its possession or control displaying the Authorized Phrase.

5.10.7 Qwest and CLEC each recognize that nothing contained in this Agreement is intended as an assignment or grant to the other of any right, title or interest in or to the trademarks or service marks of the other (Marks) and that this Agreement does not confer any right or license to grant sublicenses or permission to third parties to use the Marks of the other and is not assignable. Neither Party will do anything inconsistent with the other's ownership of their respective Marks, and all rights, if any, that may be acquired by use of the Marks shall inure to the benefit of their respective Owners. The Parties shall comply with all Applicable Law governing Marks worldwide and neither Party will infringe the Marks of the other.

5.10.8 Upon request, for all intellectual property owned or controlled by a third party and licensed to Qwest associated with the Unbundled Network Elements provided by Qwest under this Agreement, either on the Effective Date or at any time during the term of the Agreement, Qwest shall within ten (10) business days, unless there are extraordinary circumstances in which case Qwest will negotiate an agreed upon date, then disclose to CLEC in writing (i) the name of the Party owning, controlling or licensing such intellectual property, (ii) the facilities or equipment associated with such intellectual property, (iii) the nature of the intellectual property, and (iv) the relevant agreements or licenses governing Qwest's use of the intellectual property. Except to the extent Qwest is prohibited by confidentiality or other provisions of an agreement or license from disclosing to CLEC any relevant agreement or license within ten (10) business days of a request by CLEC, Qwest shall provide copies of any relevant agreements or licenses governing Qwest's use of the intellectual property to CLEC. To the extent Qwest is prohibited by confidentiality or other provisions of an agreement or license from disclosing to CLEC any relevant agreement or license, Qwest shall immediately, within ten (10) business days (i) disclose so much of it as is not prohibited, and (ii) exercise best efforts to cause the vendor, licensor or other beneficiary of the confidentiality provisions to agree to disclosure of the remaining portions under terms and conditions equivalent to those governing access by and disclosure to Qwest.

5.11 Warranties

5.11.1 EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PARTIES AGREE THAT NEITHER PARTY HAS MADE, AND THAT THERE DOES NOT EXIST, ANY WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND THAT ALL PRODUCTS AND SERVICES PROVIDED HEREUNDER ARE PROVIDED "AS IS", WITH ALL FAULTS.

5.12 Assignment

5.12.1 Neither Party may assign or transfer (whether by operation of law or otherwise) this Agreement (or any rights or obligations hereunder) to a third party without the prior written consent of the other Party. Notwithstanding the foregoing, either Party may assign or transfer this Agreement to a corporate Affiliate, an entity under its common control, in connection with a merger or reorganization involving a Party or to a purchaser of (i) all or substantially all of the capital stock of a Party or (ii) all or substantially all of a Party's assets (except as provided in Section 5.12.2) without the consent of the other Party, provided that the performance of this Agreement by any such assignee is guaranteed by the assignor. Any attempted assignment or transfer that is not permitted is void ab initio. Without limiting the generality of the foregoing, this Agreement shall be binding upon and shall inure to the benefit of the Parties' respective successors and assigns.

5.12.2 In the event that Qwest transfers to any unaffiliated party exchanges including End User Customers that a CLEC serves in whole or in part through facilities or services provided by Qwest under this Agreement, the transferee shall be deemed a successor to Qwest's responsibilities hereunder for a period of ninety (90) Days from notice to CLEC of the completion of such a transfer or until such later time as the Commission may direct pursuant to the Commission's then-applicable statutory authority to impose such responsibilities either as a condition of the transfer or under such other State statutory authority as may give it such power. In the event of such a proposed transfer, Qwest shall use its best efforts to facilitate discussions between CLEC and the transferee with respect to the transferee's assumption of Qwest's obligations pursuant to the terms of this Agreement. The Party making the assignment shall notify the Commission sixty (60) Days in advance of the effective date of the assignment.5.12.3. Nothing in this Section is intended to restrict CLEC's rights to opt into Interconnection Agreements under §252 of the Act.

5.13 Default

5.13.1 If either Party defaults in the payment of any amount due hereunder, or if either Party violates any other material provision of this Agreement, and such default or violation shall continue for thirty (30) Days after written notice thereof, the other Party may seek relief in accordance with the Dispute resolution provision of this Agreement. The failure of either Party to enforce any of the provisions of this Agreement or the waiver thereof in any instance shall not be construed as a general waiver or relinquishment on its part of any such provision, but the same shall, nevertheless, be and remain in full force and effect. To the extent that either Party disputes, pursuant to Section 21.8, any amount due hereunder, the Party's withholding of such disputed amounts pursuant to Section 21.8 shall not constitute a default under this Section 5.13 during the pendency of such dispute.

5.14 Disclaimer of Agency

5.14.1 Except for provisions herein expressly authorizing a Party to act for another, nothing in this Agreement shall constitute a Party as a legal representative or agent of the other Party, nor shall a Party have the right or authority to assume, create or incur any liability or any obligation of any kind, express or implied, against or in the name or on behalf of the other Party unless otherwise expressly permitted by such other Party. Except as otherwise expressly provided in this Agreement, no Party undertakes to perform any obligation of the other Party whether regulatory or contractual, or to assume any responsibility for the management of the other Party's business.

5.15 Severability

5.15.1 In the event that any one or more of the provisions contained herein shall for any reason be held to be unenforceable or invalid in any respect under law or regulation, the Parties will negotiate in good faith for replacement language as set forth herein. If any part of this Agreement is held to be invalid or unenforceable for any reason, such invalidity or unenforceability will affect only the portion of this Agreement which is invalid or unenforceable. In all other respects, this Agreement will stand as if such invalid or unenforceable provision had not been a part hereof, and the remainder of this Agreement shall remain in full force and effect.

5.16 Non-disclosure

5.16.1 All information, including but not limited to specifications, microfilm, photocopies, magnetic disks, magnetic tapes, drawings, sketches, models, samples, tools, technical information, data, employee records, maps, financial reports, and market data, (i) furnished by one Party to the other Party dealing with business or marketing plans, End User Customer specific, facility specific, or usage specific information, other than End User Customer information communicated for the purpose of providing Directory Assistance or publication of directory database, or (ii) in written, graphic, electromagnetic, or other tangible form and marked at the time of delivery as "Confidential" or "Proprietary", or (iii) communicated and declared to the receiving Party at the time of delivery, or by written notice given to the receiving Party within ten (10) Days after delivery, to be "Confidential" or "Proprietary" (collectively referred to as "Proprietary Information"), shall remain the property of the disclosing Party. The receiving Party may not alter the disclosing Party's ownership, control, or use of the disclosing Party's information by marking or declaring it to be "Confidential" or "Proprietary". If only a portion of information provided to the receiving Party is Proprietary Information, the disclosing Party will distinguish Proprietary Information from non-Proprietary Information, unless doing so is unreasonably burdensome. A Party who receives Proprietary Information via an oral communication may request and, if Proprietary, shall receive a written confirmation that the material is Proprietary Information. A Party who delivers Proprietary Information via an oral communication may request and, if Proprietary, shall receive written confirmation that the Party receiving the information understands that the material is Proprietary Information. Each Party shall have the right to correct an inadvertent failure to identify information as Proprietary Information by giving written notification within thirty (30) Days after the information is disclosed. The receiving Party shall, from that time forward, treat such information as Proprietary Information. To the extent permitted by Applicable Law, either Party may disclose to the other proprietary or confidential Customer, technical or business information.

5.16.2 Upon request by the disclosing Party, the receiving Party shall return or destroy (upon the disclosing Party's request or agreement) all tangible copies of Proprietary Information, whether written, graphic or otherwise, except that the receiving Party may retain one copy for archival purposes.

5.16.3 Each Party shall keep all of the other Party's Proprietary Information confidential and will disclose it on a need to know basis only. Each Party shall use the other Party's Proprietary Information only in connection with this Agreement and in accordance with Applicable Law, including but not limited to, 47 U.S.C. § 222. In accordance with Section 222 of the Act, when either Party receives or obtains Proprietary Information from the other Party for purposes of providing any Telecommunications Services, that Party shall use such information only for such purpose, and shall not use such information for its own marketing efforts. Neither

Party shall use the other Party's Proprietary Information for any other purpose except upon such terms and conditions as may be agreed upon between the Parties in writing. Violations of these obligations shall subject a Party's employees to disciplinary action up to and including termination of employment. If either Party loses, or makes an unauthorized disclosure of, the other Party's Proprietary Information, it will notify such other Party immediately and use reasonable efforts to retrieve the information.

5.16.4 Unless otherwise agreed in writing, the obligations of confidentiality and non-use set forth in this Agreement do not apply to such Proprietary Information as:

- a) was at the time of receipt already known to the receiving Party free of any obligation to keep it confidential evidenced by written records prepared prior to delivery by the disclosing Party; or
- b) is or becomes publicly known through no wrongful act of the receiving Party; or
- c) is rightfully received from a third Person having no direct or indirect secrecy or confidentiality obligation to the disclosing Party with respect to such information; or
- d) is independently developed by an employee, agent, or contractor of the receiving Party which individual is not involved in any manner with the provision of services pursuant to the Agreement and does not have any direct or indirect access to the Proprietary Information; or
- e) is disclosed to a third Person by the disclosing Party without similar restrictions on such third Person's rights; or
- f) is approved for release by written authorization of the disclosing Party; or
- g) is required to be disclosed by the receiving Party pursuant to Applicable Law or regulation provided that the receiving Party shall give sufficient notice of the requirement to the disclosing Party to enable the disclosing Party to seek protective orders, unless prohibited by law from giving such notice; or
- h) is a root cause analysis of a Maintenance and Repair event or acknowledgement of mistake in processing order.

5.16.5 Nothing herein is intended to prohibit a Party from supplying factual information about its network and Telecommunications Services on or connected to its network to regulatory agencies including the Federal Communications Commission and the Commission so long as any confidential obligation is protected. In addition either Party shall have the right to disclose Proprietary Information to any mediator, arbitrator, State or federal regulatory body, the Department of Justice or any court in the conduct of any proceeding arising under or relating in any way to this Agreement or the conduct of either Party in connection with this Agreement, including without limitation the approval of this Agreement, or in any proceedings concerning the provision of InterLATA services by Qwest that are or may be required by the Act. The Parties agree to cooperate with each other in order to seek appropriate protection or treatment of such Proprietary Information pursuant to an appropriate protective order in any such proceeding.

5.16.6 Effective Date of this Section. Notwithstanding any other provision of this Agreement, the Proprietary Information provisions of this Agreement shall apply to all

information furnished by either Party to the other in furtherance of the purpose of this Agreement, even if furnished before the Effective Date.

5.16.7 Each Party agrees that the disclosing Party could be irreparably injured by a breach of the confidentiality obligations of this Agreement by the receiving Party or its representatives and that the disclosing Party shall be entitled to seek equitable relief, including injunctive relief and specific performance, in the event of any breach of the confidentiality provisions of this Agreement. Such remedies shall not be deemed to be the exclusive remedies for a breach of the confidentiality provisions of this Agreement, but shall be in addition to all other remedies available at law or in equity.

5.16.8 Without in any way limiting either Party's obligations under Section 5.16.3, both Parties shall comply with Applicable Laws with regard to Customer Proprietary Network Information, including, but not limited to, 47 U.S.C. § 222.

5.16.9 Forecasts provided by either Party to the other Party shall be deemed Confidential Information and the Parties may not distribute, disclose or reveal, in any form, this material other than as allowed and described in subsections 5.16.9.1 and 5.16.9.2.

5.16.9.1 The Parties may disclose, on a need to know basis only, CLEC individual forecasts and forecasting information disclosed by Qwest, to legal personnel, if a legal issue arises about that forecast, as well as to CLEC's wholesale account managers, wholesale LIS and Collocation product managers, network and growth planning personnel responsible for preparing or responding to such forecasts or forecasting information. In no case shall retail marketing, sales or strategic planning have access to this forecasting information. The Parties will inform all of the aforementioned personnel, with access to such Confidential Information, of its confidential nature and will require personnel to execute a non-disclosure agreement which states that, upon threat of termination, the aforementioned personnel may not reveal or discuss such information with those not authorized to receive it except as specifically authorized by law. Qwest shall provide CLEC, by electronic filing or other mutually acceptable method, a signed copy of each non-disclosure agreement executed by Qwest personnel within twenty (20) days of execution. Violations of these requirements shall subject the personnel to disciplinary action up to and including termination of employment.

5.16.9.1.1 Qwest may provide the forecast information that CLECs have made available to Qwest under this Agreement to the Commission, provided that Qwest shall first initiate any procedures necessary to protect the confidentiality and to prevent the public release of the information pursuant to applicable Commission procedures and rules and further provided that Qwest provides such notice to the CLEC involved, in order to allow it to prosecute such procedures to their completion.

5.16.9.2 The Parties shall maintain confidential forecasting information in secure files and locations such that access to the forecasts is limited to the personnel designated in subsection 5.16.9.1 above and such that no other personnel have computer access to such information.

5.17 Survival

5.17.1 Any liabilities or obligations of a Party for acts or omissions prior to the termination of this Agreement, and any obligation of a Party under the provisions regarding indemnification, Confidential or Proprietary Information, limitations of liability, and any other provisions of this Agreement which, by their terms, are contemplated to survive (or to be performed after) termination of this Agreement, shall survive cancellation or termination hereof.

5.18 Dispute Resolution

5.18.1 If any claim, controversy or dispute between the Parties, their agents, employees, officers, directors or affiliated agents should arise under this Agreement, and the Parties do not resolve it in the ordinary course of their dealings (the "Dispute"), then it shall be resolved in accordance with this Section. Each notice of default, unless cured within the applicable cure period, shall be resolved in accordance herewith. Dispute resolution under the procedures provided in this Section 5.18 is optional and not the exclusive remedy for all disputes between Qwest and CLEC arising out of this Agreement or its breach. Each Party reserves its rights to resort to the Commission or to a court, agency, or regulatory authority of competent jurisdiction. Nothing in this Section 5.18 shall limit the right of either Qwest or CLEC, upon meeting the requisite showing, to obtain provisional remedies (including injunctive relief) from a court before, during or after the pendency of any arbitration proceeding brought pursuant to this Section 5.18. However, if the Parties agree to arbitrate a dispute pursuant to Section 5.18.3.1, once a decision is reached by the Arbitrator, such decision shall supersede any provisional remedy obtained before such decision is reached.

5.18.2 At the written request of either Party (the Resolution Request), and prior to any other formal Dispute resolution proceedings, each Party shall within seven (7) Days after such Resolution Request designate a vice-presidential level employee or a representative with authority to make commitments to review, meet (in person or by telephone), and negotiate, in good faith, to resolve the Dispute. If a Party indicates in the Resolution Request that expedited treatment is necessary, the time period for designating a representative and conducting negotiations may be expedited to meet the needs of the requesting Party. The Parties intend that these negotiations be conducted by business representatives, and the locations, format, frequency, duration, and conclusions of these discussions shall be at the discretion of the representatives. By mutual agreement, the representatives may use other procedures, such as mediation, to assist in these negotiations.

5.18.3 If the vice-presidential level representatives or the designated representative with authority to make commitments have not reached a resolution of the Dispute within fifteen (15) Days after the Resolution Request (or such shorter or longer period as agreed to in writing by the Parties), or if either Party fails to designate such vice-presidential level representative or their representative with authority to make commitments within seven (7) Days after the date of the Resolution Request, then either Party may pursue all remedies, including if desired requesting that the Dispute be settled by arbitration. Notwithstanding the foregoing time periods, a Party may request that the Dispute be settled by arbitration two (2) Days after the Resolution Request pursuant to the terms of Section 5.18.3.1.

5.18.3.1 Optional Arbitration procedure. If the Parties agree to arbitrate the Dispute pursuant to the terms of this Section, the arbitration proceeding shall be conducted by a single arbitrator, knowledgeable about the Telecommunications industry unless the Dispute involves amounts exceeding five million (\$5,000,000) in which case

the proceeding shall be conducted by a panel of three (3) arbitrators knowledgeable about the Telecommunications industry. The arbitration proceedings shall be conducted under the then-current rules for commercial disputes of the American Arbitration Association (AAA) or J.A.M.S./Endispute, at the election of the Party that initiates Dispute resolution under this Section 5.18. Such rules and procedures shall apply notwithstanding any part of such rules that may limit their availability for resolution of a Dispute. The Federal Arbitration Act, 9 U.S.C. Sections 1-16, not State law, shall govern the arbitrability of the Dispute. The arbitrator shall not have authority to award punitive damages. The arbitrator's award shall be final and binding and may be entered in any court having jurisdiction thereof. Each Party shall bear its own costs and attorneys' fees, and shall share equally in the fees and expenses of the arbitrator. The arbitration proceedings shall occur in the Denver metropolitan area if Qwest initiates the arbitration; in the Minneapolis metropolitan area if CLEC initiates the arbitration; or in another mutually agreeable location. It is acknowledged that the Parties, by mutual, written agreement, may change any of these arbitration practices for a particular, some, or all Dispute(s). The Party which sends the Resolution Request must notify the Secretary of the Commission of the arbitration proceeding within forty eight (48) hours of the determination to arbitrate. If the Parties agree to arbitrate pursuant to this Section and do not agree to other procedures, the following procedures will apply:

5.18.3.1.1 All expedited procedures prescribed by the AAA or J.A.M.S./Endispute rules, as the case may be, shall apply to Disputes affecting the ability of a Party to provide uninterrupted, high quality services to its End User Customers, or as otherwise called for in this Agreement. A Party may seek expedited resolution of a Dispute if the vice-presidential level representative, or other representative with authority to make commitments, have not reached a resolution of the Dispute within two (2) Days after the Resolution Request. In the event the Parties do not agree that a service affecting Dispute exists, the Dispute resolution shall commence under the expedited process set forth in this Section 5.18.3.1, however, the first matter to be addressed by the Arbitrator shall be the applicability of such process to such Dispute.

5.18.3.1.2 There shall be no discovery except for the exchange of documents deemed necessary by the Arbitrator to an understanding and determination of the dispute. Qwest and CLEC shall attempt, in good faith, to agree on a plan for such document discovery. Should they fail to agree, either Qwest or CLEC may request a joint meeting or conference call with the Arbitrator. The Arbitrator shall resolve any disputes between Qwest and CLEC, and such resolution with respect to the need, scope, manner, and timing of discovery shall be final and binding.

5.18.3.1.3 Arbitrator's Decision.

5.18.3.1.3.1 The Arbitrator's decision and award shall be in writing and shall state concisely the reasons for the award, including the Arbitrator's findings of fact and conclusions of law.

5.18.3.1.3.2 An interlocutory decision and award of the Arbitrator granting or denying an application for preliminary injunctive relief may be challenged in a forum of competent jurisdiction immediately, but no later

than ten (10) business days after the appellant's receipt of the decision challenged. During the pendency of any such challenge, any injunction ordered by the Arbitrator shall remain in effect, but the enjoined Party may make an application to the Arbitrator for appropriate security for the payment of such costs and damages as may be incurred or suffered by it if it is found to have been wrongfully enjoined, if such security has not previously been ordered. If the authority of competent jurisdiction determines that it will review a decision granting or denying an application for preliminary injunctive relief, such review shall be conducted on an expedited basis.

5.18.3.1.3.3 CLEC may submit a copy of any final and binding arbitration decision to the Commission.

5.18.3.1.4 To the extent that any information or materials disclosed in the course of an arbitration proceeding contain proprietary, trade secret or Confidential Information of either Party, it shall be safeguarded in accordance with Section 5.16 of this Agreement, or if the Parties mutually agree, such other appropriate agreement for the protection of proprietary, trade secret or Confidential Information that the Parties negotiate. However, nothing in such negotiated agreement shall be construed to prevent either Party from disclosing the other Party's information to the Arbitrator in connection with or in anticipation of an arbitration proceeding, provided however that the Party seeking to disclose the information shall first provide fifteen (15) Days notice to the disclosing Party so that that Party, with the cooperation of the other Party, may seek a protective order from the arbitrator. Except as the Parties otherwise agree, in writing, or as the Arbitrator for good cause orders, the arbitration proceedings, including hearings, briefs, orders, pleadings and discovery shall not be deemed confidential and may be disclosed at the discretion of either Party, unless it is subject to being safeguarded as proprietary, trade secret or Confidential Information, in which event the procedures for disclosure of such information shall apply.

5.18.4 Should it become necessary to resort to court proceedings to enforce a Party's compliance with the Dispute resolution process set forth herein, and the court directs or otherwise requires compliance herewith, then all of the costs and expenses, including its reasonable attorney fees, for obtaining compliance with the Dispute resolution process set forth herein, incurred by the Party requesting such enforcement shall be reimbursed by the non-complying Party to the requesting Party.

5.18.5 No Dispute, regardless of the form of action, arising out of this Agreement, may be brought by either Party more than three (3) years after the cause of action accrues.

5.18.6 Nothing in this Section is intended to divest or limit the jurisdiction and authority of the Commission or the FCC as provided by State and federal law.

5.18.7 In the event of a conflict between this Agreement and the rules prescribed by the AAA or J.A.M.S./Endispute, this Agreement shall be controlling.

5.18.8 This Section does not apply to any claim, controversy or dispute between the Parties, their agents, employees, officers, directors or affiliated agents concerning the

misappropriation of use of intellectual property rights of a Party, including, but not limited to, the use of the trademark, tradename, trade dress or service mark of a Party.

5.19 Controlling Law

5.19.1 This Agreement is offered by Qwest and accepted by CLEC in accordance with applicable federal law and the state law of Utah. It shall be interpreted solely in accordance with applicable federal law and the state law of Utah.

5.20 Responsibility for Environmental Contamination

5.20.1 Neither Party shall be liable to the other for any costs whatsoever resulting from the presence or release of any Environmental Hazard that either Party did not introduce to the affected Work Location. Both Parties shall defend and hold harmless the other, its officers, directors and employees from and against any losses, damages, claims, demands, suits, liabilities, fines, penalties and expenses (including reasonable attorneys' fees) that arise out of or result from (i) any Environmental Hazard that the indemnifying Party, its contractors or agents introduce to the Work Locations or (ii) the presence or release of any Environmental Hazard for which the indemnifying Party is responsible under Applicable Law.

5.20.2 In the event any suspect materials within Qwest-owned, operated or leased facilities are identified to be asbestos containing, CLEC will ensure that to the extent any activities which it undertakes in the facility disturb such suspect materials, such CLEC activities will be in accordance with applicable local, State and federal environmental and health and safety statutes and regulations. Except for abatement activities undertaken by CLEC or equipment placement activities that result in the generation of asbestos-containing material, CLEC does not have any responsibility for managing, nor is it the owner of, nor does it have any liability for, or in connection with, any asbestos-containing material. Qwest agrees to immediately notify CLEC if Qwest undertakes any asbestos control or asbestos abatement activities that potentially could affect CLEC personnel, equipment or operations, including, but not limited to, contamination of equipment.

5.21 Notices

5.21.1 Any notices required by or concerning this Agreement shall be in writing and shall be sufficiently given if delivered Personally, delivered by prepaid overnight express service, or sent by certified mail, return receipt requested where specified in this Agreement to Qwest and CLEC at the addresses shown below:

Qwest Corporation

Denver, CO 80202

and to CLEC at the address shown below:

J. Jeffery Oxley
Executive Vice President, Law and Policy
Eschelon Telecom, Inc.
730 2nd Avenue South, Suite 900
Minneapolis, MN 55402

If Personal delivery is selected to give notice, a receipt acknowledging such delivery must be obtained. Each Party shall inform the other of any change in the above contact Person and/or address using the method of notice called for in this Section 5.21.

5.22 Responsibility of Each Party

5.22.1 Each Party is an independent contractor, and has and hereby retains the right to exercise full control of and supervision over its own performance of its obligations under this Agreement and retains full control over the employment, direction, compensation and discharge of all employees assisting in the performance of such obligations. Each Party will be solely responsible for all matters relating to payment of such employees, including compliance with social security taxes, withholding taxes and all other regulations governing such matters. Each Party will be solely responsible for proper handling, storage, transport and disposal at its own expense of all (i) substances or materials that it or its contractors or agents bring to, create or assume control over at Work Locations, and (ii) Waste resulting therefrom or otherwise generated in connection with its or its contractors' or agents' activities at the Work Locations. Subject to the limitations on liability and except as otherwise provided in this Agreement, each Party shall be responsible for (i) its own acts and performance of all obligations imposed by Applicable Law in connection with its activities, legal status and property, real or Personal, and (ii) the acts of its own Affiliates, employees, agents and contractors during the performance of that Party's obligations hereunder.

5.23 No Third Party Beneficiaries

5.23.1 The provisions of this Agreement are for the benefit of the Parties and not for any other Person. This Agreement will not provide any Person not a Party to this Agreement with any remedy, claim, liability, reimbursement, claim of action, or other right in excess of those existing by reference in this Agreement.

5.24 Intentionally Left Blank.

5.25 Publicity

5.25.1 Neither Party shall publish or use any publicity materials with respect to the execution and delivery of this Agreement without the prior written approval of the other Party. Nothing in this Section shall limit a Party's ability to issue public statements with respect to regulatory or judicial proceedings.

5.26 Executed in Counterparts

5.26.1 This Agreement may be executed in any number of counterparts, each of which shall be deemed an original; but such counterparts shall together constitute one and the same instrument.

5.27 Compliance

5.27.1 Each Party shall comply with all applicable federal, State, and local laws, rules and regulations applicable to its performance under this Agreement. Without limiting the foregoing, Qwest and CLEC agree to keep and maintain in full force and effect all permits, licenses, certificates, and other authorities needed to perform their respective obligations hereunder.

5.28 Compliance with the Communications Assistance Law Enforcement Act of 1994

5.28.1 Each Party represents and warrants that any equipment, facilities or services provided to the other Party under this Agreement comply with CALEA. Each Party shall indemnify and hold the other Party harmless from any and all penalties imposed upon the other Party for such noncompliance and shall at the non-compliant Party's sole cost and expense, modify or replace any equipment, facilities or services provided to the other Party under this Agreement to ensure that such equipment, facilities and services fully comply with CALEA.

5.29 Cooperation

5.29.1 The Parties agree to work jointly and cooperatively in testing and implementing processes for pre-ordering, ordering, maintenance, Provisioning and Billing and in reasonably resolving issues which result from such implementation on a timely basis. Electronic processes and procedures are addressed in Section 12 of this Agreement.

5.29.2 If, at any time, CLEC believes that a Qwest employee has engaged in unlawful behavior with respect to CLEC, CLEC may report the incident to the account team in writing, describing in detail, all facts upon which CLEC's belief is based. Qwest will investigate the allegations, and within three (3) business days after Qwest has received written notification from CLEC of the allegations, inform CLEC that the matter is being investigated. Qwest will keep CLEC informed throughout the investigation and will advise in writing of the investigation outcome. Due to confidentiality issues, Qwest may not be in a position to disclose all of the findings to CLEC. However, Qwest will provide non-confidential findings.

5.30 Amendments

5.30.1 Except as otherwise provided in this Agreement, the provisions of this Agreement may not be amended, modified or supplemented unless executed in writing and signed by an authorized representative of both Parties. In addition, no course of dealing or performance or failure of a Party to strictly enforce any provision of this Agreement shall be construed as an amendment, modification, supplement to, or waiver of any such provision. By entering into this Agreement neither Party waives any rights granted to them pursuant to the Act.

5.30.2 Either Party may request an amendment to this Agreement at any time by

providing to the other Party in writing information about the desired amendment and proposed language changes. If the Parties have not reached agreement on the requested amendment within sixty (60) Days after receipt of the request, either Party may pursue resolution of the amendment through the Dispute resolution provisions of this Agreement.

5.31 Entire Agreement

5.31.1 This Agreement (including amendments, if any) constitutes the entire agreement between Qwest and CLEC. Other than this publicly filed Agreement, Qwest and CLEC have no agreement or understanding, written or oral, that modifies or is inconsistent with the terms and conditions of this Agreement, except as described in, and subject to, Section 5.31.1.1.

5.31.1.1 The Parties have entered into the following Qwest Platform Plus (“QPP”) agreements, which have been previously approved by the Commission and which are to remain operative in conjunction with this Agreement according to the terms and conditions therein. They are: Qwest Master Services Agreement (MSA); Service Exhibit 1 - Qwest Platform Plus Service; Attachment A to Service Exhibit 1 - Performance Targets for Qwest QPP Service; Qwest Platform Plus (QPP) Rate Sheet; Qwest Platform Plus (QPP) Rate Page - Port Rate Increases; Batch Hot Cut Process. Each Party reserves its rights with respect to whether the above agreements are subject to Sections 251 and 252 of the Act where the Commission has not already so made that determination. If the Commission asks the Parties to provide copies of these agreements along with this Agreement, the Parties will do so, subject to this reservation of rights, within ten (10) business days, or such other timeframe as set by the Commission.

SECTION 6.0 – RESALE

6.1 General Terms

6.1.1 Qwest shall offer for resale at wholesale rates any Telecommunications Services that it provides at retail to subscribers who are not Telecommunications Carriers, subject to the terms and conditions of this Section. All Qwest retail Telecommunications Services are available for resale from Qwest pursuant to the Act and will include terms and conditions (except prices) in Qwest's applicable product Tariffs, catalogs, price lists, or other retail Telecommunications Services offerings. To the extent, however, that a conflict arises between the terms and conditions of the Tariff, catalog, price list, or other retail Telecommunications Services offering and this Agreement, this Agreement shall be controlling. In the event that Qwest ceases to file Tariffs, catalogs, price lists, or other retail Telecommunications Services offerings with the Commission, Qwest shall continue to make such information for those Telecommunications Services offerings that are available to CLECs for resale by updating its resale PCATs on the Qwest wholesale web site for CLECs or by other such published information.

6.1.2 While this Section 6.0 of this Agreement addresses the provision of certain Qwest services to CLEC for resale by CLEC, the Parties also acknowledge that CLEC is required to provide its Telecommunications Services to Qwest for resale by Qwest. Upon request by Qwest, CLEC shall make its Telecommunications Services available to Qwest for resale pursuant to the applicable provisions of the Telecommunications Act of 1996, the FCC's relevant orders and rules, and the Commission's relevant orders and rules.

6.1.3 Certain Qwest services are not available for resale under this Agreement, as noted in Section 6.2. The applicable discounts for services available for resale are identified in Exhibit A.

6.2 Additional General Terms

6.2.1 Qwest shall offer introductory training on procedures that CLEC must use to access Qwest's OSS at no cost to CLEC. If CLEC asks Qwest personnel to travel to CLEC's location to deliver training, CLEC will pay Qwest's reasonable travel related expenses. Qwest may also offer to CLEC other training at reasonable costs. See Section 12.1.3.2.2.

6.2.2 Services available for resale under this Agreement may be resold only to the same class of End User Customer to which Qwest sells such services where such restrictions have been ordered or approved by the Commission. Such restrictions are listed below in this Section 6.2.2.

6.2.2.1 Promotional offerings of ninety (90) Days or less are available for resale. Such promotions are available for resale under the same terms and conditions that are available to Qwest retail End User Customers, with no wholesale discount. Should Qwest re-offer any promotion for a sequential ninety (90) Day or less promotion period following the initial ninety (90) Day or less promotion period, then the initial and subsequent promotion(s) will be available to CLEC for resale with any applicable wholesale discount.

6.2.2.2 Market Trials of ninety (90) Days or less are not available for resale.

6.2.2.3 Residential services and Lifeline/Link-up services are available only to the same class of End User Customer eligible to purchase these services from Qwest.

6.2.2.4 Universal Emergency Number Service is not available for resale. Universal Emergency Number Service (E911/911 Service) is provided with each Local Exchange Service line resold by CLEC whenever E911/911 Service would be provided on the same line if provided by Qwest to a Qwest retail End User Customer.

6.2.2.5 Non-Telecommunications Services, such as inside wiring and maintenance, calling cards and CPE, are not available for resale.

6.2.2.6 Voice messaging service is available for resale at the retail rate with no discount. Enhanced Services and Information Services other than voice messaging are not available for resale.

6.2.2.7 Qwest will make retail Contract Service Arrangements (CSA) available for resale at the wholesale discount rate specified in Exhibit A of this Agreement. All terms and conditions (except prices) in Qwest's applicable Tariffs, catalogs, price lists, or other retail Telecommunications Services offerings will apply to resale of CSAs, including early termination liability. Nothing in this Agreement shall affect any obligation of any Qwest retail end user that early terminates a CSA, including payment of any early termination charges. Where CLEC seeks to continue serving a Customer presently served through a resold Qwest CSA, but wishes to provide such service through alternate resale arrangements, Qwest shall provide CLEC the same waivers of early termination liabilities as it makes to its own end users in similar circumstances. In any case where it is required to offer such a waiver, Qwest shall be entitled to apply provisions that provide Qwest substantially the same assurances and benefits that remained to it under the resold agreement as of the time it is changed.

6.2.2.8 Grandparented services are available for resale by CLEC to existing End User Customers of the Grandparented product or service.

6.2.2.9 Centrex terms and conditions related to calculation of charges for, and Provisioning of common blocks, station lines and optional features will be based on the Centrex definition of a system and CLEC's serving location.

6.2.2.9.1 Where a common block is applicable, a Centrex system is defined by a single common block or multiple common blocks for a single CLEC within a single Central Office Switch. A common block defines the dialing plan for intercom calling, access to the Public Switched Network and/or private facilities, station line and system restrictions and feature access arrangements and functionality. CLEC may purchase multiple common blocks within a single Central Office Switch when CLEC requires different dialing plans, feature access arrangements and station line or system restrictions within a single system operation. CLEC with multiple common blocks within the same Central Office Switch may have Network Access Register and Private Facility trunk groups aggregated across multiple common blocks. Centrex system based optional features (i.e., Automatic Route Selection) may not be aggregated across multiple common blocks. A Centrex system must provide station lines to at least one location and may provide station lines to multiple locations.

6.2.2.9.2 Centrex station lines are provisioned and charges are calculated

based on serving CLEC's location. A location is defined as the site where Qwest facilities (cable plant from the serving Central Office Switch) meet CLEC facilities (inside wire). In a multi-tenant Building, Qwest may bring facilities directly to a single Point of Interconnection with CLEC facilities, typically in a basement equipment room, which would be considered a single location for this multi-tenant Building. Should Qwest bring service to multiple floors or offices within a multi-tenant Building each floor or office with a separate CLEC facilities termination point is considered a location. A CLEC with multiple Buildings within contiguous property (campus) will be provisioned and billed as a single location. Contiguous property is defined as property owned or leased by a single CLEC and not separated by public thoroughfare, river or railroad rights-of-way. Property will be considered contiguous when connected via connecting passageways or conduit acceptable to Qwest for its facilities. A CLEC with Centrex station lines from multiple Central Office Switches, within the same Qwest Wire Center, and provisioned to the same location will not be charged for service or provisioned as if service was originating from a single Centrex system. For example, station lines may only be aggregated from a single Centrex CLEC system to a single CLEC serving location for rating purposes. CLEC may not specify a Central Office as a CLEC location for the termination of Centrex station lines.

6.2.2.10 Private line service for Special Access ordered from Qwest's FCC No. 5 Tariff is available for resale but not at a wholesale discount. Private line service used for other than Special Access and not ordered from Qwest's FCC No. 1 Tariff is available for resale at a wholesale discount.

6.2.2.11 Intentionally Left Blank.

6.2.2.12 Telecommunications Services provided directly to CLEC for its own use and not resold to End User Customers must be identified by CLEC as such, and CLEC will pay Qwest retail prices for such services.

6.2.3 Qwest shall provide to CLEC Telecommunications Services for resale that are at least equal in quality and in substantially the same time and manner that Qwest provides these services to itself, its subsidiaries, its Affiliates, other Resellers, and Qwest's retail End User Customers. Qwest shall also provide resold services to CLEC in accordance with the Commission's retail service quality requirements, if any. Qwest further agrees to reimburse CLEC for credits or fines and penalties assessed against CLEC as a result of Qwest's failure to provide service to CLEC, subject to the understanding that any payments made pursuant to this provision will be an offset and credit toward any other penalties voluntarily agreed to by Qwest as part of a performance assurance plan. Reimbursement will be further subject to the following provisions:

6.2.3.1 Qwest shall provide service credits to CLEC for resold services in accordance with the Commission's retail service requirements that apply to Qwest retail services, if any. Such credits shall be limited in accordance with the following:

- a) Qwest's service credits to CLEC shall be subject to the wholesale discount;
- b) Qwest shall only be liable to provide service credits in accordance with

the resold services provided to CLEC. Qwest is not required to provide service credits for service failures that are the fault of the CLEC;

- c) Intentionally Left Blank;
- d) Intentionally Left Blank;
- e) In no case shall Qwest's credits to CLEC exceed the amount Qwest would pay a Qwest end user under the service quality requirements, less any wholesale discount applicable to CLEC's resold services; and
- f) Intentionally Left Blank.

6.2.3.2 Fines and Penalties --- Qwest shall be liable to pay to CLEC fines and penalties for resold services in accordance with the Commission's retail service requirements that apply to Qwest retail services, if any. Such credits shall be limited in accordance with the following:

- a) Qwest's fines and penalties paid to CLEC shall be subject to the wholesale discount;
- b) Qwest shall only be liable to provide fines and penalties in accordance with the resold services provided to CLEC. Qwest is not required to pay fines and penalties for service failures that are the fault of the CLEC;
- c) Reserved for Future Use;
- d) In no case shall Qwest's fines and penalties to CLEC exceed the amount Qwest would pay the Commission under the service quality plan, less any wholesale discount applicable to CLEC's resold services; and
- e) In no case shall Qwest be required to provide duplicate reimbursement or payment to CLEC for any service quality failure incident.

6.2.4 In the event that there are existing agreements between CLEC and Qwest for resale under Qwest retail Tariff discounts, CLEC may elect to continue to obtain services for resale under the existing agreements and retail Tariff discounts, or CLEC may elect to terminate such existing agreements and obtain such services by adopting this Agreement pursuant to the General Terms of this Agreement. If CLEC so adopts this Agreement, the associated wholesale discount specified in Exhibit A of this Agreement will apply.

6.2.5 Intentionally Left Blank.

6.2.6 The Parties may not reserve blocks of telephone numbers except as allowed by Applicable Law or regulation.

6.2.7 Qwest will accept at no charge one primary white pages Directory Listing for each main telephone number belonging to CLEC's End User Customer based on End User Customer information provided to Qwest by CLEC. Qwest will place CLEC's End User Customers' listings in Qwest's Directory Assistance Database and will include such listings in Qwest's Directory Assistance Services. Additional terms and conditions with respect to Directory Listings are described in Section 10 and Section 15 of this Agreement.

6.2.8 Qwest shall provide to CLEC, for CLEC's End User Customers, E911/911 call routing to the appropriate Public Safety Answering Point (PSAP). Qwest shall not be responsible for any failure of CLEC to provide accurate End User Customer information for listings in any databases in which Qwest is required to retain and/or maintain such information. Qwest shall provide CLEC's End User Customer information to the Automatic Location Identification/Database Management System (ALI/DMS). Qwest shall use its standard process to update and maintain CLEC's End User Customer service information in the ALI/DMS used to support E911/911 Services on the same schedule that it uses for its retail End User Customers. Qwest assumes no liability for the accuracy of information provided by CLEC, and CLEC assumes no liability for the accuracy of information or routing provided by Qwest. Additional information on listings and E911/911 is contained in Section 10 of this Agreement

6.2.9 If Qwest provides and CLEC accepts Qwest's Directory Assistance Services or operator services for CLEC's resold Local Exchange Service lines, such Directory Assistance and/or operator services may be provided with branding as provided in this Agreement in Sections 10.5 for Directory Assistance Services, and 10.7 for operator services.

6.2.10 CLEC shall designate the Primary Interexchange Carrier (PIC) assignments on behalf of its End User Customers for InterLATA and IntraLATA services. CLEC and Qwest shall follow all Applicable Laws, rules and regulations with respect to PIC changes. Qwest shall disclaim any liability for CLEC's improper InterLATA and IntraLATA PIC change requests, and CLEC shall disclaim any liability for Qwest's improper InterLATA and IntraLATA PIC change requests.

6.2.11 When End User Customers switch from Qwest to CLEC, or to CLEC from any other Reseller and if they do not change their service address to an address served by a different Central Office, such End User Customers shall be permitted to retain their current telephone numbers if they so desire.

6.2.12 In the event Qwest properly terminates the Provisioning of any resold services to CLEC for any reason, CLEC shall be responsible for providing any and all necessary notice to its End User Customers of the termination. In no case shall Qwest be responsible for providing such notice to CLEC's End User Customers. Qwest will provide notice to CLEC of Qwest's termination of a resold service on a timely basis as contained in Sections 5.4.2 and 5.4.3 and consistent with Commission rules and notice requirements.

6.2.13 The underlying network provider of a resold service shall be entitled to receive, from the purchaser of Switched Access Service, the appropriate access charges pursuant to its then effective Switched Access Service Tariff.

6.2.14 Resold services are available where facilities currently exist and are capable of providing such services without construction of additional facilities or enhancement of existing facilities. However, if CLEC requests that facilities be constructed or enhanced to provide resold services, Qwest will construct facilities to the extent necessary to satisfy its obligations to provide basic Local Exchange Service as set forth in Qwest's exchange and network services Tariff and Commission rules. Under such circumstances, Qwest will develop and provide to CLEC a price quote for the construction. Construction charges associated with resold services will be applied in the same manner that construction charges apply to Qwest retail End User Customers. If the quote is accepted by CLEC, CLEC will be billed the quoted price and construction will commence after receipt of payment.

6.2.15 For the purpose of Resale, Qwest, to the extent technically feasible, will provide Customized Routing. Such Customized Routing will include routing to CLEC's Operator Services or Directory Assistance platform. Qwest and CLEC will amend this Agreement pursuant to Section 5.30 with respect to rates and terms for Customized Routing.

6.3 Rates and Charges

6.3.1 Wholesale discounts for resold Telecommunications Services offerings are provided in Exhibit A. The Telecommunications Services offerings available for resale but excluded from the wholesale pricing arrangement in the Agreement are available at the retail Tariff, price list, catalog, or other retail Telecommunications Services offering rates. Telecommunications Services available for resale with or without a wholesale discount are subject to Commission-approved change, and any such changes shall apply from the effective date of such change on a going-forward basis only, unless the Commission orders otherwise.

6.3.2 The Customer Transfer Charges (CTC) as specified in Exhibit A apply when transferring services to CLEC.

6.3.3 A Subscriber Line Charge (SLC), or any subsequent federally mandated charge to End User Customers, will continue to be paid by CLEC without discount for each local exchange line resold under this Agreement. All federal and State rules and regulations associated with SLC as found in the applicable Tariffs also apply.

6.3.4 CLEC will pay to Qwest the Primary Interexchange Carrier (PIC) change charge without discount for CLEC End User Customer changes of Interexchange or IntraLATA Carriers. Any change in CLEC's End User Customers' Interexchange or IntraLATA Carrier must be requested by CLEC on behalf of its End User Customer, and Qwest will not accept changes to CLEC's End User Customers' Interexchange or IntraLATA Carrier(s) from anyone other than CLEC.

6.3.5 CLEC agrees to pay Qwest when its End User Customer activates any services or features that are billed on a per use or per activation basis (e.g., continuous redial, last call return, call back calling, call trace) subject to the applicable discount in Exhibit A as such may be amended pursuant to this Section. With respect to all such charges, Qwest shall provide CLEC with sufficient information to enable CLEC to bill its End User Customers pursuant to Section 21.

6.3.6 Miscellaneous Charges applicable to services ordered for resale by CLEC will apply if such Miscellaneous Charges apply for equivalent services ordered by Qwest retail End User Customers, except that CLEC will receive any applicable wholesale discount. Such Miscellaneous Charges include charges listed in the applicable Tariff.

6.3.7 If the Commission orders additional services to be available for resale, Qwest will revise Exhibit A to incorporate the services added by such order into this Agreement, effective on the date ordered by the Commission. If the Commission indicates those additional services must be available for resale at wholesale discount rates, those additional services will be added to this Agreement at the original Agreement wholesale discount rate.

6.3.8 Qwest shall timely bill new or changed Commission-ordered resale rates or charges using the effective date for such rates or charges as ordered by the Commission. If Qwest bills CLEC amounts different from new or changed rates or charges after the effective

date of such rates or charges, CLEC may dispute the charges in accordance with Section 21.8, and Qwest shall make appropriate bill adjustments or, if CLEC has paid the charges, provide appropriate bill credits on CLEC's bill(s).

6.3.9 If rates for services resold by CLEC under this Agreement change, based on changes in Qwest's Tariffs, catalogs, price lists or other retail Telecommunications Services offerings, charges billed to CLEC for such services will be based upon the new Tariff, catalogs, price lists, or other retail Telecommunications Services offerings rates less the applicable wholesale discount, if any, as agreed to herein or as established by Commission order. The new rate will be effective upon the effective date of the Tariff, catalog, price list, or other retail Telecommunications Services offerings.

6.3.10 Product-specific non-recurring charges as set forth in Qwest's applicable Tariffs, catalogs, price lists, or other retail Telecommunications Services offerings will apply when new or additional resold services are ordered and installed at CLEC's request for use by CLEC's End User Customers. Such non-recurring charges will be subject to the wholesale discount, if any, that applies to the underlying service being added or changed.

6.4 Ordering Process

6.4.1 CLEC, or CLEC's agent, shall act as the single point of contact for its end users' service needs, including without limitation, sales, service design, order taking, Provisioning, change orders, training, maintenance, trouble reports, repair, post-sale servicing, Billing, collection and inquiry. CLEC's end users contacting Qwest in error will be instructed to contact CLEC; and Qwest's end users contacting CLEC in error will be instructed to contact Qwest. In responding to calls, neither Party shall make disparaging remarks about each other. To the extent the correct provider can be determined, misdirected calls received by either Party will be referred to the proper provider of Local Exchange Service; however, nothing in this Agreement shall be deemed to prohibit Qwest or CLEC from discussing its products and services with CLEC's or Qwest's end users who call the other Party seeking such information. (See also Section 12.1.5.)

6.4.2 CLEC shall transmit to Qwest all information necessary for the ordering (Billing, listing and other information), installation, repair, maintenance and post-installation servicing, as described in Section 12. Qwest's procedures are described in the Qwest PCAT available on Qwest's public web site located at <http://www.qwest.com/wholesale/>. Information shall be provided using Qwest's designated Local Service Request (LSR) format which may include the LSR, End User Customer and resale forms.

6.4.3 Qwest will use the same performance standards and criteria for installation, Provisioning, maintenance, and repair of services provided to CLEC for resale under this Agreement as Qwest provides to itself, its Affiliates, its subsidiaries, other Resellers, and Qwest retail End User Customers. The installation, Provisioning, maintenance, and repair processes for CLEC's resale service requests are detailed in Section 12 of this Agreement, and are applicable whether CLEC's resale service requests are submitted via Operational Support System or by facsimile.

6.4.4 CLEC is responsible for providing to Qwest complete and accurate End User Customer listing information including initial and updated information for Directory Assistance Services, white pages directories, and E911/911 Emergency Services. The Ancillary Services Section of this Agreement contains complete terms and conditions for listings for Directory Assistance Services, white pages directories, and E911/911 Emergency Services.

6.4.5 If Qwest's retail End User Customer, or the End User Customer's new local service provider orders the discontinuance of the End User Customer's existing Qwest service in anticipation of End User Customer moving to a new local service provider, Qwest will render its closing bill to the End User Customer, discontinuing Billing as of the date of the discontinuance of Qwest's service to the End User Customer. If a CLEC that currently provides resold service to an End User Customer, or if End User Customer's new local service provider, orders the discontinuance of existing resold service from CLEC, Qwest will bill the existing CLEC for service through the date End User Customer receives resold service from the existing CLEC. Qwest will notify CLEC by Operational Support System interface, facsimile, or by other agreed-upon processes when an End User Customer moves from one CLEC to a different local service provider. Qwest will not provide CLEC with the name of the other local service provider selected by the End User Customer.

6.4.6 CLEC shall provide Qwest and Qwest shall provide CLEC with points of contact for order entry, problem resolution and repair of the resold services. These points of contact will be identified for both CLEC and Qwest in the event special attention is required on a service request.

6.4.7 Prior to placing orders on behalf of the End User Customer, CLEC shall be responsible for obtaining and maintaining Proof of Authorization (POA), as set forth in the Proof of Authorization Section of this Agreement.

6.4.8 Due Date intervals for CLEC's resale service requests are established when service requests are received by Qwest through Operational Support Systems or by facsimile. Intervals provided to CLEC shall be equivalent to intervals provided by Qwest to itself, its Affiliates, its subsidiaries, other Resellers, and to Qwest's retail End User Customers.

6.5 Billing

6.5.1 Qwest shall bill CLEC and CLEC shall be responsible for all applicable charges for the resold services as provided herein. CLEC shall also be responsible for all tariffed, cataloged, price listed, and other retail Telecommunications Services offerings charges and charges separately identified in this Agreement associated with services that CLEC resells to an End User Customer under this Agreement.

6.5.2 Qwest shall provide CLEC, on a monthly basis, within seven (7) to ten (10) Days of the last day of the most recent Billing period, in an agreed upon standard electronic Billing format as detailed in Section 12.2.5, Billing information including (1) a summary bill, and (2) individual End User Customer sub-account information consistent with the samples available for CLEC review.

6.6 Maintenance and Repair

6.6.1 Qwest will maintain its facilities and equipment used to provide CLEC resold services. CLEC or its End User Customers may not rearrange, move, disconnect or attempt to repair Qwest's facilities or equipment, including facilities or equipment that may terminate or be located at CLEC's End User Customer's premises, other than by connection or disconnection to any interface between Qwest and the End User Customer's facilities, without the written consent of Qwest.

6.6.2 Maintenance and Repair procedures are detailed in Section 12. Access to telephone numbers and Dialing Parity are discussed in Sections 13 and 14 respectively.

6.6.3 CLEC and Qwest will employ the procedures for handling misdirected repair calls as specified in Sections 12.1.5 of this Agreement.

6.6.4 When CLEC requests that Qwest perform trouble isolation with CLEC, a trouble isolation charge (TIC) charge will apply when Qwest dispatches a technician and the trouble is found to be on the End User Customer's side of the Demarcation Point. If the trouble is on the End User Customer's side of the Demarcation Point, and CLEC authorizes Qwest to repair the trouble on CLEC's behalf, Qwest will charge CLEC the appropriate Additional Labor Charges set forth in Exhibit A in addition to the TIC charge. No charges shall apply if CLEC indicates trouble in Qwest's network and Qwest confirms that such trouble is in Qwest's network. In the event that Qwest reports no trouble found in its network on a trouble ticket and it is subsequently determined that the reported trouble is in Qwest's network, then Qwest will waive or refund to CLEC any TIC charges assessed to CLEC for that same trouble ticket. If Qwest reported no trouble found in its network but, as a result of a repeat trouble (accepted trouble), CLEC demonstrates that the trouble is in Qwest's network, CLEC will charge Qwest a trouble isolation charge as described in Section 12.4.1.8.

6.6.4.1 Upon request by either Party, CLEC and Qwest will schedule a joint repair appointment. CLEC and Qwest technicians will meet at the agreed upon location at the scheduled time. If the Qwest technician does not show up at, or within thirty minutes following, the scheduled time, and trouble is found to be in the Qwest network, Qwest will credit CLEC the TIC Charge, or if Maintenance of Service Charges apply (for designed services) the Maintenance of Service Charge or CLEC's actual cost for the dispatch, whichever is less. If the CLEC technician does not show up at, or within thirty minutes following, the scheduled time and the trouble is found to be in CLEC's network, Qwest will charge, and CLEC will not dispute, the TIC charge or, if Maintenance of Service Charges apply, the Maintenance of Service Charge and the dispatch charge associated with that technician dispatch.

6.7 For Commingling, see Section 24.

SECTION 7.0 - INTERCONNECTION

7.1 Interconnection Facility Options

7.1.1 This Section describes the Interconnection of Qwest's network and CLEC's network for the purpose of mutual transfer of Exchange Service (EAS/Local) traffic, Exchange Access (IntraLATA Toll) traffic and the exchange of local Transit Traffic and Jointly Provided Switched Access (InterLATA Traffic and IntraLATA Toll Traffic) traffic. If both Parties do not intend to originate and terminate Exchange Service (EAS/Local) traffic to and from the other, then Section 7 of this agreement does not apply. Qwest will provide Interconnection at any Technically Feasible point within its network, including but not limited to, (i) the line-side of a local Switch (i.e., local switching); (ii) the Trunk Side of a local Switch, (iii) the trunk connection points for a tandem Switch, (iv) Central Office Cross Connection points, (v) out-of-band Signaling Transfer Points necessary to exchange traffic at these points and access Call-Related Databases, and (vi) points of access to Unbundled Network Elements. Interconnection at the foregoing points is provided for in Sections 7 and 9 of this Agreement. "Interconnection" is as described in the Act and refers, in this Section of the Agreement, to the connection between networks for the purpose of transmission and routing of Telephone Exchange Service traffic and Exchange Access (IntraLATA Toll) traffic at points (ii) and (iii) described above. Interconnection, Qwest's product which is currently named "Local Interconnection Service" ("LIS") is provided for the purpose of connecting the Trunk Sides of the Parties' Switches for the exchange of Exchange Service (EAS/Local) traffic; or for the exchange of Exchange Access (IntraLATA Toll) or Jointly Provided Switched Access traffic. New or continued Qwest local tandem to Qwest access tandem and Qwest access tandem to Qwest Access Tandem Switch connections are not required where Qwest can demonstrate that such connections present a risk of Switch exhaust and that Qwest does not make similar use of its network to transport the local calls of its own, any Affiliate's or any other Carrier's End User Customers.

7.1.1.1 Notwithstanding specific language that may be in other sections of this Agreement, Qwest shall provide to CLEC Interconnection at least equal in quality to that provided by Qwest to itself, to any subsidiary, Affiliate, or any other party to which it provides Interconnection. Qwest will provide Interconnection under rates, terms and conditions that are just, reasonable and non-discriminatory. In addition, Qwest shall comply with all state wholesale and retail service quality requirements.

7.1.1.2 If CLEC elects to use one-way trunks to exchange Exchange Service and Exchange Access (IntraLATA Toll) traffic, then Qwest shall interconnect to the CLEC network (i.e., establish a POI) for the delivery of Exchange Service and Exchange Access (IntraLATA Toll) traffic originating on the Qwest network.

7.1.1.3 Each Party will be responsible (including financial responsibility) for providing all of the facilities and engineering of its network on its respective side of each POI. Nothing in this Section 7.1.1.3 shall alter or limit Section 7.3.1.2 regarding mutual charges relating to Local Interconnection Service (LIS) trunking.

7.1.1.4 Intentionally Left Blank.

7.1.1.5 In order to fulfill its obligations to provide Interconnection, Qwest may self-provision its network requirements, or it may purchase services from a third party, such as special access, site license arrangements, signaling, or other components required to bring its originating traffic to the POI. Nothing in this Section 7.1.1.5 shall

relieve Qwest from the terms, conditions, and standards applicable under this Agreement.

7.1.2 Methods of Interconnection

Qwest shall provide Interconnection at any Technically Feasible point, by any Technically Feasible means at locations where CLEC interconnects with Qwest. The Parties shall establish at least one Point of Interconnection in Qwest territory in each LATA where CLEC has local Customers. The Parties may use one or more of several methods to transport Interconnection traffic from their respective originating Switch to the POI. Those methods include, but are not limited to, construction of owned transport, use of existing owned transport, and use of transport leased from a third party. The CLEC has the right to choose the POI if the CLEC chooses two-way trunking. In addition, a Party may choose the POI for its originating traffic when one-way trunking is used. Qwest's ability to choose the POI for its one-way trunking shall not be construed to expand CLEC's obligation to interconnect beyond the requirements set forth in Section 251(a) of the Act. Methods of Interconnection include the following:

7.1.2.1 Interconnection Entrance Facility. An Interconnection Entrance Facility obtained pursuant to this Agreement is the transport between a Party's POI and the other Party's Wire Center serving that POI. Interconnection may be accomplished through the provision of a DS1 or DS3 Interconnection Entrance Facility. When Qwest provides an Interconnection Entrance Facility, it extends from the Qwest Serving Wire Center to CLEC's Switch location or any Technically Feasible POI chosen by CLEC. Interconnection Entrance Facilities may not extend beyond the area served by the Serving Wire Center. When Qwest provides an Interconnection Entrance Facility, Interconnection Entrance Facilities may not be used for Interconnection with Unbundled Network Elements. The rates for Interconnection Entrance Facilities are provided in Exhibit A for one-way trunking associated with the applicable Ancillary Services set forth in Section 10.

7.1.2.2 Private Line

7.1.2.2.1 Qwest's Private Line Transport Service (provided pursuant to Qwest Tariff) is available as a method of transporting CLECs Interconnection traffic when CLEC uses such Private Line Transport service for multiple services. When CLEC uses Private Line in this manner, no additional charge will be due to Qwest for this span.

7.1.2.2.2 CLEC's Private Line Transport Service (provided pursuant to CLEC Tariff) is available as a method of transporting Qwest's Interconnection traffic. When Qwest uses Private Line in this manner, no additional charge will be due to CLEC for this span.

7.1.2.3 UNE transport is available pursuant to Section 9 of this Agreement. UNE transport is not available to Qwest.

7.1.2.4 Collocation. Interconnection may be accomplished through Collocation under the terms and conditions set forth in Section 8 of this Agreement. To the extent that CLEC has established a Collocation arrangement at a Qwest end office location, and has available capacity, CLEC may, at its sole option, provide one-way or two-way direct trunk facilities from that end office to CLEC's Wire Center. In each such case, a

POI is at CLEC's Collocation.

7.1.2.5 Mid-Span Meet POI. A Mid-Span Meet POI is a negotiated Point of Interface, limited to the Interconnection of facilities between one Party's Switch and the other Party's Switch. The actual physical Point of Interface and facilities used will be subject to negotiations between the Parties. Each Party will be responsible for its portion of the build to the Mid-Span Meet POI. A CLEC may not use remaining capability in an existing Mid-Span Meet POI to gain access to UNEs. These Mid-Span Meet POIs will consist of facilities used for the Provisioning of one-way or two-way Extended Area Service (EAS)/Local Traffic, IntraLATA Toll Traffic, and Jointly Provided Switched Access Interconnection trunks, as well as miscellaneous trunks such as Mass Calling Trunks, OS/DA, 911 and including any dedicated DS1, DS3 transport trunk groups used to provision originating CLEC traffic.

7.1.2.5.1 The Mid-Span Fiber Meet architecture requires each Party to own its equipment on its side of the Point of Interconnection (POI). CLECs may designate Mid Span Fiber Meet as the target architecture, except in scenarios where it is not technically feasible or where the Parties disagree on midpoint location.

7.1.2.5.2 In a Mid-Span Fiber Meet the Parties agree to establish technical interface specifications for Fiber Meet arrangements that permit the successful Interconnection and completion of traffic routed over the facilities that interconnect at the Fiber Meet. CLEC is responsible for providing at its location the Fiber Optic Terminal (FOT) equipment, multiplexing, and fiber required to terminate the optical signal provided by Qwest. Qwest is responsible for providing corresponding FOT(s), multiplexing, and fiber required to terminate the optical signal provided by CLEC.

7.1.2.5.3 The Parties shall, wholly at their own expense, procure, install, and maintain the FOT(s) in each of their locations where the Parties establish a Fiber Meet with capacity sufficient to provision and maintain all trunk groups. The Parties shall mutually agree on the capacity of the FOT(s) to be utilized based on equivalent DS1s and DS3s necessary for transport of forecasted local Interconnection trunking. Each Party will also agree upon the optical frequency and wavelength necessary to implement the Interconnection.

7.1.2.5.4 There are four (4) basic Fiber Meet design options. The option selected must be mutually agreeable to both Parties. Additional arrangements may be mutually developed and agreed to by the Parties pursuant to the requirements of this Section.

7.1.2.5.4.1 Design One: CLEC's fiber cable (four (4) fibers) and Qwest's fiber cable (four (4) fibers) are connected at an economically and Technically Feasible point selected by CLEC between CLEC and Qwest locations. This Interconnection point shall be a mutually agreeable location approximately midway between the two. The Parties' fiber cables would be terminated and then cross connected on a fiber termination panel as discussed below under the fiber termination point options section.

7.1.2.5.4.2 Design Two: CLEC will provide fiber cable to the last entrance (or Qwest designated) manhole at the Qwest tandem or End Office Switch. Qwest shall make all necessary preparations to receive and to allow and enable CLEC to deliver fiber optic facilities into that manhole. CLEC will provide a sufficient length of optical fire resistant cable for Qwest to pull through the Qwest cable vault and terminate on the Qwest fiber distribution frame (FDF) in Qwest's office. CLEC shall deliver and maintain such strands wholly at its own expense up to the POI. Qwest shall take the fiber from the manhole and terminate it inside Qwest's office on the FDF at Qwest's expense. Each Party will supply a fiber optic terminal at its respective end. The Parties will agree what remuneration, if any, CLEC will receive for providing the majority of the fiber optic cable. In this case, the POI shall be at the Qwest designated manhole location.

7.1.2.5.4.3 Design Three: Qwest will provide fiber cable to the last entrance (or CLEC designated) manhole at the CLEC location. CLEC shall make all necessary preparations to receive and to allow and enable Qwest to deliver fiber optic facilities into that manhole. Qwest will provide a sufficient length of optical fire resistant cable for CLEC to run the fiber cable from the manhole and terminate on the CLEC fiber distribution frame (FDF) in CLEC's location. Qwest shall deliver and maintain such strands wholly at its own expense up to the POI. CLEC shall take the fiber from the manhole and terminate it inside CLEC's office on the FDF at CLEC's expense. Each Party will supply a fiber optic terminal at its respective end. The Parties will agree on the remuneration, if any, Qwest will receive for providing the majority of the fiber optic cable. In this case, the POI shall be at the CLEC designated manhole location.

7.1.2.5.4.4 Design Four: Both CLEC and Qwest each provide two (2) fibers between their locations. This design may be considered where existing fibers are available near each Party's location. Both CLEC and Qwest will provide fiber cable to the last entrance manhole (unless both Parties designate otherwise) at the other's respective location. Both CLEC and Qwest will provide a sufficient length of optical fire resistant cable for the other to run the fiber cable from the manhole and terminate on each Party's respective fiber distribution frame in each Party's respective location. Each Party shall deliver and maintain such strands wholly at its own expense up to the POI. Each Party shall take the fiber from the manhole and terminate it inside each Party's respective office on the Fiber Distribution Frame (FDF) at each Party's respective expense. Both Parties will work cooperatively to terminate each other's fiber in order to provision this joint point-to-point SONET system. Both Parties will work cooperatively to determine the appropriate technical handoff for purposes of demarcation and fault isolation.

7.1.2.6 Qwest agrees to provide local Interconnection trunk diversity to the same extent it does so in Qwest's local network.

7.1.2.7 Third party transport may be used by either Party as a method of Interconnection. Nothing in this Section 7.1.2.7 relieves either Party from its obligations

under this Agreement.

7.1.2.8 CLEC may request any other Technically Feasible method of Interconnection via the Bona Fide Request (BFR) Process. If however, a particular arrangement has been previously provided to a third party or is offered by Qwest as a product, Qwest shall provide the arrangement to CLEC at the same terms, conditions, and prices.

7.2 Mutual Exchange of Traffic

7.2.1 Description

7.2.1.1 This Section 7.2 addresses the exchange of traffic between CLEC's network and Qwest's network. Where either Party interconnects and delivers traffic to the other from third parties, each Party shall bill such third parties the appropriate charges pursuant to its respective Tariffs or contractual offerings for such third party terminations. Unless otherwise agreed to by the Parties, via an amendment to this Agreement, the Parties will directly exchange traffic between their respective networks without the use of third party transit providers provided that Qwest does not have any Switches subtending the tandem of a third party.

7.2.1.2 The traffic types to be exchanged under this Agreement include:

7.2.1.2.1 Exchange Service or Extended Area Service (EAS/Local) traffic as defined in this Agreement.

7.2.1.2.2 Exchange Access (IntraLATA Toll) traffic as defined in this Agreement.

7.2.1.2.3 Jointly Provided Switched Access traffic as defined in Section 7.5.1 is associated with Meet Point Billing.

7.2.1.2.4 Transit Traffic is any traffic that originates from one Telecommunications Carrier's network, transits another Telecommunications Carrier's network, and terminates to yet another Telecommunications Carrier's network ("Transit Traffic"). For purposes of the Agreement, Transit Traffic does not include Jointly Provided Switched Access traffic. Transit service is provided by Qwest, as a local and access tandem provider, to CLEC to enable the completion of calls originated by or terminated to another Telecommunications Carrier (such as another CLEC, an existing LEC, or a wireless Carrier), which is connected to Qwest's local or access tandems. To the extent that CLEC's Switch functions as a local or Access Tandem Switch, it and its subtending Switches will be so listed in the Local Exchange Routing Guide (LERG) and CLEC may also provide transit service to Qwest. Either Party can pass Transit Traffic to or from Carriers that directly subtend such Party's tandem as reflected in the LERG.

7.2.1.2.5 The Parties have agreed not to include Virtual NXX ("VNXX") specific language in this Agreement, which includes bill and keep reciprocal compensation and specific LIS trunking provisions (see Section 7.3.1.2). The

Parties reserve their rights to propose adding VNXX-specific language to the Agreement, pursuant to Section 5.30 of this Agreement.

7.2.2 General Terms

7.2.2.1 Transport and Termination of Exchange Service (EAS/Local) traffic will be according to the terms set forth in Sections 7.3.1.1 and 7.3.1.2 regarding Bill and Keep and LIS trunking.

7.2.2.1.1 Intentionally Left Blank.

7.2.2.1.2 Except as provided in Sections 7.3.1.1 and 7.3.1.2, the transport of Exchange Service (EAS/Local) traffic may occur in several ways such as:

7.2.2.1.2.1 One-way or two-way trunk groups may be established. However, if either Party elects to provision its own one-way trunks for delivery of Exchange Service (EAS/Local) traffic to be terminated on the other Party's network, the other Party must also provision its own one-way trunks to the extent that traffic volumes warrant. To the extent there is a dispute, Section 5.18 applies.

7.2.2.1.2.2 CLEC may purchase transport services from Qwest or from a third party, including a third party that has leased the Private Line Transport Service facility from Qwest. Such transport provides a transmission path for the LIS trunk to deliver the originating Party's Exchange Service (EAS/Local) traffic to the terminating Party's end office or tandem for call termination. Transport may be purchased from Qwest as tandem routed (i.e., tandem switching, tandem transmission and direct trunked transport) or direct routed (i.e., direct trunked transport). This Section is not intended to alter either Party's obligation under Section 251(a) of the Act.

7.2.2.1.3 When either Party utilizes the other Party's tandem Switch for the exchange of local traffic, where there is a DS1's worth of traffic (512 CCS) between the originating Party's End Office Switch delivered to the other Party's tandem Switch for delivery to one of the other Party's End Office Switches, the tandem provider is entitled to provide alternate Interconnection proposals for the other Party's consideration. Such proposals may include the request to establish a direct end office trunk group to the Party's End Office Switch.

7.2.2.1.4 Direct Trunked Transport is provisioned by Qwest between the Serving Wire Center of the POI and the tandem or direct end office, if ordered by CLEC. Tandem transmission rates, as specified in Exhibit A of this Agreement, will apply to the transport provided from the tandem to Qwest's end office.

7.2.2.1.5 Qwest will provide Direct Trunked Transport LATA-wide where facilities are available. If Direct Trunked Transport is greater than fifty (50) miles in length, and existing facilities are not available in either Party's network, and the Parties cannot agree as to which Party will provide the facility, the Parties will bring the matter before the Commission for resolution on an Individual Case Basis. Nothing in this Section alters CLEC's right to interconnect at any Technically Feasible point in Qwest's network.

7.2.2.2 Exchange Access (IntraLATA Toll) Traffic

7.2.2.2.1 The Parties will use industry standards, if any, developed to handle the Provisioning and Billing of Exchange Access (IntraLATA Toll). Exchange Access (IntraLATA Toll) traffic shall be delivered to the terminating Party at the access tandem, the toll tandem (if any), or via separate trunks to the terminating Party's end office(s), as designated by the originating Party.

7.2.2.3 Transit Traffic

7.2.2.3.1 Qwest will accept traffic originated by CLEC for termination to another CLEC, existing LEC or wireless Carrier that is connected to Qwest's local and/or access tandems. Qwest will also terminate traffic from these other Telecommunications Carriers to CLEC. For purposes of the Agreement, Transit Traffic does not include traffic carried by Interexchange Carriers. That traffic is defined as Jointly Provided Switched Access.

7.2.2.3.2 To the extent Technically Feasible, the Parties involved in transporting Transit Traffic will deliver calls to each involved network with CCS/SS7 Protocol and the appropriate ISUP/TCAP messages to facilitate full Interoperability and Billing functions.

7.2.2.3.3 The originating company is responsible for payment of appropriate rates to the transit company. With respect to the terminating company, arrangements between companies that are not a party to this Agreement are outside the scope of this Agreement. Qwest will not be responsible for payments to the terminating company for traffic originated by CLEC which transits Qwest's network and is delivered to the terminating company on behalf of CLEC, except as provided in Section 7.2.2.3.3.1. CLEC agrees that Qwest is not responsible for and CLEC further agrees not to bill Qwest for traffic that transits the Qwest network and terminates to CLEC's network, except as provided in Section 7.2.2.3.3.1.

7.2.2.3.3.1 Notwithstanding any other provision of this Agreement, in the case of Exchange Access (IntraLATA Toll) traffic where Qwest is the designated IntraLATA Toll provider, or where Qwest has agreed to be a presubscribed IntraLATA Toll provider for other LEC end user toll Customers, Qwest will be responsible to CLEC for payment of CLEC Tariff access rates for traffic terminating to CLEC's network. Qwest will also be responsible for traffic originating from CLEC's network for a CLEC End User Customer utilizing an intraLATA Toll-free service where Qwest is the provider of the intraLATA Toll-free service.

7.2.2.3.3.2 CLEC is not responsible for and Qwest further agrees not to bill CLEC Transit Traffic charges when Qwest is the Exchange Access (IntraLATA Toll) or Jointly Provided Switched Access Service provider. Transit Traffic charges do not apply when a call originates from a QPP line.

7.2.2.3.4 When Qwest receives an unqueried call from CLEC to a number that has been ported to another local services provider (i.e., not Qwest), the

transit rate will apply.

7.2.2.4 Jointly Provided Switched Access

7.2.2.4.1 The Parties will use industry standards developed to handle the Provisioning and Billing of Jointly Provided Switched Access Service (such as MECAB, MECOD, SECAB, and the Parties' FCC and state access Tariffs). Each Party will bill the IXC the appropriate portion of its Switched Access Service rates. Qwest will also provide the one-time notification to CLEC of the Billing name, Billing address and Carrier identification codes of the IXCs subtending any access tandems to which CLEC directly connects. This type of traffic is discussed separately in this Section. Qwest will deliver to CLEC all Jointly Provided Switched Access traffic that it receives from IXCs destined to CLEC End User Customers. Unless otherwise agreed to by the Parties, such traffic must be delivered by Qwest over the Jointly Provided Switched Access trunk groups groomed for a specific CLEC end office (i.e., those publicly-dialable NPA NXX Codes served by that end office).

7.2.2.4.2 The Parties will exchange SS7 signaling messages with one another, where and as available. Subject to Section 7.3.8.1, the Parties will provide all line information signaling parameters including, but not limited to, Calling Party Number (CPN) (unless CPN is unavailable as described in 47 CFR 64.1601(d)), Charge Number (if it is different from CPN), and originating line information ("OLI"). For terminating FGD, either Party will pass any CPN it receives from other Carriers. All privacy indicators will be honored. Where available, network signaling information such as Transit Network Selection ("TNS") parameter (SS7 environment) will be provided by the end office Party wherever such information is needed for call routing or Billing. Where TNS information has not been provided by the end office Party, the tandem Party will Route originating Switched Access Service Traffic to the IXC using available translations. The Parties will follow all industry Ordering and Billing Forum (OBF) adopted guidelines pertaining to TNS codes.

7.2.2.5 Standards

7.2.2.5.1 The Parties agree to establish Binary 8 Zero Substitution - Extended Super Frame ("B8ZS ESF") line protocol, where Technically Feasible.

7.2.2.5.2 In those cases where either Party's equipment will not support 64K Clear Channel Capability ("CCC"), the Parties agree to establish AMI line coding. Any AMI line coding will be Superframe formatted.

7.2.2.5.3 Where additional equipment is required, such equipment shall be obtained, engineered, and installed to support 64K CCC trunks.

7.2.2.5.4 Interconnection may be accomplished through the Provisioning of a DS1 or DS3 Interconnection Entrance Facility. CLECs may request Interconnection at the OCn facility level via a BFR. Nothing in this Section precludes mid-span Meet Points at the optical carrier level without a BFR.

7.2.2.6 Signaling Options

7.2.2.6.1 Intentionally Left Blank.

7.2.2.6.2 Intentionally Left Blank.

7.2.2.6.3 The Parties will use SS7 signaling wherever it exists. Interconnection trunks with MF signaling may be ordered by CLEC if the Qwest Central Office Switch does not have SS7 capability or if the Qwest Central Office Switch does not have SS7 diverse routing.

7.2.2.7 The measurement of terminating Exchange Service traffic begins when the terminating entry Switch receives answer supervision from the far-end destination Switch for the called party number indicating the call has been answered. The measurement of terminating call usage over Interconnection trunks ends when the terminating entry Switch receives disconnect supervision from either the far-end destination Switch indicating the called number has disconnected, or CLEC's Point of Interconnection, whichever is recognized first by the entry Switch. This is commonly referred to as "conversation time." The Parties will only charge for actual minutes of use and/or fractions thereof of completed calls. Minutes of use are aggregated at the end of the Billing cycle by end office and rounded to the nearest whole minute.

7.2.2.8 Interconnection Trunk Forecasting

7.2.2.8.1 Both CLEC and Qwest shall work in good faith to define a mutually agreed upon forecast of trunking for Exchange Service, Exchange Access (IntraLATA Toll), Transit Traffic and Jointly Provided Switched Access traffic.

7.2.2.8.2 The Parties agree to provide non-binding trunk forecast information to each other twice a year. The semi-annual forecasts shall include:

7.2.2.8.2.1 Yearly forecasted quantities of trunks to the other network for three (current and plus 1 and plus 2) years where possible;

7.2.2.8.2.2 The use of Common Language Location Identifier, described in Telcordia documents 795-100-100 and 795-400-100 and;

7.2.2.8.2.3 A description of major network projects anticipated for the following year. Major network projects include trunking or network rearrangements, shifts in anticipated traffic patterns, or other activities that are reflected by a significant increase or decrease in trunking demand for the following forecasting period.

7.2.2.8.3 Both Parties shall have the obligation to participate in joint planning meetings at semi-annual intervals to establish trunk design and Provisioning requirements. The Parties agree to provide mutual trunk forecast information to ensure End User Customer call completion between the Parties' networks. Such forecasts shall be for trunking that impacts the Switch capacity and facilities of each Party. Qwest shall provide trunk group specific projections to CLEC on or before the date of the joint planning meeting.

7.2.2.8.4 The Parties agree that trunk forecasts are non-binding and are

based on the information available to each respective Party at the time the forecasts are prepared. Unforecasted trunk demands, if any, by one Party will be accommodated by the other Party as soon as practicable based on facility availability. Switch capacity growth requiring the addition of new switching modules may require six (6) months to order and install.

7.2.2.8.5 In the event of a dispute regarding forecast quantities, where in each of the preceding eighteen (18) months, trunks required is less than fifty percent (50%) of forecast, Qwest will make capacity available in accordance with the lower forecast.

7.2.2.8.6 Intentionally Left Blank.

7.2.2.8.7 At the request of either Party, a joint planning meeting will be held to bring clarity to each Party's forecast. No later than two (2) weeks prior to the joint planning meeting, the Parties shall exchange information to facilitate the planning process. Both Parties shall provide information on major network projects anticipated for the following year that may impact the other Party's forecast or Interconnection requirements. Qwest shall provide CLEC a report reflecting then current spare capacity at each Qwest Switch that may impact the Interconnection traffic. Qwest shall also provide a report reflecting then current blocking of local direct and alternate final trunk groups, Interconnection and non-Interconnection alike. CLEC will be provided trunk group data on its own trunks. Qwest shall also provide a report reflecting tandem-routed Interconnection trunking that has exceeded 512BHCCS. Such information is proprietary to each respective Party and is provided under non-disclosure and is to be used by the other Party solely for Interconnection network planning.

7.2.2.8.8 In addition to the above information, Qwest will provide the following information through the Local Exchange Routing Guide or the Interconnections (ICONN) Database. The LERG is available through Telcordia. ICONN is available through the Qwest Web site.

- a) Qwest Tandems and Qwest end offices (LERG);
- b) CLLI codes (LERG);
- c) Business/Residence line counts (ICONN);
- d) Switch type (LERG or ICONN); and
- e) Current and planned Switch generics (ICONN).

Qwest will notify CLEC six (6) months prior to LERG amendment, the anticipation of a new local, toll, or Access Tandem Switch.

7.2.2.8.9 Intentionally Left Blank.

7.2.2.8.10 Qwest will provide CLEC information for specific technical capabilities (e.g., ISDN deployment, 64 CCC, etc.) on Qwest's web site, <http://www.qwest.com/disclosures>.

7.2.2.8.11 When appropriate, a Party will notify the other Party through a Trunk Group Servicing Request (TGSR) process of the need to take action and place orders in accordance with the forecasted trunk requirements. The other Party shall respond to the TGSR within ten (10) business days of receipt.

7.2.2.8.12 The following terms shall apply to the forecasting process:

7.2.2.8.12.1 Each Party's forecasts shall be provided to the other Party in the Trunk Forecast Form. Throughout this Section 7, there are references to types of forms. All such forms shall comply with the terms and conditions set forth in this Agreement. Such forms are for administrative purposes only and, notwithstanding any language in any form to the contrary, nothing in the forms alters or amends the terms of this Agreement.

7.2.2.8.12.2 Any information provided by one Party to the other Party outside of the normal forecasting process to modify the forecast, and forecasting information disclosed by one Party to the other Party shall be deemed Confidential Information and the receiving Party shall not distribute, disclose or reveal, in any form, this material other than as allowed and described in subsections 5.16.9.1 and 5.16.9.2.

7.2.2.8.12.3 Intentionally Left Blank.

7.2.2.8.12.4 Intentionally Left Blank.

7.2.2.8.13 If a trunk group is consistently utilized (trunks required over trunks in service) at less than fifty percent (50%) of rated busy hour capacity each month of any consecutive three (3) month period, Qwest will notify CLEC of Qwest's desire to resize the trunk group. Such notification shall include Qwest's information on current utilization levels. If CLEC does not submit an ASR to resize the trunk group within thirty (30) Days of the written notification, Qwest may reclaim the unused facilities and rearrange the trunk group. When reclamation does occur, Qwest shall not leave the CLEC-assigned trunk group with less than twenty five percent (25%) excess capacity. Ancillary trunk groups are excluded from this treatment.

7.2.2.8.14 Intentionally Left Blank.

7.2.2.8.15 Each Party shall provide a specified point of contact for planning, forecasting and trunk servicing purposes.

7.2.2.8.16 Interconnection facilities provided on an outside plant Route that involves extraordinary circumstances may be subject to the Construction Charges, as detailed in Section 19 of this Agreement. When Qwest claims extraordinary circumstances exist, it must apply to the Commission for approval of such charges by showing that CLEC alone is the sole cause of such construction. Qwest shall initiate such proceeding within ten (10) Days of notifying CLEC in writing that it will not construct the requested facilities, or within ten (10) Days of notice from CLEC in writing that Qwest must either commence construction of the facilities or initiate such proceeding with the Commission. In this proceeding, Qwest shall not object to using the most expeditious procedure

available under state law, rule or regulation. Qwest shall be relieved of its obligation of constructing such facilities during pendency of the proceeding before the Commission. If the Commission approves such charges, Qwest and CLEC will share costs in proportion to each Party's use of the overall capacity of the outside plant Route involved. Qwest and CLEC may also choose to work in good faith to identify and locate alternative routes that can be used to accommodate CLEC forecasted build. Extraordinary circumstances include, but are not limited to, natural obstructions such as lakes, rivers, or steep terrain, and legal obstructions such as governmental, federal, Native American or private rights of way. For the reasons stated in this Section, there are no rates in Exhibit A and none will apply until approval by the Commission. At that time, the Commission approved rate will apply. The standard Qwest forecast period of six (6) months may not apply under these circumstances. Construction Charges shall not apply in the event that construction is an augment of an existing Route.

7.2.2.9 Trunking Requirements

7.2.2.9.1 With respect to trunks used to carry Exchange Service (EAS/Local) traffic and Exchange Access (IntraLATA Toll) traffic, CLEC may elect either one-way or two-way trunking arrangements. If CLEC elects to use a one-way trunking arrangement, then Qwest will also provision its own one-way trunks for Exchange Service (EAS/Local) traffic and Exchange Access (IntraLATA Toll). With respect to trunks used to carry Jointly Provided Switched Access traffic, CLEC may establish two-way trunk groups.

7.2.2.9.2 The Parties will provide designed Interconnection facilities that meet the same technical criteria and service standards, such as probability of blocking in peak hours and transmission standards, in accordance with current industry standards, applicable State requirements and the Performance Indicator Definitions.

7.2.2.9.2.1 Qwest shall provide monthly reports to CLEC on all Interconnection trunk groups and quarterly reports on all interoffice trunk groups carrying EAS/local traffic between Qwest tandem Switches and Qwest End Office Switches. The reports will contain busy hour traffic data, including but not limited to, overflow and the number of trunks in each trunk group.

7.2.2.9.3 The Parties shall establish the following separate and distinct trunk groups:

- a) Directory assistance trunks (where the Switch type requires separation from operator services trunks);
- b) One-way 911/E911 trunks;
- c) Operator inward trunks for the transmission and routing of BLV/BLVI traffic between each Party's operator service bureau;
- d) Mass calling trunks, if applicable;

7.2.2.9.3.1 CLEC may combine Exchange Service (EAS/Local); Exchange Access (IntraLATA Toll), carried solely by Carriers in their capacity as Local Exchange Carriers; Jointly Provided Switched Access, InterLATA and IntraLATA toll involving a third-party IXC; and Transit Traffic in a single Interconnection trunk group at an access tandem through an arrangement defined in 7.2.2.9.6 or may transmit such traffic types on separate LIS trunk groups. If traffic is combined, Section 7.3.9 of this Agreement applies.

7.2.2.9.3.2 Exchange Service (EAS/Local) traffic and Switched Access traffic including Jointly Provided Switched Access Service Traffic, may be combined on the same trunk group. If combined, the originating Carrier shall provide to the terminating Carrier, each quarter, Percent Local Use (PLU) factor(s) that can be verified with individual call record detail. Call detail or direct jurisdictionalization using Calling Party Number information may be exchanged in lieu of PLU if it is available.

7.2.2.9.4 Trunk group connections will be made at a DS1 or multiple DS1 level for exchange of Exchange Service (EAS/Local) and IntraLATA Toll Traffic/Jointly Provided Switched Access traffic. Directory Assistance, 911/E911, Operator busy line interrupt and verify; and Toll Free Service trunk groups may be made below a DS1 level, as negotiated.

7.2.2.9.5 The Parties will provide Common Channel Signaling (CCS) to one another in conjunction with all trunk circuits, except as provided below.

a) The Parties will provision all trunking using SS7/CCS capabilities. Redundant MF signaling networks will not be provided unless specifically called for in this Agreement. Exceptions to this arrangement would be limited to operator services trunking, Directory Assistance trunking, 911 trunking and any others currently available in the Qwest network only on MF signaling. Qwest will not require a Bona Fide Request to accomplish Interconnection with a Qwest Central Office Switch not currently equipped for SS7 and where MF signaling is used. When the SS7/CCS option becomes available in the Qwest network for said trunking, the Parties will provision new trunks using SS7. In addition, the Parties will jointly work to convert existing trunking to SS7, as appropriate; and

b) When the Parties interconnect via CCS for Jointly Provided Switched Access Service, the tandem provider will provide MF/CCS interworking as required for Interconnection with Interexchange Carriers who use MF signaling.

7.2.2.9.6 The Parties shall terminate Exchange Service (EAS/Local) traffic on tandem or end office Switches. When there is a DS1 level of traffic (512 BHCCS) between CLEC's Switch and a Qwest End Office Switch, Qwest may request CLEC to order a direct trunk group to the Qwest End Office Switch. CLEC shall comply with that request unless it can demonstrate that such compliance will impose upon it a material adverse economic or operations impact. Furthermore, Qwest may propose to provide Interconnection facilities to the local tandems or end offices served by the Access Tandem at the same cost

to CLEC as Interconnection at the Access Tandem. If CLEC provides a written statement of its objections to a Qwest cost-equivalency proposal, Qwest may require it only: (a) upon demonstrating that a failure to do so will have a material adverse affect on the operation of its network and (b) upon a finding that doing so will have no material adverse impact on the operation of CLEC, as compared with Interconnection at such Access Tandem.

7.2.2.9.6.1 Qwest will allow Interconnection for the exchange of local traffic at Qwest's Access Tandem without requiring Interconnection at the local tandem, at least in those circumstances when traffic volumes do not justify direct connection to the local tandem; and regardless of whether capacity at the Access Tandem is exhausted or forecasted to exhaust.

7.2.2.9.7 To the extent Qwest is using a specific end office to deliver limited tandem switching functionality to itself, a wireless service provider, another CLEC, or another LEC, it will provide the same trunking for CLEC.

7.2.2.9.8 Alternate Traffic Routing. If CLEC has an Interconnection trunk arrangement which provides two (2) paths to a Qwest end office (one (1) Route via a tandem and one (1) direct Route), CLEC may elect to utilize alternate traffic routing. CLEC traffic will be offered first to the direct trunk group (also referred to as the "primary high" Route) and then overflow to the tandem group (also referred to as the "alternate final" or "intermediate high" Route) for completion to Qwest end offices. The Parties will work cooperatively to develop and deploy additional alternate routing arrangements (e.g., intermediate high trunk groups) to resolve unusual traffic issues.

7.2.2.9.9 Host-Remote. When a Qwest Wire Center is served by a remote End Office Switch, CLEC may deliver traffic to the host Central Office or to the tandem. CLEC may deliver traffic directly to the remote End Office Switch only to the extent Qwest has arranged similar trunking for itself or others. For remote Switches that currently lack direct trunking capability, Qwest will accept Bona Fide Requests for Trunk Side access.

7.2.2.9.10 Regardless of the number of Location Routing Numbers (LRNs) used by a CLEC in a LATA, Qwest will Route traffic destined for CLEC Customers via direct trunking where direct trunking has been established. In the event that direct trunking has not been established, such traffic shall be routed via the tandem that the end office subtends.

7.2.2.9.11 All originating Toll Free Service calls for which the end office Party performs the SSP function, if delivered to the tandem Party, shall be delivered by the end office Party using GR-394 CORE format for IXC bound calls, or using GR-317-CORE format for LEC bound calls.

7.2.2.9.12 Intentionally Left Blank.

7.2.2.9.13 The originating Party will determine trunk routing for Exchange Service and Exchange Access (IntraLATA Toll) traffic it delivers to the other Party. Where one-way trunking is in use, the terminating Party may send the originating Party a TGSR to (1) groom out trunks to one or more alternative

Switches or (2) augment or diminish certain trunk groups. Upon receipt of a TGSR, the receiving Party agrees to promptly evaluate the request and reply whether it agrees to implement the TGSR action. When two-way trunks are in use, Qwest may send CLEC a TGSR for such purposes.

7.2.2.9.14 Intentionally Left Blank.

7.2.2.9.15 The Parties will work cooperatively to assure that reasonable diversity is achieved among the trunk groups between each Party's Switches within each LATA.

7.2.2.9.16 The Parties shall deliver Exchange Service (EAS/Local) traffic, Transit Traffic and Exchange Access (IntraLATA Toll) traffic over one or more trunk groups, groomed for a specific tandem, only traffic destined for those publicly-dialable NPA NXX Codes served by end offices that directly subtend such tandem; and those providers (including, but not limited to CMRS providers, other independent LECs, and CLECs) that directly connect to such tandem. Qwest may not block incorrectly routed Exchange Service (EAS/Local) traffic, Transit Traffic, Exchange Access (IntraLATA Toll) traffic or Jointly Provided Switched Access traffic delivered by third parties to Qwest. Qwest will Route such incorrectly routed traffic from the Switch where it receives the third party traffic to the terminating CLEC. If traffic is incorrectly routed, Qwest and CLEC will, upon request by CLEC, work cooperatively to attempt to identify the cause of the incorrect routing and to contact third parties as needed to attempt to correct the routing. Correctly routed traffic delivered by third parties to Qwest and Qwest originated traffic will be routed over the appropriate trunk group (e.g., if CLEC elects separate trunk groups pursuant to Section 7.2.2.9.3.1, Jointly Provided Switched Access traffic will be routed over InterLATA Traffic trunk groups).

7.2.2.9.17 The Parties shall deliver over Exchange Service and Exchange Access (IntraLATA Toll) traffic trunk groups groomed for a specific end office, only traffic destined for those publicly-dialable NPA NXX Codes served by that end office, unless otherwise agreed to by the Parties.

7.2.2.9.18 The source for the routing information for all traffic shall be the then current version of the LERG, unless otherwise agreed to between the Parties.

7.2.2.9.19 Where either Party delivers over the Exchange Service and Exchange Access (IntraLATA Toll) traffic trunk groups miscellaneous calls (i.e., time, weather, 976, Mass Calling Codes) destined for the other Party, it shall deliver such traffic in accordance with the serving arrangements defined in the LERG.

7.2.2.9.20 The Parties will cooperate to establish either (1) the capability to perform call gapping and other protective network traffic management controls or (2) separate, choke trunk groups for the completion of calls to Customers such as radio contest lines.

7.2.2.9.21 N11 codes (e.g., 411, 611, 911) shall not be sent between the Parties' networks over the Exchange Service and Exchange Access (IntraLATA

Toll) traffic trunk groups. Where applicable (e.g., 911), separate trunk groups will be established to carry traffic associated with such codes.

7.2.2.9.22 Each Party shall establish procedures whereby its operator bureau will coordinate with the operator bureau of the other Party in order to provide BLV/BLVI services on calls between their respective Line Side End User Customers. BLV and BLVI inquiries between operator bureaus shall be routed over the operator inward trunk groups(s) using network-routable access codes published in the LERG.

7.2.2.9.23 With respect to one-way Exchange Service and Exchange Access (IntraLATA Toll) traffic trunk groups, the originating Party shall be responsible for all Control Office functions for Interconnection trunks and trunk groups; as well as the overall coordination, installation, and maintenance responsibilities for these trunks. With respect to two-way trunk groups, CLEC will be responsible for all Control Office functions, and shall be responsible for the overall coordination, installation, and maintenance responsibilities for those trunks and trunk groups.

7.2.2.9.24 A blocking standard of one half of one percent (.005) shall be maintained during the average busy hour for final trunk groups between an end office and a tandem. All other final trunk groups are to be engineered to a blocking standard of one percent (.01). Qwest shall provide monthly call blocking reports to CLEC on all of its Interconnection trunk groups and quarterly call blocking reports on all interoffice trunk groups carrying EAS/local traffic between Qwest Tandem Office Switches and Qwest End Office Switches.

To ensure that blocking standards are being met, Qwest agrees to provide upon request of CLEC, the following information on all trunks, regardless of the type of traffic being transported:

7.2.2.9.24.1 the percentage of trunk groups blocked by Route in Qwest's network

7.2.2.9.24.2 traffic usage data (including, but not limited to, offered BHCCS and overflow) for each common trunk group subtending the Qwest tandem, and

7.2.2.9.24.3 the point(s) behind the tandem in Qwest's network where the blocking is occurring.

7.2.2.10 Testing

7.2.2.10.1 Acceptance Testing. At the time of installation of an Interconnection trunk group, and at no additional charge, each Party will complete acceptance tests to ensure that the service is operational and meets the applicable technical parameters.

7.2.2.10.2 Testing Capabilities

7.2.2.10.2.1 LIS Acceptance Testing is provided where

equipment is available, with the following test lines: seven-digit access to balance (100 type), milliwatt (102 type), nonsynchronous or synchronous, automatic transmission measuring (105 type), data transmission (107 type), loop-around, short circuit, open circuit, and non-inverting digital loop-back (108 type), and such other acceptance testing that may be needed to ensure that the service is operational and meets the applicable technical parameters.

7.2.2.10.2.2 In addition to LIS acceptance testing, other tests are available (e.g., additional cooperative acceptance testing, automatic scheduled testing, cooperative scheduled testing, manual scheduled testing, and non-scheduled testing) at the applicable Qwest Tariff rates. Testing fees will be paid by CLEC when requesting this type of testing.

7.2.2.10.3 Repair Testing. At the time of repair of an Interconnection trunk group, at no additional charge, each Party will complete tests to ensure that the service is operational and meets the applicable technical parameters.

7.2.2.11 Mileage Measurement. Where required, the mileage measurement for chargeable rate elements is determined in the same manner as the mileage measurement for V&H methodology as outlined in NECA tariff No. 4.

7.3 Bill and Keep and LIS Trunking

7.3.1 Based on Qwest's records, Qwest has determined that the traffic exchanged between the Parties is roughly in balance.

7.3.1.1 Bill and Keep for Reciprocal Compensation

7.3.1.1.1 Notwithstanding any other provision in this Agreement, effective January 1, 2001, the Parties will not bill one another for functions performed in terminating local/Extended Area Service ("EAS") and internet-bound traffic originated by the end-user of one Party and delivered to the other Party for termination to that Party's end users (except as otherwise provided below in Section 7.3.1.1.2).

7.3.1.1.2 The Parties agree that Bill-and-Keep does not apply to charges related to local transiting functions. Local transiting functions refers to switching and transport by one Party of local calls that do not originate or terminate with a retail end-user of that Party. The local transiting function charges of tandem switching and tandem transport will be billed to the Party originating a local call which does not terminate at an end user of the Party providing the transiting function, but rather which terminates to a third party provider's end user. Such rates are set forth in Exhibit A.

7.3.1.2 Local Interconnection Service (LIS) Trunking Charges

7.3.1.2.1 Notwithstanding anything contained in this Agreement to the contrary, effective January 1, 2001, neither Party will charge the other Party any recurring or non-recurring charges for LIS trunking services, such as (but not limited to) Entrance Facilities, Expanded Interconnection Channel Terminations

(EICTs), Direct Trunk Transport (DTT), multiplexing, or mileage charges, for two-way trunks between CLEC and Qwest. The terms of this Section 7.3.1.2.1 apply for all of these services in aggregate. The foregoing agreement does not apply to any such services individually. Further, this agreement is entered into only based upon the ratio described in Section 7.3.1.2.2. The foregoing agreement regarding LIS trunking charges shall not apply to one-way trunks to provision ancillary services such as (but not limited to) E911 Service or Directory Assistance.

7.3.1.2.2 Conditions Limiting Scope of Amendment. Section 7.3.1.2.1 is based upon the existing characteristics of CLEC's network. As of July 2001, the ratio of CLEC-provided LIS trunk transport to Qwest-provided LIS trunk transport to the Point of Interconnection ("POI"), including Direct end Office Trunks ("DEOTs") and local and toll tandem trunk groups, is approximately eleven (11) to one (1). Qwest shall have the right to audit, at its own expense, the supporting data and documentation respecting such ratio, and CLEC agrees to provide Qwest reasonable access to such data and documentation necessary to conduct such audit. As CLEC continues to build out its network, it anticipates that this ratio may move to approximately eight (8) to one (1). Qwest and CLEC agree that, if this ratio falls below 8-1, either Party may, at its option, on thirty Days written notice, terminate the provisions of 7.3.1.2.1, and the Parties agree to negotiate in good faith regarding charges for two-way LIS trunking based on then existing law and practices.

7.3.1.3 Intentionally Left Blank.

7.3.1.4 Entrance Facilities - The provisions of this Section 7.3.1.4 apply only when required by one of the exceptions identified in Section 7.3.1.2.

7.3.1.4.1 Recurring and non-recurring rates for Interconnection Entrance Facilities are specified in Exhibit A and will apply for those DS1 or DS3 facilities dedicated to use by LIS.

7.3.1.4.2 If CLEC chooses to use an existing facility purchased as Private Line Transport Service from the state or FCC access Tariffs, the rates from those Tariffs will apply.

7.3.2 Direct Trunked Transport - The provisions of this Section 7.3.2 apply only when required by one of the exceptions identified in Section 7.3.1.2.

7.3.2.1 Either Party may elect to purchase Direct Trunked Transport from the other Party.

7.3.2.1.1 Direct Trunked Transport (DTT) will apply between the Wire Center serving the POI (Serving Wire Center) and the terminating Party's Tandem or End Office Switches, as applicable, where direct trunking is requested. The applicable rates are described in Exhibit A. DTT facilities are provided as dedicated DS3, DS1 or DS0 facilities.

7.3.2.1.2 When DTT is provided to a local or access tandem for Exchange Service (EAS/Local) traffic, or to an access tandem for Exchange Access

(IntraLATA Toll), or Jointly Provided Switched Access traffic, the applicable DTT rate elements apply between the Serving Wire Center and the tandem. Additional rate elements for delivery of traffic to the terminating end office are tandem switching and tandem transmission. These rates are described below.

7.3.2.1.3 Mileage shall be measured for DTT based on V&H coordinates between the Serving Wire Center and the local/access tandem or end office.

7.3.2.1.4 Fixed Charges per DS0, DS1 or DS3 and per mile charges are defined for DTT in Exhibit A of this Agreement.

7.3.2.3 The provisions of this Section 7.3.2.3 apply only when required by one of the exceptions identified in Section 7.3.1.2. Multiplexing options (DS1/DS3 MUX or DS0/DS1 MUX) are available at rates described in Exhibit A.

7.3.3 Trunk Non-recurring charges

The provisions of this Section 7.3.3 apply only when required by one of the exceptions identified in Section 7.3.1.2.

7.3.3.1 Installation non-recurring charges may be assessed by the provider for each Interconnection trunk ordered at the rates specified in Exhibit A, or the CLEC's Tariff when the rates in the aggregate are not greater than the amount in Exhibit A.

7.3.3.2 Non-recurring charges for rearrangement may be assessed by the provider for each Interconnection trunk rearrangement ordered, at one-half (1/2) the rates specified in Exhibit A.

7.3.4 Intentionally Left Blank.

7.3.5 Miscellaneous Charges

7.3.5.1 Cancellation charges will apply to cancelled Interconnection trunk orders, based upon the critical dates, terms and conditions in accordance with Exhibit A.

7.3.5.2 For expedites, see Section 12.2.1.2.

7.3.6 Intentionally Left Blank.

7.3.7 Transit Traffic

The following rates will apply:

7.3.7.1 Local Transit and ISP-bound Transit: The applicable Interconnection tandem switching and tandem transmission rates at the assumed mileage contained in Exhibit A of this Agreement, apply to the originating Party. (See Section 7.3.1.1.2) The assumed mileage will be modified to reflect actual mileage, where the mileage can be measured, based on negotiations between the Parties.

7.3.7.2 IntraLATA Toll Transit: The applicable tariffed Switched Access Tandem

switching and tandem transmission rates apply to the originating CLEC or LEC. The assumed mileage contained in Exhibit A of this Agreement shall apply.

7.3.8 Signaling Parameters

7.3.8.1 The Parties will interconnect their networks using SS7 signaling as defined in Qwest Technical Publication 77342 and other applicable Qwest technical publications, if any, and Telecordia GR-317 and GR-394, including ISDN User Part ("ISUP") for trunk signaling and Transaction Capabilities Application Part ("TCAP"). Qwest and CLEC will not provide Calling Party Number (CPN) when prohibited from doing so by regulatory requirements. Qwest and CLEC are required to provide each other the proper signaling information (e.g., originating Calling Party Number (CPN), Charge Number (CHN), and destination call party number, etc.) per 47 CFR 64.1601 to enable each Party to issue bills in a complete and timely fashion. All CCS signaling parameters will be provided, where appropriate, including CPN, Originating Line Information Parameter (OLIP), calling party category, CHN, etc., and privacy indicators will be honored, as described in this Section. Where SS7 connections exist, each Party shall pass CPN and/or CHN information, where available and when passing CPN is not prohibited by regulatory requirements, on each EAS/Local Traffic and IntraLATA Toll Traffic call carried over Interconnection trunks. To the extent a Party combines Exchange Service (EAS/Local) and Exchange Access (IntraLATA Toll carried solely by Local Exchange Carriers), on a single LIS trunk group, all EAS/Local Traffic and IntraLATA Toll Traffic calls exchanged without either CPN information or CHN information will be billed as either EAS/Local Traffic or IntraLATA Toll Traffic in direct proportion to the minutes of use (MOU) of calls exchanged with CPN and/or CHN information for the preceding quarter, utilizing a PLU factor determined in accordance with Section 7.3.9 of this Agreement.

7.3.8.2 Traffic sent to the other Party on its Interconnection trunks without CPN (unless CPN is unavailable as described in 47 CFR 64.1601(d)) and CHN (valid originating information) will be handled in the following manner. The transit provider will be responsible for only its portion of this traffic, which will not exceed more than five percent (5%) of the total Exchange Service (EAS/Local Traffic) and Exchange Access (IntraLATA Toll) traffic delivered to the other Party. The Switch owner will provide to the other Party, upon request, information to demonstrate that Party's portion of no-CPN/CHN traffic does not exceed five percent (5%) of the total traffic delivered. The Parties will coordinate and exchange data as necessary to determine the cause of the CPN/CHN failure and to assist in its correction.

7.3.9 To the extent a Party combines Exchange Service or Exchange Access (IntraLATA Toll) carried solely by Local Exchange Carriers, and Jointly Provided Switched Access (InterLATA Traffic and IntraLATA Toll Traffic calls exchanged with a third-party IXC) traffic on a single LIS trunk group, the originating Party, at the terminating Party's request will declare quarterly PLU(s). Such PLU's will be verifiable with either call summary records utilizing Calling Party Number information for jurisdictionalization or call detail samples. The terminating Party should apportion per minute of use (MOU) charges appropriately.

7.3.10 IntraLATA Toll

7.3.10.1 Where either Party acts as an IntraLATA Toll provider, each Party shall bill the other the appropriate charges pursuant to its respective Tariff or Price Lists.

7.4 Ordering

7.4.1 In general, OBF guidelines for ordering Interconnection will be followed. When ordering Interconnection trunking, the ordering Party shall specify requirements on the Access Service Request (ASR). When the ordering Party requests facilities, routing, or optional features different than those determined to be available, the Parties will work cooperatively in determining an acceptable configuration, based on available facilities, equipment and routing plans. CLEC will order its trunks when it uses one-way trunks, for its originating traffic, or two-way trunks. Qwest will be responsible for ordering trunks when it uses one-way trunks for its originating traffic.

7.4.2 For each NXX Code assigned to CLEC by the NANPA, CLEC will provide Qwest with the CLLI codes of the Qwest tandems and the CLEC Point of Interface to which traffic associated with the NXX will be routed. For NXX Codes assigned to existing Interconnection trunk groups, CLEC will also provide Qwest with the Qwest assigned Two-Six Code (TGSN) to which each NXX will be routed. Information that is not currently available in the LERG may be provided via the Routing Supplemental Form-Wireline available on the Qwest web site: http://www.qwest.com/wholesale/notices/npa_nxxProcess.html. Either Party shall respond to a special request for a Supplemental Form when a single Switch is served by multiple trunk groups.

7.4.3 When either Party has ordered a DS3 or OCn entrance line facility, that Party will identify the DS1 channels of the DS3 to be used to provide connecting facility assignments (CFA). Also, if either Party has provided or ordered a DS1 facility, that Party will be responsible for identification of the DS0 channels of that DS1 facility to be used to provide CFA.

7.4.4 A joint planning meeting will precede initial trunking orders. These meetings will result in agreement and commitment that both Parties can implement the proposed plan and the transmittal of Access Service Requests (ASRs) to initiate order activity. The Parties will provide their best estimate of the traffic distribution to each end office subtending the tandem.

7.4.5 Intentionally Left Blank.

7.4.6 Service intervals and Due Dates for initial establishment of trunking arrangements at each new Switch location of Interconnection between the Parties will be determined on an Individual Case Basis, but generally no longer than one hundred twenty (120) business days after the date the plan contemplated by Section 7.4.4 is completed. If either Party cannot meet the 120 business day deadline, the Parties will meet and attempt to agree on a new Due Date. If the Parties cannot agree on a new Due Date, then the offending Party must show cause to the Commission why it cannot meet the original Due Date.

7.4.7 Intervals for the provision of Interconnection trunks will conform to the performance objectives set forth in Section 20. Any changes to the Interconnection trunk intervals will be made through the Change Management Process (CMP) applicable to the PCAT, pursuant to the procedures set forth in Exhibit G. Operational processes within Qwest

work centers are discussed as part of the CMP. Qwest agrees that CLEC shall not be held to the requirements of the PCAT.

7.4.8 The ordering Party may cancel an order at any time prior to notification that service is available. If the ordering Party is unable to accept service within thirty (30) Days after the Service Date, Billing for the service will commence. In such instances, the date Billing to commence will be the 31st Day beyond the Service Date.

7.5 Jointly Provided Switched Access Services

7.5.1 “Jointly Provided Switched Access Service” or “Jointly Provided Switched Access” is defined and governed by the FCC and state access Tariffs, CLEC Tariffs, Multiple Exchange Carrier Access Billing (MECAB) and Multiple Exchange Carrier Ordering and Design (MECOD) or SECAB Guidelines, and is not modified by any provisions of this Agreement. Both Parties agree to comply with such guidelines.

7.5.2 Qwest will agree to function as the Access Service Coordinator (ASC) as defined in the Multiple Exchange Carrier Ordering and Design Guidelines (MECOD)(Technical Reference SR-TAP-000984). Qwest will provide the operational, technical and administrative support required in the planning, Provisioning and maintenance involved in the joint access Provisioning process to the IXCs. Qwest will be unable to fulfill the role of ASC if CLEC does not fully comply with MECOD or SECAB requirements, including filing CLEC end offices and billed percentages (BPs) in the NECA 4 tariff.

7.5.3 Qwest and CLEC will each render a separate bill to the IXC, using the multiple bill, multiple Tariff option.

7.5.4 A charge will apply for Category 11-01-XX billable records sent in an EMI mechanized format. These records are used to provide information necessary for each Party to bill the Interexchange Carrier for Jointly Provided Switched Access Services and 8XX database queries. The charge is for each billable record created and transmitted and is listed in Exhibit A of this Agreement.

7.6 Transit Records

7.6.1 When Qwest or CLEC acts as a transit provider currently or in the future, the transit provider, upon request from the non-transit provider, will provide the non-transit provider wireline network usage data for calls originated by a wireline Local Exchange Carrier (LEC) where the call comes from a wireline LEC Switch, transits the transit provider’s network, and terminates to the non-transit provider’s network. Qwest and CLEC understand that this information is Carrier protected information under §222 of the Communications Act and shall be used solely for the purposes of Billing the wireline LEC. The non-transit provider will provide to the transit provider information so that the transit provider can provide transit records in a mechanized basis when Technically Feasible. This includes, but is not limited to: service center information, Operating Company Number, and state jurisdiction. Upon request from the non-transit provider and where Technically Feasible, the transit provider will provide the wireline network usage data as Category 11-01-XX.

7.6.2 When Qwest or CLEC acts as a transit provider currently or in the future, the transit provider, upon request from the non-transit provider, will provide the non-transit provider wireless network usage data for calls originated by Wireless Service Provider (WSP) where the

call comes from a WSP Switch, transits the transit provider's network, and terminates to the non-transit provider's network. Qwest and CLEC understand that this information is Carrier protected information under §222 of the Communications Act and shall be used solely for the purposes of Billing the WSP. The non-transit provider will provide to the transit provider information so that the transit provider can provide transit records in a mechanized basis when Technically Feasible. This includes, but is not limited to: service center information, Operating Company Number, and state jurisdiction. Upon request from the non-transit provider and where Technically Feasible, the transit provider will provide the wireless network usage data as Category 11-01-XX.

7.6.3 If the non-transit provider requests records pursuant to Section 7.6.1 or 7.6.2, the Parties will charge the same rate for Category 11-01-XX records sent in an EMI mechanized format. These records are used to provide information necessary for each Party to bill the Originating Carrier. The charge listed in Exhibit A of this Agreement is applicable to each transit record that meets the definition of a billable record.

SECTION 8.0 - COLLOCATION

8.1 Description

8.1.1 Collocation allows for the placing of equipment by CLEC at Qwest's Premises, where Technically Feasible, that is necessary for accessing Unbundled Network Elements (UNEs), ancillary services or Interconnection. Collocation includes the leasing to CLEC of physical space in Qwest Premises, as well as the resources necessary for the operation and economical use of collocated equipment, such as the use by CLEC of power; heating, ventilation and air conditioning (HVAC); security and cabling in Qwest's Premises. Collocation also allows CLEC to access Interconnection Distribution Frames (ICDF) for the purpose of Interconnection and accessing and combining Unbundled Network Elements and accessing ancillary services. There are currently nine (9) standard types of Collocation available pursuant to this Agreement – Virtual, Caged Physical, Shared Caged Physical, Cageless Physical, Interconnection Distribution Frame, Adjacent Collocation, Common Area Splitter Collocation, Remote Collocation and Facility Connected Collocation. Other types of Collocation may be requested through the BFR process. In addition, where Qwest may offer a new form of Collocation, CLEC may order that form as soon as it becomes available and under the terms and conditions pursuant to which Qwest offers it. The terms and conditions of any such offering by Qwest shall conform as nearly as circumstances allow to the terms and conditions of this Agreement. Nothing in this Agreement shall be construed as limiting the ability to retroactively apply any changes to such terms and conditions as may be negotiated by the Parties or ordered by the state Commission or any other competent authority, as contemplated by Section 1.7.1.2 of this Agreement. For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.1.1.1 Virtual Collocation -- A Virtual Collocation arrangement requires CLEC to purchase and deliver to Qwest CLEC's own equipment for Qwest to install, repair, and maintain in Qwest's Premises. CLEC does not have physical access to its virtually collocated equipment in the Qwest Premises.

8.1.1.2 Caged Physical Collocation -- allows CLEC to lease caged floor space for placement of its equipment within Qwest's Premises for the purpose of interconnecting with Qwest Finished Services or accessing unbundled elements. CLEC is responsible for the procurement, installation and on-going maintenance of its equipment as well as the Cross Connections required within the cage.

8.1.1.3 Cageless Physical Collocation -- is a non-caged area within a Qwest Premises. In Wire Centers, space will be made available in single frame bay increments. In Wire Centers, the current minimum square footage is nine (9) square feet per bay, however, if smaller bays are or become available, Qwest will reduce the minimum square footage accordingly. Space will be provided utilizing industry standard equipment bay configurations in which CLEC can place and maintain its own equipment. CLEC is responsible for the procurement, installation and on-going maintenance of its equipment as well as the Cross Connections required within CLEC's leased Collocation space.

8.1.1.4 Shared Caged Physical Collocation -- allows two (2) or more CLECs to share or sublease a single Collocation enclosure. Under Shared Physical Collocation, one (1) CLEC obtains a Caged Physical Collocation arrangement from Qwest pursuant to this Agreement or an approved Interconnection Agreement, and another CLEC,

pursuant to the terms of its Agreement or approved Interconnection Agreement, may share use of that space, in accordance to terms and conditions of a sublease agreement between the two (2) CLECs. Shared Collocation may also be established through joint application by CLECs in which Qwest will have a separate Billing relationship with each applicant and will look to each collocating CLEC for payment of its proportionate share of the charges relating to the Collocation space. Qwest will prorate the charge for site conditioning and preparation undertaken by Qwest to construct the shared Collocation cage or condition the space for Collocation use, regardless of how many Carriers actually collocate in that cage, by determining the total charge for site preparation and allocating that charge to a collocating CLEC (and billed directly to each such CLEC) based on the percentage of the total space utilized by that CLEC as per the Collocation application. Qwest shall not place unreasonable restrictions on CLEC's use of a Collocation cage, such as limiting CLEC's ability to contract with other CLECs to share CLEC's Collocation cage in a sublease-type arrangement. In addition, if two (2) or more CLECs who have Interconnection agreements with Qwest utilize a shared Collocation arrangement, Qwest shall permit each CLEC to order UNEs to and provision service from that shared Collocation space, regardless of which CLEC was the original collocator, directly from Qwest. Qwest shall make Shared Collocation space available in single-bay increments or their equivalent.

8.1.1.5 Interconnection Distribution Frame (ICDF) Collocation -- is offered for the purpose of facilitating CLEC's Interconnection or combining of Unbundled Network Elements, ancillary services and Finished Services. Under ICDF Collocation, CLEC need not collocate equipment in the Qwest Wire Center. With ICDF Collocation, CLEC will have access to the Qwest Wire Center and an ICDF to combine UNEs, ancillary services and Finished Services. The ICDF connects through tie cables to various points within the Wire Center (e.g., MDF, COSMIC™ or DSX, etc.) providing CLEC with access to UNEs, ancillary services and Finished Services.

8.1.1.5.1 The ICDF is a distribution frame shared by multiple providers. If CLEC desires a dedicated distribution frame for the purpose of facilitating CLEC's combination of UNEs, ancillary services and Finished Services, CLEC may do so through the placement of a CLEC-owned Cross Connection device collocated in the Qwest Wire Center through either Caged or Cageless Physical Collocation.

8.1.1.6 Adjacent Collocation -- is available in those instances where space is legitimately exhausted in a particular Qwest Premises to accommodate Physical Collocation. Qwest shall make space available in adjacent controlled environmental vaults, controlled environmental huts, or similar structures to the extent Technically Feasible. Qwest shall permit CLEC to construct or otherwise procure such an adjacent structure on property owned, leased or otherwise controlled by Qwest, subject only to applicable OSHA, EPA, federal, State, and local safety and maintenance requirements. Such adjacent structure shall be in accordance with Qwest's design and space planning for the site. CLEC may propose the design for the adjacent structure, subject to Qwest's approval, which approval may not be unreasonably withheld or delayed. Qwest must provide power and Physical Collocation services and facilities, subject to the same nondiscrimination requirements as applicable to any other Physical Collocation arrangement. Qwest must permit CLEC to place its own equipment, including, but not limited to, copper cables, coaxial cables, fiber cables, and Telecommunications Equipment, in adjacent facilities constructed by Qwest, by CLEC itself, or a third party.

- 8.1.1.7 Common Area Splitter Collocation -- See Section 9.4 for a description.
- 8.1.1.8 Remote Collocation -- allows CLEC to collocate equipment in or adjacent to a Qwest Remote Premises. The terms for Remote Collocation are set forth more fully in Section 8.2.7 and 8.4.6.

8.1.1.8.1 With respect to Cross Connections for access to Subloop elements in multi-tenant environments (MTE) and field connection points (FCP), the provisions concerning Subloop access and intervals are contained in Section 9.3. This type of Cross-Connection is not Collocation.

8.1.1.9 Facility Connected Collocation -- Qwest's Facility Connected (FC) Collocation provides CLEC with access to Unbundled Network Elements (UNEs), Ancillary Services and Finished Services within a Qwest Wire Center via an entrance facility without collocating physical equipment in the Wire Center. FC Collocation takes place on a termination block or termination panel within the designated Wire Center and is engineered by Qwest. Terminating a copper or fiber cable at a Demarcation Point cross-connection to the desired service facilitates Interconnection or access to UNEs, Ancillary Services, or Finished Services within a Qwest Central Office (CO).

8.1.1.10 Collocation Available Inventory

8.1.1.10.1 Collocation Available Inventory provides the terms and conditions under which CLEC can purchase returned Collocation sites and elements ("Qwest Postings"). Available sites will be posted on the "Collocation Classified" web site: <http://www.qwest.com/cgi-bin/wholesale/collocation.cgi>.

8.1.1.10.1.1 Qwest Postings: Collocation sites available on the Qwest Available Inventory list may be totally or partially completed before being returned to Qwest inventory. Both caged and cageless sites will be offered on the inventory list.

8.1.1.10.1.1.1 Notwithstanding any other provision of this Agreement, if Qwest prepares a Quote Preparation Fee for a posted Collocation site and for any reason the posted Collocation site is returned to Qwest inventory, Qwest will post the Quote Preparation Fee quote (with the carrier's name redacted) on the inventory list for that site and, for future requests for that site, will waive the Quote Preparation Fee, as the quote has already been prepared, unless Qwest establishes a change in circumstance affecting the quoted price.

8.1.1.10.1.2 Intentionally Left Blank.

8.1.1.10.1.3 The "Collocation Classified" web site refers to a tool used by CLEC and Qwest to post listings of available Collocation sites. The site contains Qwest Postings.

8.1.1.10.1.4 Inspection of Posted sites: Upon request, CLECs may inspect posted inventory at a mutually convenient time. The rate for such inspection is contained in Exhibit A as "Site Survey".

8.1.1.11 Collocation Transfer of Responsibility. Collocation Transfer of Responsibility is not addressed in this Agreement. If the Parties desire to address it at a later date, either Party may request an amendment pursuant to Section 5.30 of this Agreement.

8.1.1.12 Joint Testing

8.1.1.12.1 Qwest's Joint Testing Process ("Joint Testing") at the Interconnection Collocation Distribution Frame (ICDF) allows a CLEC to request Qwest to participate in Joint Testing of CLEC terminations at the ICDF once CLEC's equipment has been placed in CLEC's Collocation. The ICDF may be located at various points in the Qwest Wire Center including, but not limited to, a stand alone intermediate frame, Main Distribution Frame (MDF), fiber distribution panel (FDP), and existing Digital Cross Connect (DSX) frames. CLEC shall have access to all such points in the Qwest Wire Center where CLEC cabling terminates.

8.1.1.12.2 If Joint Testing shows that Qwest has incorrectly installed any Collocation facilities such that CLEC cannot use the Collocation to order services and facilities, Qwest shall promptly correct the error(s). If any corrections require ordering of materials, Qwest and CLEC will coordinate the ordering of materials. When the materials are received and the corrections made, the Parties will jointly retest until resolution. If terminations identified for testing show a greater than 2% error rate, and it is determined that the errors are Qwest errors, CLEC will not be charged for the Joint Test and any such retesting.

8.1.2 Intervals for Collocation are contained in Section 8.4.

8.1.3 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.2 General Terms

8.2.1 General Terms - All Collocation

8.2.1.1 Qwest shall provide Collocation on rates, terms and conditions that are just, reasonable and non-discriminatory. In addition, Qwest shall provide Collocation in accordance with all applicable federal and State laws.

8.2.1.1.1 For Commingling, see Section 24

8.2.1.2 Collocation of Switching Equipment. CLEC may collocate any equipment that is necessary for Interconnection or access to Unbundled Network Elements.

8.2.1.2.1 Digital Subscriber Line Access Multiplexers (DSLAMS) always meet this legal standard.

8.2.1.2.2 Asynchronous Transfer Mode (ATM) or Packet Switching also meets this legal standard when used for Interconnection or access to Unbundled Network Elements for purposes of providing Advanced Services such as xDSL. Equipment used predominantly to support DSLAMs and ATMs, such as routers

and concentrators, as well as testing and network management equipment also meet this legal standard. Before any equipment that includes switching functionality is installed, CLEC must provide a written inventory to Qwest of all switching equipment and how it will be used for Interconnection or access to Unbundled Network Elements. Within ten (10) Days of receipt of the written inventory from CLEC, Qwest shall notify CLEC in writing of any objection, including a detailed description of the basis for the objection. Once CLEC establishes that it will use a certain type of equipment for Interconnection or access to Unbundled Network Elements, Qwest will allow future Collocations of similar equipment without requesting a written justification unless and until Qwest can establish to the Commission that such equipment is not intended for Interconnection or access to Unbundled Network Elements. However, Qwest will complete the Collocation within the appropriate interval unless granted relief by the Commission.

8.2.1.2.3 Remote Switching Units (RSUs) also meet this legal standard when used for Interconnection or access to Unbundled Network pursuant to the Act.

8.2.1.2.4. Except as provided for in Sections 8.2.1.2.1 through 8.2.1.2.3 above, CLEC may not collocate equipment that is not necessary for Interconnection or access to Unbundled Network Elements.

8.2.1.3 CLEC must identify what transmission and Cross Connection equipment will be installed and the vendor technical specifications of such equipment so that Qwest may verify the appropriate power, floor loading, heat release, environmental particulate level, HVAC, and tie cables to CLEC-provided cross-connection device.

8.2.1.4 Demarcation Points for Unbundled Network Elements (UNEs) and ancillary services. The Demarcation Point for Unbundled Network Elements and ancillary services is that physical point where Qwest shall terminate its Unbundled Network Elements and ancillary services for access by CLEC. There are two (2) standard Demarcation Points where Unbundled Network Elements and ancillary services may be delivered to CLEC. CLEC shall specify its choice of standard Demarcation Points for its access to UNEs and ancillary services. One available Demarcation Point is at CLEC-provided Cross Connection equipment in CLEC's Physical or Virtual Collocation space. Alternatively, the Demarcation Point can be at an Interconnection Distribution Frame (ICDF) or may be established at a location jointly agreed to by CLEC and Qwest. To the extent CLEC selects a Demarcation Point outside of its collocated space, CLEC shall provide and Qwest shall install the tie cables from CLEC's collocated equipment to the Demarcation Point. Alternatively, Qwest shall provide and install these tie cables, at CLEC's expense.

8.2.1.5 Qwest will provide a connection between Unbundled Network Elements and ancillary services and a Demarcation Point. Such connection is an Interconnection Tie Pair (ITP). The Demarcation Point shall be:

- a) at CLEC-provided cross-connection equipment located in CLEC's Virtual or Physical Collocation space; or
- b) if CLEC elects to use ICDF Collocation, at the Interconnection

Distribution Frame (ICDF); or

- c) if CLEC elects to use an ICDF in association with Virtual or Physical Collocation, at the ICDF;
- d) at a direct connection point of termination as described in Section 8.3.1.11.2; or
- e) at another Demarcation Point mutually-agreed to by the Parties.

8.2.1.6 CLEC may purchase Qwest's finished Private Line or Switched Access Services via applicable Tariff terms and conditions. These services will be terminated at the Demarcation Point.

8.2.1.7 For Caged and Cageless Physical Collocation and Virtual Collocation, CLEC must lease space for the placement of CLEC's equipment within Qwest's Premises. Qwest will provide the structure that is necessary in support of Collocation including physical space, a cage (for Caged Physical Collocation), required cabling between equipment and other associated hardware.

8.2.1.8 All equipment shall meet and be installed in accordance with Network Equipment Building System (NEBS) Level 1 safety standards. Qwest shall provide standard Premises alarming, including alarming of Qwest power elements pursuant to Qwest Technical Publication 77385 and other applicable Qwest technical publications, if any, and other elements such as heating, ventilating and air conditioning (HVAC), smoke, temperature, water, fire and security. Qwest shall not impose safety or engineering requirements on CLEC that are more stringent than the safety or engineering requirements Qwest imposes on its own equipment located on its Premises. Both Qwest and CLEC are responsible for taking appropriate precautions during their construction projects, in accordance with Qwest Technical Publication 77350 and other applicable Qwest technical publications, if any, to prevent contamination and each Party will be responsible for the cost of clean-up of any abnormal contamination due to its construction work.

8.2.1.9 Space Availability Report -- Upon request by CLEC, Qwest will submit to a requesting CLEC within ten (10) Days of CLEC's request, a report for each requested Premises, that includes:

- a) Available Collocation space in a particular Qwest Premises;
- b) Number of collocators;
- c) Any modifications in the use of the space since the last report;
- d) Measures that Qwest is taking to make additional space available for Collocation;
- e) Whether sufficient power is available to meet the specific CLEC request;
- f) Number of CLECs in queue at the Premises, if any;

- g) Whether the Wire Center is equipped with DS3 capability; and
- h) The number and description of Qwest and its Affiliates and CLEC reservations of space.

8.2.1.9.1 A Space Availability Report Charge in Exhibit A will apply to each Space Availability Report requested by CLEC and shall apply on per Premises basis.

8.2.1.9.2 Inventory Report – Remote Premises. The locations of the Remote Premises (e.g., Feeder Distribution Interfaces, “FDI”) and the Customer addresses served by each Remote Premises are available to CLECs through the Raw Loop Data Tool. Remote Premises with Digital Loop Carrier and Pair Gain equipment will be provided on the web site in the ICONN database. (ICONN is available through the Qwest web site located at <http://www.qwest.com/iconn>). If CLEC is unable to determine the information it seeks regarding Remote Premises after using such database tools, Qwest will provide CLEC with a report that contains the information. The Parties agree that a charge may apply to such report, based on time and material, unless the database information is inaccurate or unusable for the Remote Premises then no charge would apply. Qwest will provide CLEC access to relevant plats, maps, engineering records and other data in accordance with Section 10.8.2.4. In addition, CLEC can request a copy of Qwest’s distribution area map associated with the Remote Premises, with a charge for time and material.

8.2.1.10 Collocation is offered on a first-come, first-served basis. Requests for Collocation may be denied due to the legitimate lack of sufficient space in a Qwest Premises for placement of CLEC’s equipment. If a complete application for Collocation is denied, no fees will be assessed for processing the application. Also, if any fees were received with the application such fees will be refunded. If Qwest determines that the amount of space requested by CLEC for Caged Physical Collocation is not available, but a lesser amount of space is available, that lesser amount of space will be offered to CLEC for Caged Physical Collocation. Alternatively, CLEC will be offered Cageless Physical Collocation (single frame bay increments), or Virtual Collocation as an alternative to Caged Physical Collocation. In the event the original Collocation request is not available due to lack of sufficient space, and CLEC did not specify an alternative form of Collocation on the original order form, CLEC will be required to submit a new order for CLEC’s preferred alternative Collocation arrangement. If CLEC identifies alternate choices for Collocation on its original Collocation request, Qwest will determine the feasibility of the next preferred option in the event CLEC’s first choice is not available. To the extent possible, Qwest shall make contiguous space available to CLEC when it seeks to expand its existing Collocation space. Where adjoining space is not available, Qwest will engineer a Route for CLEC to provide facilities between the non-adjointing CLEC Collocation spaces as part of the Collocation order. When planning renovations of existing facilities or constructing or leasing new facilities, Qwest shall take into account projected demand for Collocation of equipment.

8.2.1.10.1 Space Denial Queue – Qwest will maintain a list of denied Collocation requests, in order of the date of receipt (Space Denial Queue), for each Premises where Qwest has exhausted Collocation space. In lieu of a Collocation order, CLEC may submit a letter of intent to order Collocation space

for a Premises and be included on the list. A separate queue will be maintained for each Premises. When space becomes available in a Premises in which a queue has developed, Qwest will inform CLECs in the queue that space for Collocation has become available. If there is insufficient space to accommodate all CLECs in queue, Qwest shall notify CLECs of the availability of space in accordance with CLEC's position in the queue. CLEC must respond within ten (10) Days of receipt of notification from Qwest with a new Collocation application. If CLEC does not provide a Collocation application within ten (10) Days of receipt of notification, or if CLEC responds that it no longer requires the Collocation space, CLEC shall be removed from the queue and the available space shall be offered to the next CLEC in the queue. If the space made available to a CLEC in the queue is not sufficient to meet such CLEC's needs, such CLEC may deny the space that becomes available and keep its position in the queue. There are no charges assessed to CLEC in relationship to the space denial queue procedures described in this paragraph.

8.2.1.11 If Qwest denies a request for Collocation in a Qwest Premises due to space limitations, Qwest shall allow CLEC representatives to tour the entire Premises escorted by Qwest personnel within ten (10) Days of CLEC's receipt of the denial of space, or a mutually agreed upon date. Qwest will review the detailed floor plans for the Premises with CLEC during the tour, including Qwest reserved or optioned space. Such tour shall be without charge to CLEC. If, after the tour of the Premises, Qwest and CLEC disagree about whether space limitations at the Premises make Collocation impractical, Qwest and CLEC may present their arguments to the Commission. In addition, if after the fact, it is determined that Qwest has incorrectly identified the space limitations, Qwest will honor the original Collocation Application Date for determining RFS unless both Parties agree to a revised date.

8.2.1.12 Qwest shall submit to the Commission, subject to any protective order as the Commission may deem necessary, detailed floor plans or diagrams of any Premises where Qwest claims that Physical Collocation is not practical because of space limitations.

8.2.1.13 Space Exhaust Reports

8.2.1.13.1 Qwest will maintain a publicly available document, posted for viewing on the Internet, (<http://www.qwest.com/wholesale/notices/collo/spaceAvail.html>) indicating all Premises that are full, and will update this document within ten (10) Days of the date at which a Premises runs out of physical space and will update the document within ten (10) Days of the date that space becomes available. The Space Exhaust Report will be updated within the ten (10) Day period and will identify all Wire Centers that are full, whether or not there has been a CLEC requested Space Availability Report.

8.2.1.13.2 Space Denial Reports- The Space Denial Report is another publicly available document which includes, based on information Qwest develops through the Space Availability Report process, the Reservation Process, or the Feasibility Study Process: (<http://www.qwest.com/wholesale/notices/collo/spaceAvail.html>.) The Space Denial Report will be updated within ten (10) Days after Qwest denies any

application for Collocation due to a lack of space.

- a) Number of CLECs in queue at the Premises, if any;
- b) Premises that have not been equipped with DS3 capability;
- c) Estimated date for completion of power equipment additions that will lift the restriction of Collocation at the Premises;
- d) Address of the Remote Premises that have been inventoried for Remote Collocation, and if the Remote Premises cannot accommodate Collocation.

8.2.1.14 Reclamation and Reconditioning of Space

8.2.1.14.1 Reclamation of Space -- Reclamation of space is performed by Qwest removing unused, obsolete Qwest equipment (including equipment in Collocation sites posted as Qwest sites on the Available Inventory web site, if the space falls within Sections 8.2.1.14.1.1 and 8.2.1.14.1.2 below) to make space for equipment use. The cost of removal of the obsolete unused equipment shall be borne by Qwest.

8.2.1.14.1.1 If CLEC issues a forecast or reservation for Collocation, Qwest shall use its best judgment to determine whether it would be appropriate to reclaim space and or equipment to meet expected Collocation requirements.

8.2.1.14.1.2 If CLEC issues a Collocation application and unused, obsolete equipment must be removed to provide the requested Collocation, Qwest will affirmatively remove such unused, obsolete equipment as necessary to fulfill the Collocation request within the applicable interval set forth in section 8.4.

8.2.1.14.2 Reconditioning of Space -- Reconditioning of space is the remodeling of space for equipment use, such as, but not limited to, adding HVAC. The Collocation feasibility study will identify whether reconditioning of space is available and necessary to meet CLEC needs for Collocation. If requested by CLEC, Qwest will assess the cost of such reconditioning, provide a quote to CLEC for the costs, and upon acceptance of quote by CLEC, perform the necessary work to recondition the space. For reconditioned space, CLEC is responsible for prorated charges based on the amount of space requested unless the costs are included in the non-recurring or recurring charges.

8.2.1.15 Collocation Cancellation

8.2.1.15.1 General

8.2.1.15.1.1 Cancellation is available for all Collocation sites under a particular Billing Authorization Number (BAN) for which the CLEC has not received notification of completion from Qwest of CLEC's Collocation application. A Cancellation will only occur upon request by the canceling CLEC.

8.2.1.15.1.2 Cancellation is offered for Caged Physical, Cageless Physical, Virtual, and ICDF Collocation.

8.2.1.15.1.3 All other types of Collocation to be cancelled will be handled on an Individual Case Basis (ICB) by contacting the appropriate Qwest Wholesale Collocation Project Manager.

8.2.1.15.1.4 A request for Cancellation is irrevocable once Qwest has accepted the Cancellation application.

8.2.1.15.2. General Terms

8.2.1.15.2.1 The canceling CLEC, may only submit a Cancellation application if a Collocation quote has been accepted and the initial payment has been paid. The Collocation Cancellation may only be initiated if the Collocation job is in progress and not yet complete.

8.2.1.15.2.2 Qwest will stop work on a job in progress upon receipt and acceptance by Qwest of a complete Cancellation application.

8.2.1.15.2.3 Based on when the Cancellation application is received by Qwest, the completion status of the Collocation job and the determination of the amount paid to Qwest, the following will occur: Qwest will cancel the Collocation job in progress, conduct an inventory, and issue a final revised quote setting forth the amount due or the appropriate credit adjustments, based on work performed and expenses incurred by Qwest. The revised final quote will be issued within thirty (30) Days of Qwest's acceptance of the Cancellation application.

8.2.1.15.2.4 In the event Splitter Collocation with the BAN of the Collocation site is to be canceled, such Splitter Collocation will be cancelled automatically pursuant to the submitted Cancellation application.

8.2.1.15.2.5 In the event that CLEC has requested Direct CLEC-to-CLEC connections with the BAN of the Collocation site or Collocation application to be cancelled, such Direct CLEC-to-CLEC connection will be cancelled automatically pursuant to the submitted Cancellation application.

8.2.1.15.2.6 Upon cancellation, materials owned by CLEC and utilized in building the Collocation site will not be returned unless CLEC requests their return in writing (indicated in the notes section on the Collocation application form)

8.2.1.15.2.7 If CLEC's equipment is on the site prior to the scheduled Ready For Service (RFS) date, Qwest shall notify CLEC to remove its equipment.

8.2.1.15.3. Rate Elements

8.2.1.15.3.1 Pursuant to the terms of this Agreement, Qwest will not charge for the cancellation service except as specifically provided herein.

8.2.1.15.4. Ordering

8.2.1.15.4.1 Cancellation requires submission of a "Cancellation, Decommission, Change of Responsibility Application Form".

8.2.1.15.4.1.1 The application form is located on the Qwest web site at:

<http://www.qwest.com/wholesale/pcat/Collocation.html>

8.2.1.15.4.1.2 The application must be submitted to colo@qwest.com and rfsmet@qwest.com

8.2.1.15.4.1.3 Qwest will notify CLEC within one (1) business day after CLEC submits the application as to whether the prerequisites have been met. If Qwest believes that such prerequisites have not been met, Qwest will specifically identify, in such notice to CLEC, the information needed to make the application complete. Qwest will validate the application within two (2) business days from receipt of an application meeting the prerequisites (i.e., a complete Collocation application).

8.2.1.16 Qwest may retain a limited amount of floor space for its own specific future uses, provided, however, that neither Qwest nor any of its Affiliates may reserve space for future use on terms more favorable than those that apply to CLEC's reservation of Collocation space for CLEC's own future use. Qwest shall relinquish any space held for future use before denying a request for Virtual Collocation on the grounds of space limitations, unless Qwest proves to the Commission that Virtual Collocation at that point is not Technically Feasible.

8.2.1.17 In addition to the requirements of Section 8.2.1.8, all Collocation installation and structures shall meet applicable earthquake safety rating requirements comparable to and to the same extent that Qwest installations and structures meet earthquake rating requirements as contained in the Network Equipment Building System (NEBS) - BR GR-63-CORE document and Qwest Technical Publication 77350 and other applicable Qwest technical publications, if any. A list of Qwest Premises and the applicable related earthquake ratings is available for review on the Qwest web site at: <http://www.qwest.com/wholesale/pcat/collocation.html>.

8.2.1.18 Qwest will review the security requirements, issue keys, ID cards and explain the access control processes to CLEC. The access control process includes but is not limited to the requirement that all CLEC approved personnel are subject to trespass violations if they are found outside of designated and approved areas or if they

provide access to unauthorized individuals. Likewise, Qwest personnel are subject to trespass violations if, without written permission from CLEC (in the absence of an emergency, such as a fire or medical emergency), they are either inside CLEC physical caged collocated areas or provide access to unauthorized individuals.

8.2.1.18.1 Qwest will take all reasonable measures to insure that CLEC equipment collocated in Qwest Premises is afforded physical security at Parity with Qwest's similarly situated equipment. Should an event occur within a Qwest Premises that suggests vandalism or other tampering with CLEC's equipment, Qwest will, at CLEC's request, vigorously and thoroughly investigate the situation. CLEC shall cooperate in the investigation as requested by Qwest. Qwest will keep CLEC apprised of the progress of any investigation, and report any conclusions in a timely manner.

8.2.1.19 Qwest shall provide access to CLEC's collocated equipment and existing eyewash stations, bathrooms, drinking water and Qwest technician workstations within the Premises on a twenty-four (24) hours per Day, seven (7) Days per week basis for CLEC personnel and its designated agents. CLEC may access the Qwest Central Office Manager's office when the Central Office Manager is present. Such access shall be permitted without requiring either a security escort of any kind or delaying CLEC's employee's entry into Qwest Premises. Qwest shall provide CLEC with access to other basic facilities, including parking, where available on a first-come, first-served basis.

8.2.1.20 CLEC shall be restricted to corridors, stairways, and elevators that provide direct access to CLEC's space, or to the nearest restroom facility from CLEC's designated space, and such direct access will be outlined during an orientation meeting between Qwest and CLEC. Access shall not be permitted to any other portion of the building.

8.2.1.21 Nothing in Section 8 shall be construed to limit CLEC's ability to obtain more than one form of Collocation (e.g., Virtual, Caged, Shared and Cageless Physical Collocation or ICDF Collocation) in a single Premises, provided space is available.

8.2.1.22 Collocation Decommissioning

8.2.1.22.1 General

8.2.1.22.1.1 Decommissioning refers to the deactivation of a Collocation site occupied by CLEC and removal of CLEC equipment therefrom.

8.2.1.22.1.2 Decommissioning is offered for Caged Physical, Cageless Physical, Virtual, and ICDF Collocation.

8.2.1.22.1.3 All other types of Collocation to be decommissioned will be handled on an Individual Case Basis (ICB) by contacting the appropriate Qwest Wholesale Project Manager (WPM).

8.2.1.22.1.4 An application for Decommissioning is irrevocable once Qwest accepts the application.

8.2.1.22.2. General Terms

8.2.1.22.2.1 A Collocation site will be considered eligible for decommissioning after the site is built-out and accepted by CLEC pursuant to the terms of the Agreement.

8.2.1.22.2.2 Qwest requests the vacating CLEC remove equipment prior to submitting a Decommissioning application.

8.2.1.22.2.3 If CLEC does not remove equipment within thirty (30) Days after Qwest's acceptance of the Decommissioning application, Qwest will send a notification to CLEC stating the equipment is considered abandoned.

8.2.1.22.2.3.1 Upon receiving notification of abandonment from Qwest, CLEC will have fifteen (15) Days to notify Qwest that the equipment is not abandoned or to remove equipment.

8.2.1.22.2.3.2 Qwest will review CLEC responses and assess if the equipment has been abandoned in Qwest's reasonable discretion, after such fifteen (15) Days has passed. If CLEC does not remove the equipment in question and Qwest determines that the same has been abandoned, Qwest will send a final notification and bill for the labor charges associated with Qwest's removal of the abandoned equipment.

8.2.1.22.2.3.3 In the case of Virtual Collocation, Qwest will automatically remove all equipment within ninety (90) Days after receipt of CLEC's Decommissioning application.

8.2.1.22.2.3.3.1 Qwest will negotiate with CLEC for the pick up of the equipment.

8.2.1.22.2.3.3.2 For Virtual Collocation, there will be no cost for the removal of CLEC equipment.

8.2.1.22.2.4 Prior to submitting a Decommissioning application, financial obligations with respect to the Collocation site to be decommissioned must be current, with the exception of charges disputed pursuant to Sections 5 or 21.

8.2.1.22.2.4.1 CLEC financial obligations include payment of 100% of all undisputed non-recurring quoted charges and all undisputed applicable monthly recurring charges that are more than thirty (30) Days past due.

8.2.1.22.2.5 CLEC must disconnect all services from the Collocation site to be decommissioned prior to submitting the Decommissioning application. Services to be disconnected by CLEC include, but are not limited to: Unbundled Network Elements, administrative lines, Finished Services, and Line Sharing services. Services will need to be disconnected via ASR/LSR. If CLEC does not disconnect services, all

charges with respect to such site will continue to accrue and the Decommissioning application will be rejected.

8.2.1.22.2.6 The Parties will comply with laws, rules, and regulations, if any, regarding notice to End User Customers and/or the Parties of discontinuance of service.

8.2.1.22.2.7 Intentionally Left Blank.

8.2.1.22.2.8 Intentionally Left Blank.

8.2.1.22.2.9 When submitting a Decommissioning application for a Collocation site that also has a Direct CLEC-to-CLEC arrangement:

8.2.1.22.2.9.1 Qwest requires that the Direct CLEC-to-CLEC Connection be disconnected at the same time that Qwest performs the decommissioning.

8.2.1.22.2.9.2 The CLEC submitting the Decommissioning application must:

8.2.1.22.2.9.2.1 Submit a Letter of Authorization signed by both the vacating CLEC and partnering CLEC that authorizes Qwest to disconnect the installed Direct CLEC-to-CLEC cabling.

8.2.1.22.2.9.2.2 If a copy of the required Letter of Authorization is not attached to the Decommissioning application, the application will be rejected as incomplete.

8.2.1.22.2.10 CLEC will be eligible for reimbursement on: (i) the Reusable elements (cable terminations including DS0, DS1, DS3, and fiber terminations for up to one calendar year, and (ii) the Reimbursable Elements (infrastructure used to establish or Augment CLEC's Collocation site, including cage, bays, HVAC, cable racking) for up to three (3) years, after the date the Decommissioning is completed. Such reimbursement will be of all funds received by Qwest from assuming CLEC for such Reusable and Reimbursable elements, subject to outstanding non-recurring charges relating to the Collocation site. In no event shall vacating CLEC receive more than the amount of funds paid by the vacating CLEC for the vacated Collocation site. An inventory will be completed by Qwest and furnished within ninety (90) Days of the Decommission application acceptance identifying the Reusable and Reimbursable elements and the potential credit. Reusable and Reimbursable elements are also discussed in Section 8.3.11, Available Inventory.

8.2.1.22.2.11 CLEC is required to return the space to turnover condition. Turnover condition is defined as the same condition in which CLEC originally assumed the Collocation site from Qwest upon Qwest's

completion of the work called for by CLEC's original Collocation application.

8.2.1.22.3. Rate Elements

8.2.1.22.3.1 Under the terms of this Agreement, Qwest will not charge for the decommissioning service provided herein, unless equipment has been abandoned or the Collocation space has not been returned to turnover condition. In such cases, the applicable rates shall be the following:

8.2.1.22.3.1.1 Miscellaneous labor hourly charges as defined in the attached Exhibit A will apply,

8.2.1.22.3.1.2 Additional dispatch charges, will apply for unmanned offices, as defined in the attached Exhibit A.

8.2.1.22.4. Ordering

8.2.1.22.4.1 The decommission process requires the submission of a "Cancellation, Decommission, Change of Responsibility Application Form".

8.2.1.22.4.1.1 The application form is located on the Qwest web at: <http://www.qwest.com/wholesale/pcat/Collocation.html>

8.2.1.22.4.1.2 The Decommissioning application should be submitted to: colo@qwest.com and rfsmet@qwest.com.

8.2.1.22.4.1.3 Qwest will notify CLEC within one (1) business day after CLEC submits the Decommissioning application as to whether the prerequisites have been met. If Qwest believes that such prerequisites have not been met, Qwest will specifically identify, in such notice to CLEC, the information needed to make the Decommissioning application complete. Qwest will validate the Collocation Decommission application within two (2) business days from receipt of an application meeting the prerequisites (i.e., a complete Collocation Decommission application).

8.2.1.22.5 Billing

8.2.1.22.5.1 CLEC shall pay all monthly recurring charges until Qwest receives the complete Collocation Decommission application, meeting the prerequisites described in 8.2.1.22.4.1.3. The effective date to cease the monthly recurring Billing will coincide with the date that the complete Collocation Decommission application was submitted.

8.2.1.23 CLEC-to-CLEC Connections

CLEC-to-CLEC Connections shall be ordered either as part of an application for

Collocation under Section 8.4 or separately from a Collocation application in accordance with Section 8.2.1.23.3.5. Direct CLEC-to-CLEC Connections and CLEC-to-CLEC Cross Connections at the ICDF are available as follows:

8.2.1.23.1 Direct CLEC-to-CLEC Connections (CLEC provided cable)

Qwest shall design and engineer the most efficient Route and cable racking for the connection between CLEC's equipment in its collocated spaces to the collocated equipment of another CLEC located in the same Qwest Premises; or to CLEC's own non-contiguous Collocation space. The most efficient Route generally will be over existing cable racking, to the extent Technically Feasible, but to determine the most efficient cable Route and cable racking, Qwest shall consider all information provided by CLEC in the application form, including but not limited to, distance limitations of the facilities CLEC intends to use for the connection. CLEC shall have access to the designated Route and construct such connection, using copper, coax, optical fiber facilities, or any other Technically Feasible method utilizing a vendor of CLEC's own choosing. CLEC may place its own fiber, coax, copper cable, or any other Technically Feasible connecting facilities outside of the actual Physical Collocation space, subject only to reasonable NEBS Level 1 safety limitations using the Route specified by Qwest. CLEC may perform such Interconnections at the ICDF, if desired. CLEC may interconnect its network as described herein to any other collocating Carrier, to any collocated Affiliate of CLEC, to any End User Customer's premises, and may interconnect CLEC's own collocated space and/or equipment (e.g., CLEC's Physical Collocation and CLEC's Virtual Collocation on the same Premises).

8.2.1.23.2 Intentionally Left Blank

8.2.1.23.3 CLEC-to-CLEC Cross Connections at an ICDF

8.2.1.23.3.1 CLEC-to-CLEC Cross Connection (COCC-X) is defined as CLEC's capability to order a Cross Connection from its Collocation in a Qwest Premises to its non-adjacent Collocation space or to another CLEC's Collocation within the same Qwest Premises at an ICDF.

8.2.1.23.3.2 Qwest will provide the capability to combine these separate Collocations through an Interconnection Distribution Frame (ICDF). This is accomplished by the use of CLECs' Connecting Facility Assignment (CFA) terminations residing at an ICDF. Also, ICDF Cross Connections must terminate on ICDF(s) at the same service rate level.

8.2.1.23.3.3 If CLEC has its own Dedicated ICDF, CLEC is responsible for ordering tie cables to the ICDF frame/bay where the other CLEC resides. Qwest shall allow Central Office access to CLEC for engineering and ordering purposes; in cases of Virtual Collocation a Qwest escort will be required. These tie cables would be ordered through the existing Collocation application form.

8.2.1.23.3.4. CLEC is responsible for the end-to-end service design that uses ICDF Cross Connection to ensure that the resulting

service meets its Customer's needs. This is accomplished by CLEC using the Design Layout Record (DLR) for the service connection. Depending on the distance parameters, regeneration may be required.

8.2.1.23.3.5 If two (2) CLECs are involved, one CLEC acts as the "ordering" CLEC. The ordering CLEC identifies both connection CFA's on the ASR. CLEC requests service order activity by using the industry ASR forms. These forms are agreed upon nationally at the OBF (Ordering and Billing Forum). Refer to the DMP (Document Management Platform)/Carrier/Carrier Centers/"A"/"ASOG" for copies of all forms including definitions of the fields. CLEC is responsible for obtaining these forms. Qwest must not reproduce copies for its Customers, as this is a copyright violation. The industry forms for CLEC-to-CLEC Cross Connections (COCC-X) are: Access Service Request (ASR), Special Access (SPE) and Additional Circuit Information (ACI).

8.2.1.23.3.6 Qwest, following receipt of the ASR, will perform ICDF connections and regeneration functions, if required. Equipment additions for regeneration (if no spares are available) will be initiated. Qwest completes these activities and conducts verification testing (when a signal is present) appropriate to the facility being ordered.

8.2.1.23.3.6.1 Verification testing (when a signal is present) of the cross-connection will be conducted to assure compliance with the ASR. Cooperative testing on circuits will be conducted with Qwest and requesting CLEC(s) technicians.

8.2.1.23.3.6.2 Qwest will coordinate with the requesting CLEC and schedule the testing of the completed cabling, ICDF connections and regeneration. CLEC(s) will be responsible to terminate cabling into their respective Collocation equipment prior to the testing effort.

8.2.1.23.3.6.3 Although circuit testing is the responsibility of the CLECs, Qwest will provide technician support of CLEC to CLEC circuit testing efforts and provide trouble-shooting support, as necessary to successfully complete an ASR.

8.2.1.24 Qwest will provide CLEC the same connection to the network as Qwest uses for provision of services to Qwest End User Customers. The direct connection to Qwest's network is provided to CLEC through direct use of Qwest's existing Cross Connection network. CLEC and Qwest will share the same distributing frames for similar types and speeds of equipment, where Technically Feasible and space permitting.

8.2.1.25 CLEC terminations will be placed on the appropriate Qwest Cross Connection frames using standard engineering principles. CLEC terminations will share frame space with Qwest terminations on Qwest frames without a requirement for an intermediate device.

8.2.1.26 If CLEC disagrees with the selection of the Qwest cross-connection

frame, CLEC may request a tour of the Qwest Premises to determine if Cross Connection frame alternatives exist, and may request use of an alternative frame or an alternative arrangement, such as direct connections from CLEC's Collocation space to the MDF or COSMIC™ frame.

8.2.1.27 Conversions of the various Collocation arrangements (e.g., Virtual to Physical) will be considered on an Individual Case Basis. However, conversions from Virtual Collocation to Cageless Physical Collocation, where the conversion only involves an administrative and Billing change, and the virtually collocated equipment is located in a space where Cageless Physical Collocation is available, shall be completed in thirty (30) Days. CLEC must pay all associated conversion charges.

8.2.1.28 Qwest shall permit CLEC to construct or subcontract the construction and build-out of Physical Collocation arrangements with contractors approved by Qwest. Such CLEC construction of Physical Collocation arrangements are for within CLEC's physical space including the cage, if appropriate, frames, and cable racking. Outside CLEC's physical space, CLEC may install the tie cables, blocks, and terminations on the ICDF or for CLEC-to-CLEC connections. If CLEC elects to construct or subcontract the construction and build-out of Physical Collocation arrangements, Qwest shall reduce the charges, which are reflected in Qwest's quote, accordingly. Qwest approval of CLEC contractors involves security access arrangements and shall not be unreasonably withheld. CLEC is not required to use Qwest or Qwest contracted personnel for the engineering and installation of CLEC's collocated equipment. Approval by Qwest of CLEC's employees, vendors or subcontractors shall be based on the same criteria that Qwest uses in approving contractors for its own purposes. Qwest shall, upon request, provide CLEC with a list of approved contractors.

8.2.1.29 Power

8.2.1.29.1 Qwest will provide CLEC with written notification at least five (5) business days before any scheduled non-emergency AC or DC power work in the collocated facility that may cause a power disruption to CLEC equipment located in the Qwest facility. This does not include notification of routine power testing or power installation work not expected to cause a power disruption. Qwest will use diligent efforts to notify CLEC by the Abnormal Condition Report (ACR) of: (a) general power outages as soon as Qwest becomes aware that an outage is to take place or has occurred and (b) any emergency power disruption that would impact CLEC equipment no later than thirty (30) minutes after such activity commences. Finally, Qwest shall immediately notify CLEC by ACR if a condition exists with respect to power that poses a material risk to the continued operation of CLEC equipment.

8.2.1.29.2 -48V DC Power Ordering, Monitoring, and Measuring. Each Party reserves its right to advocate for changes regarding the rates and application of the rates for the elements in this Section (including subparts) in a Commission docket (e.g., cost case).

8.2.1.29.2.1 CLEC orders DC power plant in increments of twenty (20) amps per feed minimum. If CLEC orders an increment larger than sixty (60) amps, engineering practice normally terminates such feed on a power board. Qwest measures power usage on the power board, as

described in Section 8.2.1.29.2.2 below. If CLEC orders an increment of sixty (60) amps or less, the power feed will normally appear on a Battery Distribution Fuse Board (BDFB). No power usage measurement occurs at a BDFB.

8.2.1.29.2.2 Measurement of Power Usage at the Power Board – Unless CLEC requests power measurement, power will not be measured. Qwest will bill CLEC power usage based on the amount of power ordered unless power measurement is requested and until a reading is taken pursuant to this Section. Qwest will measure power usage at the power board on a semi-annual basis. However, Qwest also agrees to take a reading within thirty (30) Days of a written CLEC request. Qwest will perform a maximum of four (4) readings per year for a particular Collocation site. Based on these readings, if CLEC is utilizing less than the ordered amount of power, Qwest will reduce the monthly power usage rate to CLEC's actual use based on the reading from the date of CLEC's measuring request on a going forward basis until the next reading. If CLEC is utilizing more than the ordered amount, Qwest will increase the monthly usage rate to the CLEC's actual use. Once Qwest receives a CLEC measuring request, it will bill the actual power usage rate based on the reading from the date of the CLEC's measuring request, on a going forward basis, until the next reading. If the CLEC's order for DC Power to a collocation includes a request for measured usage, Qwest will only bill for DC Power Usage for this Collocation on a measured basis. The CLEC is responsible for notifying Qwest immediately when DC Power begins to be used in the Collocation.

8.2.1.29.3 -48V DC Power Reduction/Restoration

8.2.1.29.3.1 DC Power Reduction.

8.2.1.29.3.1.1 DC Power Reduction With Reservation allows CLEC to reserve a fuse or breaker position on the power board or battery distribution fuse board (BDFB) when reducing a secondary power feed. Power must be reduced down to zero. CLEC will retain the existing power cabling and fuse position for future power requests or until such time as CLEC informs Qwest it wishes to discontinue the option. See Section 8.5.5.2.

8.2.1.29.3.1.2 DC Power Reduction Without Reservation allows CLEC to reduce the ordered amps on a primary and/or secondary feed to a minimum of twenty (20) amps.

8.2.1.29.3.1.3 When CLEC orders a reduction in DC Power, CLEC assumes all responsibility for adverse impacts to CLEC-provided service and equipment within the Collocation space that arise due to the reduced level of power ordered by CLEC.

8.2.1.29.3.2 DC Power Restoration

8.2.1.29.3.2.1 DC Power Restoration With Reservation allows CLEC to restore reserved power on the power board or BDFB.

8.2.1.29.3.2.2 DC Power Restoration Without Reservation allows CLEC to restore amps on a primary and/or secondary feed.

8.2.1.29.3.3 Moves between the BDFB and the power board associated with CLEC's request for Power Reduction/Restoration will occur only when both CLEC has requested Power Reduction or Restoration and a move is required to fulfill CLEC's request. Appropriate charges will apply when moves are required. Moves may be required when: 1) Qwest is unable to re-fuse CLEC at its original power source or to use an alternative fuse position on the power board, or (2) power is moved from the BDFB to the power board because CLEC's power increases from sixty (60) amps or below to above sixty (60) amps. See Section 8.2.1.29.2.1.

8.2.1.29.3.3.1 If a move between the BDFB and the Power Board is necessary, Qwest will provide the applicable ICB rates in the QPF quote. If no such move is required, no ICB charge for the move applies. Qwest will provide a quote for any move between the BDFB and the power board to CLEC within twenty-five (25) Days. For ordering, see Section 8.4.10.

8.2.1.29.3.4 In instances where no fuse positions are available and a fuse position is needed for Qwest or a requesting CLEC, Qwest reserves the right to notify CLEC of the need to either re-energize the secondary feed(s) to at least twenty (20) amps or relinquish the power cabling and fuse position to Qwest within thirty (30) Days of receipt of the notification. If CLEC elects not to re-energize the secondary feed to at least twenty (20) amps, the reservation of the power cabling and fuse position will be cancelled, and Qwest will stop Billing for the Power Maintenance Charge. If Qwest is unable to provide the requested power restoration of the held feed(s) due to power capacity exhaust, Qwest will refund all Power Maintenance Charges collected since the reservation was accepted.

8.2.1.30 No later than the date CLEC accepts a Collocation site, Qwest shall provide CLEC a document providing a detailed layout record of final inventory and wiring conditions that relate to CLEC's Collocation site (the "APOT Form"). The APOT Form shall include particulars relating to a CLEC application for Collocation as well as CFA termination data such as cable name, facility type, channel (first unit pair, last unit pair), cable length, A (CO) and Z (CLEC) CLLIs, service type, frame code, floor, relay rack, panel, jacks/mod, fiber count, fiber circuit IDs, etc. The APOT Form is currently referred to as the "Physical Collocation Entrance Facility and Frame Termination Sheet".

8.2.1.30.1 Once CLEC accepts the quote for a Collocation site, Qwest will provide a preliminary APOT Form to CLEC. This form will be delivered at least fifteen (15) Days prior to the Ready For Service (RFS) date and will contain the terminations as originally assigned by Qwest. The terminations identified on the preliminary APOT Form are subject to change until Qwest issues the final APOT Form. Once Qwest completes the Collocation site preparation, on or before the RFS date, and CLEC has paid 100% of the non-recurring charges associated

with the Collocation site, Qwest will deliver a final APOT Form to CLEC. The Parties will schedule a walk through of the space within twenty-one (21) Days of RFS. Qwest will provide the final APOT Form to CLEC prior to the final walk through which will enable CLEC to verify whether information on Qwest's final APOT Form matches the labeling of the APOT terminations on the ICDF. Final APOT indicates that the terminations are loaded into Qwest's systems. During the final walk through with a Qwest designated employee, CLEC has the opportunity to review the Collocation site ordered by CLEC. The walk through shall be acceptance of the Collocation site unless deviations are noted in the completion package referred to in Section 8.5.3.1. Qwest will correct any deviations identified by CLEC at no additional charge. If CLEC has utilized information on its preliminary APOT Form to place orders for UNEs, Ancillary Services, Finished Services, etc., CLEC must verify the information against its final APOT Form. If Qwest changes the APOT information from the preliminary APOT Form to the final APOT Form, CLEC must supplement the affected orders to include the correct information. If Qwest provides final APOT information, but later changes the final APOT, Qwest will process, at no additional charge, the supplemental orders. If Qwest provides final APOT information, but later changes the final APOT, Qwest will process the individual supplemental circuit orders at no additional charge. Qwest will use its best efforts to meet the Due Date on the original order for the circuit(s). Failure by Qwest to meet the original Due Date will trigger the applicable remedies contained in Exhibit K of this Agreement. If one final APOT for a Collocation site is in error, monthly recurring Collocation charges for CFA terminations in error will be credited during the time between (1) the identification of an APOT error and (2) after all of the following have been completed: Qwest's resolution of the error, Qwest's provision of corrected APOT information to CLEC and input of that information into Qwest's system. If, within a thirty (30)-Day period, more than one final APOT for a Collocation site is found to be in error, Qwest will credit CLEC all monthly recurring Collocation charges for that Collocation site for the time period between (1) the identification of the second APOT error and (2) after all of the following have been completed: Qwest's resolution of the error, Qwest's provision of corrected APOT information to CLEC and input of that information into Qwest's system.

8.2.1.30.2 Qwest will label the CLEC block on the ICDF and TIE cable in the Collocation site with the appropriate cable information.

8.2.1.31 If Qwest finds, in the course of business, evidence to substantiate that any equipment or property of CLEC has been abandoned or left unclaimed in or at any Collocation Premises, Qwest shall provide a written notice to CLEC which shall at a minimum include (i) the identification of the affected Collocation Premises, (ii) the bases for Qwest's determination of abandonment, (iii) a point of contact at Qwest regarding the claimed abandonment and (iv) notice that CLEC has thirty (30) Days from the date of such notice to remove its equipment or property.

8.2.1.31.1 If CLEC responds in writing within thirty (30) Days that it disputes Qwest's determination of abandonment, the parties may resolve the dispute through negotiation or Dispute resolution pursuant to Section 5.18, initiated no later than the end of such thirty (30) Day notice period.

8.2.1.31.2 If CLEC responds in writing to such notice agreeing with such abandonment or fails to respond to such notice, CLEC's equipment shall be deemed abandoned and CLEC shall have until the end of such thirty (30) Day notice period to remove its equipment or property from the Collocation Premises. If CLEC fails to remove all of its equipment or property by the end of such thirty (30) Day period, such equipment or property shall conclusively be deemed and construed to have been transferred, deeded, and assigned by CLEC to Qwest and Qwest may appropriate, sell, store, and/or otherwise dispose of such equipment. Once the time period for removal of all of CLEC's equipment or property has elapsed, Qwest shall cease charging CLEC any recurring charges associated with the Collocation Premise where such abandoned equipment or property was located. CLEC shall reimburse Qwest for all reasonable expenses incurred in connection with the storage or disposition of such equipment or property, provided that Qwest makes reasonable efforts to mitigate such expenses. If Qwest receives value for such abandoned equipment or property, Qwest shall use such value to offset expenses it incurs in appropriating, selling, storing or otherwise disposing of such equipment or property. Qwest shall not be obligated to provide CLEC with an accounting of expenses Qwest seeks to recover from CLEC, unless CLEC requests in writing such an accounting and agrees to bear the reasonable expenses incurred by Qwest in preparing the same.

Notwithstanding the provisions of this section, where CLEC has submitted a Decommissioning application, the terms for Collocation Decommissioning, Section 8.2.1.22, contained in this Agreement shall apply.

8.2.1.32 CLEC shall not be required by Qwest to relocate a Collocation site. If CLEC, at Qwest's request, agrees to relocate a Collocation site, then Qwest shall reimburse CLEC for any and all costs reasonably associated with such relocation.

8.2.1.33 Qwest will mitigate and clean up hazardous wastes, materials or substances, if any, on its Premises (including Collocation sites available pursuant to Sections 8.2.10.3 and 8.2.10.4) in compliance with Applicable Law and technical publications, including Technical Publication 77350 and other applicable Qwest technical publications, if any. Except as provided in the previous sentence, for purposes of this Section 8.2.1.33, materials containing asbestos (including but not limited to floor tiles) when undisturbed shall not be considered to be hazardous waste, materials or substances. Before conveyance of a Collocation Site to CLEC, Qwest will notify CLEC in writing of the presence of any such materials containing asbestos. Notwithstanding Section 8.2.10.4.4, if hazardous material is contained in a Standard Site or a Special Site prior to CLEC's acceptance of that Site, Qwest will mitigate such hazardous wastes, materials or substances in the Site before CLEC acceptance of the Site.

8.2.2 General Terms - Virtual Collocation

8.2.2.1 Qwest is responsible for installing, maintaining, and repairing virtually collocated equipment for the purpose of Interconnection or to access UNEs, ancillary and Finished Services. When providing Virtual Collocation, Qwest shall install, maintain, and repair collocated equipment within the same time periods and with failure rates that are no greater than those that apply to the performance of similar functions for comparable equipment of Qwest.

8.2.2.2 CLEC will not have physical access to the virtually collocated equipment in the Qwest Premises. However, CLEC will have physical access to the Demarcation Point in the Qwest Premises.

8.2.2.3 CLEC will be responsible for obtaining and providing to Qwest administrative codes (e.g., common language codes) for all equipment provided by CLEC and installed in Qwest Premises.

8.2.2.4 CLEC shall ensure that upon receipt of CLEC's virtually collocated equipment by Qwest, all warranties and access to ongoing technical support are passed through to Qwest at CLEC's expense. CLEC shall advise the manufacturer and seller of the virtually collocated equipment that CLEC's equipment will be possessed, installed and maintained by Qwest.

8.2.2.5 CLEC's virtually collocated equipment must comply with Telcordia Network Equipment Building System (NEBS) Level 1 safety standards and any statutory (local, State or federal) and/or regulatory requirements in effect at the time of equipment installation or that subsequently become effective. CLEC shall provide Qwest interface specifications (e.g., electrical, functional, physical and software) of CLEC's virtually collocated equipment. Such safety and engineering standards shall apply to CLEC equipment only to the degree that they apply to Qwest equipment located in Qwest's Premises.

8.2.2.6 CLEC must specify all software options and associated plug-ins for its virtually collocated equipment.

8.2.2.7 CLEC will be responsible for payment of Qwest's initial direct training charges associated with training Qwest employees for the maintenance, operation and installation of CLEC's virtually collocated equipment when such equipment is different than the standard equipment used by Qwest in that Premises. This includes per diem charges (*i.e.*, expenses based upon effective Qwest labor agreements), travel and lodging incurred by Qwest employees attending a vendor-provided training course.

8.2.2.8 CLEC will be responsible for payment of reasonable charges incurred in the maintenance and/or repair of CLEC's virtual collocated equipment in accordance with this Agreement, unless otherwise agreed by the Parties. Notwithstanding the foregoing, CLEC shall not be responsible for any costs or charges incurred in the maintenance and/or repair of CLEC's virtually collocated equipment where such costs or charges result from Qwest's fault or negligence.

8.2.3 General Terms - Caged and Cageless Physical Collocation

8.2.3.1 Qwest shall provide Caged and Cageless Physical Collocation to CLEC for access to UNEs and ancillary services and Interconnection, except that Qwest may provide Virtual Collocation if Qwest demonstrates to the Commission that Physical Collocation is not practical for technical reasons or because of space limitations, as provided in Section 251(c)(6) of the Act.

8.2.3.2 Physical Collocation is offered in Premises on a space-available, first come, first-served basis.

8.2.3.3 Intentionally Left Blank.

8.2.3.4 Qwest will design the floor space in the most efficient manner possible within each Premises that will constitute CLEC's leased space. CLEC will, in accordance with the other terms and conditions of this Section, have access to its leased space.

8.2.3.5 When Qwest constructs the collocated space, Qwest will ensure that the necessary construction work (e.g., racking, ducting and caging for Caged Physical Collocation) is performed pursuant to Qwest Technical Publication 77350 and other applicable Qwest technical publications, if any, including all construction of CLEC's leased physical space and the riser from the vault to the leased physical space.

8.2.3.6 CLEC owns or leases and is responsible for the installation, Maintenance and Repair of its equipment located within the physically collocated space leased from Qwest.

8.2.3.7 Qwest shall permit CLEC to commence installation of its equipment prior to completion of Qwest's work on the remaining Collocation infrastructure, at no additional charge to CLEC. Such "early access" date will be negotiated by Qwest and CLEC on a site specific basis. In order to obtain early access, CLEC must pay eighty percent (80%) of the remaining fifty percent (50%) of the quoted non-recurring charges before early access is granted, leaving a holdback of ten percent (10%) of the originally quoted non-recurring charges. All appropriate (i.e., space and cable racking) recurring charges will begin on a negotiated date. The enclosure for Caged Physical Collocation must be complete before early access is granted. Such early access by CLEC shall not interfere with the work remaining to be performed by Qwest.

8.2.3.8 Upon completion of the construction of the Collocation project, Qwest will work cooperatively with CLEC in matters of joint testing and maintenance.

8.2.3.9 Qwest will determine and notify CLEC, in the manner described below, within ten (10) Days of CLEC submitting its Collocation application if Qwest believes CLEC's listed equipment does not comply with NEBS Level 1 safety standards or is in violation of any Applicable Laws or regulations, all equally applicable to Qwest. If CLEC disagrees, CLEC may respond with the basis for its position within ten (10) Days of receipt of such notice from Qwest. If, during installation, Qwest determines CLEC activities or equipment other than those listed in the Collocation application do not comply with the NEBS Level 1 safety standards listed in this Section or are in violation of any Applicable Laws or regulations all equally applied to Qwest, Qwest has the right to stop all installation work related to the activities or equipment at issue until the situation is remedied or CLEC demonstrates that Qwest's determination was incorrect. Qwest shall provide written notice of the non-compliance to CLEC and such notice will include: (1) identification of the specific equipment and/or installation not in compliance; (2) the NEBS 1 safety requirement that is not met by the equipment and/or installation; (3) the basis for concluding that CLEC equipment and/or installation does not meet the safety requirement; and (4) a list of all equipment that Qwest locates at the Premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that Qwest contends CLEC's equipment fails to meet. If such conditions pose an immediate threat to the safety of Qwest employees, interfere immediately with the performance of Qwest's service obligations, or pose an immediate threat to the physical integrity of the conduit system, cable facilities or other equipment in the Premises, Qwest may perform such work and/or take action as is necessary to

correct the condition at CLEC's expense. If time permits, Qwest shall first provide CLEC a meaningful opportunity to respond and, if necessary, remedy the situation. In the event CLEC disputes any action Qwest seeks to take or has taken pursuant to this provision, CLEC may pursue immediate resolution by the Commission or a court of competent jurisdiction.

8.2.3.10 This Section 8.2.3.10 applies as set forth herein, notwithstanding anything that may be to the contrary in Section 8.2.3.9. All equipment placed will be subject to random safety audits conducted by Qwest. Qwest will not enter CLEC's caged Collocation space or access CLEC's cageless Collocation equipment as part of a random safety audit. These audits will determine whether the equipment meets the NEBS Level 1 safety standards required by this Agreement. CLEC will be notified of the results of this audit. If, pursuant to the random audit, Qwest does not demonstrate non-compliance, Qwest shall pay CLEC using the rates in Exhibit A for Additional Labor Other, for CLEC time spent, if any, as a result of Qwest's audit. If, at any time, pursuant to a random audit or otherwise, it is determined that the equipment or the installation does not meet the NEBS standards described in Section 8.2.1.8, CLEC will be responsible for the costs associated with the Qwest time spent for audit using the rates in Exhibit A for Additional Labor Other, removal, modification to, or installation of the equipment to bring it into compliance. Qwest shall provide written notice of the non-compliance to CLEC, and such notice will include: (1) identification of the specific equipment and/or installation not in compliance; (2) the NEBS 1 safety requirement that is not met by the equipment and/or installation; (3) the basis for concluding that CLEC's equipment and/or installation does not meet the safety requirement; and (4) a list of all equipment that Qwest locates at the Premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that Qwest contends CLEC's equipment fails to meet. If CLEC fails to correct any non-compliance within fifteen (15) Days of written notice of non-compliance, or if such non-compliance cannot be corrected within fifteen (15) Days of written notice of non-compliance, and if CLEC fails to take all appropriate steps to correct any non-compliance as soon as reasonably possible, Qwest may pursue immediate resolution by the Commission or a court of competent jurisdiction. If there is an immediate threat to the safety of Qwest employees, or an immediate threat to the physical integrity of the conduit system, cable facilities, or other equipment in the Premises, Qwest may perform such work and/or take such action as is necessary to correct the condition at CLEC's expense. In the event CLEC notifies Qwest that CLEC disputes any action Qwest seeks to take or has taken pursuant to this provision, CLEC may pursue immediate resolution by the Commission or a court of competent jurisdiction.

8.2.3.11 Qwest shall provide basic telephone service with a connection jack at the request of CLEC for Caged or Cageless Physical Collocated space. Upon CLEC's request, this service shall be available per standard Qwest business service Provisioning processes and rates.

8.2.3.12 For Caged Physical Collocation, CLEC's leased floor space will be separated from other CLECs and Qwest space through a cage enclosure. Qwest will construct the cage enclosure or CLEC may choose from Qwest approved contractors or may use another vendor of CLEC's own choosing, subject to Qwest's approval which may not be unreasonably withheld, to construct the cage enclosure. All CLEC equipment placed will meet NEBS Level 1 safety standards, and will comply with any local, State, or federal regulatory requirements in effect at the time of equipment installation or that subsequently become effective.

8.2.3.13 For Cageless Physical Collocation in a Wire Center, the minimum square footage is nine (9) square feet per bay (however, if smaller bays are or become available, Qwest will reduce the minimum square footage accordingly). Requests for multiple bay space will be provided in adjacent bays where possible. When contiguous space is not available, bays may be commingled with other CLECs' equipment bays. CLEC may request, through the Qwest Space Reclamation Policy, a price quote to rearrange Qwest equipment to provide CLEC with adjacent space.

8.2.4 Transmission Facility Access to Collocation Space

8.2.4.1 For Virtual or Physical Collocation, CLEC may select from five (5) optional methods for facility access to its Collocation space. They include: 1) fiber entrance facilities; 2) purchasing private line or Access Services; 3) Unbundled Network Elements; 4) microwave entrance facilities; and 5) CLEC to CLEC connection to a third party provider. Other entrance facility technologies may be requested through the BFR process.

8.2.4.2 Collocation Fiber Entrance Facilities. Qwest offers three (3) Fiber Collocation Entrance Facility options – Standard Fiber Entrance Facility, Cross-Connect Fiber Entrance Facility, and Express Fiber Entrance Facilities. These options apply to Caged and Cageless Physical Collocation and Virtual Collocation. Fiber Entrance Facilities provide the connectivity between CLEC's collocated equipment within the Qwest Wire Center and a Collocation Point of Interconnection (C-POI) outside the Qwest Wire Center where CLEC shall terminate its fiber-optic facility, except the Express Fiber Entrance Facilities.

8.2.4.3 CLEC is responsible for providing its own fiber facilities to the C-POI outside Qwest's Wire Center. Qwest will extend the fiber cable from the C-POI to a Fiber Distribution Panel (FDP). Additional fiber, conduit and associated riser structure will then be provided by Qwest from the FDP to continue the run to CLEC's leased Collocation space (Caged or Cageless Physical Collocation) or CLEC's equipment (Virtual Collocation). The Qwest provided facility from the C-POI to the leased Collocation space (Physical Collocation) or CLEC equipment (Virtual Collocation) shall be considered the Collocation Fiber Entrance Facility. The preceding provisions do not apply to Express Fiber Entrance Facility which provides that CLEC fiber will be pulled to CLEC Collocation equipment without splices or termination on an FDP.

8.2.4.3.1 Standard Fiber Entrance Facility -- The standard fiber entrance facility provides fiber connectivity between CLEC's fiber facilities delivered to the C-POI and CLEC's Collocation space in increments of 12 fibers. CLEC's fiber cable is spliced into a Qwest-provided shared fiber entrance cable that consists of six buffer tubes containing 12 fibers each for a 72 fiber cable. The 72 fiber cable shall be terminated on a Fiber Distribution Panel (FDP). A 12 fiber Interconnection cable is placed between CLEC's Collocation space and the FDP. The FDP provides Qwest with test access and a connection point between the transport fiber and CLEC's Interconnection cable.

8.2.4.3.2 Cross-Connect Fiber Entrance Facility -- The cross-connect fiber entrance facility provides fiber connectivity between CLEC's fiber facilities delivered to a C-POI and multiple locations within the Qwest Wire Center. CLEC's fiber cable is spliced into a Qwest provided shared fiber entrance cable

in 12 fiber increments. The Qwest fiber cable consists of six buffer tubes containing 12 fibers each for a 72 fiber cable. The 72 fiber cable terminates in a fiber distribution panel. This fiber distribution panel provides test access and flexibility for Cross Connection to a second fiber distribution panel. Fiber Interconnection cables in 4 and 12 fiber options connect the second fiber distribution panel and equipment locations in the Qwest Wire Center. This option has the ability to serve multiple locations or pieces of equipment within the Qwest Wire Center. This option provides maximum flexibility in distributing fibers within the Wire Center and readily supports Virtual and Cageless Physical Collocation and multiple CLEC locations in the office. This option also supports transitions from one form of Collocation to another.

8.2.4.3.3 Express Fiber Entrance Facility – Qwest will place CLEC-provided fiber cable from the C-POI directly to CLEC's Collocation space. The fiber cable placed in the Wire Center must meet NEBS Level 1 fire rating requirements. If CLEC provided cable does not meet NEBS Level 1 fire rating requirements then a transition splice will occur in the cable vault to insure that the cable within the Qwest Wire Center meets requirements. This option will not be available if there is only one (1) conduit with two (2) unused innerducts (one (1) for emergency restoral and one (1) for a shared entrance cable).

8.2.4.4 Qwest will designate the location of the C-POI for Virtual, Caged Physical or Cageless Physical Collocation arrangements.

8.2.4.5 The Collocation entrance facility is assumed to be fiber optic cable and meets industry standards (GR. 20 Core). Metallic sheath cable is not considered a standard Collocation entrance facility. Requests for non-standard entrances will be considered through the BFR process described in the Bona Fide Request Process Section of this Agreement. All costs and Provisioning intervals for non-standard entrances will be developed on an Individual Case Basis.

8.2.4.6 Qwest shall provide an Interconnection point or points, physically accessible by both Qwest and CLEC, at which the fiber optic cable carrying CLEC's circuits can enter Qwest's Wire Center, provided that Qwest shall designate Interconnection points as close as reasonably possible to its Premises. Qwest shall offer at least two (2) such Interconnection points at each Qwest Wire Center when at least two (2) entry points pre-exist and duct space is available. Qwest will not initiate construction of a second, separate Collocation entrance facility solely for Collocation. If Qwest requires the construction of a new Collocation entrance facility for its own use, then the needs of CLEC will also be taken into consideration.

8.2.4.7 As an alternative to the Fiber Entrance Facilities described above, CLEC may purchase Qwest Tariffed or cataloged Private Line or Switched Access Services.

8.2.4.8 As an alternative to the Fiber Entrance Facilities described above, CLEC may purchase unbundled dedicated interoffice transport.

8.2.4.9 Microwave Entrance Facilities. Qwest offers Microwave Entrance Facilities, on Premises owned or controlled by Qwest, to access CLEC transmission equipment collocated on or inside the Qwest Premises. The rooftop, duct, conduit, and riser cable space for Microwave Entrance Facilities is available on a first-come, first-

served basis, where Technically Feasible. CLEC may place its microwave antenna on a Qwest owned or controlled existing tower, building, or supporting structure, where space is available, or CLEC may construct such tower or supporting structure, if necessary and if there is sufficient space and the building structure is not jeopardized. Such microwave equipment will be limited to that which is necessary for Interconnection to Qwest's network or access to Qwest's Unbundled Network Elements.

8.2.4.9.1 Qwest will jointly coordinate and plan with CLEC for the placement and location of the microwave equipment on a non-penetrating roof mount, or an existing tower or supporting structure on the exterior of a Qwest Premises. The method of placing CLEC microwave equipment shall be mutually agreed upon. Tower or building roof space that allows for unobstructed line-of-sight will be provided by Qwest where Technically Feasible. A weather proof cable entry hatch or an existing wave-guide hatch or other suitable entrance into the building is required. If space is available, CLEC may use an existing cable entry hatch or a new cable entry hatch will need to be constructed. The cable entry hatch charges are on a per Port used basis.

8.2.4.9.2 CLEC can perform the determination of line-of-sight feasibility or if requested, Qwest will perform the line-of-sight feasibility. CLEC will submit a Microwave Entrance Facility application for each antenna arrangement and each Qwest Premises requested. A site visit will include appropriate Qwest and CLEC personnel for the purpose of determining whether an unobstructed line-of-sight is Technically Feasible and structural analysis of the building. The site visit will take place within fifteen (15) Days after receipt by Qwest of the CLEC's Microwave Entrance Facility application, unless the CLEC requests a later date. If CLEC performs the structural analysis and line-of-sight feasibility, it shall submit a response regarding its analysis to Qwest and Qwest will only bill for an inspector fee per site requested. If either Party disputes the Technical Feasibility, space availability, or other conditions proposed by Qwest, the Parties will promptly petition the Commission for resolution of the dispute.

8.2.4.9.3 If Qwest performs the feasibility analysis, a response will be provided to CLEC within thirty (30) Days after the site visit with the structural analysis and line-of-sight feasibility. If the site visit determines that unobstructed line-of-sight and placement of the microwave equipment are not Technically Feasible, CLEC will be billed only for the site visit. If the site visit determines that the placement of microwave equipment is Technically Feasible, Qwest will provide a quote for the Microwave Entrance Facility with the quote for the submitted Collocation application. If CLEC does not submit a Collocation application for the Premises within thirty (30) Days following the completion of the line-of-sight and structural feasibility analysis or CLEC subsequently cancels the Collocation application, CLEC will be billed for the site visit.

8.2.4.9.4 CLEC must obtain all necessary variances, licenses, approvals and authorizations from governmental agencies with jurisdiction, such as use permits, building permits, FCC licenses and FAA approval, if required, to construct, operate and maintain the CLEC facilities. If Qwest's assistance is required in order for a CLEC to obtain necessary licenses or permits, Qwest will not unreasonably withhold such assistance. CLEC will pay all expenses associated with that assistance on a time and materials basis.

8.2.4.9.5 CLEC is responsible for the engineering, purchasing, supplying, installing, maintaining, repairing and servicing of its microwave specific equipment. CLEC shall provide the cable from the antenna equipment to the building cable entry hatch. However, CLEC is not permitted to penetrate the building exterior wall or roof. Qwest will do all building penetration and Qwest will install the coaxial cable or wave-guide/transmission facility from the cable entry hatch to the CLEC's Collocation space within the interval, as set forth in Section 8.4, for the type of Collocation requested by CLEC. CLEC facilities shall not physically, electronically, or inductively interfere with the existing Qwest or other CLECs' equipment. Each transmitter individually and all transmitters collectively, for Qwest, Qwest Affiliates and CLECs, at a given location shall comply with appropriate Federal, State, and Local regulations governing the safe levels of RF radiation.

8.2.4.9.6 Upon expiration or termination of the Collocation arrangement or the Microwave Entrance Facility, CLEC shall return the antenna space to its original condition. CLEC shall repair any damages caused by removal of its microwave equipment, or by the use, operation or placement of its microwave equipment on the Premises. If CLEC performs the foregoing, Qwest shall impose no charges on CLEC for such work. In the event the CLEC fails to remove its microwave equipment, CLEC shall be liable to Qwest for all reasonable costs of removal, restoration of the property, storage, and transportation to CLEC of such microwave equipment incurred by Qwest.

8.2.4.10 As an alternative to the Fiber Entrance Facilities described above, CLEC may purchase CLEC to CLEC connection to a third party provider.

8.2.5 General Terms – ICDF Collocation

8.2.5.1 Interconnection Distribution Frame (ICDF) Collocation is available for CLECs who require access to the Qwest Wire Center for combining Unbundled Network Elements, ancillary services and Finished Services, including local Interconnection trunks. ICDF Collocation provides CLECs with access to the Interconnection Distribution Frame, where Qwest will terminate the Unbundled Network Elements, ancillary services and Finished Services ordered by CLEC. CLEC may combine one (1) UNE to another UNE, an ancillary service, or a Finished Service by running a jumper on the ICDF. CLEC access to the ICDF will be on the same terms and conditions described for other types of Collocation in this Section. There are multiple frames that could be used for ICDF Collocation including, but not limited to, the following: a) existing Interconnection Distributing Frame (ICDF); b) existing DSX Panels for DS1 and DS3 services; c) new Interconnection Distributing Frame; d) existing toll frame; e) fiber distribution panel; and, f) existing intermediate frame

8.2.5.1.1 For Commingling, see Section 24.

8.2.5.2 All Qwest terminations on the Interconnection Distribution Frame will be given a frame address. Qwest will establish and maintain frame address records for Qwest terminations. Qwest will maintain assignment records for each Unbundled Network Element, ancillary service and Finished Service ordered by CLEC that is terminated on the Interconnection Distribution Frame. Qwest will provide CLEC with the frame assignments for each Unbundled Network Element, ancillary service and Finished

Service terminated on the ICDF.

8.2.5.3 CLEC will be required to place the jumper connection between frame addresses to connect Unbundled Loops, ancillary and Finished Services. CLEC will be required to maintain the records for CLEC-provided jumpers.

8.2.5.4 Intentionally Left Blank.

8.2.6 General Terms - Adjacent Collocation and Adjacent Remote Collocation

8.2.6.1 CLEC may request Adjacent Collocation and Adjacent Remote Collocation in an existing Qwest controlled environmental vault, controlled environmental hut, or similar structures on or under Qwest owned, leased or otherwise controlled property contiguous to a Qwest Premises, to the extent Technically Feasible. Adjacent Collocation in an existing structure shall be ordered as Physical Collocation. Adjacent Remote Collocation in an existing structure shall be ordered as Remote Collocation.

8.2.6.1.1 Alternatively, if no such structure described above exists, CLEC may choose to construct or procure a structure to place on or under Qwest owned, leased or otherwise controlled property contiguous to a Qwest Premises. Such adjacent structure shall be in accordance with Qwest's design and space planning for the site. CLEC may propose the design for the adjacent structure, subject to Qwest's approval. Qwest will review the building and property plans for the new structure within thirty (30) Days.

8.2.6.1.2 CLEC shall own such structure, subject to a reasonable ground space lease. If CLEC terminates its Adjacent Collocation space, Qwest shall have the right of first refusal to such structure under terms to be mutually agreed upon by the Parties. Qwest will exercise its rights within seven (7) Days of receiving notice of termination. In the event Qwest declines to take the structure or terms cannot be agreed upon, CLEC may transfer such structure to another CLEC for use for Interconnection and or access to UNEs. Transfer to another CLEC shall be subject to Qwest's approval, which approval shall not be unreasonably withheld. If no transfer of ownership occurs, CLEC is responsible for removal of the structure and returning the property to its original condition.

8.2.6.2 Qwest shall provide written authorization for use of Qwest's property to CLEC or CLEC's contractor, to the extent that Qwest owns or controls such property, to assist CLEC in obtaining any building permits or other approvals that may be necessary to construct the facility. CLEC is responsible for construction of the structure or procurement of an existing structure. CLEC is responsible for meeting all State and municipal building and zoning requirements.

8.2.6.3 Qwest will provide power and all other Physical Collocation services and facilities.

8.2.6.4 Upon request, Qwest will evaluate all parking or other spaces outside the Qwest Premises on Qwest property that can be reasonably made available to CLEC for Adjacent Collocation. Qwest will retain a reasonable amount of parking space for Qwest technicians or other vehicles, including CLECs. Space below a hoisting area will not be relinquished for Collocation space.

8.2.6.5 If Physical Collocation space becomes available in a previously exhausted Qwest structure, Qwest shall not require CLEC to move, or prohibit CLEC from moving its Collocation arrangement into the Qwest structure. Instead, Qwest shall continue to allow CLEC to collocate in any adjacent controlled environmental vault, controlled environmental hut, or similar structure.

8.2.7 General Terms – Remote Collocation

8.2.7.1 Remote Collocation allows CLEC to collocate in a Qwest Remote Premises that is located remotely from a Qwest Wire Center building property. Such Remote Premises include controlled environmental vaults, controlled environmental huts, cabinets, pedestals and other Remote Terminals.

8.2.7.2 The terms and conditions for Physical Collocation or Virtual Collocation shall apply to Remote Collocation as appropriate to the specific Remote Premises structure and subject to Technical Feasibility (e.g., Section 8.2.3.11 and Section 8.2.4 would not apply), or if appropriate, Adjacent Collocation as set forth above. Space will be offered in increments appropriate to the Remote Premises structure (i.e., shelf, relay rack, etc.).

8.2.8 General Terms for Facility Connected Collocation

8.2.8.1 FC Collocation is available if CLEC wishes to obtain access to Unbundled Network Elements (UNEs), Ancillary Services or Finished Services without the use of equipment collocated in a Qwest Wire Center.

8.2.8.2 Qwest performs the installation of individual UNEs to the block termination point indicated by CLEC on the Alternative Point of Termination (APOT) form

8.2.8.3 FC Collocation is available with the following configurations:

8.2.8.3.1 Copper Entrance Facility for termination and cross-connection to appropriate Digital Service Level 0 (DS0) and Digital Service Level 1 (DS1) UNE services (if utilized for DS1 UNEs, CLEC must transmit a Trunk Level 1 (T1) templated signal over the copper facility). DS1 Copper entrance facilities will be wired to a DS1 office repeater to remove line voltage before terminating on the DSX Panel. Qwest will install and charge for this repeater equipment.

8.2.8.3.2 Fiber Entrance Facility termination and cross-connection to appropriate fiber UNEs (Dark Fiber).

8.2.8.3.3 Other levels of service such as Digital Service Level 3 (DS3) or DS1 utilizing fiber are available via the Bona Fide Request (BFR) when there is an issue of Technical Feasibility. When there is no issue of Technical Feasibility the SRP will be used.

8.2.8.3.4 All Qwest terminations on the Termination Frame or Termination Panel will be given a frame address. Qwest will establish and maintain frame or panel address records for Qwest terminations.

8.2.8.3.5 Protection for lightning or voltage is required when copper entrance facilities are used and Qwest will require protection units on standard connector blocks on the distribution frame. Qwest will engineer and install this protection.

All copper cables used for Interconnection or access to UNEs, Ancillary Services, or Finished Services must come through a cable vault/entrance facility and have grounded/bonded sheaths.

8.2.8.3.6 CLEC is responsible for providing an entrance facility to the Collocation-Point of Interconnection (C-POI).

8.2.9 Intentionally Left Blank

8.2.10 General Terms - Collocation Available Inventory

8.2.10.1 The offering of a Collocation site from the Qwest Available Inventory list shall be limited to the offering of a specified site in Qwest's control to CLEC that either: (i) has a Commission-approved Interconnection Agreement covering the specific type of Collocation to be obtained or (ii) is currently in negotiations with Qwest for such an Agreement.

8.2.10.2 The assuming CLEC for all Qwest posted sites will be required to pay a minimum of six (6) months of Space Construction and Floor Space Lease recurring charges should the CLEC terminate its rights of occupancy prior to six (6) months of occupancy.

8.2.10.3 Standard Sites

8.2.10.3.1 Qwest Postings: Collocation sites available in the Qwest Postings may be partially or fully completed before being returned to Qwest inventory. Both caged and cageless sites will be offered in the Qwest Collocation Postings section. Sites will be offered under the terms and conditions set forth in CLEC's Interconnection Agreement. In its Collocation application for such a site, CLEC may request to add to or complete the Collocation site to the CLEC's specifications. In CLEC Collocation application for such a site, CLEC may also request that Qwest reduce cable terminations. CLEC will be charged for the removal of such cable terminations, if Qwest completely removes such terminations from the Collocation space.

8.2.10.3.2 All services that were previously connected to the Collocation (e.g., Unbundled Network Elements, CLEC to CLEC connections, administrative lines, Finished Services, Line Splitting and Line Sharing, etc.) will be disconnected before the site is listed on the "Qwest Postings" section of the Collocation Classifieds. Power, Grounding for caged sites and Entrance Facilities are also disconnected prior to a site being posted. Qwest shall inventory all Reusable and Reimbursable Elements and list them in the Qwest Postings. Shared resources including HVAC and racking will not be listed in the Qwest postings. When other Collocation space is not available, Qwest reserves the right to remove Qwest postings from the Available Inventory web site to satisfy CLEC applications for Collocation, for Qwest space requirement needs, or for CLEC Collocation Augments to existing sites. Qwest shall not use the Qwest Postings as a basis to claim exhaust (space, power, terminations, etc.) in any Qwest Premises.

8.2.10.3.3 If the assuming CLEC requests modifications to the Qwest posted site, the terms and conditions of this Agreement relating to Collocation Augments apply.

8.2.10.3.4 CLEC must pay the initial fifty percent (50%) of the quoted non-recurring charges to Qwest within thirty (30) Days of receiving the quote. If the payment is not received by Qwest within such thirty (30) Day period, the quote will expire and the requested site will be returned to Qwest inventory. The CLEC will be charged a QPF for work performed up to the point of expiration or non-acceptance of the quote.

8.2.10.4 Special Sites:

8.2.10.4.1 Qwest may elect to offer Collocation sites returned through Chapter 7 bankruptcy or abandonment (Special Sites). These Special Sites will not be decommissioned and may be offered with Electronic Equipment (Equipment), Equipment Racks, Cages, DC power, Grounding and Terminations. These Special Sites will be posted in the Qwest Available Inventory posting under "Unverified sites with equipment".

8.2.10.4.2 Intentionally Left Blank.

8.2.10.4.3 CPMC will verify whether the requested site is still available for acquisition by conducting a feasibility study within ten (10) Days after receipt of the application. If the site is not available the CPMC will notify the CLEC in writing. If the site is available a site survey will be arranged with the CLEC and Qwest State Interconnect Manager (SICM). Upon completion of the survey Qwest will prepare a quote based on the site inventory and any requested modifications to the site. CLEC must pay in full one hundred percent (100%) of the quoted non-recurring charges to Qwest within thirty (30) Days of receipt of the quote. If Qwest does not receive the payment within such thirty (30) Day period, the quote will expire and the requested site will be returned to Qwest inventory. The CLEC will be charged a Special Site Assessment fee as specified in Section 8.1.15.2.1 of Exhibit A for work performed up to the point of expiration or non-acceptance of the quote. See Section 8.3.11.3.2. Each Party reserves its right to advocate for changes regarding the rates and application of the rates for the elements in this section in a Commission docket (e.g., cost case). Upon receipt of the full payment for the quoted non-recurring charges, Qwest will begin the establishment of the site records and complete the job build-out. The interval shall be forty-five (45) Days for completion of the site from receipt of payment. In the event that CLEC requires Qwest to install additional services to the existing site, the interval will revert to the intervals defined in the assuming CLEC's Interconnect Agreement.

8.2.10.4.4 For Special Sites; IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT QWEST IS SELLING EQUIPMENT THAT IS CLASSIFIED AS "USED" OR "SURPLUS" EQUIPMENT ON AN "AS IS, WHERE IS" BASIS. CLEC UNDERSTANDS AND AGREES THAT ALL EQUIPMENT IS, CONVEYED (I) IN AN "AS IS" "WHERE IS" CONDITION WITH ALL FAULTS, LATENT AND PATENT AND (II) ALL EQUIPMENT IS CONVEYED WITHOUT ANY QWEST WARRANTIES OR REPRESENTATIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT OR IMPLIED BY A PARTICULAR COURSE OF DEALING.

8.2.10.4.4.1 All software and software license agreements for any Equipment conveyed as part of a Special Site shall be the sole responsibility of the assuming CLEC.

8.2.10.4.4.2 Any mitigation and clean up of a Special Site by Qwest before conveyance of the Special Site to the assuming CLEC pursuant to Section 8.2.1.33, and any handling, scrap, destruction or other disposition of any Equipment by the assuming CLEC after conveyance of the Special Site to the assuming CLEC, shall conform and comply with the following:

- a) All applicable federal, state, county and municipal laws, statutes, regulations, and codes regulating hazardous wastes, materials or substances, including, but not limited to the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601 et seq.); the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6901 et seq.); Hazardous Materials Transportation Act (HMTA) (49 U.S.C. 1801 et seq.); Occupational Safety and Health Act (OSHA) (29 U.S.C. 651 et seq.); Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)(42 U.S.C. 9601 et seq.); and any successor acts thereto or the regulations promulgated thereunder and any applicable International laws and regulations;
- b) Any applicable Qwest Technical Publications.

8.2.10.4.5 Intentionally Left Blank.

8.2.11 General Terms - Joint Testing

8.2.11.1 Qwest will only perform Joint Testing between the CLEC Collocation and the ICDF once CLEC equipment is in place. Joint Testing is available upon CLEC's request. Joint Testing shall include, but not be limited to: (i) a comparison of the physical terminations of CLEC cabling (e.g., DS0s, DS1s, DS3s) at Qwest's ICDF against a printout of Qwest's APOT data, (ii) verification of cable count sequence and continuity for each cable pair in the inventory, and (iii) if any failure of continuity is found and cannot be resolved during the joint test, Qwest will provide notification of the resolution of such troubles.

8.2.11.2 Qwest will not charge a Quote Preparation Fee (QPF) for the Joint Testing Process. Qwest and CLEC will negotiate a scheduled test date within 10 Days from the receipt of the Joint Testing application. Qwest and CLEC will negotiate to complete the Joint Testing within thirty (30) Days after receipt of CLEC's application. CLEC must specify the terminations it is requesting for the Joint Testing. When Joint Testing is requested as part of an initial or subsequent application for Collocation (new, change, or Augment) Qwest will contact CLEC to negotiate a schedule for Joint Testing based on RFS date. Qwest will charge for Joint Testing on a per application basis as described in Section 8.2.11.6 of this Agreement.

8.2.11.3 CLEC must provide specific information about the terminations to be tested and preferred test dates and times, if any, on its application for Qwest to arrange a mutually agreeable Joint Testing date and time. CLEC may request Joint Testing on a

Collocation application form or on an optional separate form for Joint Testing at the ICDF, both of which are available on the Qwest web site. Qwest will acknowledge via email an acceptance of CLEC's application within 2 business days of receipt of a Joint Testing at the ICDF application.

8.2.11.4 Each Party will provide test gear for its technicians. Qwest employees will assist CLEC in conducting Joint Testing on terminations at the ICDF. Qwest employees will not operate CLEC test gear.

8.2.11.5 If an error rate of 2% or more is determined to exist on the terminations that are identified for Joint Testing and are being tested during the scheduled Joint Testing period, and the errors are identified as Qwest errors, Qwest will not charge for the Joint Test and any retesting necessary for resolution. However, if the rate of error is less than 2%, or if the errors are facility errors on facilities provided by CLEC, Qwest will charge for the Joint Testing Process as described below (i.e., one pair is counted as two terminations and errors are counted on a per termination basis).

8.2.11.6 CLEC may request Joint Testing of additional terminations not identified on its application (new, change, or Augment) for Joint Testing by submitting the separate Joint Testing application form at a later date. With a minimum of ten (10) Days notice from CLEC, Qwest will also accept changes to the Joint Test application form if CLEC wants to change the date or number of terminations to be Joint Tested. Cancellations requested by CLEC less than 24 hours prior to the scheduled joint test will be billed the minimum charge. Scheduling for Joint Testing will be implemented as follows:

- The amount of time scheduled for Joint Testing must be agreed upon between Qwest and CLEC and must be a reasonable time period based on the number of terminations, types of terminations, the testing to be performed and other relevant factors. A qualified Qwest technician shall be available for the period of time scheduled for Joint Testing.
- At its discretion, CLEC may schedule multiple test dates on terminations to be tested. If CLEC requests multiple scheduling dates, Qwest will charge the minimum one (1) hour charge for each scheduled test date. Rules concerning cancellation will apply for multiple test dates.
- Every scheduled test will be billed a one (1) hour minimum charge. If possible, the Qwest technician will stay beyond the scheduled time to complete testing.

8.2.11.7 If CLEC requests that charges be waived pursuant to Section 8.2.11.5 because of Qwest errors found during testing, Qwest may access CLEC Collocation space to identify if the facility cabling sequence is correct. If Qwest wishes to access CLEC Collocation space, it must provide CLEC with notice of its desire to access such space and coordinate a mutually agreeable time with CLEC so that a CLEC representative can be present to make such access available. CLEC may view Qwest facility cabling at the ICDF to identify cable sequence. If the errors are validated as Qwest errors, the charges shall be waived. Otherwise, Qwest will charge for Joint Testing it performs.

8.2.11.8 If errors are found during the Joint Test Process, Qwest will only provide tools, materials and labor for the repair of Qwest-network faults. Repairs where Qwest has tools, materials and time will be completed on the same day as the Joint Testing. Where Qwest does not have tools, materials and time available, and no procurement of materials is necessary, Qwest will complete repairs within two (2) business days after the Joint Testing. In those situations where procurement of materials is necessary, or Qwest requires vendor assistance, Qwest will complete the repairs within seven (7) business days after the Joint Testing. The references to “time” in the preceding sentences mean that the repairs can be completed in the time scheduled for the Joint Testing or that the Qwest technician is able to remain after such scheduled time to complete repairs. Any time spent by Qwest repairing troubles for which Qwest is responsible shall be deducted from the Joint Testing time, unless no charges apply pursuant to Section 8.2.11.5 or Section 8.2.11.8.1. If errors are facility errors and CLEC provided such facilities, CLEC will be responsible for the replacement or repair of those facilities.

8.2.11.8.1 If Qwest performs repairs after the Joint Testing is concluded, within a reasonable amount of time Qwest shall notify CLEC of the completion of such repairs. Within a reasonable amount of time thereafter, CLEC may request Joint Testing of such repaired terminations. Such re-testing will be at no charge to CLEC.

8.2.12 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.3 Rate Elements

Rates for Collocation are included in Exhibit A. For Pricing generally, see Section 22.

8.3.1 Rate Elements - All Collocation

8.3.1.1 Qwest will recover Collocation costs through both recurring and non-recurring charges. The charges are determined by the scope of work to be performed based on the information provided by CLEC on the Collocation Order Form. A quote is then developed by Qwest for the work to be performed.

8.3.1.2 The following elements as specified in Exhibit A of this Agreement are used to develop a price quote in support of Collocation:

8.3.1.3 Quote Preparation Fee (“QPF”). Qwest will assess a QPF when it delivers a Collocation quote to CLEC. Once the quote is delivered, the QPF becomes a non-refundable charge for the work required to verify space and develop a price quote for the total costs to CLEC for its Collocation request. Quote Preparation includes the following functions: order validation, Collocation project management, space verification, inventory of all reusable elements, preparation of new design work package (power and space planning and engineering, entrance facility engineering and construction (as required), engineering of additional elements and associated database changes (e.g., deleting old termination from vacating CLEC and establishing assuming CLEC terminations), and preparation of initial quote. These work steps are the same for any new engineering job.

8.3.1.4 Collocation Entrance Facility Charge. Provides for the fiber optic cable (in increments of 12 fibers) from the C-POI utilizing Qwest owned, conventional single mode type of fiber optic cable to the collocated equipment (for Virtual Collocation) or to the leased space (for Caged or Cageless Physical Collocation). The Collocation entrance facility includes manhole, conduit/innerduct, placement of conduit/innerduct, fiber cable, fiber placement, splice case, a splice frame, fiber distribution panel, and relay rack. Charges apply per fiber pair. Express Fiber Entrance Facility does not include fiber cable, splice case, a splice frame or fiber distribution panel. Microwave Entrance Facility charges are addressed in 8.3.1.17.

8.3.1.5 Cable Splicing Charge. Represents the labor and equipment to perform a subsequent splice to CLEC provided fiber optic cable after the initial installation splice. Includes per-setup and per-fiber-spliced rate elements.

8.3.1.6 -48 Volt DC Power. There are two -48 Volt DC Power charges, as described below, one for -48 Volt DC Power Plant and one for -48 Volt DC Power Usage. Each Party reserves its right to advocate for changes regarding the rates and application of the rates for the elements in this section (including subparts) in a Commission docket (e.g., cost case).

8.3.1.6.1 The -48 Volt DC Power Plant charge provides -48 Volt DC power to CLEC collocated equipment and is fused at one hundred twenty-five percent (125%) of request. The DC Power Plant Charge recovers the cost of the capacity of the power plant available for CLEC's use.

8.3.1.6.2 The -48 Volt DC Power Usage Charge recovers the cost of the CLEC's power usage. -48 Volt DC Power Usage can be provided and charged on a non-measured basis, or, in some cases specified below, on a measured basis.

a) Non-Measured -48 Volt DC Power Usage Charge – Qwest will apply the -48 Volt Power Usage charge for the quantity of power ordered by the CLEC. Qwest will not adjust the billed usage based upon power usage readings. This applies to all CLEC orders for -48 Volt DC Power which are equal to or less than sixty (60) amps. Qwest will apply the -48 Volt DC Power Usage Charge for the quantity of power ordered by CLEC. Qwest will not adjust the billed usage based upon power usage readings. This charge also applies to all CLEC orders for -48 Volt DC Power Usage which are greater than sixty (60) amps, unless CLEC orders -48 Volt DC Power Measurement, in which case CLEC will be charged for Measured -48 Volt DC Power Usage as described in Section 8.3.1.6.2(b) below.

b) Measured -48 Volt DC Power Usage Charge – This measured power usage charge applies, if elected by CLEC, on a per amp basis to orders of greater than sixty (60) amps. For orders of greater than sixty (60) amps, CLEC may elect Measured -48 Volt DC Power Usage pursuant to this provision by ordering -48 Volt DC Power Measurement. Qwest will initially apply the -48 Volt DC Power Usage Charge to the quantity of power ordered by CLEC. Qwest will read the actual power usage as described in Section 8.2.1.29.2.2 and will charge based on the power usage at the time of the reading, on a going forward

basis, until the next reading.

8.3.1.7 AC Power Feed. Recovers the cost of providing for the engineering and installation of wire, conduit and support, breakers and miscellaneous electrical equipment necessary to provide the AC power, with generator backup, to CLEC's space. The AC Power Feed is optional. The AC Power Feed is available with single or triple phase options. The recurring AC Power Feed rates in Section 8.1.5.1 of Exhibit A apply on a per ampere, per month basis. There are no non-recurring charges associated with the items in Section 8.1.5.1 of Exhibit A. The non-recurring AC Power Feed rates in Section 8.1.5.2 of Exhibit A apply on a per foot basis. The recurring AC Power Feed rates in Section 8.1.5.2 of Exhibit A apply on a per foot, per month basis.

8.3.1.8 Inspector Labor Charge. Provides for Qwest qualified personnel, acting as an inspector, when CLEC requires access to the C-POI after the initial installation. A call-out of an inspector after business hours is subject to a minimum charge of three (3) hours. The minimum call-out charge shall apply when no other employee is present in the location, and an 'off-shift' Qwest employee (or contract employee) is required to go 'on-shift' on behalf of CLEC.

8.3.1.9 Channel Regeneration. Required when the distance from the leased physical space (for Caged or Cageless Physical Collocation) or from the collocated equipment (for Virtual Collocation) to the Qwest network is of sufficient length to require regeneration. Channel Regeneration will not be charged separately for Interconnection between a Collocation space and Qwest's network or between contiguous or non-contiguous Collocation spaces of the same CLEC. Regeneration will not be charged between different CLECs for CLEC-to-CLEC Cross Connections at an ICDF. For regeneration Qwest abides by the cable distance limitations as addressed in ANSI Standard T1.102-1993 "Digital Hierarchy – Electrical Interface; Annex B".

8.3.1.10 Interconnection Tie Pairs (ITP) are described in the UNE Section, and apply for each Unbundled Network Element, ancillary service or Interconnection service delivered to CLEC. The ITP provides the connection between the Unbundled Network Element, ancillary service or Interconnection service and the Demarcation Point.

8.3.1.11 Collocation Terminations. Terminations are purchased by CLEC for the purpose of accessing Unbundled Network Elements. These terminations may be requested in Shared Access and Direct Connection Configurations.

8.3.1.11.1 Shared Access

8.3.1.11.1.1 In a Shared Access configuration, there are multiple frames that could be designated as an ICDF or appropriate Demarcation Point including, but not limited to, the following:

- a) Existing Interconnection Distributing Frame (ICDF)
- b) Existing DSX Panels for DS1 and DS3 Services
- c) New Interconnection Distributing Frame
- d) Existing Toll Frame
- e) Fiber Distribution Panel

f) Existing Intermediate Frame.

8.3.1.11.1.2 The ICDF is the test access point. It would not be uncommon to find multiple service providers, including Qwest, on the ICDF at any one time. This element includes Qwest's provided termination blocks, installation labor between CLEC collocated equipment and the appropriate cross connect device. Cabling is also required and may be provided by CLEC or at their request, Qwest will provide cabling at an additional charge. When Qwest provides the cabling, Collocation Block Termination rates will apply as contained in Exhibit A of this Agreement. When CLEC provides the cabling, Collocation Termination rates, on a per termination basis, will apply as contained in Exhibit A of this Agreement. When CLEC provides and installs the tie cables, blocks and terminations on the ICDF, no Collocation Termination rates will apply.

8.3.1.11.2 Direct Connection

8.3.1.11.2.1 Direct Connection provides an uninterrupted path from the Collocation space to an existing frame. This option will guarantee that there will not be an ICDF. The connection will be designed from the Collocation space to the same frame that Qwest uses to connect to that specific service. For example, if CLEC wants to connect directly from their Collocation space to a 911 router, the infrastructure for the 911 trunks will terminate in a DS1 bay location with the 911-router circuits. There are several options for the location of the Demarcation Point. CLEC will select their desired option via the supplemental Direct Connection (DC-POT) With Collocation Form DC050900. If CLEC chooses a demarcation inside the Collocation space, the collocater should order and install the termination equipment itself. Demarcation equipment must be noted on the order form so that a CLLI code and unique tie cable assignments can be generated for systems flow through. If CLEC chooses a demarcation outside its Collocation space, Qwest will maintain and inventory this device. Direct terminations may be ordered where frame space is available. If frame space is exhausted the terminations may need to be made at another frame. Upon completion of the pre-Provisioning of the Direct Connection, CLEC will receive an Alternate Point of Termination (APOT) form so that they may order Finished Services and UNEs. CLEC will be responsible for augmenting terminations as required. The Direct Connection APOT information must be provided on the ASR or LSR to insure that the services are designed to the dedicated path.

8.3.1.11.2.2 CLEC's termination point will require a CLLI code (e.g., Frame Number) and the dedicated tie pairs will require a unique name to enable automatic assignment through TIRKS™ and SWITCH™ via Carrier Facilities Address (CFA) methods.

8.3.1.11.2.3 If CLEC wishes to arrange terminations on a 2-wire POTS level cross-connect device of the modular type (i.e., COSMIC™ Hardware), standard-engineering principles will apply. Provisioning intervals and costs will be customized and determined on an Individual

Case Basis (ICB). A five (5) year forecast including terminations per quantities will be required. MELD™ runs will be required for the initial COSMIC™ plan and each subsequent block addition. To minimize CLEC's cost, to the extent feasible, Qwest shall consolidate CLEC's requirements with the requirements of Qwest and other CLECs into a single MELD™ run whenever feasible. Costs of such consolidated MELD™ runs shall be prorated among the Parties, including Qwest, Minimum installation requires at least one (1) block for every two (2) outside plant modules. A ½ shelf of block capacity must be reserved for future block space.

8.3.1.11.2.4 Requests for terminations at a DS0, DS1, DS3 and optical level (non-POTS) may also be made directly to the respective frame or panel (i.e., toll frame, DSX, FDP, etc.). Direct Connections to these frames do not require MELD™ runs and short jumper engineering principals, as with the COSMIC™ frame. However these connections will require coordination between Qwest and CLEC to ensure that the cable is terminated in an existing frame with the service that CLEC is wishing to connect with. Direct Connection is ordered via the supplemental Collocation order form, Direct Connection (DC-POT) With Collocation Form DC050900. Timing, pricing and feasibility will be determined on the basis of a specific, in-depth building analysis. Direct Connections are available where available frame space permits. If frame space is exhausted, terminations may need to be made at another frame. Space availability will be determined during the feasibility request phase of the order. Rates for Direct Connection Terminations will be on an ICB basis. If rates defined in Exhibit A are applicable they will be used.

8.3.1.11.3 Terminations must be purchased in the following increments: DS0 in blocks of 100; DS1 in increments of one (1); and DS3 in increments of one (1) coaxial cable or fiber pair.

8.3.1.12 Security Charge. This charge applies to the keys/card and card readers, required for CLEC access to the Qwest Premises for the purpose of Collocation. Charges are assessed per CLEC employee, per card, per Premises on a monthly basis.

8.3.1.13 Composite Clock/Central Office Synchronization. Recovers the cost of providing composite clock and/or DS1 synchronization signals traceable to a stratum one source. CLEC must determine the synchronization requirements for CLEC's equipment and notify Qwest of these requirements when ordering the clock signals. Central Office Synchronization is required for Virtual Collocation involving digital services or connections. Synchronization may be required for analog services. Central Office Synchronization is available where Qwest Central Offices are equipped with Building Integrated Timing Supply (BITS). The rate is applied on a per Port basis in accordance with Exhibit A.

8.3.1.14 -48 Volt DC Power Cable Charge. Provides for the transmission of -48 volt DC power to the collocated equipment and is fused at one hundred twenty five percent (125%) of request. It includes engineering, furnishing and installing the main distribution bay power breaker, associated power cable, cable rack and local power bay to the closest power distribution bay. It also includes the power cable (feeders) A and B

from the local power distribution bay to the leased physical space (for Caged or Cageless Physical Collocation) or to the collocated equipment (for Virtual Collocation). It is charged per feed. Per feed includes both the A and B feed.

8.3.1.15 Space Availability Report Charge – Recovers the cost of preparing a Space Availability Report in accordance with Section 8.2.1.9.1.

8.3.1.16 CLEC-to-CLEC Connection Charge. Recovers the cost of order processing, design and engineering. Additional charges will be assessed for Virtual Collocation connections and cable holes, if applicable. There will be recurring charges for cable racking.

8.3.1.17 Microwave Entrance Facility – The charges for Microwave Entrance Facility include the recurring and non-recurring charges associated with preliminary rooftop engineering and survey analysis, Premises structural analysis and line of sight feasibility, if performed by Qwest; space rental for the rooftop and existing antenna support structure, cable racking, cable, building penetration for cable entry, and other work as required.

8.3.1.17.1 Special work may include emergency power, environmental support, or other services. Special work will be billed on an Individual Case Basis (ICB) unless there is an identified rate in Exhibit A.

8.3.2 Rate Elements - Virtual Collocation

The following rate elements, as specified in Exhibit A, apply uniquely to Virtual Collocation.

8.3.2.1 Maintenance Labor. Provides for the labor necessary for repair of out of service and/or service-affecting conditions and preventative maintenance of CLEC virtually collocated equipment. CLEC is responsible for ordering maintenance spares. Qwest will perform maintenance and/or repair work upon receipt of the replacement maintenance spare and/or equipment from CLEC. A call-out of a maintenance technician after business hours is subject to a minimum charge of three (3) hours.

8.3.2.2 Training Labor. Provides for the training of Qwest personnel on a metropolitan service area basis provided by the vendor of CLEC's virtually collocated equipment when that equipment is different from Qwest-provided equipment. Qwest will require three (3) Qwest employees to be trained per metropolitan service area in which CLEC's virtually collocated equipment is located. If, by an act of Qwest, trained employees are relocated, retired, or are no longer available, Qwest will not require CLEC to provide training for additional Qwest employees for the same virtually collocated equipment in the same metropolitan area. Where more than one (1) CLEC in the same metropolitan area selects the same virtually collocated equipment, the training costs shall be prorated to each according to the number of CLECs so selecting.

8.3.2.3 Equipment Bay. Provides mounting space for CLEC virtually collocated equipment. Each bay includes the seven (7) foot bay, its installation, and all necessary environmental supports. Mounting space on the bay, including space for the fuse panel and air gaps necessary for heat dissipation is limited to 78 inches. The monthly rate is applied per shelf. CLEC may request use of alternate bay heights of 9 foot and 11 foot 6 inches, which will be considered on an Individual Case Basis. No Equipment Bay Charge is assessed if CLEC provides its own equipment bay.

8.3.2.4 Engineering Labor. Provides the planning and engineering of CLEC virtually collocated equipment at the time of installation, change or removal.

8.3.2.5 Installation Labor. Provides for the installation, change or removal of CLEC virtually collocated equipment.

8.3.2.6 Floor Space Lease. Required for Virtual Collocation only in the instance where CLEC provides its own equipment bay. This rate element provides the monthly lease for the space occupied by the CLEC-provided equipment bay, including property taxes and base operating cost without -48 volt DC power. Includes convenience 110 AC, 15 amp electrical outlets provided in accordance with local codes and may not be used to power transmission equipment or -48 volt DC power generating equipment. Also includes maintenance for the leased space; provides for the preventative maintenance (climate controls, filters, fire and life systems and alarms, mechanical systems, standard HVAC); biweekly housekeeping services (sweeping, spot cleaning, trash removal) of Qwest Premises areas surrounding the CLEC-provided equipment bay and general repair and maintenance. The Floor Space Lease includes required aisle space on each side of the CLEC-provided equipment bay.

8.3.3 Rate Elements - Physical Collocation

8.3.3.1 Space Construction and Site Preparation. Includes the material and labor to construct and prepare the space, including all support structure, cable racking and lighting required to set up the space. It also includes air conditioning (to support CLEC loads specified), lighting (not to exceed 2 watts per square foot), and convenience outlets (3 per caged or Cageless Collocation or number required by building code) and the cost associated with space engineering. If a new line-up is established for Cageless Collocation, an AC power outlet will be provided at every other bay in the line-up. Cageless bays placed in existing line-ups will use the existing outlets. For Caged Collocation, it includes a nine foot high cage enclosure. CLEC may choose from Qwest approved contractors or may use another vendor of CLEC's own choosing, subject to Qwest's approval, which may not be unreasonably withheld, to construct the space, including the cage in the case of Caged Collocation, in accordance with NEBS Level 1 safety requirements. Pricing for the Space Construction and Site Preparation is described in Exhibit A. In the case of Shared Collocation, Qwest may not increase the cost of site preparation or non-recurring charges above the TELRIC cost for Provisioning such a cage of similar dimensions and material to a single collocating Party, and Qwest must prorate the charge for site conditioning and preparation by determining the total charge for site preparation and allocating that charge to CLEC based on the percentage of the total space used by CLEC. Qwest must in all cases of shared space Collocation allocate space preparation, conditioning, security measures and other Collocation charges on a pro-rated basis to ensure that the charges paid by CLEC as a percentage of the total overall space preparation and conditioning expenses do not exceed the percentage of the total Collocation space used by CLEC.

8.3.3.2 Floor Space Lease. Provides the monthly lease for the leased physical space, property taxes and base operating cost without -48 volt DC power. Includes convenience 110 AC, 15 amp electrical outlets provided in accordance with local codes and may not be used to power transmission equipment or -48 volt DC power generating equipment. Also includes maintenance for the leased space; provides for the preventative maintenance (climate controls, humidity, filters, fire and life systems and alarms, mechanical systems, standard HVAC); a pro-rata share of biweekly

housekeeping services (sweeping, spot cleaning, trash removal) of Qwest Premises common areas surrounding the leased physical space and general repair and maintenance. The Floor Space Lease includes required aisle space on each side of the cage enclosure, as applicable.

8.3.3.3 Intentionally Left Blank.

8.3.3.4 Collocation Grounding Charge for Caged Collocation. Used to connect the Premises common ground to CLEC equipment. Recurring and non-recurring charges are assessed per foot to CLEC's equipment.

8.3.4 Rate Elements - ICDF Collocation

8.3.4.1 The charges for ICDF Collocation are the non-recurring and recurring charges associated with the Unbundled Network Elements, ancillary services or Finished Services ordered by CLEC, the cost of extending the Unbundled Network Elements, ancillary services or Finished Services to the Demarcation Point, which are recovered through the ITP charges described in the UNE Section, and the Security charge, described in this Section.

8.3.5 Rate Elements – Adjacent Collocation

8.3.5.1 The charges for Adjacent Collocation will be developed on an Individual Case Basis, except where the Commission finds that standard pricing elements can be reasonably identified and their costs determined, depending on the specific needs of CLEC and the unique nature of the available adjacent space (e.g., existing structure or new structure to be constructed).

8.3.6 Rate Elements – Remote Collocation and Adjacent Remote Collocation

8.3.6.1 Charges for Remote Collocation and Adjacent Remote Collocation are set forth in Section 8.6 of Exhibit A. To the extent that the rate in Exhibit A is identified as ICB, the charges will be developed on an Individual Case Basis, except where the Commission finds that standard pricing elements can be reasonably identified and their costs determined.

8.3.7 Rate Elements – CLEC-to-CLEC Connections

8.3.7.1 The charges for CLEC-to-CLEC Connections are addressed in Section 8.3.1.16.

8.3.8 Rate Elements – Facility Connected (FC) Collocation

8.3.8.1 Non-recurring Charges

8.3.8.1.1 Quote Preparation Fee (QPF): Qwest will assess a QPF when it delivers a Collocation quote to CLEC. Once the quote is delivered, the QPF becomes a non-refundable charge for the work required to process the request for a price quote for the total costs to CLEC for its FC Collocation request. Quote Preparation includes the following functions: order validation, Collocation project management, space verification, inventory of all reusable elements, preparation

of new design work package (power and space planning and engineering, entrance facility engineering and construction (as required), engineering of additional elements and associated database changes (e.g., deleting old termination from vacating CLEC and establishing assuming CLEC terminations), and preparation of initial quote. These work steps are the same for any new engineering job.

8.3.8.1.2 Engineering Labor provides the planning and engineering of CLEC entrance facility or demarcation at the time of installation or change.

8.3.8.1.3 Copper Entrance Facility: Charge provides for installing the cable from the C-POI to the Demarcation Point and the cost of splicing from the CLEC cable to the Qwest fire rated Central Office cable. Charge also includes racking and risers in the Central Office and labor to terminate cable to 310 block.

8.3.8.1.4 Fiber Entrance Facility: Charge provides for the fiber optic cable from the C-POI utilizing Qwest conventional single mode type of fiber optic cable to the Fiber Distribution Panel. The Collocation entrance facility includes: manhole, conduit/innerduct, placement of conduit/innerduct, fiber cable, fiber placement, splice case, a splice frame.

8.3.8.1.5 Termination Block: Charge to recover the 310 Block with protectors to terminate CLEC Copper Entrance Facility.

8.3.8.1.6 Termination Panel: Charge to recover the Fiber Distribution Panel to terminate CLEC Fiber Entrance Facility.

8.3.8.1.7 DS1 Voltage Isolation: Charge to recover Cost of Westell 31m228U card in T1 shelf. Used to isolate DS1 signal line voltage from Qwest DSX. Charge is applied only when CLEC is transmitting a DS1 signal over copper entrance facility.

8.3.8.2 Recurring Charges

8.3.8.2.1 Copper Entrance Facility: Charges are assessed for the ongoing maintenance of the entrance facility and use of shared infrastructure such as, racking and risers.

8.3.8.2.2 Fiber Entrance Facility: Charges are assessed for the ongoing maintenance of the facility and use of shared infrastructure such as racking, risers and conduit.

8.3.8.2.3 Termination Block: Charge for the maintenance of the 310 block with protectors.

8.3.8.2.4 Termination Panel: Charge for the maintenance of the panel.

8.3.8.2.5 DS1 Voltage Isolation Charge: Labor to install and maintain Westell 31M228U T1 shelf. Charge also includes cabling, frame, and DSX Panel for terminating entrance facility from the power isolation card. Charged only when CLEC is transmitting a DS1 signal over the copper entrance facility.

8.3.9 DC Power Reduction/Restoration Rate Elements

8.3.9.1 DC Power Reduction

8.3.9.1.1 DC Power Reduction With Reservation. A recurring Power Maintenance Charge and a non-recurring Power Reduction Charge apply.

8.3.9.1.2 DC Power Reduction Without Reservation. A non-recurring Power Reduction Charge applies. For moves between the BDFB and the Power Board, see Section 8.3.9.3.

8.3.9.1.3 DC Power Reduction Without Reservation QPF: Includes the cost of performing a feasibility study and producing the quote for fulfilling the DC Power Reduction request. It covers the project, order and support management, engineering and planning associated with the administrative functions of processing the request. Each Party reserves its right to advocate for changes regarding the rates and application of the rates for the elements in this section in a Commission docket (e.g., cost case).

8.3.9.2 DC Power Restoration

8.3.9.2.1 DC Power Restoration with Reservation. CLEC will be charged the DC Power Reduction/Restoration Charge.

8.3.9.2.2 DC Power Restoration Without Reservation. When power is restored, nonrecurring charges will be assessed on an ICB basis for the work required to restore the power utilizing standard power rate elements for power usage, labor and cabling charges.

8.3.9.2.3 DC Power Restoration Without Reservation QPF: Includes the cost of performing a feasibility study and producing the quote for fulfilling the DC Power Restoration Without Reservation request. It covers the project, order and support management, engineering and planning associated with the administrative functions of processing the request. Each Party reserves its right to advocate for changes regarding the rates and application of the rates for the elements in this section in a Commission docket (e.g., cost case).

8.3.9.3 Location Change Charge for Moves Between the BDFB and the Power Board for DC Power Reduction/Restoration.

8.3.9.3.1 CLEC will be charged the applicable nonrecurring Quote Preparation Fee (QPF) to perform the engineering and planning work to process the DC Power Reduction/Restoration request per Collocation space. Nonrecurring charges associated with moving between the BDFB and the power board will be on an ICB basis.

8.3.10 Intentionally Left Blank.

8.3.11 Rate Elements - Collocation Available Inventory

8.3.11.1 Pricing for sites listed within the Qwest Available Inventory list will be

provided on a site-specific basis. Pricing shall be in accordance with the Interconnection Agreement of the assuming CLEC. Vacating CLECs may receive a potential refund from sale of available/discounted sites based on outstanding non-recurring charges, amounts for reimbursable elements and transfer fees.

8.3.11.2 The following items are charged to a CLEC purchasing a "Standard site" from the Qwest Available Inventory List. Charges will be provided to a CLEC via a quote that requires the CLEC's acceptance before Qwest begins work.

8.3.11.2.1 If the assuming CLEC requests modifications to the Qwest posted site, the rate elements of this Agreement relating to Collocation Augments apply.

8.3.11.2.1a Quote Preparation Fee (QPF): The QPF is identified in Exhibit A.

8.3.11.2.2 Reusable Elements are those Qwest inventoried components used to provision the Collocation site. The quote will be for all components used to install the Collocation space. These elements include Qwest inventoried components (e.g., cage, bays, HVAC, cable racking, and for Special Sites - power) to provision the original Collocation site.

8.3.11.2.2.1 Non-recurring Collocation Rate Elements that are reused, will be available at a 50% discount to an assuming CLEC.

8.3.11.2a Reimbursable Elements are those which are not subject to a discount to the assuming CLEC. Reimbursable Elements considered for a potential refund are, Digital Signal Level 0 (DS0) termination cabling, Level 1 (DS1) termination cabling, Level 3 (DS3) termination cabling, and fiber terminations (excluding entrance that run from vault directly to Collocation site, i.e., Express Fiber Entrances).

8.3.11.3 Special Site Rates: The following items are charged to an assuming CLEC for a Special Site from the Qwest Postings. Charges will be provided to CLEC via a quote that requires CLEC acceptance before Qwest begins work.

8.3.11.3.1 The Site Survey Fee shall apply if a site survey is requested by CLEC. It applies to Standard and Special Sites and is a non-refundable, non-recurring charge for a site visit conducted prior to the submission of an application by CLEC. This rate element is identified in Exhibit A. This charge will be included in the quote when an application is submitted or it will be charged separately if CLEC does not subsequently submit an application.

8.3.11.3.2 The Special Site Assessment Fee is a non-refundable, non-recurring fee per Exhibit A. This rate element is in lieu of the Standard Site QPF because Qwest has already installed some of the reusable equipment and/or reusable infrastructure. Qwest has not spent additional time and resources to decommission this Special Site.

8.3.11.3.3 Non-recurring Collocation Rate Elements: Include all Reusable elements defined above, DC Power, grounding and terminations. Special Sites will be offered at a flat 50% discount to an assuming CLEC based on the rates in its current Interconnection Agreement. Augments or changes to the sites will not be discounted and will be charged at the rates as defined in Exhibit A of this Agreement.

8.3.11.3.4 The Network Systems Assessment non-recurring fee is for the

system and record updates required for transferring a site to the assuming CLEC. The rate is identified in Exhibit A.

8.3.11.3.5 Any Equipment contained in the site will be conveyed at \$0.00 charge.

8.3.11.4 Recurring charges for all Products and Services will be charged at rates listed in the assuming CLEC's Exhibit A of their Interconnection Agreement without a discount.

8.3.11.5 Intentionally Left Blank.

8.3.12 Rate Elements - Joint Testing

8.3.12.1 Qwest will recover costs for joint tests through a non-recurring charge identified on Exhibit A. The rate is a minimum one (1) hour Virtual Collocation maintenance rate and a per half hour charge at the same rate for time over the first hour. This charge only applies to the time needed to complete the joint test pursuant to Section 8.2.11.

8.3.12.2 Qwest will correct at no charge to CLEC any errors found during Joint Testing that Qwest caused or for which Qwest is otherwise responsible.

8.3.13 Rate Elements – CLEC to CLEC Connections

8.3.13.1 For CLEC to CLEC connections, the charges identified in Exhibit A apply.

8.3.14 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.4 Ordering

8.4.1 Ordering - All Collocation

8.4.1.1 CLEC must complete the requirements in CLEC Information Section of this Agreement before submitting a Collocation application Form to Qwest, if CLEC has not already done so. See Section 3.2.

8.4.1.2 Any material changes, modifications or additional engineering requested by CLEC, subsequent to its original Collocation order, as to the type and quantity of equipment or other aspects of the original Collocation order, must be submitted with a revised Collocation application. For purposes of this Section, Material Changes are: increasing one POI to two POIs; adding AC essential power; changing from shared to express entrance facility type; changing from express to shared entrance facility type; increasing DC current; increasing to two A and B feeds; increasing the square footage of the enclosure; increasing the number of bays for cageless physical; increasing the terminations for ICDF; changing Collocation type from caged physical to cageless physical, caged physical to virtual, virtual to cageless physical, or cageless physical to virtual. Qwest shall determine the additional time required to comply with CLEC's request for Material Changes (Additional Time), and CLEC shall have the option of (a) having the request for Material Changes implemented with the original Collocation order (within the original Provisioning intervals) as extended by the Additional Time; or (b)

having Qwest process and provision the request as a subsequent construction activity or augmentation to the original Collocation order. In determining how much additional time a material change would take to process, Qwest will use its best efforts to minimize the extension of the interval beyond the interval for the underlying Collocation application. Changes not listed in this Section are nonmaterial changes. Any non-material changes, modifications, or additional engineering requested by CLEC, subsequent to its original Collocation order, may be submitted with a revised Collocation application or otherwise communicated to Qwest and shall be implemented with the original Collocation order within the original applicable intervals.

8.4.1.3 There are three (3) primary steps in the ordering of Collocation – 1) Forecasting, 2) Application, and 3) Acceptance of Quote.

8.4.1.4 CLEC shall submit an annual forecast, updated at the end of each quarter, of its future Central Office space Collocation requirements. The quarterly forecast shall be reviewed by CLEC and the Qwest account team. CLEC forecast shall be considered accurate for purposes of Collocation intervals if the subsequent Collocation application correctly identifies a) and e) below, and b) and c) below are within twenty percent (20%) of the forecast. If at the time the application is made the forecasted type of Collocation is not available, CLEC may specify a different type of Collocation without affecting the Collocation intervals. The forecast shall include, for each Qwest Premises, the following:

- a) Identification of the Qwest Premises;
- b) Floor space requirements, including the number of bays for a Cageless Collocation arrangement;
- c) Power requirements;
- d) Heat dissipation (optional);
- e) Type of Collocation (e.g., Caged Physical, Cageless Physical, Shared, ICDF, Virtual, etc.);
- f) Intentionally Left Blank.
- g) Entrance Facility Type (e.g., Express Fiber, Private Line);
- h) Type and Quantity of Terminations (optional); and
- i) Month or Quarter during or after which CLEC expects to submit its Collocation application.

8.4.1.4.1 The following terms shall apply to the forecasting process:

- a) CLEC forecasts shall be provided as detailed in Section 8.4.1.4;
- b) CLEC forecasts shall be Confidential Information and Qwest may not distribute, disclose or reveal, in any form, CLEC forecasts other than as allowed and described in subsections 5.16.9.1 and 5.16.9.2.

8.4.1.4.2 Notwithstanding the foregoing, Qwest shall not deny Collocation based on lack of a forecast or an inaccurate forecast.

8.4.1.5 CLEC shall submit a Collocation application to order Collocation at a particular Qwest Premises. Throughout this Section 8, there are references to several types of applications or other forms. All such applications and forms shall comply with the terms and conditions set forth in this Agreement. Such applications and forms are for administrative purposes only and, notwithstanding any language in an application or form to the contrary, nothing in the applications or forms alters or amends the terms of this Agreement. A Collocation application shall be considered complete, if it contains the following items (when applicable):

- a) Identification of the Qwest Premises;
- b) Floor space requirements, including the number of bays for a Cageless Collocation arrangement;
- c) Power requirements;
- d) Heat Dissipation;
- e) Type of Collocation (e.g., Caged Physical, Cageless Physical, Shared, Virtual, etc.);
- f) Collocated equipment and technical equipment specifications (Manufacturer Make, Model No., Functionality, i.e., Cross Connect, DLC, DSLAM, Transmission, Switch, etc., Physical Dimensions, Quantity). (NOTE: Packet or circuit switching equipment requires, in writing and attached to the application, how this equipment is necessary for access to UNEs or Interconnection. Upon Qwest's reasonable request, CLEC will provide high level equipment interface or connectivity diagram for switching equipment described in the application.
- g) Entrance Facility Type;
- h) Type and Quantity of Terminations;
- i) If desired, an alternate form of Collocation if first choice is not available; and
- j) Billing Contact.

8.4.1.5.1 Parties will work cooperatively to ensure the accuracy of the Collocation application. If Qwest determines that the application is not complete, Qwest shall notify CLEC of any deficiencies within ten (10) Days after receipt of the application. Qwest shall provide sufficient detail so that CLEC has a reasonable opportunity to cure each deficiency. To retain its place in the Collocation queue for the requested Premises, CLEC must cure any deficiencies in its application and resubmit the application within ten (10) Days after being advised of the deficiencies.

8.4.1.5.2 Qwest shall acknowledge receipt of all applications for Collocation within two (2) business days. If Qwest has additional information available at that time, including whether the application for Collocation is complete, Qwest shall provide such information as well. Upon CLEC request, Qwest shall participate in a telephone call with CLEC to discuss such information within 48 hours of receipt of the application.

8.4.1.6 Acceptance – After receipt of a Collocation Quote Form from Qwest, CLEC shall formally accept the quote in order for Qwest to continue the processing of the Collocation application. A Collocation Acceptance shall be considered complete, if it contains:

- a) Signed Notification of Acceptance; and
- b) Payment of fifty percent (50%) of quoted charges.

8.4.1.7 Collocation Space Reservation – allows CLEC to reserve space and identify, to the extent available, infrastructure incidental to that space such as power, HVAC, in a Qwest Premises for up to one (1) year for transmission equipment (ATM, Packet Switching, DSLAM), three (3) years for circuit switching equipment, and five (5) years for power equipment. CLEC may reserve space in a particular Qwest Premises through the Collocation Space Reservation Application Form. Requests for contiguous space will be honored, if available.

8.4.1.7.1 Collocation Space Reservation Application – Upon receipt of the Collocation Space Reservation Application Form, Qwest will provide the space feasibility within ten (10) Days.

8.4.1.7.2 Collocation Space Reservation Quotation – If space is available, Qwest will provide the space feasibility, which will include the start date of the reservation and the time period for which it is valid, and a Billing invoice for the Space Reservation Fee, listed in Exhibit A, within ten (10) Days.

8.4.1.7.2.1 Collocation Space Reservation Acceptance. CLEC must submit the Space Reservation Fee (\$2,000.00) within seven (7) Days of receipt of the Billing invoice. If CLEC submits the Space Reservation Fee and its written acceptance between eight (8) and thirty (30) Days of receipt of the Billing invoice, Qwest will honor the reservation upon receipt of the payment only if Qwest does not receive a competing request for the same space from another CLEC. Qwest will not honor reservations if CLEC submits the payment more than thirty (30) Days after receipt of the Billing invoice. In the event Qwest does not honor the reservation, Qwest shall promptly refund or credit at the CLEC's option, any payment made by CLEC along with a written explanation of the reason the reservation will not be honored.

8.4.1.7.3 Upon receipt of the Space Reservation Fee, Qwest will reserve the space on behalf of CLEC in accordance with the application and take necessary steps to ensure the availability of power, HVAC and other components reflected on the application for reservation. Qwest will hold the reservation for the applicable reservation period after receipt of the payment.

8.4.1.7.4 CLEC may cancel the reservation at any time during the applicable reservation period. The Space Reservation Fee will be applied against the Collocation construction for the specific Premises. Upon notification of the cancellation Qwest will refund a prorated portion of the \$2000.00 reservation fee.

- a) Cancellation notification within ninety (90) Days from receipt of wire transfer, seventy-five percent (75%) of the Space Reservation Fee will be returned to CLEC.
- b) Cancellation notification within ninety-one (91) and one hundred and eighty (180) Days from receipt of wire transfer, fifty percent (50%) of the Space Reservation Fee will be returned to CLEC.
- c) Cancellation notification within one hundred and eighty-one (181) and two hundred and seventy (270) Days from receipt of wire transfer, twenty-five percent (25%) of the Space Reservation Fee will be returned to CLEC.
- d) Cancellation notification after two hundred and seventy (270) Days from receipt of wire transfer, zero percent (0%) of the Space Reservation Fee will be returned to CLEC.

8.4.1.8 Collocation Space Option

8.4.1.8.1 CLEC, Qwest, and Qwest Affiliates may Option space in Qwest Wire Center Premises in accordance with the terms of this Section 8.4.1.8 for the following equipment and time periods:

- a) Transmission equipment – one (1) year
- b) Circuit switching equipment – three (3) years
- c) Power plants – five (5) years

8.4.1.8.2 Optioned space is offered to CLECs for Caged, Cageless, and Virtual Collocation. To promote fairness and prevent warehousing, the following limits apply:

- a) The Party requesting the Option may specify the amount of space to be Optioned but not a specific location within the Wire Center. CLEC may also request space be contiguous to its existing Collocation space.
- b) A requesting CLEC may Option one (1) Collocation space per Wire Center.
- c) The maximum amount of space per Wire Center to be Optioned is:
 - 200 square feet for Caged Collocation
 - 4 bays for Cageless and Virtual Collocation

8.4.1.8.3 The Collocation Space Option application form will be processed upon receipt of a properly completed request. Such form shall be considered properly completed if it contains identifying information of CLEC, the applicable Qwest Premises, the amount of Collocation space sought, the type of Collocation (Caged, Cageless, Virtual) and the type of equipment (from the categories identified in Section 8.4.1.8.1) for which the option is being sought. Upon receipt of the Collocation Space Option Application form, Qwest will confirm in writing, within ten (10) Days, the availability and start date of, and time frame and price quote (the "Option Fee") for the Optioned space. If space is not available, Qwest will deny the request.

8.4.1.8.4 CLEC must electronically submit Acceptance with full payment of the non-recurring portion of the Option Fee, or acknowledge non-Acceptance of the quoted Option Fee, within seven (7) Days of receipt of the quotation. When Qwest takes an Option on space for itself, Qwest shall impute an amount equal to the Option Fee to the appropriate operations for which the Optioned Space applies. The Option quote expires seven (7) Days after delivery to CLEC.

8.4.1.8.5 Upon receipt of Acceptance and full payment of the non-recurring portion of the Option Fee, Qwest will Option the space on behalf of CLEC including the contiguous space requests if available (or itself if appropriate) and the Option time frame will begin. The prioritization of Optioning will be based upon the date and time of the Acceptance. The earlier in time an Acceptance is received by Qwest, the higher in priority is such Option. The Option is limited to space only and does not include other elements required to provision the Collocation.

8.4.1.8.6 In order for an Option request to avoid expiration, CLEC must:

- a) Submit a Collocation application during the Option time frame; or
- b) The Option may be renewed if a Collocation Space Option application is received at least ten (10) Days prior to the expiration of the term of the existing Option. The priority of a renewed Option is determined by the date CLEC accepts the quote from Qwest on CLEC's renewal application.

8.4.1.8.7 First Right of Refusal – If Qwest receives a valid Collocation application (CLEC A is the requesting Party) for a Qwest Wire Center in which all available space has been occupied or Optioned, the following provisions for First Right of Refusal will apply:

8.4.1.8.7.1 All Qwest out of space reporting requirements apply to the Collocation application (Sections 8.2.1.11 and 8.2.1.12). In addition, Qwest will provide CLEC A with Option space information (e.g., Caged and Cageless Optioned space) that may fulfill the requirements of CLEC A's Collocation application. At CLEC A's request, Qwest will initiate the Option Enforcement Notice process by notifying the Option Party or Parties with the most recent space Option(s) that meets the requirements of CLEC A's Collocation application.

8.4.1.8.7.2 The Option Enforcement Notice serves as notification to the Option Party that Qwest is in possession of a valid Collocation application, and calls for the Option Party to exercise their Right of First Refusal, or relinquish their space Option. The Option Party may exercise its Right of First Refusal by submitting either a Collocation application as set forth in Section 8.4.1.5, or by submitting the Collocation Space Reservation application set forth in Section 8.4.1.7, within ten (10) Days of receipt of the Option Enforcement Notice. This process continues for all Optioned space until all Optioned space is exercised or Optioned space is relinquished (affirmatively by CLEC or upon expiration of the notice period, whichever is earlier) to fulfill the Collocation application. Once Optioned space has been relinquished for use to fulfill the Collocation application, the terms and conditions for ordering Collocation under this Agreement shall apply.

8.4.1.8.7.3 Where contiguous space has been Optioned, Qwest will make its best effort to notify CLEC if Qwest, its Affiliates or CLECs require the use of CLEC's contiguous space. Upon notification, CLEC will have seven (7) Days to indicate its intent to submit a Collocation application or Collocation Reservation. CLEC may choose to terminate the contiguous space Option or continue without the contiguous provision.

8.4.1.8.7.4 The rate elements for the Collocation Space Option are comprised of the following:

- a) Space Option Administration Fee is a non-recurring fee for all Collocation Space Option requests and covers the processing of application, feasibility, common space engineering, records management, and administration of the First Right of Refusal process.
- b) Space Option Fee is a monthly recurring fee that will be charged based upon the amount of space being optioned, at two dollars (\$2.00) per square foot per month.

8.4.1.8.8 In the event that the Option Party proceeds with a Collocation application for Optioned space, all payments made pursuant to Section 8.4.1.8.7.4(b) above shall be applied to such application.

8.4.1.9 Qwest shall use its best efforts to meet the intervals called for in this Agreement. The intervals for Virtual Collocation (Section 8.4.2), Physical Collocation (Section 8.4.3), ICDF Collocation (Section 8.4.4) and FC Collocation (Section 8.4.9) apply to the first five (5) Collocation applications per CLEC per week per state; however, Qwest shall accept more than five (5) applications from CLEC per week, per state. If six (6) or more Collocation applications are submitted by the same CLEC in a one-week period in the same state, Qwest will meet the intervals for the applications in excess of the first five (5), unless Qwest demonstrates that the Collocation applications received from CLEC during such one week period are an extraordinary number of complex applications. If CLEC agrees, the intervals for the Collocation applications in excess of the first five (5) shall be individually negotiated in that state, but in no event shall the Collocation interval exceed one hundred and fifty (150) Days. If Qwest and the CLEC cannot agree on negotiated intervals, the Parties agree to an expedited escalation to

upper level management for resolution. In those instances where resolution was not reached through this escalation within five (5) business days then Qwest must demonstrate to the Commission that its inability to meet the intervals for such Collocation applications in excess of the first five (5) is due to the fact that Qwest received an extraordinary number of complex Collocation applications within a limited time frame.

8.4.2 Ordering - Virtual Collocation

8.4.2.1 Application - Upon receipt of a complete Collocation application as described in Section 8.4.1.5, Qwest will perform a feasibility study to determine if adequate space, power and HVAC can be found for the placement of CLEC's equipment within the Premises. The feasibility study will be provided within ten (10) Days of receipt of a complete application.

8.4.2.2 Quotation – If Collocation entrance facilities and space are available, Qwest will develop a price quotation within twenty-five (25) Days of completion of the feasibility study. Subsequent requests to Augment an existing Collocation also require receipt of an application. Adding plug-ins (e.g., DS1 or DS3 cards) to existing virtually collocated equipment, will be processed and provisioned within ten (10) business days. Virtual Collocation price quotes will be honored for thirty (30) Days from the date the quote is provided. During this period the Collocation entrance facility and space are reserved pending CLEC's Acceptance of the quoted charges.

8.4.2.3 Acceptance -- Upon receipt of complete Collocation Acceptance, as described in 8.4.1.6, space will be reserved and construction by Qwest will begin.

8.4.2.4 Interval -- The interval for Virtual Collocation shall vary depending upon three factors – 1) whether CLEC provides its Acceptance within seven (7) Days receipt of the quotation; 2) whether CLEC delivers its collocated equipment to Qwest in a timely manner, which shall mean within fifty-three (53) Days of the receipt of the complete Collocation application; and 3) whether the application requires major infrastructure additions or modifications. The installation of line cards and other minor modifications shall be performed by Qwest on shorter intervals and in no instance shall any such interval exceed thirty (30) Days. When Qwest is permitted to complete a Collocation installation in an interval that is longer than the standard intervals set forth below, Qwest shall use its best efforts to minimize the extension of the intervals beyond such standard intervals.

8.4.2.4.1 Applications with Early Acceptance – If CLEC provides a complete Acceptance within seven (7) Days of receipt of the Qwest Collocation quotation, and if all of CLEC's equipment is available at the Qwest Premises no later than fifty-three (53) Days after receipt of the complete Collocation application, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation application. If CLEC's equipment is not delivered to Qwest within fifty-three (53) Days after receipt of the complete Collocation application, Qwest shall complete the Collocation installation within forty-five (45) Days of the receipt of all of CLEC's equipment.

8.4.2.4.2 Applications with Timely Acceptance – If CLEC provides a

complete Acceptance more than seven (7) Days but less than thirty (30) Days after receipt of the Qwest Collocation quotation, and if all of CLEC's equipment is available at the Qwest Premises no later than fifty-three (53) Days after receipt of the complete Collocation Acceptance, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation Acceptance. If CLEC's equipment is not delivered to Qwest within fifty-three (53) Days after receipt of the complete Collocation Acceptance, Qwest shall complete the Collocation installation within forty-five (45) Days of the receipt of all of CLEC's equipment. If CLEC submits its Acceptance more than thirty (30) Days after receipt of the Qwest quotation, the application shall be resubmitted by CLEC.

8.4.2.4.3 Unforecasted Applications with Early Acceptance – If a Premises is not included in CLEC's forecast at least sixty (60) Days prior to submission of the application, and if space is available and no special conditioning is required, and if CLEC provides a complete Acceptance within seven (7) Days after receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation application. If a Premises is not included in CLEC's forecast at least sixty (60) Days prior to submission of the application, and if some conditioning, but not major infrastructure, is required, and if CLEC provides a complete Acceptance within seven (7) Days after receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within one hundred and twenty (120) Days of the receipt of the complete Collocation application.

8.4.2.4.3 Intentionally Left Blank.

8.4.2.4.4 Intentionally Left Blank.

8.4.2.4.5 Intervals for Major Infrastructure Modifications – A Collocation application may require Qwest to complete major infrastructure modifications to accommodate CLEC's specific requirements. Major infrastructure modifications that may be required include conditioning space, permits, DC Power Plant, Standby Generators, Heating, Venting or Air Conditioning Equipment. The installation intervals in Sections 8.4.2.4.1 through 8.4.2.4.2 may be extended, if required, to accommodate major infrastructure modifications. When major infrastructure modifications as described above are required, and if all of CLEC's equipment is available at the Qwest Premises no later than fifty-three (53) Days after receipt of the complete Collocation application, Qwest shall propose to complete its installation of the Collocation arrangement within an interval of no more than one hundred and fifty (150) Days after receipt of the complete Collocation application. The need for, and the duration of, an extended interval shall be provided to CLEC as a part of the quotation. CLEC may dispute the need for, and the duration of, an extended interval, in which case Qwest must request a waiver from the Commission to obtain an extended interval.

8.4.2.4.6 Intentionally Left Blank.

8.4.3 Ordering - Caged and Cageless Physical Collocation

8.4.3.1 Application -- Upon receipt of a complete Collocation application as described in Section 8.4.1.5. Qwest will perform a feasibility study to determine if adequate space, power, and HVAC can be found for the placement and operation of CLEC's equipment within the Premises and whether Major Infrastructure Modifications are required. The feasibility study will be provided within ten (10) Days from date of receipt of a complete application.

8.4.3.2 Quotation -- If Collocation entrance facilities (if requested by CLEC) and space are available, Qwest will develop a quote for the supporting structure. Qwest will complete the quotation no later than twenty-five (25) Days of providing the feasibility study. Physical Collocation price quotes will be honored for thirty (30) Days from the date the quote is provided. During this period, the Collocation entrance facility and space is reserved pending CLEC's Acceptance of the quoted charges.

8.4.3.3 Acceptance -- Upon receipt of a complete Collocation Acceptance, as described in Section 8.4.1.6 space will be reserved and construction by Qwest will begin.

8.4.3.4 Interval – The interval for Physical Collocation shall vary depending upon two (2) factors –1) whether CLEC provides its Acceptance within seven (7) Days of receipt of the quotation; and, 2) whether the application requires major infrastructure additions or modifications. When Qwest is permitted to complete a Collocation installation in an interval that is longer than the intervals set forth below, Qwest shall use its best efforts to minimize the extension of the intervals beyond such intervals.

8.4.3.4.1 Applications with Early Acceptance – If CLEC provides a complete Acceptance within seven (7) Days of receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation application.

8.4.3.4.2 Applications with Timely Acceptance – If CLEC provides a complete Acceptance more than seven (7) Days but less than thirty (30) Days after receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation Acceptance. If CLEC submits its Acceptance more than thirty (30) Days after receipt of the Qwest quotation, a new application shall be resubmitted by CLEC.

8.4.3.4.3 Intentionally Left Blank.

8.4.3.4.4 Intentionally Left Blank.

8.4.3.4.5 Intervals for Major Infrastructure Modifications – A Collocation application may require Qwest to complete major infrastructure modifications to accommodate CLEC's specific requirements. Major infrastructure modifications that may be required include conditioning space, permits, DC power plant, standby generators, heating, venting or air conditioning equipment. The installation intervals in Sections 8.4.3.4.1 through 8.4.3.4.2 may be extended, if required, to accommodate major infrastructure modifications. When major infrastructure modifications as described above are required, Qwest shall

propose to complete its installation of the Collocation Arrangement within an interval of no more than one hundred and fifty (150) Days after receipt of the complete Collocation application. The need for, and the duration of, an extended interval shall be provided to CLEC as a part of the feasibility study pursuant to Section 8.4.3.1. The extended interval shall not apply if Qwest does not identify the Major Infrastructure Modification in its feasibility study. CLEC may dispute the need for, and the duration of, an extended interval, in which case Qwest must request a waiver from the Commission to obtain an extended interval.

8.4.3.4.6 Intentionally Left Blank.

8.4.4 Ordering - Interconnection Distribution Frame (ICDF) Collocation

8.4.4.1 Application -- Upon receipt of a complete Collocation application as described in Section 8.4.1.5, Qwest will perform a feasibility study to determine if adequate space can be found for the placement and operation of CLEC's terminations within the Wire Center. The feasibility study will be provided within ten (10) Days from date of receipt of a complete application. The CLEC may submit an ICDF forecast in accordance with Section 8.4.1.4. The forecast shall include demand, by DS0, DS1 and DS3 capacities, that will be terminated on the Interconnection Distribution Frame by Qwest on behalf of CLEC. Such forecasts shall be used by Qwest to determine the sizing of required tie cables and the terminations on each Interconnection Distribution Frame as well as the various other frames within the Qwest Wire Center.

8.4.4.2 Quotation -- If space is available, Qwest will develop a quote for the supporting structure. Qwest will complete the quotation no later than twenty-five (25) Days of providing the feasibility study. ICDF Collocation price quotes will be honored for thirty (30) Days from the date the quote is provided. During this period, the space is reserved pending CLEC's Acceptance of the quoted charges.

8.4.4.3 Acceptance -- Upon receipt of a complete Collocation Acceptance, as described in Section 8.4.1.6, space will be reserved and construction by Qwest will begin.

8.4.4.4 Interval – The interval for ICDF Collocation shall depend on whether CLEC provides its Acceptance within seven (7) Days of the quotation. When Qwest is permitted to complete a Collocation installation in an interval that is longer than the intervals set forth below, Qwest shall use its best efforts to minimize the extension of the intervals beyond such intervals.

8.4.4.4.1 Applications with Early Acceptance – If CLEC provides a complete Acceptance within seven (7) Days of receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within forty-five (45) Days of the receipt of the complete Collocation application.

8.4.4.4.2 Applications with Timely Acceptance – If CLEC provides a complete Acceptance more than seven (7) Days but less than thirty (30) Days after receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Collocation arrangement within forty-five (45) Days of the receipt of the complete Collocation Acceptance. If CLEC submits its Acceptance more than thirty (30) Days after receipt of the Qwest quotation, the application

shall be resubmitted by CLEC.

8.4.4.4.3 Intentionally Left Blank.

8.4.4.4.4 Intentionally Left Blank.

8.4.5 Ordering – Adjacent Collocation

8.4.5.1 If space for Physical Collocation in a particular Qwest Premises is not available at the time of CLEC's request, CLEC may request Qwest to conduct a feasibility study for Adjacent Collocation for that Premises site. Qwest recommends that Qwest and CLEC conduct a joint site visit of such Premises to determine if suitable arrangements can be provided on Qwest's property. Qwest will make available, within ten (10) business days after CLEC submits a complete application for Collocation, drawings of the Qwest physical structures above and below ground for the requested Adjacent Collocation site.

8.4.5.2 If a new structure is to be constructed, the interval shall be developed on an Individual Case Basis, to account for the granting of permits or ROW, if required, the provision of Collocation services by Qwest, in accordance with CLEC's application, and the construction by CLEC of the adjacent structure. If CLEC disputes the interval proposed by Qwest, Qwest must promptly petition the Commission for approval of such disputed interval.

8.4.5.3 If Adjacent Collocation is provided within an existing Qwest Premises, the ordering procedures and intervals for Physical Collocation shall apply.

8.4.6 Ordering – Remote Collocation and Adjacent Remote Collocation

8.4.6.1 The ordering procedures and intervals for Physical Collocation or Virtual Collocation shall apply to Remote Collocation, and to Adjacent Remote Collocation provided within an existing Qwest Premises, except Sections 8.4.3.4.3 and 8.4.3.4.4. Remote Collocation and Adjacent Remote Collocation are ordered using the Remote Collocation application Form.

8.4.6.2 If space for Physical Collocation or Virtual Collocation in a particular Qwest Remote Premises is not available at the time of CLEC's request, CLEC may order Adjacent Remote Collocation using the ordering procedures described above for Adjacent Collocation in Sections 8.4.5.1 and 8.4.5.2.

8.4.7 Ordering – CLEC to CLEC Connections

8.4.7.1 Application -- Upon receipt of the applicable portions of a complete Collocation application as described in Section 8.4.1.5 (Subsections a, e, h and j). Qwest will perform a feasibility study to determine if adequate cable racking can be found for the placement of CLEC's copper, coax, or fiber optic cable, or any other Technically Feasible method used to interconnect CLEC's collocated equipment that is in separate locations in the same Qwest Premises, or to another CLEC's equipment in the same Premises. The feasibility study will be provided within ten (10) Days from date of receipt of a complete application.

8.4.7.2 Quotation -- If existing cable racking is available, or if additional cable racking is required to accommodate CLEC's request, Qwest will provide CLEC with a quote and the specific cable rack Route to CLEC with the feasibility study. CLEC-to-CLEC Connection quotes will be honored for thirty (30) Days from the date the quote is provided. During this period, the space is reserved pending CLEC's Acceptance of the quoted charges.

8.4.7.3 Acceptance -- There are two (2) forms of Acceptance for CLEC-to-CLEC Connections:

8.4.7.3.1 CLEC-to-CLEC connections with existing cable rack. – CLEC must submit payment of one hundred percent (100%) of the quoted non-recurring charges with its Acceptance. Upon receipt of a complete Collocation Acceptance, CLEC may begin placement of its copper, coax, or fiber cables along the Qwest designated cable rack Route. Recurring charges will begin with CLEC Acceptance.

8.4.7.3.2 CLEC-to-CLEC Connections using new cable rack. – Upon receipt of a complete Acceptance from CLEC, as described in Section 8.4.1.6, Qwest will begin construction of the new cable rack.

8.4.7.4 Interval – Pursuant to Section 8.4.7.3.2, the construction interval for CLEC-to-CLEC Connections requiring the construction of new cable rack by Qwest shall be within sixty (60) Days of the receipt of the complete Collocation Acceptance. If CLEC submits its Acceptance more than thirty (30) Days after receipt of the Qwest quotation, the application shall be resubmitted by CLEC.

8.4.8 Ordering – Direct Connections

8.4.8.1 Application – Where Direct Connection is requested in a Wire Center where CLEC already has established Collocation, upon receipt of the applicable portions of a complete Collocation application as described in Section 8.4.1.5 (Subsections a, e, h and j), Qwest will perform a feasibility study to determine if adequate cable racking can be found for the placement of copper, coax, or fiber optic cable, or any other Technically Feasible method, used for Direct Connection (as described in Section 8.3.1.11.2). The feasibility study will be provided within ten (10) Days from date of receipt of a complete application.

8.4.8.2 Quotation – If existing cable racking is available or if additional cable racking is required to accommodate CLEC's request, Qwest will provide CLEC with a quote and the specific cable rack Route with the feasibility study. Direct Connection quotes will be honored for thirty (30) Days from the date the quote is provided. During this period, the space is reserved pending CLEC's Acceptance of the quoted charges.

8.4.8.3 Acceptance – There are two (2) forms of Acceptance for Direct Connection:

8.4.8.3.1 Direct Connection with existing cable rack. – CLEC must submit payment of one hundred percent (100%) of the quoted non-recurring charges with its acceptance notification.

8.4.8.3.2 Direct Connection using new cable rack. – Upon receipt of a complete Acceptance from CLEC, as described in Section 8.4.1.6, Qwest will begin construction of the new cable rack.

8.4.8.4 Interval – The construction interval for Direct Connections shall be dependent upon whether the Direct Connection is to the COSMIC™ frame requiring a MELD™ and or if new cable racking is required.

8.4.8.4.1 If CLEC provides a complete Acceptance within thirty (30) Days of receipt of the Qwest Collocation quotation, Qwest shall complete its installation of the Direct Connection above the DS0 level where no new cable racking is required within thirty (30) Days of the receipt of the complete Collocation Acceptance. If Direct Connection is required at the DS0 level, to the COSMIC™, or if new cable racking needs to be installed, Qwest will provision the direct trunking within sixty (60) Days of the receipt of the complete Collocation Acceptance.

8.4.9 Ordering Facility Connected Collocation

8.4.9.1 Application – Upon receipt of the applicable portions of a complete Collocation application as described in Section 8.4.1.5 (Subsections (a, e, g, h and j)), Qwest will perform a feasibility study to determine whether adequate space can be found for the placement and operation of CLEC's terminations. The feasibility study will be provided within ten (10) Days from the date of receipt of a complete application.

8.4.9.2 Quotation -- Qwest will complete the quotation no later than ten (10) Days after providing the feasibility study. FC Collocation price quotes will be honored for thirty (30) Days from the date the quote is provided. During this period, the termination space is reserved pending CLEC's Acceptance of the quoted charges.

8.4.9.3 Acceptance -- Upon receipt of a complete Collocation Acceptance, as described in 8.4.1.6, Qwest will commence installation of the FC Collocation.

8.4.9.4 Interval

8.4.9.4.1 Early Acceptance - If CLEC provides a complete Acceptance within seven (7) Days of receipt of the Qwest Collocation quotation, and if CLEC's entrance facility is at the C-POI no later than fifty-three (53) Days after the receipt of the complete Collocation application, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the Complete Collocation application. If CLEC's entrance facility is not delivered to the C-POI within fifty-three (53) Days after receipt of the complete Collocation application, Qwest shall complete the Collocation installation within forty-five (45) Days of CLEC's delivery of the entrance facility to the C-POI.

8.4.9.4.2 Applications with Timely Acceptance - If CLEC provides a complete Acceptance more than seven (7) Days but less than thirty (30) Days after receipt of the Qwest Collocation quotation, and if CLEC's entrance facility is at the C-POI no later than fifty-three (53) Days after the receipt of the complete Collocation Acceptance, Qwest shall complete its installation of the Collocation arrangement within ninety (90) Days of the receipt of the complete Collocation

Acceptance. If CLEC's entrance facility is not delivered to the C-POI within fifty-three (53) Days after receipt of the complete Collocation Acceptance, Qwest shall complete the Collocation installation within forty-five (45) Days of CLEC's delivery of the entrance facility to the C-POI. If CLEC submits its Acceptance more than thirty (30) Days after receipt of the Qwest quotation, the application shall be resubmitted by CLEC.

8.4.10 Ordering - DC Power Reduction/Restoration

8.4.10.1 CLEC should submit the "Collocation Application for New, Augment or Change" (described in Section 8.4.1.5) and indicate specific power feed(s) to be reduced/restored (e.g., eliminate/ reduce or restore secondary feed(s) from sixty (60) to zero amps or reduce main feed from sixty (60) to twenty (20) amps). Under the "type of request" category CLEC should indicate that this is an Augment.

8.4.10.2 Before submitting a power Reduction/Restoration application, CLEC's financial obligations with respect to the Collocation site must be current, with the exception of charges disputed pursuant to Sections 5 or 21. CLEC's financial obligations include payment of one hundred percent (100%) of both non-recurring quoted charges and applicable monthly recurring charges for the Collocation site that are more than thirty (30)Days past due.

8.4.10.3 Qwest will provide CLEC a quote for additional non-recurring charges associated with the Power Reduction/Restoration Procedure based upon the rates provided in Exhibit A. All quoted non-recurring charges must be paid within thirty (30) Days from the quote. Such payment constitutes CLEC's quote acceptance and authorizes Qwest to perform the work to provision the requested power reduction, restoration or elimination.

8.4.10.4 If CLEC wishes to eliminate it's secondary feed, Qwest will process the request as an Augment order and not as a DC Power Reduction request.

8.4.10.5 Applications for DC Power Reduction/Restoration may be submitted only for Collocation sites that have been previously accepted by the CLEC. Power reductions to sites under construction or for sites not previously accepted by the CLEC, will follow change or Augment procedures and rates.

8.4.10.6 If CLEC accepts the quote within seven (7) Days, Qwest shall complete the DC Power Reduction/Restoration within ninety (90) Days of receipt of the Collocation application. If CLEC accepts the quote after seven (7) Days, Qwest shall complete the DC Power Reduction within ninety (90) Days of receipt of CLEC's acceptance.

8.4.11 Intentionally Left Blank.

8.4.12 Ordering - Collocation Available Inventory

8.4.12.1 CLEC must submit a "Qwest Collocation Application Form (new, change or Augment)" on the Qwest web at <http://www.qwest.com/wholesale/pcat/collocation.html>.

8.4.12.2 The "submit" date for the Collocation Available Inventory request will commence on the date that the CLEC submits the application to Qwest.

8.4.12.3 Qwest will process the Available Inventory Request pursuant to the Collocation Intervals contained in this Agreement.

8.4.12.3.1 Special Site interval will be forty-five (45) Days from the receipt of payment.

8.4.12.4 For purposes of first-come, first-served determination of availability, priority will be defined as set forth in Section 8.4.1.5.1.

8.4.12.5 CLECs may submit an alternative option when requesting an available site by populating the "Second Choice" and/or "Third Choice" tabs included on the Qwest Collocation Application Form. This will prevent the possible cancellation of the submitted application in the event that the first choice is no longer available.

8.4.13 Ordering - Joint Testing

8.4.13.1 CLEC is required to submit a request for Joint Testing by either checking the Joint Testing box on the New, Change or Augment Collocation Application Form (described in Section 8.4.1.5) or by submitting the separate Joint Testing Application Form.

8.4.13.1.1 Upon receipt of a complete application Form, Qwest will contact CLEC using CLEC contact information provided to set up a mutually agreeable testing time based upon the scheduled RFS date.

8.4.13.1.2 If CLEC uses a separate Joint Testing application Form, Qwest will contact CLEC within 10 Days after receipt to set up a mutually agreeable test time.

8.4.14 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.5 Billing

8.5.1 Billing - All Collocation

8.5.1.1 Upon completion of the Collocation construction activities and payment of the remaining non-recurring balance, Qwest will provide CLEC a completion package that will initiate the recurring Collocation charges. Once this completion package has been signed by CLEC and Qwest, and Qwest has received the final fifty percent (50%) balance, Qwest will activate CLEC transport services and/or UNEs or ancillary services coincident with completion of the Collocation.

8.5.1.2 In the event Qwest has completed all associated construction activities and CLEC has not completed its associated activities (e.g., delivering fiber to the C-POI, or providing the equipment cables for connecting to the Interconnection Distribution Frame), Qwest will bill an adjusted amount of the remaining non-recurring balance, close the job, and begin Billing the monthly recurring rent charge. In those instances where the job is delayed due to CLEC not having its fiber to the POI, Qwest will request the balance due minus the dollar amount specific to this work activity, and begin Billing the monthly recurring rent charge. Once CLEC has completed fiber placement, CLEC can request Qwest to return and complete the splicing activity at the rate reflected in this

Agreement. In the case of missing equipment cables, CLEC will be responsible for installing the cables if not delivered at job completion. The installation activity must be conducted by a Qwest approved vendor and follow the designated racking Route. Final test and turn-up will be performed under the Maintenance and Repair process contained herein.

8.5.2 Billing - Virtual Collocation

8.5.2.1 Virtual Collocation will be considered complete when the Premises is Ready for Service (RFS). Cooperative testing between CLEC and Qwest may be negotiated and performed to ensure continuity and acceptable transmission parameters in the facility and equipment.

8.5.3 Billing - Caged and Cageless Physical Collocation

8.5.3.1 Payment for the remaining non-recurring charges shall be upon the RFS date. Upon completion of the construction activities and payment of the remaining non-recurring charges, Qwest will schedule with CLEC, a walk through of the space. During this joint walk through, Qwest will turn over access to the space and provide security access for the Premises. Upon completion of the Acceptance walk through, CLEC will be provided the Caged or Cageless Physical Collocation completion package. The monthly Billing for leased space, DC Power, Entrance Facility, and other associated monthly charges will commence with CLEC sign off on the completion of the physical space. CLEC may then proceed with the installation of its equipment in the Collocation space, unless early access has been arranged pursuant to Section 8.2.3.7. If Qwest, despite its best efforts, including notification through the contact number on the Collocation application, is unable to schedule the walk through with CLEC within twenty-one (21) Days of the RFS, Qwest shall activate the monthly recurring charges.

8.5.4 Intentionally Left Blank.

8.5.5 Billing - DC Power Reduction

8.5.5.1 Qwest will begin Power Reduction upon receipt of payment by CLEC of the quoted charges. Billing to CLEC for the reduced power is effective as of the date of the application.

8.5.5.2 CLEC will be required to pay a Power Maintenance Charge for power cabling and fuse positions for secondary feed(s) that are held. Recurring Billing for the Power Maintenance Charge to hold the power cabling and fuse position for the secondary feed(s) will terminate on the day CLEC energizes the feed or returns the fuse position to Qwest.

8.5.6 Billing – DC Power Restoration

8.5.6.1 Qwest will begin Power Restoration upon receipt of payment by CLEC of the quoted charges. Billing to CLEC for the restoration is effective as of the date of completion of the order

8.5.6.2 When power is restored, see Section 8.3.9.2.

8.5.7 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

8.6 Maintenance and Repair

8.6.1 Virtual Collocation

8.6.1.1 Maintenance Labor, Inspector Labor, Engineering Labor and Equipment Labor business hours are considered to be Monday through Friday, 8:00 a.m. to 5:00 p.m. (local time) and after business hours are after 5:00 p.m. and before 8:00 a.m. (local time), Monday through Friday, all day Saturday, Sunday and holidays.

8.6.1.2 Installation and maintenance of CLEC's virtually collocated equipment will be performed by Qwest or a Qwest authorized vendor.

8.6.1.3 Upon failure of CLEC's virtually collocated equipment, Qwest will promptly notify CLEC of such failure and the corrective action that is needed. Qwest will repair such equipment within the same time periods and with failure rates that are no greater than those that apply to the performance of similar functions for comparable equipment of Qwest. CLEC is responsible for transportation and delivery of maintenance spares to Qwest at the Premises housing the failed equipment. CLEC is responsible for purchasing and maintaining a supply of spares.

8.6.2 Physical Collocation

8.6.2.1 CLEC is responsible for the Maintenance and Repair of its equipment located within CLEC's leased space.

8.6.3 Interconnection Distribution Frame

8.6.3.1 CLEC is responsible for block and jumper inventory and maintenance at the Interconnection Distribution Frame and using industry accepted practices for its terminations. Additionally, CLEC is responsible for having jumper wire and tools for such operations. Qwest is responsible for the overall repair and maintenance of the frame; including horizontal and vertical mounting positions, cable raceways, rings, and troughs, and general housekeeping of the frame.

8.6.4 Adjacent Collocation and Adjacent Remote Collocation

8.6.4.1 CLEC is responsible for the Maintenance and Repair of its equipment located within CLEC's Adjacent Collocation and Adjacent Remote Collocation space.

8.6.5 For each type of Collocation, see 8.1 for Description, 8.2 for General Terms, 8.3 for Rate Elements, 8.4 for Ordering, 8.5 for Billing, and 8.6 for Maintenance and Repair.

SECTION 9.0 - UNBUNDLED NETWORK ELEMENTS

9.1 General Terms

9.1.1 Changes in law, regulations or other “Existing Rules” relating to Unbundled Network Elements (UNEs), including additions and deletions of elements Qwest is required to unbundle and/or provide in a UNE Combination, shall be incorporated into this Agreement by amendment pursuant to Sections 2.2 and 5.30. CLEC and Qwest agree that the UNEs identified in Section 9 are not exclusive and that pursuant to changes in FCC rules, state laws, the Bona Fide Request Process or Special Request Process, CLEC may identify and request that Qwest furnish additional or revised UNEs to the extent required under Section 251(c)(3) of the Act and other Applicable Laws. Failure to list a UNE herein shall not constitute a waiver by CLEC to obtain a UNE subsequently defined by the FCC or the Commission.

9.1.1.1 See Section 24 for Commingling and Ratcheting. See Section 9.23.4.1 for Service Eligibility Criteria.

9.1.1.2 Use of Unbundled Network Elements

9.1.1.2.1 Except as provided in this Section 9.1.1.2.1 and in Section 9.23.4.1, Qwest shall not impose limitations, restrictions, or requirements on requests for, or the use of, Unbundled Network Elements for the service CLEC seeks to offer.

9.1.1.2.2 CLEC may not access a UNE for the exclusive provision of mobile wireless services or interexchange services.

9.1.1.2.3 If CLEC purchases access to a UNE facility, CLEC is entitled to exclusive use of that facility for a period of time, or when purchasing access to a feature, function, or capability of a facility, CLEC is entitled to use of that feature, function, or capability for a period of time. CLEC’s purchase of access to a UNE does not relieve Qwest of the duty to maintain, repair, or replace the UNE.

9.1.1.2.4 If CLEC accesses and uses a UNE consistently with Section 9.1.1.2.2, CLEC may provide any Telecommunications Services over the same UNE.

9.1.1.2.4.1 As the term “Telecommunications Services” is defined in this Agreement, such services include offering Telecommunications for a fee directly to the public and not services solely for administrative use.

9.1.1.2.5 Except as provided in Section 9.23.3.7.1, Qwest shall permit CLEC to Commingle a UNE or a Combination of UNEs with wholesale services obtained from Qwest. See Section 24.

9.1.2 Qwest shall provide non-discriminatory access to Unbundled Network Elements on rates, terms and conditions that are non-discriminatory, just and reasonable. The quality of an Unbundled Network Element Qwest provides, as well as the access provided to that element, will be equal between all Carriers requesting access to that element. Access to Unbundled Network Elements includes moving, adding to, repairing and changing the UNE (through, e.g., design changes, maintenance of service including trouble isolation, additional dispatches, and cancellation of orders). Qwest shall perform for CLEC those Routine Network Modifications that Qwest performs for its own End User Customers. The requirement for Qwest to modify its network on a nondiscriminatory basis is not limited to copper loops and applies to

all unbundled transmission facilities, including Dark Fiber transport when available pursuant to Section 9.7. Where Technically Feasible, the access and Unbundled Network Element provided by Qwest will be provided in “substantially the same time and manner” to that which Qwest provides to itself or to its Affiliates. In those situations where Qwest does not provide access to Network Elements to itself, Qwest will provide access in a manner that provides CLEC with a meaningful opportunity to compete. For the period of time Qwest provides access to CLEC to an Unbundled Network Element, CLEC shall have exclusive use of the Network Element, except when the provisions herein indicate that a Network Element will be shared. Notwithstanding the foregoing, Qwest shall provide access and UNEs at the service performance levels set forth in Section 20. Notwithstanding specific language in other sections of this Agreement, all provisions of this Agreement regarding Unbundled Network Elements are subject to this requirement. In addition, Qwest shall comply with all state wholesale service quality requirements.

9.1.2.1 If facilities are not available, Qwest will build facilities dedicated to an End User Customer if Qwest would be legally obligated to build such facilities to meet its Provider of Last Resort (POLR) obligation to provide basic Local Exchange Service or its Eligible Telecommunications Carrier (ETC) obligation to provide primary basic Local Exchange Service. To the extent that Qwest is not obligated under the Act to build UNEs, Qwest will consider requests to build UNEs pursuant to Section 9.19 of this Agreement. CLEC will be responsible for any construction charges (related to POLR/ETC or otherwise) for which a Qwest End User Customer would be responsible under substantially similar circumstances. Likewise, if a Qwest End User Customer would not be responsible for construction charges (related to POLR/ETC or otherwise), then CLEC will have no responsibility for construction charges under substantially similar circumstances.

9.1.2.1.1 Upon receipt of a Local Service Request (“LSR”) or Access Service Request (“ASR”), Qwest will follow the same process that it would follow for a substantially similar retail service to determine if assignable facilities exist that fit the criteria necessary for the service requested. If available facilities are not readily identified through the normal assignment process, but facilities can be made ready by the requested Due Date, CLEC will not receive an additional FOC, and the order Due Date will not be changed. Qwest will determine, for example, whether, through Routine Network Modifications, facilities can be made available. If facilities can be made available, Qwest must perform the applicable Routine Network Modifications, or other facility work to make them available, before issuing a response to a CLEC order that construction is required because no facilities are available.

9.1.2.1.2 If cable capacity is available, Qwest will complete incremental facility work (e.g., conditioning, place a drop, add a Network Interface Device, card existing subscriber Loop carrier systems at the Central Office and Remote Terminal, add Central Office tie pairs, add field cross jumpers) or applicable Routine Network Modifications in order to complete facilities to the End User Customer Premises.

9.1.2.1.3 During the normal assignment process, if no available facilities are identified for the UNE requested, Qwest will look for existing internal engineering job orders that could fill the request in the future.

9.1.2.1.3.1 If an engineering job currently exists:

(i) that includes the facilities desired by CLEC, Qwest shall send CLEC a jeopardy notice indicating that the facilities are scheduled for construction and identifying the date by which such facilities are scheduled for completion. In this case, Qwest will complete construction of the facilities at no charge to CLEC.

(ii) that does not include the facilities desired by CLEC, Qwest will determine if the current job can be augmented.

(a) If so, Qwest will add CLEC's request to that engineering job and send CLEC a similar jeopardy notice. CLEC will be required to pay the additional costs only when its request to Augment adds cost to the engineering job and only to the same extent a Qwest End User Customer would be responsible for such additional costs.

(b) If not, Qwest will direct the CLEC to Section 9.19 of this Agreement.

In either case, at CLEC's request, via a supplement to its existing service order, the CLEC service order will remain open. Upon completion of the engineering job, Qwest will send CLEC another FOC with a new Due Date.

9.1.2.1.3.2 If facilities are not available and no engineering job exists that could fill the request in the future, Qwest will treat CLEC's request as follows:

9.1.2.1.3.2.1 For UNEs that meet the POLR/ETC requirements set forth in Section 9.1.2.1, CLEC will receive a jeopardy notice indicating that no facilities are available. Qwest will initiate an engineering job order for delivery of primary service to the End User Customer. Once the engineering job is initiated, the CLEC's order will be assigned to it. The CLEC's order will remain open from the time of initial submission until the engineering job is completed. When the engineering job is completed, CLEC will receive a FOC identifying a Due Date when the UNEs will be ready for installation. In response to such FOCs, CLEC can request a different Due Date by submitting a supplemental order to change the Due Date to a later date.

9.1.2.1.3.2.2 For UNEs that do not meet the POLR/ETC requirements in Section 9.1.2.1, Qwest shall send CLEC a jeopardy notice indicating that facilities are not available, however, Qwest shall maintain the order as pending for a period of ninety (90) business days. Qwest shall send such jeopardy notice to CLEC as soon as possible, but in no event less than forty-eight (48) hours prior to the CLEC requested Due Date.

(i) If facilities become available to fill the order within that ninety (90) business day period, Qwest shall notify the CLEC of such availability. CLEC and Qwest acknowledge that the availability of facilities hereunder is on a first come, first served basis. Any facility orders placed by any other provider, including Qwest, which predate CLEC's order shall have priority in any facilities made available under the terms of this Section.

(ii) If facilities do not become available to fill the order within that ninety (90) business day period, Qwest will send CLEC a rejection notice for the LSR or ASR and cancel the Service Order.

(iii) Upon receipt of the rejection notice, or at any time after receipt of the jeopardy notice, CLEC may:

(a) submit a request to build UNEs pursuant to Section 9.19 of this Agreement, or

(b) while a UNE order is in Jeopardy Status, CLEC may cancel its UNE order at any time at no charge.

9.1.2.1.4 Qwest will provide CLEC notification of major Loop facility builds through the ICONN database. This notification shall include the identification of any funded Qwest outside plant engineering jobs that exceed \$100,000 in total cost, the estimated Ready for Service Date, the number of pairs or fibers added, and the location of the new facilities (e.g., Distribution Area for copper distribution, Route number for copper feeder, and termination CLLI codes for fiber). CLEC acknowledges that Qwest does not warrant or guarantee the estimated Ready for Service Dates. CLEC also acknowledges that funded Qwest outside plant engineering jobs may be modified or cancelled at any time.

9.1.3 Notwithstanding any reference, definition or provision to the contrary, CLEC may provide any Technically Feasible data or voice Telecommunications Services allowed by law over any Loop or Loop portion of a UNE Combination, including without limitation, "voice" services over high frequency portions of any Loop or "data" services over any low frequency portion of any Loop, provided such services do not interfere with "voice band" or "data band" transmission parameters in accordance with FCC rules as more particularly described in this Agreement. Any related equipment provided by CLEC to deliver Telecommunications Services contemplated by this section must comply with appropriate ANSI standards such as T1.417 and T1.413. Other references to the voice or voice band portion of the Loop in this Agreement will mean the low frequency portion of the Loop.

9.1.4 Qwest will provide a connection between Unbundled Network Element and a Loop Demarcation Point. Such connection is an Interconnection Tie Pair (ITP). An ITP is required for each Unbundled Network Element or ancillary service delivered to CLEC. The ITP provides the connection between the Unbundled Network Element and the ICDF or other Central Office Demarcation Point. The ITP is ordered in conjunction with a UNE. The charges for the ITP are contained in Exhibit A. The ITP may be ordered per connection (two ITPs for 4-wire). The

Demarcation Point shall be:

- a) at CLEC-provided cross-connection equipment located in CLEC's Virtual or Physical Collocation Space; or
- b) if CLEC elects to use ICDF Collocation or FC Collocation, at the Interconnection Distribution Frame (ICDF); or
- c) if CLEC elects to use an ICDF in association with Virtual or Physical Collocation, at the ICDF; or
- d) if CLEC elects to use a direct connection from its Collocation space to the distribution frame serving a particular element, at the distribution frame; or
- e) at another Central Office Demarcation Point mutually-agreed to by the Parties.

9.1.5 CLEC may connect Network Elements in any Technically Feasible manner. Qwest will provide CLEC with the same features, functions and capabilities of a particular element or combinations of elements that Qwest provides to itself. Qwest will provide CLEC with all of the features and functionalities of a particular element or combination of elements (regardless of whether such combination of elements is ordered from Qwest in combination or as elements to be combined by CLEC), so that CLEC can provide any Telecommunications Services that can be offered by means of such element or combination of elements. Qwest will provide Unbundled Network Elements to CLEC in a manner that allows CLEC to combine such elements to provide any Telecommunications Services. Qwest shall not in any way restrict CLEC's use of any element or combination of elements (regardless of whether such combination of elements is ordered from Qwest in combination or as elements to be combined by CLEC) except as Qwest may be expressly permitted or required by Existing Rules.

9.1.6 Qwest will perform testing as described below. Charges, if any, for testing pursuant to this paragraph are contained in Exhibit A to this Agreement.

9.1.6.1 When UNEs are provisioned by Qwest on an individual UNE basis, including when such UNE(s) are combined by CLEC with other UNEs or facilities or equipment provided by Qwest, CLEC or third parties:

- a) Qwest will perform testing necessary or reasonably requested by CLEC, to determine that a UNE provisioned by Qwest on an individual UNE basis is capable of meeting the technical parameters established for each UNE.
- b) Qwest will repair and maintain each such UNE, facility, or equipment that it provisions to ensure that it continues to meet the technical parameters established for each UNE, facility, or equipment.
- (c) Each Party is responsible for the facilities or equipment that it provisions individually.
- (d) CLEC is responsible for the end-to-end transmission and circuit functionality testing for UNE Combinations created by CLEC; however, Qwest will cooperate with CLEC in any Technically Feasible testing necessary or reasonably requested by CLEC to assist in determining circuit functionality of each circuit and end-to-end transmission.

9.1.6.2 When Qwest provisions UNEs in combination with each other or in combination with other facilities or equipment provisioned by Qwest:

- a) Qwest will perform testing necessary or reasonably requested by CLEC to determine that such combination and each UNE included in such combination is capable of meeting the technical parameters of the combination.
- b) Qwest will repair and maintain such combination and each UNE included in such combination to ensure that such UNE continues to meet the technical parameters of the combination.
- c) Qwest will cooperate with CLEC in any Technically Feasible testing necessary or reasonably requested by CLEC to determine end-to-end transmission and circuit functionality of such combination.

9.1.7 Installation intervals for Unbundled Network Elements are contained in Exhibit C.

9.1.7.1 When CLEC uses Qwest's appointment scheduling tool, should the date and time desired for the coordinated hot cut not be available initially, CLEC can use "override" IMA functionality to obtain the date and time in the associated LSR. In such cases, the requested date and time is to be no shorter than the interval in Exhibit C and not outside Qwest's business hours.

9.1.8 Maintenance and Repair is described herein. The repair center contact telephone numbers are provided in the PCAT, which is located on the Qwest Web site.

9.1.9 In order to maintain and modernize the network properly, Qwest may make necessary modifications and changes to the UNEs in its network on an as needed basis. Such changes may result in minor changes to transmission parameters. If such changes result in the CLEC's End User Customer experiencing a degradation in the transmission quality of voice or data, such that CLEC's End User Customer loses functionality or suffers material impairment, Qwest will assist the CLEC in determining the source and will take the necessary corrective action to restore the transmission quality to previous levels, or other mutually agreeable levels, if it was caused by the network changes. This Section 9.1.9 does not address retirement of copper Loops or Subloops, which are addressed in Sections 9.2.1.2.2 (and subparts), 9.2.1.2.2.3, 9.2.1.2.3 (and subparts), and 9.2.2.3.3. Network maintenance and modernization activities will result in UNE transmission parameters that are within transmission limits of the UNE ordered by CLEC. Qwest shall provide CLEC advance notice of network changes pursuant to applicable FCC rules, including changes that will affect (i) CLEC's performance or ability to provide service (ii) network Interoperability or (iii) the manner in which Customer Premises equipment is attached to the public network. Changes that affect network Interoperability include changes to local dialing from seven (7) to ten (10) digit, area code splits, and new area code implementation. FCC rules are contained in CFR Part 51 and 52. Such notices will contain the location(s) at which the changes will occur including, if the changes are specific to an End User Customer, circuit identification, if readily available, and any other information required by applicable FCC rules. Qwest provides such disclosures on an Internet web site.

9.1.9.1 In the event that Qwest intends to dispatch personnel to the Premises of a CLEC End User Customer, for the purpose of maintaining or modernizing the Qwest network, Qwest shall provide CLEC with email notification no less than three (3) business days in advance of the Qwest dispatch and within three (3) business days after completing the maintenance or modernization activity. In the event of an emergency (e.g., no dial tone),

Qwest need not provide CLEC with advance email notification but shall notify CLEC by email within three (3) business days after completing the emergency maintenance or modernizing activity. In such emergencies, once Qwest personnel involved in the maintenance or modernization activities are aware of an emergency affecting multiple End User Customers, Qwest shall ensure its repair center personnel are informed of the network maintenance and modernization activities issue and their status so that CLEC may obtain information from Qwest so that CLEC may, for example, communicate with its End User Customer(s). CLEC may also contact its Service Manager to request additional information so that CLEC may, for example, communicate with its End User Customer(s). In no event, however, shall Qwest be required to provide status on emergency maintenance or modernization activity greater than that provided to itself, its End User Customers, its Affiliates or any other party. To the extent that the activities described in Sections 9.1.9 and 9.1.9.1 include dispatches, no charges apply.

9.1.10 Intentionally Left Blank.

9.1.11 Exhibit A of this Agreement contains the rates for Unbundled Network Elements.

9.1.12 Miscellaneous Charges are defined in Section 4. In the event that Miscellaneous Charges apply, they will be applied consistent with the application used for equivalent work requested by Qwest End User Customers. Rates for Miscellaneous Charges are contained in Exhibit A. Unless otherwise provided for in this Agreement, no additional charges will apply.

9.1.12.1 For expedites, see Section 12.2.1.2.

9.1.13 To submit an order to obtain a High Capacity Loop or high capacity transport UNEs, CLEC must undertake a reasonably diligent inquiry and, based on that inquiry, self-certify that, to the best of its knowledge, its request is consistent with the requirements discussed in parts IV, V, and VI of the Triennial Review Remand Order as reflected in this Agreement and that it is therefore entitled to unbundled access to the particular Unbundled Network Elements sought pursuant to section 251(c)(3). Before placing the first such order under this Agreement, CLEC shall provide its self-certification through a letter sent to Qwest, or in another form to which the Parties mutually agree in writing. The applicable UNE rate(s) in Exhibit A will apply to UNEs and UNE Combinations.

9.1.13.1 CLEC will maintain appropriate records to support the self-certification described in Section 9.1.13. See Section 9.23.4 for Service Eligibility Criteria for High Capacity EELs.

9.1.13.2 Qwest has a limited right to audit compliance with the Service Eligibility Criteria for High Capacity EELs, as described in Section 9.23.4.3. Notwithstanding any other provision of this Agreement, there is no other auditing requirement for self-certification, as CLEC certifies only to the best of its knowledge.

9.1.13.3 Whether a High Capacity Loop or high capacity transport UNE is unavailable, and the date upon which it becomes unavailable, based on non-impairment wire center designations have been or will be determined by the Commission in a Wire Center Docket. The Parties will follow any procedures established by the Commission in the Wire Center Docket with respect to exchange of data and Confidential Information and requests for additions to the Commission-Approved Wire Center List. For non-impaired facilities identified using the initial Commission-Approved Wire Center List, CLEC will not order an unbundled DS1 or DS3 Loop or an unbundled DS1, DS3 or Dark

Fiber transport circuit when the order would be restricted based on the Wire Center designations identified on the applicable Commission-Approved Wire Center List. Regarding ordering after any additions are made to the initial Commission-Approved Wire Center List, see Section 9.1.14.4. CLEC will transition such UNEs impacted by the Commission-Approved Wire Center List as described in Section 9.1.14.

9.1.13.4 Upon receiving a request for access to a High Capacity Loop or high capacity transport UNE pursuant to Section 9.1.13, Qwest must immediately process the request. Qwest shall not prevent order submission and/or order processing (such as via a system edit, or by requiring affirmation of the information in the self-certification letter through remarks in the service request, or through other means) for any such facility on non-impairment grounds, unless the Parties agree otherwise in an amendment to this Agreement. Regarding ordering with respect to the initial Commission-Approved Wire Center List, see Section 9.1.13.3, and regarding ordering after any additions are made to the initial Commission-Approved Wire Center List, see Section 9.1.14.4. Regarding changes in law, see Section 2.2.

9.1.13.4.1 To the extent that Qwest seeks to challenge access to any such UNE(s), it subsequently can raise that issue through the Dispute resolution procedures in Section 5.18 of this Agreement. Regarding Service Eligibility Criteria for High Capacity EELs, see Sections 9.23.4.2.1.3 and 9.23.4.3.

9.1.13.4.1.1 If Qwest seeks to challenge any such UNEs, it will provide written notice to CLEC of its request for Dispute resolution.

9.1.13.4.1.2 If Qwest seeks to challenge any such UNEs, it will also provide CLEC with data to support its claim.

9.1.13.4.1.2.1 For Wire Centers: This may, in some cases, be limited to providing a copy of a Commission Approved Wire Center List, while in other cases the data may be more extensive (such as data that allows CLEC to identify the disputed circuits and other data upon which Qwest relies). In the event of such a dispute, CLEC will also provide Qwest the data upon which it relies for its position that CLEC may access the UNE.

9.1.13.4.1.2.2 For Caps:

9.1.13.4.1.2.2.1 With respect to disputes regarding the caps described in Sections 9.2 and 9.6.2.3, data that allows CLEC to identify all CLEC circuits relating to the applicable Route or Building [including if available circuit identification (ID), installation purchase order number (PON), Local Service Request identification (LSR ID), Customer Name/Service Name, installation date, and service address including location (LOC) information (except any of the above, if it requires a significant manual search), or such other information to which the Parties agree]. In the event of such a dispute, CLEC will also provide Qwest the

data upon which it relies for its position that CLEC may access the UNE.

9.1.13.4.1.2.2.2 Notwithstanding anything in this Section 9.1.13.4 that may be to the contrary, to the extent that Qwest challenges access to any UNE(s) on the basis that CLEC's access to or use of UNEs exceeds the caps described in Sections 9.2 or 9.6.2.3 because CLEC has ordered more than ten UNE DS1 Loops or more than the applicable number of DS3 Loop circuits or UDIT circuits in excess of the applicable cap on a single LSR (or a set of LSRs submitted at the same time for the same address for which CLEC populates the related PON field to indicate the LSRs are related), Eschelon does not object to Qwest rejecting that single LSR (or the set of LSRs that meets the preceding description) on that basis. The means by which Qwest will implement rejection of such orders is addressed in Section 9.1.13. Except as provided in this Section 9.1.13.4.1.2.2.2, in all other situations when Qwest challenges access to any UNE(s) on the basis that CLEC's access to or use of UNEs exceeds the caps described in Sections 9.2 or 9.6.2.3, Qwest must immediately process the request and subsequently proceed with the challenge as described in Section 9.1.13.4.1.

9.1.13.5 If the Parties agree or it is determined through Dispute resolution that CLEC was not entitled to unbundled access to a particular UNE that is not subject to one of the transition periods described in Section 9.1.14, or the transition period has ended, CLEC will place an order within thirty (30) Days to either disconnect the UNE or convert such UNE to an alternative service arrangement. Back billing for the difference between the rates for UNEs and rates for the Qwest alternative service arrangements will apply no earlier than the later of: (1) the installation date; or (2) the effective date of the TRO or TRRO, whichever is applicable.

9.1.13.5.1 With respect to the caps described in Sections 9.2 and 9.6.2.3, the back billing period described in Section 9.1.13.5 will apply no earlier than the later of: (1) the installation date; or (2) the effective date of the TRO or TRRO, whichever is applicable; unless the Parties agree to a different date or a different date is determined through Dispute resolution.

9.1.13.5.2 For each such facility converted from a UNE to an alternative service arrangement, Qwest will, for at least three (3) years from the effective date in the Wire Center Docket of the initial Commission-Approved Wire Center List, assess an effective net non-recurring charge of \$25 for each such facility converted from a UNE to an alternative service arrangement. Qwest may assess a non-recurring charge in excess of \$25, so long as Qwest provides a clearly identified lump sum credit within three (3) billing cycles that results in an effective net non-recurring charge of \$25. No additional non-recurring charges apply, other than OSS non-recurring charges if applicable pursuant to Section 12.7.

9.1.13.5.2.1 The Parties disagree as to the amount of the applicable non-recurring charge after the three-year period identified in

this Section. Each Party reserves all of its rights with respect to the amount of the charges after that date. Nothing in this Agreement precludes a Party from addressing the non-recurring charge after that three-year period. A different non-recurring charge will apply, however, only to the extent authorized by an applicable regulatory authority, or agreed upon by the Parties, and reflected in an amendment to this Agreement (pursuant to Section 2.2 and/or Section 5.30).

9.1.14 Transition periods. A transition period allows CLEC to transition away from use of UNEs where they are not impaired. The transition plans described in this Section apply only to the embedded End User Customer base. During the applicable transition period, CLEC will retain access to the UNE at the terms described in this Section.

9.1.14.1 For a 12-month period beginning on March 11, 2005, any DS1 Loop UNEs, DS3 Loop UNEs, DS1 Dedicated Transport UNEs, and DS3 Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to the higher of (1) 115% of the rate CLEC paid for the element on June 15, 2004, or (2) 115% of the rate the Commission has established or establishes, if any, between June 16, 2004, and March 11, 2005, for that element.

9.1.14.1.1 Within ninety (90) Days of Commission approval of this Agreement, notwithstanding any other provision in this Agreement, Qwest shall back bill CLEC for such rate adjustment for the time period for which the facilities were in place between March 11, 2005 to March 10, 2006. Such back billing shall not be subject to billing measurements and penalties (as identified in this Agreement) on the grounds that such back billing was not implemented earlier than ninety (90) Days after approval of this Agreement.

9.1.14.2 For an 18-month period beginning on March 11, 2005, any Dark Fiber Loop UNEs and Dark Fiber Dedicated Transport UNEs that CLEC leases from Qwest as of that date shall be available for lease from Qwest at a rate equal to the higher of (1) 115% of the rate CLEC paid for the element on June 15, 2004, or (2) 115% of the rate the Commission has established or establishes, if any, between June 16, 2004, and March 11, 2005, for that element.

9.1.14.2.1 Within ninety (90) Days of Commission approval of this Agreement, notwithstanding any other provision in this Agreement, Qwest shall back bill CLEC for such rate adjustment for the time period for which the facilities were in place between March 11, 2005 to September 10, 2006. Such back billing shall not be subject to billing measurements and penalties (as identified in this Agreement) on the grounds that such back billing was not implemented earlier than ninety (90) Days after approval of this Agreement.

9.1.14.3 Bridge Period from March 11, 2006 until Effective Date of this Agreement.

9.1.14.3.1 Within ninety (90) Days of Commission approval of this Agreement, notwithstanding any other provision in this Agreement, for the period from March 11, 2006 until the Effective Date of this Agreement, Qwest shall back bill retroactive to March 11, 2006 (or a later date, if a UNE became unavailable after that date) for the time period for which the facilities were in place and CLEC agrees to pay Qwest pursuant to this Agreement the difference between the UNE rate(s) and the applicable alternate service rate(s) (such as Special Access Service rate(s)) on all Loop and transport UNEs that were no longer required to be offered by Qwest as UNEs beginning March 11, 2006.

9.1.14.4 Additional Non-Impaired Wire Centers. When Qwest files a request(s) with the Commission to add additional Wire Center(s) to the Commission-Approved Wire Center List, Qwest will follow the procedures for making such requests adopted by the Commission in the Wire Center Docket. When additional Qwest Wire Center(s) meet the relevant factual criteria discussed in Sections V and VI of the FCC's Triennial Review Remand Order as reflected in this Agreement and the Commission adds the Wire Center(s) to the Commission-Approved Wire Center List, the terms of this Section will apply to facilities subject to the transition based on any addition(s) to the Commission-Approved Wire Center List. Fifteen (15) Days after Commission-approval of addition(s) to that list, CLEC will no longer order impacted High Capacity Loops, high capacity transport UNEs, or Dark Fiber Loop and Dark Fiber Dedicated Transport UNEs in (for loops) or between (for transport) those additional Wire Centers. Qwest and CLEC will work together to identify those circuits impacted by such change.

9.1.14.4.1 Transition Periods for additions to the Commission-Approved Wire Center List.

9.1.14.4.1.1 For a ninety (90) Day period beginning on the effective date on which the Commission approves an addition to the Commission-Approved Wire Center List, any DS1 Loop UNEs, DS3 Loop UNEs, DS1 Dedicated Transport UNEs, and DS3 Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to 115% of the UNE rates applicable as of the effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

9.1.14.4.1.2 For a one-hundred and eighty (180) Day period beginning on the effective date on which the Commission approves an addition to the Commission-Approved Wire Center List, any Dark Fiber Loop UNEs and Dark Fiber Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to 115% of the UNE rates applicable as of the effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

9.1.14.4.1.3 The 115% rate described in Sections 9.1.14.4.1.1 and 9.1.14.4.1.2 will be applied to CLEC bills on the following bill cycle, and may be applied as a manual adjustment. Any manual bill adjustment for the time period for which the facilities were in place will be applied to each account based on the Billing Telephone Number (BTN) and/or Circuit (CKT) identification number per Billing Account Number (BAN) with an effective bill date as of the effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

9.1.14.4.2 Data. Qwest will file supporting data with the Commission when filing a request to obtain additional non-impaired designations added to the Commission-Approved Wire Center List. Qwest will also provide a copy of the supporting data pursuant to the terms of the applicable protective agreement/order to CLEC if CLEC has signed the applicable protective agreement/order (or is subject to any applicable standing protective order put in place by the Commission).

9.1.14.4.2.1 If Qwest relies upon Fiber-Based Collocators for its proposed non-impairment designation, the supporting data provided to CLEC will include at least the information required by the Commission in the Wire Center Docket.

9.1.14.4.2.2 If Qwest relies upon Switched Business Line Count data for its proposed Non-Impairment Designation, the supporting data provided to CLEC will include at least the information required by the Commission in the Wire Center Docket.

9.1.14.4.3 Methodology: The Parties agree to use the methodology for non-impairment or tier designations adopted by the Commission in the Wire Center Docket.

9.1.14.5 If it is determined by CLEC and Qwest that CLEC's access to or use of UNEs exceeds the caps described in Sections 9.2 and 9.6.2.3, CLEC has thirty (30) Days to convert such UNEs to alternate service arrangements and CLEC is subject to back billing for the difference between rates for the UNEs and rates for the Qwest alternate service arrangements.

9.1.14.6 For each such facility converted from a UNE to an alternative service arrangement, Qwest will, for at least three (3) years from the effective date in the Wire Center Docket of the initial Commission-Approved Wire Center List, assess an effective net non-recurring charge of \$25 for each such facility converted from a UNE to an alternative service arrangement. Qwest may assess a non-recurring charge in excess of \$25, so long as Qwest provides a clearly identified lump sum credit within three (3) billing cycles that results in an effective net non-recurring charge of \$25. No additional non-recurring charges apply, other than OSS non-recurring charges if applicable pursuant to Section 12.7.

9.1.14.6.1 The Parties disagree as to the amount of the applicable non-recurring charge after the three-year period identified in this Section. Each Party reserves all of its rights with respect to the amount of the charges after that date. Nothing in this Agreement precludes a Party from addressing the non-recurring charge after that three-year period. A different non-recurring charge will apply, however, only to the extent authorized by an applicable regulatory authority, or agreed upon by the Parties, and reflected in an amendment to this Agreement (pursuant to Section 2.2 and/or Section 5.30).

9.1.15 If CLEC has not converted or disconnected a UNE facility that the Parties agree, or it is determined in Dispute resolution that the facility, should be converted or disconnected by the end of the applicable transition period described in Sections 9.13 and 9.14, Qwest will convert facilities to month-to-month service arrangements in Qwest's FCC No. 1 Tariff or, for Dark Fiber facilities, begin the disconnect process after reasonable notice to CLEC sufficiently identifying the Dark Fiber facility(ies) to be disconnected. If such a facility is disconnected, the applicable disconnection charge in Exhibit A, if any, will apply. Qwest and CLEC will work together to identify impacted facilities.

9.1.15.1 If Qwest believes or asserts that a particular UNE's availability status has changed, Qwest shall notify CLEC of Qwest's claim and the basis for the claim and upon request, provide sufficient data to enable CLEC to identify and agree upon any impacted facility(ies). If the Parties do not reach agreement, Qwest must continue to provide the UNE to CLEC until the Dispute is resolved. See Section 9.1.14.

9.1.15.2 If Qwest converts a facility to an analogous or alternative service arrangement pursuant to Section 9.1.15, the terms and conditions of this Section 9.1.15.2 will apply.

9.1.15.2.1 For each such facility converted from a UNE to an alternative service arrangement, Qwest will, for at least three (3) years from the effective date in the Wire Center Docket of the initial Commission-Approved Wire Center List, assess an effective net non-recurring charge of \$25 for each such facility converted from a UNE to an alternative service arrangement. Qwest may assess a non-recurring charge in excess of \$25, so long as Qwest provides a clearly identified lump sum credit within three (3) billing cycles that results in an effective net non-recurring charge of \$25. No additional non-recurring charges apply, other than OSS non-recurring charges if applicable pursuant to Section 12.7.

9.1.15.2.1.1 The Parties may disagree as to the amount of the applicable non-recurring charge after the three-year period identified in this Section. Each Party reserves all of its rights with respect to the amount of the charges after that date. Nothing in this Agreement precludes a Party from addressing the non-recurring charge after that three-year period. A different non-recurring charge will apply, however, only to the extent

authorized by an applicable regulatory authority, or agreed upon by the Parties, and reflected in an amendment to this Agreement (pursuant to Section 2.2 and/or Section 5.30).

9.1.15.2.2 The Parties will complete the transition of facility(ies) using a seamless process that does not affect the End User Customer's perception of service quality. The Parties will establish and abide by any necessary operational procedures to ensure Customer service quality is not affected by conversions.

9.2 Unbundled Loops

9.2.1 Description and General Terms

The Loop Network Element is defined as a transmission facility between a distribution frame (or its equivalent) in an incumbent LEC Central Office and the Loop Demarcation Point at an End User Customer Premises. The Loop Network Element includes all features, functions, and capabilities of such transmission facility. Those features, functions, and capabilities include, but are not limited to, Dark Fiber, attached electronics (except those electronics used for the provision of Advanced Services, such as Digital Subscriber Line Access Multiplexers), and line conditioning. The Loop includes, but is not limited to DS0, DS1, and DS3 Loops. Qwest will not provide access to UNE OCn Loops or features and functionalities of UNE OCn Loops. Qwest does not offer Unbundled Dark Fiber Loop (UDF-Loop), which constitutes a deployed, unlit Loop between a Qwest Wire Center and an End User Customer premises, on an unbundled basis, except during the transitional period in Section 9.1.14.2. For UDF MTE Subloop see Section 9.7.

9.2.1.1 "Loop Demarcation Point" – is defined for purposes of this section as the point where Qwest owned or controlled facilities cease, and CLEC, End User Customer, owner or landlord ownership or control of facilities begins.

9.2.1.2 **FTTH and FTTC Loops.** For purposes of this Section, a Fiber-to-the-Home ("FTTH") Loop is a local Loop consisting entirely of fiber optic cable, whether dark or lit, and serving an End User Customer's premises or, in the case of predominantly residential multiple dwelling units (MDUs), a fiber optic cable, whether dark or lit, that extends to the multiunit premises' minimum point of entry (MPOE). For purposes of this Section, a Fiber-to-the-Curb ("FTTC") Loop is a local Loop consisting of fiber optic cable connecting to a copper distribution plant that is not more than 500 feet from the End User Customer's premises or, in the case of predominantly residential MDUs, not more than 500 feet from the MDU's MPOE. The fiber optic cable in a FTTC Loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution Subloop also is not more than 500 feet from the respective End User Customer's premises.

9.2.1.2.1 **FTTH or FTTC New Builds.** Qwest shall have no obligation under this Agreement to provide nondiscriminatory access to a FTTH or FTTC Loop as an Unbundled Network Element in any situation where Qwest deploys such a Loop to an End User Customer's premises that previously has not been served by any Loop facility.

9.2.1.2.2 **FTTH or FTTC Overbuilds.** Qwest shall have no obligation under this Agreement to provide nondiscriminatory access to a FTTH or FTTC

Loop as an Unbundled Network Element in any situation where Qwest has deployed such a Loop parallel to, or in replacement of, an existing copper Loop facility, except that:

9.2.1.2.2.1 Qwest must maintain the existing copper Loop connected to the particular End User Customer's premises after deploying the FTTH or FTTC Loop to such premises and provide nondiscriminatory access to that copper Loop on an unbundled basis, unless Qwest retires the copper loops pursuant to Section 9.2.1.2.3.

9.2.1.2.2.2 Qwest need not incur any expense to ensure that the existing copper Loop remains capable of transmitting signals prior to receiving a request for access pursuant to Section 9.2.1.2.2.1, in which case Qwest shall restore the copper Loop to serviceable condition upon request.

9.2.1.2.2.2.1 Any such restoration shall not be subject to Performance Indicator Definition or other performance service measurement or intervals that apply generally to unbundled Loops.

9.2.1.2.2.3 When Qwest retires the copper Loop in accordance with the provisions of Section 9.2.1.2.3 below, Qwest shall provide nondiscriminatory access to a 64 kilobits per second transmission path capable of voice grade service as an Unbundled Network Element over the FTTH or FTTC Loop.

9.2.1.2.3 Retirement of Copper Loops, Copper Feeder or Copper Subloops and Replacement with FTTH or FTTC Loops. In the event Qwest decides to replace any copper Loop, copper feeder or copper Subloop with a FTTH or FTTC Loop, Qwest will, at least 91 days prior to the planned retirement date: (i) provide notice of such planned replacement on its web site (www.qwest.com/disclosures); (ii) provide public notice of such planned replacement to the FCC; and (iii) provide direct notice of such planned replacement to CLEC when CLEC or its End User Customers will be affected. If Qwest determines that CLEC's End User Customer's service will be negatively impacted by a planned retirement, Qwest will provide an additional e-mail notice to CLEC, via its account team, that shall include the following information: city and state; Wire Center; planned retirement date; the FDI address; a listing of all impacted addresses in the DA; old and new cable media, including transmission characteristics; circuit information; and cable and pair information. Qwest is not required to identify which impacted addresses included in the additional e-mail notice are specific to CLEC. Such notices shall be provided in accordance with FCC rules, including 47 C.F.R. §51.327(a), and in addition to any applicable state Commission requirements. Such notices must disclose, among other things, the planned date for retiring a copper Loop and a description of the reasonably foreseeable impact of the planned changes, to ensure that CLEC maintains access to Loop facilities. In accordance with the FCC's network disclosure rules, a CLEC may file an objection with the FCC to Qwest's notice of retirement of copper loops for both short-term and long-term notifications as outlined in Part 51 of the FCC's Rules. Any such objection shall be deemed denied by the FCC ninety (90) Days after

the date on which the FCC releases public notice of the intended retirement, unless the FCC rules otherwise within that period or changes its procedures with respect to deeming such objections as denied after 90 days. Denial by the FCC does not preempt the ability of the Commission to evaluate Qwest's retirement of its copper loops to ensure such retirement complies with any applicable state legal or regulatory requirements.

9.2.1.2.3.1 When infrastructure demand requires Qwest to retire copper Loops or copper Subloops, Qwest will leave copper Loops or copper Subloops serving CLEC End User Customers in service where it is Technically Feasible to do so. Should retired copper facilities be replaced by like copper facilities, Qwest and CLEC will jointly coordinate the transition of current working copper Loops and Subloops to like copper facilities so that service interruption is held to a minimum.

9.2.1.2.3.2 When Qwest retires copper Loops or copper Subloops and the replacement facilities include the placement of a remote DSLAM, to the extent that space is available, Qwest will offer CLEC Remote Collocation and/or Field Connection Point (FCP) pursuant to this Agreement in order to maintain existing services, including xDSL service provided by CLEC. Qwest and CLEC will jointly coordinate the transition of current working facilities to the new working facilities so that service interruption is held to a minimum.

9.2.1.3 **DS1 loops.** Subject to the cap described in Section 9.2.1.3.2, Qwest shall provide CLEC with nondiscriminatory access to a DS1 Loop as an Unbundled Network Element to any Building not served by a Wire Center with at least 60,000 Business Lines and at least four Fiber-Based Collocators. Once a Wire Center exceeds both of these thresholds, no future DS1 Loop unbundling will be required in that Wire Center under this Agreement. A DS1 Loop is a digital local Loop having a total digital signal speed of 1.544 megabytes per second. DS1 Loops include, but are not limited to, two-wire and four-wire copper Loops capable of providing high-bit rate digital subscriber line services, including T1 services.

9.2.1.3.1 Regarding ordering and transition periods, see also Sections 9.1.13 – 9.1.15.

9.2.1.3.2 **Cap on unbundled DS1 Loop circuits.** CLEC may obtain a maximum of ten UNE DS1 Loops to any single Building in which DS1 Loops are available as UNE Loops.

9.2.1.4 **DS3 loops.** Subject to the cap described in Section 9.2.1.4.2, Qwest shall provide CLEC with nondiscriminatory access to a DS3 Loop as an Unbundled Network Element to any Building not served by a Wire Center with at least 38,000 Business Lines and at least four Fiber-Based Collocators. Once a Wire Center exceeds both of these thresholds, no future DS3 Loop unbundling will be required in that Wire Center under this Agreement. A DS3 Loop is a digital local Loop having a total digital signal speed of 44.736 megabytes per second.

9.2.1.4.1 Regarding ordering and transition periods, see also Sections 9.1.13 – 9.1.15

9.2.1.4.2 **Cap on unbundled DS3 Loop circuits.** CLEC may obtain a maximum of a single UNE DS3 Loop to any single Building in which DS3 Loops are available as UNE Loops.

9.2.1.5 Intentionally Left Blank

9.2.1.6 Hybrid Loops – A "Hybrid Loop" is an Unbundled Loop composed of both fiber optic cable, usually in the feeder plant, and copper wire or cable, usually in the distribution plant.

9.2.1.6.1 Packet Switching Facilities, Features, Functions and Capabilities – Qwest is not required to provide UNE access to the Packet Switched features, functions and capabilities of its Hybrid Loops.

9.2.1.6.2 Broadband Services – When CLEC seeks access to a Hybrid Loop for the provision of broadband services, Qwest shall provide CLEC with nondiscriminatory access to the time division multiplexing features, functions, and capabilities of that Hybrid Loop, including DS1 or DS3 capacity, on an unbundled basis to establish a complete transmission path between Qwest's Central Office and an End User Customer premises. This access shall include access to all features, functions, and capabilities of the Hybrid Loop that are not used to transmit packetized information.

9.2.1.6.3 Narrowband Services – When CLEC seeks access to a Hybrid Loop for the provision of narrowband services, Qwest may either:

- a) Provide nondiscriminatory access, on an unbundled basis, to an entire Hybrid Loop capable of voice-grade service (i.e., equivalent to DS0 capacity), using time division multiplexing technology; or
- b) Provide nondiscriminatory access to a spare home-run copper Loop serving that End User Customer on an unbundled basis.

9.2.2 Unbundled Loop - Additional General Terms

9.2.2.1 Qwest shall provide CLEC, on a non-discriminatory basis, Unbundled Loops of substantially the same quality as the Loop that Qwest uses to provide service to its own End User Customers. Qwest, in Provisioning High Capacity Loop facilities to CLEC, must make the same Routine Network Modifications to its existing Loop facilities that it makes for its own End User Customers. Qwest shall engage in activities necessary to activate Loops that are not currently activated in the network. Qwest shall add types of electronics that Qwest ordinarily attaches to a Loop for an End User Customer requiring a Loop, even if such electronics are not attached to a particular Loop. For Unbundled Loops that have a retail analogue, Qwest will provide these Unbundled Loops in substantially the same time and manner as Qwest provides to its own End User Customers. Qwest will redesignate interoffice facilities (IOF) for CLEC where available with the exception of interoffice facilities Qwest maintains to ensure sufficient reserve capacity as defined in Section 9.7.2.5. Separate and apart from the foregoing, in the event Qwest removes from interoffice service, an entire IOF that is capable of supporting Telecommunications Services, Qwest will make that facility available as Loop facilities for Qwest and CLEC alike to fill any order currently in the held

order queue on a first come, first served basis. Should additional facilities be available after all held orders are filled, Qwest will make the additional facilities available to fill new orders on a first come, first served basis, based on the Application Date. Unbundled Loops shall be provisioned in accordance with Exhibit C and the performance metrics set forth in Section 20 and with a minimum of service disruption.

When IOF facilities are used pursuant to Section 9.2.2.1, Qwest will reuse IOF facilities whenever the facilities are in good enough condition to use as Loop facilities. In such cases, these facilities will be available as Loop facilities and will be visible in the raw Loop data tool upon completion of the outside plant reclamation job.

9.2.2.1.1 Use of the word “capable” to describe Loops in Section 9.2 means that Qwest assures that the Loop meets the technical standards associated with the specified Network Channel/Network Channel Interface codes, as contained in the relevant technical publications and industry standards.

9.2.2.1.2 Use of the word “compatible” to describe Loops in Section 9.2 means the Unbundled Loop complies with technical parameters of the specified Network Channel/Network Channel Interface codes as specified in the relevant technical publications and industry standards. Qwest makes no assumptions as to the capabilities of CLEC’s Central Office equipment or the Customer Premises Equipment.

9.2.2.2 Analog (Voice Grade) Unbundled Loops. Analog (voice grade) Unbundled Loops are available as a two-wire or four-wire voice grade, point-to-point configuration suitable for local exchange type services. For the two-wire configuration, CLEC must specify the signaling option via the Network Channel Interface (NCI) field on the LSR. The actual Loop facilities may utilize various technologies or combinations of technologies.

9.2.2.2.1 If Qwest uses Integrated Digital Loop Carrier (IDLC) systems to provide the Local Loop, Qwest will first attempt, to the extent possible, to make alternate arrangements such as Line and Station Transfers (LST), to permit CLEC to obtain a contiguous copper Unbundled Loop. If a LST is not available, Qwest may also seek alternatives such as Integrated Network Access (INA), hair pinning, or placement of a Central Office terminal, to permit CLEC to obtain an Unbundled Loop. If no such facilities are available, Qwest will make every feasible effort to unbundle the IDLC in order to provide the Unbundled Loop for CLEC. Regarding lack of facilities generally, see Section 9.2.2.16, Section 9.19 and Section 19.

9.2.2.2.1.1 In areas where Qwest has deployed amounts of IDLC that are sufficient to cause reasonable concern about a CLEC’s ability to provide service through available copper facilities on a broad scale, CLEC shall have the ability to gain access to Qwest information sufficient to provide CLEC with a reasonably complete identification of such copper facilities. Qwest shall be entitled to mediate access in a manner reasonably related to the need to protect Confidential or Proprietary information. CLEC shall be responsible for Qwest’s incremental cost to provide such information or access mediation.

9.2.2.2.1.2 If Qwest deploys Next Generation Digital Loop Carrier (NGDLC) in its network, CLEC shall have non-discriminatory access to the technology as required by the Act and the rules promulgated thereunder.

9.2.2.2.2 If there are state service quality rules in effect at the time CLEC requests an Analog Unbundled Loop Qwest will provide an Analog Unbundled Loop that meets the minimum state technical performance standard at the Analog Unbundled Loop rates contained in Exhibit A. If necessary to meet the state standards, Qwest will, at no cost to CLEC, add or remove load coils and Bridged Taps from the Loop in accordance with the requirements of the specific technical standard.

9.2.2.3 Digital Capable Loops – DS1 and DS3 Capable Loops, Basic Rate (BRI) ISDN Capable Loops, 2/4 Wire Non-Loaded Loops, ADSL Compatible Loops and xDSL-I Capable Loops. Unbundled digital Loops are transmission paths capable of carrying specifically formatted and line coded digital signals. Unbundled digital Loops may be provided using a variety of transmission technologies including, but not limited to, metallic wire, metallic wire based Digital Loop Carrier, and fiber optic fed digital carrier systems. Qwest will provision digital Loops in a non-discriminatory manner, using the same facilities assignment processes that Qwest uses for itself to provide the requisite service. Qwest will not re-designate working distribution facilities as interoffice facilities (and vice versa) either for a CLEC or itself. Digital Loops may use a single or multiple transmission technologies. Direct Current continuity does not apply to digital capable Loops. If conditioning is required, then CLEC may be charged for such conditioning as set forth in Exhibit A, if it authorized Qwest to perform such conditioning.

9.2.2.3.1 Qwest will not deny access to DS1 and DS3 Loops on the basis that the Loop facilities are provisioned via fiber. If both copper and fiber are available, Qwest may elect over which facility to provision the Loop. For Hybrid Loops, see Section 9.2.1.6.

9.2.2.3.2 If CLEC orders a 2/4 wire non loaded or ADSL compatible Unbundled Loop for an End User Customer served by a Digital Loop Carrier System Qwest will conduct an assignment process which considers the potential for a LST or alternative copper facility. If a LST is not available, Qwest may also seek alternatives such as Integrated Network Access (INA), hair pinning, or placement of a Central Office terminal, to permit CLEC to obtain an Unbundled Loop. If no such facilities are available, Qwest will make every feasible effort to unbundle the IDLC in order to provide the Unbundled Loop for CLEC. Qwest will hold the order for ninety (90) Days. If, after ninety (90) Days, no copper facility capable of supporting the requested service is available, then Qwest will reject the order.

9.2.2.3.3 Qwest may re-designate fully retired facilities for itself as well as CLEC.

9.2.2.4 Non-Loaded Loops. CLEC may request that Qwest provide a non-loaded Unbundled Loop. In the event that no such facilities are available, CLEC may request that Qwest condition existing spare facilities. CLEC may indicate on the LSR that it pre-approves conditioning if conditioning is necessary. If CLEC has not pre-approved conditioning, Qwest will obtain CLEC's consent prior to undertaking any

conditioning efforts. Upon CLEC pre-approval or approval of conditioning, and only if conditioning is necessary, Qwest will dispatch a technician to condition the Loop by removing load coils and excess Bridged Taps to provide CLEC with a non-loaded Loop. CLEC will be charged the non-recurring conditioning charge (i.e., cable unloading and Bridged Taps removal), if applicable, in addition to the Unbundled Loop installation non-recurring charge. These charges will not apply if CLEC establishes that the Loop Qwest provided does not meet the Commission's minimum voice grade performance standards, R746-340-1(B)(19), unless Qwest later finds and establishes to CLEC that the requested conditioning caused the voice degradation. CLEC may be entitled to a credit of conditioning costs already paid to Qwest, if Qwest fails to perform the conditioning in a workmanlike or timely manner. The determination of credit or fault shall be addressed in the context of a Billing dispute.

9.2.2.4.1 Where Qwest fails to meet a Due Date for performing Loop conditioning, and CLEC's End User Customer cancels service within one (1) week of a Due Date missed by Qwest, CLEC shall be entitled to a credit equal to the amount of any conditioning charges applied. In addition, where Qwest does not perform conditioning in accord with the standards applicable under this Agreement, and CLEC can demonstrate that the Loop as conditioned is incapable of substantially performing the functions normally within the parameters applicable to such Loop as this Agreement requires Qwest to deliver it to CLEC, CLEC shall be entitled to a credit of any conditioning charges applied, except where CLEC asks Qwest to cure any defect and Qwest does so. In the case of such cure, CLEC shall be entitled to the one-half (1/2) credit identified above.

9.2.2.5 When CLEC requests a Basic Rate ISDN capable or an xDSL-I capable Loop, Qwest will dispatch a technician, if necessary, to provide Extension Technology that takes into account for example: the additional regenerator placement, Central Office powering, Mid-Span repeaters, if required, BRITE cards in order to provision the Basic Rate ISDN capable and xDSL-I capable Loop. Extension Technology may be required in order to bring the circuit to the specifications necessary to accommodate the requested service. If the Circuit Design requires Extension Technology, to bring it up to the design standards, it will be added by Qwest, at no charge. Extension Technology can also be requested by CLEC to meet their specific needs. If Extension Technology is requested by CLEC, but is not required to meet the technical standards, then Qwest will provide the requested Extension Technology and will charge CLEC. Qwest will provision ISDN (BRI) Capable and xDSL-I Loops using the specifications in Qwest Technical Publication 77384 and other applicable Qwest technical publications, if any. Refer to that document for more information. CLEC will be charged an Extension Technology recurring charge in addition to the Unbundled Loop recurring charge, if applicable, as specified in Exhibit A of this Agreement. The ISDN Capable Loop may also require conditioning (e.g., removal of loads or Bridged Taps).

9.2.2.6 For DS1 or DS3 capable Loops, Qwest will provide the necessary electronics at both ends, at the DS1 or DS3 capable Loops rates contained in Exhibit A. In addition, CLEC will have access to these terminations for testing purposes.

9.2.2.6.1 DS1 capable Loops provide a transmission path between a Central Office network interface at a DS1 panel or equivalent in a Qwest serving Central Office and the network interface at the End User Customer location. DS1

capable Loops transport bi-directional DS1 signals with a nominal transmission rate of 1.544 Mbit/s. DS1 capable Loops shall meet the design requirements specified in Qwest Technical Publications 77375 (DS1), 77384 (Unbundled Loops), and other applicable Qwest technical publications, if any. See Section 9.2.1.3.

9.2.2.6.2 DS3 capable Loops provide a transmission path between a Qwest Central Office network interface and an equivalent network interface at an End User Customer location. DS3 capable Loops transport bi-directional DS3 signals with a nominal transmission rate of 44.736 Mbit/s. DS3 capable Loops shall meet the design requirements specified in Qwest Technical Publications 77324 (DS3), 77384 (Unbundled Loops), and other applicable Qwest technical publications, if any. See Section 9.2.1.4.

9.2.2.7 Intentionally Left Blank.

9.2.2.8 Loop Qualification Tools. Qwest offers five (5) Loop qualification tools: the ADSL Loop Qualification Tool, Raw Loop Data Tool, POTS Conversion to Unbundled Loop Tool, MegaBit Qualification Tool, and ISDN Qualification Tool. These and any future Loop qualification tools Qwest develops will provide CLEC access to Loop qualification information in a non-discriminatory manner and will provide CLEC the same Loop qualification information available to Qwest. If the Loop make-up information for a particular facility is not contained in the Loop qualification tools, if the Loop qualification tools return unclear or incomplete information, or if CLEC identifies any inaccuracy in the information returned from the Loop qualification tools, and provides Qwest with the basis for CLEC's belief that the information is inaccurate, then CLEC may request, and Qwest will perform a manual search of the company's records, back office systems and databases where Loop information resides. Qwest will provide CLEC via email, the Loop information identified during the manual search within forty-eight (48) hours of Qwest's receipt of CLEC's request for manual search. The email will contain the following Loop makeup information: composition of the Loop material; location and type of pair gain devices, the existence of any terminals, such as Remote Premises or digital Loop terminals, Bridged Tap, and load coils; Loop length, and wire gauge. In the case of Loops served by Digital Loop Carrier, the email will provide the availability of spare feeder and distribution facilities that could be used to provision service to the Customer, including any spare facilities not connected to the Switch and Loop makeup for such spare facilities. After completion of the investigation, Qwest will load the information into the LFACS database, which will populate this Loop information into the fields in the Loop qualification tools.

CLEC may request an audit of Qwest's company records, back office systems and databases pertaining to Loop information pursuant to Section 18 of this Agreement. In addition to the terms specified in Section 18 the following also applies:

"As used herein, "Audit" shall mean a comprehensive review of Qwest's company records, backoffice systems and databases pertaining to Loop information. CLEC may perform, at its expense, one audit per 12-month period commencing with the effective Date of this Agreement. If Qwest can demonstrate that it has conducted an audit as defined herein within the last 12 months and that the results are satisfactory, the CLEC may request an audit only upon demonstration of need.

9.2.2.8.1 ADSL Loop Qualification Tool. CLEC may use the ADSL Loop Qualification tool to pre-qualify the requested circuit utilizing the existing telephone number or address to determine whether it meets ADSL specifications. The qualification process screens the circuit for compliance with the design requirements specified in Qwest Technical Publication 77384 and other applicable Qwest technical publications, if any.

9.2.2.8.2 Raw Loop Data Tools. Qwest offers two (2) types of Raw Loop Data Tool. If CLEC has a digital certificate, CLEC may access the Wire Center Raw Loop Data Tool via: <http://ecom.qwest.com>. The Wire Center Raw Loop Data Tool provides CLEC the following information: Wire Center CLLI code, cable name, pair name, terminal address, MLT distance, segment (F1, F2), sub-segment (e.g., 1 of F1), segment length, segment gauge, Bridged Taps length by segment, Bridged Taps offset distance, load coil type, and pair gain type. CLEC may also access the IMA Raw Loop Data Tool for Loop specific information. The IMA Raw Loop Data Tool may be accessed through IMA-GUI or IMA-XML. This tool provides CLEC the following information: Wire Center CLLI code, cable name, pair name, terminal address, MLT distance, segment (F1, F2), sub-segment (e.g., 1 of F1), segment length, segment gauge, Bridges Taps length by segment, Bridged Taps offset distance, load coil type, number of loads, and pair gain type.

9.2.2.8.3 POTS Conversion to Unbundled Loop Tool. The POTS Conversion to Unbundled Loop Tool is available to CLECs through IMA-GUI or IMA-XML. This tool informs CLEC whether the facility is copper or pair gain and whether there are loads on the Loop.

9.2.2.8.4 MegaBit Qualification Tool. The MegaBit Qualification Tool is available to CLECs through IMA-GUI or IMA-XML. This tool provides a "yes/no" answer regarding the Loop's ability to support Qwest DSL (formerly MegaBit) service. If the MegaBit Qualification Tool returns a "no" answer, it provides a brief explanation.

9.2.2.8.5 ISDN Qualification Tool. The ISDN Qualification Tool is available to CLECs through IMA-GUI or IMA-XML. This tool permits CLEC to view information on multiple lines and will inform CLEC of the number of lines found. If an ISDN capable Loop is found, the tool identifies the facility and, if applicable, pair gain.

9.2.2.8.6 Upon CLEC request, Qwest shall provide CLEC with the complete results of the most current Mechanized Loop Test ("MLT") Qwest may have previously conducted and retained in the Provisioning of an existing Unbundled Loop. If the requested information exists, Qwest shall provide this information to CLEC via email within forty-eight (48) hours of Qwest's receipt of CLEC's request for this information. Qwest retains the most current MLT results for as long as the Loop remains in service. Qwest continues to retain the most current MLT results for forty-five (45) Days once the Loop is disconnected.

9.2.2.9 The following Provisioning Options are available for Unbundled Loop elements. In addition, CLEC may utilize the Batch Hot Cut Process under the terms and conditions (including the effective date and the term) of the Amendment to the

Interconnection Agreement for Elimination of UNE-P and Implementation of Batch Hot Cut Process and Discounts.

9.2.2.9.1 Basic Installation. Basic Installation may be ordered for new or existing Unbundled Loops. Upon completion, Qwest will call CLEC to notify CLEC that the Qwest work has been completed.

9.2.2.9.1.1 For an existing End User Customer, the Basic Installation option is a "lift and lay" procedure. The Central Office Technician (COT) "lifts" the Loop from its current termination and "lays" it on a new termination connecting to CLEC. There is no associated circuit testing performed.

9.2.2.9.1.2 For new End User Customer service, the Basic Installation option involves the COT and Field Technician (CST/NT) completing circuit wiring and performing the required performance tests to ensure the new circuit meets the required parameter limits. The test results are not provided to CLEC.

9.2.2.9.1.3 For basic installation of existing 2/4 wire analog Loops, Qwest provides a Quick Loop with or without Local Number Portability (LNP) option that enables CLEC to receive the Quick Loop installation interval as set forth in Exhibit C. Quick Loop without LNP installation includes only a simple lift and lay procedure. Quick Loop with LNP installation provides a lift and lay, and the LNP functions. Quick Loop is not available with cooperative testing, coordinated installation, or when unbundling from an IDLC to a copper alternative.

9.2.2.9.2 Basic Installation with Performance Testing. Basic Installation with Performance Testing may be ordered for new or existing Unbundled Loops.

9.2.2.9.2.1 For an existing End User Customer, Basic Installation with Performance Testing is a "lift and lay" procedure. The Central Office Technician (COT) "lifts" the Loop from its current termination and "lays" it on a new termination connecting CLEC. The COT and Implementor/Tester perform the required performance tests to ensure that the new circuit meets required parameter limits.

9.2.2.9.2.2 The Qwest Implementor/Tester will read the test results to CLEC on close-out and email the performance test results within two (2) business days to a single, designated CLEC office email address.

9.2.2.9.2.3 For new End User Customer service, the Basic Installation with Performance Testing option requires a dispatch to the End User Customer premises. This dispatch is included by the non-recurring charge. The COT and Field Technician complete circuit wiring and perform the required performance tests to ensure the new circuit meets the required parameter limits. These test results are read to CLEC by the Qwest Implementor/Tester on close-out. Within two (2) business days, Qwest will email the performance test results to a single, designated CLEC office email address.

9.2.2.9.2.4 If Qwest does not provide test results within the time frames in Sections 9.2.2.9.2.2 and 9.2.2.9.2.3, CLEC may initiate a Billing dispute pursuant to Section 21.8. If the result of such Billing dispute is that Qwest failed to provide the verbal test results within the time frames in Sections 9.2.2.9.2.2 and 9.2.2.9.2.3, Qwest will waive the Basic Installation with Performance Testing charge and instead charge CLEC for Basic Installation.

9.2.2.9.3 Coordinated Installation with Cooperative Testing. Coordinated installation with cooperative testing may be ordered for new or existing service. For both new and existing service, CLEC must designate a specific "Appointment Time" when it submits the LSR. On the Due Date (DD), at the CLEC designated "Appointment Time", the Qwest Implementor/Tester contacts CLEC to ensure CLEC is ready for installation. If Qwest has not contacted CLEC by the designated Appointment Time, CLEC may contact Qwest to initiate the scheduled cut. If CLEC is not ready within thirty (30) minutes of the scheduled appointment time, then CLEC must reschedule the installation by submitting a supplemental LSR for a new Due Date and appointment time. (See Section 9.2.2.9). If Qwest is not ready within thirty (30) minutes of the scheduled appointment time, Qwest will waive the non-recurring charge for the installation option, and the Parties will attempt to set a new appointment for the same day. If Qwest fails to perform cooperative testing due to Qwest's fault, Qwest will waive the non-recurring charge for the installation option. If CLEC still desires cooperative testing, the Parties will attempt to set a new appointment time on the same day and, if unable to do so, Qwest will issue a Qwest Jeopardy notice and a FOC with a new Due Date.

9.2.2.9.3.1 For an existing End User Customer, Coordinated Installation with Cooperative Testing is a "lift and lay" procedure with cooperative testing. The COT completes the installation in the Central Office and performs testing that CLEC requests. Upon completion of Qwest performance testing, the Qwest Implementor/Tester will contact CLEC, read the Qwest test results, and begin CLEC cooperative testing. Within two (2) business days, Qwest will email the Qwest test results to a single, designated CLEC office email address. Qwest will not charge CLEC to test any performance parameter defined in the Qwest Technical Publication 77384, and for any testing covered by the cost support for the applicable non-recurring charge. If CLEC requests further tests, Qwest may charge CLEC the rate in Section 9.20.4 of Exhibit A.

9.2.2.9.3.2 For new End User Customer service, Coordinated Installation with Cooperative Testing may require a dispatch of a technician to the End User Customer premises. This dispatch is included by the non-recurring charge. The COT and Field Technician complete circuit wiring and perform the required performance tests to ensure that the new circuit meets required parameter limits. Upon completion of Qwest performance testing, the Qwest Implementor/Tester will contact CLEC, read the Qwest test results, and begin CLEC cooperative testing. Within two (2) business days, Qwest will email the Qwest test results to a single, designated CLEC office email address. Qwest will not charge CLEC to test any performance parameter defined in the Qwest Technical

Publication 77384, and for any testing covered by the cost support for the applicable non-recurring charge. If CLEC requests further tests, Qwest may charge CLEC the rate in Section 9.20.6 of Exhibit A.

9.2.2.9.4 Coordinated Installation without Cooperative Testing. Coordinated Installation without Cooperative Testing may be ordered for new or existing service. For both new and existing service, CLEC must designate a specific "Appointment Time" when it submits the LSR. On the Due Date (DD), at the CLEC designated "Appointment Time", the Qwest Implementor/Tester contacts CLEC to ensure CLEC is ready for installation. If Qwest has not contacted CLEC by the designated Appointment Time, CLEC may contact Qwest to initiate the scheduled cut. If CLEC is not ready within thirty (30) minutes of the scheduled appointment time, then CLEC must reschedule the installation by submitting a supplemental LSR. (See Section 9.2.2.9). If Qwest is not ready within thirty (30) minutes of the scheduled appointment time, Qwest will waive the non-recurring charge for the installation option and the Parties will attempt to set a new appointment time on the same day and, if unable to do so, Qwest will issue a Qwest Jeopardy notice and a FOC with a new Due Date.

9.2.2.9.4.1 For an existing Unbundled Loop this Coordinated Installation without Cooperative Testing is a "lift and lay" procedure without a dispatch, that offers CLEC the ability to coordinate the conversion activity. The Qwest Implementor advises CLEC when the "lift and lay" procedure is complete.

9.2.2.9.4.2 For new Unbundled Loops, Qwest may dispatch a technician to terminate the new circuit at the End User Customer premises. This dispatch is included by the non-recurring charge. The Field Technician will not remain on the End User Customer premises to perform the coordinated installation once the circuit is in place. The COT completes the installation in the Central Office, and the COT and Implementor/Tester complete the required performance tests to ensure that the new circuit meets required parameter limits. CLEC will not receive test results. When installation is complete, Qwest will notify CLEC.

9.2.2.9.5 Basic Installation with Cooperative Testing. Basic Installation with Cooperative Testing may be ordered for new or existing Unbundled Loops.

9.2.2.9.5.1 For an existing End User Customer, Basic Installation with Cooperative Testing is a "lift and lay" procedure with Cooperative Testing on the Due Date. The COT "lifts" the Loop from its current termination and "lays" it on a new termination connecting to CLEC. Upon completion of Qwest performance testing, the Qwest Implementor/Tester will contact CLEC, read the Qwest test results, and begin CLEC cooperative testing. Within two (2) business days, Qwest will email the Qwest test results to a single, designated CLEC office email address. CLEC and Qwest will perform a Loop back acceptance test, accept the Loop, and exchange demarcation information.

9.2.2.9.5.2 For new End User Customer service, Basic

Installation with Cooperative Testing may require a dispatch to the End User Customer premises. This dispatch is included by the non-recurring charge. The COT and Field Technician complete circuit wiring and perform the required performance tests to ensure the new circuit meets the required parameter limits.

9.2.2.9.5.3 If Qwest fails to perform cooperative testing due to Qwest's fault, Qwest will waive the non-recurring charge for the installation option. If CLEC still desires cooperative testing, the Parties will attempt to set a new appointment time on the same day and, if unable to do so, Qwest will issue a Qwest Jeopardy notice and a FOC with a new Due Date.

9.2.2.9.6 Performance Testing. Qwest will perform the performance testing necessary to assure that the facility meets appropriate performance parameters. This includes the following performance tests for various Loop types.

Interfering Bridged Tap is defined as any amount of Bridged Tap that would interfere with proper performance parameters as defined in this Section 9.2.2.9.6 and applicable industry standards.

2-Wire and 4-Wire Analog Loops

No Opens, Grounds, Shorts, or Foreign Volts

Insertion Loss = 0 to -8.5 dB at 1004 Hz

Automatic Number Identification (ANI) when dial-tone is present

Test for noise

2-Wire and 4-Wire Non-Loaded Loops

No Load Coils, Opens, Grounds, Shorts, or Foreign Volts

Insertion Loss = 0 to -8.5 dB at 1004 Hz

Automatic Number Identification (ANI) when dial-tone is present

Test for noise

Basic Rate ISDN and xDSL-I Capable Loops

No Load Coils/Interfering Bridged Taps, Opens, Grounds, Shorts, or Foreign Volts

Insertion Loss = \leq 40 dB at 40 kHz

Automatic Number Identification (ANI) when dial-tone is present

Acceptance testing shall be performed on an end to end or Network Interface (NI) to Network Interface basis using Errored Second Performance Parameters.

DS1 Capable Loops

No Load Coils/Interfering Bridged Taps, Opens, Grounds, Shorts, or Foreign Volts

Run various patterns to verify Line Code Options, timing, equalization and voltage

DS3 Capable Loops

Continuity Testing

ADSL Compatible Loops

No Load Coils/Interfering Bridged Taps, Opens, Grounds, Shorts, or Foreign Volts

Insertion Loss = ≤ 41 dB at 196 kHz

Automatic Number Identification (ANI) when dial-tone is present

9.2.2.9.7 Project Coordinated Installation: A Project Coordinated Installation permits CLEC to obtain a coordinated installation for Unbundled Loops with or without LNP, where CLEC orders Unbundled DS1 Capable, Unbundled DS3 Capable or twenty five (25) or more DS0 Unbundled Loops. The rates for coordinated installations are set forth in Exhibit A. Where LNP is included, see Section 10.2.5.4 for rate elements.

9.2.2.9.7.1 The date and time for the Project Coordinated Installation requires up-front planning and may need to be negotiated between Qwest and CLEC. All requests will be processed on a first come, first served basis and are subject to Qwest's ability to meet a reasonable demand. Considerations such as system down time, Switch upgrades, Switch maintenance, and the possibility of other CLECs requesting the same FDT in the same Switch (Switch contention) must be reviewed. In the event that any of these situations would occur, Qwest will negotiate with CLEC for an agreed upon FDT, prior to issuing the Firm Order Confirmation (FOC). In special cases where CLEC is ordering Unbundled Loop with LNP, the FDT must be agreed upon, the interval to reach agreement will not exceed two (2) Days from receipt of an accurate LSR. In addition, intervals in Exhibit C will apply.

9.2.2.9.7.2 CLEC shall request a Project Coordinated Installation by submitting an LSR and designating this order as a Project Coordinated Installation in the remarks section of the LSR form.

9.2.2.9.7.3 CLEC will incur additional incremental charges for the Project Coordinated Installation dependent upon the coordinated time.

The rates are based upon whether the request is within Qwest's normal business hours or Out Of Hours. Qwest normal business hours for Unbundled Loops are 8:00 a.m. to 5:00 p.m., Monday through Friday. The rates for incremental charges are set forth in the Miscellaneous Charges Section 9.20.2 of Exhibit A.

9.2.2.9.7.4 Qwest will schedule the appropriate number of employees prior to the cut, normally not to exceed four employees, based upon information provided by CLEC. If the Project Coordinated Installation includes LNP, CLEC will also have appropriate personnel scheduled for the negotiated FDT. If CLEC's information is modified during the installation, and, as a result, non-scheduled employees are required, CLEC shall be charged a three (3) hour minimum callout charge per each additional non-scheduled employee. If the installation is either cancelled, or supplemented (supp) to change the Due Date, within twenty four (24) hours of the negotiated FDT, CLEC will be charged a one person three (3) hour minimum charge set forth in Section 9.20.3 of Exhibit A. For Project Coordinated Installations with LNP, if the Coordinated Installation is cancelled due to a Qwest error or a new Due Date is requested by Qwest, within twenty-four (24) hours of the negotiated FDT, Qwest may be charged by CLEC one person three (3) hour minimum charge as set forth in Exhibit A.

9.2.2.9.7.5 If CLEC orders Project Coordinated Installation with LNP and in the event the LNP conversion is not successful, CLEC and Qwest agree to isolate and fix the problem in a timeframe acceptable to CLEC or the Customer. If the problem cannot be corrected within an acceptable timeframe to CLEC or the Customer, CLEC may request the restoration of Qwest service for the ported Customer. Such restoration shall begin immediately upon request. If CLEC is in error then a supplemental order shall be provided to Qwest. If Qwest is in error, no supplemental order or additional order will be required of CLEC.

9.2.2.9.7.6 If CLEC orders Project Coordinated Installation with LNP, Qwest shall ensure that any LNP order activity requested in conjunction with a Project Coordinated Installation shall be implemented in a manner that avoids interrupting service to the End User Customer.

9.2.2.10 Intentionally Left Blank.

9.2.2.11 Regarding maintaining and modernizing the network, see Section 9.1.9.

9.2.2.12 If there is a conflict between an End User Customer (or its respective agent) and CLEC regarding the disconnection or Provisioning of Unbundled Loops, Qwest will advise the End User Customer to contact CLEC, and Qwest will initiate contact with CLEC.

a) Reserved for Future Use.

b) Reserved for Future Use.

9.2.2.13 Facilities and lines Qwest furnishes on the premises of CLEC's End User Customer up to and including the Loop Demarcation Point are the property of Qwest.

Qwest shall have reasonable access to all such facilities for network management purposes. Qwest will coordinate entry dates and times with appropriate CLEC personnel to accommodate testing, inspection repair and maintenance of such facilities and lines. CLEC will not inhibit Qwest's employees and agents from entering said premises to test, inspect, repair and maintain such facilities and lines in connection with such purposes or, upon termination or cancellation of the Unbundled Loop service, to remove such facilities and lines. Such entry is restricted to testing, inspection, repair and maintenance of Qwest's property in that facility. Entry for any other purpose is subject to audit provisions in the Audit Section of this Agreement.

9.2.2.14 Reserved for Future Use.

9.2.2.15 Reuse of Loop Facilities

9.2.2.15.1 When an End User Customer contacts Qwest with a request to convert their local service from CLEC to Qwest, Qwest may reuse the existing facilities for the service requested by Qwest to the extent those facilities are technically compatible with the service to be provided for conversion activity (i.e., not "new" activity). If Qwest so reuses facilities for Loops with LNP, Qwest will submit an LSR to CLEC indicating a reuse of facilities for Loops on the LSR, notify CLEC of the loss of the End User Customer, and disconnect the Loop that Qwest provided to CLEC on the Due Date set forth in the FOC provided by CLEC. Qwest will disconnect the Loop only where Qwest has obtained proper Proof of Authorization.

9.2.2.15.2 When CLEC contacts Qwest with a request to convert an End User Customer from the End User Customer's original competitive Carrier Switch (old CLEC) to CLEC's Switch (CLEC), CLEC is responsible for notifying old CLEC of the conversion. Qwest will disconnect the Loop Qwest provided old CLEC and, at CLEC request, where technically compatible, will reuse the Loop for the service requested by CLEC (e.g., resale service).

9.2.2.15.3. When CLEC contacts Qwest with a request to convert an End User Customer from Qwest to CLEC, Qwest will reuse the existing Loop facilities for the service requested by CLEC to the extent those facilities are technically compatible with the service to be provided for conversion activity (i.e., not "new" activity on the LSR/ASR). Upon CLEC request, Qwest will condition the existing Loop in accordance with the rates set forth in Exhibit A.

9.2.2.15.4 Upon completion of the disconnection of the Loop, Qwest will send a loss notification report to the original competitive Carrier signifying completion of the loss. If Qwest fails to send a loss notification report as set forth in Section 12.2.5.2.4, Qwest will waive all erroneous charges.

9.2.2.16 Lack of Facilities; Priority Right to Facilities. In the event Qwest notifies CLEC that facilities ordered are not available from Qwest at the time of the order, Qwest shall maintain the order as pending for a period of ninety (90) business days. If facilities become available to fill the order within that ninety (90) business day period, Qwest shall notify the CLEC of such availability. CLEC and Qwest acknowledge that the availability of facilities hereunder is on a first come, first served basis. Any facility orders placed by

any other provider, including Qwest, which predate CLEC's order shall have priority in any facilities made available under the terms of this section.

9.2.2.17 The requirements under Section 9.23.3.7.1 shall not apply to conversions to Unbundled Loop.

9.2.3 Unbundled Loop Rate Elements

The following rates for Unbundled Loops are set forth in Exhibit A of this Agreement.

9.2.3.1 2/4 Wire Analog Loop (Voice Grade) Recurring and Non-recurring rates.

9.2.3.2 2/4 Wire Non-Loaded Loop Recurring and Non-recurring rates.

9.2.3.3 DS1 and DS3 Capable Loop, Basic Rate (BRI) ISDN, ADSL Compatible Loop and xDSL-I Capable Loop Recurring and Non-recurring rates.

9.2.3.3.1 DS0, DS1 and DS3 Capable Loop Conversion Non-recurring rates associated with the conversion of special access or private lines to Unbundled Loops.

9.2.3.4 Extension Technology Recurring rates for Digital Capable Loops, including Basic Rate (BRI) ISDN and xDSL-I Capable Loops, as requested by CLEC.

9.2.3.5 Conditioning Non-recurring rates 2/4 wire non-loaded Loops, Basic Rate (BRI) ISDN, ADSL Compatible Loop and xDSL-I Capable Loop, as requested and approved by CLEC.

9.2.3.6 Miscellaneous Charges, as defined in Sections 4 and 9.1.12, may apply.

9.2.3.7 Out of Hours Coordinated Installations.

9.2.3.7.1 For purposes of service installation, Qwest's installation hours are 8:00 a.m. to 5:00 p.m., Monday through Friday.

9.2.3.7.2 For coordinated installations scheduled to commence Out of Hours, or rescheduled by CLEC to commence Out of Hours, CLEC will incur additional charges for the Out of Hours coordinated installation as set forth in Exhibit A. Other than under Section 10.2 (LNP), Qwest will not request Out of Hours Coordinated Installations.

9.2.3.8 Design Change rates for Unbundled Loops. Rates are interim, subject to true-up.

9.2.3.9 Rates for Connecting Facility Assignment ("CFA") changes (unless the need for such change is caused by Qwest, in which case this rate does not apply). Rates are interim, subject to true-up.

9.2.4 Unbundled Loop Ordering Process

9.2.4.1 Unbundled Loops are ordered via an LSR. Ordering processes are contained in Section 12 of this Agreement.

9.2.4.2 See Section 5.3 regarding Proof of Authorization.

9.2.4.3 Based on the pre-order Loop make-up, CLEC can determine if the circuit can meet the technical parameters for the specific service CLEC intends to offer. If CLEC uses Qwest's Loop make-up tool and Qwest's pre-order Loop make-up information shows the circuit meets the technical parameters, when the facility does not, Qwest will provide a facility to CLEC (if facilities are available as described in Section 19). Qwest will correct the information in the tool.

9.2.4.3.1 Before submitting an order for a 2/4 wire non-loaded Loop, ADSL compatible Loop, ISDN capable Loop or xDSL-I capable Loop, CLEC may use one of Qwest's Loop make-up tools available via IMA-XML, IMA-GUI, or the web-based application interface to obtain specific information about the Loop CLEC seeks to order.

9.2.4.3.1.1 Based on the Loop make up information provided through Qwest tools, CLEC may determine whether conditioning is required to provide the xDSL service it intends to offer. If Loop conditioning is required, CLEC may authorize Qwest to perform such Loop conditioning on its LSR. If CLEC does not pre-approve Loop conditioning, Qwest will assume that CLEC has determined that Loop conditioning is not necessary to provide the xDSL service CLEC seeks to offer. If CLEC or Qwest determines that conditioning is necessary, and CLEC authorizes Qwest to perform the conditioning, Qwest will perform the conditioning. CLEC will be charged for the conditioning in accordance with the rates in Exhibit A. If Qwest determines that conditioning is necessary and CLEC has not previously authorized Qwest to perform the conditioning on the LSR, Qwest will send CLEC a rejection notice indicating the need to obtain approval for conditioning. The CLEC must submit a revised LSR before the conditioning work will commence. Once Qwest receives the revised LSR, the fifteen (15) business day conditioning interval will begin as described in Section 9.2.4.9.

9.2.4.3.1.2 For a 2/4 wire non-loaded Loop, ADSL compatible Loop, ISDN capable Loop, xDSL-I capable Loop, or DS1 capable Loop, Qwest will return a Firm Order Confirmation (FOC) to CLEC within seventy-two (72) hours from receipt of a valid and accurate LSR. Return of such FOC will indicate that Qwest has identified a Loop assignment. Such FOC will provide CLEC with a firm Due Date commitment or indication that appropriate facilities are not available to fill CLEC's order.

9.2.4.3.1.2.1 If CLEC has pre-approved Loop conditioning, and conditioning is not necessary, Qwest will return the FOC with the interval in Exhibit C (i.e., five (5) Days).

9.2.4.3.1.2.2 If CLEC has not pre-approved Loop conditioning and Qwest determines that the Loop requires conditioning, Qwest will notify CLEC via a reject notification. CLEC must submit a new version of the LSR approving Loop conditioning. In this scenario, the Application Date will correspond to date the new version is received by Qwest. If Qwest pre-order

Loop make-up information indicated that no conditioning was required, Qwest will correct the information in its databases/tools.

9.2.4.3.1.2.3 Reserved for Future Use.

9.2.4.3.1.2.4 Reserved for Future Use.

9.2.4.4 Installation intervals for all Unbundled Loops are defined in Exhibit C. The interval will start when Qwest receives a complete and accurate LSR. The LSR date is considered the start of the service interval if the order is received prior to 7:00 p.m. For service requests received after 7:00 p.m., the service interval will begin on the next business day.

9.2.4.4.1 When CLEC places an order for an Unbundled Loop with Qwest that is complete and accurate, Qwest will reply to CLEC with a Firm Order Confirmation within the time specified in Section 20. The Firm Order Confirmation will contain the Due Date that specifies the date on which Qwest will provision the Loop. Qwest will ensure the accuracy of the commitment date. If Qwest must make changes to the commitment date, Qwest will promptly issue a Qwest Jeopardy notification to CLEC that will clearly state the reason for the change in commitment date. Qwest will also submit a new Firm Order Confirmation that will clearly identify the new Due Date.

9.2.4.5 Installation intervals for Unbundled Loops apply when Qwest has facilities or network capacity available.

9.2.4.6 Upon CLEC request, Qwest will convert special access or private line circuits to Unbundled Loops, with or without multiplexing, provided the service originates at the CLEC Collocation in the Serving Wire Center. If multiplexing is not involved, then the Loop conversion ordering process applies. However, if the conversion includes multiplexing, then the ordering process associated with the conversion to EELs applies. The requirements with respect to providing a significant amount of local exchange traffic under Section 9.23.3.7 shall not apply to conversions to Unbundled Loop.

9.2.4.7 Reserved for Future Use.

9.2.4.8 When ordering Unbundled Loops, CLEC is responsible for obtaining or providing facilities and equipment that are compatible with the service CLEC seeks to provide.

9.2.4.9 The installation interval for xDSL Loops depends on the need to condition the Loop.

9.2.4.9.1 CLEC may request the Due Date interval in Exhibit C, which will apply when no line conditioning is required. CLEC may determine the existence of load coils or Bridged Taps by using one of the Loop make-up tools. CLEC may pre-approve line conditioning on the LSR and, by doing so, CLEC agrees to pay any applicable conditioning charges. If line conditioning is required, Qwest will notify CLEC on the FOC that the Due Date may be up to fifteen (15) business days. If CLEC did not pre-approve line conditioning on the LSR and Qwest determines that conditioning is required, then the fifteen (15) business day

interval starts when the need for conditioning is identified and CLEC approves the conditioning charges.

9.2.4.10 Out of Hours Coordinated Installations.

9.2.4.10.1 For purposes of this Section, Qwest's normal installation hours are 8:00 a.m. to 5:00 p.m., Monday through Friday. If Qwest commences an installation during these hours, Qwest will complete the installation the same day with no Out of Hours charges. Installations requested to commence outside of these hours are considered to be Out of Hours Installations.

9.2.4.10.1.1 Installations requested by CLEC to occur within normal installation hours, but performed or completed out of hours are not considered Out of Hours Coordinated Installations.

9.2.4.10.2 CLEC may request an Out of Hours Coordinated Installation outside of Qwest's normal installation hours.

9.2.4.10.2.1 Other than under Section 10.2 (LNP), Qwest will not request Out of Hours Coordinated Installations.

9.2.4.10.3 To request Out of Hours Coordinated Installations, CLEC will submit an LSR designating the desired appointment time. CLEC must specify an Out of Hours Coordinated Installation in the Remarks section of the LSR.

9.2.4.10.4 The date and time for Out of Hours Coordinated Installations may need to be negotiated between the Parties because of system downtime, Switch upgrades, Switch maintenance, and the possibility of other Carriers requesting the same appointment times in the same Switch (Switch contention).

9.2.4.11 Regarding ordering of High Capacity Loops, see Section 9.1.13.

9.2.5 Unbundled Loop Maintenance and Repair

9.2.5.1 CLEC is responsible for its own End User Customer base and will have the responsibility for resolution of any service trouble report(s) from its End User Customers pursuant to Section 12. CLEC will perform trouble isolation on the Unbundled Loop and any associated ancillary services prior to reporting trouble to Qwest. CLEC shall have access for testing purposes at the NID or Loop Demarcation Point. Qwest will work cooperatively with CLEC to resolve trouble reports when the trouble condition has been isolated and found to be within a portion of Qwest's network. Qwest and CLEC will report trouble isolation test results to the other. For Unbundled Loops, each Party shall be responsible for the costs of performing trouble isolation on its facilities, subject to Sections 9.2.5.2 and 9.2.5.3.

9.2.5.2 When CLEC requests that Qwest perform trouble isolation with CLEC, a Maintenance of Service Charge will apply when Qwest dispatches a technician and the trouble is found to be on the End User Customer's side of the Loop Demarcation Point. If the trouble is on the End User Customer's side of the Loop Demarcation Point, and CLEC authorizes Qwest to repair the trouble on CLEC's behalf, Qwest will charge CLEC

the appropriate Additional Labor Charges and Maintenance of Service Charge, if any, as set forth in Exhibit A at 9.20. No charges shall apply if CLEC provides Qwest with test results indicating trouble in Qwest's network and Qwest confirms that such trouble is in Qwest's network. In the event that Qwest reports no trouble found in its network on a trouble ticket and it is subsequently determined that the reported trouble is in Qwest's network, then Qwest will waive or refund to CLEC any Maintenance of Service Charges assessed to CLEC for that same trouble ticket. If Qwest reported no trouble found in its network but, as a result of a repeat trouble (accepted trouble), CLEC demonstrates that the trouble is in Qwest's network, CLEC will charge Qwest a trouble isolation charge as described in Section 12.4.1.8.

9.2.5.2.1 Upon request by either Party, CLEC and Qwest will schedule a joint repair appointment. CLEC and Qwest technicians will meet at the agreed upon location at the scheduled time. If the Qwest technician does not show up at, or within thirty minutes following, the scheduled time, and trouble is found to be in the Qwest network, Qwest will credit CLEC the Maintenance of Service Charge, if any, as set forth in Exhibit A at 9.20, or CLEC's actual cost for the dispatch, whichever is less. If the CLEC technician does not show up at, or within thirty minutes following, the scheduled time and the trouble is found to be in CLEC's network, Qwest will charge, and CLEC will not dispute, the Maintenance of Service and Dispatch charges, if any, as set forth in Exhibit A at 9.20, associated with that technician dispatch.

9.2.5.3 When CLEC elects not to perform trouble isolation and Qwest dispatches to perform tests on the Unbundled Loop at CLEC's request, a Maintenance of Service Charge shall apply if the trouble is not in Qwest's facilities. Maintenance and Repair processes are set forth in Section 12.3 of this Agreement. Maintenance of Service Charges are set forth in Exhibit A.

9.2.5.4 Qwest will maintain detailed records of trouble reports of CLEC-ordered Unbundled Loops comparing CLEC provided data with internal data, and evaluate such reports on at a minimum of a quarterly basis to determine the cause of Loop problems. Qwest will conduct a quarterly root cause analysis of problems associated with UNE Loops provided to CLECs by Qwest. Based on this analysis, Qwest will take corrective measure to fix persistent and recurrent problems, reporting to CLECs on the analysis and the process changes that are implemented to fix the problems.

9.2.5.5 Qwest shall allow access to the NID for testing purposes where access at the Demarcation Point is not adequate to allow testing sufficient to isolate troubles; in the event that Qwest chooses not to allow such access, Qwest must conduct the testing and it shall waive any trouble isolation and dispatch charges that may otherwise be applicable.

9.2.6. Spectrum Management

9.2.6.1 Qwest will provide 2/4 Wire non-loaded Loops, ADSL compatible Loops, ISDN capable Loops, xDSL-I capable Loops, DS1 capable Loops and DS3 capable Loops (collectively referred to in this Section 9.2.6 as "xDSL Loops") in a non-discriminatory manner to permit CLEC to provide Advanced Services to its End User Customers. Such Loops are defined herein and are in compliance with FCC requirements and guidelines recommended by the Network Reliability and

Interoperability Council (NRIC) to the FCC, such as guidelines set forth in T1-417.

9.2.6.2 When ordering xDSL Loops, CLEC will provide Qwest with appropriate information using NC/NCI codes to describe the Power Spectral Density Mask (PSD) for the type of technology CLEC will deploy. If CLEC notifies Qwest a service is significantly degrading the performance of other Advanced Services or traditional voice band services on one of its facilities, within forty-eight (48) hours Qwest will provide CLEC with binder group information including cable, pair, Carrier, NC/NCI Code information and PSD class to allow CLEC to notify the causing Carrier of the problem. Such information provided by Qwest shall be considered Confidential Information pursuant to Section 5.16 of this Agreement. CLEC also agrees to notify Qwest of any change in Advanced Services technology that results in a change in spectrum management class on the xDSL Loop. Qwest agrees CLEC need not provide the speed or power at which the newly deployed or changed technology will operate if the technology fits within a generic PSD mask. Information provided by CLEC pursuant to this Section 9.2.6.2 shall be deemed Confidential Information pursuant to Section 5.16 of this Agreement.

9.2.6.3 If CLEC wishes to deploy new technology not yet designated with a PSD mask, Qwest and CLEC agree to work cooperatively to determine Spectrum Compatibility. Qwest and CLEC agree, as defined by the FCC, that technology is presumed acceptable for deployment when it complies with existing industry standards, is approved by a standards body or by the FCC or Commission, or if technology has been deployed elsewhere without a “significant degradation of service”.

9.2.6.4 Qwest recognizes that the analog T1 service traditionally used within its network is a “known Disturber” as designated by the FCC. Qwest will place such T1s, by whoever employed, within Binder Groups in a manner that minimizes interference. Where such placement is insufficient to eliminate interference that disrupts other services being provided, Qwest shall, whenever it is Technically Feasible, replace its T1 technology with a technology that will eliminate undue interference problems. Qwest also agrees that any future “known Disturber” defined by the FCC or the Commission will be managed as required by FCC or Commission rules and orders and industry standards.

9.2.6.5 If either Qwest or CLEC claims a service is significantly degrading the performance of other Advanced Services or traditional voice band services, then that Party must notify the causing Carrier and allow the causing Carrier a reasonable opportunity to correct the problem. Upon notification, the causing Carrier shall promptly take action to bring its facilities/technology into compliance with industry standards. Upon request, within forty-eight (48) hours, Qwest will provide CLEC with binder group information including cable, pair, Carrier and PSD class to allow CLEC to notify the causing Carrier.

9.2.6.6 If CLEC is unable to isolate trouble to a specific pair within the binder group, Qwest, upon receipt of a trouble resolution request, will perform a main frame pair by pair analysis and provide results to CLEC within five (5) business days.

9.2.6.7 Reserved for Future Use.

9.2.6.8 Qwest will not have the authority to unilaterally determine what Advanced Services technologies may be deployed or to resolve any dispute over

spectral interference among Carriers. Notwithstanding any other provision herein, Qwest shall not disconnect Carrier services to resolve a spectral interference dispute, except when voluntarily undertaken by the interfering Carrier or Qwest is ordered to do so by a Commission or other authorized dispute resolution body. CLEC may submit any claims for resolution under Section 5.18 of this Agreement.

9.2.6.9 A CLEC that has deployed any Central Office based xDSL service that meets the requirements set forth in Sections 9.2.6.2 or 9.2.6.3 shall be entitled to require Qwest to take appropriate measures to mitigate the demonstrable adverse effects on such service that arise from Qwest's use of repeaters or remotely deployed DSL service in that area.

9.3 Subloop Unbundling

9.3.1 Description

9.3.1.1 An Unbundled Subloop is defined as the distribution portion of a copper Loop or hybrid Loop comprised entirely of copper wire or copper cable that acts as a transmission facility between any point that it is Technically Feasible to access at terminals in Qwest's outside plant (originating outside of the Central Office), including inside wire owned or controlled by Qwest, and terminates at the End User Customer's premises. An accessible terminal is any point on the Loop where technicians can access the wire or fiber within the cable without removing a splice case to reach the wire or fiber within. Such points may include, but are not limited to, the pole, pedestal, Network Interface Device, minimum point of entry, single Point of Interconnection, Remote Terminal, Feeder Distribution Interface (FDI), or Serving Area Interface (SAI). CLEC shall not have access on an unbundled basis, under this Agreement, to a feeder Subloop defined as facilities extending from the Central Office to a terminal that is not at the End User Customer's premises or multiple tenant environment (MTE). CLEC shall have access, under this Agreement, to the fiber feeder plant only to the extent it is necessary to provide a complete transmission path between the Central Office and the End User Customer's premises or MTE.

9.3.1.1.1 Building terminals within or physically attached to a privately owned building in a Multi-Tenant Environment (MTE) are one form of accessible terminal. Throughout Section 9.3 the Parties obligations around such "MTE terminals" are segregated because Subloop terms and conditions differ between MTE environments and non-MTE environments.

9.3.1.1.2 For any configuration not specifically addressed in this Agreement, the conditions of CLEC access shall be as required by the particular circumstances. These conditions include: (1) the degree of equipment separation required, (2) the need for separate cross-connect devices, (3) the interval applicable to any Collocation or other Provisioning requiring Qwest performance or cooperation, (4) the security required to maintain the safety and reliability of the facilities of Qwest and other CLECs, (5) the engineering and operations standards and practices to be applied at Qwest facilities where they are also used by CLECs for Subloop element access, and (6) any other requirements, standards, or practices necessary to assure the safe and reliable operation of all Carriers' facilities.

9.3.1.1.3 Any Party may request, under any procedure provided for by this Agreement, for addressing non-standard services or network conditions, the development of standard terms and conditions for any configuration(s) for which it can provide reasonably clear technical and operational characteristics and parameters. Once developed through such a process, those terms and conditions shall be generally available to any CLEC for any configuration fitting the requirements established through such process.

9.3.1.1.4 Prior to the development of such standard terms and conditions, Qwest shall impose in the six (6) areas identified in Section 9.3.1.1.2 above, only those requirements or intervals that are reasonably necessary.

9.3.1.1.4.1 MTE Terminals: Accessible terminals within a Building in a MTE environment or accessible terminals physically attached to a Building in a MTE environment. Qwest Premises located on real property that constitutes a campus environment, yet are not within or physically attached to a non-Qwest owned building, are not considered MTE Terminals.

9.3.1.1.4.2 Detached Terminals: All accessible terminals other than MTE Terminals.

9.3.1.2 Standard Subloops available.

- a) Two-Wire/Four Wire Unbundled Distribution Loop
- b) Regarding fiber feeder plant, see Section 9.3.1.1. See also Section 9.2.1.6 regarding Hybrid Loops.
- c) Two-Wire/Four Wire Non-loaded Distribution Loop
- d) Intrabuilding Cable Loop

9.3.1.3 Standard Subloop Access

9.3.1.3.1 Accessing Subloops in Detached Terminals: Subloop Unbundling is available after a CLEC requested Field Connection Point (FCP) has been installed within or adjacent to the Qwest accessible terminal. The FCP is a Demarcation Point connected to a terminal block from which Cross Connections are run to Qwest Subloop elements.

9.3.1.3.2 Accessing Subloops in MTE Terminals: Subloop Unbundling is available after CLEC has notified Qwest of its intention to Subloop unbundle in the MTE, during or after an inventory of CLEC's terminations has been created, and CLEC has constructed a cross-connect field at the Building terminal.

9.3.1.3.2.1 Reserved for Future Use.

9.3.1.3.2.2 Reserved for Future Use.

9.3.1.4 Field Connection Point

9.3.1.4.1 Field Connection Point (FCP) is a Demarcation Point that allows CLEC to interconnect with Qwest where it is Technically Feasible outside of the Central Office location. The FCP interconnects CLEC facilities to a terminal block within the accessible terminal (e.g., FDI/SAI). The terminal block allows a Qwest technician to access and combine Unbundled Subloop elements. When a FCP is required, it must be in place before Subloop orders are processed.

9.3.1.4.2 A FCP within a Qwest accessible terminal creates a cross-connect field to support Subloop unbundling.

9.3.1.4.2.1 The terms, conditions, intervals and rates for FCP are found within section 9.3.

9.3.1.4.2.2 Placement of CLEC's equipment in a Qwest Premise that requires power and or heat dissipation is governed by the Terms of Section 8 and does not constitute a FCP.

9.3.1.4.3 A FCP arrangement can be established either within a Qwest accessible terminal, or, if space within the accessible terminal is legitimately exhausted and when Technically Feasible, the FCP may be placed in an adjacent terminal. CLEC will have physical access to the splice points at Qwest's accessible terminal (e.g., FDI/SAI), when accompanied by a Qwest technician. Such access is only for the purpose of Maintenance and Repair.

9.3.1.5 MTE Point of Interconnection (MTE-POI)

9.3.1.5.1 A MTE-POI is necessary when CLEC is obtaining access to the Distribution Loop or Intrabuilding Cable Loop from an MTE Terminal. CLEC must create the cross-connect field at the Building terminal that will allow CLEC to connect its facilities to Qwest's Subloops. The Demarcation Point between CLEC and Qwest's facilities is the MTE-POI.

9.3.1.6 Once a state has determined that it is Technically Feasible to unbundle Subloops at a designated accessible terminal, Qwest shall either agree to unbundle at such access point or shall have the burden to demonstrate, pursuant to the dispute resolution provisions of this Agreement, that it is not Technically Feasible, or that sufficient space is not available to unbundle Subloop elements at such accessible terminal.

9.3.1.7 Qwest shall provide access to additional Subloop elements (e.g., copper feeder) to CLEC where facilities are available pursuant to the Special Request Process in Exhibit F.

9.3.1.8 Collocation is not required to access Subloops used to access the network infrastructure within multiunit premises. CLEC may access these Subloops at any Technically Feasible terminal point at or near the building in any Technically Feasible manner.

9.3.2 Standard Subloops Available

9.3.2.1 Distribution Loops

9.3.2.1.1 Two-Wire/Four-Wire Unbundled Distribution Loop: a Qwest provided facility from the Qwest accessible terminal to the Demarcation Point or Network Interface Device (NID) at the End User Customer location. The Two-Wire/Four-Wire Unbundled Distribution Loop is suitable for local exchange-type services. CLEC can obtain access to this unbundled element at any Technically Feasible accessible terminal.

9.3.2.1.2 Two-Wire/Four-Wire Non-Loaded Distribution Loop: a Qwest provided facility without load coils and excess Bridged Taps from the Qwest accessible terminal to the Demarcation Point or Network Interface Device (NID) at the End User Customer location. When CLEC requests a Non-Loaded Unbundled Distribution Loop and there are none available, Qwest will contact CLEC to determine if CLEC wishes to have Qwest unload a Loop. If the response is affirmative, Qwest will dispatch a technician to "condition" the Distribution Loop by removing load coils and excess Bridged Taps (i.e., "unload" the Loop). CLEC may be charged the cable unloading and Bridged Taps removal non-recurring charge in addition to the Unbundled Loop installation non-recurring charge. If a Qwest technician is dispatched and no load coils or Bridged Taps are removed, the non-recurring conditioning charge will not apply. CLEC can obtain access to this unbundled element at any Technically Feasible accessible terminal.

9.3.2.1.3 Intrabuilding Cable Loop: a Qwest provided facility from the building terminal inside a MTE to the Demarcation Point at the End User Customer premises inside the same Building. This Subloop element only applies when Qwest owns the intrabuilding cable. If Qwest does not own the intrabuilding cable, CLEC has the right to access such cable directly from the property manager or owner. Access to the Qwest NID will be in accordance with Section 9.5.2.3.

9.3.2.1.4 To the extent CLEC accesses Subloop in a campus environment from an accessible terminal that serves multiple Buildings, CLEC can access these Subloops by ordering a Distribution Loop pursuant to either Section 9.3.2.1.1 or 9.3.2.1.2. A campus environment is one piece of property, owned by one Person or entity, on which there are multiple Buildings.

9.3.2.2 Intentionally Left Blank.

9.3.3 MTE Terminal Subloop Access General Terms

9.3.3.1 Access to Distribution Loops or Intrabuilding Cable Loops at an MTE Terminal within a non-Qwest owned MTE is done through an MTE-POI. Collocation is not required to access Subloops used to access the network infrastructure within an MTE, unless CLEC requires the placement of equipment in a Qwest Premises. Cross-Connect Collocation, as defined in Section 9.3, refers to creation of a cross connect field and does not constitute Collocation as defined in Section 8. The terms and conditions of Section 8 do not apply to Cross-Connect Collocation if required at or near an MTE.

9.3.3.2 To obtain such access, CLEC shall complete the “MTE-Access Ordering Process” set forth in Section 9.3.5.4.

9.3.3.3 The optimum point and method to access Subloop elements will be determined during the MTE Access Ordering Process. The Parties recognize a mutual obligation to interconnect in a manner that maintains network integrity, reliability, and security. CLEC may access the MTE Terminal as an access point.

9.3.3.4 CLEC will work with the MTE Building owner to determine where to terminate its facilities within the MTE. CLEC will be responsible for all work associated with bringing its facilities into and terminating the facilities in the MTE. CLEC shall seek to work with the Building owner to create space for such terminations without requiring Qwest to rearrange its facilities.

9.3.3.5 If there is space in the Building for CLEC to enter the Building and terminate its facilities without Qwest having to rearrange its facilities, CLEC must seek to use such space. In such circumstances, an inventory of CLEC’s terminations within the MTE shall be input into Qwest’s systems to support Subloop orders before Subloop orders are provisioned or in conjunction with the first Subloop order in the MTE. Qwest shall have five (5) Days from receipt of a written request from CLEC, in addition to the interval set forth in Section 9.3.5.4.1, to input the inventory of CLEC’s terminations into its systems. Qwest may seek an extended interval if the work cannot reasonably be completed within the stated interval. In such cases, Qwest shall provide written notification to CLEC of the extended interval Qwest believes is necessary to complete the work. CLEC may dispute the need for, and the duration of, an extended interval, in which case Qwest must request a waiver from the Commission to obtain the extended interval. If CLEC submits a Subloop order before Qwest inputs the inventory into its systems, Qwest shall process the order in accord with Section 9.3.5.4.1.

9.3.3.6 If CLEC connects Qwest’s Subloop element to CLEC’s facilities using any temporary wiring or cut-over devices, CLEC shall remove any remaining temporary wiring or cut-over devices and install permanent wiring within ninety (90) Days. All wiring arrangements, temporary and permanent, must adhere to the National Electric Code.

9.3.3.7 If there is no space for CLEC to place its Building terminal or no accessible terminal from which CLEC can access such Subloop elements, and Qwest and CLEC are unable to negotiate a reconfigured Single Point of Interconnection (SPOI) to serve the MTE, Qwest will either rearrange facilities to make room for CLEC or construct a single point of access that is fully accessible to and suitable for CLEC. Qwest’s obligation to construct a SPOI is limited to those MTEs where Qwest has distribution facilities to that MTE and owns, controls, or leases the inside wire at the MTE, including the intrabuilding cable Subloop, if any, at such premises. In addition, Qwest shall have an obligation to build a SPOI for MTE only when CLEC indicates that it intends to place an order for access to an unbundled Subloop Network Element via a SPOI. In such instances, CLEC shall pay the applicable charge(s), identified in Exhibit A, which shall be ICB (unless the Commission establishes a different rate), based on the scope of the work required.

9.3.3.7.1 If Qwest must rearrange its MTE Terminal to make space for CLEC, Qwest shall have forty-five (45) Days from receipt of a written request

from CLEC to complete the rearrangement. Qwest may seek an extended interval if the work cannot reasonably be completed within forty-five (45) Days. In such cases, Qwest shall provide written notification to CLEC of the extended interval Qwest believes is necessary to complete the work. CLEC may dispute the need for, and the duration of, an extended interval, in which case Qwest must request a waiver from the Commission to obtain an extended interval.

9.3.3.7.2 If Qwest must construct a new detached terminal that is fully accessible to and suitable for CLEC, the interval for completion shall be negotiated between the Parties on an Individual Case Basis, but shall be no more than ninety (90) Days unless agreed to by CLEC.

9.3.3.7.3 CLEC may cancel a request to construct an MTE-POI or SPOI prior to Qwest completing the work by submitting a written notification via certified mail to its Qwest account manager. CLEC shall be responsible for payment of necessary costs previously incurred by Qwest as well as costs necessary to restore the property to its original condition.

9.3.3.8 At no time shall either Party rearrange the other Party's facilities within the MTE or otherwise tamper with or damage the other Party's facilities within the MTE. This does not preclude normal rearrangement of wiring or jumpers necessary to connect inside wire or intrabuilding cable to CLEC facilities in the manner described in the MTE Access Protocol. If such damage accidentally occurs, the Party responsible for the damage shall immediately notify the other and shall be financially responsible for restoring the facilities and/or service to its original condition. Any intentional damage may be reported to the proper authorities and may be prosecuted to the full extent of the law.

9.3.3.8.1 For those locations where CLEC is serving Customers, Qwest shall provide CLEC notice that an agreement has been reached with the Building owner to move the Demarcation Point in the owner's MTE to the minimum point of entry. The Qwest notice will provide the timeframe for when the Demarcation Point will be moved to the minimum point of entry. Qwest shall provide such notice within ten (10) business days after the agreement has been reached.

9.3.3.8.2 CLEC shall have the option of moving its service to the newly established Demarcation Point or negotiating with the Building owner connecting to the wiring as previously provided. Qwest shall make the appropriate Billing adjustments as of the date a newly established Demarcation Point is active.

9.3.3.8.3 If CLEC elects to move its service to the new minimum point of entry, CLEC may either perform its own cross-connect or request that Qwest perform the cross-connect. If Qwest performs the cross-connect appropriate time and material charges are applicable.

9.3.4 Detached Terminal Subloop Access General Terms

9.3.4.1 With the exception of an MTE Terminal, Unbundled Subloop elements are accessed at an FCP through an accessible terminal. However, if power and/or heat dissipation are required, a Remote Collocation request should be submitted pursuant to Section 8 of this Agreement.

9.3.4.2 To the extent that the accessible terminal does not have adequate capacity to house the network interface associated with the FCP, Qwest will place the FCP in an adjacent terminal when Technically Feasible.

9.3.4.2.1 Reserved for Future Use.

9.3.4.3 Field Connection Point

9.3.4.3.1 Qwest is not required to build additional space for CLEC to access Subloop elements. When Technically Feasible, Qwest shall allow CLEC to construct its own structure adjacent to Qwest's accessible terminal. CLEC shall obtain any necessary authorizations or rights of way required (which may include obtaining access to Qwest rights of way, pursuant to section 10.8 of this Agreement) and shall coordinate its facility placement with Qwest, when placing their facilities adjacent to Qwest facilities. Obstacles that CLEC may encounter from cities, counties, electric power companies, property owners and similar third parties, when it seeks to interconnect its equipment at Subloop access points, will be the responsibility of CLEC to resolve with the municipality, utility, property owner or other third party.

9.3.4.3.2 The optimum point and method to access Subloop elements will be determined during the FCP process. The Parties recognize a mutual obligation to interconnect in a manner that maintains network integrity, reliability, and security.

9.3.4.3.3 CLEC must identify the size and type of cable that will be terminated in the Qwest FCP location. Qwest will terminate the cable in the Qwest accessible terminal if termination capacity is available. If termination capacity is not available, Qwest will expand the FDI at the request of CLEC if Technically Feasible, all reconfiguration costs to be borne by CLEC. In this situation only, Qwest shall seek to obtain any necessary authorizations or rights of way required to expand the terminal. It will be the responsibility of Qwest to seek to resolve obstacles that Qwest may encounter from cities, counties, electric power companies, property owners and similar third parties. The time it takes for Qwest to obtain such authorizations or rights of way shall be excluded from the time Qwest is expected to provision the FCP. CLEC will be responsible for placing the cable from the Qwest FCP to its equipment. Qwest will perform all of the initial splicing at the FCP.

9.3.4.3.4 CLEC may cancel a FCP request prior to Qwest completing the work by submitting a written notification via certified mail to its Qwest account manager. CLEC shall be responsible for payment of all costs previously incurred by Qwest.

9.3.4.3.5 If the Parties are unable to reach an agreement on the design of the FCP through the FCP Process, the Parties may utilize the Dispute Resolution process pursuant to the Terms and Conditions Dispute Resolution Section. Alternatively, CLEC may seek arbitration under Section 252 of the Act with the Commission, wherein Qwest shall have the burden to demonstrate that there is insufficient space in the accessible terminal to accommodate the FCP, or that the requested Interconnection is not Technically Feasible.

9.3.4.4 At no time shall either Party rearrange the other Party's facilities within the accessible terminal or otherwise tamper with or damage the other Party's facilities. If such damage accidentally occurs, the Party responsible for the damage shall immediately notify the other and shall be financially responsible for restoring the facilities and/or service to its original condition. Any intentional damage may be reported to the proper authorities and may be prosecuted to the full extent of the law.

9.3.5 Subloop Unbundling Ordering Process

9.3.5.1 All Subloop Types

9.3.5.1.1 Subloop elements are ordered via an LSR, pursuant to Section 12.

9.3.5.1.2 CLEC shall identify Subloop elements by NC/NCI codes.

9.3.5.2 Additional Terms for Detached Terminal Subloop Access

9.3.5.2.1 CLEC may only submit orders for Subloop elements after the FCP is in place. The FCP shall be ordered pursuant to Section 9.3.5.5. CLEC will populate the LSR with the termination information provided at the completion of the FCP process.

9.3.5.2.2 Qwest shall dispatch a technician to run a jumper between its Subloop elements and CLEC's facilities. CLEC shall not at any time disconnect Qwest facilities or attempt to run a jumper between its facilities and Qwest's Subloop elements without specific written authorization from Qwest.

9.3.5.2.3 Once the FCP is in place, the Subloop Provisioning intervals contained in Exhibit C shall apply.

9.3.5.3 Reserved for Future Use.

9.3.5.4 Additional Terms for MTE Terminal Subloop Access - MTE-Access Ordering Process

9.3.5.4.1 CLEC may elect to ask the MTE owner whether it owns or controls on-premises wiring at an MTE. If the owner fails to claim or disclaims ownership of such on-premises wiring or if CLEC elects not to ask such MTE owner, CLEC shall request that Qwest make a determination of whether Qwest owns or controls the on-premises wiring ("an MTE Ownership Request"). CLEC shall make an MTE Ownership Request no later than ten (10) Days before CLEC begins construction of facilities to provide local services at an MTE. Qwest shall reply to an MTE Ownership Request within (a) ten (10) Days, if CLEC's request is the first request for access at such MTE or (b) two (2) business days, if Qwest has previously confirmed ownership or control of wiring at such MTE. In the event CLEC provides Qwest with a written claim by an MTE owner, or authorized Person thereof, that such owner owns the facilities on the End User Customer side of the terminal, the ten (10) Day period shall be reduced to five (5) Days from Qwest's receipt of such claim. Qwest's investigation into its ownership and control of on-premises wiring and Qwest's reply to the MTE Ownership Request

shall be at no cost to CLEC.

9.3.5.4.1.1 If Qwest fails to respond to an MTE Ownership Request, or fails to make a determination of ownership or control of on-premises wiring as provided in Section 9.3.5.4.1 above within ten (10) Days after CLEC submits an MTE Ownership Request, or if ownership or control of on-premises wiring is otherwise unclear or disputed, Qwest will not prevent or in any way delay the CLEC's use of the on-premises wiring to meet an End User Customer request for service. After CLEC has commenced use of the on-premises wiring and if Qwest demonstrates that the facility used by CLEC is on-premises wiring, or such determination is made pursuant to Dispute Resolution, CLEC will compensate Qwest for the use of such on-premises wiring, according to rates set forth in this Agreement, on a retroactive basis from the date of when Qwest demonstrates compliance with Sections 9.3.8.2 and 9.3.8.3.

9.3.5.4.2 If the MTE owner owns the facilities on the Customer side of the terminal, CLEC may obtain access to all facilities in the Building in accordance with Section 9.5 concerning access to unbundled NIDs.

9.3.5.4.3 If Qwest owns the facilities on the Customer side of the terminal and if CLEC requests space to enter the building and terminate its facilities and Qwest must rearrange facilities or construct new facilities to accommodate such access, CLEC shall notify Qwest. Upon receipt of such notification, the intervals set forth in Section 9.3.3 shall begin.

9.3.5.4.4 CLEC may only submit orders for Subloop elements after the facilities are rearranged and/or a new facility constructed, if either are necessary. CLEC will populate the LSR with the termination information provided by CLEC at the completion of the inventory process except when submitting LSRs during the creation of the inventory.

9.3.5.4.5 If CLEC orders Intrabuilding Cable Loop, CLEC shall dispatch a technician to run a jumper between its Subloop elements and Qwest's Subloop elements to make a connection at the MTE-POI in accordance with the MTE Access Protocol. CLEC, will run the jumper for Intrabuilding cable in MTEs when the inventory is done and a complete LSR has been submitted.

9.3.5.4.5.1 When CLEC accesses a MTE Terminal, it shall employ generally accepted best engineering practices in accordance with industry standards. CLEC shall clearly label the cross-connect wires it uses. CLEC wiring will be neatly dressed. When CLEC accesses Subloops in MTE Terminals, it shall adhere to Qwest's Standard MTE Terminal Access Protocol unless the Parties have negotiated a separate document for such Subloop access. If CLEC requests a MTE Terminal access protocol that is different from Qwest's Standard MTE Terminal Access Protocol, Qwest shall negotiate with CLEC promptly and in good faith toward that end.

9.3.5.4.5.2 Reserved for Future Use.

9.3.5.4.5.2.1 Reserved for Future Use.

9.3.5.4.5.2.2 Reserved for Future Use.

9.3.5.4.5.2.3 Reserved for Future Use.

9.3.5.4.5.2.4 Reserved for Future Use.

9.3.5.4.6 Intentionally Left Blank.

9.3.5.4.7 For access to Qwest's on-premises MTE wire as a Subloop element, CLEC shall be required to submit an LSR, but need not include thereon the circuit-identifying information or await completion of LSR processing by Qwest before securing such access. Qwest shall secure the circuit-identifying information, and will be responsible for entering it on the LSR when it is received. Qwest shall be entitled to charge for the Subloop element as of the time of LSR submission by CLEC.

9.3.5.4.8 Intentionally Left Blank.

9.3.5.5 FCP Ordering Process

9.3.5.5.1 CLEC shall submit a FCP application form to Qwest. The FCP Application Form shall be completed in its entirety.

9.3.5.5.2 After construction of the FCP is complete, CLEC will be notified of its termination location, which will be used for ordering Subloops.

9.3.5.5.2.1 The following constitute the intervals for Provisioning a FCP, which begins upon Qwest's receipt of a complete FCP application form from CLEC. A complete FCP application form shall contain the following; End User Customer address, Central Office CLLI code, cable size, cable gauge, quantity of cables, Line Sharing (if applicable), and Loop ordering information.

9.3.5.5.2.1.1 Any Remote Collocation in which CLEC will install equipment requiring power and/or heat dissipation shall be in accordance with the intervals set forth in Section 8.4.

9.3.5.5.2.1.2 A FCP in a detached terminal shall be provisioned within ninety (90) Days from Qwest's receipt of a complete FCP application.

9.3.5.5.2.1.3 If Qwest denies a request for FCP in a Qwest Premises due to space limitations, Qwest shall allow CLEC representatives to inspect the entire Premises escorted by Qwest personnel within ten (10) Days of CLECs receipt of the denial of space, or a mutually agreed upon date. Qwest will review the detailed space plans (to the extent space plans exist) for the Premises with CLEC during the inspection, including Qwest reserved or optioned space. Such tour shall be without charge to

CLEC. If, after the inspection of the Premises, Qwest and CLEC disagree about whether space limitations at the Premises make FCP impractical, Qwest and CLEC may present their arguments to the Commission. In addition, if after the fact it is determined that Qwest has incorrectly identified the space limitations, Qwest will honor the original FCP Collocation Application Date for determining RFS unless both Parties agree to a revised date.

9.3.5.5.2.1.4 Payment for the remaining non-recurring charges shall be upon the RFS date. Upon completion of the construction activities and inspection, CLEC will pay the remaining non-recurring charge and Qwest will provide CLEC with the assignments and the necessary Subloop ordering information. With prior arrangements, CLEC can request testing of the FCP at the time of the inspection. If Qwest, despite its best efforts, including notification through the contact number on the FCP application, is unable to schedule the inspection with CLEC within twenty-one (21) Days after the RFS, Qwest shall activate the applicable charges.

9.3.5.5.2.1.5 Qwest may seek extended intervals if the work cannot reasonably be completed within the set interval. In such cases, Qwest shall provide written notification to CLEC of the extended interval Qwest believes is necessary to complete the work. CLEC may dispute the need for and the duration of, an extended interval, in which case Qwest must request a waiver from the Commission to obtain an extended interval.

9.3.6 Subloop Unbundling Rate Elements

9.3.6.1 All Subloop Types

9.3.6.1.1 Subloop Recurring Charge - CLEC will be charged a monthly recurring charge pursuant to Exhibit A for each Subloop ordered by CLEC.

9.3.6.1.2 Subloop Trouble Isolation Charge - See Section 12 regarding Trouble Isolation Charges.

9.3.6.2 Reserved for Future Use.

9.3.6.3 Additional rates for Detached Terminal Subloop Access:

9.3.6.3.1 FCP Charge: Acceptance – After receipt of a FCP Quote Form from Qwest, CLEC shall formally accept the quote in order for Qwest to continue the processing of the FCP application. A FCP Acceptance shall be considered Complete, if it contains:

- a) Signed Notification of Acceptance; and
- b) Payment of fifty percent (50%) of quoted charges

9.3.6.3.2 Any Remote Collocation in which CLEC will install equipment

requiring power and/or heat dissipation shall be in accordance with the rates set forth in Exhibit A.

9.3.6.3.3 Intentionally Left Blank.

9.3.6.4 Additional Rates for MTE Terminal Subloop Access

9.3.6.4.1 Subloop MTE – POI Site Inventory charge is for Qwest to complete the inventory of CLEC’s facilities within the MTE such that Subloop orders can be submitted and processed. CLEC will be charged with the rate in Exhibit A for the Subloop MTE – POI Site Inventory.

9.3.6.4.2 Intentionally Left Blank

9.3.6.4.3 Intra-building Cable Non-recurring Charge – The non-recurring charge for Intra-building Cable is contained in Exhibit A.

9.3.7 Repair and Maintenance

9.3.7.1 Detached Terminal Subloop Access: Qwest will maintain all of its facilities and equipment in the accessible terminal and CLEC will maintain all of its facilities and equipment in the accessible terminal.

9.3.7.2 MTE Terminal Subloop Access: Qwest will maintain all of its facilities and equipment in the MTE and CLEC will maintain all of its facilities and equipment in the MTE.

9.4 Intentionally Left Blank

9.5 Network Interface Device (NID)

9.5.1 Description

The NID is defined in Section 4 of this Agreement. If CLEC seeks to access only a NID (i.e., CLEC does not wish to access a Subloop connected to that NID), it may only do so pursuant to this Section 9.5. Qwest shall permit CLEC to connect its own Loop facilities to on-premises wiring through Qwest’s NID, or at any other Technically Feasible point. The NID carries with it all features, functions and capabilities of the facilities used to connect the Loop distribution plant to the Customer premises wiring, regardless of the particular design of the NID mechanism. Although the NID provides the connection to the Customer premises wiring, it may not represent the Demarcation Point where Qwest ownership or control of the intra-premises wiring ends. The NID contains a protective ground connection that protects the Customer’s on-premises wiring against lightning and other high voltage surges and is capable of terminating media such as twisted pair cable. If CLEC orders Unbundled Loops on a reuse basis, the existing drop and Qwest’s NID, as well as any on premises wiring that Qwest owns or controls, will remain in place and continue to carry the signal over the Customer’s on-premises wiring to the End User’s equipment. Notwithstanding the foregoing, an Unbundled Loop and any Subloop terminating at a NID shall include the existing drop and the functionality of the NID as more specifically set forth in Section 9.2. The NID is offered in three (3) varieties:

9.5.1.1 Simple NID - The modular NID is divided into two (2) components, one containing the over-voltage unit (protector) and the other containing the End User’s on-premises inside wiring termination, and a modular plug which connects the inside wire to

the distribution plant or dial tone source. The non-modular NID is a protector block with the inside wire terminated directly on the distribution facilities.

9.5.1.2 Smart NID – To the extent Qwest has deployed “Smart” devices in general meaning a terminating device that permits the service provider to isolate the Loop facility from the premises wiring for testing purposes, and such devices have spare functioning capacity not currently used by Qwest or any other provider, Qwest shall provide unbundled access to such devices. Qwest shall also continue to allow CLEC, at its option, to use all features and functionality of the Qwest NID including any protection mechanisms, test capabilities, or any other capabilities now existing or as they may exist in the future regardless of whether or not CLEC terminates its own distribution facility on the NID.

9.5.1.3 Multi-Tenant (MTE) NID - The MTE NID is divided into two (2) functional components: one containing the over-voltage unit (protector) and the other containing the terminations of the on-premises inside wiring. Such devices contain the protectors for, and may be located externally or internally to the premises served.

9.5.2 Network Interface Device General Terms

9.5.2.1 A CLEC can use the existing Qwest NID to terminate its drop if space permits, otherwise a new NID or other Technically Feasible Interconnection point is required. If CLEC installs its own NID, CLEC may connect its NID to the Qwest NID by placing a cross-connect between the two. When Provisioning a NID to NID connection, CLEC will isolate the Qwest facility in the NID by unplugging the modular unit. If CLEC requires that a non-modular unit be replaced with a modular NID, Qwest will perform the replacement for the charge described in Section 9.5.3.1. If CLEC is a facility-based provider up to and including its NID, the Qwest facility currently in place, including the NID, will remain in place. At no time should either Party remove the other Party’s Loop facilities from the other Party’s NID.

9.5.2.1.1 Qwest shall allow CLEC to connect its Loops directly to the NID field containing the terminations of the on-premises inside wiring not owned or controlled by Qwest, without restriction. Where Qwest does not own or control the on-premises inside wiring, CLEC and the landowner shall determine procedures for such access.

9.5.2.1.2 Qwest shall allow CLEC to use all features and functionality of the Qwest NID including any protection mechanisms, test capabilities, or any other capabilities now existing or as they may exist in the future.

9.5.2.1.3 Pursuant to generally acceptable work practices, and provided the inside wire retermination is required to meet service requirements of either parties’ End User Customer. Either Party may remove the inside wire from the NID and connect that wire to that Party’s own NID.

9.5.2.1.4 CLEC may enter the subscriber access chamber or “End User Customer side” of “dual chamber” NID enclosures for the purpose of NID to NID connections.

9.5.2.1.5 Upon CLEC request, Qwest will make other rearrangements to

the inside wire terminations or terminal enclosure. Charges will be assessed per section 9.5.3.4. No such charge shall be applicable if Qwest initiates the rearrangement of such terminations. In all such instances, rearrangements shall be performed in a non-discriminatory fashion and timeframe and without a Customer's perceivable disruption in service. Qwest will not make any rearrangements of wiring that is provided by another Carrier that relocates the other Carrier's test access point without notifying the affected Carrier promptly after such rearrangement if CLEC has properly labeled its cross connect wires.

9.5.2.2 Qwest will retain sole ownership of the Qwest NID and its contents on Qwest's side. Qwest is not required to proactively conduct NID change-outs, on a wide scale basis. At a CLEC's request, Qwest will change the NID on an individual request basis by CLEC and charges will be assessed per Section 9.5.3.5 except where Section 9.5.5.1 applies. Qwest is not required to inventory NID locations on behalf of CLEC.

9.5.2.3 When CLEC accesses a Qwest NID, it shall employ generally accepted best engineering practices and comply with industry standards should such standards exist when it physically connects its NID (or equivalent) to the Qwest NID and makes Cross Connections necessary to provide service. At MTE NIDs, CLEC shall clearly label the cross-connect wires it uses to provide service. Qwest shall label its terminals when a technician is dispatched.

9.5.2.4 All services fed through a protector field in a Qwest NID located inside a Building will interface on an industry standard termination block and then extend, via a Cross Connection to the Customer's in-premises wiring. All services fed through a protector field in a Qwest NID that is attached to a Building will interface on industry standard lugs or a binding post type of termination and then extend, via a Cross Connection, to the Customer's on-premises wiring.

9.5.2.5 If so requested by CLEC, Qwest shall allow CLEC to connect its Loops directly to the protector field at Qwest NIDs that have unused protectors and are not used by Qwest or any other Telecommunications Carrier to provide service to the premises. If a CLEC accesses the Qwest protector field it shall do so on the distribution side of the protector field only where spare protector capacity exists. In such cases, CLEC shall only access a Qwest NID protector field in cable increments appropriate to the NID. If twenty-five (25) or more metallic cable pairs are simultaneously terminated at the MTE NID, additions must be in increments of twenty-five (25) additional metallic pairs. In all cases, Telecommunications cables entering a Qwest NID must be terminated in compliance with FCC 88-57, Section 315 of the National Electric Safety Code and Section 800.30 of the National Electric Code.

9.5.2.6 Reserved for Future Use

9.5.3 Network Interface Device Rate Elements

9.5.3.1 If CLEC requests the current Simple NID to be replaced with a different Simple NID, pursuant to Section 9.5.2.1, charges will be assessed on a time and materials basis with CLEC paying only for the portion of the change out that is specific to and for the functionality that supports CLEC requirements.

9.5.3.2 Recurring rates for unbundled access to the protector field in a Qwest

NID are contained in Exhibit A of this Agreement and apply pursuant to Section 9.5.2.5.

9.5.3.3 When a CLEC requests that Qwest perform the work to connect its NID to the Qwest NID, the costs associated with Qwest performing such work will be charged to CLEC on a time and materials basis.

9.5.3.4 Where Qwest makes 9.5.2.1.5 rearrangements to the inside wire terminations or terminal enclosure on CLEC request pursuant to Section 9.5.2.1.5, charges will be assessed on a time and materials basis.

9.5.3.5 CLEC will be billed on a time and materials basis for any change out Qwest performs pursuant to Section 9.5.2.2. CLEC will be billed only for the portion of the change out that is specific to the CLEC request for additional capacity.

9.5.4 Network Interface Device Ordering Process

9.5.4.1 Reserved for Future Use.

9.5.4.2 CLEC may access a MTE NID after determining that the terminal in question is a NID, per the process identified in Section 9.3. If the terminal is a NID and CLEC wishes to access the Customer field of the NID, no additional verification is needed by Qwest. CLEC shall tag their jumper wire.

9.5.4.2.1 When CLEC seeks to connect to a cross-connect field other than to the Customer field of the NID, CLEC shall submit a LSR for connection to the NID. Submission of LSRs is described in Section 12. Qwest shall notify CLEC, within 10 business days, if the connection is not Technically Feasible. In such cases, Qwest shall inform CLEC of the basis for its claim of technical unfeasibility and, at the same time, identify all alternative points of connection that Qwest would support. CLEC shall have the option of employing the alternative terminal or disputing the claim of technical unfeasibility pursuant to the dispute resolution provisions of this Agreement. No additional verification is needed by Qwest and CLEC shall tag their jumper wire.

9.5.4.3 Subject to the terms of 9.5.4.2, CLEC may perform a NID-to-NID connection, according to 9.5.2.3, and access the Customer field of the NID without notice to Qwest. CLEC may access the protector field of the NID by submitting a LSR.

9.5.5 Network Interface Device Maintenance and Repair

9.5.5.1 If Qwest is dispatched to an End User Customer's location on a maintenance issue and finds the NID to be defective, Qwest will replace the defective element or, if beyond repair, the entire device at no cost to CLEC. If the facilities and lines have been removed from the protector field or damaged by CLEC, CLEC will be responsible for all costs associated with returning the facilities and lines back to their original State. Charges for this work will be on a time and materials basis and billed directly to CLEC. Billing disputes will be resolved in accordance with the dispute resolution process contained in this Agreement. Maintenance and Repair processes are contained in Section 12 of this Agreement.

9.6 Dedicated Transport

Qwest shall provide access to Dedicated Transport in a non-discriminatory manner according to the following terms and conditions.

9.6.1 Description and General Terms

9.6.1.1 Dedicated Transport includes Qwest transmission facilities between Wire Centers or Switches owned by Qwest, or between Wire Centers or Switches owned by Qwest and Switches owned by CLEC.

9.6.1.1.1 Unbundled Dedicated Interoffice Transport (UDIT) provides CLEC with a Network Element of a single transmission path between Qwest Wire Centers in the same LATA and state. A UDIT can also provide a path between one (1) CLEC's Collocation in one (1) Qwest Wire Center and a different CLEC's Collocation in another Qwest Wire Center. UDIT is a distance-sensitive, flat-rated bandwidth-specific interoffice transmission path designed to a DSX in each Qwest Wire Center. UDIT is available in DS0 through DS3 bandwidths. CLEC can assign channels and transport its choice of voice or data. Specifications, interfaces and parameters are further described in Qwest Technical Publication 77389 and other applicable Qwest Technical Publications, if any. UDITs are further addressed in Section 9.6.2.

9.6.1.1.2 Dedicated Transport includes the Network Element entrance facilities (the transmission facilities that connect competitive LEC networks with incumbent LEC networks referred to in the Parties' previous Interconnection Agreement as E-UDIT or E-UDF), but Qwest is not required to unbundle entrance facilities (including Dark Fiber entrance facilities) to add new entrance facility UNEs (including Dark Fiber entrance facility UNEs) after March 11, 2005, Entrance facilities in place prior to March 11, 2005 will follow the transition plans in Sections 9.1.13 and 9.1.14.

9.6.1.1.3 Dedicated Transport includes OCn capacity transport facilities, but Qwest is not required to unbundle OCn capacity transport facilities to add new OCn capacity transport facilities UNEs after March 11, 2005. OCn capacity transport facilities in place prior to execution of this Agreement will follow the transition plan in Section 9.1.14.

9.6.1.1.4 Dark Fiber transport is addressed in Section 9.7.

9.6.1.1.5. Regarding ordering and transition periods, see Sections 9.1.13 – 9.1.15.

9.6.2 Unbundled Dedicated Interoffice Transport (UDIT)

9.6.2.1 Intentionally Left Blank.

9.6.2.2 DS1 and DS3 UDIT are available on an unbundled basis, except for the limitations described as part of this Section 9.6.2.2 and Section 9.6.2.3. Qwest shall unbundle DS1 transport and DS3 transport between any pair of Qwest Wire Centers except where:

9.6.2.2.1 both Wire Centers defining the Route are Tier 1 Wire Centers for DS1 transport. As such, Qwest must unbundle DS1 transport if a Wire Center at

either end of a requested Route is not a Tier 1 Wire Center, or if neither is a Tier 1 Wire Center.

9.6.2.2.2 both Wire Centers defining the Route are either Tier 1 or Tier 2 Wire Centers for DS3 transport. As such, Qwest must unbundle DS3 transport if a Wire Center at either end of a requested Route is a Tier 3 Wire Center.

9.6.2.3 Limitation on DS1 and DS3 Transport.

9.6.2.3.1 On Routes for which there is no unbundling obligation for DS3 transport, but for which an unbundling obligation exists for DS1 transport, CLEC may obtain a maximum of ten (10) DS1 UDIT circuits on each Route where DS1 UDIT is available on an unbundled basis.

9.6.2.3.2 CLEC may obtain a maximum of twelve (12) DS3 UDIT circuits on each Route where DS3 UDIT is available on an unbundled basis.

9.6.2 Unbundled Dedicated Interoffice Transport (UDIT) - Additional General Terms

9.6.2.4 To the extent that CLEC is ordering access to a UNE Combination, and Cross Connections are necessary to combine UNEs, Qwest will perform requested and necessary Cross Connections between UNEs in the same manner that it would perform such Cross Connections for its End User Customers or for itself. If not ordered as a combination, CLEC is responsible for performing Cross Connections at its Collocation or other mutually determined Demarcation Point between UNEs and ancillary or Finished Services, and for transmission design work including regeneration requirements for such connections. Such Cross Connections will not be required of CLEC when CLEC orders a continuous UDIT element from one point to another.

9.6.2.5 Intentionally Left Blank.

9.6.2.6 With the exception of combinations provided through the UNE Combinations Section, Section 9.23, CLEC may utilize any form of Collocation for UDIT that terminates in Qwest Wire Centers. Qwest's design will ensure the cable between the Qwest provided active elements and the DSX will meet the proper signal level requirements. Channel Regeneration will not be charged separately for Interconnection between a Collocation space and Qwest's network. Cable distance limitations are based on ANSI Standard T1.102-1993 "Digital Hierarchy – Electrical Interface; Annex B."

9.6.3 Unbundled Dedicated Interoffice Transport Rate Elements

9.6.3.1 DS1 UDIT rates are contained in Exhibit A of this Agreement and include the following elements:

a) DS1 Transport Termination (Fixed) Rate Element. This recurring rate element provides a 1.544 Mbps termination at a DSX or DCS. In addition to the fixed rate element, a per-mile rate element, as described below, also applies.

b) DS1 Transport Facilities (Per Mile) Rate Element. This recurring rate element provides a transmission path of 1.544 Mbps. This is a mileage sensitive element based on the V&H coordinates of the DS1 UDIT. The mileage is

calculated between the originating and terminating Wire Centers.

- c) Reserved for Future Use.
- d) DS1 Non-recurring Charge. One-time charges apply for a specific work activity associated with installation of the DS1 service.
- e) Reserved for Future Use.

9.6.3.2 DS3 UDIT rates are contained in Exhibit A of this Agreement and include the following elements:

- a) DS3 Transport Termination (Fixed) Rate Element. This recurring rate element provides a 44.736 Mbps termination. In addition to the fixed rate element, a per-mile rate element, as described below, also applies.
- b) DS3 Transport Facilities (Per Mile) Rate Element. This recurring rate element provides an interoffice transmission path of 44.736 Mbps. This is a mileage sensitive element based on the V&H coordinates of the DS3 UDIT. The mileage is calculated between the originating and terminating Wire Centers.
- c) Reserved for Future Use.
- d) DS3 Non-recurring Charge. One-time charges apply for a specific work activity associated with installation of the DS3 service.
- e) Reserved for Future Use.

9.6.3.3 DS0 UDIT rates are contained in Exhibit A of this Agreement and include the following elements:

- a) DS0 Transport Termination (Fixed) Rate Element. This recurring rate element provides a 64 Kbps termination. In addition to the fixed rate element, a per-mile rate element, as described below, also applies.
- b) DS0 Transport Facilities (Per Mile) Rate Element. This recurring rate element provides a transmission path of 64 Kbps. This is a mileage sensitive element based on the V&H coordinates of the DS0 UDIT. The mileage is calculated between the originating and terminating Wire Centers.
- c) DS0 Non-recurring Charge. One-time charges apply for a specific work activity associated with installation of the DS0 service.

9.6.3.4 Low Side Channelization (LSC) Charge. A recurring charge for low side multiplexed channel cards and settings at each end of the DS0 UDIT.

9.6.3.5 Rearrangement rates are contained in Exhibit A of this Agreement.

9.6.3.6 Design Change rates for UDITs are contained in Exhibit A of this Agreement. This rate does not apply when the need for such change is caused by Qwest.

9.6.4 Unbundled Dedicated Interoffice Transport Ordering Process

9.6.4.1 Ordering processes and installation intervals are as follows:

9.6.4.1.1 UDIT is ordered via the ASR process. Ordering processes are contained in Section 12 of this Agreement.

9.6.4.1.2 Reserved for Future Use.

9.6.4.1.3 The interval will start when Qwest receives a complete and accurate ASR. This date is considered the start of the installation interval if the order is received prior to 3:00 p.m. The installation interval will begin on the next business day for service requests received after 3:00 p.m. The installation intervals have been established and are set forth in Exhibit C, Section 2.0 of this Agreement.

9.6.4.1.4 Subsequent changes to the quantity of services on an existing order will require a revised order.

9.6.4.1.5 An order may be canceled any time up to and including the Service Date. Pursuant to Exhibit A, cancellation charges will apply except when:

a) The original Due Date or CLEC-initiated subsequent Due Date was, or CLEC has been notified by Qwest that such Due Date will be, delayed ten (10) business days or longer (e.g., due to no facilities); or

b) The original Due Date has been scheduled later than the expiration of the interval set forth in Exhibit C and CLEC cancels its order no later than ten (10) Days before such original Due Date.

9.6.4.1.6 Definitions of the most common critical dates that occur during the ordering and installation process are included in the Definitions Section of this Agreement.

9.6.4.2 UDIT is ordered with basic installation. Qwest will install the UDIT extending connections to CLEC Demarcation Point and will notify CLEC when the work activity is complete.

9.6.4.3 Intentionally Left Blank.

9.6.4.4 Intentionally Left Blank.

9.6.4.5 Qwest will perform industry standard tests, set forth in Qwest Technical Publication 77389 and other applicable Qwest Technical Publications, if any when installing UDIT service.

9.6.4.6 Regarding ordering, see also Section 9.1.13.

9.6.5 Unbundled Dedicated Interoffice Transport Maintenance and Repair

9.6.5.1 The Parties will perform cooperative testing and trouble isolation to identify where trouble points exist. CLEC Cross Connections will be repaired by CLEC and Qwest Cross Connections will be repaired by Qwest. Maintenance and Repair processes are contained in Section 12 of this Agreement.

9.6.6 Unbundled Dedicated Interoffice Transport Rearrangement

9.6.6.1 CLEC can submit requests through the ASR process to move or rearrange UDIT terminations on CLEC's Demarcation Point or to change UDIT options. These rearrangements are available through a single Wire Center or dual Wire Center request. Single Wire Center rearrangements are limited to the change in options or movement of terminations within a single Wire Center. Dual Wire Center rearrangements are used to change options or movement of terminations in two (2) Wire Centers. Rearrangement is only available for in-place and working UDITs.

9.6.6.2 The rearrangement of terminations or option changes are completed as an "uncoordinated change" (basic request) and will be completed within the intervals outlined in Exhibit C. If CLEC desires a coordinated rearrangement of terminations or options changes, additional labor installation as identified in Exhibit A shall apply.

9.6.6.3 CLEC will submit an ASR with the rearrange USOC and appropriate termination information (e.g., CFA) or NC/NCI codes (Network Channel Codes/Network Channel Interface Codes).

9.7 Unbundled Dark Fiber (UDF) Transport and UDF Multi-Tenant Environment Subloop

9.7.1 Description

9.7.1.1 Dark Fiber, unlike "lit" fiber, is unused fiber within an existing fiber optic cable that has not yet been activated through optronics to render it capable of carrying communications services. UDF Transport consists of unactivated optical interoffice transmission facilities. For the purpose of this Agreement, UDF Transport may be referred to as UDF Interoffice Facility (UDF-IOF).

9.7.1.1.1 Qwest offers, and CLEC may order, Unbundled Dark Fiber (UDF) in two (2) distinct forms:

9.7.1.1.1.1 UDF-IOF is available on a deployed transport Route between two Qwest Wire Centers or switches, except on Routes connecting Wire Centers when both of the Wire Centers are classified as either a Tier 1 or Tier 2 Wire Center. For UDF-IOF when both of the Wire Centers are classified as either a Tier 1 or Tier 2 Wire Center, the Transition Period provisions of Section 9.1.14.4 apply to any such UNE that CLEC leased as of March 11, 2005.

9.7.1.1.1.2 UDF Multi-Tenant Environment (MTE) Subloop that begins at or near an MTE to provide access to MTE premises wiring.

9.7.1.1.2 Deployed UDF facilities shall include all local exchange Dark Fiber Qwest owns directly or to which it has a right to access under agreements with any other party affiliated or not, that do not prohibit Qwest's ability to provide access to another Person or entity.

9.7.1.2 Regarding UDF Loop, see Section 9.2.1. Regarding E-UDF, see Section 9.6.1.1.2.

9.7.2 UDF-IOF and UDF MTE Subloop General Terms

9.7.2.1 – Intentionally Left Blank

9.7.2.2 Qwest will provide CLEC with non-discriminatory access to UDF-IOF and UDF MTE Subloop in accordance with section 9.1.2. Qwest will provide UDF-IOF and UDF MTE Subloop of substantially the same quality as the fiber facilities that Qwest uses to provide retail service to its own End User Customers.

9.7.2.2.1 For UDF-IOF, at accessible terminations within Qwest Wire Centers and/or Switch locations such as fiber distribution panels.

9.7.2.2.2 For UDF-MTE Subloop, a point of Technically Feasible access which is any point in Qwest's outside plant at or near an MTE premises, such as where a technician can access the wire or fiber within the cable without removing a splice case to reach the wire or fiber within to access the wiring in the MTE premises. Such points include, but are not limited to, a pole or pedestal, the network interface device, the minimum point of entry, the single Point of Interconnection, and the feeder/distribution interface. Qwest shall not improperly classify Dark Fiber as another type of facility to avoid Qwest's obligation to avoid its UDF MTE Subloop unbundling obligations.

9.7.2.2.3 CLEC may request placement of a FDP in order to access unterminated UDF pursuant to Section 9.19. For UDF-IOF, CLEC may request placement of the FDP in any Qwest Wire Center.

9.7.2.3 Qwest will provide CLEC with access to deployed UDF-IOF facilities. CLEC shall be responsible for obtaining and connecting electronic equipment, whether light generating or light terminating equipment, to the Dark Fiber.

9.7.2.4 Qwest will provide Unbundled Dark Fiber to CLEC in increments of one (1) strand or two (2) strands (by the pair). CLEC may obtain up to twenty-five percent (25%) of available Dark Fibers or four (4) Dark Fiber strands, whichever is greater, in each fiber cable segment over a twelve (12) month period. Before CLEC may order additional UDF on such fiber cable segment, CLEC must demonstrate efficient use of existing fiber in each cable segment. Efficient use of interoffice cable segments is defined as providing a minimum of OC-12 termination on each fiber pair. Efficient use of UDF MTE Subloop fiber is defined as providing a minimum of OC-3 termination on each fiber pair. CLEC may designate five percent (5%) of its fibers along a fiber cable segment, or two (2) strands, whichever is greater, for maintenance spare, which fibers or strands are not subject to the termination requirements in this paragraph.

9.7.2.5 Qwest shall not have an obligation to unbundle UDF-IOF in the following circumstances:

a) Qwest will not unbundle Dark Fiber that Qwest utilizes for maintenance or reserves for maintenance spare for Qwest's own use. Qwest shall not reserve more than five percent (5%) of the fibers in a sheath, or two (2) strands, whichever is greater, for maintenance or maintenance spare for Qwest's own use.

b) Qwest will not be required to unbundle Dark Fiber if Qwest demonstrates to the Commission by a preponderance of the evidence that such unbundling would create a likely and foreseeable threat to its ability to meet its Carrier of last resort obligations as established by any regulatory authority. Qwest shall initiate such proceeding within seven (7) Days of denying CLEC's request (by written notice) to unbundle Dark Fiber where such fiber is available. In this proceeding, Qwest shall not object to using the most expeditious procedure available under state law, rule or regulation. Qwest shall be relieved of its unbundling obligations, related to the specific Dark Fiber at issue, pending the proceeding before the Commission. If Qwest fails to initiate such pending proceeding within such seven (7) Day period, CLEC's request to unbundle Dark Fiber shall be reinstated and the ordering and Provisioning processes of Section 9.7.3 shall continue.

c) See also Section 9.7.1.2.

9.7.2.6 Qwest will provide CLEC with access to the deployed Dark Fiber in its network in either single-mode or multi-mode. During the inquiry process, Qwest will inform CLEC of the availability of single-mode and multi-mode fiber.

9.7.2.7 Specifications, interfaces and parameters for Dark Fiber are described in Qwest Technical Publication 77383 and other applicable Qwest technical publications, if any.

9.7.2.8 CLEC is responsible for trouble isolation before reporting trouble to Qwest.

9.7.2.9 Intentionally Left Blank

9.7.2.10 Upon thirty (30) Days notification to CLEC, Qwest may initiate a proceeding to reclaim Dark Fiber strands from CLEC that were not serving End User Customers at the time of Qwest's notice to CLEC. In such proceeding, Qwest shall have the burden to prove that Qwest needs such fiber strands in order to meet its Carrier of last resort obligations as established by any regulatory authority. In such proceeding, CLEC shall not object to using the most expeditious procedure available under state law, rule or regulation. CLEC shall be entitled to retain such strands of UDF for any purpose permitted under this Agreement pending the proceeding before the Commission; provided, however, that such use shall be at CLEC's sole risk of any reclamation approved by the Commission, including the risk of termination of service to End User Customers. CLEC may designate five percent (5%) of its fibers along a fiber cable segment, or two (2) strands, whichever is greater, for maintenance spare, which fibers or strands are not subject to the reclamation requirements in this paragraph.

9.7.2.11 Reserved for Future Use.

9.7.2.12 CLEC must have established Collocation or other Technically Feasible means of network demarcation pursuant to section 9.1.4 of this Agreement at both terminating points of the UDF-IOF. No Collocation is required in intermediate Central Offices within a UDF-IOF or at Central Offices where CLEC's UDF-IOFs are cross connected. CLEC has no access to UDF-IOF at those intermediate Central Offices.

9.7.2.12.1 CLEC-to-CLEC connections with UDF for the mutual exchange of traffic is permissible pursuant to the provisions in Section 9.7.

9.7.2.13 For UDF MTE Subloop, CLEC is responsible for all work activities at the End User Customer premises. All negotiations with the premises End User and or premises owner are solely the responsibility of CLEC.

9.7.2.14 Intentionally Left Blank.

9.7.2.15 Intentionally Left Blank.

9.7.2.16 CLEC will incur all costs associated with disconnecting the UDF from its side of the network Demarcation Point.

9.7.2.17 Qwest and CLEC will jointly participate in continuity testing within the Provisioning interval established in Exhibit C. Qwest and CLEC must coordinate on the date and time for this continuity testing. As part of their respective duties regarding this continuity test, Qwest shall furnish a light detector at one termination point of the UDF, and CLEC shall furnish light generating equipment at the other termination point of the UDF as described below:

9.7.2.17.1 UDF-IOF: CLEC may identify on its order the Wire Center at which Qwest must provide a light detector and the Wire Center at which CLEC will provide light generating equipment. If CLEC does not identify the Wire Center on its order, Qwest and CLEC shall mutually agree on the Wire Center at which CLEC will provide the light generating equipment.

9.7.2.18 If, within ten (10) Days of the date Qwest provisioned an order for UDF, CLEC demonstrates that the UDF pair(s) provisioned over requested Route do not meet the minimum parameters set forth in Qwest Technical Publication 77383 and other applicable Qwest technical publications, if any, and if the trouble is in the Qwest UDF facility, not due to fault on the part of CLEC, then Qwest will at no additional cost, attempt to repair the UDF as it relates to Qwest cross-connects and jumpers. If Qwest cannot repair the UDF to the minimum parameters set forth in Qwest Technical Publication 77383 and other applicable Qwest technical publications, if any, Qwest will replace the UDF if suitable UDF pair(s) are available, at no additional non-recurring charge. If Qwest cannot replace the UDF upon receipt of a CLEC disconnect order, Qwest will refund the non-recurring charges associated with the Provisioning excluding IRI and Field Verification and will discontinue all recurring charges.

9.7.3 UDF-IOF and UDF MTE Subloop Ordering Processes

9.7.3.1 The first step of the UDF-IOF and UDF MTE Subloop ordering process is the inquiry process. Qwest has simple and complex inquiries.

9.7.3.1.1 The simple Initial Records Inquiry (IRI) is used to determine the availability of UDF-IOF between two (2) Qwest Wire Centers. For UDF-IOF, CLEC must specify the two (2) locations and the number of fibers requested.

9.7.3.1.1.1 If there is UDF-IOF available, the UDF IRI response for UDF-IOF will contain up to five (5) available UDF Routes between the CLEC-specified end locations. If additional Routes are available, Qwest will notify CLEC that such additional Routes exist and negotiate how that additional information will be made available.

9.7.3.1.2 The complex IRI is used to determine if a UDF MTE Subloop is available pursuant to Section 9.7.2.2.2.

9.7.3.1.2.1 As part of a complex IRI, CLEC must submit a Field Verification Quote Preparation (FVQP) form. Qwest will verify the locations for splicing and the fieldwork required for the conversion.

9.7.3.1.3 Qwest will notify CLEC, within the interval set forth in Exhibit C of this Agreement, that: (i) UDF is available to satisfy CLEC's request, (ii) UDF is not available to satisfy CLEC's request; or (iii) Qwest, in writing, denies CLEC's request pursuant to Section 9.7.2.5 (b). Qwest shall provide written notice of denials pursuant to (iii) above.

9.7.3.1.3.1 For UDF MTE Subloop complex IRIs, Qwest will prepare and submit to CLEC a quote, along with the original FVQP form, within the interval in Exhibit C.

9.7.3.2 CLEC will establish network Demarcation Points to accommodate UDF optical terminations via Collocation or other Technically Feasible means or network demarcation pursuant to Section 9.1.4 of this Agreement. If Collocation and or other network demarcation arrangements have not been completed, CLEC must have obtained preliminary APOT address information (CFA – Carrier Facility Assignment) for its network Demarcation Points in each Qwest Wire Center where the UDF terminates prior to placing an order for UDF. When preliminary APOT has been established and delivered to CLEC, Qwest can begin processing the UDF Provisioning order upon receipt of the UDF Provisioning request. If the preliminary APOT address is changed by CLEC, a new Provisioning time line for UDF must be established.

9.7.3.3 Termination at Qwest Wire Center: If spare fiber is available, and CLEC chooses to proceed, and the request is for UDF terminations at a Qwest Wire Center Qwest will begin the Provisioning process upon notification from CLEC to proceed and the receipt of fifty percent (50%) of the non-recurring charges. The notification to proceed is accomplished by completing, signing and returning the original inquiry request to the account manager. Provisioning intervals for this type of request are set forth in Exhibit C. CLEC will be notified that Provisioning is complete and the remaining non-recurring charges and associated recurring charges will be billed.

9.7.3.4 An order may be canceled any time up to and including the Service Date. Cancellation charges, if any, will apply in accordance with Exhibit A.

9.7.3.5 CLEC may reserve Dark Fiber for CLEC during Collocation builds. Prior to reserving space, CLEC must place an inquiry pursuant to Section 9.7.3.1 of this Agreement and receive a UDF inquiry response that reflects that the Route to be reserved is available. CLEC is also strongly encouraged to request a field verification

that the Route to be reserved is available. If CLEC does not obtain a field verification, CLEC assumes the risk that records upon which the UDF inquiry response is based may be in error. CLEC may reserve UDF for thirty (30), sixty (60), or ninety (90) Days. CLEC may extend or renew reservations, by contacting Qwest, if there is delay in completion of the Collocation build. UDF reservations are also available for a six-month period, if a Collocation application has not been submitted. CLEC must submit the Collocation application by the last day of the six month period, and contact Qwest with the Collocation application information to extend the UDF reservation. All applicable UDF recurring charges specified in Sections 9.7.5.2 will be assessed at the commencement of the reservation. Non-recurring charges for Provisioning and cross connects will be assessed at the time of installation.

9.7.4 UDF-IOF and UDF MTE Subloop Maintenance and Repair

9.7.4.1 The Parties will perform cooperative testing and trouble isolation to identify where trouble points exist. CLEC Cross Connections will be repaired by CLEC and Qwest Cross Connections will be repaired by Qwest. Maintenance and Repair processes are contained in Section 12 of this Agreement.

9.7.4.2 If it is determined that the UDF does not meet the minimum parameters of Qwest Technical Publication 77383 and other applicable Qwest technical publications, if any, without fault of CLEC, and if the trouble is in the Qwest UDF facility, then Qwest will attempt to repair the UDF as it relates to Qwest cross-connects and jumper at no additional cost. If Qwest cannot repair the UDF to the minimum parameters set forth in Qwest Technical Publication 77383 and other applicable Qwest technical publications, if any, then Qwest will replace the UDF at no additional cost if suitable UDF pair(s) are available. If Qwest cannot replace the UDF with available pairs, then it, upon receipt of a CLEC disconnect order, will discontinue the recurring charges effective as of the date of the commencement of the trouble.

9.7.5 UDF-IOF and UDF MTE Subloop Rate Elements

9.7.5.1 UDF-IOF and UDF MTE Subloop rates are contained in Exhibit A of this Agreement and include the following elements:

a) Initial Records Inquiry (IRI). Qwest has simple and complex inquiries. These rate elements are a pre-order work effort that investigates the availability of UDF. This is a one-time charge for each Route check requested by CLEC. Qwest has simple and complex inquiries. Qwest will bill CLEC the IRI immediately upon receipt of the inquiry. The IRI is a record search and does not guarantee the availability of UDF.

b) Field Verification and Quote Preparation (FVQP). This rate element is a pre-order work effort to estimate the cost of providing UDF access to CLEC at locations other than Qwest Wire Centers for UDF MTE Subloop. Qwest will prepare a quote which will explain what work activities, timeframes, and additional costs, including recurring and non-recurring costs, are associated with providing access to this FDP location. This quote will be good for thirty (30) Days. The FVQP is not necessary when the request is between Qwest Wire Centers (i.e., simple IRI for UDF). If FVQP is applicable pursuant to this section and CLEC orders UDF that has been reserved after a Field Verification has been performed, then the charge for FVQP will be reduced by the amount of the

Engineering Verification charge (described in sub-section (c)) assessed in the context of the reservation.

c) Engineering verification. This rate element is a records check for UDF MTE Subloop, if CLEC has requested verification before placing a verification request for UDF that CLEC desires to reserve and the request involves splicing.

9.7.5.2 The following rate elements (contained in Exhibit A) are used once the availability of UDF has been established and CLEC chooses to access UDF.

9.7.5.2.1 Unbundled Dark Fiber - IOF Rate Elements

a) UDF-IOF Termination (Fixed) Rate Element. This rate element is a recurring rate element and provides a termination at the interoffice FDP within the Qwest Wire Center(s). A UDF-IOF termination charge applies per single strand termination or per pair termination at an FDP or like cross-connect point.

b) UDF IOF Fiber Transport Rate Element. This rate element is recurring. This rate element provides a transmission path between Qwest Wire Centers. This recurring rate element is mileage sensitive based on the Route miles of the UDF rounded up to the next mile.

c) UDF-IOF Fiber Cross-Connect Rate Element. This rate element has both a recurring and non-recurring component and is used to extend the optical connection from the IOF FDP to CLEC's optical Demarcation Point (ICDF). A minimum of two (2) UDF IOF fiber cross-connects apply per pair. Cross-connect charges apply for each intermediate office terminating at an FDP or like cross-connect point. The non-recurring rate will not be charged for cross-connects already in place prior to CLEC's order for UDF-IOF.

d) Unbundled Dark Fiber- Order Charge, First Route, per order. This rate element is the nonrecurring component assessed for installation of unbundled Dark Fiber, by the strand. The element applies for the first strand or pair that is requested to terminate at a single location. See Exhibit A.

e) Unbundled Dark Fiber- Order Charge, each additional Route, per order. This rate element is the nonrecurring component assessed for installation of each additional unbundled Dark Fiber strand. The element applies to each additional strand or pair ordered to the same location, on the same request. See Exhibit A.

f) UDF transport Fiber Cross-Connect Disconnect Rate Element. This rate is a non-recurring charge and is used to disconnect the optical connection from the IOF FDP to CLEC's optical Demarcation Point (ICDF). This charge applies per office.

9.7.5.2.2 Unbundled Dark Fiber Splice. This rate element is the nonrecurring charge assessed for the splice location, if required, to make the UDF MTE Subloop accessible. This rate element is for the work performed at

the accessible first manhole or splicing location associated with an UDF MTE Subloop order. See Exhibit A.

9.7.5.2.3 UDF MTE Subloop. This rate element is the recurring charge assessed for the UDF MTE Subloop and it is ICB (Individual Case Basis).

9.8 911 and E911 Call-Related Databases

9.8.1 Qwest shall provide CLEC nondiscriminatory access to 911 and E911 databases only as required by the Act and 47 C.F. R. §51.319 and subparts. See Section 10.3 for the terms and conditions for 911/E911 Service.

9.9 Unbundled Customer Controlled Rearrangement Element (UCCRE)

Qwest shall provide Unbundled Customer Controlled Rearrangement Element (UCCRE) in a non-discriminatory manner according to the following terms and conditions.

9.9.1 Description

9.9.1.1 Unbundled Customer Controlled Rearrangement Element (UCCRE) provides the means by which CLEC controls the configuration of Unbundled Network Elements (UNEs) or ancillary services on a near real time basis through a digital cross connect device. UCCRE utilizes the Digital Cross-Connect System (DCS). UCCRE is available in Qwest Wire Centers that contain a DCS and such DCS is UCCRE compatible.

9.9.2 Terms and Conditions

9.9.2.1 DCS Ports are DS1, DS3 and Virtual Ports (Virtual Ports are for connecting one end user to another). The DCS Port is connected to the Demarcation Point using tie cables via the appropriate DSX cross connect panel. The DSX panel serves both as a "Design-To" point and a network interface at the DCS. CLEC is responsible for designing to the "Design-To" point. CLEC may connect the UCCRE Ports to its elements or CLEC designated equipment. If CLEC desires DS0 Port functionality, CLEC will order a DS1 UCCRE Port and provide its own multiplexer (or DS1 UDIT multiplexers) and connect them together. This combination will form the equivalent of 24 DS0-level Ports.

9.9.2.2 The reconfiguration of the service is accomplished at the DS0 signal level. Reconfiguration of these services can be accomplished through two methods: Dial Up or Attendant Access.

9.9.2.2.1 Dial Up Access. Qwest will provide access to mutually agreed upon UCCRE points in those offices where UCCRE is available. Qwest will provide and engineer this service in the same manner that it is currently provided to Qwest's End User customers.

9.9.2.2.2 Attendant Access. When CLEC requests Qwest to make changes on its behalf, an attendant access charge will apply per transaction.

9.9.3 Rate Elements

9.9.3.1 Recurring rate elements include:

9.9.3.1.1 DS-1 Port;

9.9.3.1.2 DS-3 Port;

9.9.3.1.3 Dial Up Access; and

9.9.3.1.4 Attendant Access.

9.9.3.2 Nonrecurring rate elements include:

9.9.3.2.1 DS-1 Port;

9.9.3.2.2 DS-3 Port; and

9.9.3.2.3 Virtual Ports.

9.9.4 Ordering Process

9.9.4.1 Ordering processes and installation intervals are specified in Exhibit C of this Agreement and are the same as specified in the UNEs - UDIT Section. UCCRE is ordered via the ASR process.

9.9.4.2 UCCRE is ordered with the Basic Installation option. Qwest will begin the work activity on the negotiated Due Date and notify CLEC when the work activity is complete. Test results performed by Qwest are not provided to CLEC.

9.10 Intentionally Left Blank.

9.11 Intentionally Left Blank.

9.12 Intentionally Left Blank.

9.13 Intentionally Left Blank.

9.14 Intentionally Left Blank.

9.15 Intentionally Left Blank.

9.16 Intentionally Left Blank.

9.17 Intentionally Left Blank.

9.18 Additional Unbundled Elements

CLEC may request non-discriminatory access to and, where appropriate, development of, additional UNEs not covered in this Agreement pursuant to the Special Request Process set forth in Exhibit F or the Bona Fide Request Process, as applicable.

9.19 Construction Charges

Qwest will conduct an individual financial assessment of any request that requires construction of network capacity, facilities, or space for access to or use of UNEs. When Qwest constructs to fulfill CLEC's request for UNEs, Qwest will bid this construction on a case-by-case basis. Qwest will charge for the construction through nonrecurring charges and a term agreement for the remaining recurring charge, as described in the Construction Charges Section. When CLEC orders the same or substantially similar service available to Qwest End User Customers, nothing in this Section shall be interpreted to authorize Qwest to charge CLEC for special construction where such charges are not provided for in a Tariff or where such charges would not be applied to a Qwest End User Customer. If Qwest agrees to construct a Network Element that satisfies the description of a UNE contained in this agreement, that Network Element shall be deemed a UNE. The request process for UNE construction is sometimes referred to as "Competitive Local Exchange Carrier (CLEC) Requested Unbundled Network Elements (UNE) Construction" or "CRUNEC". The request process for UNE construction is not required for requests that can be resolved as described in Section 9.1.2.1.1.

9.19.1 To initiate the construction of additional UNE facilities, CLEC must submit a request by contacting the Qwest Service Manager.

9.19.2 The Records Quote Prep Fee (RQPF) is a non recurring charge assessed before a preliminary review of records is completed. This fee is required to provide a high level overview of the cost of construction. The resulting quote should be used to assess the feasibility of CLEC in using the UNE construction process. The estimate provided via RQPF process is based on records only and will not be binding. A credit for the RQPF will be applied to the cost of the CQPF (described in 9.19.3 below).

9.19.3 The Construction Quote Prep Fee (CQPF) is a non-recurring charge assessed prior to preparing the UNE construction quote. This fee is required to provide a specific quote for the cost of construction. The resulting quote will reflect the amount the CLEC will pay should CLEC agree to pursue construction. CLEC may choose this option after receipt of an RQPF, or may opt to pay for the CQPF at any time after receiving notification that facilities are not available to complete the service request. A credit for the CQPF will be applied to the cost of construction if CLEC accepts the quoted UNE construction price.

9.19.4 Qwest retains the CQPF if the CLEC chooses not to proceed with the construction. At any point after remitting the payment for the UNE construction quote, if CLEC decides to discontinue the construction, Qwest will refund the CQPF payment, excluding expenditures already incurred for the work completed (Engineered, Furnished and Installed (EF&I)) on the requested UNE. Qwest will provide a brief description of the work completed.

9.19.5 For purposes of this Section 9.19, EF&I is defined as:

Engineering labor to analyze the needs for the requested UNE and design and issue the required work orders

Furnished material cost

Installation labor costs to complete the work order

9.19.6 Rates for UNE construction are contained in Section 9.19 of Exhibit A.

9.20 Intentionally Left Blank

9.21 Line Splitting

9.21.1 Description

Line Splitting provides CLEC/DLEC with the opportunity to offer advanced data service simultaneously with voice service when CLEC obtains switching as a Network Element pursuant to a separate written agreement. Line Splitting uses the frequency range above the voice band on a single Loop for the advanced data service. The advanced data service may be provided by the Customer of Record (the voice service provider) or another data service provider chosen by the Customer of Record. A Splitter must be inserted into the Loop in order to accommodate the establishment of the advanced data service. The Splitter separates the voice and data traffic and allows the Loop to be used for simultaneous DLEC data transmission and CLEC-provided voice service to the End User Customer. "CLEC" will herein be referred to as the voice service provider while "DLEC" will be referred to as the advanced data service provider. CLEC and DLEC may be the same entity.

9.21.2 Terms and Conditions

9.21.2.1 General

9.21.2.1.1 The Customer of Record (the voice service provider) will order the insertion of a Splitter. Qwest is not responsible for providing the Splitter, filter(s) and/or other equipment necessary for the End User Customer to receive separate voice and data service across a single copper Loop.

9.21.2.1.2 To order Line Splitting, CLEC/DLEC must have a Splitter installed in the Qwest Wire Center that serves the End User Customer. The Splitter must meet the requirements for Central Office equipment Collocation set by the FCC or be compliant with ANSI T1.413.

9.21.2.1.3 CLEC/DLEC may provide any xDSL services that are compatible with CLEC's voice service in accordance with ANSI T1.413 or IEEE 820 or other industry standards.

9.21.2.1.4 There may be only one DLEC at any given time that provides advanced data service on any given Line Splitting arrangement.

9.21.2.1.5 The Customer of Record will be able to request conditioning of the Loop portion of the Line Splitting arrangement. Qwest will perform requested conditioning of shared Loops to remove load coils and excess Bridged Taps. If CLEC requests conditioning and such conditioning significantly degrades the voice services on the Loop to the point that it is unacceptable to CLEC, CLEC shall pay the conditioning rate set forth in Exhibit A to recondition the Loop.

9.21.2.1.6 Splitters may be installed in Qwest Wire Centers at the discretion of CLEC/DLEC via the standard or Common Area Splitter Collocation arrangements set forth in the Collocation Section of this Agreement. Under either option, Splitters will be appropriately hard-wired or pre-wired so that Qwest is not required to inventory more than two (2) points of termination. For Line Splitting, Qwest shall use the same number of Cross Connections and the same number of tie pairs as it uses for other split services provided under this Agreement.

9.21.2.1.7 Intentionally Left Blank.

9.21.2.1.8 Splitter Collocation requirements are covered in the Shared Loop Section of this Agreement.

9.21.3 Rate Elements

The following Line Splitting rate elements are contained in Exhibit A of this Agreement.

9.21.3.1 Recurring Rates for Line Splitting.

9.21.3.1.1 Interconnection Tie Pairs (ITP). A monthly recurring charge to recover the costs associated with the use of two (2) ITPs, one (1) for voice and one (1) for voice/data. See Section 9.1 of Exhibit A.

9.21.3.1.2 OSS Charge – A monthly recurring charge to recover the cost of the OSS modifications necessary to provide access to the high frequency portion of the Loop. See Section 9.4.4 of Exhibit A.

9.21.3.2 Non-recurring Rates for Line Splitting

9.21.3.2.1 Basic Installation Charge for Line Splitting – A non-recurring charge for each Line Splitting arrangement installed will apply.

9.21.3.2.2 Charge for conditioning Loop associated with Line Splitting. A non-recurring charge for either conditioning the Loop by removing load coils and/or excess Bridged Taps; or reconditioning the line if necessary to assure the quality of the voice service.

9.21.3.3 Non-recurring Rates for Maintenance and Repair

9.21.3.3.1 Trouble Isolation Charge – A non-recurring charge for Trouble Isolation will be applied in accordance with the Access to OSS – Maintenance and Repair Section.

9.21.3.3.2 Additional Testing – The Customer of Record may request Qwest to perform additional testing, and Qwest may decide to perform the requested testing on a case-by-case basis. A non-recurring charge will apply in accordance with Exhibit A, Section 9.20.4.

9.21.3.4 Rates for Splitter Collocation are included in Section 8.1.20 of Exhibit A of this Agreement.

9.21.3.5 Exhibit A identifies the rates that have been approved by the Commission. The other rates are interim and will be subject to true-up based on either mutually agreed permanent rates or permanent rates established in a cost proceeding conducted by the Commission. In the event interim rates are established by the Commission before permanent rates are set, the interim rates set forth in Exhibit A will be changed to reflect the interim rates set by the Commission; however, no true up will be performed until mutually agreed to permanent rates are established or permanent rates are established by the Commission.

9.21.4 Ordering Process

9.21.4.1 Line Splitting

9.21.4.1.1 As a part of the pre-order process, CLEC/DLEC may access Loop characteristic information through the Loop Information Tool described in the Access to OSS Section. The Customer of Record will determine, in its sole discretion and at its risk, whether to add data services to any specific Loop.

9.21.4.1.2 The Customer of Record will provide on the LSR, the appropriate frame terminations that are dedicated to Splitters. Qwest will administer all cross connects/jumpers on the COSMIC/MDF and ICDF.

9.21.4.1.3 Basic Installation "lift and lay" procedure will be used for all Line Splitting orders. Under this approach, a Qwest technician "lifts" the Loop from its current termination in a Qwest Wire Center and "lays" it on a new termination connecting to CLEC's/DLEC's collocated equipment in the same Wire Center.

9.21.4.1.4 The Customer of Record shall not place orders for Line Splitting until all work necessary to provision Line Splitting in a given Qwest Wire Center, including, but not limited to, Splitter installation and tie cable reclassification or augmentation has been completed.

9.21.4.1.5 If the voice service is disconnected on a Line Splitting arrangement, the Line Splitting arrangement shall terminate. CLEC may arrange to provide DSL service to the End User Customer through purchase of another product.

9.21.4.1.6 The Customer of Record (the voice service provider) shall submit the appropriate LSRs associated with establishing Line Splitting.

9.21.5 Billing

9.21.5.1 For Connectivity Billing, Recording, and Exchange of Information, see Section 21.

9.21.5.2 Qwest shall bill the Customer of Record for all recurring and non-recurring Line Splitting rate elements.

9.21.6 Repair and Maintenance

9.21.6.1 Qwest will allow CLEC/DLEC to access Line Splitting at the point where

the combined voice and data Loop is cross connected to the Splitter.

9.21.6.2 The Customer of Record will be responsible for reporting to Qwest voice service troubles provided over Line Splitting. Qwest will be responsible to repair troubles on the physical line between Network Interface Devices at the Customer premises and the Demarcation Point in Qwest Wire Centers. CLEC/DLEC will be responsible for repairing data services provided on Line Splitting. Qwest, CLEC and DLEC each will be responsible for maintaining its equipment. The entity that controls the Splitters will be responsible for their maintenance.

9.21.6.3 Intentionally Left Blank.

9.21.6.4 When Splitters are installed in Qwest Wire Centers via Common Area Splitter Collocation, CLEC/DLEC will order and install additional Splitter cards as necessary to increase the capacity of the Splitters. CLEC/DLEC will leave one (1) unused, spare Splitter card in every shelf to be used for repair and maintenance until such time as the card must be used to fill the shelf to capacity.

9.21.6.5 When Splitters are installed in Qwest Wire Centers via standard Collocation arrangements, CLEC/DLEC may install test access equipment in its Collocation areas in those Wire Centers for the purpose of testing Line Splitting. This equipment must meet the requirements for Central Office equipment set by the FCC.

9.21.6.6 Qwest, CLEC and DLEC will work together to address End User Customer initiated repair requests and to prevent adverse impacts to the End User Customer.

9.21.7 Customer of Record and Authorized Agents

9.21.7.1 "Customer of Record" is defined for purposes of this section as the CLEC providing the voice service. Qwest will bill the Customer of Record for Line Splitting. The Customer of Record may designate an authorized agent pursuant to the terms of sections 9.21.7.2 and 9.21.7.3 to perform ordering and/or Maintenance and Repair functions.

9.21.7.2 In order for the authorized agent of the Customer of Record to perform ordering and/or Maintenance and Repair functions, the Customer of Record must provide its authorized agent the necessary access and security devices, including but not limited to user identifications, digital certificates and SecurID cards, that will allow the authorized agent to access the records of the Customer of Record. Such access will be managed by the Customer of Record.

9.21.7.3 The Customer of Record shall hold Qwest harmless with regard to any harm to Customer of Record as a direct and proximate result of the acts or omissions of the authorized agent of the Customer of Record or any other Person who has obtained from the Customer of Record the necessary access and security devices through the Customer of Record, including but not limited to user identifications, digital certificates and SecurID cards, that allow such Person to access the records of the Customer of Record unless such access and security devices were wrongfully obtained by such Person through the willful or negligent behavior of Qwest.

9.22 Intentionally Left Blank

9.23 Combinations

9.23.1 UNE Combinations General Terms

9.23.1.1 Qwest shall provide CLEC with non-discriminatory access to Combinations of Unbundled Network Elements, including but not limited to Enhanced Extended Link (EEL), according to the following terms and conditions.

9.23.1.2 Qwest will offer to CLEC UNE Combinations, on rates, terms and conditions that are just, reasonable and non-discriminatory in accordance with the terms and conditions of this Agreement and the requirements of Section 251 and Section 252 of the Act, the applicable FCC rules, and other Applicable Laws. The methods of access to UNE Combinations described in this Section are not exclusive. Qwest will make available any other form of access requested by CLEC that is consistent with the Act and the regulations thereunder. CLEC shall be entitled to access to all combinations functionality as provided in FCC rules and other Applicable Laws. Qwest shall not require CLEC to access any UNE Combinations in conjunction with any other service or element unless specified in this Agreement or as required for Technical Feasibility reasons. Qwest shall not place any use restrictions or other limiting conditions on UNE Combination(s) accessed by CLEC except as specified in this Agreement or required by Existing Rules.

9.23.1.2.1 Changes in law, regulations or other “Existing Rules” relating to UNEs and UNE Combinations, including additions and deletions of elements Qwest is required to unbundle and/or provide in a UNE Combination, shall be incorporated into this Agreement pursuant to Section 2.2. CLEC and Qwest agree that the UNEs identified in Section 9 are not exclusive and that pursuant to changes in FCC rules, State laws, the Special Request Process or the Bona Fide Request process, CLEC may identify and request that Qwest furnish additional or revised UNEs to the extent required under Section 251(c)(3) of the Act and other Applicable Laws. Failure to list a UNE herein shall not constitute a waiver by CLEC to obtain a UNE subsequently defined by the FCC or the Commission

9.23.1.2.2 In addition to the UNE Combinations provided by Qwest to CLEC hereunder, Qwest shall permit CLEC to combine any UNE provided by Qwest with another UNE provided by Qwest or with compatible network components provided by CLEC or provided by third parties to CLEC in order to provide Telecommunications Services. See Section 24 regarding Commingling.

9.23.1.2.3 Where a CLEC has been denied access to a Loop as a UNE, CLEC may connect a similar bandwidth alternative service that it secures in lieu of that UNE to a transport UNE that it has secured from Qwest. See Section 24 regarding Commingling.

9.23.1.3 When ordered as Combinations of UNEs, Network Elements that are currently combined and ordered together will not be physically disconnected or separated in any fashion except for technical reasons or if requested by CLEC. Network Elements to be provisioned together shall be identified and ordered by CLEC as such. When CLEC orders in combination UNEs that are currently interconnected and functional, such UNEs shall remain interconnected or combined as a working service

without any disconnection or disruption of functionality.

9.23.1.4 When ordered in combination, Qwest will combine for CLEC UNEs that are ordinarily combined in Qwest's network, provided that facilities are available. If facilities are not available, Section 9.1.2.1 shall apply.

9.23.1.5 When ordered in combination, Qwest will combine for CLEC UNEs that are not ordinarily combined in Qwest's network, provided that facilities are available and such combination:

9.23.1.5.1 Is Technically Feasible;

9.23.1.5.2 Would not impair the ability of other Carriers to obtain access to UNEs or to interconnect with Qwest's network; and

9.23.1.5.3 Would not impair Qwest's use of its network.

9.23.1.6 When ordered in combination, Qwest will combine CLEC UNEs with Qwest UNEs, provided that facilities are available (if not, see Section 9.1.2.1) and such combination:

9.23.1.6.1 Is Technically Feasible;

9.23.1.6.2 Shall be performed in a manner that provides Qwest access to necessary facilities;

9.23.1.6.3 Would not impair the ability of other Carriers to obtain access to UNEs or to interconnect with Qwest's network; and

9.23.1.6.4 Would not impair Qwest's use of its network.

9.23.2 UNE Combinations Description and General Terms

9.23.2 UNE Combinations are available in, but not limited to, the following products: EELs (subject to the limitations set forth below) and Loop Mux Combinations. If CLEC desires access to a different UNE Combination, CLEC may request access through the Special Request Process set forth in this Agreement. Qwest will provision UNE combinations pursuant to the terms of this Agreement without requiring an amendment to this Agreement, provided that all UNEs making up the UNE Combination are contained in this Agreement. If Qwest develops additional UNE Combination products, CLEC can order such products without using the Special Request Process, but CLEC may need to submit a questionnaire pursuant to Section 3.2.2.

9.23.3 Additional UNE Combinations General Terms

9.23.3.1 Qwest shall provide non-discriminatory access to UNE Combinations on rates, terms and conditions that are non-discriminatory, just and reasonable. The quality of a UNE Combination Qwest provides, as well as the access provided to that UNE Combination, will be equal between all Carriers requesting access to that UNE Combination; and, where Technically Feasible, the access and UNE Combination provided by Qwest will be provided in "substantially the same time and manner" to that which Qwest provides to itself. In those situations where Qwest does not provide access to UNE Combinations itself, Qwest will provide access in a manner that provides CLEC

with a meaningful opportunity to compete.

9.23.3.2 CLEC may request access to and, where appropriate, development of, additional UNE Combinations. For UNEs Qwest currently combines in its network CLEC can use the Special Request Process (SRP) set forth in Exhibit F. For UNEs that Qwest does not currently combine, CLEC must use the Bona Fide Request Process (BFR). In its BFR or SRP request, CLEC must identify the specific combination of UNEs, identifying each individual UNE by name as described in this Agreement.

9.23.3.3 If CLEC is obtaining services from Qwest under an arrangement or agreement that includes the application of termination liability assessment (TLA) or minimum period charges, and if CLEC wishes to convert such services to UNEs or a UNE Combination, the conversion of such services will not be delayed due to the applicability of TLA or minimum period charges. The applicability of such charges is governed by the terms of the original agreement, Tariff or arrangement.

9.23.3.4 For installation of new UNE Combinations, CLEC will not be assessed UNE rates for UNEs ordered in combination until access to all UNEs that make up such combination have been provisioned to CLEC as a combination, unless a UNE is not available until a later time and CLEC elects to have Qwest provision the other elements before all elements are available

9.23.3.5 Regarding Number Portability see Section 10.2.1.1.

9.23.4 Enhanced Extended Links (EELs), Commingled EELs, and High Capacity EELs

When a UNE circuit is commingled with a non-UNE circuit, the rates, terms and conditions of the ICA will apply to the UNE circuit (including the Commission jurisdiction) and the non-UNE circuit will be governed by the rates, terms and conditions of the appropriate Tariff.

EEL – EEL consists of a combination of an Unbundled Loop and unbundled Dedicated Transport (with or without multiplexing capabilities), together with any facilities, equipment, or functions necessary to combine those Unbundled Network Elements. Such an EEL is a UNE Combination.

Commingled EEL – If CLEC obtains at UNE pricing part (but not all) of a loop-transport Combination, the arrangement is a Commingled EEL. (Regarding Commingling, see Section 24.)

High Capacity EEL – “High Capacity EEL” is a loop-transport Combination (either EEL or Commingled EEL) when the Loop or transport is of DS1 or DS3 capacity. High Capacity EELs may also be referred to as “DS1 EEL” or “DS3 EEL,” depending on capacity level.

9.23.4.1 Service Eligibility Criteria for High Capacity EELs

The Service Eligibility Criteria set forth in Section 9.23.4.1.2 apply to High Capacity EELs. The Service Eligibility Criteria apply to all conversions of a special access circuit

to a High Capacity EEL and obtaining a new High Capacity EEL. These Service Eligibility Criteria do not apply for access to other UNEs (e.g., voice-grade Loops, stand alone High Capacity Loops or voice grade EELs).

9.23.4.1.1 Except as otherwise provided in Section 9.23.4.1.2, Qwest shall provide access to Unbundled Network Elements and Combinations of Unbundled Network Elements without regard to whether CLEC seeks access to the Unbundled Network Elements to establish a new circuit or to convert an existing circuit from a service to Unbundled Network Elements.

9.23.4.1.2 Qwest need not provide access to (1) an unbundled DS1 Loop in combination, or Commingled, with a dedicated DS1 transport or dedicated DS3 transport facility or service, or to an unbundled DS3 Loop in combination, or Commingled, with a dedicated DS3 transport facility or service, or (2) an unbundled dedicated DS1 transport facility in combination, or Commingled, with an unbundled DS1 Loop or a DS1 channel termination service, or to an unbundled dedicated DS3 transport facility in combination, or Commingled, with an unbundled DS1 Loop or a DS1 channel termination service, or to an unbundled DS3 Loop or a DS3 channel termination service, unless CLEC certifies pursuant to Section 9.23.4.2 that all of the following criteria ("Service Eligibility Criteria") are met:

9.23.4.1.2.1 State Certification. CLEC has received state certification to provide local voice service in the area being served or, in the absence of a state certification requirement, has complied with registration, tariffing, filing fee, or other regulatory requirements applicable to the provision of local voice service in that area.

9.23.4.1.2.2 Per Circuit Criteria. The following criteria are satisfied for each combined circuit, including each DS1 circuit, each DS1 EEL, and each DS1-equivalent circuit on a DS3 EEL:

9.23.4.1.2.2.1 Telephone Number Assignment. Each circuit to be provided to each End User Customer will be assigned a local telephone number prior to the provision of service over that circuit. The origination and termination of local voice traffic should not include a toll charge and should not require dialing special digits beyond those normally required for a local voice call.

9.23.4.1.2.2.2 Each DS1-equivalent circuit on a DS3 EEL must have its own local telephone number assignment, so that each DS3 circuit has at least twenty-eight (28) local telephone numbers assigned to it.

9.23.4.1.2.2.3 911 or E911. Each circuit to be provided to each End User Customer will have 911 or E911 capability prior to the provision of service over that circuit. CLEC may satisfy the number and 911/E911 criteria to initiate the ordering process for a new High Capacity EEL circuit by certifying that it will not begin to provide service until a local number is assigned and 911 or E911 capability is provided.

9.23.4.1.2.2.4 Collocation. CLEC will provide the associated Connecting Facility Assignment (“CFA”), as provided in Section 9.23.6.1.4. In addition:

9.23.4.1.2.2.4.1 Collocation. Each circuit to be provided to each End User Customer will terminate in a Collocation arrangement that is established pursuant to Section 251(c)(6) of the Act and located at Qwest's Premises within the same LATA as the End User Customer's premises, when Qwest is not the collocator, and is located at a third party's premises within the same LATA as the End User Customer's premises, when Qwest is the collocator.

9.23.4.1.2.2.4.1.2 Collocation must be within Qwest's network and cannot be at an Interexchange Carrier points of presence (POP) or ISP POP. However, CLEC can satisfy this prong through reverse Collocation. This includes the installation of Qwest equipment at the premises of CLEC or any other entity not affiliated with Qwest, regardless of whether Qwest has a cage. Any non-Qwest Collocation arrangement, including indirect Collocation, pursuant to Section 251(c)(6) meets this test.

9.23.4.1.2.2.5 Each High Capacity EEL circuit must be served by an Interconnection trunk in the same LATA as the End User Customer premises served by the High Capacity EEL, and that for every 24 DS1 EELs or the equivalent, CLEC must maintain at least one active DS1 Interconnection trunk for the exchange of local voice traffic.

9.23.4.1.2.2.5.1 An Interconnection trunk meets the requirements of this Section if the CLEC will transmit the Calling Party Number or Charge Number, as described in Section 7.2.2.4.2, in connection with calls exchanged over the trunk. As a safeguard against gaming, if CLEC strips off the Calling Party Number or modifies the Charge Number on calls exchanged over the Interconnection trunk, that trunk shall not be counted towards meeting the trunk/EEL ratio.

9.23.4.1.2.2.5.2 One-way inbound Interconnection trunks are not excluded. CLEC may choose to purchase a two-way trunk, or may purchase a one-way trunk and arrange for Qwest to purchase a one-way trunk in the opposite direction. If, however, CLEC does not arrange for a meaningful exchange of traffic, which must include hand-offs of local voice calls that flow in both directions, those arrangements cannot be attributed toward satisfaction of this Service Eligibility Criterion.

9.23.4.1.2.2.5.3 CLEC is not required to associate the individual High Capacity EEL Collocation termination

point with a local Interconnection trunk in the same Wire Center. The High Capacity EEL and the Interconnection trunk may terminate in different Wire Centers.

9.23.4.1.2.2.6 Local Switching. Each circuit to be provided to each End User Customer will be served by a Switch capable of switching local voice traffic.

9.23.4.1.2.2.7 If circumstances change so that the circuit no longer meets the Service Eligibility Criteria, see Section 9.1.13.5.1

9.23.4.2 CLEC Self-Certification for High Capacity EELs

9.23.4.2.1 CLEC shall provide its self-certification through a letter sent to Qwest, or in another form to which the Parties mutually agree in writing. This certification letter will be sent to Qwest prior to ordering or converting the first individual High Capacity Loop in combination, or Commingled, with a Qwest-provided High Capacity transport facility or service under this Agreement. This certification will be updated only when a substantive change to the information in CLEC's self-certification letter impacts compliance with the Service Eligibility Criteria.

9.23.4.2.1.1 In its self-certification letter, CLEC must certify that the Switching equipment is either registered in the LERG as a Class 5 or that it can Switch local voice traffic.

9.23.4.2.1.2 CLEC may satisfy the numbering and 911/E911 criteria to initiate the ordering process for a new EEL circuit by certifying in its letter that it will not begin to provide service until a local number is assigned and 911 or E911 capability is provided.

9.23.4.2.1.3 Qwest will provide unimpeded access to High Capacity EELs based upon self-certification, subject to later verification based upon cause. To the extent that Qwest seeks to challenge CLEC's self-certification of any High Capacity EEL, Qwest shall follow the auditing provisions of Section 9.23.4.3. Qwest may not withhold the facility in question while the challenge is pending.

9.23.4.3 Qwest Service Eligibility Audits for High Capacity EELs

9.23.4.3.1 Service Eligibility Audits. Qwest may perform limited audits ("Service Eligibility Audits") only to the extent reasonably necessary to determine CLEC's compliance with the Service Eligibility Criteria set forth in Section 9.23.4.1. Notwithstanding any other provision of this Agreement, Service Eligibility Audits shall be performed in accordance with the following guidelines:

9.23.4.3.1.1 After CLEC has obtained High Capacity EELs in accordance with Section 9.23.4.1.2, Qwest may conduct a Service Eligibility Audit to ascertain whether those High Capacity EELs comply with the Service Eligibility Criteria set forth in Section 9.23.4.1.2.

9.23.4.3.1.1.1 Qwest shall provide at least thirty (30) Days written

notice to CLEC before commencing a Service Eligibility Audit. At the same time that Qwest provides notice of a Service Eligibility Audit to CLEC under this paragraph, Qwest shall send a copy of the notice to the Federal Communications Commission.

9.23.4.3.1.2 The Parties shall make reasonable efforts to cooperate with each other and the independent auditor during any Service Eligibility Audit. CLEC will maintain appropriate documentation to support the certification described in Section 9.23.4.2.1. However, CLEC has no obligation to keep any records that it does not keep in the ordinary course of its business.

9.23.4.3.1.3 Independent Auditor. An independent auditor shall perform any Service Eligibility Audits. Qwest shall obtain and pay for the independent auditor, except as described in Section 9.23.4.3.1.3.4.

9.23.4.3.1.3.1 To the extent that the Parties dispute the definition of an “independent” auditor and whether a given party satisfies the test for independence, the appropriate forum for this determination is the Commission.

9.23.4.3.1.3.2 The independent auditor must perform its evaluation in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA) and during normal business hours, unless there is a mutual agreement otherwise. This requires the independent auditor to perform an examination engagement and issue an opinion regarding CLEC’s compliance with the Service Eligibility Criteria. The concept of materiality governs the audit. The independent auditor will conclude whether CLEC complied in all material respects with the applicable Service Eligibility Criteria. Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor, which typically include an examination of a sample selected in accordance with the independent auditor’s judgment.

9.23.4.3.1.3.3 If, based upon the audit, Qwest challenges CLEC’s compliance with the Service Eligibility Criteria, Qwest shall provide a copy of the auditor’s report to CLEC within thirty (30) Days from the date of Qwest’s receipt of the report from the auditor. If the Parties disagree as to the findings or conclusions of the auditor’s report, the Parties will follow the Dispute resolution procedures Section 5.18 of this Agreement.

9.23.4.3.1.3.4 To the extent the independent auditor’s report finds that CLEC failed to comply in all material respects with the Service Eligibility Criteria and CLEC does not successfully dispute this finding, CLEC must reimburse Qwest for the cost of the independent auditor.

9.23.4.3.1.3.5 To the extent the independent auditor’s report finds that CLEC complied in material respects with the Service Eligibility

Criteria, Qwest must reimburse CLEC for CLEC's costs associated with the audit, including staff time and other appropriate costs for responding to the audit (e.g., collecting data in response to auditor's inquiries, meeting for interviews, etc.).

9.23.4.3.1.4 Qwest shall not require CLEC to submit to a Service Eligibility Audit prior to Provisioning High Capacity EELs. Qwest shall not conduct a Service Eligibility Audit with respect to CLEC, on more than an annual basis, unless the Service Eligibility Audit finds that CLEC failed to comply in all material respects. For purposes of calculating and applying an "annual basis," "annual basis" shall mean a consecutive 12-month period, beginning with Qwest's written notice pursuant to Section 9.23.4.3.1.1.1 that an audit will be performed. If a Service Eligibility Audit finds non-compliance, Qwest may conduct another Service Eligibility Audit (but no more than one in each quarter). If any subsequent Service Eligibility Audit does not find that CLEC complied in all material respects, then Qwest shall not exercise its Service Eligibility Audit rights for the remainder of the 12-month period.

9.23.4.3.1.5 To the extent the independent auditor's report finds that CLEC failed to comply in all material respects with the Service Eligibility Criteria and CLEC does not successfully dispute this finding, CLEC must true-up any difference in payments paid to Qwest and the rates and charges CLEC would have owed Qwest beginning from the date the non-compliant circuit was established as a UNE or UNE Combination when in fact it was non-complaint, but no earlier than the date on which this Agreement is effective; convert all non-compliant circuits to the appropriate service, and make the correct payments on a going-forward basis.

9.23.4.3.1.5.1 CLEC shall submit orders to Qwest to either convert all non-compliant circuits to the equivalent or substantially similar wholesale service or disconnect non-compliant circuits within thirty (30) Days of the date on which the CLEC receives a copy of the auditor's report, and CLEC shall begin paying the trued-up and correct rates for each converted circuit beginning with the next Billing cycle following Qwest's acceptance of such order, except as described in Section 9.23.4.3.1.5.1.1.

9.23.4.3.1.5.1.1 If CLEC disputes the auditor's finding and initiates a proceeding with the Commission for resolution of the Dispute, in accordance with the Dispute resolution provision of this Agreement (see Section 5.18), no changes shall be made until after a determination is made in the Dispute.

9.23.4.4 Additional Terms for EELs

9.23.4.4.1 EELs may consist of loops and interoffice transport of the same bandwidth (Point-to-Point). When multiplexing is requested, EELs may consist of loops and interoffice transport of different bandwidths (Multiplexed). CLEC may

also order combinations of interoffice transport, concentration capability and DS0 loops.

9.23.4.4.2 When concentration capability is requested, CLEC will purchase the appropriate concentration equipment and provide it to Qwest for installation in the Wire Center.

9.23.4.4.3 Installation intervals for UNE Combinations are set forth in Exhibit C but will be no longer than the respective Private Line Transport Service that Qwest will maintain on the following web-site address: <http://www.qwest.com/carrier/guides/sig/index.html>

9.23.4.4.4 Concentration capability installation intervals will be offered at an ICB.

9.23.4.4.5 EEL is available only where existing facilities are available. If facilities are not available, Section 9.1.2.1 shall apply.

9.23.4.4.6 Upon request Qwest will perform rearrangements as described in Sections 9.23.4.4.6.1 and 9.23.4.4.6.2 below.

9.23.4.4.6.1 The non-recurring charge ("NRC") in Exhibit A for rearrangements will apply for the following conversion-as-specified requests: (1) Roll an existing private line circuit from an existing private line multiplexed facility to a different existing EEL multiplexed facility and convert the private line circuit to EEL; (2) Re-terminate an existing multiplexed private line circuit from one slot to another at the same CLEC's Collocation Alternate Point of Termination (APOT) and convert the multiplexed private line circuit to a multiplexed EEL facility; and (3) Redesign an existing point-to-point private line circuit to ride a different existing multiplexed EEL facility or commingle with an existing private line multiplexed facility; and convert the private line circuit to an EEL Loop. For (1), (2), and (3) in this Section, all work must be performed in the same Qwest Wire Center and the End User Customer's address will not change.

9.23.4.4.6.2 The NRC in Exhibit A for rearrangements will apply when rearranging service on an existing EEL for the following rearrangement requests: (1) move an EEL Loop from one slot to a different slot on the same Multiplexed EEL; (2) re-terminate an EEL from one slot to a different slot at CLEC's Collocation APOT; and (3) Roll an EEL Loop from one multiplexed EEL to a different multiplexed EEL in the same Qwest Wire Center; (4) Redesign an existing DS1 EEL, eliminating the DS1 transport, and re-terminate the DS1 EEL Loop to ride a DS3 multiplexed facility. The DS3 multiplexer must be located in the same Qwest Wire Center that serves the End User Customer's address. For (1), (2), (3) and (4) in this Section, all work must be performed in the same Qwest Wire Center and the End User Customer's address will not change.

9.23.4.5 Ordering Process for EELs

9.23.4.5.1 CLEC will submit orders for EELs using the LSR process. Submission of LSRs is described in Section 12.

9.23.4.5.1.1 Intentionally Left Blank

9.23.4.5.1.2 Qwest shall not require CLEC to provide the local telephone number assignment; evidence of 911/E911 capability; the "A" and "Z" location of the LIS trunks; or the "26 code" (which is the alphanumeric code designated by Qwest for the LIS trunk group) in the ordering process.

9.23.4.5.2 Qwest will install the appropriate channel card based on the DS0 EEL Loop LSR order and apply the charges.

9.23.4.5.3 Requests for Concentration will be submitted using the Virtual Collocation process. Virtual Collocation intervals will be adhered to.

9.23.4.5.4 One (1) LSR is required when CLEC orders Point-to-Point EELs. Qwest may require two (2) service requests when CLEC orders Multiplexed EELs (which are not Point-to-Point) and EEL loops (as part of a multiplexed EEL). Regarding Commingling see Section 24.

9.23.4.5.4.1 Regarding conversion of EELs to Commingled EELs, see also Sections 9.1.13-9.1.15.

9.23.4.5.5 CLEC may request an Out of Hours Coordinated Installation outside of Qwest's normal installation hours pursuant to the terms described in Section 9.2.4.10.

9.23.4.5.6 For expedited orders, see Section 12.2.1.2.

9.23.4.6 Rate Elements for EELs

9.23.4.6.1 EEL Loop. The EEL Loop is the Loop connection between the End User Customer premises and the Serving Wire Center. EEL Loop is available in DS0, DS1 and DS3 bandwidths. The recurring and nonrecurring rates in Exhibit A apply.

9.23.4.6.2 EEL Transport. EEL Transport consists of the dedicated interoffice facilities between Qwest Wire Centers. EEL Transport is available in DS0, DS1, and DS3 bandwidths. The recurring rates in Exhibit A apply.

9.23.4.6.3 EEL multiplexing is offered in DS3 to DS1 and DS1 to DS0 configurations. EEL multiplexing is ordered with EEL Transport. The recurring and nonrecurring rates in Exhibit A apply.

9.23.4.6.3.1 3/1 multiplexing rates are contained in Exhibit A of this Agreement, and include the following:

a) Recurring Multiplexing Charge. The DS3 Central

Office Multiplexer provides de-multiplexing of one DS3 44.736 Mbps to 28 1.544 Mbps channels.

b) Non-recurring Multiplexing Charge. One-time charges apply for a specific work activity associated with installation of the multiplexing service.

9.23.4.6.3.2 1/0 multiplexing rates are contained in Exhibit A of this Agreement, and include the following charges:

a) Recurring Multiplexing Charge. The DS0 Central Office multiplexer provides de-multiplexing of one DS1 1.544 Mbps to 24 64 Kbps channels.

b) Non-recurring Multiplexing Charge. One-time charges apply for a specific work activity associated with installation of the multiplexing service, including low side channelization of all 28 channels.

9.23.4.6.4 DS0 Low Side Channelization and DS0 MUX Low Side Channelization. EEL DS0 Channel Cards are required for each DS0 EEL Loop connected to a 1/0 EEL Multiplexer. Channel Cards are available for analog Loop Start, Ground Start, Reverse Battery and No Signaling.

9.23.4.6.5 Concentration Capability. Concentration Capability rates will be provided as an ICB. Cost recovery includes, but is not limited to, space preparation and space lease, equipment installation, cabling and associated terminations and structure installation, personnel training (if required) and delivery of required power. Recurring and non-recurring charges apply.

9.23.4.6.6 For Commingling see Section 24.

9.23.4.6.7 For Out of Hours Coordinated Installations rate elements, see Section 9.2.3.7.

9.23.4.6.8 A rearrangement nonrecurring charge ("NRC") as described in Exhibit A applies to each rearrangement described in Section 9.23.4.4.6.

9.23.4.7 Maintenance and Repair for UNE Component of Commingled EELs

9.23.4.7.1 When CLEC reports a trouble through any of the means described in Section 12.4.2.2, CLEC may provide both circuit IDs associated with the Commingled EEL in a single trouble report. If CLEC is using CEMR to submit the trouble report, for example, the CLEC will first report one circuit ID (the circuit it believes has the trouble) and include the other circuit ID in the remarks section. Should a second repair ticket be required for the circuit in the remarks section, Qwest will contact CLEC, and they will mutually agree who will open the second repair ticket.

9.23.4.7.1.1 Intentionally Left Blank

9.23.4.7.1.2 Qwest may charge a single Maintenance of Service or Trouble Isolation Charge only if Qwest dispatches and no trouble is found on either circuit associated with the Commingled EEL.

9.23.5 General UNE Combinations Rates and Charges

9.23.5.1 The rates and charges for the individual Unbundled Network Elements that comprise UNE Combinations are contained in Exhibit A for both recurring and non-recurring application.

9.23.5.1.1 Recurring monthly charges for each Unbundled Network Element that comprise the UNE Combination shall apply when a UNE Combination is ordered. The recurring monthly charges for each UNE are contained in Exhibit A.

9.23.5.1.2 Nonrecurring charges, if any, will apply based upon the cost to Qwest of Provisioning the UNE Combination consistent with Section 252(d) of the Act and providing access to the UNE Combination and will be compliant with Existing Rules. These nonrecurring charges, if any, are described in Exhibit A.

9.23.5.1.3 If CLEC elects to use the SR process to obtain access to a different UNE Combination, the recurring rates for the UNE Combination will be no greater than the total of the recurring rates in Exhibit A in that combination, unless Qwest negotiates with CLEC that the particular SR request would require different recurring rates. Any disputes regarding different rates other than in Exhibit A would follow the dispute resolution process outlined in Section 5.18. While any such rate dispute is pending, Qwest shall make the different UNE Combination available at recurring rates for the UNE Combination that are no greater than the total of the recurring rates in Exhibit A in that combination, and those recurring rates will be Interim Rates.

9.23.6 UNE Combinations Ordering Process

9.23.6.1 Ordering processes are contained in Section 12 of this Agreement. The following is a high-level description of the ordering process for UNE Combinations:

9.23.6.1.1 Step 1: Complete product questionnaire with account team representative. See Section 3.

9.23.6.1.2 Step 2: Obtain Billing Account Number (BAN) through account team representative. See Section 21.

9.23.6.1.3 Step 3: Allow 2-3 weeks from Qwest's receipt of a completed questionnaire for accurate loading of UNE Combination rates to the Qwest Billing system.

9.23.6.1.4 Step 4: After account team notification, place UNE Combination orders via an LSR or ASR as appropriate. CLEC will provide the Connecting Facility Assignment (CFA) associated with each circuit pursuant to either Local Service Ordering Guidelines (LSOG) or, Access Service Ordering Guidelines (ASOG). Submission of LSRs and ASRs is addressed in Section 12.

9.23.6.2 Service intervals for each UNE Combination are set forth in Exhibit C. For UNE Combinations with appropriate retail analogues, the Provisioning interval will be no longer than the interval for the equivalent retail service. CLEC and Qwest can separately agree to Due Dates other than the interval.

9.23.6.3 Due Date intervals are established when Qwest receives a complete and accurate LSR or ASR made through the IMA, XML or QORA interfaces or through facsimile. For EEL, and all other UNE Combinations, the date the LSR or ASR is received is considered the start of the service interval if the order is received on a business day prior to 3:00 p.m. For EEL, and all other UNE Combinations, the service interval will begin on the next business day for service requests received on a non-business day or after 3:00 p.m. on a business day. Business days exclude Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day (4th of July), Labor Day, Thanksgiving Day and Christmas Day.

9.23.6.4 Intentionally Left Blank.

9.23.6.5 When Qwest's End User Customer or the End User Customer's New Service Provider orders the discontinuance of the End User Customer's existing service in anticipation of moving to another service provider, Qwest will render its closing bill to its End User Customer effective with the disconnection. If Qwest is not the local service provider, Qwest will issue a bill to CLEC for that portion of the service provided to CLEC, a New Service Provider, or CLEC request service be discontinued to the End User Customer. Qwest will notify CLEC OSS via interface or other agreed upon processes when an End User Customer moves to another service provider. (For Loss and Completion reports, see Section 12.) Qwest shall not provide CLEC or Qwest retail operations or personnel with the name of the other service provider selected by the End User Customer.

9.23.6.6 For UNE Combinations, CLEC shall provide Qwest and Qwest shall provide CLEC with points of contact for order entry, problem resolution, repair, and in the event special attention is required on service request.

9.23.7 Billing

9.23.7.1 For Connectivity Billing, Recording, and Exchange of Information, see Section 21.

9.23.8 UNE Combinations Maintenance and Repair

9.23.8.1 Qwest will maintain facilities and equipment that comprise the service provided to CLEC as a UNE Combination. CLEC or its End User Customers may not rearrange, move, disconnect or attempt to repair Qwest facilities or equipment, other than by connection or disconnection to any interface between Qwest and the End User Customer, without the written consent of Qwest.

9.23.9 Loop-Mux Combination (LMC)

9.23.9.1 Description

9.23.9.1.1 Loop-Mux combination (LMC) is an unbundled Loop as defined in Section 9.2 of this Agreement (referred to in this Section as an LMC Loop) combined with a DS1 or DS3 multiplexed facility with no interoffice transport. The multiplexed facility is provided as an Interconnection Tie Pair (ITP) from the high side of the multiplexer to CLEC's Collocation. The multiplexer and the Collocation must be located in the same Qwest Wire Center.

9.23.9.1.2 LMC provides CLEC with the ability to access End User Customers and aggregate DS1 or DS0 unbundled Loops to a higher bandwidth via a DS1 or DS3 multiplexer. There is no interoffice transport between the multiplexer and CLEC's Collocation.

9.23.9.1.3 Qwest offers the LMC as a Billing conversion or as new Provisioning.

9.23.9.2 Terms and Conditions

9.23.9.2.1 A UNE Extended Enhanced Loop (EEL) may be combined with the multiplexed facility.

9.23.9.2.2 LMC will be provisioned where existing facilities are available or pursuant to the provisions of Section 9.1.2.1 of the Agreement.

9.23.9.2.3 The DS1 or DS3 multiplexed facility must terminate in a Collocation.

9.23.9.2.4 Intentionally Left Blank

9.23.9.2.5 The multiplexer and the Collocation must be located in the same Qwest Wire Center.

9.23.9.2.6 Rearrangements may be requested for work to be performed by Qwest on an existing LMC, or on some private line/special access circuits, when coupled with a conversion-as-specified request to convert to LMC.

9.23.9.3 Rate Elements

9.23.9.3.1 The LMC Loop is the Loop connection between the End User Customer Premises and the multiplexer in the Serving Wire Center where CLEC is Collocated. LMC Loop is available in DS0 and DS1. Recurring and non-recurring charges apply and are contained in section 9.23.6 of Exhibit A.

9.23.9.3.2 LMC multiplexing is offered in DS3 to DS1 and DS1 to DS0 configurations. LMC multiplexing is ordered with LMC Loops. The recurring and nonrecurring rates in Exhibit A apply.

9.23.9.3.2.1 3/1 multiplexing rates are contained in Exhibit A of this Agreement, and include the following:

- a) Recurring Multiplexing Charge. The DS3 Central Office Multiplexer provides de-multiplexing of one DS3 44.736

Mbps to 28 1.544 Mbps channels.

b) Non-recurring Multiplexing Charge. One-time charges apply for a specific work activity associated with installation of the multiplexing service.

9.23.9.3.2.2 1/0 multiplexing rates are contained in Exhibit A of this Agreement, and include the following charges:

a) Recurring Multiplexing Charge. The DS0 Central Office multiplexer provides de-multiplexing of one DS1 1.544 Mbps to 24 64 Kbps channels.

b) Non-recurring Multiplexing Charge. One-time charges apply for a specific work activity associated with installation of the multiplexing service, including low side channelization of all 24 channels.

9.23.9.3.3 DS0 Mux Low Side Channelization. LMC DS0 channel cards are required for each DS0 LMC Loop connected to a 1/0 LMC multiplexer. Channel cards are available for analog loop start, ground start, reverse battery, and no signaling. See channel performance for recurring charges as set forth in Exhibit A.

9.23.9.3.4 Nonrecurring charges for Billing conversions to LMC are set forth in Exhibit A.

9.23.9.3.5 A rearrangement nonrecurring charge as described in Exhibit A may be assessed on some requests for work to be performed by Qwest on an existing LMC, or on some private line/special access circuits, when coupled with a conversion-as-specified request to convert to LMC.

9.23.9.3.6 Out of Hours Project Coordinated Installations For coordinated project installations scheduled to commence out of hours, or rescheduled by CLEC to commence out of hours, in addition to standard nonrecurring charges set forth in Exhibit, CLEC will incur additional charges for the out of hours coordinated installation set forth under Miscellaneous Charges in Section 9 of Exhibit A.

9.23.9.4 **Ordering Process**

9.23.9.4.1 Ordering processes for LMC(s) are contained below and in Section 12 of this Agreement. Qwest will document its ordering processes in Qwest's Product Catalog (PCAT). The following is a high-level description of the ordering process:

9.23.9.4.1.1 Step 1: Complete product questionnaire for LMC (s) with account team representative.

9.23.9.4.1.2 Step 2: Obtain Billing account number (BAN) through account team representative.

9.23.9.4.1.3 Step 3: Allow two (2) to three (3) weeks from Qwest's receipt of a completed questionnaire for accurate loading of LMC rates to the Qwest Billing system.

9.23.9.4.1.4 Step 4: After account team notification, place LMC orders via an LSR.

9.23.9.4.2 Intentionally Left Blank

9.23.9.4.3 Standard service intervals for LMC Loops are in the Service Interval Guide (SIG) available at www.qwest.com/wholesale.

9.23.9.4.4 Due date intervals are established when Qwest receives a complete and accurate LSR made through the IMA and XML interfaces or through facsimile. For LMC, the date the LSR is received is considered the start of the service interval if the order is received on a business Day prior to 3:00 p.m. For LMC, the service interval will begin on the next business Day for service requests received on a non-business day or after 3:00 p.m. on a business day. Business Days exclude Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day (4th of July), Labor Day, Thanksgiving Day and Christmas Day.

9.23.9.4.5 Out of Hours Project Coordinated Installations: CLEC may request an out of hours Project Coordinated Installation. This permits CLEC to obtain a coordinated installation for LMC with installation work performed by Qwest outside of Qwest's standard installation hours. For purposes of this Section, Qwest's standard installation hours are 8:00 a.m. to 5:00 p.m. (local time), Monday through Friday, except holidays. Installations commencing outside of these hours are considered to be out of hours Project Coordinated Installations.

9.23.9.4.5.1 Intentionally Left Blank

9.23.9.4.5.2 To request out of hours Project Coordinated Installations, CLEC will submit an LSR designating the desired appointment time. CLEC must specify an out of hours Project Coordinated Installation in the "remarks" section of the LSR.

9.23.9.5 Billing

9.23.9.5.1 For Connectivity Billing, Recording, and Exchange of Information, see Section 21.

9.23.9.6 Maintenance and Repair

9.23.9.6.1 Qwest will maintain facilities and equipment for LMC provided under this Agreement. CLEC or its End User Customers may not rearrange, move, disconnect or attempt to repair Qwest facilities or equipment, other than by connection or disconnection to any interface between Qwest and the End User Customer, without the prior written consent of Qwest.

9.24 Loop Splitting

9.24.1 Description

Loop Splitting provides CLEC/DLEC with the opportunity to offer advanced data service simultaneously with voice over an existing Unbundled Loop by using the frequency range above the voice band on the copper Loop. The advanced data service may be provided by the Customer of record or another data service provider chosen by the Customer of record. The POTS Splitter separates the voice and data traffic and allows the copper Loop to be used for simultaneous DLEC data transmission and CLEC provided voice service to the End User Customer. "CLEC" will herein be referred to as the voice service provider while "DLEC" will be referred to as the advanced data service provider. CLEC and DLEC may be the same entity. Only one (1) Customer of record determined by the CLEC/DLEC partnership will be identified to Qwest.

9.24.1.1 With regard to Qwest current requirement that Loop Splitting be offered over an existing Unbundled Loop, Qwest acknowledges that there are ongoing industry discussions regarding the Provisioning of Loop Splitting over a new Unbundled Loop. If as a result of those discussions, a process is developed for Loop Splitting over a new Loop, Qwest will negotiate an amendment to this Agreement at CLEC's request to eliminate the limitation of Loop Splitting to existing Unbundled Loops. Requests for other Loop Splitting applications must be submitted through the Special Request Process (SRP).

9.24.2 Loop Splitting General Terms

9.24.2.1 General

9.24.2.1.1 Qwest is not responsible for providing the Splitter, filter(s) and/or other equipment necessary for the End User to receive separate voice and data service across a single copper Loop.

9.24.2.1.2 To order Loop Splitting, CLEC/DLEC must have a POTS Splitter installed in the Qwest Wire Center that serves the End User Customer. The POTS Splitter must meet the requirements for Central Office equipment Collocation set by the FCC or be compliant with ANSI T1.413.

9.24.2.1.3 There may only be one DLEC at any given time that provides advanced data service on any given Unbundled Loop.

9.24.2.1.4 If Loop Splitting is requested for an analog Loop, the Loop must be converted to a 2/4 wire non-loaded Loop or ADSL compatible Loop.

9.24.2.1.4.1 The Customer of record will be able to request conditioning of the Unbundled Loop. Qwest will perform requested conditioning of Unbundled Loops to remove load coils and excess Bridged Taps under the terms and conditions associated with Loop conditioning contained in Section 9.2 of this Agreement.

9.24.2.1.4.2 If requested conditioning significantly degrades the existing service over the Unbundled Loop to the point that it is

unacceptable to CLEC, Customer of record shall pay to convert back to an analog Loop.

9.24.2.1.5 POTS Splitters may be installed in Qwest Wire Centers in either of the following ways at the discretion of CLEC/DLEC: (a) via the standard Collocation arrangements set forth in the Collocation Section; or (b) via Common Area Splitter Collocation as set forth in the Line Sharing Section of this Agreement. Under either option, POTS Splitters will be appropriately hard-wired or pre-wired so that points of termination are kept to a minimum. For Loop Splitting, Qwest shall use the same length of tie pairs as it uses for Line Sharing, except for the additional CLEC to CLEC connection, which is not required for Line Sharing.

9.24.2.1.6 POTS Splitter Collocation requirements are covered in the Line Sharing Section of this Agreement.

9.24.3 Loop Splitting Rate Elements

The following Loop Splitting rate elements are contained in Exhibit A of this Agreement.

9.24.3.1 Recurring Rates for Loop Splitting

9.24.3.1.1 Interconnection TIE Pairs (ITP)- A monthly recurring charge to recover the costs associated with the use of ITPs. See Section 9.1 of Exhibit A.

9.24.3.1.2 OSS Charge – A monthly recurring charge to recover the cost of the OSS modifications necessary to provide access to the high frequency portion of the Unbundled Loop. See Section 9.4.4 of Exhibit A.

9.24.3.2 Non-recurring Rates for the Loop Splitting

9.24.3.2.1 Basic Installation Charge for Loop Splitting – A non-recurring charge for Loop Splitting installed will apply.

9.24.3.3 Non-recurring Rates for Maintenance and Repair

9.24.3.3.1 Trouble Isolation Charge – A non-recurring charge for Trouble Isolation will be applied in accordance with the Support Functions – Maintenance and Repair Section.

9.24.3.3.2 Additional Testing – The Customer of record may request Qwest to perform additional testing, and Qwest may decide to perform the requested testing on a case-by-case basis. A non-recurring charge will apply in accordance with Exhibit A.

9.24.3.4 Rates for POTS Splitter Collocation are included in Exhibit A of this Agreement.

9.24.3.5 Exhibit A identifies the rates that have been approved by the Commission. The other rates are interim and will be subject to true-up based on either mutually agreed permanent rates or permanent rates established in a cost proceeding conducted by the Commission. In the event interim rates are established by the

Commission before permanent rates are set, the interim rates set forth in Exhibit A will be changed to reflect the interim rates set by the Commission; however, no true up will be performed until mutually agreed to permanent rates are established or permanent rates are established by the Commission.

9.24.4 Loop Splitting Ordering Process

9.24.4.1 Loop Splitting

9.24.4.1.1 As a part of the pre-order process, CLEC/DLEC may access Loop characteristic information through the Loop Information Tool described in Section 12. The Customer of record will determine, in its sole discretion and at its risk, whether to add data services to any specific Unbundled Loop.

9.24.4.1.2 The Customer of record will provide on the LSR, the appropriate frame terminations that are dedicated to POTS Splitters. Qwest will administer all cross connects/jumpers on the COSMIC/MDF and IDF.

9.24.4.1.3 Basic Installation “lift and lay” procedure will be used for all Loop Splitting orders. Under this approach, a Qwest technician “lifts” the Loop from its current termination in a Qwest Wire Center and “lays” it on a new termination connecting to CLEC’s/DLEC’s collocated equipment in the same Wire Center.

9.24.4.1.4 The Customer of record shall not place orders for Loop Splitting until all work necessary to provision Loop Splitting in a given Qwest Wire Center, including, but not limited to, POTS Splitter installation and TIE Cable reclassification or augmentation has been completed.

9.24.4.1.5 The Customer of record shall submit the appropriate LSRs associated with establishing Unbundled Loop and Loop Splitting.

9.24.4.1.6 If a Loop Splitting LSR is placed to change from Line Sharing to Loop Splitting or to change the voice provider in an existing Loop Splitting arrangement and the data provider does not change or move Splitter location, the data service will not be interrupted.

9.24.5 Billing

9.24.5.1 For Connectivity Billing, Recording, and Exchange of Information, see Section 21.

9.24.5.2 Qwest shall bill the Customer of record for all recurring and non-recurring Loop Splitting rate elements.

9.24.6 Repair and Maintenance

9.24.6.1 Qwest will allow CLEC/DLEC to access Loop Splitting at the point where the combined voice and data Loop is cross connected to the POTS Splitter.

9.24.6.2 The Customer of record will be responsible for reporting to Qwest

service troubles provided over Loop Splitting. Qwest will be responsible to repair troubles on the physical line between Network Interface Devices at the End User Customer premises and the Demarcation Point in Qwest Wire Centers. Qwest, CLEC and DLEC each will be responsible for maintaining its equipment. The entity that controls the POTS Splitters will be responsible for their maintenance.

9.24.6.3 Qwest, CLEC and DLEC will continue to develop repair and maintenance procedures for Loop Splitting and agree to document final agreed to procedures in a methods and procedures document that will be made available on Qwest's web site.

9.24.7 Customer of Record and Authorized Agents

9.24.7.1 "Customer of record" is defined for the purposes of this Section 9.24 as the CLEC that is the billed Customer for Loop Splitting. The Customer of record may designate an authorized agent pursuant to the terms of Sections 9.24.7.2 and 9.24.7.3 to perform ordering and/or Maintenance and Repair functions.

9.24.7.2 In order for the authorized agent of the Customer of record to perform ordering and/or Maintenance and Repair functions, the Customer of record must provide its authorized agent the necessary access and security devices, including but not limited to user identifications, digital certificates and SecurID cards, that will allow the authorized agent to access the records of the Customer of record. Such access will be managed by the Customer of record.

9.24.7.3 The Customer of record shall hold Qwest harmless with regard to any harm Customer of record as a direct and proximate result of the acts or omissions of the authorized agent of the Customer of record or any other Person who has obtained from the Customer of record the necessary access and security devices, including but not limited to user identifications, digital certificates and SecurID cards, that allow Person to access the records of the Customer of record unless such access and security devices through the Customer of record were wrongfully obtained by such Person through the willful or negligent behavior of Qwest.

SECTION 10.0 - ANCILLARY SERVICES

10.1 Reserved for Future Use

10.2 Local Number Portability

10.2.1 Description

10.2.1.1 Local Number Portability (LNP) is defined by the FCC as the ability of users of Telecommunications Services to retain, at the same location, existing Telecommunications numbers without impairment of quality, reliability, or convenience when switching from one Telecommunications Carrier to another.

10.2.1.2 Qwest uses the Location Routing Number (LRN) architecture. Under the LRN architecture, each Switch is assigned a unique ten-digit LRN, the first six digits of which identify the location of that Switch. The LRN technology is a triggering and addressing method which allows the re-homing of individual telephone numbers to other Switches and ensures the proper routing of calls to ported telephone numbers through the use of a database and the signaling network. The LRN solution interrupts call processing through the use of an Advanced Intelligent Network (AIN) trigger, commonly referred to as the LRN trigger. During this interruption, a query is launched to the LNP database in the signaling network and the call is re-addressed using the LRN information for the ported telephone number. The LRN will route the call to the proper Switch destination. The actual routing of the call with either the dialed number, for calls to non-ported numbers, or the LRN, for calls to ported numbers, observes the rules, protocols and requirements of the existing Public Office Dialing Plan (PODP).

10.2.2 Terms and Conditions

10.2.2.1 Qwest will provide Local Number Portability (LNP), also known as long-term number portability, in a non-discriminatory manner in compliance with the FCC's rules and regulations and the guidelines of the FCC's North American Numbering Council's (NANC) Local Number Portability Administration (LNPA) Working Group and the Industry Numbering Committee (INC) of the Alliance for Telecommunications Industry Solutions (ATIS). Unless specifically excluded in Section 10.2.2.6, all telephone numbers assigned to an End User Customer are available to be ported through LNP. Mass calling events shall be handled in accordance with the industry's non-LRN recommendation (NANC's High Volume Call-In Networks dated February 18, 1998.)

10.2.2.2 Each Party shall use reasonable efforts to facilitate the expeditious deployment of LNP. The Parties shall comply with the processes and implementation schedules for LNP deployment prescribed by the FCC. In accordance with industry guidelines, the publications of LNP capable Switches and the schedule and status for future deployment will be identified in the Local Exchange Routing Guide (LERG).

10.2.2.3 In connection with the provision of LNP, the Parties agree to support and comply with all relevant requirements or guidelines that are adopted by the FCC, or that are agreed to by the Telecommunications industry as a national industry standard.

10.2.2.4 Qwest will coordinate LNP with Unbundled Loop cutovers in a reasonable amount of time and with minimum service disruption, pursuant to Unbundled Loop

provisions identified in Section 9 of this Agreement. CLEC will coordinate with Qwest for the return of the Qwest Unbundled Loop coincident with the transfer of the Customer's service to Qwest in a reasonable amount of time and with minimum service disruption. For coordination with Loops not associated with Qwest's Unbundled Loop offering, CLEC may order the LNP Managed Cut, as described in Section 10.2.5.4.

10.2.2.4.1 Parties understand that there are situations in which LNP order activity must be coordinated with facilities cutovers in order to ensure that the End User Customer is provided with uninterrupted service. If the Party porting the telephone number experiences problems with its Port or provision of its Loop, and needs to delay or cancel the Port and any Loop disconnection, that Party shall notify the other Party immediately. Parties will work cooperatively and take prompt action to delay or cancel the Port and any Loop disconnection in accordance with industry (LNPA's National Number Porting Operations Team), accepted procedures to minimize End User Customer service disruptions. In the event that some, but not all, ports complete successfully (for a partial or complete failure), CLEC may request either that only those telephone numbers that failed the Port be reworked by the Parties or that all the telephone numbers be reworked.

10.2.2.4.2 Parties shall transmit a port create subscription or port concurrence message to the NPAC, in accordance with the FCC's LNPA Working Group's guidelines. Qwest will routinely send a concurrence message within the time frames established by the industry.

10.2.2.5 The Parties agree to implement LNP within the guidelines set forth by the generic technical requirements for LNP as specified in Section 23 of this Agreement.

10.2.2.6 Neither Party shall be required to provide number portability for numbers that are excluded by FCC rulings (e.g., 500 and 900 NPAs, 950 and 976 NXX number services).

10.2.2.7 After an end-office becomes equipped with LNP, all NXXs assigned to that end office will be defined as portable, to the extent Technically Feasible, and translations will be changed in each Party's Switches so that the portable NXXs are available for LNP database queries. When an NXX is defined as portable, it will also be defined as portable in all LNP-capable Switches that have direct trunks to the end office associated with the portable NXX.

10.2.2.8 Each Party shall offer number portability to Customers for any portion of an existing DID block without being required to port the entire block of DID numbers at no additional charge. Each Party shall permit Customers who port a portion of DID numbers to retain DID service on the remaining portion of the DID numbers.

10.2.2.9 At the time of porting a number via LNP from Qwest, Qwest shall ensure that the LIDB entry for that number is de-provisioned if the Qwest LIDB is not being used by CLEC.

10.2.2.10 Both Parties agree to follow the LNP Switch request process established by the Parties and in compliance with industry guidelines.

10.2.2.11 NXX Migration, or Local Exchange Routing Guide Reassignment, reassigns the entire Central Office Code (NXX) to the CLEC Switch if the code is used solely for one End User Customer. Where one Party has activated an entire NXX for a single End User Customer, or activated a substantial portion of an NXX for a single End User Customer with the remaining numbers in the NXX either reserved for future use or otherwise unused, if such End User Customer chooses to receive service from the other Party, the first Party shall cooperate with the second Party to have the entire NXX reassigned to an End Office operated by the second Party through the NANP administrator. In addition, both Parties agree to cooperate in arranging necessary updates and industry notification in the LERG (and associated industry databases, routing tables, etc.). Such transfer will be accomplished with appropriate coordination between the Parties and subject to appropriate industry lead-times (as identified in the LERG and the Central Office Code Administration guidelines) for movement of NXXs from one Switch to another. Other applications of NXX migration will be discussed by the Parties as circumstances arise.

10.2.2.12 In connection with all LNP requests, the Parties agree to comply with the National Emergency Number Association (NENA) recommended standards for service provider Local Number Portability (NENA-02-011), as may be updated from time to time, regarding unlocking and updating End User Customers' telephone number records in the 911/Automatic Location Information (ALI) database. The current provider shall send the 911 unlock record on the completion date of the order to the 911 database administrator.

10.2.2.13 Porting of Reserved Numbers. The Customers of each Party may port Reserved Numbers from one Party to the other Party via LNP. Qwest will port numbers previously reserved by the Customer via the appropriate retail Tariffs until these reservations expire. Qwest will no longer reserve numbers for End User Customers.

10.2.2.14 Limits on Subscriber Relocation. Qwest and CLEC agree that a Customer may geographically relocate at the same time as it ports its telephone number, using LNP, to the New Service Provider; provided, however, that the Current Service Provider may require that the Customer's relocation at the time of the port to the New Service Provider be limited to the geographic area represented by the NXX of the ported telephone number. The Current Service Provider may not impose a relocation limitation on the New Service Provider or the New Service Provider's subscribers that is more restrictive than that which the Current Service Provider would impose upon its own subscribers with telephone numbers having the same NXX as the telephone number(s) being ported. In addition, the Current Service Provider may not impose any restrictions on relocation within the same Rate Center by a ported End User Customer while that End User Customer is served by the New Service Provider.

10.2.3 Service Management System

10.2.3.1 Each Party shall sign the appropriate NPAC user agreement(s) and obtain certification from the appropriate NPAC administrator(s) that the Party or the Party's Service Order Administration (SOA) and Local Service Management System (LSMS) vendor(s) has systems and equipment that are compatible with the NPAC's established protocols and that the application of such systems and equipment is compatible with the NPAC.

10.2.3.2 Each Party shall cooperate to facilitate the administration of the SMS through

the process prescribed in the documents referenced in Section 23.

10.2.4 Database and Query Services

10.2.4.1 Qwest shall perform default LNP queries where CLEC is unable to perform its own query. CLEC shall perform default LNP queries where Qwest is unable to perform its own query. Qwest query services and charges are defined in FCC Tariff #1, including End Office and Tandem Default Query Charges which are contained in Tariff Section 13 (Miscellaneous Service) and Database Query Charges which are contained in Tariff Section 20 (CCSAC Service applications). CLEC shall charge Qwest for default LNP queries at a reciprocal rate.

10.2.4.2 For local calls to a NXX in which at least one number has been ported via LNP at the request of CLEC, the Party that owns the originating Switch shall query an LNP database as soon as the call reaches the first LNP capable Switch in the call path. The Party that owns the originating Switch shall query on a local call to a NXX in which at least one number has been ported via LNP prior to any attempts to Route the call to any other Switch. Prior to the first number in a NXX being ported via LNP at the request of CLEC, Qwest may query all calls directed to the NXX, subject to the Billing provisions as discussed in Section 10.2.4.1 and provided that Qwest queries shall not adversely affect the quality of service to CLEC's Customers or End User Customers as compared to the service Qwest provides its own Customers and End User Customers.

10.2.4.3 A Party shall be charged for a LNP query by the other Party only if the Party to be charged is the N-1 Carrier and it was obligated to perform the LNP query but failed to do so. Parties are not obligated to perform the LNP query prior to the first port in a NXX.

10.2.4.4 On calls originating from a Party's network, the Party will populate, if Technically Feasible, the Jurisdiction Information Parameter (JIP) with the first six digits of the originating LRN in the SS7 Initial Address Message.

10.2.4.5 Each Party shall cooperate in the process of porting numbers from one Carrier to another so as to limit service outage for the ported subscriber. Each Party shall update its LNP database from the NPAC SMS data within fifteen (15) minutes of receipt of a download from the NPAC SMS.

10.2.5 Ordering

10.2.5.1 Both Parties shall comply with ordering standards as developed by the industry and as described in Section 12 of this Agreement. LNP service is ordered via a Local Service Request and associated Number Portability forms. CLEC may order long term number portability either manually or through an electronic interface. The electronic gateway solution for ordering service is described in Section 12 of this Agreement.

10.2.5.2 Standard Due Date Intervals. Service intervals for LNP are described below. These intervals include the time for Firm Order Confirmation (FOC). Orders received after 7:00 p.m. (Mountain Time) are considered the next business day. The following service intervals have been established for Local Number Portability:

| | Telephone Numbers To Port | Interval* |
|---|------------------------------|---|
| Simple (1FR/1FB) | 1-10 | 3 business days (includes FOC 24 hr interval) |
| | 11-50 | 4 business days (includes FOC 24 hr interval) |
| | 51 or more | ICB |
| Complex (PBX Trunks, ISDN, Centrex) | 1-25 | 5 business days (includes FOC 24 hr interval) |
| | 26 or more | ICB |

*Intervals for LNP with Unbundled Loops shall be governed by Section 9.2.4.4 of this Agreement.

10.2.5.3 Most LNP order activity is flow-through, meaning that the ten (10) digit unconditional trigger, or Line Side attribute (LSA) trigger, can be set automatically. CLEC may request any Due Date/Frame Due Time (DD/FDT) where the trigger can be set automatically, although there may be some instances when Qwest or the Number Portability Administration Center/Service Management System (NPAC/SMS) will provide prior electronic notice of specific blocks of time which cannot be used as a DD/FDT due to scheduled maintenance or other circumstances. If the DD/FDT on a flow-through cut is outside Qwest's normal business hours for LNP, Qwest will have personnel available in the repair center to assist in the event that CLEC experiences problems during the cut. In addition, Qwest allows CLEC to request a Managed Cut on a 24 X 7 basis in those situations where a cut would otherwise have been flow-through, but where CLEC has a business need to have Qwest personnel dedicated to the cut. The terms and conditions for Managed Cuts are described in 10.2.5.4.

10.2.5.3.1 Qwest will set the ten (10) digit unconditional trigger for numbers to be ported, unless technically infeasible, by 11:59 p.m. (local time) on the business day preceding the scheduled port date. (A 10-digit unconditional trigger cannot be set for DID services in 1AESS, AXE10, and DMS10 Switches thus managed cuts are required, at no charge.) The ten (10) digit unconditional trigger and Switch translations associated with the End User Customer's telephone number will not be removed, nor will Qwest disconnect the Customer's Billing and account information, until 11:59 p.m. (local time) of the next business day after the Due Date. CLEC is required to make timely notifications of Due Date changes or cancellations by 8:00 p.m. mountain time on the Due Date through a supplemental LSR order. In the event CLEC does not make a timely notification, CLEC may submit a late notification to Qwest as soon as possible but in no event later than 12:00 p.m. mountain time the next business day after the Due Date to Qwest's Interconnect Service Center in the manner set forth below. For a late notification properly submitted, Qwest agrees to use its best

efforts to ensure that the End User Customer's service is not disconnected prior to 11:59 p.m. (local time) of the next business day following the new Due Date or, in the case of cancellation, no disruption of the End User Customer's existing service. Late notifications must be made by calling Qwest's Interconnect Service Center followed by CLEC submitting a confirming supplemental LSR order.

10.2.5.4 CLEC requested LNP Managed Cut: A CLEC requested Managed Cut permits CLEC to select a project Managed Cut for its LNP request. Managed Cuts are offered on a 24 X 7 basis.

10.2.5.4.1 The date and time for the Managed Cut requires up-front planning and may need to be coordinated between Qwest and CLEC. All requests will be processed on a first come, first served basis and are subject to Qwest's ability to meet a reasonable demand. Considerations such as system down time, Switch upgrades, Switch maintenance, and the possibility of other CLECs requesting the same FDT in the same Switch (Switch contention) must be reviewed. In the event that any of these situations would occur, Qwest will coordinate with CLEC for an agreed upon FDT, prior to issuing the Firm Order Confirmation (FOC). In special cases where a FDT must be agreed upon, the interval to reach agreement will not exceed two (2) Days. In addition, the standard intervals in Section 10.2.5.2 will apply.

10.2.5.4.2 CLEC shall request a Managed Cut by submitting a Local Service Request (LSR) and designating this order as a Managed Cut in the remarks section of the LSR form.

10.2.5.4.3 CLEC will incur charges for the CLEC requested Managed Cut dependent upon the FDT. The rates are based upon whether the request is within Qwest's normal business hours or out of hours. Qwest's normal business hours are 7:00 a.m. to 7:00 p.m., Monday through Friday and 7:00 a.m. to 6:00 p.m., Saturday, End User Customer local time. The rate for CLEC requested Managed Cuts during normal business hours is the standard rate. The rate for CLEC requested Managed Cuts out of hours, except for Sundays and Holidays, is the overtime rate. Sundays and Holidays are at premium rate.

10.2.5.4.4 Charges for CLEC requested Managed Cuts shall be based upon actual hours worked in one half (½) hour increments. If the time to perform the CLEC requested Managed Cut is extended due to a Qwest error, Qwest will not charge CLEC for the additional time. Exhibit A of this Agreement contains the rates for Managed Cuts. CLEC understands and agrees that in the event CLEC does not make payment for CLEC requested Managed Cuts, unless disputed as permitted under Sections 5.4 and 21 of the Agreement, Qwest may choose not to accept any new LSR requests for Managed Cuts.

10.2.5.4.5 Qwest will schedule the appropriate number of employees prior to the cut, normally not to exceed three (3) employees, based upon information provided by CLEC. CLEC will also have appropriate personnel scheduled for the negotiated FDT. If CLEC's information is modified during the cut, and, as a result, non-scheduled employees are required, CLEC shall be charged a three (3) hour minimum callout charge per each additional non-scheduled employee. If the cut is either cancelled, or supplemented (supp) to change the Due Date, within twenty four (24) hours of the negotiated FDT, CLEC will be charged a one

Person three (3) hour minimum charge. If the cut is cancelled due to a Qwest error or a new Due Date is requested by Qwest, within twenty-four (24) hours of the negotiated FDT, Qwest may be charged by CLEC one Person three (3) hour minimum charge as set forth in Exhibit A.

10.2.5.4.6 In the event that the LNP Managed Cut conversion is not successful, CLEC and Qwest agree to isolate and fix the problem in a timeframe acceptable to CLEC or the Customer. If the problem cannot be corrected within an acceptable timeframe to CLEC or the Customer, CLEC may request the restoration of Qwest service for the ported Customer. Such restoration shall begin immediately upon request. If CLEC is in error then a supplemental order shall be provided to Qwest. If Qwest is in error, no supplemental order or additional order will be required of CLEC.

10.2.5.4.7 Qwest shall ensure that any LNP order activity requested in conjunction with a Managed Cut shall be implemented in a manner that avoids interrupting service to the End User Customer, including, without limitation, ensuring that the End User Customer's Qwest Loop will not be disconnected prior to confirmation that the CLEC Loop has been successfully installed.

10.2.5.5 Qwest Requested LNP Managed Cut: A Qwest Requested Managed Cut permits Qwest to select a project Managed Cut for its LNP request.

10.2.5.5.1 The date and time for the Managed Cut requires up-front planning and may need to be coordinated between Qwest and CLEC. All requests will be processed on a first come, first served basis and are subject to CLEC's ability to meet a reasonable demand. Considerations such as system down time, Switch upgrades, Switch maintenance, and the possibility of other Carriers requesting the same FDT in the same Switch (Switch contention) must be reviewed. In the event that any of these situations would occur, CLEC will coordinate with Qwest for an agreed upon FDT, prior to issuing the Firm Order Confirmation (FOC). In special cases where a FDT must be agreed upon, the interval to reach agreement will not exceed two (2) Days. In addition, the standard intervals in Section 10.2.5.2 will apply.

10.2.5.5.2 Qwest shall request a Managed Cut by submitting a Local Service Request (LSR) and designating this order as a Managed Cut in the remarks section of the LSR form.

10.2.5.5.3 Qwest will incur charges for the Qwest requested Managed Cut dependent upon the FDT. The rates are based upon whether the request is within Qwest's normal business hours or out of hours. Qwest's normal business hours are 7:00 a.m. to 7:00 p.m., Monday through Friday and 7:00 a.m. to 6:00 p.m., Saturday, End User Customer local time. The rate for Qwest requested Managed Cuts during normal business hours is the standard rate. The rate for Qwest requested Managed Cuts out of hours, except for Sundays and Holidays, is the overtime rate. Sundays and Holidays are at premium rate.

10.2.5.5.4 Charges for Qwest requested Managed Cuts shall be based upon actual hours worked in one half (½) hour increments. If the time to perform the Managed Cut is extended due to CLEC error, CLEC will not charge Qwest for the

additional time. Exhibit A of this Agreement contains the rates for Managed Cuts. Qwest understands and agrees that in the event Qwest does not make payment for Qwest requested Managed Cuts, unless disputed as permitted under Sections 5.4 and 21 of the Agreement, CLEC may choose not to accept any new LSR requests for Managed Cuts.

10.2.5.5.5 CLEC will schedule the appropriate number of employees prior to the cut, normally not to exceed three (3) employees, based upon information provided by Qwest. Qwest will also have appropriate personnel scheduled for the negotiated FDT. If Qwest's information is modified during the cut, and, as a result, non-scheduled employees are required, Qwest shall be charged a three (3) hour minimum callout charge per each additional non-scheduled employee. If the cut is either cancelled, or supplemented (supp) to change the Due Date, within twenty four (24) hours of the negotiated FDT, Qwest will be charged a one Person three (3) hour minimum charge. If the cut is cancelled due to a CLEC error or a new Due Date is requested by CLEC, within twenty-four (24) hours of the negotiated FDT, CLEC may be charged by Qwest one Person three (3) hour minimum charge as set forth in Exhibit A.

10.2.5.5.6 In the event that the LNP Managed Cut conversion is not successful, CLEC and Qwest agree to isolate and fix the problem in a timeframe acceptable to Qwest or the Customer. If the problem cannot be corrected within an acceptable timeframe to Qwest or the Customer, Qwest may request the restoral of CLEC service for the ported Customer. Such restoration shall begin immediately upon request. If Qwest is in error then a supplemental order shall be provided to CLEC. If CLEC is in error, no supplemental order or additional order will be required of Qwest.

10.2.5.5.7 CLEC shall ensure that any LNP order activity requested in conjunction with a Managed Cut shall be implemented in a manner that avoids interrupting service to the End User Customer, including, without limitation, ensuring that the End User Customer's CLEC Loop (not leased from Qwest) will not be disconnected prior to confirmation that the Qwest Loop has been successfully installed.

10.2.5.6 Qwest Initiated LNP Managed Cut: A Qwest Initiated Managed Cut occurs when a number is ported from Qwest to CLEC and one of the following situations applies: (1) the 10-digit unconditional trigger or Line Side Attribute (LSA) cannot be set; (2) the CLEC port request for an account exceeds 2000 Telephone Numbers (TNs); or (3) the CLEC port request for an account exceeds 200 trunks.

10.2.5.6.1 A Qwest Initiated Managed Cut will occur during normal business hours. Qwest's normal business hours are 7:00 a.m. to 7:00 p.m., Monday through Friday and 7:00 a.m. to 6:00 p.m., Saturday, End User Customer local time. If CLEC requests a FDT that is outside the normal business hours, the term, conditions and prices of the LNP Managed Cut in Section 10.2.5.4.3 will apply.

10.2.5.6.2 There is no charge to CLEC for a Qwest Initiated Managed Cut.

10.2.5.6.3 Qwest shall ensure that any LNP order activity requested in conjunction with a Managed Cut shall be implemented in a manner that avoids interrupting service to the End User Customer, including, without limitation, ensuring that the End User Customer's Qwest Loop will not be disconnected prior to confirmation that the CLEC Loop has been successfully installed.

10.2.5.7 **CLEC Initiated LNP Managed Cut:** A CLEC Initiated Managed Cut occurs when a number is ported from CLEC to Qwest and one of the following situations applies: (1) the 10-digit unconditional trigger or Line Side Attribute (LSA) cannot be set; (2) the CLEC port request for an account exceeds 2000 Telephone Numbers (TNs); or (3) the CLEC port request for an account exceeds 200 trunks.

10.2.5.7.1 A CLEC Initiated Managed Cut will occur during normal business hours. Normal business hours are 7:00 a.m. to 7:00 p.m., Monday through Friday and 7:00 a.m. to 6:00 p.m., Saturday, End User Customer local time. If Qwest requests a (FDT) that is outside the normal business hours; the terms, conditions and prices of the LNP Managed Cut in section 10.2.5.5.3 will apply.

10.2.5.7.2 There is no charge to Qwest for a CLEC Initiated Managed Cut.

10.2.5.7.3 CLEC shall ensure that any LNP order activity requested in conjunction with a Managed Cut shall be implemented in a manner that avoids interrupting service to the End User Customer, including, without limitation, ensuring that the End User Customer's CLEC Loop (not leased from Qwest) will not be disconnected prior to confirmation that the Qwest Loop has been successfully installed.

10.2.6 Maintenance and Repair

10.2.6.1 Each Party is responsible for its own End User Customers and will have the responsibility for resolution of any service trouble report(s) from its End User Customers. End User Customers will be instructed to report all cases of trouble to their Service Provider.

10.2.6.2 Each Party will provide their respective End User Customers the correct telephone numbers to call for access to their respective repair bureaus. Each Party will provide their repair contact numbers to one another on a reciprocal basis.

10.2.6.3 Qwest will work cooperatively with CLEC to isolate and resolve trouble reports. When the trouble condition has been isolated and found to be within a portion of the Qwest network, Qwest will perform standard tests and isolate and repair the trouble within twenty-four (24) hours of receipt of the report.

10.2.6.3.1 If a telephone number has been inadvertently disconnected in the Qwest Switch prior to the Port being activated by CLEC on the Due Date or the next business day after the Due Date, Qwest shall take expeditious action to restore the Switch translations and the ten (10) digit unconditional trigger for the End User Customer's telephone number. For LSRs involving residential service (i.e., 1FR) LNP-only (i.e., LNP with a CLEC-provided Loop), Qwest shall restore the Switch translations and the ten (10) digit unconditional trigger within four (4)

business hours of notification by CLEC when such notification is received on the Due Date or prior to the end of the next business day after the Due Date.

10.2.6.4 Qwest will proactively test new Switch features and service offerings to ensure there are no problems with either the porting of numbers or calls from Qwest Customers to CLEC Customers with ported numbers or vice versa.

10.2.7 Rate Elements

10.2.7.1 Qwest will comply with FCC and Commission rules on cost recovery for long term number portability.

10.2.8 Intentionally Left Blank.

10.2.9 Intentionally Left Blank.

10.3 911/E911 Service

10.3.1 Description

10.3.1.1 911 and E911 provides an End User Customer access to the applicable emergency service bureau, where available, by dialing a 3-digit universal telephone number (911).

10.3.1.2 Automatic Location Identification/Data Management System (ALI/DMS). The ALI/DMS database contains End User Customer information (including name, address, telephone number, and sometimes special information from the local service provider or End User Customer) used to determine to which Public Safety Answering Point (PSAP) to Route the call. The ALI/DMS database is used to provide more routing flexibility for E911 calls than Basic 911.

10.3.1.3 Basic 911 directly connects to the PSAP all 911 calls from one or more local exchange Switches that serve a geographic area. E911 provides additional Selective Routing flexibility for 911 calls. E911 uses End User Customer data, contained in the ALI/DMS, to determine to which Public Safety Answering Point (PSAP) to Route the call.

10.3.2 Terms and Conditions

10.3.2.1 Qwest will provide nondiscriminatory access to the same Basic 911 or Enhanced 911 features, functions and services that Qwest provides to its End User Customers. E911 functions provided to CLEC shall be at the same level of accuracy and reliability as for such support and services that Qwest provides to its End User Customers for such similar functionality.

10.3.2.2 In counties where Qwest has obligations under existing agreements as the primary provider of the 911 system to the county, CLEC will participate in the provision of the 911 System as described in Section 10.3.

10.3.2.3 Qwest shall conform to all State regulations concerning emergency services.

10.3.2.4 Qwest shall route E911 calls to the appropriate PSAP.

10.3.2.5 Each Party will be responsible for those portions of the 911 system for which it has total control, including any necessary maintenance to each Party's portion of the 911 system.

10.3.2.6 Qwest will provide CLEC with the identification of the Qwest 911 controlling office that serves each geographic area served by CLEC.

10.3.2.7 Qwest will provide CLEC with the ten-digit telephone numbers of each PSAP agency, for which Qwest provides the 911 function, to be used by CLEC to acquire emergency telephone numbers for operators to handle emergency calls in those instances where CLEC's End User Customer dials "0" instead of "911". It shall be the responsibility of CLEC to verify or confirm the appropriate use of the contact information provided by Qwest with each PSAP prior to offering 911 calls or publication of such data.

10.3.2.8 If a third party is the primary service provider to a county, CLEC will negotiate separately with such third party with regard to the provision of 911 Service to the county. All relations between such third party and CLEC are separate from this Agreement and Qwest makes no representations on behalf of the third party.

10.3.2.9 If CLEC is the primary service provider to the county, CLEC and Qwest will negotiate the specific provisions necessary for providing 911 Service to the county and will include such provisions in an amendment to this Agreement.

10.3.2.10 CLEC is responsible to collect and remit to the State, End User Customer taxes for 911 Service.

10.3.2.11 CLEC is responsible for network management of its network components in compliance with the Network Reliability Council Recommendations and meeting the network standard of Qwest for the 911 call delivery.

10.3.2.12 The Parties shall provide a single point of contact to coordinate all activities under this Agreement.

10.3.2.13 Neither Party will reimburse the other for any expenses incurred in the provision of E911 Services. All costs incurred by the Parties for 911/E911 Services shall be billed to the appropriate PSAP.

10.3.2.14 Qwest's designated E911 database provider, an independent third party, will be responsible for maintaining the E911 database. CLEC shall have non-discriminatory unbundled access to the E911 database, including the listings of other LECs for purposes of providing 911 Services related to the public health, safety and welfare.

10.3.3 E911 Database Updates

10.3.3.1 CLEC exchanges to be included in Qwest's E911 Database will be indicated via written notice to the appropriate 911 authority (State agency or PSAP administrator or county) and will not require an amendment to this Agreement.

10.3.3.2 Qwest's designated E911 database provider, an independent third party, will be responsible for maintaining the E911 database. Qwest, or its designated database provider, will provide to CLEC an initial copy of the most recent Master Street Address

Guide (MSAG), and subsequent versions on a quarterly basis, at no charge. MSAGs provided outside the quarterly schedule will be provided and charged on an Individual Case Basis. The data will be provided in computer readable format. Qwest shall provide CLEC access to the Master Street and Address Guide at a level of accuracy and reliability that is equivalent to the access Qwest provides to itself.

10.3.4 E911 Database Updates for Facilities-Based CLECs

10.3.4.1 Qwest will ensure that the 911 database entries for CLEC will be maintained with the same accuracy and reliability that Qwest maintains for Qwest's own End User Customers.

10.3.4.2 For Selective Routing table updates, facilities-based CLECs will negotiate directly with Qwest's database provider for the input and validation of End User Customer data into the Qwest Automatic Location Identification (ALI) database. CLEC will negotiate directly with the PSAP (or PSAP agency's) DMS/ALI provider for input of End User Customer data into the ALI database. In most cases the Selective Routing table updates and the ALI database will be managed by the same provider. CLEC assumes all responsibility for the accuracy of the data that CLEC provides for MSAG preparation and E911 Database operation.

10.3.4.3 If it is facilities-based, CLEC will provide End User Customer data to Qwest's agent for the Qwest ALI database utilizing NENA-02-010 Recommended Formats and Protocols For ALI Data Exchange standards. Qwest will furnish CLEC any variations to NENA recommendations required for ALI database input.

10.3.4.4 If it is facilities-based, CLEC will provide End User Customer data to Qwest's database provider for Qwest's ALI database that is MSAG valid and meets all components of the NENA-02-011 Recommended Data Standards for Local Exchange Carriers, ALI Service Providers and 911 Jurisdictions standard format, as specified by Qwest.

10.3.4.5 If it is facilities-based, CLEC will update its End User Customer records provided to Qwest's database provider for Qwest's ALI database to agree with the 911 MSAG standards for its service areas.

10.3.4.6 Qwest's E911 database administrator, an independent third party, shall resolve failed Local Number Portability migrate records in accordance with the NENA standard, NENA-02-011 Section 22B.1-2, for Qwest records where Qwest is the Donor Company as defined in the NENA standard. The Qwest E911 database administrator will compare CLEC's (i.e., Recipient Company as defined in the NENA standard) failed migrate records to the Regional Number Portability Administration Center's (NPAC) database once each business day to determine if the migrate record (i.e., ported telephone number) has been activated by the Recipient Company. If the migrate record has been activated by CLEC in the NPAC, the record shall be unlocked and the migrate record processed. If, at the end of ten (10) business days, the NPAC database does not show the migrate record as activated or the record owner identification does not match, the migrate record will be rejected. The E911 database administrator will send reports regarding CLEC's failed migrate records (i.e., 755 error code) and rejected migrate records (i.e., 760 error code) to CLEC or CLEC's designated database administrator. Qwest's E911 database administrator will also resolve failed migrate records for CLEC, if

valid based on the NPAC database.

10.3.5 E911 Database Updates and Routing for Resale

10.3.5.1 For resold services, Qwest, or its designated database provider, will provide updates to the ALI database in a manner that is at the same level of accuracy and reliability as such updates are provided for Qwest's End User Customers. For resold accounts, CLEC shall provide Qwest with accurate End User Customer location information for the purpose of inclusion in the ALI/DMS database. Qwest shall update and maintain End User Customer information in the ALI/DMS database.

10.3.5.2 For resold services, Qwest shall provide to CLEC, for CLEC's End User Customers, E911/911 call routing to the appropriate Public Safety Answering Point (PSAP). Qwest shall not be responsible for any failure of CLEC to provide accurate End User Customer information for listings in any databases in which Qwest is required to retain and/or maintain such information. Qwest shall provide CLEC's End User Customer information to the Automatic Location Identification/Database Management System (ALI/DMS). Qwest shall use its standard process to update and maintain CLEC's End User Customer service information in the ALI/DMS used to support E911/911 Services on the same schedule that it uses for its retail End User Customers. Qwest assumes no liability for the accuracy of information provided by CLEC, and CLEC assumes no liability for the accuracy of information or routing provided by Qwest.

10.3.6 E911 Database Accuracy

10.3.6.1 E911 Database accuracy shall be measured jointly by the PSAPs and Qwest's database provider in a format supplied by Qwest. The reports shall be forwarded to CLEC by Qwest's database provider when relevant and will indicate incidents when incorrect or no ALI data is displayed. The reports provided to CLEC shall contain CLEC-specific information regarding CLEC's accounts.

10.3.6.2 Each discrepancy report will be jointly researched by Qwest and CLEC. Corrective action will be taken immediately by the responsible Party.

10.3.6.3 Each Party providing updates to the E911 database will be responsible for the accuracy of its End User Customer records. Each Party providing updates specifically agrees to indemnify and hold harmless the other Party from any claims, damages, or suits related to the accuracy of End User Customer data provided for inclusion in the E911 Database.

10.3.6.4 Qwest and its vendor will provide non-discriminatory error correction for records submitted to the Automatic Location Identification (ALI) database. For resold accounts, if vendor detects errors, it will attempt to correct them. If vendor is unable to correct the error, vendor will contact Qwest for error resolution. For errors referred to Qwest, Qwest will provide the corrections in a non-discriminatory manner. If Qwest is unable to resolve the error, Qwest will contact the Resale-CLEC for resolution. In the case of facility-based CLECs, the vendor will interface directly with CLEC to resolve record errors.

10.3.7 E911 Interconnection

10.3.7.1 If required by CLEC, Qwest shall interconnect direct trunks from CLEC's network to the Basic 911 PSAP, or the E911 tandem. Such trunks may alternatively be provided by CLEC. If provided by Qwest, such trunks will be provided on a non-discriminatory basis. Qwest shall provide special protection identification for CLEC 911 circuits in the same manner as Qwest provides for its 911 circuits.

10.3.7.1.1 The Parties shall establish a minimum of two (2) dedicated trunks from CLEC's Central Office to each Qwest 911/E911 Selective Router (i.e., 911 Tandem Office) that serves the areas in which CLEC provides Exchange Service, for the provision of 911/E911 Services and for access to all subtending PSAPs (911 Interconnection Trunk Groups). CLEC can order diverse routing for 911/E911 circuits, if facilities are available. When Qwest facilities are available, Qwest will comply with diversity of facilities and systems as ordered by CLEC. Where there is alternate routing of 911/E911 calls to a PSAP in the event of failures, Qwest shall make that alternate routing available to CLEC

10.3.7.1.2 911 Interconnection Trunk Groups must be, at a minimum, DS0 level trunks configured as a 2-wire analog interface or as part of a digital (1.544 Mbps) interface. Either configuration must use Centralized Automatic Message Accounting (CAMA) type signaling with MF tones that will deliver Automatic Number Identification "ANI" with the voice portion of the call, or Signaling System 7 (SS7) if available (i.e., other signaling technology as available). All 911 Interconnection trunk groups must be capable of transmitting and receiving Baudot code necessary to support the use of Telecommunications Devices for the Deaf (TTY/TDDs).

10.3.7.1.3 Qwest shall begin restoration of 911/E911 trunking facilities immediately upon notification of failure or outage. Qwest must provide priority restoration of trunks or network outages on the same terms and conditions it provides itself. CLEC will be responsible for the isolation, coordination, and restoration of all 911 network maintenance problems to the CLEC demarcation. Qwest will be responsible for the coordination and restoration of all 911 network maintenance problems beyond the demarcation. Qwest repair service includes testing and diagnostic service from a remote location, dispatch of or in-Person visit(s) of personnel. Where an on-site technician is determined to be required, a technician will be dispatched without delay. CLEC is responsible for advising Qwest of the circuit identification when notifying Qwest of a failure or outage. The Parties agree to work cooperatively and expeditiously to resolve any 911 outage. Qwest will refer network trouble to CLEC if no defect is found in Qwest's network. The Parties agree that 911 network problem resolution will be managed in an expeditious manner at all times.

10.3.7.2 For CLEC-identified 911 trunk blockages, Qwest agrees to take corrective action using the same trunking service procedures used for Qwest's own E911 trunk groups.

10.3.7.3 The Parties will cooperate in the routing of 911 traffic in those instances where the ALI/ANI information is not available on a particular 911 call.

10.3.7.4 For a facility-based CLEC, Qwest shall provide 911 Interconnection, including the provision of dedicated trunks from CLEC End Office Switch to the 911 control office, at Parity with what Qwest provides itself.

10.3.7.5 For a Reseller CLEC, Qwest shall provide CLEC with access to the same 911 trunks used for Qwest's retail End User Customers which extend from the Qwest End Office Switch to the Basic 911 PSAP or the E911 tandem. CLEC access to such 911 trunks shall be on a shared, non-discriminatory basis.

10.3.8 E911 and Number Portability

10.3.8.1 When a Qwest telephone number is ported out, the receiving CLEC shall be responsible to update the ALI/DMS database. When a CLEC telephone number is ported in, Qwest shall be responsible to update the ALI/DMS database.

10.3.8.2 When Remote Call Forwarding (RCF) is used to provide number portability to the End User Customer and a remark or other appropriate field information is available in the database, the shadow or "forwarded-to" number and an indication that the number is ported shall be added to the End User Customer record by CLEC.

10.3.9 PS/ALI Service

10.3.9.1 During the term of this Agreement, CLEC will not order Private Switch/Automatic Location Identification (PS/ALI) Service from Qwest without first entering into an amendment or executing an Advice Adoption Letter, if applicable, to do so.

10.3.9.2 PS/ALI Service provides End User Customers using a private telephone Switch, such as Private Branch Exchanges (PBXs) and some Centrex/Centron, with the Selective Routing and/or Automatic Location Identification (SR/ALI) feature(s) of E911 for individual telephone stations served by the PBX or Centrex/Centron. The PS/ALI capability allows for the storage and retrieval of Automatic Location Identification and/or the Selective Routing of that call to the appropriate Public Safety Answering Point (PSAP).

10.3.9.3 In some situations, the End User Customer purchases PS/ALI from Qwest Retail and facilities-based service from CLEC, so the telephone numbers are working in the CLEC Switch. In such cases, the telephone numbers that are active in the CLEC Switch shall function properly with the Qwest PS/ALI service. Therefore, the End User Customer will be able to use those telephone numbers with the Qwest Retail PS/ALI.

10.4 White Pages Directory Listings

10.4.1 Description

White Pages Listings Service (Listings) consists of Qwest placing the names, addresses and telephone numbers of CLEC's End User Customers in Qwest's listing database, based on End User Customer information provided to Qwest by CLEC. Qwest is authorized to use CLEC End User Customer listings as noted below.

10.4.2 Terms and Conditions

10.4.2.1 CLEC will provide in standard format, by mechanized or by manual transmission to Qwest, its primary, premium and privacy listings. Qwest will accept one primary listing for each main telephone number belonging to CLEC's End User Customers at no charge.

10.4.2.2 CLEC will be charged for premium (e.g., additional, foreign, cross reference) and privacy (i.e., non-listed and non-published) listings at Qwest's General Exchange listing Tariff rates, less the wholesale discount, as described in Exhibit A. Primary listings and other types of listings are defined in the Qwest general exchange Tariffs.

10.4.2.3 Information on submitting and updating listings will be available in a Directory Listings user document hosted on Qwest's web site (currently entitled "Qwest Facility Based CLECs and Reseller/Unbundled Network CLECs Directory Listings User Document"). Qwest will furnish CLEC the listings format specifications. Qwest will provide directory publishing schedules and deadlines to CLEC.

10.4.2.4 If CLEC provides its End User Customer's listings to Qwest, CLEC grants Qwest access to CLEC's End User Customer listings information for use in its Directory Assistance Service, in its Directory Assistance List Information, and for other lawful purposes, except that CLEC's listings supplied to Qwest by CLEC and marked as non-published or non-listed listings shall not be used for marketing purposes, subject to the terms and conditions of this Agreement. Qwest will incorporate CLEC End User Customer listings in the Directory Assistance Database. Qwest will incorporate CLEC's End User Customer listings information in all existing and future Directory Assistance applications developed by Qwest. Should Qwest cease to be a Telecommunications Carrier, by virtue of a divestiture, merger or other transaction, this access grant automatically terminates.

10.4.2.5 CLEC End User Customer listings will be treated the same as Qwest's End User Customer listings. Prior written authorization from CLEC, which authorization may be withheld, shall be required for Qwest to sell, make available, or release CLEC's End User Customer listings to directory publishers, or other third parties other than Directory Assistance providers. No prior authorization from CLEC shall be required for Qwest to sell, make available, or release CLEC's End User Customer Directory Assistance Listings to Directory Assistance providers. Listings shall not be provided or sold in such a manner as to segregate End User Customers by Carrier. Qwest will not charge CLEC for updating and maintaining Qwest's listings databases. CLEC will not receive compensation from Qwest for any sale of listings by Qwest as provided for under this Agreement.

10.4.2.6 Left Intentionally Blank

10.4.2.7 Qwest is responsible for maintaining listings, including entering, changing, correcting, rearranging and removing listings in accordance with CLEC orders. To the extent that the option is available to specify that the End User Customer's existing listing(s) be retained upon conversion of an End User Customer account and CLEC so specifies on the LSR, Qwest shall be responsible for ensuring that the End User Customer's listing(s) is retained "as is" in Qwest's listings data bases.

10.4.2.8 Qwest provides non-discriminatory appearance and integration of white pages listings for all CLEC's and Qwest's End User Customers. All requests for white pages Directory Listings, whether CLEC or Qwest End User Customers, follow the same processes for entry into the listings database.

10.4.2.9 Qwest will take reasonable steps in accordance with industry practices to accommodate non-published and non-listed listings provided that CLEC has supplied Qwest the necessary privacy indicators on such listings.

10.4.2.10 CLEC white pages listings will be in the same font and size as listings for Qwest End User Customers, and will not be separately classified.

10.4.2.11 Qwest processes for publication of white pages Directory Listings will make no distinction between CLEC and Qwest subscribers. CLEC listings will be provided with the same accuracy and reliability as Qwest's End User Customer listings. Qwest will ensure CLEC listings provided to Qwest are included in the white pages directory published on Qwest's behalf using the same methods and procedures, and under the same terms and conditions, as Qwest uses for its own End User Customer listings.

10.4.2.12 Qwest shall ensure its third party publisher distributes appropriate alphabetical and classified directories (white and yellow pages) and recycling services to CLEC End User Customers at Parity with Qwest End User Customers, including providing directories a) upon establishment of new service; b) during annual mass distribution; and c) upon End User Customer request.

10.4.2.13 CLEC shall use commercially reasonable efforts to ensure that listings provided to Qwest are accurate and complete. All third party listings information is provided AS IS, WITH ALL FAULTS. CLEC further represents that it shall review all listings information provided to Qwest, including End User Customer requested restrictions on use, such as non-published and non-listed restrictions.

10.4.2.14 Reserved for Future Use.

10.4.2.15 CLEC shall be solely responsible for knowing and adhering to State laws or rulings regarding listings and for supplying Qwest with the applicable listing information.

10.4.2.16 CLEC agrees to provide to Qwest its End User Customer names, addresses and telephone numbers in a standard mechanized format, as specified by Qwest.

10.4.2.17 CLEC will supply its ACNA/CIC or CLCC/OCN, as appropriate, with each order to provide Qwest the means of identifying listings ownership.

10.4.2.18 Prior to placing listings orders on behalf of End User Customers, CLEC shall be responsible for obtaining and maintaining Proof of Authorization (POA), as set forth in Section 5.3 of this Agreement.

10.4.2.19 Qwest will provide monthly listing verification proofs that provide the data to be displayed in the published white pages directory and available on Directory Assistance. Verification proofs containing non-published and non-listed listings are also available upon request on the same monthly schedule.

10.4.2.20 Qwest will provide CLEC a reasonable opportunity to verify the accuracy of the listings to be included in the white pages directory and Directory Assistance.

10.4.2.21 CLEC may review and if necessary edit the white page listings prior to the close date for publication in the directory.

10.4.2.22 CLEC is responsible for all dealings with, and on behalf of, CLEC's End User Customers, including:

10.4.2.22.1 All End User Customer account activity (e.g., End User Customer queries and complaints);

10.4.2.22.2 All account maintenance activity (e.g., additions, changes, issuance of orders for listings to Qwest);

10.4.2.22.3 Determining privacy requirements and accurately coding the privacy indicators for CLEC's End User Customer information (if End User Customer information provided by CLEC to Qwest does not contain a privacy indicator, no privacy restrictions will apply); and

10.4.2.22.4 Any additional services requested by CLEC's End User Customers.

10.4.2.23 Pursuant to Sec. 222 (a), (b), (c), (d), and (e) of the Telecommunications Act, Qwest will provide subscriber lists information gathered in Qwest's capacity as a provider of local Exchange Service on a timely and unbundled basis, under non-discriminatory and reasonable rates, terms and conditions to CLEC upon request for the purpose of publishing directories in any format. Rates may be subject to federal or State law or rules, as appropriate. Upon request by CLEC, Qwest shall enter into negotiations with CLEC for CLEC's use of subscriber list information for purposes other than publishing directories, and Qwest and CLEC will enter into a written contract if agreement is reached for such use.

10.4.2.23.1 Qwest shall use commercially reasonable efforts to ensure that its retail End User Customer listings provided to CLEC are accurate and complete. Any third party listings are provided AS IS, WITH ALL FAULTS. Qwest further represents that it shall review all its retail End User Customer listings information provided to CLEC including End User Customer requested restrictions on use, such as non-published and non-listed restrictions.

10.4.2.24 Qwest represents and warrants that any arrangement for the publication of white pages Directory Listings with an Affiliate (an Affiliate) or contractor, requires such Affiliate or contractor to publish the Directory Listings of CLEC contained in Qwest's listings database so that CLEC's Directory Listings are non-discriminatory in appearance and integration, and have the same accuracy and reliability that such Affiliate provides to Qwest's End User Customers.

10.4.2.25 Qwest further agrees that any arrangements for the publication of white pages Directory Listings with an Affiliate or contractor shall require such Affiliate or contractor to include in the Customer guide pages of the white pages directory, a notice that End User Customers should contact their local service provider to request any modifications to their existing listing or to request a new listing.

10.4.2.26 Qwest agrees that any arrangement with an Affiliate or contractor for the publication of white pages Directory Listings shall require such Affiliate or contractor to provide CLEC space in the Customer guide pages of the white pages directory for the purpose of notifying Customers how to reach CLEC to: (1) request service; (2) contact repair service; (3) dial Directory Assistance; (4) reach an account representative; (5) request buried cable local service; and (6) contact the special needs center for Customers with disabilities.

10.4.3 Rate Elements

The following rate elements apply to White Pages Listings and are contained in Exhibit A of this Agreement.

10.4.3.1 Primary Listings; and

10.4.3.2 Premium/Privacy Listings.

10.4.4 Ordering Process

10.4.4.1 Qwest provides training on white page listings requests and submission processes. The ordering process is similar to the service ordering process.

10.4.4.2 CLEC listings can be submitted for inclusion in Qwest white pages directories according to the directions in the Qwest Listings User Documents for Facility-Based and Reseller CLECs, which is available on-line through the PCAT, (<http://www.qwest.com/wholesale/>) or will be provided in hard copy to CLEC upon request. Initial information and directions are available in the PCAT.

10.4.4.3 CLEC can submit the OBF forms incorporated in the Local Service Request via the IMA-XML, IMA-GUI, or fax.

10.5 Directory Assistance

10.5.1 Description

10.5.1.1 Directory Assistance Service is a telephone number, voice Information Service that Qwest provides to its own End User Customers and to other Telecommunications Carriers. Qwest provides CLEC non-discriminatory access to Qwest's Directory Assistance centers, services and Directory Assistance Databases. There are three (3) forms of Directory Assistance Services available pursuant to this Agreement -- Directory Assistance Service, Directory Assistance List Services, and Directory Assistance Database Service. These services are available with CLEC-specific branding, generic branding and Directory Assistance Call Completion Link options. Qwest reserves the right to adjust the Directory Assistance rates in Exhibit A upon sixty (60) Days notice.

10.5.1.1.1 Directory Assistance Service. The published and non-listed telephone numbers provided within the relevant geographic area are those contained in Qwest's then current Directory Assistance Database.

10.5.1.1.1.1 Local Directory Assistance Service -- Allows CLEC's End User Customers to receive published and non-listed telephone numbers

within the caller's NPA/LATA geographic areas, whichever is greater.

10.5.1.1.1.2 National Directory Assistance Service -- Allows CLEC's End User Customers to receive listings from Qwest's Local Directory Assistance Database and from the database of the National Directory Assistance Services vendor selected by Qwest. National Directory Assistance Service includes Local Directory Assistance Service.

10.5.1.1.1.3 Call Branding Service -- Allows CLEC's End User Customers to receive the service options listed in 10.5.1.1.1.1 and 10.5.1.1.1.2 branded with the brand of CLEC, where Technically Feasible or with a generic brand. Call Branding announces CLEC's name to CLEC's End User Customer at the start and completion of the call. Call Branding is an optional service available to CLEC.

a) Front End Brand -- Announces CLEC's name to CLEC's End User Customer at the start of the call. There is a non-recurring charge to setup and record the Front End Brand message.

b) Back End Brand -- Announces CLEC's name to CLEC's End User Customer at the completion of the call. There is a non-recurring charge to setup and record the Back End Brand message.

c) There is a non-recurring charge to load CLEC's branded message in each Switch.

d) Qwest will record CLEC's branded message.

10.5.1.1.1.4 Call Completion Link allows CLEC's End User Customers' calls to be returned to CLEC for completion on CLEC's network, where available. There is a recurring charge per call.

10.5.1.1.2 Directory Assistance List Service -- Directory Assistance List Service is the access to Qwest's Directory Listings for subscribers within Qwest's fourteen (14) states for the purpose of providing Directory Assistance Service to its local exchange End User Customers subject to the terms and conditions of this Agreement. See Section 10.6 for terms and conditions relating to the Directory Assistance List Services.

10.5.1.1.2.1 If CLEC elects to build its own Directory Assistance Services, it can obtain Qwest Directory Listings through the purchase of the Directory Assistance List.

10.5.1.1.3 Directory Assistance Database Service -- Qwest shall provide CLEC non-discriminatory access to Qwest's Directory Assistance Database or "Directory1" database, where Technically Feasible, on a "per dip" basis.

10.5.2 Terms and Conditions

10.5.2.1 Qwest will provide CLEC non-discriminatory access to Qwest's Directory Assistance Databases, Directory Assistance centers and personnel to provide Directory

Assistance Service.

10.5.2.2 Qwest's Directory Assistance Database contains only those published and non-listed telephone number listings obtained by Qwest from its own End User Customers and other Telecommunications Carriers.

10.5.2.3 Qwest will provide access to Directory Assistance Service for facility-based CLECs via dedicated multi-frequency (MF) operator service trunks. CLEC may purchase operator service trunks from Qwest or provide them itself. These operator service trunks will be connected directly to a Qwest Directory Assistance host or remote Switch. CLEC will be required to order or provide at least one operator services trunk for each NPA served.

10.5.2.4 Qwest will perform Directory Assistance Services for CLEC in accordance with operating methods, practices, and standards in effect for all Qwest End User Customers. Qwest will provide the same priority of handling for CLEC's End User Customer calls to Qwest's Directory Assistance Service as it provides for its own End User Customer calls. Calls to Qwest's Directory Assistance are handled on a first come, first served basis, without regard to whether calls are originated by CLEC or Qwest End User Customers.

10.5.2.5 Call Branding for Directory Assistance will entail recording and setting up a brand message. Dedicated interoffice facilities are required.

10.5.2.6 Call Completion Link requires dedicated interoffice facilities.

10.5.2.7 If CLEC elects to access the Qwest Directory Assistance Databases on a per dip basis, Qwest will provide to CLEC the facility and equipment specifications necessary to enable CLEC to obtain compatible facilities and equipment.

10.5.2.8 A Reseller CLECs' End User Customers may use the same dialing pattern to access Directory Assistance Services as used by Qwest's End User Customers (e.g., 411, 1+411, NPA+555-1212 or 1+NPA+555-1212).

10.5.2.9 A facility-based CLEC may choose to have its End User Customers dial a unique number or use the same dialing pattern as Qwest End User Customers to access Qwest Directory Assistance operators.

10.5.2.10 Qwest will timely enter into its Directory Assistance Database updates of CLEC's listings. Qwest will implement quality assurance procedures such as random testing for listing accuracy. Qwest will identify itself to end users calling its Directory Assistance Service provided for itself either by company name or operating company name or operating company number so that end users have a means to identify with whom they are dealing.

10.5.2.10.1 In accordance with Section 18, CLEC may request a comprehensive audit of Qwest's use of CLEC's Directory Assistance Listings. In addition to the terms specified in Section 18, the following also apply: as used herein, "Audit" shall mean a comprehensive review of the other Party's delivery and use of the Directory Assistance Listings provided hereunder and such other Party's performance of its obligations under this Agreement. CLEC may perform up to

two (2) audits per twelve (12) month period commencing with the Effective Date of this Agreement of Qwest's use of CLEC's Directory Assistance Listings in Qwest's Directory Assistance Services. CLEC shall be entitled to "seed" or specially code some or all of the Directory Assistance Listings that it provides hereunder in order to trace such information during an Audit and ensure compliance with the disclosure and use restrictions set forth in this Agreement.

10.5.2.11 Qwest shall use CLEC's Directory Assistance Listings supplied to Qwest by CLEC under the terms of this Agreement for purposes of providing Directory Assistance Service and for providing Directory Assistance List Information to Directory Assistance providers, and for other lawful purposes, except that CLEC's Directory Assistance Listings supplied to Qwest by CLEC and marked as non-published or non-listed listings shall not be used for marketing purposes.

10.5.3 Rate Elements

The following rate elements apply to Directory Assistance Services and rates are contained in Exhibit A of this Agreement.

10.5.3.1 A per call rate is applicable for Local Directory Assistance and National Directory Assistance Service selected by CLEC.

10.5.3.2 A non-recurring setup and recording fee will be charged for establishing each Call Branding option. A non-recurring charge to load CLEC's brand in each Switch is also applicable. Such non-recurring fees must be paid before service commences.

10.5.3.3 A per call rate is applicable for Call Completion Link.

10.5.4 Ordering Process

CLEC will order Directory Assistance Service by completing the questionnaire entitled "Qwest Operator Services/Directory Assistance Questionnaire for Local Service Providers." This questionnaire may be obtained from CLEC's Qwest account manager.

10.5.5 Billing

10.5.5.1 Qwest will track and bill CLEC for the number of calls placed to Qwest's Directory Assistance Service by CLEC's End User Customers as well as for the number of requests for Call Completion Link.

10.5.5.2 For purposes of determining when CLEC is obligated to pay the per call rate, the call shall be deemed made and CLEC shall be obligated to pay when the call is received by the Operator Services Switch. An End User Customer may request and receive no more than two (2) telephone numbers per Directory Assistance call. Qwest will not credit, rebate or waive the per call charge due to any failure to provide a telephone number.

10.5.5.3 If Qwest provides timely and complete call records pursuant to Section 21.1.2, Call Completion Link will be charged at the per call rate when the End User Customer completes the required action (e.g., "press the number one," "stay on the line," etc.).

10.6 Directory Assistance List

10.6.1 Description

10.6.1.1 Directory Assistance List (DA List) Information consists of name, address and telephone number information for all End User Customers of Qwest and other LECs that are contained in Qwest's Directory Assistance Database and, where available, related elements required in the provision of Directory Assistance Service to CLEC's End User Customers. No prior authorization from CLEC shall be required for Qwest to sell, make available, or release CLEC's End User Customer Directory Assistance Listings to Directory Assistance providers. In the case of End User Customers who have non-published listings, Qwest shall provide the End User Customer's local Numbering Plan Area (NPA), address, and an indicator to identify the non-published status of the listing to CLEC; however, Qwest will not provide the non-published telephone number.

10.6.1.2 Qwest will provide Directory Assistance List Information via initial loads and daily updates either by means of a magnetic tape or Network Data Mover (NDM) or as otherwise mutually agreed upon by the Parties. Qwest will provide all changes, additions or deletions to the Directory Assistance List Information overnight on a daily basis. The Parties will use a mutually agreed upon format for the data loads.

10.6.1.3 Directory Assistance List Information shall specify whether the Qwest subscriber is a residential, business, or government subscriber, and the listings of other Carriers will specify such information where it has been provided on the Carrier's listing order.

10.6.1.4 In the event CLEC requires a reload of Directory Assistance List Information from Qwest's database in order to validate, synchronize or reconcile its database, a reload will be made available according to the rate specified in Exhibit A.

10.6.1.5 Qwest and CLEC will cooperate in the designation of a location to which the data will be provided.

10.6.2 Terms and Conditions

10.6.2.1 Qwest grants to CLEC, as a competing provider of Telephone Exchange Service and telephone toll service, access to the Directory Assistance List Information Option 1) solely for the purpose of providing Directory Assistance Services, or Option 2) for purposes of providing Directory Assistance Services and for other lawful purposes, except that listings included in Qwest's Directory Assistance List information and marked as non-published or non-listed listings, or listings marked with an "omit from lists" indicator shall not be used for marketing purposes, subject to the terms and conditions of this Agreement. CLEC will advise Qwest when it orders Qwest's Directory Assistance List Information whether it chooses Option 1 or 2. As it pertains to the use of Directory Assistance List Information in this Agreement, "Directory Assistance Service" shall mean the provision, by CLEC via a live operator or a mechanized system, of telephone number and address information for an identified telephone service End User Customer or the name and/or address of the telephone service End User Customer for an identified telephone number. Should CLEC cease to be a Telecommunications Carrier, a competing provider of Telephone Exchange Service or telephone toll service, this access grant automatically terminates

10.6.2.1.1 Qwest shall make commercially reasonable efforts to ensure that listings belonging to Qwest retail end users provided to CLEC in Qwest's Directory Assistance List Information are accurate and complete. All third party Directory Assistance List Information is provided AS IS, WITH ALL FAULTS. Qwest further represents that it shall review all of its end user listings information provided to CLEC, including end user requested restrictions on use, such as nonpublished and nonlisted restrictions.

10.6.2.2 CLEC will obtain and timely enter into its Directory Assistance Database daily updates of the Directory Assistance List Information, will implement quality assurance procedures such as random testing for Directory Assistance Listing accuracy, and will identify itself to end users calling its Directory Assistance Service either by company name or operating company number so that end users have a means to identify with whom they are dealing.

10.6.2.3 Reserved for Future Use.

10.6.2.4 Qwest shall retain all right, title, interest and ownership in and to the Directory Assistance Listing Information it provides hereunder. CLEC acknowledges and understands that while it may disclose the names, addresses, and telephone numbers (or an indication of non-published status) of Qwest's end users to a third party calling its Directory Assistance for such information, the fact that such end user subscribes to Qwest's Telecommunications Services is Confidential and Proprietary Information and shall not be disclosed to any third party.

10.6.2.5 CLEC shall not sublicense, copy or allow any third party to access, download, copy or use the Directory Assistance List Information, or any portions thereof, or any information extracted therefrom. Each Party shall take commercially reasonable and prudent measures to prevent disclosure and unauthorized use of Qwest's Directory Assistance List Information at least equal to the measures it takes to protect its own Confidential and Proprietary Information, including but not limited to implementing adequate computer security measures to prevent unauthorized access to Qwest's Directory Assistance List Information when contained in any database.

10.6.2.5.1 Unauthorized use of Qwest's Directory Assistance List information, or any disclosure to a third party of the fact that an end user, whose listing is furnished in the Directory Assistance list, subscribes to Qwest's, another Local Exchange Carrier's, Reseller's or CMRS's Telecommunications Services shall be considered a material breach of this Agreement and shall be resolved under the Dispute resolution provisions of this Agreement.

10.6.2.6 Within five (5) Days after the expiration or earlier termination of this Agreement, CLEC shall (a) return and cease using any and all Directory Assistance List Information which it has in its possession or control, (b) extract and expunge any and all copies of such Directory Assistance List Information, any portions thereof, and any and all information extracted therefrom, from its files and records, whether in print or electronic form or in any other media whatsoever, and (c) provide a written certification to Qwest from an officer that all of the foregoing actions have been completed. A copy of this certification may be provided to third party Carriers if the certification pertains to such Carriers' Directory Assistance List Information contained in Qwest's database.

10.6.2.7 CLEC is responsible for ensuring that it has proper security measures in place to protect the privacy of the end user information contained within the Directory Assistance List Information. CLEC must remove from its database any telephone number for an end user whose listing has become non-published when so notified by Qwest.

10.6.2.8 Audits -- In accordance with Section 18, Qwest may request a comprehensive audit of CLEC's use of the Directory Assistance List Information. In addition to the terms specified in Section 18, the following also apply:

10.6.2.8.1 As used herein, "Audit" shall mean a comprehensive review of the other Party's delivery and use of the Directory Assistance List Information provided hereunder and such other Party's performance of its obligations under this Agreement. Either Party (the Requesting Party) may perform up to two (2) Audits per 12 month period commencing with the Effective Date of this Agreement. Qwest shall be entitled to "seed" or specially code some or all of the Directory Assistance List Information that it provides hereunder in order to trace such information during an Audit and ensure compliance with the disclosure and use restrictions set forth in Section 10.6.2.2 above.

10.6.2.8.2 All paper and electronic records will be subject to audit.

10.6.2.9 CLEC recognizes that certain Carriers who have provided Directory Assistance List Information that is included in Qwest's database may be third party beneficiaries of this Agreement for purposes of enforcing any terms and conditions of the Agreement other than payment terms with respect to their D A List Information.

10.6.2.10 Qwest will provide a non-discriminatory process and procedure for contacting End User Customers with non-published telephone numbers in emergency situations for non-published telephone numbers that are included in Qwest's Directory Assistance Database. Such process and procedure will be available to CLEC for CLEC's use when CLEC provides its own Directory Assistance and purchases Qwest's Directory Assistance List product.

10.6.3 Rate Elements

Recurring and non-recurring rate elements for DA List Information are described below and are contained in Exhibit A of this Agreement.

10.6.3.1 Initial Database Load -- A "snapshot" of data in the Qwest Directory Assistance List Information database or portion of the database at the time the order is received.

10.6.3.2 Reload -- A "snapshot" of the data in the Qwest Directory Assistance List Information database or portion of the database required in order to refresh the data in CLEC's database.

10.6.3.3 Daily Updates -- Daily change activity affecting Directory Assistance List Information in the listings database.

10.6.3.4 One-Time Set-Up Fees -- Charges for special database loads.

10.6.3.5 Output Charges -- Media charges resulting from either the electronic transmission or tape delivery of the Directory Assistance List Information, including any shipping costs.

10.6.4 Ordering

10.6.4.1 CLEC may order the initial Directory Assistance List Information load or update files for Qwest's Local Exchange Service areas in its 14 state operating territory or, where Technically Feasible, CLEC may order the initial Directory Assistance List Information load or update files by Qwest White Page Directory Code or NPA.

10.6.4.2 Special requests for data at specific geographic levels (such as NPA) must be negotiated in order to address data integrity issues.

10.6.4.3 CLEC shall use the Directory Assistance List Order Form found in the PCAT.

10.7 Toll and Assistance Operator Services

10.7.1 Description

10.7.1.1 Toll and assistance operator services are a family of offerings that assist End User Customers in completing EAS/local and long distance calls. Qwest provides non-discriminatory access to Qwest operator service centers, services and personnel. Qwest reserves the right to adjust the Toll and assistance operator services rates in Exhibit A upon sixty (60) Days notice.

10.7.1.1.1 Local Assistance. Assists CLEC End User Customers requesting help or information on placing or completing EAS/local calls, connects CLEC End User Customers to home NPA Directory Assistance, and provides other information and guidance, including referral to the business office and repair, as may be consistent with Qwest's customary practice for providing End User Customer assistance.

10.7.1.1.2 IntraLATA Toll Assistance. Qwest will direct CLEC's End User Customer to contact its provider to complete InterLATA toll calls. Nothing in this Section is intended to obligate Qwest to provide any toll services to CLEC or CLEC's End User Customers.

10.7.1.1.3 Emergency Assistance. Provide assistance for handling a CLEC End User Customer's EAS/local and IntraLATA toll calls to emergency agencies, including but not limited to, police, sheriff, highway patrol and fire. CLEC is responsible for providing Qwest with the appropriate emergency agency numbers and updates.

10.7.1.1.4 Busy Line Verification (BLV) is performed when a calling party requests assistance from the operator bureau to determine if the called line is in use. The operator will not complete the call for the calling party initiating the BLV inquiry. Only one BLV attempt will be made per call, and a charge shall apply.

10.7.1.1.5 Busy Line Interrupt (BLI) is performed when a calling party requests assistance from the operator to interrupt a telephone call in progress. The

operator will interrupt the busy line and inform the called party that there is a call waiting. The operator will not connect the calling and called parties. The operator will make only one BLI attempt per call and the applicable charge applies whether or not the called party releases the line.

10.7.1.1.6 Quote Service – Provide time and charges to hotel/motel and other CLEC End User Customers for guest/account identification.

10.7.2 Terms and Conditions

10.7.2.1 For facility-based CLECs, Interconnection to Qwest's Operator Services Switch is Technically Feasible at two (2) distinct points on the Trunk Side of the Switch. The first connection point is an operator services trunk connected directly to the Qwest Operator Services host Switch. The second connection point is an operator services trunk connected directly to a remote Qwest Operator Services Switch.

10.7.2.2 Trunk Provisioning and facility ownership must follow Qwest guidelines.

10.7.2.3 In order for CLEC to use Qwest's operator services as a facility-based CLEC, CLEC must provide an operator service trunk between CLEC's end office and the Interconnection point on the Qwest operator services Switch for each NPA served.

10.7.2.4 The technical requirements of operator service trunk are covered in the Operator Services Systems Generic Requirement (OSSGR), Telcordia document FR-NWT-000271, Section 6 (Signaling) and Section 10 (System Interfaces) in general requirements form.

10.7.2.5 Each Party's operator bureau shall accept BLV and BLI inquiries from the operator bureau of the other Party in order to allow transparent provision of BLV/BLI traffic between the Parties' networks.

10.7.2.6 CLEC will provide separate no-test trunks (not the local/IntraLATA trunks) to the Qwest BLV/BLI hub or to the Qwest Operator Services Switches.

10.7.2.7 Qwest will perform Operator Services in accordance with operating methods, practices, and standards in effect for all its End User Customers. Qwest will respond to CLEC's End User Customer calls to Qwest's operator services according to the same priority scheme as it responds to Qwest's End User Customer calls. Calls to Qwest's operator services are handled on a first come, first served basis, without regard to whether calls are originated by CLEC or Qwest End User Customers.

10.7.2.8 Qwest will provide operator services to CLEC where Technically Feasible and facilities are available. Qwest may from time-to-time modify and change the nature, extent, and detail of specific operator services available to its retail End User Customers, and to the extent it does so, Qwest will provide forty five (45) Days advance written notice to CLEC of such changes.

10.7.2.9 Qwest shall maintain adequate equipment and personnel to reasonably perform the Operator Services. CLEC shall provide and maintain the facilities necessary to connect its End User Customers to the locations where Qwest provides the Operator Services and to provide all information and data needed or reasonably requested by

Qwest in order to perform the Operator Services.

10.7.2.10 Call Branding is an optional service available to CLEC. Call Branding announces CLEC's name to CLEC's End User Customer at the start of the call and at the completion of the call. If CLEC selects the Call Branding option, Qwest will provide Call Branding to CLEC where Technically Feasible.

- a) Front End Brand – Announces CLEC's name to CLEC's End User Customer at the start of the call. There is a non-recurring charge to setup and record the Front End Brand message.
- b) Back End Brand – Announces CLEC's name to CLEC's End User Customer at the completion of the call. There is a non-recurring charge to setup and record the Back End Brand message.

10.7.2.11 Call branding for toll and operator services will entail recording and setup of a brand message. Qwest will record CLEC's branded message. Dedicated interoffice facilities will be required.

10.7.2.12 Call Branding also entails a non-recurring charge to load CLEC's branded message in each Switch.

10.7.2.13 CLEC's End User Customers may dial "0" or "0+" to access Qwest operator services. A facility-based CLEC may choose to have its End User Customers access Qwest operators by dialing a unique number or by using the same dialing pattern as Qwest End User Customers.

10.7.3 Rate Elements

Qwest toll and assistance operator services are offered under two (2) pricing options. Option A offers a per message rate structure. Option B offers a work second and a per call structure. Applicable recurring and non-recurring rate elements are detailed below and in Exhibit A of this Agreement.

10.7.3.1 Option A - Operator Services Rate Elements

10.7.3.1.1 Operator Handled Calling Card – For each completed calling card call that was dialed 0+ where the operator entered the calling card number.

10.7.3.1.2 Machine Handled Calling Card – For each completed call that was dialed 0+ where the End User Customer entered the required information, such as calling card number.

10.7.3.1.3 Station Call – For each completed station call, including station sent paid, collect, third number special Billing or 0- calling card call.

10.7.3.1.4 Person Call – For each completed Person to Person call regardless of the Billing used by the End User Customer.

10.7.3.1.5 Connect to Directory Assistance – For each operator placed call to Directory Assistance.

10.7.3.1.6 Busy Line Verify – For each call where the operator determines that conversation exists on a line.

10.7.3.1.7 Busy Line Interrupt – For each call where the operator interrupts conversation on a busy line and requests release of the line.

10.7.3.1.8 Operator Assistance – For each EAS/local call, whether completed or not, that does not potentially generate an operator surcharge. These calls include, but are not limited to: calls given the DDD rate because of transmission problems; calls where the operator has determined there should be no charge, such as Busy Line Verify attempts where conversation was not found on the line; calls where the End User Customer requests information from the operator and no attempt is made to complete a call; and calls for quote service.

10.7.3.1.9 “Completed call” as used in this Section shall mean that the End User Customer makes contact with the location, telephone number, Person or extension designated by the End User Customer.

10.7.3.2 Option B - Per Work Second and Computer Handled Calls

10.7.3.2.1 Operator Handled - CLEC will be charged per work second for all calls originating from its End User Customers and facilities that are Routed to Qwest's operator for handling. Work second charging begins when the Qwest operator position connects with CLEC's End User Customer and terminates when the connection between the Qwest operator position and CLEC's End User Customer is terminated.

10.7.3.2.2 Machine Handled - calls that are routed without operator intervention. Machine handled calls include, but are not limited to, credit card calls where the End User Customer enters the calling card number, calls originating from coin telephones where the computer requests deposit of coins, additional End User Customer key actions, recording of End User Customer voice, etc.

10.7.3.3 Call Branding Non-recurring Charge. Qwest will charge to CLEC a non-recurring setup and recording fee for establishing Call Branding and loading each Switch with CLEC's branded message. CLEC must pay such non-recurring charges prior to commencement of the service. The non-recurring set-up and recording charge will apply each time the CLEC's brand message is changed. The non-recurring charge to load the Switches with the CLEC's branded message will be assessed each time there is any change to the Switch.

10.7.4 Ordering Process

CLEC will order Operator Services by completing the “Qwest Operator Services/Directory Assistance Questionnaire for Local Service Providers.” Copies of this questionnaire may be obtained from CLEC's designated Qwest account manager.

10.7.5 Billing

10.7.5.1 Qwest will track usage and bill CLEC for the calls placed by CLEC's End

User Customers and facilities.

10.7.5.2 Qwest will compute CLEC's invoice based on both Option A (Price Per Message) and Option B (Price Per Work Second and Computer Handled Calls). Qwest will charge CLEC whichever option results in a lower charge.

10.7.5.3 If, due to equipment malfunction or other error, Qwest does not have available the necessary information to compile an accurate Billing statement, Qwest may render a reasonably estimated bill, but shall notify CLEC of the methods of such estimate and cooperate in good faith with CLEC to establish a fair, equitable estimate. Qwest shall render a bill reflecting actual billable quantities when and if the information necessary for the Billing statement becomes available.

10.8 Access to Poles, Ducts, Conduits, and Rights of Way

10.8.1 Description

10.8.1.1 Pole Attachments – Where it has ownership or control to do so, Qwest will provide CLEC with access to available pole attachment space for the placing of facilities for the purpose of transmitting Telecommunications Services.

10.8.1.1.1 The term pole attachment means any attachment by CLEC to a pole owned or controlled by Qwest.

10.8.1.2 Ducts and Conduits – Where it has ownership or control to do so, Qwest will provide CLEC with access to available ducts/conduits for the purpose of placing facilities for transmitting Telecommunications Services. A spare duct/conduit will be leased for copper facilities only, and an innerduct for the purpose of placing fiber. CLEC may place innerduct in an empty duct/conduit. Control of CLEC-installed spare innerduct shall vest in Qwest immediately upon installation; ownership of such innerduct shall vest to Qwest if and when CLEC abandons such innerduct.

10.8.1.2.1 The terms duct and conduit mean a single enclosed raceway for conductors, cable and/or wire. Duct and conduit may be in the ground, may follow streets, bridges, public or private ROW or may be within some portion of a multiple tenant environment. Within a multiple tenant environment, duct and conduit may traverse Building entrance facilities, Building entrance links, equipment rooms, Remote Terminals, cable vaults, telephone closets or Building riser. The terms Duct and Conduit include riser conduit.

10.8.1.2.2 The term innerduct means a duct-like raceway smaller than a duct/conduit that is inserted into a duct/conduit so that the duct may typically carry three cables.

10.8.1.2.3 The term microduct means a smaller version of innerduct. Four (4) microducts can be placed within a one and one-fourth (1¼)-inch innerduct.

10.8.1.3 Rights of Way (ROW) – Where it has ownership or control to do so, Qwest will provide to CLEC, via an Access Agreement in the form of Attachment 4 to Exhibit D, access to available ROW for the purpose of placing Telecommunications facilities. ROW includes land or other property owned or controlled by Qwest and may run under,

on, above, across, along or through public or private property or enter multiple tenant environments.

10.8.1.3.1 ROW means a real property interest in privately-owned real property, but expressly excluding any public, governmental, federal or Native American, or other quasi-public or non-private lands, sufficient to permit Qwest to place Telecommunications facilities on such real property; such property owner may permit Qwest to install and maintain facilities under, on, above, across, along or through private property or enter multiple tenant environments. Within a multiple tenant environment, a ROW includes a pathway that is actually used or has been specifically designated for use by Qwest as part of its transmission and distribution network where the boundaries of the pathway are clearly defined either by written specifications or unambiguous physical demarcation.

10.8.1.4 Intentionally Left Blank.

10.8.1.5 The phrase "ownership or control to do so" means the legal right, as a matter of State law, to (i) convey an interest in real or personal property, or (ii) afford access to third parties as may be provided by the landowner to Qwest through express or implied agreements, or through Applicable Rules as defined in this Agreement.

10.8.2 Terms and Conditions

Qwest shall provide CLEC non-discriminatory access to poles, ducts, conduit and rights of way on terms and conditions found in the Revised Qwest Right of Way, Pole Attachment and/or Duct/Innerduct Occupancy General Information Document, attached hereto as Exhibit D. Qwest will not favor itself over CLEC when Provisioning access to poles, ducts, conduits and rights of way (ROW). Qwest shall not give itself preference when assigning space.

10.8.2.1 Subject to the provisions of this Agreement, Qwest agrees to issue to CLEC authorization for CLEC to attach, operate, maintain, rearrange, transfer and remove at its sole expense its facilities on poles/duct/innerduct or ROW owned or controlled in whole or in part by Qwest, subject to Orders placed by CLEC. Any and all rights granted to CLEC shall be subject to and subordinate to any future local, State and/or federal requirements.

10.8.2.2 Qwest will rely on such codes as the National Electrical Safety Code (NESC) to prescribe standards with respect to capacity, safety, reliability, and general engineering principles.

10.8.2.3 Federal requirements, such as those imposed by Federal Energy Regulatory Commission (FERC) and Occupational Safety and Health Administration (OSHA), will continue to apply to the extent such requirements affect requests for attachments or occupancy to Qwest facilities under Section 224(f)(1) of the Act.

10.8.2.4 CLEC shall provide access to a map of the requested poles/duct/innerduct/ROW route, including estimated distances between major points, the identification and location of the poles/duct/innerduct and ROW and a description of CLEC's facilities. Qwest agrees to provide to CLEC access to relevant plats, maps, engineering records and other data within ten (10) business days of receiving a Bona Fide Request for such information, except in the case of extensive requests. Extensive

requests involve the gathering of plats from more than one (1) location, span more than five (5) Wire Centers, or consist of ten (10) or more intra-Wire Center requests submitted simultaneously. Responses to extensive requests will be provided within a reasonable interval, not to exceed forty-five (45) Days.

10.8.2.5 Except as expressly provided herein, or in the Pole Attachment Act of 1934 as amended and its regulations and rules, or in any applicable State or municipal laws, nothing herein shall be construed to compel Qwest to construct, install, modify or place any poles/duct/innerduct or other facility for use by CLEC.

10.8.2.6 Qwest retains the right to determine the availability of space on poles/duct/innerduct, duct, conduit and ROW consistent with 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224. In the event Qwest determines that rearrangement of the existing facilities on poles, innerduct, duct/conduit and ROW is required before CLEC's facilities can be accommodated, the actual cost of such modification will be included in CLEC's nonrecurring charges for the associated Order (Make-Ready fee). When modifications to a Qwest spare duct/conduit include the placement of innerduct, Qwest or CLEC will install the number of innerduct required to fill the duct/conduit to its full capacity.

10.8.2.7 Qwest shall make manhole ingress and egress for duct/innerduct access available to CLEC. Qwest will perform a feasibility study to determine whether to provide a stub out via the pre-constructed knock out within the manhole, or to perform a core drill of the manhole.

10.8.2.8 Where such authority does not already exist, CLEC shall be responsible for obtaining the necessary legal authority to occupy ROW, and/or poles/duct/innerduct on governmental, federal, Native American, and private rights of way. CLEC shall obtain any permits, licenses, bonds, or other necessary legal authority and permission, at CLEC's sole expense, in order to perform its obligations under this Agreement. CLEC shall contact all owners of public and private rights-of-way to obtain the permission required to perform the work prior to entering the property or starting any work thereon. See Section 10.8.4. CLEC shall comply with all conditions of rights-of-way and permits. Once such permission is obtained, all such work may be performed by Qwest or CLEC at the option of CLEC.

10.8.2.9 Access to a Qwest Central Office manhole will be permitted where Technically Feasible. If space is available, Qwest will allow access through the Central Office manhole to the POI (Point of Interconnection). There shall be a presumption that there shall be no fiber splices allowed in the Central Office manhole. However, where CLEC can establish the necessity and Technical Feasibility of splicing in the Central Office manhole, such action shall be permitted.

10.8.2.10 Replacement/Modification/Installation - If CLEC requests Qwest to replace or modify existing poles/duct/innerduct to increase its strength or capacity for the sole benefit of CLEC, CLEC shall pay Qwest the total actual replacement cost, Qwest's actual cost to transfer its attachments to new poles/duct/innerduct, as necessary, and the actual cost for removal (including actual cost of destruction) of the replaced poles/duct/innerduct, if necessary. Ownership of new poles/duct/innerduct shall vest to Qwest.

10.8.2.10.1 Upon request, Qwest shall permit CLEC to install poles/duct/innerduct. Qwest reserves the right to reject any non-conforming replacement pole/duct/innerduct installed by CLEC that do not conform to the NESC, OSHA or local ordinances.

10.8.2.10.2 To the extent that a modification is incurred for the benefit of multiple parties, CLEC shall pay a proportionate share of the total actual cost based on the ratio of the amount of new space occupied by the facilities of CLEC to the total amount of space occupied by all parties including Qwest or its Affiliates participating in the modification. Parties who do not initiate, request or receive additional space from a modification, are not required to share in the cost of the modification. CLEC, Qwest or any other party that uses a modification as an opportunity to bring its facilities into compliance with applicable safety or other requirements will be deemed to be sharing in the modification and will be responsible for its share of the modification cost. Attaching entities will not be responsible for sharing in the cost of governmentally mandated pole or other facility modification.

10.8.2.10.3 The modifying party or parties may recover a proportionate share of the modification costs from parties that later are able to obtain access as a result of the modification. The proportionate share of the subsequent attacher will be reduced to take account of depreciation to the pole or other facility that has occurred since the modification. The modifying party or parties seeking to recover modification costs from parties that later obtain attachments shall be responsible for maintaining all records regarding modification costs. Qwest shall not be responsible for maintaining records regarding modification costs on behalf of attaching entities.

10.8.2.11 Notification of modifications initiated by or on behalf of Qwest and at Qwest's expense shall be provided to CLEC at least sixty (60) Days prior to beginning modifications. Such notification shall include a brief description of the nature and scope of the modification. If CLEC does not respond to a requested rearrangement of its facilities within sixty (60) Days after receipt of written notice from Qwest requesting rearrangement, Qwest may perform or have performed such rearrangement and CLEC shall pay the actual cost thereof. No such notice shall be required in emergency situations or for routine maintenance of poles/duct/innerduct completed at Qwest's expense.

10.8.2.12 Qwest reserves the right to make an on-site/final construction inspection of CLEC's facilities occupying the poles/duct/innerduct system. CLEC shall reimburse Qwest for the actual cost of such inspections except where specified in this Section.

10.8.2.13 When final construction inspection by Qwest has been completed, CLEC shall correct such non-complying conditions within the reasonable period of time specified by Qwest in its written notice. If corrections are not completed within the specified reasonable period, occupancy authorizations for the ROW, poles/duct/innerduct system where non-complying conditions remain uncorrected shall suspend forthwith, regardless of whether CLEC has energized the facilities occupying said poles/duct/innerduct or ROW system and CLEC shall remove its facilities from said poles/duct/innerduct or ROW in accordance with the provisions of this Section, provided, however, if the corrections physically cannot be made within such specified time, and

CLEC has been diligently prosecuting such cure, CLEC shall be granted a reasonable additional time to complete such cure. Qwest may deny further occupancy authorization to CLEC until such non-complying conditions are corrected or until CLEC's facilities are removed from the poles/duct/innerduct system where such non-complying conditions exist. If agreed between both Parties, Qwest shall perform or have performed such corrections and CLEC shall pay Qwest the actual cost of performing such work. Subsequent inspections to determine if appropriate corrective actions have been taken may be made by Qwest.

10.8.2.14 Once CLEC's facilities begin occupying the poles/duct/innerduct or ROW system, Qwest may perform a reasonable number of inspections. Qwest shall bear the cost of such inspections unless the results of the inspection reveal a material violation or hazard, or that CLEC has in any other way failed to comply with the provisions of Section 10.8.2.20; in which case CLEC shall reimburse Qwest the costs of inspections and re-inspections, as required. CLEC's representative may accompany Qwest on such field inspections. The cost of periodic inspection or any special inspections found necessary due to the existence of sub-standard or unauthorized occupancies shall be billed separately.

10.8.2.15 The costs of inspections made during construction and/or the final construction survey and subsequent inspection shall be billed to CLEC upon completion of the inspections.

10.8.2.16 Final construction, subsequent, and periodic inspections or the failure to make such inspections, shall not relieve CLEC of any responsibilities, obligations, or liability assigned under this Agreement.

10.8.2.17 CLEC may use individual workers of its choice to perform any work necessary for the attaching of its facilities so long as such workers have the same qualifications and training as Qwest's workers. CLEC may use any contractor approved by Qwest to perform Make-Ready Work.

10.8.2.18 If Qwest terminates an Order for cause, or if CLEC terminates an Order without cause, subject to 10.8.4.4.4, CLEC shall pay termination charges equal to the amount of fees and charges remaining on the terminated Order(s) and shall remove its facilities from the poles/duct/innerduct within sixty (60) Days, or cause Qwest to remove its facilities from the poles/duct/innerduct at CLEC's expense; provided, however, that CLEC shall be liable for and pay all fees and charges provided for in this Agreement to Qwest until CLEC's facilities are physically removed. "Cause" as used herein shall include CLEC's use of its facilities in material violation of any Applicable Law or in aid of any unlawful act or making an unauthorized modification to Qwest's poles/duct/innerduct, or, in the case of ROW, any act or omission that violates the terms and conditions of either (a) the Access Agreement by which Qwest conveys a right of access to the ROW to CLEC, or (b) the instrument granting the original ROW to Qwest or its predecessor.

10.8.2.19 Qwest may abandon or sell any poles/innerduct, duct/conduit or ROW at any time by giving written notice to CLEC. Any poles, innerduct, duct/conduit or ROW that is sold, will be sold subject to all existing legal rights of CLEC. Upon abandonment of poles/innerduct, duct/conduit or ROW, and with the concurrence of the other joint user(s), if necessary, CLEC shall, within sixty (60) Days of such notice, either: 1)

continue to occupy the poles/innerduct, duct/conduit or ROW pursuant to its existing rights under this Agreement if the poles/innerduct, duct/conduit, or ROW is purchased by another party; 2) purchase the poles/innerduct, duct/conduit or ROW from Qwest at the current market value; or 3) remove its facilities therefrom. Failure to explicitly elect one of the foregoing options within sixty (60) Days shall be deemed an election to purchase the poles/innerduct, duct/conduit or ROW at the current market value if no other party purchased the poles/innerduct, duct/conduit or ROW within this sixty (60) Day period.

10.8.2.20 CLEC's facilities shall be placed and maintained in accordance with the requirements and specifications of the current applicable standards of Telcordia Manual of Construction Standards, the National Electrical Code, the National Electrical Safety Code, and the rules and regulations of the Occupational Safety and Health Act, all of which are incorporated by reference, and any governing authority having jurisdiction. Where a difference in specifications exists, the more stringent shall apply. Notwithstanding the foregoing, CLEC shall only be held to such standard as Qwest, its Affiliates or any other Telecommunications Carrier is held. Failure to maintain facilities in accordance with the above requirements or failure to correct as provided in Section 10.8.2.13 shall be cause for termination of the Order. CLEC shall in a timely manner comply with all requests from Qwest to bring its facilities into compliance with these terms and conditions.

10.8.2.21 Should Qwest under the provisions of this Agreement remove CLEC's facilities from the poles/duct/innerduct covered by any Order, Qwest will deliver the facilities removed upon payment by CLEC of the cost of removal, storage and delivery, and all other amounts due Qwest. If CLEC removes facilities from poles/duct/innerduct for other than repair or maintenance purposes, no replacement on the poles/duct/innerduct shall be made until all outstanding charges due Qwest for previous occupancy have been paid in full. CLEC shall advise Qwest in writing as to the date on which the removal of facilities from the poles/duct/innerduct has been completed.

10.8.2.22 If any facilities are found attached to poles/duct/innerduct for which no order is in effect, Qwest, without prejudice to its other rights or remedies under this Agreement, may assess a charge and CLEC agrees to pay the lesser of (a) the annual fee per pole or per innerduct run between two (2) manholes for the number of years since the most recent inventory, or (b) five times the annual fee per pole or per innerduct run between two (2) manholes. In addition, CLEC agrees to pay (a) interest on these fees at a rate set for the applicable time period by the Internal Revenue Service for individual underpayments pursuant to Section 6621 of the Internal Revenue Service Code (25 U.S.C. § 6621, Rev. Rul. 2000-30, 2000-25 IRS 1262), and (b) the cost of any audit required to identify unauthorized CLEC attachments. Qwest shall waive half the unauthorized attachment fee if the following conditions are met: (1) CLEC cures such unauthorized attachment (by removing it or submitting a valid Order for the attachment in the form of Attachment 2 of Exhibit D), within thirty (30) Days of written notification from Qwest of the unauthorized attachment; and (2) the unauthorized attachment did not require Qwest to take curative measures itself (e.g., pulling additional innerduct) prior to cure by CLEC, (3) CLEC reimburses Qwest for cost of audit, or portion thereof, which discovered the unauthorized attachment. Qwest shall also waive the unauthorized attachment fee if the unauthorized attachment arose due to error by Qwest rather than CLEC. CLEC is required to submit in writing, within ten (10) business days after receipt of written notification from Qwest of the unauthorized occupancy, a poles/duct/innerduct application. If such application is not received by Qwest within the specified time period,

CLEC will be required to remove its unauthorized facility within thirty (30) Days of the final date for submitting the required application, or Qwest may remove CLEC's facilities without liability, and the cost of such removal shall be borne by CLEC.

10.8.2.23 No act or failure to act by Qwest with regard to an unauthorized occupancy shall be deemed as the authorization of the occupancy. Any subsequently issued authorization shall not operate retroactively or constitute a waiver by Qwest of any of its rights or privileges under this Agreement or otherwise. CLEC shall be subject to all liabilities of the Agreement in regard to said unauthorized occupancy from its inception.

10.8.2.24 Qwest will provide CLEC non-discriminatory access to poles, innerducts, ducts/conduits and ROW pursuant to 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224. In the event of a conflict between this Agreement, on one hand, and 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224, on the other, 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224 shall govern. Further, in the event of a conflict between Exhibit D, on one hand, and this Agreement or 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224, on the other, this Agreement or 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224 shall govern, provided however, that any Access Agreement that has been duly executed, acknowledged and recorded in the real property records for the county in which the ROW is located shall govern in any event pursuant to its terms.

10.8.2.25 Nothing in this Agreement shall require Qwest to exercise eminent domain on behalf of CLEC.

10.8.2.26 Upon CLEC request, Qwest will certify to a landowner with whom Qwest has an ROW agreement, the following:

10.8.2.26.1 that the ROW agreement with Qwest does not preclude the landowner from entering into a separate ROW agreement with CLEC; and

10.8.2.26.2 that there will be no penalty under the agreement between the landowner and Qwest if the landowner enters into a ROW agreement with CLEC.

10.8.2.27 For purposes of permitting CLEC to determine whether Qwest has ownership or control over duct/conduit or ROW, including duct/conduit or ROW within a specific multiple tenant environment, if CLEC requests a copy of an agreement between Qwest and the owner of a duct/conduit or ROW, including duct/conduit or ROW within a specific multiple tenant environment, that grants Qwest access to, ownership of, or control of duct/conduit or ROW, including duct/conduit or ROW within a specific multiple tenant environment, Qwest will provide the agreement to CLEC pursuant to the terms of this Section. CLEC will submit a completed Attachment 1.A from Exhibit D that identifies a specific multiple tenant environment or Route for each agreement.

10.8.2.27.1 Upon receipt of a completed Attachment 1.A, Qwest will prepare and return an MTE Matrix or ROW Matrix, as applicable, within ten (10) Days, which will identify (a) the owner of the duct/conduit or ROW, including duct/conduit or ROW within a specific multiple tenant environment, as reflected in Qwest's records, (b) whether or not Qwest has a copy of an agreement that provides Qwest access to the duct/conduit or ROW, including duct/conduit or

ROW within a specific multiple tenant environment, in its possession, and (c) the nature of each ROW agreement (i.e., publicly recorded or non-recorded). Qwest makes no representations or warranties regarding the accuracy of its records, and CLEC acknowledges that the original property owner may not be the current owner of the property.

10.8.2.27.1.1 If Qwest has a copy of such agreement (whether publicly recorded or not) and there is no specific provision affording the third party property owner confidentiality, Qwest will provide the agreement to the CLEC when it provides the MTE Matrix or ROW Matrix, as applicable, to CLEC.

10.8.2.27.1.2 If Qwest has a copy of such agreement, the agreement is not publicly recorded and the agreement contains a specific provision affording the third party property owner confidentiality, then at the time Qwest provides CLEC the MTE Matrix or ROW Matrix, as applicable, Qwest shall also provide a copy of the specific provision from such agreement affording the third party property owner confidentiality together with a written statement signed by a Qwest employee verifying that such employee knows such provision to be a true and correct copy from the agreement. If CLEC has already satisfied one of the conditions set forth in Section 10.8.2.27.2, Qwest will provide CLEC with the following information from such agreement at the time Qwest provides the MTE Matrix or ROW Matrix, as applicable, and confidentiality provision: (a) the ownership or control over ducts, conduits, or rights-of-way within the property described in the agreement, including provisions which define the scope of Qwest's ownership or control of the ducts, conduits or rights-of-way; (b) the ownership of wire within the property described in the agreement; (c) the Demarcation Point between Qwest facilities and the property owner's facilities in the property described in the agreement; (d) to the extent the agreement affects any property interest of a third-party owner, any provision(s) that describe the property, including any metes and bound or other legal description of the property; (e) the term of the agreement; and (f) the parties to the agreement. If CLEC has not already satisfied one of the conditions set forth in Section 10.8.2.27.2, Qwest will provide CLEC with the foregoing information (items (a) through (f), above) from such agreement within three (3) business days after CLEC satisfies one of the conditions.

10.8.2.27.2 Qwest reserves any confidentiality rights it may have with regards to the content of the agreement. Qwest will provide to CLEC a copy of an agreement listed in the MTE Matrix or ROW Matrix, as applicable, that has not been publicly recorded and that contains a specific provision affording the third party property owner confidentiality, upon satisfaction by CLEC of any one of the following conditions: (1) CLEC obtains authorization for such disclosure from the third party owner(s) of the real property at issue by presenting to Qwest an executed version of the Consent to Disclosure form that is included in Attachment 4 to Exhibit D of this Agreement; (2) CLEC provides a legally binding and satisfactory agreement to indemnify Qwest in the event of any legal action arising out of Qwest's provision of such agreement to CLEC; or (3) CLEC agrees to be bound by the terms and conditions of and executes the Form Protective

Agreement set forth in Attachment 5 to Exhibit D of this Agreement. CLEC must satisfy only one of the conditions set forth in this Section. CLEC's election of the specific condition to satisfy remains at all times within its sole discretion. CLEC may specify at the time it executes this Agreement its election of the means by which it chooses to satisfy the conditions of this Section for all agreements CLEC may request during the term of this Agreement.

10.8.2.27.3 Without waiving any right it may have to confidentiality in an agreement that provides Qwest access to a multiple tenant environment that Qwest provides to CLEC or that CLEC obtains from the multiple tenant environment owner or operator, Qwest shall redact all dollar figures from copies of agreements that have not been publicly recorded that Qwest provides to CLEC and shall require that the multiple tenant environment owner or operator make similar redactions prior to disclosure of the agreement.

10.8.2.27.4 In all instances, CLEC will use agreements only for the following purposes: (a) to determine whether Qwest has ownership or control over duct, conduits, or rights-of-way within the property described in the agreement and the scope of such ownership or control; (b) to determine the ownership of wire within the property described in the agreement; (c) to determine the Demarcation Point between Qwest facilities and the Owner's facilities in the property described in the agreement; (d) to determine the extent of the property interest of the third-party owner, including any provisions that establish the legal description of any property interest of a third-party owner, including any metes and bounds of the property; (e) to determine the term of the agreement; and (f) to determine the parties to the agreement. CLEC further agrees that CLEC shall not disclose the contents, terms, or conditions of any agreement provided pursuant to Section 10.8.2.27 to any CLEC agents or employees engaged in sales or marketing efforts on behalf of CLEC. These limitations shall not apply if CLEC executes the Access Agreement set forth in Attachment 4 to Exhibit D of this Agreement.

10.8.2.28 In cities where Qwest has deployed microduct technology but no vacant microduct is available on the specified Route, CLEC may request Qwest to place microduct along the desired Route or CLEC can choose to place microduct that must meet reasonable, nondiscriminatory Qwest specifications.

10.8.2.29 In cities where Qwest has not deployed microduct and CLEC wishes to use this technology, CLEC must lease an innerduct at one-half ($\frac{1}{2}$) of the rate for innerduct in Exhibit A per microduct placed within the innerduct. In these locations CLEC will be required to furnish and place the microduct. At the conclusion of the lease, CLEC and Qwest will make a joint decision whether or not CLEC will be required to remove CLEC's microduct from the innerduct.

10.8.2.30 If any CLEC microduct is found occupying facilities for which no order was placed and for which CLEC has not paid, Qwest, without prejudice to its other rights or remedies, may assess a charge and CLEC agrees to pay the lesser of (a) the annual fee per microduct run between two (2) manholes for the number of years since the most recent inventory, or (b) five (5) times the annual fee per microduct run between two (2) manholes.

10.8.2.30.1 In addition, CLEC agrees to pay (a) interest on these fees at a

rate set for the applicable time period by the Internal Revenue Service for individual underpayments pursuant to Section 6621 of the Internal Revenue Service Code (25 U.S.C 6621, Rev. Rul. 2000-30, 2000-25 IRS 1262), and (b) the cost of any audit, or applicable portion thereof, required to identify unauthorized CLEC occupancy.

10.8.2.30.2 Qwest shall waive half the unauthorized occupancy fee if the following conditions are met:

10.8.2.30.2.1 CLEC cures such unauthorized occupancy by removing it or submitting a valid order for the attachment within thirty (30) Days of written notification from Qwest.

10.8.2.30.2.2 The unauthorized occupancy did not require Qwest to take curative measures (e.g., pulling additional microduct) prior to cure by CLEC.

10.8.2.30.2.3 CLEC reimburses Qwest for cost of audit, or applicable portion thereof, which discovered the unauthorized occupancy.

10.8.2.30.3 Qwest shall waive all of the unauthorized occupancy fee if the unauthorized occupancy arose due to error by Qwest rather than CLEC.

10.8.2.30.4 CLEC is required to submit in writing, within ten (10) business days after receipt of written notification from Qwest of the unauthorized occupancy, a Poles/Duct/Innerduct/Microduct Application. If such application is not received by Qwest within the specified time period, CLEC will be required to remove its unauthorized facility within thirty (30) Days of the final date for submitting the required application, or Qwest may remove CLEC's facilities without liability, and the cost of such removal shall be borne by CLEC.

10.8.3 Rate Elements

Qwest fees for attachments are in accordance with Section 224 of the Act and FCC orders, rules and regulations promulgated thereunder, as well as the rates established by the Commission including the following rates, are reflected in Exhibit A.

10.8.3.1 Inquiry Fee. A non-refundable pre-paid charge used to recover the costs associated with performing an internal record review to determine if a requested Route and/or facility is available, or with respect to ROW, to determine the information necessary to create the MTE Matrix or ROW Matrix, as applicable, which identifies, for each ROW, the name of the original grantor and the nature of the ROW (i.e., publicly recorded and non-recorded) and the MTE Matrix or ROW Matrix, as applicable, which identifies each requested legal agreement between Qwest and a third party who has a multi-unit Building in Qwest's possession that relates to Telecommunications Services provided to or through real property owned by the third party (MTE Agreement) and, for each such MTE Agreement, the name of the third party. Separate Inquiry Fees apply for ROW, poles and duct/conduit/innerduct.

10.8.3.2 Field Verification Fee/Access Agreement Preparation Fee. In the case of poles and duct/innerduct, the Field Verification Fee is a non-refundable pre-paid charge which recovers the estimated actual costs for a field survey verification required for a

Route and to determine scope of any required Make-Ready work. Separate Field Verification Fees apply for poles and manholes. In the case of ROW, the Access Agreement Preparation Fee is a non-refundable, pre-paid charge which recovers the estimated actual costs for preparation of the Access Agreement for each ROW requested by CLEC. Field Verification and Access Agreement Preparation Fees shall be billed in advance.

10.8.3.3 Make-Ready Fee. A pre-paid non-refundable (other than true-up) charge which recovers the cost of necessary work required to make the requested facility/ROW available for access. For innerduct, this could include, but is not limited to, the placing of innerduct in conduit/duct systems or core drilling of manholes. For pole attachment requests, this could include, but is not limited to, the replacement of poles to meet required clearances over roads or land. For ROW, this Make-Ready could include, but is not limited to, personnel time, including attorney time. With respect to ROW, Make-Ready work refers to legal or other investigation or analysis arising out of CLEC's failure to comply with the process described in Exhibit D for ROW, or other circumstances giving rise to such work beyond the simple preparation of one or more Access Agreements. The estimated pre-paid fee shall be billed in advance.

10.8.3.4 Pole Attachment Fee. A pre-paid fee which is charged for the occupancy, including during any Make-Ready period, of one (1) foot of pole space (except for antenna attachment which requires two (2) feet). This fee shall be annual unless CLEC requests that it be semi-annual.

10.8.3.5 Innerduct Occupancy Fee. A pre-paid fee which is charged for the occupancy, including during any Make-Ready period, of an innerduct on a per foot basis. This fee shall be annual unless CLEC requests that it be semi-annual.

10.8.3.6 Access Agreement Consideration. A pre-paid fee which constitutes consideration for conveying access to the ROW to CLEC. This fee shall be a one-time (i.e. nonrecurring) fee.

10.8.3.7 Microduct Occupancy Fee. A pre-paid fee which is charged for the occupancy, including during any make-ready period, and billed annually per microduct, per foot. When the microduct occupancy fee applies, no innerduct fee applies.

10.8.4 Ordering

There are two (2) steps required before placing an Order for access to ROW, Duct/Innerduct and Pole Attachment: Inquiry Review and Field Verification.

10.8.4.1 Inquiry Reviews. Upon receipt of an inquiry regarding ROW access, Pole Attachment or Duct/Innerduct Occupancy, Qwest will provide CLEC with Exhibit D. CLEC will review the documents and provide Qwest with maps of the desired area indicating the Routes and entrance points for proposed attachment, proposed occupancy or proposed CLEC construction on Qwest owned or controlled poles, duct/innerduct and ROW as well as the street addresses of any multi-unit Buildings upon or through which CLEC proposes construction on ROW owned or controlled by Qwest. CLEC will include the appropriate Inquiry Fee with a completed Attachment 1.A from Exhibit D.

10.8.4.1.1 Inquiry Review – Duct/Conduit/Innerduct. Qwest will complete the

database inquiry and prepare a duct/conduit structure diagram (referred to as a "Flatline") which shows distances and access points (such as manholes). Along with the Flatline will be estimated costs for field verification of available facilities. These materials will be provided to the CLEC within ten (10) Days or within the time frames of the applicable federal or State law, rule or regulation.

10.8.4.1.2 Inquiry Review – Poles. Qwest will provide the name and contact number for the appropriate local field engineer for joint validation of the poles and Route and estimated costs for field verification on Attachment 1.B of Exhibit D within ten (10) Days of the request.

10.8.4.1.3 Inquiry Review – ROW. Qwest shall, upon request of CLEC, provide the ROW Matrix, the MTE Matrix and a copy of all publicly recorded agreements listed in those matrices to CLEC within ten (10) Days of the request. Qwest will provide to CLEC a copy of agreements listed in the Matrices or the information set forth in Section 10.8.2.27.1.2 in accordance with the terms of Section 10.8.2.27 of this Agreement. Qwest may redact all dollar figures from copies of agreements listed in the Matrices that have not been publicly recorded that Qwest provides to CLEC. Any dispute over whether terms have been redacted appropriately shall be resolved pursuant to the dispute resolution procedures set forth in this Agreement. Qwest makes no warranties concerning the accuracy of the information provided to CLEC; CLEC expressly acknowledges that Qwest's files contain only the original ROW instruments, and that the current owner(s) of the fee estate may not be the party identified in the document provided by Qwest.

10.8.4.2 Field Verification – Poles Duct/Innerduct and Access Agreement Preparation (ROW). CLEC will review the inquiry results and determine whether to proceed with field verification for poles/ducts or Access Agreement preparation for ROW. If field verification or Access Agreement preparation is desired, CLEC will sign and return Attachment 1.B of Exhibit D along with a check for the relevant verification fee (Field Verification Fee or Access Agreement Preparation Fee) plus \$10.00 per Access Agreement as consideration for the Access Agreement. Upon payment of the relevant fee and Access Agreement consideration, if applicable, Qwest will provide, as applicable: depending on whether the request is for duct/innerduct/conduit, ROW or poles : (a) in the case of innerduct/duct/conduit, a field survey and site investigation of the innerduct/duct/conduit, including the preparation of distances and drawings, to determine availability of existing innerduct/duct/conduit; identification of Make-Ready costs required to provide space; the schedule in which the Make-Ready work will be completed; and, the annual recurring prices associated with the attachment of facilities; (b) in the case of ROW, the completed Access Agreement(s), executed and acknowledged by Qwest. Upon completion of the Access Agreement(s) by CLEC, in accordance with the instructions, terms and conditions set forth in Exhibit D, the Access Agreement becomes effective to convey the interest identified in the Access Agreement (if any). Any dispute regarding whether a legal agreement conveys a ROW shall be resolved between CLEC and the relevant third party or parties, and such disputes shall not involve Qwest; and/or (c) In the case of poles, estimates of Make-Ready costs and the annual recurring prices associated with the attachment of facilities shall be provided on Attachment 2 of Exhibit D and shall be completed not later than forty-five (45) Days after CLEC's submission of the inquiry request. Make-ready time, if any, and CLEC review time, is not part of the forty-five (45) Day interval. The Attachment 2 quotation

shall be valid for ninety (90) Days.

10.8.4.2.1 CLEC-Performed Field Verification. At the option of CLEC, it may perform its own field verification (in lieu of Qwest performing same) with the following stipulations: 1) Verifications will be conducted by a Qwest approved contractor; 2) A Qwest contractor will monitor the activity of CLEC contractor and a current labor rate will be charged to CLEC; 3) CLEC will provide Qwest with a legible copy of manhole butterfly drawings that reflect necessary Make-Ready effort; and 4) Qwest will use CLEC-provided butterfly drawings and documentation to check against existing jobs and provide a final field report of available duct/innerduct. CLEC will be charged standard rates for Tactical Planner time.

10.8.4.3 Order – Poles and Duct/Innerduct. The review, signing and return of Attachment 2 of the General Information Document along with payment of the Make-Ready and prorated recurring access charges for the current relevant period (annual or semi-annual) shall be accepted as an Order for the attachment or occupancy. Upon receipt of the accepted Order from CLEC and applicable payment for the fees identified, Qwest will assign the requested space and commence any Make-Ready work which may be required. Qwest will notify CLEC when poles/duct/innerduct are ready.

10.8.4.4 Make-Ready - Estimates of Make-Ready are used to cover actual Make-Ready costs.

10.8.4.4.1 If Qwest requests, CLEC will be responsible for payment of the actual Make-Ready costs determined if such costs exceed the estimate. Such payment shall be made within thirty (30) Days of receipt of an invoice for the costs that exceed the estimate.

10.8.4.4.2 Within fifteen (15) business days of a request, Qwest will provide CLEC copies of records reflecting actual cost of Make-Ready work; provided, however, that, if Qwest does not possess all such records at the time of the request, then Qwest will provide copies of such records within fifteen (15) business days of receipt of such records. CLEC must request such records, if at all, within sixty (60) Days after written notification of the completion of the Make-Ready work.

10.8.4.4.3 If the actual Make-Ready costs are less than the estimate, an appropriate credit for the difference will be issued upon request. Such request must be received within sixty (60) Days following CLEC's receipt of copies of records if CLEC has requested records under this paragraph, or within sixty (60) Days after written notification of the completion of Make-Ready work if CLEC has not requested records under this paragraph. Such credit will issue within ten (10) business days of Qwest's receipt of either all records related to such actual costs or CLEC's request for credit, whichever comes last, but in no event later than ninety (90) Days following the request for credit.

10.8.4.4.4 If CLEC cancels or if, due to circumstances unforeseen during inquiry/verification, Qwest denies the request for poles, ducts or ROW, upon CLEC request, Qwest will also refund the difference between the actual Make-Ready costs incurred and those prepaid by CLEC, if any. Such request must be

made within thirty (30) Days of CLEC's receipt of written denial or notification of cancellation. Any such refund shall be made within ten (10) business days of either receipt of CLEC's request or Qwest's receipt of all records relating to the actual costs, whichever comes last, but in no event later than ninety (90) Days following the denial.

10.8.5 Billing

CLEC agrees to pay the following fees in advance as specified in Exhibit A: Inquiry Fee, Field Verification Fee, Access Agreement Preparation Fee, Make-Ready Fee, Pole Attachment Fee, Duct/Innerduct Occupancy Fee and Access Agreement Consideration. Make-Ready Fees will be computed in compliance with applicable local, State and federal guidelines. Usage fees for poles/duct/innerduct (i.e., Pole Attachment Fee and Duct/Innerduct Occupancy Fee) will be assessed on an annual basis (unless CLEC requests a semi-annual basis). Annual usage fees for poles/duct/innerduct will be assessed as of January 1 of each year. Semi-annual usage fees for poles/duct/innerduct will be assessed as of January 1 and July 1 of each year. All fees shall be paid within thirty (30) Days following receipt of invoices. All fees are not refundable except as expressly provided herein.

10.8.6 Maintenance and Repair

In the event of any service outage affecting both Qwest and CLEC, repairs shall be effectuated on a non-discriminatory basis as established by local, State or federal requirements. Where such requirements do not exist, repairs shall be made in the following order: electrical, telephone (EAS/local), telephone (long distance), and cable television, or as mutually agreed to by the users of the affected poles/duct/innerduct.

SECTION 11.0 - NETWORK SECURITY

11.1 Protection of Service and Property. Each Party shall exercise the same degree of care to prevent harm or damage to the other Party and any third parties, its employees, agents or End User Customers, or their property as it employs to protect its own personnel, End User Customers and property, etc.

11.2 Each Party is responsible to provide security and privacy of communications. This entails protecting the confidential nature of Telecommunications transmissions between End User Customers during technician work operations and at all times. Specifically, no employee, agent or representative shall monitor any circuits except as required to repair or provide service of any End User Customer at any time. Nor shall an employee, agent or representative disclose the nature of overheard conversations, or who participated in such communications or even that such communication has taken place. Violation of such security may entail state and federal criminal penalties, as well as civil penalties. CLEC is responsible for covering its employees on such security requirements and penalties.

11.3 The Parties' Telecommunications networks are part of the national security network, and as such, are protected by federal law. Deliberate sabotage or disablement of any portion of the underlying equipment used to provide the network is a violation of federal statutes with severe penalties, especially in times of national emergency or state of war. The Parties are responsible for covering their employees on such security requirements and penalties.

11.4 Qwest and CLEC share responsibility for security and network protection for each Collocation arrangement. Each Party's employees, agents or representatives must secure its own portable test equipment, spares, etc. and shall not use the test equipment or spares of other parties. Use of such test equipment or spares without written permission constitutes theft and may be prosecuted. Exceptions are the use of Qwest ladders in the Wire Center, either rolling or track, which CLEC may use in the course of work operations. Qwest assumes no liability to CLEC, its agents, employees or representatives, if CLEC uses a Qwest ladder available in the Wire Center.

11.5 Each Party is responsible for the physical security of its employees, agents or representatives. Providing safety glasses, gloves, etc. must be done by the respective employing Party. Hazards handling and safety procedures relative to the Telecommunications environment is the training responsibility of the employing Party. Proper use of tools, ladders, and test gear is the training responsibility of the employing Party.

11.6 In the event that one Party's employees, agents or representatives inadvertently damage or impair the equipment of the other Party, prompt notification will be given to the damaged Party by verbal notification between the Parties' technicians at the site or by telephone to each Party's 24 x 7 security numbers.

11.7 Each Party shall comply at all times with Qwest security and safety procedures and requirements while performing work activities on Qwest's Premises.

11.8 Qwest will allow CLEC to inspect or observe spaces which house or contain CLEC equipment or equipment enclosures at any time and to furnish CLEC with all keys, entry

codes, lock combinations, or other materials or information which may be needed to gain entry into any secured CLEC space, in a manner consistent with that used by Qwest.

11.9 Qwest will limit the keys used in its keying systems for enclosed collocated spaces which contain or house CLEC equipment or equipment enclosures to its employees and representatives to emergency access only. CLEC shall further have the right to change locks where deemed necessary for the protection and security of such spaces.

11.10 Keys may entail either metallic keys or combination electronic ID/key cards. It is solely the responsibility of CLEC to ensure keys are not shared with unauthorized personnel and recover keys and electronic ID/keys promptly from discharged personnel, such that office security is always maintained. Qwest has similar responsibility for its employees.

11.11 CLEC will train its employees, agents and vendors on Qwest security policies and guidelines.

11.12 When working on Qwest ICDF Frames or in Qwest's common or CLEC equipment line-ups, Qwest and CLEC employees, agents and vendors agree to adhere to Qwest quality and performance standards provided by Qwest and as specified in this Agreement.

11.13 CLEC shall report all material losses to Qwest Security. All security incidents are to be referred directly to local Qwest Security – 1-888-879-7328. In cases of emergency, CLEC shall call 911 and 1-888- 879-7328.

11.14 Qwest and CLEC employees, agents and vendors will display the identification/access card above the waist and visible at all times.

11.15 Qwest and CLEC shall ensure adherence by their employees, agents and vendors to all applicable Qwest environmental health and safety regulations. This includes all fire/life safety matters, OSHA, EPA, Federal, State and local regulations, including evacuation plans and indoor air quality.

11.16 Qwest and CLEC employees, agents and vendors will secure and lock all doors and gates.

11.17 CLEC will report to Qwest all property and equipment losses immediately, any lost cards or keys, vandalism, unsecured conditions, security violations, anyone who is unauthorized to be in the work area or is not wearing the Qwest identification/access card.

11.18 Qwest and CLEC employees, agents and vendors shall comply with Qwest Central Office fire and safety regulations, which include but are not limited to, wearing safety glasses in designated areas, keeping doors and aisles free and clean of trip hazards such as wire, checking ladders before moving, not leaving test equipment or tools on rolling ladders, not blocking doors open, providing safety straps and cones in installation areas, using electrostatic discharge protection, and exercising good housekeeping.

11.19 Smoking is not allowed in Qwest buildings, Wire Centers, or other Qwest facilities. No open flames shall be permitted anywhere within the buildings, Wire Centers or other facilities. Failure to abide by this restriction may result in denial of access for that individual and may constitute a violation of the access rules, subjecting CLEC employee, agent or vendor to denial of unescorted access. Qwest shall provide written notice within five (5) Days of a CLEC

violation of this provision to CLEC prior to denial of access and such notice shall include: 1) identification of the violation of this provision and the personnel involved, 2) identification of the safety regulation violated, and 3) date and location of such violation. CLEC will have five (5) Days to remedy any such violation for which it has received notice from Qwest. In the event that CLEC fails to remedy any such violation of which it has received notice within such five (5) Days following receipt of such notice, CLEC shall be denied unescorted access to the affected Premises. In the event CLEC disputes any action Qwest seeks to take or has taken pursuant to this provision, CLEC may pursue immediate resolution by expedited Dispute resolution.

11.20 No flammable or explosive fluids or materials are to be kept or used anywhere within the Qwest buildings or on the grounds.

11.21 No weapons of any type are allowed on Qwest Premises. Vehicles on Qwest property are subject to this restriction as well.

11.22 Except as otherwise provided in this Agreement, CLEC's employees, agents or vendors may not make any modifications, alterations, additions or repairs to any space within the building or on the grounds, provided, however, nothing in Section 11 shall prevent CLEC, its employees or agents from performing modifications, alterations, additions or repairs to its own equipment or facilities.

11.23 Qwest employees may request CLEC's employees, agents or vendors to stop any work activity that in their reasonable judgment is a jeopardy to personal safety or poses a potential for damage to the Qwest Premises, Qwest equipment or Qwest services within the facility until the situation is remedied. CLEC employees may report any work activity that in their reasonable judgment is a jeopardy to personal safety or poses a potential for damage to the building, CLEC equipment or CLEC services within the facility, to Qwest Service Assurance (800-713-3666) and the reported work activity will be immediately stopped until the situation is remedied. In the event such non-compliant activity occurs in a Qwest Central Office, notification of the non-compliant activity may be made to the Central Office supervisor, and the Central Office supervisor shall immediately stop the reported work activity until the situation is remedied. The compliant Party shall provide immediate notice of the non-compliant work activity to the non-compliant Party and such notice shall include: 1) identification of the non-compliant work activity, 2) identification of the safety regulation violated, and 3) date and location of safety violation. If such non-compliant work activities pose an immediate threat to the safety of the other Party's employees, interference with the performance of the other Party's service obligations, or pose an immediate threat to the physical integrity of the other Party's facilities, the compliant Party may perform such work and/or take action as is necessary to correct the condition at the non-compliant Party's expense. In the event the non-compliant Party disputes any action the compliant Party seeks to take or has taken pursuant to this provision, the non-compliant Party may pursue immediate resolution by expedited Dispute resolution. If the non-compliant Party fails to correct any safety non-compliance within ten (10) Days of written notice of non-compliance, or if such non-compliance cannot be corrected within ten (10) Days of written notice of non-compliance, and if the non-compliant Party fails to take all appropriate steps to correct as soon as reasonably possible, the compliant Party may pursue immediate resolution by expedited Dispute resolution.

11.24 Qwest is not liable for any damage, theft or personal injury resulting from CLEC's employees, agents or vendors parking in a Qwest parking area.

11.25 CLEC's employees, agents or vendors outside the designated CLEC access area, or without proper identification will be asked to vacate the Premises and Qwest security may be notified. Continued violations may result in termination of access privileges. Qwest shall provide immediate notice of the security violation to CLEC and such notice shall include: 1) identification of the security violation, 2) identification of the security regulation violated, and 3) date and location of security violation. CLEC will have five (5) Days to remedy any such alleged security violation before any termination of access privileges for such individual. In the event CLEC disputes any action Qwest seeks to take or has taken pursuant to this provision, CLEC may pursue immediate resolution by expedited or other Dispute resolution.

11.26 Building related problems may be referred to the Qwest Work Environment Centers:

800-879-3499 (CO, WY, AZ, NM)

800-201-7033 (all other Qwest states)

11.27 CLEC will submit a Qwest Collocation Access application form for individuals needing to access Qwest facilities. CLEC and Qwest will meet to review applications and security requirements.

11.28 CLEC employees, agents and vendors will utilize only corridors, stairways and elevators that provide direct access to CLEC's space or the nearest restroom facility. Such access will be covered in orientation meetings. Access shall not be permitted to any other portions of the building.

11.29 CLEC will collect identification/access cards for any employees, agents or vendors no longer working on behalf of CLEC and forward them to Qwest Security. If cards or keys cannot be collected, CLEC will immediately notify Qwest at 800-210-8169.

11.30 CLEC will assist Qwest in validation and verification of identification of its employees, agents and vendors by providing a telephone contact available seven (7) days a week, twenty-four (24) hours a day.

11.31 Qwest and CLEC employees, agents and vendors will notify Qwest Service Assurance (800-713-3666) prior to gaining access into a Central Office after hours, for the purpose of disabling Central Office alarms for CLEC access. Normal business hours are 7:00 a.m. to 5:00 p.m.

11.32 CLEC will notify Qwest if CLEC has information that its employee, agent or vendor poses a safety and/or security risk. Qwest may deny access to anyone who in the reasonable judgment of Qwest threatens the safety or security of facilities or personnel.

11.33 CLEC will supply to Qwest Security, and keep up to date, a list of its employees, agents and vendors who require access to CLEC's space. The list will include names and social security numbers. Names of employees, agents or vendors to be added to the list will be provided to Qwest Security, who will provide it to the appropriate Qwest personnel.

11.34 Revenue Protection. Qwest shall make available to CLEC all present and future fraud prevention or revenue protection features. These features include, but are not limited to, screening codes, information digits '29' and '70' which indicate prison and COCOT pay phone originating line types respectively; call blocking of domestic, international, 800, 888, 900, NPA-

976, 700 and 500 numbers. Qwest shall additionally provide partitioned access to fraud prevention, detection and control functionality within pertinent Operations Support Systems which include but are not limited to LIDB Fraud monitoring systems.

11.34.1 Uncollectable or unbillable revenues resulting from, but not confined to, Provisioning, maintenance, or signal network routing errors shall be the responsibility of the Party causing such error or malicious acts, if such malicious acts could have reasonably been avoided.

11.34.2 Uncollectible or unbillable revenues resulting from the accidental or malicious alteration of software underlying Network Elements or their subtending Operational Support Systems by unauthorized third parties that could have reasonably been avoided shall be the responsibility of the Party having administrative control of access to said Network Element or Operational Support System software.

11.34.3 Qwest shall be responsible for any direct uncollectible or unbillable revenues resulting from the unauthorized physical attachment to Loop facilities from the Main Distribution Frame up to and including the Network Interface Device, including clip-on fraud, if Qwest could have reasonably prevented such fraud.

11.34.4 To the extent that incremental costs are directly attributable to a revenue protection capability requested by CLEC, those costs will be borne by CLEC.

11.34.5 To the extent that either Party is liable to any toll provider for fraud and to the extent that either Party could have reasonably prevented such fraud, the Party who could have reasonably prevented such fraud must indemnify the other for any fraud due to compromise of its network (e.g., clip-on, missing information digits, missing toll restriction, etc.).

11.34.6 If Qwest becomes aware of potential fraud with respect to CLEC's accounts, Qwest will promptly inform CLEC and, at the direction of CLEC, take reasonable action to mitigate the fraud where such action is possible.

11.35 Law Enforcement Interface. Qwest provides emergency assistance to 911 centers and law enforcement agencies seven (7) Days a week/twenty-four (24) hours a Day. Assistance includes, but is not limited to, release of 911 trace and subscriber information; in-progress trace requests; establishing emergency trace equipment, release of information from an emergency trap/trace or *57 trace; requests for emergency subscriber information; assistance to law enforcement agencies in hostage/barricade situations, kidnappings, bomb threats, extortion/scams, runaways and life threats.

11.36 Qwest provides trap/trace, pen register and Title III assistance directly to law enforcement, if such assistance is directed by a court order. This service is provided during normal business hours, Monday through Friday. Exceptions are addressed in the above paragraph. The charges for these services will be billed directly to the law enforcement agency, without involvement of CLEC, for any lines served from Qwest Wire Centers or cross boxes.

11.37 In all cases involving telephone lines served from Qwest Wire Centers or cross boxes, whether the line is a resold line or part of an Unbundled Local Switching or Unbundled Loop element, Qwest will perform trap/trace Title III and pen register assistance directly with law enforcement. CLEC will not be involved or notified of such actions, due to non-disclosure court order considerations, as well as timely response duties when law enforcement agencies are involved. Exceptions to the above will be those cases, as yet undetermined, where CLEC must participate due to technical reasons wherein its circuitry must be accessed or modified to

comply with law enforcement, or for legal reasons that may evolve over time. CLEC will provide Qwest with a twenty-four (24) hour a Day, seven (7) Days a week contact for processing such requests, should they occur.

SECTION 12.0 – ACCESS TO OPERATIONAL SUPPORT SYSTEM (OSS)

12.1 General Terms

12.1.1 Qwest has developed and shall continue to provide Operational Support System (OSS) interfaces using electronic gateways and manual processes. (Qwest and CLEC responsibilities for on-going support of OSS are set forth in Section 12.1.1.1 below.) These gateways act as a mediation or control point between CLEC's and Qwest's OSS. These gateways provide security for the interfaces, protecting the integrity of the Qwest OSS and databases. This Section describes Qwest's OSS interfaces, as well as manual processes, that Qwest shall provide to CLEC to support Pre-ordering, Ordering, Provisioning, Maintenance and Repair and Billing. (For additional Billing information, see Section 21.)

12.1.1.1 Qwest will continue to make improvements to the electronic OSS interfaces as technology evolves, Qwest's legacy systems improve, or CLEC needs require. Qwest shall adhere to the provisions of the Change Management Process (CMP) set forth in Section 12.1.6 and Exhibit G.

12.1.2 Nondiscrimination

12.1.2.1 Through its electronic gateways and manual processes, Qwest shall provide CLEC non-discriminatory access to Qwest's OSS for Pre-ordering, Ordering and Provisioning, Maintenance and Repair, and Billing functions. For those functions with a retail analogue, such as Pre-ordering, Ordering and Provisioning of resold services, Qwest shall provide CLEC access to its OSS in substantially the same time and manner as it provides to itself, its End User Customers, its Affiliates or any other party. For those functions with no retail analogue, such as Pre-ordering and Ordering and Provisioning of Unbundled Elements, Qwest shall provide CLEC access to Qwest's OSS sufficient to allow an efficient competitor a meaningful opportunity to compete. Qwest will comply with the standards for access to OSS set forth in Section 20, Exhibit B and Exhibit K. Qwest shall deploy the necessary systems and personnel to provide sufficient access to each of the necessary OSS functions. Qwest shall provide OSS designed to accommodate both current demand and reasonably foreseeable demand.

12.1.2.2 All Qwest employees who perform services pursuant to this Agreement or who have any interaction with CLEC and CLEC End User Customers will be trained in non-discriminatory behavior. When discriminatory behavior is identified, Qwest shall take appropriate disciplinary action. Nothing in this Section shall limit or alter CLEC's ability to seek additional relief for discriminatory behavior. See also Section 12.1.5 below (Responsibilities Relating to End User Customers).

12.1.3 Documentation, Questions, Escalations, and Disputes

12.1.3.1 Qwest shall use its best efforts to provide complete and accurate documentation and assistance for CLEC to understand how to implement and use all of the available OSS functions and Qwest's manual processes. As described in this Section 12.1.3, this assistance will include documentation, training, a Qwest account team for CLEC, and help desk support.

12.1.3.2 Documented Processes and Information

12.1.3.2.1 Qwest shall provide assistance for CLEC to understand how to implement and use all of the available OSS functions. Qwest shall provide CLEC sufficient electronic and manual interfaces to allow CLEC equivalent access to all of the necessary OSS functions. Through its web site, training, disclosure documentation and development assistance, as available, Qwest shall disclose to CLEC any internal business rules, specifications, test cases, mapping examples and other formatting information necessary to ensure that CLEC's requests and orders are processed efficiently and necessary to enable CLEC to design its own systems. Qwest will provide information to CLEC in writing. Qwest will post such information, including business rules regarding out-of-hours Provisioning, on Qwest's web site. If Qwest fails to provide such information or provides inaccurate information, Qwest will remedy the situation within Qwest systems. Qwest shall provide training to enable CLEC to devise its own course work for its own employees. Through its documentation available to CLEC, Qwest will identify how its interface differs from national guidelines or standards.

12.1.3.2.2 Additional technical information and details about Qwest's OSS shall be provided by Qwest to CLEC in training sessions and documentation and support, such as Qwest's "Interconnect Mediated Access User's Guide." Qwest shall maintain its Interconnect Mediated Access User's Guide on Qwest's wholesale web site. Qwest shall offer introductory training on procedures that CLEC must use to access Qwest's OSS at no cost to CLEC. If CLEC asks Qwest personnel to travel to CLEC's location to deliver training, CLEC will pay Qwest's reasonable travel related expenses unless the Parties agree otherwise.

12.1.3.2.3 Qwest provides output information to CLEC in the form of bills, files, and reports, including:

12.1.3.2.3.1 The Qwest Street Address Guide (SAG) provides Address and Serving Central Office Information. Qwest will make this file available via a download process. CLEC may retrieve it by File Transfer Protocol (FTP), Network Data Mover (NDM) connectivity, or a Web browser.

12.1.3.2.3.2 The Qwest Features Availability Matrix (FAM) provides USOCs and descriptions by state (POTS only), and USOC availability by NPA-NXX with the exception of Centrex and provides InterLATA/IntraLATA Carriers by NPA-NXX. Qwest will make this file available via a download process. CLEC may retrieve it by File Transfer Protocol (FTP), Network Data Mover (NDM) connectivity, or a Web browser.

12.1.3.2.3.3 Bills and Daily Usage Files (DUF), which are described in Section 21.

12.1.3.2.3.4 Loss and completion reports, which are described below in Section 12.3.7.

12.1.3.2.4 Intentionally Left Blank.

12.1.3.2.5 Qwest will maintain and update an information database, available to CLEC for the purpose of allowing CLEC to obtain information about Qwest's NPAs, LATAs, Access Tandems and Central Offices. This data base will also include CPNI information, NXX activity reports, Switch features, Switch conversions and upgrades, Switch replacements, Switch generic changes, embargo dates, Loop data, usage data, Digital Loop Carrier (DLC) Remote Terminal (RT) equipment cabinets by Distribution Area (DA), outside plant and interoffice facility jobs (at least those greater than \$100,000), Universal Digital Carrier (UDC) information, and DA maps. This database (currently known as the ICONN database for most of this information) is available to CLEC via Qwest's Web site.

12.1.3.2.5.1 This data (ICONN) is updated in substantially the same time and manner as Qwest updates the same data for itself, its End User Customers, its Affiliates or any other party.

12.1.3.2.6 Intentionally Left Blank.

12.1.3.2.7 Intentionally Left Blank.

12.1.3.2.8 All applications and forms that are referred to in this Agreement or are used to implement any of its provisions shall comply with the terms and conditions set forth in this Agreement. Such applications and forms are for administrative purposes only and, notwithstanding any language in an application or form to the contrary, nothing in the applications or forms alters or amends the terms of this Agreement.

12.1.3.3 Points of Contact for Assistance and Hours of Availability

12.1.3.3.1 Intentionally Left Blank.

12.1.3.3.2 Intentionally Left Blank.

12.1.3.3.3 Support Centers/Help Desks: Qwest shall also provide support centers (sometimes referred to as "help desks") for CLEC to gain assistance with inquiries and to submit trouble reports.

12.1.3.3.3.1 Qwest and CLEC shall work cooperatively to develop positive, close working relationships among corresponding work centers and representatives involved in the trouble resolution processes.

12.1.3.3.3.1.1 The first time a trouble is reported, Qwest will assign a trouble report tracking number. (Depending on the circumstances, such trouble report tickets are sometimes referred to by various names, such as "Trouble Ticket," "Escalation Ticket" or "Chronic Ticket.") Qwest will communicate the trouble report tracking number (i.e., the "ticket" number) to CLEC at the time the trouble is reported. Closing of trouble reports is addressed in Section 12.4.4 below.

12.1.3.3.3.2 Qwest shall offer support center assistance as described below. Qwest may also provide additional information on its wholesale web site.

12.1.3.3.3.2.1 Interconnect Service Center Help Desk: Qwest will provide Interconnect Service Center (ISC) Help Desks for CLEC to gain assistance in areas involving order submission and manual processes.

12.1.3.3.3.2.2 Systems Help Desk: The CLEC Systems Help Desk (also known as the IT Help Desk) will provide a point of entry for CLEC to gain assistance with systems issues. System issues include those involving connectivity, system availability, and file outputs:

12.1.3.3.3.2.2.1 Connectivity covers trouble with CLEC's access to the Qwest system for hardware configuration requirements with relevance to XML and GUI interfaces; software configuration requirements with relevance to XML and GUI interfaces; modem configuration requirements, T1 configuration and dial-in string requirements, firewall access configuration, SecurID configuration, Profile Setup, dedicated web site access, and password verification.

12.1.3.3.3.2.2.2 System Availability covers system errors generated during an attempt by CLEC to place orders or open trouble reports through XML and GUI interfaces. These system errors are limited to: non-design services (e.g., Resale/POTS and UNE POTS), design services and Maintenance and Repair.

12.1.3.3.3.2.2.3 File Outputs covers CLEC's output files and reports produced from its usage and order activity. File outputs system errors are limited to any output files that Qwest provides to CLEC via File Transfer Protocol (FTP), Network Data Mover (NDM) connectivity, or web browser, such as Daily Usage File; Loss/Completion File, IABS Bill, CRIS Summary Bill, Category 11 Report and SAG/FAM Reports.

12.1.3.3.3.2.2.4 The System Help Desk will be available pursuant to days and hours specified on Qwest's wholesale web site.

12.1.3.3.3.2.2.5 Additional information regarding the Systems/IT Help Desk is set forth in Section 12.0 of Exhibit G to this Agreement.

12.1.3.3.3.2.3 The Maintenance and Repair Support Center will be available pursuant to days and hours specified on Qwest's wholesale web site.

12.1.3.3.3.2.3.1 Qwest's repair operation is seven (7) Days a week, twenty-four (24) hours a day. Not all functions or locations are covered with scheduled employees on a 7X24 basis. Where such 7X24 coverage is not available, Qwest's repair operations center (always available 7X24) can call out technicians or other personnel required for the identified situation.

12.1.3.3.3.2.3.2 The Qwest CLEC Coordination Center (QCCC) will be available pursuant to days and hours specified on Qwest's wholesale web site.

12.1.3.3.4 OSS Interfaces: Qwest will make OSS interfaces available at least as follows:

12.1.3.3.4.1 Qwest shall provide electronic interface gateways for submission of LSRs, ASRs, and trouble reports, including both an Electronic Data Interchange (XML) interface and a Graphical User Interface (GUI).

12.1.3.3.4.2 Qwest shall provide Facility Based XML and GUI Listing interfaces to enable CLEC listing data to be translated and passed into the Qwest listing database. These interfaces are based upon OBF LSOG and ANSI ASC X12 (or mutually agreed upon substitute) standards. Qwest shall supply exceptions to these guidelines/standards in writing in sufficient time for CLEC to adjust system requirements.

12.1.3.3.4.3 Qwest shall make its OSS interfaces available to CLECs during the hours listed in the Gateway Availability PIDs in Exhibit B and referenced in Section 20 and/or Exhibit K.

12.1.3.3.4.4 Qwest shall notify CLECs in a timely manner regarding system downtime through mass email distribution and pop-up windows as applicable. Information regarding planned outages and production support is contained in Section 12.0 of Exhibit G.

12.1.3.3.5 Escalations. See also Section 3.3.

12.1.3.3.5.1 Intentionally Left Blank.

12.1.3.3.5.2 Qwest will provide escalation procedures to CLEC. Such procedures will be substantially the same type and quality as Qwest employs for itself, its End User Customers, its Affiliates, or any other party. Qwest escalations are manual processes.

12.1.3.3.5.3 Qwest repair escalations may be initiated by either calling the trouble reporting center or through the electronic interfaces. Escalations sequence through five tiers: tester, duty supervisor,

manager, director, vice president. The first escalation point is the tester. CLEC may request escalation to higher tiers in its sole discretion. Escalations status is available through telephone and the electronic interfaces.

12.1.3.3.5.4 Intentionally Left Blank.

12.1.3.3.5.5 Intentionally Left Blank.

12.1.3.3.5.6 If a trouble report tracking number has been assigned, the same number will be used throughout the process until closure pursuant to Section 12.4.4 (e.g., the ticket will not be closed, and a new ticket with a new number opened, when escalating to other tiers or departments).

12.1.3.3.6 Disputes: If the Parties are unable to resolve issues, the dispute will be resolved in accordance with the procedures set forth in Section 5.18 of this Agreement.

12.1.3.3.7 Billing: For questions, escalations and disputes regarding Connectivity Billing, Recording, and Exchange of Information, see Section 21.

12.1.4 Root Cause Analysis and Acknowledgement of Mistakes

12.1.4.1 CLEC may make a written request to its Qwest Service Manager for root cause analysis and/or acknowledgement of a mistake relating to products and services under this Agreement. The written request should include the following information, when applicable and available: Purchase Order Number (PON), Service Order Number, billing telephone number, a description of the End User Customer impact and the ticket number associated with the repair of the impacting condition. It is expected that CLEC has followed usual procedures to correct a service impacting condition before beginning the process of requesting Qwest acknowledgement of error.

12.1.4.2 When the Qwest Service Manager receives a request for root cause analysis and/or acknowledgement from CLEC, an investigation process will begin. When this investigation results in agreement that Qwest erred, the Qwest Service Manager will provide written correspondence to CLEC.

12.1.4.2.1 The letter will include a recap of sufficient pertinent information to identify the issue, (e.g., PON, Service Order Number, order Due Date and billing telephone number, as provided in the CLEC request) and the following statement, "Qwest acknowledges its mistake. The error was not made by the other service provider."

12.1.4.2.2 Qwest understands that time is of the essence in processing such a request and that a response should be provided as quickly as is possible given the particular issue raised by CLEC.

12.1.4.2.3 Written responses acknowledging Qwest error will be provided with Qwest identification, such as Qwest letterhead, logo, or other indicia.

12.1.4.2.4 The Qwest Service Manager will provide the acknowledgement to CLEC.

12.1.4.2.5 The acknowledgment response described in Section 12.1.4.2.3 and provided by the Qwest Service Manager to CLEC will be provided on a non-confidential basis and will not include a confidentiality statement.

12.1.4.2.6 Qwest external documentation available to CLEC will instruct CLEC to make requests for acknowledgements directly to its Qwest Service Manager. Such external documentation will also include instruction for accessing the Qwest Customer Contact Information Tool to identify the assigned Qwest Service Manager if CLEC does not know to whom its request can be sent.

12.1.5 Responsibilities Relating to End User Customers

12.1.5.1 CLEC, or CLEC's agent, shall act as the single point of contact for its End User Customers' service needs, including without limitation, sales, service design, order taking, Provisioning, change orders, training, trouble reports, Maintenance and Repair, post-sale servicing, Billing, collection and inquiry. CLEC will be responsible for all interactions with its End User Customers including service call handling and notifying its End User Customers of trouble status and resolution.

12.1.5.2 Qwest will recognize CLEC as the Customer of Record for all services ordered by CLEC and will send all notices, invoices and pertinent information directly to CLEC. Except as otherwise specifically provided in this Agreement, Customer of Record shall be Qwest's single and sole point of contact for all CLEC End User Customers.

12.1.5.3 CLEC's End User Customers contacting Qwest in error will be instructed to contact CLEC; and Qwest's End User Customers contacting CLEC in error will be instructed to contact Qwest. In responding to calls, neither Party shall make disparaging remarks about each other. To the extent the correct provider can be determined, misdirected calls received by either Party will be referred to the proper provider of local Exchange Service.

12.1.5.4 Specifically with respect to Maintenance and Repair, CLEC and Qwest will employ the following procedures with respect to the other Party's End User Customers:

12.1.5.4.1 CLEC and Qwest will provide their respective End User Customers with the correct telephone numbers to call for access to their respective Maintenance and Repair bureaus.

12.1.5.4.2 End User Customers of CLEC shall be instructed to report all cases of trouble to CLEC. End User Customers of Qwest shall be instructed to report all cases of trouble to Qwest.

12.1.5.4.3 CLEC and Qwest will provide their respective Maintenance and Repair contact numbers to one another on a reciprocal basis and will provide End User Customers with their service provider's name, if available.

12.1.5.4.4 Qwest shall use unbranded Maintenance and Repair forms while interfacing with CLEC End User Customers. Upon request, Qwest shall use CLEC provided and branded Maintenance and Repair forms. Qwest may not unreasonably interfere with branding by CLEC.

12.1.5.4.5 This Section shall confer on Qwest no rights to the service marks, trademarks and trade names owned by or used in connection with services offered by CLEC or its Affiliates, except as expressly permitted by CLEC.

12.1.5.4.6 Except as specifically permitted by CLEC, in no event shall Qwest provide information to CLEC subscribers about CLEC or CLEC product or services.

12.1.5.4.7 The Qwest technician will limit any communication with CLEC End User Customer to that necessary to gain access to premises and perform the work. Specifically, the Qwest technician will not initiate any discussion regarding Qwest's products and services with CLEC End User Customer and will not make disparaging remarks about CLEC and will refer any CLEC End User Customer questions other than those related to the Qwest technician's gaining access to the premises and performing the work to CLEC. If the Qwest Technician has questions or concerns other than those necessary to gain access to premises and perform the work, the Qwest technician will discuss with CLEC and not CLEC End User Customer. Notwithstanding the foregoing, if a CLEC End User Customer initiates a discussion with the Qwest technician about Qwest's products or services and requests such information, nothing in this Agreement prohibits the Qwest technician from referring the CLEC End User Customer to the applicable Qwest retail office and providing the telephone number and/or web site address for that office to the CLEC End User Customer.

12.1.5.4.8 CLEC's End User Customers contacting Qwest in error will be instructed to contact CLEC; and Qwest's End User Customers contacting CLEC in error will be instructed to contact Qwest. In responding to calls, neither Party shall make disparaging remarks about each other. To the extent the correct provider can be determined, misdirected calls received by either Party will be referred to the proper provider of local Exchange Service; however, nothing in this Agreement shall be deemed to prohibit Qwest or CLEC from discussing its products and services with CLEC's or Qwest's End User Customers who call the other Party seeking such information.

12.1.5.5 Notwithstanding any other provision of this Agreement, when a CLEC End User Customer experiences an outage or other service affecting condition or Billing problem due to a known Qwest error or action, Qwest shall not use the situation (including any misdirected call) as a winback opportunity or otherwise to initiate discussion of its products and services with CLEC's End User Customer.

12.1.6 Change Management

12.1.6.1 Qwest agrees to maintain a change management process, known as the Change Management Process (CMP), that is consistent with or exceeds industry guidelines, standards and practices to address Qwest's OSS, products and processes. The CMP shall include the following: (i) provide a forum for CLEC and Qwest to discuss CLEC and Qwest change requests (CR), CMP notifications, systems release life cycles, and communications; (ii) provide a forum for CLECs and Qwest to discuss and prioritize CRs, where applicable pursuant to Exhibit G; (iii) develop a mechanism to track and monitor CRs and CMP notifications; (iv) establish intervals where appropriate in the process; (v) processes by which CLEC impacts that result from changes to Qwest's OSS, products or processes can be promptly and effectively resolved; (vi) processes that are effective in maintaining the shortest timeline practicable for the receipt, development and implementation of all CRs; (vii) sufficient dedicated Qwest processes to address and resolve in a timely manner CRs and other issues that come before the CMP body; (viii) processes for OSS Interface testing; (ix) information that is clearly organized and readily accessible to CLECs, including the availability of web-based tools; (x) documentation provided by Qwest that is effective in enabling CLECs to build an electronic gateway; and (xi) a process for changing CMP that calls for collaboration among CLECs and Qwest and requires agreement by the CMP participants. Pursuant to the scope and procedures set forth in Exhibit G, Qwest will submit to CLECs through the CMP, among other things, modifications to existing products and product and technical documentation available to CLECs, introduction of new products available to CLECs, discontinuance of products available to CLECs, modifications to Pre-ordering, Ordering/Provisioning, Maintenance and Repair or Billing processes, introduction of Pre-ordering, Ordering, Provisioning, Maintenance and Repair or Billing processes, discontinuance of Pre-ordering, Ordering/Provisioning, Maintenance and Repair or Billing processes, modifications to existing OSS interfaces, introduction of new OSS interfaces, and retirement of existing OSS interfaces. Qwest will maintain as part of CMP an escalation process so that CMP issues can be escalated to a Qwest representative authorized to make a final decision and a process for the timely resolution of disputes. The governing document for CMP is attached as Exhibit G (the "CMP Document").

12.1.6.1.1 In the course of establishing operational ready system interfaces between Qwest and CLEC to support local service delivery, CLEC and Qwest may need to define and implement system interface specifications that are supplemental to existing standards. CLEC and Qwest will submit such specifications to the appropriate industry standards committee and will work towards their acceptance as standards.

12.1.6.1.2 Release updates will be implemented pursuant to the CMP set forth in Exhibit G.

12.1.6.1.3 Qwest will maintain the most current version of the CMP Document on its wholesale web site. In CMP, incorporating a change into the CMP Document requires unanimous agreement using the Voting Process currently set forth in Section 17.0 of Exhibit G. Modifications to the CMP Document will be incorporated as part of this Agreement, and will not require the execution or filing of any Amendment to this Agreement, only if the vote to change the CMP Document is unanimous.

12.1.6.1.4 In cases of conflict between changes implemented through CMP and this Agreement, the rates, terms and conditions of this Agreement shall prevail as between Qwest and CLEC. In addition, if changes implemented through CMP do not necessarily present a direct conflict with this Agreement, but would abridge or expand the rights of a Party to this Agreement, the rates, terms and conditions of this Agreement shall prevail as between Qwest and CLEC.

12.2 Pre-Ordering, Ordering, and Provisioning

12.2.1 Qwest will provide access to Pre-Ordering, Ordering and post-ordering functions, including order status. CLEC will populate the service request (e.g., Local Service Request or Access Service Request) to identify what features, services, or elements it wishes Qwest to provision in accordance with this Agreement and, to the extent not inconsistent with this Agreement, Qwest's published business rules.

12.2.1.1 Qwest shall provide all Provisioning services to CLEC during the same business hours that Qwest provisions services for its End User Customers. Qwest will provide out-of-hours Provisioning services to CLEC on a non-discriminatory basis as it provides such Provisioning services to itself, its End User Customers, its Affiliates or any other party. Qwest shall disclose the business rules regarding out-of-hours Provisioning on its wholesale website.

12.2.1.2 Expedites. CLEC may request a Due Date earlier than the applicable Due Date interval for that product or service. Requests for expedites can be made either prior to, or after, submitting CLEC's service request.

12.2.1.2.1 Notwithstanding any other provision of this Agreement, for all products and services under this Agreement (except for Collocation pursuant to Section 8), Qwest will grant and process CLEC's expedite request, and expedite charges are not applicable, if Qwest does not apply expedite charges to its retail Customers, such as when certain conditions (e.g., fire or flood) are met and the applicable condition is met with respect to CLEC's request for an expedited order. If the conditions are met, but resources are not available, Qwest will grant and process CLEC's expedite request only to the extent that it would grant and process an expedite request for a retail Customer when resources are not available.

12.2.1.2.2 If none of the conditions described in Section 12.2.1.2.1 are met, Qwest will grant and process CLEC's expedite request, but the expedite charges in Exhibit A will apply, unless the need for the expedite is caused by Qwest.

12.2.1.2.3 Nothing in this Section 12.2.1.2 alters whether a non-recurring installation charge in Exhibit A applies to the CLEC order pursuant to the terms of the applicable section of this Agreement. The expedite charge, if applicable, is separate from the installation charge.

12.2.2 Service Requests: Qwest offers various ordering methods to submit service requests for products and services under this Agreement. Before submitting such requests, the Parties will follow the procedures set forth in Section 3. Electronic access can be accomplished using Dial-up capability using CLEC's local computer, direct connection via a dedicated circuit (e.g., XML or QORA), or web access (e.g., GUI). Products and services may be ordered using

Local Service Requests (LSRs), Access Service Requests (ASRs), or other forms, as described below.

12.2.2.1 Local Service Requests: CLEC may choose to submit Local Service Requests (LSRs) manually or electronically, via Qwest's Electronic Data Interchange (XML) tool or Qwest's web based Graphical User Interface (GUI).

12.2.2.1.1 The interface guidelines for XML are based upon the Order & Billing Forum (OBF) Local Service Order Guidelines (LSOG), the Telecommunication Industry Forum (TCIF) Customer Service Guidelines; and the American National Standards Institute/Accredited Standards Committee (ANSI ASC) X12 (or mutually agreed upon substitute) protocols. Exceptions to the above guidelines/standards shall be specified in the disclosure documentation.

12.2.2.1.2 The GUI shall provide a single interface for Pre-Order, Order and Post-Order transactions from CLEC to Qwest and is browser based. The GUI interface shall be based on the LSOG and utilizes a WEB standard technology, Hyper Text Markup Language (HTML), JAVA and the Transmission Control Protocol/Internet Protocol (TCP/IP) to transmit messages.

12.2.2.2 Access Service Requests: Wholesale Interconnection products and services, such as Local Interconnect Services (LIS), Unbundled Dark Fiber (UDF), Unbundled Dedicated Interoffice Transport (UDIT), and private line transport service are ordered using Access Service Request (ASR) forms.

12.2.2.2.1 CLEC may choose to submit ASRs manually or electronically.

12.2.2.2.2 Qwest shall provide a GUI and computer-to-computer batch file interface for submission of Access Service Request (ASRs) based upon the OBF Access Service Order Guidelines (ASOG). Qwest shall supply exceptions to these guidelines in writing in sufficient time for CLEC to adjust system requirements. The GUI shall provide a single interface for Pre-Order and Order transactions from CLEC to Qwest and is browser based.

12.2.2.2.2.1 Qwest's Online Request application (QORA) will allow CLEC to use a Graphical User Interface (GUI) to electronically submit ASRs as described in Section 12.2.2.2 above.

12.2.2.2.3 Additional terms regarding ASRs are set forth below and, for Interconnection, in Section 7.4 and, for UNEs, in Section 9.

12.2.2.3 Other Requests

12.2.2.3.1 Collocation and Poles, Ducts and Right of Way are not ordered using LSRs or ASRs. Ordering of these products and services is described in Sections 8 and 10, respectively.

12.2.3 Supplements and Canceled Service Requests

12.2.3.1 CLEC may submit a supplement to a LSR or ASR (known as a “supplement” or “supplemental order”) that serves as a request to cancel or to add or change an already existing, previously submitted LSR or ASR.

12.2.3.2 There is no charge for CLEC submitting a supplement or cancelling or re-submitting a service request. Nothing in this provision is intended to prohibit Qwest from billing OSS-related costs pursuant to Section 12.7 of this Agreement or non-recurring or recurring charges for products or services applicable pursuant to other provisions of this Agreement.

12.2.4 Pre-Ordering Real Time Functions

12.2.4.1 Qwest will provide real time, electronic access to pre-order functions to support CLEC’s Ordering via the electronic interfaces described herein. Qwest will make at least the following real time pre-order functions available to CLEC:

12.2.4.1.1 For LSRs, features, services and Primary Interexchange Carrier (PIC) options for IntraLATA toll and InterLATA toll available at a valid service address;

12.2.4.1.2 For LSRs, access to Customer Service Records (CSRs) for End User Customers on Qwest’s network (e.g., resale or Qwest retail Customers). The information will include Billing name, service address, Billing address, service and feature subscription, Directory Listing information, and long distance Carrier identity;

12.2.4.1.2.1 Qwest will update a CSR, make it available to CLEC, and complete error resolution activities in substantially the same time and manner as Qwest does for itself, its Affiliates and its own End User Customers.

12.2.4.1.2.2 If CLEC identifies incorrect information on the Qwest CSR, Qwest will correct the information in the CSR at CLEC’s request.

12.2.4.1.3 For LSRs, Telephone Number (TN) request and selection;

12.2.4.1.4 For LSRs, information regarding whether dispatch is required for service installation and available installation appointments;

12.2.4.1.5 For LSRs, reservation of appointments for service installations requiring the dispatch of a Qwest technician on a non-discriminatory basis;

12.2.4.1.6 For LSRs and ASRs, service address verification/validation;

12.2.4.1.7 Facility availability, Loop qualification, including resale-DSL, and Loop make-up information, including, but not limited to, Loop length, presence of Bridged Taps, repeaters, and loading coils.

12.2.4.1.7.1 Terms relating to Qwest’s Loop qualification tools are set forth in Section 9.2.2.8.

12.2.4.1.8 For LSRs, a list of valid available Connecting Facility Assignments

(CFAs), including both available and assigned connecting facilities. For ASRs, a list of valid Connecting Facility Assignments (CFAs) between two (2) CLLI codes

12.2.4.1.9 For LSRs, a list of one to five (1-5) individual Meet Points or a range of Meet Points for shared Loops; and

12.2.4.1.10 Feature availability information.

12.2.5 Intentionally Left Blank.

12.2.6 Intentionally Left Blank.

12.2.7 Order Status Notices

12.2.7.1 Intentionally Left Blank.

12.2.7.2 Qwest will provide at least the following order status notices on a non-discriminatory basis:

12.2.7.2.1 When CLEC places an electronic order, Qwest will provide CLEC with an electronic Firm Order Confirmation notice (FOC). The FOC will follow industry-standard formats and contain the Qwest Due Date for order completion. Upon completion of the order, Qwest will provide CLEC with an electronic completion notice which follows industry-standard formats and which states when the order was completed. Qwest supplies two (2) separate completion notices: 1) service order completion (SOC) which notifies CLEC that the service order record has been completed, and 2) Billing completion that notifies CLEC that the service order has posted to the Billing system.

12.2.7.2.2 When CLEC places a manual order, Qwest will provide CLEC with a manual Firm Order Confirmation notice. The confirmation notice will follow industry-standard format. Upon completion of the order, Qwest will provide CLEC with a completion notice which follows industry-standard formats and which states when the order was completed. Qwest supplies two (2) separate completion notices: 1) service order completion (SOC) which notifies CLEC that the service order record has been completed, and 2) Billing completion that notifies CLEC that the service order has posted to the Billing system.

12.2.7.2.3 Pending Service Order Notification. When Qwest issues or changes the Qwest service orders associated with the CLEC LSR, Qwest will issue a Pending Service Order Notification (PSON) to CLEC. Through the PSON, Qwest supplies CLEC with information that appears on the Qwest service order, providing at least the data in the service order's Service and Equipment (S&E) and listings sections that Qwest provided to requesting CLECs as of IMA Release 13.0.

12.2.7.2.4 Jeopardy Notices

12.2.7.2.4.1 When CLEC places an electronic order, Qwest shall provide notification electronically of any instances when (1) Qwest's Committed Due Dates are in jeopardy of not being met by Qwest on any service or (2) an order is rejected. The standards for returning such

notices are set forth in Section 20, Exhibit B and/or Exhibit K.

12.2.7.2.4.2 When CLEC places a manual order, Qwest shall provide notification of any instances when (1) Qwest's Committed Due Dates are in jeopardy of not being met by Qwest on any service or (2) an order is rejected. The standards for returning such notices are set forth in Section 20, Exhibit B and/or Exhibit K.

12.2.7.2.4.3 CLEC may telephone the applicable Qwest support centers or use the electronic interfaces to obtain jeopardy status.

12.2.7.2.4.4 A jeopardy caused by Qwest will be classified as a Qwest jeopardy, and a jeopardy caused by CLEC will be classified as Customer Not Ready (CNR). Nothing in this Section 12.2.7.2.4.4 modifies the Performance Indicator Definitions (PIDs) set forth in Exhibit B and Attachments 1 and 2 to Exhibit K of this Agreement.

12.2.7.2.4.4.1 There are several types of jeopardies. Two of these types are: (1) CLEC or CLEC End User Customer is not ready or service order is not accepted by the CLEC (when Qwest has tested the service to meet all testing requirements.); and (2) End User Customer access was not provided. For these two types of jeopardies, Qwest will not characterize a jeopardy as CNR or send a CNR jeopardy to CLEC if a Qwest jeopardy exists, Qwest attempts to deliver the service, and Qwest has not sent an FOC notice to CLEC after the Qwest jeopardy occurs but at least the day before Qwest attempts to deliver the service. CLEC will nonetheless use its best efforts to accept the service. If needed, the Parties will attempt to set a new appointment time on the same day and, if unable to do so, Qwest will issue a Qwest Jeopardy notice and a FOC with a new Due Date.

12.2.7.2.4.4.2 If CLEC establishes to Qwest that a jeopardy was not caused by CLEC, Qwest will correct the erroneous CNR classification and treat the jeopardy as a Qwest jeopardy.

12.2.7.2.5 Intentionally Left Blank.

12.2.7.2.6 Fatal Rejection Notices

12.2.7.2.6.1 If CLEC submits an LSR or ASR that contains a Fatal Error and receives a Fatal Reject notice, CLEC will need to resubmit the LSR or ASR to obtain processing of the service request, except as provided in Section 12.2.7.2.6.2.

12.2.7.2.6.2 If Qwest rejects a service request in error, Qwest will resume processing the service request as soon as Qwest knows of the error. At CLEC's direction, Qwest will place the service request back into normal processing, without requiring a supplemental order from CLEC and will issue a subsequent FOC to CLEC.

12.2.8 Additional Status Information

12.2.8.1 In addition to the order status notices identified above which are sent to CLEC, CLEC may view those notices electronically via GUI, if CLEC submitted the LSR electronically. In addition to the order status notices identified above which are sent to CLEC, CLEC may view an individual order status electronically via GUI, if CLEC submitted the ASR electronically

12.2.9 Design Layout Record

12.2.9.1 Qwest will provide Design Layout Records (DLR) in a non-discriminatory manner.

12.2.9.2 Design Layout Record (DLR) provides the layout for the local portion of a circuit at a particular location where applicable. Qwest shall provide real time, electronic access to DLR query functions to CLEC through the pre-order menu.

12.3 Ordering, Provisioning and Installation

12.3.1 Demarcation Point.

12.3.1.1 If CLEC requires information identifying the Demarcation Point to complete installation, Qwest will provide to CLEC information identifying the location of the Demarcation Point (e.g., accurate binding post or Building terminal binding post information). If Qwest is unable to provide such information, the Demarcation Point is not tagged, and CLEC has dispatched personnel to find the Demarcation Point and is unable to locate it, Qwest will dispatch a technician and tag the line or circuit at the Demarcation Point at no charge to CLEC, if CLEC informs Qwest within 30 Days of service order completion.

12.3.2 Intentionally Left Blank

12.3.3 Unbundled Loop Elements. (Provisioning options for Unbundled Loop elements are set forth in Section 9.2.2.9.)

12.3.4 Intentionally Left Blank.

12.3.5 Reuse of Facilities/Loop Reclamation

12.3.5.1 For migration/conversion activity, Qwest will reuse facilities to the extent those facilities are technically compatible with the service to be provided for the migration/conversion activity (i.e., not “new” activity). Regarding Loop facilities, see also Section 9.2.2.15.

12.3.6 Intentionally Left Blank.

12.3.7 Loss and Completion Reports

12.3.7.1 Qwest will notify CLEC by Operational Support System interface or by other agreed-upon processes when an End User Customer moves from one CLEC to a different local service provider. As part of such processes, Qwest will provide CLEC

Loss and Completion reports as described below. Qwest will not provide CLEC with the name of the other local service provider selected by the End User Customer.

12.3.7.1.1 The daily loss report will contain a list of accounts that have had lines disconnected because of a change in the End User Customer's local service provider. Qwest will issue a loss report when a service order Due Dated for the previous business day, is completed or canceled in Qwest's service order processor (SOP). The losses on the report will be for the previous day's activity. This report will include detailed information consistent with OBF guidelines, but no less than the BTN, service order number, PON, service name and address, the WTN the activity took place on and date the service order completed (the date the change was completed). Individual reports will be provided for at least the following list of products:

- a) Resale; and
- b) Unbundled Loop.

12.3.7.1.1.1 For any inquiries, repairs or disputes relating to or arising from this report or lines missing from this report, Qwest shall not require CLEC to provide any Customer-identifying or order-identifying information, to Qwest that is not detailed in the report and is not required by OBF guidelines. Qwest will address the inquiry, repair, or dispute. If such information would be helpful in doing so, but has not been provided it in the report, Qwest will obtain the information internally.

12.3.7.1.2 Completion Report provides CLEC with a daily report. This report is used to advise CLEC that the order(s) for the previous day's activity for the service(s) requested is complete. This includes service orders Qwest generates without an LSR (for example, records correction work, PIC or Maintenance and Repair charges). This report will include detailed information consistent with OBF guidelines, but no less than the BTN, service order number, PON, service name and address, the WTN the activity took place on and date the service order completed (the date the change was completed). Individual reports will be provided for Resale and Unbundled Loop.

12.3.7.1.2.1 For any inquiries, repairs or disputes relating to or arising from this report or lines missing from this report, Qwest shall not require CLEC to provide any Customer-identifying or order-identifying information, to Qwest that is not detailed in the report and is not required by OBF guidelines. Qwest will address the inquiry, repair, or dispute. If such information would be helpful in doing so, but has not been provided it in the report, Qwest will obtain the information internally.

12.4 Maintenance and Repair

12.4.0 Maintenance and Repair processes include trouble screening, isolation, and testing; trouble reporting and trouble status; activities to resolve troubles or perform maintenance work; and trouble closure. To facilitate trouble reporting and to coordinate the repair of the service provided by each Party to the other under this Agreement, each Party shall designate a repair center for such service. Each Party shall furnish a trouble reporting telephone number for the designated repair center. This number shall give access to the location where records are normally located and where current status reports on any trouble reports are readily available. If

necessary, alternative out-of-hours procedures shall be established to ensure access to a location that is staffed and has the authority to initiate corrective action.

12.4.0.1 Qwest will provide repair and maintenance for all services covered by this Agreement in substantially the same time and manner as that which Qwest provides for itself, its End User Customers, its Affiliates, or any other party. Qwest shall provide CLEC repair status information in substantially the same time and manner Qwest provides for its retail services.

12.4.0.2 During the term of this Agreement, Qwest will provide necessary maintenance business process support to allow CLEC to provide similar service quality to that provided by Qwest to itself, its End User Customers, its Affiliates, or any other party.

12.4.0.3 Qwest will perform repair service that is substantially the same in timeliness and quality to that which it provides to itself, its End User Customers, its Affiliates, or any other party. Trouble calls from CLEC shall receive response time priority that is substantially the same as that provided to Qwest, its End User Customers, its Affiliates, or any other party and shall be handled in a non-discriminatory manner.

12.4.1 Trouble Screening, Isolation and Testing

12.4.1.1 Before either Party reports a trouble condition, it shall use its best efforts to isolate the trouble to the other Party's facilities. The Parties shall cooperate in isolating trouble conditions. In cases where a trouble condition affects a significant portion of the other's service, the Parties shall assign the same priority provided to other interconnecting CLECs as itself, its End User Customers, its Affiliates, or any other party.

12.4.1.2 Qwest will cooperate with CLEC to show CLEC how Qwest screens trouble conditions in its own centers, so that CLEC may choose to employ similar techniques in its centers.

12.4.1.3 CLEC is responsible for its own End User Customer base and will have the responsibility for resolution of any service trouble report(s) from its End User Customers. CLEC will perform trouble isolation on services it provides to its End User Customers to the extent the capability to perform such trouble isolation is available to CLEC, prior to reporting trouble to Qwest. For services and facilities where the capability to test all or portions of the Qwest network service or facility rest with Qwest, Qwest will make such capability available to CLEC to perform appropriate trouble isolation and screening. CLEC shall have access for testing purposes at the Demarcation Point, NID, or Point of Interface. Qwest will work cooperatively with CLEC to resolve trouble reports when the trouble condition has been isolated and found to be within a portion of Qwest's network. Qwest and CLEC will report trouble isolation test results to the other. Each Party shall be responsible for the costs of performing trouble isolation on its facilities, subject to Sections 12.4.1.5 and 12.4.1.6.

12.4.1.4 Notwithstanding any other provision of this Section 12.4.1, when CLEC does not have the ability to diagnose and isolate trouble on a Qwest line, circuit, or service provided in this Agreement that CLEC is utilizing to serve an End User

Customer, Qwest will conduct testing, to the extent testing capabilities are available to Qwest, to diagnose and isolate a trouble in substantially the same time and manner that Qwest provides for itself, its End User Customers, its Affiliates, or any other party.

12.4.1.5 When CLEC requests that Qwest perform trouble isolation with CLEC, a Maintenance of Service Charge will apply when Qwest dispatches a technician and the trouble is found to be on the End User Customer's side of the Demarcation Point. If the trouble is on the End User Customer's side of the Demarcation Point, and the CLEC authorizes Qwest to repair trouble on the CLEC's behalf, Qwest will charge CLEC the appropriate Additional Labor Charge set forth in Exhibit A in addition to the Maintenance of Service Charge.

12.4.1.5.1 If the circuit is on Pair Gain, or like equipment that CLEC or Qwest cannot test through, and CLEC advises Qwest of this, Qwest will not assess testing charges. Whether other charges, (including charges with a testing component) such as dispatch charges, Maintenance of Service charges, Trouble Isolation Charges, apply will be governed by the provisions of this Agreement associated with such charges (e.g., 6.6.4 and 9.2.5.2).

12.4.1.6 When CLEC elects not to perform trouble isolation and CLEC requests Qwest to perform optional testing, Qwest will charge CLEC the applicable optional testing rate as set forth in Exhibit A. If after completing the optional testing Qwest dispatches a technician at CLEC request, a Maintenance of Service Charge shall apply if the trouble is not in Qwest's facilities, including Qwest's facilities leased by CLEC. Maintenance of Service Charges are set forth in Exhibit A. When trouble is found on Qwest's side of the Demarcation Point, or Point of Interface during the investigation of the initial or repeat trouble report for the same line or circuit within thirty (30) Days, Maintenance of Service Charges shall not apply.

12.4.1.6.1 If the circuit is on Pair Gain, Qwest will not assess optional testing charges.

12.4.1.6.2 Prior to Qwest conducting a test on a line, circuit, or service provided in this Agreement that CLEC is using to serve an End User Customer, Qwest must receive a trouble report from CLEC.

12.4.1.7 For the purposes of Section 12.4.1.8, Trouble Reports means trouble reports received via (MEDIACC, CEMR or successor system, if any) or reported to one of Qwest's call or repair centers and managed or tracked within Qwest's call center databases and Qwest's WFA (Work Force Administration and MTAS (Maintenance Tracking Administration System) and successor systems, if any.

12.4.1.8 Where Qwest has billed CLEC for Maintenance of Services or Trouble Isolation ("TIC") charges for a CLEC Trouble Report, Qwest will remove such Maintenance of Services or TIC charge from CLEC's account and CLEC may bill Qwest for its repeat dispatch(es) to recover a Maintenance of Services or TIC charge or CLEC's actual costs, whichever is less, if all of the following conditions are met:

(a) the repeat Trouble Report(s) is the same trouble as the Trouble Report ("Repeat Trouble"), as is demonstrated by CLEC's test results isolated between consecutive CLEC access test points; and

(b) the Repeat Trouble is reported within (3) business days of the prior trouble ticket closure; and

(c) the Repeat Trouble has been found to be in the facilities owned or maintained by Qwest or Qwest facilities leased by CLEC; and

(d) CLEC has provided the circuit specific test results for the tests required by Section 12.4.1.1, on the prior and Repeat Trouble that indicates there is trouble in Qwest's network, consistent with the CLEC efficient use of space available for the purposes of providing test results on the Qwest standard trouble ticket form. (If CLEC does not provide test results, Qwest will bill and CLEC will pay for optional testing where applicable pursuant to Section 12.4.1.6); and

(e) CLEC's demonstration of its technician dispatch on the prior and Repeat Trouble; provided that such demonstration is sufficient when documented by CLEC's records that are generated and maintained in the ordinary course of CLEC's business.

(i) If, however, CLEC does not use remote testing capability, a technician dispatch is required for both the prior and Repeat Trouble. Where CLEC uses remote testing capability and provides the test results describe in subsection (d) of Section 12.4.1.8, CLEC must demonstrate the technician dispatch pursuant to subsection (e) of Section 12.4.1.8 only for the Repeat Trouble.

12.4.2 Trouble Reports and Trouble Status

12.4.2.1 The first time a trouble is reported, Qwest will assign a trouble report tracking number, as described in Section 12.1.3.3.1.1.

12.4.2.2 CLEC may report trouble to Qwest through the Electronic Bonding or GUI interfaces provided by Qwest or manually through the support centers described above in Section 12.1.3.3.3.

12.4.2.2.1 Qwest shall provide electronic interface gateways, including an Electronic Bonding interface and a GUI interface, for reviewing a End User Customer's trouble history at a specific location, conducting testing of a End User Customer's service where applicable, reporting trouble to facilitate the exchange of updated information and progress reports between Qwest and CLEC while the trouble report is open and a Qwest technician is working on the resolution. For designed services, Qwest will not close the trouble report prior to verification with CLEC that trouble is cleared.

12.4.2.2.2 CLEC may access the status of manually reported trouble through the electronic interfaces described in Section 12.4.2.2.1.

12.4.2.3 CLEC may review the status of trouble reports and messages posted by Qwest technicians through the Electronic Bonding or GUI interfaces provided by Qwest or manually by contacting the support centers described above in Section 12.1.3.3.3.

12.4.2.3.1 On manually-reported trouble, Qwest will inform CLEC of repair

completion in substantially the same time and manner as Qwest provides to itself, its End User Customers, its Affiliates, or any other party. On electronically reported trouble reports the electronic system will automatically update status information, including trouble completion, across the joint electronic gateway as the status changes.

12.4.2.4 Qwest will notify CLEC, in substantially the same time and manner as Qwest provides this information to itself, its End User Customers, its Affiliates, or any other party, that a trouble report commitment (appointment or interval) has been or is likely to be missed. At CLEC option, notification may be sent by e-mail or through the electronic interface. CLEC may telephone the Qwest repair center or use the electronic interfaces to obtain jeopardy status.

12.4.2.5 Similar trouble conditions, whether reported on behalf of Qwest End User Customers or on behalf of CLEC End User Customers, will receive commitment intervals in substantially the same time and manner as Qwest provides for itself, its End User Customers, its Affiliates, or any other party.

12.4.2.6 Manually-reported repair calls by CLEC to Qwest will be answered with the same quality and speed as Qwest answers calls from its own End Users Customers.

12.4.3 Activities to Resolve Trouble Reports or Perform Maintenance and Repair Work

12.4.3.1 A CLEC trouble report is prioritized without regard to the service provider, including Qwest.

12.4.3.2 Qwest will cooperate with CLEC to meet the Maintenance and Repair standards outlined in this Agreement.

12.4.3.3 When CLEC reports that CLEC has isolated trouble to the Qwest network, Qwest will perform trouble isolation to the extent the capability to perform such trouble isolation is available to Qwest.

12.4.3.3.1 Prior to requiring access to the End User Customer premises, Qwest will conduct testing to determine if the trouble can be resolved without access to the End User Customer premises. Outside of normal business hours, Qwest will not dispatch to the last testable point in a circuit if isolation can be obtained via remote testing. If the circuit can be tested as needed and the trouble can be resolved without access to the End User Customer premises, Qwest will proceed with resolving the trouble.

12.4.3.4 Qwest shall test to ensure electrical continuity of all UNEs, including Central Office Demarcation Point, and services it provides to CLEC prior to closing a trouble report.

12.4.3.5 Qwest Maintenance and Repair and routine test parameters and levels will be in compliance with Qwest's Technical Publications, which will be consistent with Telcordia's General Requirement Standards for Network Elements, Operations, Administration, Maintenance and Reliability and/or the applicable ANSI standard.

12.4.3.6 Dispatch: Qwest will provide dispatch personnel in substantially the same time and manner it provides for itself, its End User Customers, its Affiliates, or any other party.

12.4.3.6.1 Upon the receipt of a trouble report from CLEC, Qwest will follow internal processes and industry standards to resolve the repair condition. Qwest will dispatch Maintenance and Repair personnel when needed to repair the condition. Initially, it will be Qwest's decision whether or not to send a technician out on a dispatch. Qwest will make this dispatch decision based on the best information available to it in the trouble resolution process. It is not always necessary to dispatch to resolve trouble. Qwest will only charge for a dispatch if it dispatches and the trouble is not found to be in the Qwest network.

12.4.3.6.2 For POTS lines and designed service circuits, Qwest is responsible for all Maintenance and Repair of the line or circuit and will make the determination to dispatch to locations other than the CLEC End User Customer Premises without prior CLEC authorization. For dispatch to the CLEC End User Customer Premises, Qwest shall obtain prior CLEC authorization with the exception of major network outage restoration, cable rearrangements, and MTE terminal Maintenance and Repair or replacement.

12.4.3.6.3 Whenever a Qwest technician is dispatched to an End User Customer premise other than for the sole purpose of tagging of the Demarcation Point, CLEC may request Qwest to place a tag accurately identifying the line or circuit, including the telephone number or Qwest Circuit ID, at the Demarcation Point if such a tag is not present. Qwest will perform such tagging at no charge to CLEC. If CLEC is requesting the dispatch solely for purposes of having Qwest tag the Demarcation Point, see Section 12.3.1.1.

12.4.3.7 Intentionally Left Blank.

12.4.3.8 Intentionally Left Blank.

12.4.3.9 Intentionally Left Blank.

12.4.3.10 Major Outages/Restoral/Notification

12.4.3.10.1 Intentionally Left Blank.

12.4.3.10.2 Qwest will notify CLEC of major network outages via e-mail to CLEC's identified contact. With the minor exception of certain Proprietary Information such as End User Customer information, Qwest will utilize the same thresholds and processes for external notification as it does for internal purposes. This major network outage information will be sent via e-mail on the same schedule as is provided internally within Qwest. The email notification schedule shall consist of initial report of abnormal condition and estimated restoration time/date, abnormal condition updates, and final disposition. Service restoration will be non-discriminatory, and will be accomplished as quickly as possible according to Qwest and/or industry standards.

12.4.3.10.3 Qwest will meet with associated personnel from CLEC to share contact information and review Qwest's outage restoral processes and notification processes.

12.4.3.10.4 Qwest's emergency restoration process operates on a 7X24 basis.

12.4.3.10.5 Qwest may have an obligation to report network outages or other network troubles to the Commission in accordance with Applicable Law. In the event CLEC provides services to one or more End User Customers though the use of Resale or Unbundled Network Elements and there is a network outage or service trouble that Qwest must report to the Commission, Qwest shall make such reports on behalf of itself and CLEC.

12.4.3.11 Protective Maintenance and Repair

12.4.3.11.1 Qwest will work cooperatively with CLEC to develop industry-wide processes to provide as much notice as possible of pending maintenance activity. Qwest shall provide notice of potentially CLEC End User Customer impacting maintenance activity, to the extent Qwest can determine such impact, and negotiate mutually agreeable dates with CLEC in substantially the same time and manner as it does for itself, its End User Customers, its Affiliates, or any other party.

12.4.3.11.2 Qwest shall advise CLEC of non-scheduled Maintenance and Repair, testing, monitoring, and surveillance activity to be performed by Qwest on any Services, including, to the extent Qwest can determine, any hardware, equipment, software, or system providing service functionality which may potentially impact CLEC and/or CLEC End User Customers. Qwest shall provide the maximum advance notice of such non-scheduled Maintenance and Repair and testing activity possible, under the circumstances; provided, however, that Qwest shall provide emergency Maintenance and Repair as promptly as possible to maintain or restore service and shall advise CLEC promptly of any such actions it takes.

12.4.3.11.3 Qwest will perform scheduled maintenance of substantially the same type and quality to that which it provides to itself, its End User Customers, its Affiliates, or any other party.

12.4.3.12 Switch and Frame Conversion Service Order Practices

12.4.3.12.1 Switch Conversions. Switch conversion activity generally consists of the removal of one Switch and its replacement with another. Generic Switch software or hardware upgrades, the addition of Switch line and trunk connection hardware and the addition of capacity to a Switch do not constitute Switch conversions.

12.4.3.12.2 Frame Conversions. Frame conversions are generally the removal and replacement of one or more frames, upon which the Switch Ports terminate.

12.4.3.12.3 Conversion Date. The "Conversion Date" is a Switch or frame conversion planned day of cut-over to the replacement frame(s) or Switch. The

actual conversion time typically is set for midnight of the Conversion Date. This may cause the actual Conversion Date to migrate into the early hours of the day after the planned Conversion Date.

12.4.3.12.4 Conversion Embargoes. A Switch or frame conversion embargo is the time period that the Switch or frame Trunk Side facility connections are frozen to facilitate conversion from one Switch or frame to another with minimal disruption to the End User Customer or CLEC services. During the embargo period, Qwest will reject orders for Trunk Side facilities (see Section 12.4.3.12.5) other than conversion orders described in Section 12.4.3.12.7. Notwithstanding the foregoing and to the extent Qwest provisions trunk or trunk facility related service orders for itself, its End User Customers, its Affiliates, or any other party during embargoes, Qwest shall provide CLEC the same capabilities.

12.4.3.12.5 ASRs for Switch or frame Trunk Side facility Augments to capacity or changes to Switch or frame Trunk Side facilities must be issued by CLEC with a Due Date prior to or after the appropriate embargo interval as identified in the ICONN database. Qwest shall reject Switch or frame Trunk Side ASRs to Augment capacity or change facilities issued by CLEC or Qwest, its End User Customers, its Affiliates or any other party during the embargo period, regardless of the order's Due Date except for conversion ASRs described in Section 12.4.3.12.7.

12.4.3.12.6 For Switch and Trunk Side frame conversions, Qwest shall provide CLEC with conversion trunk group service requests (TGSR) no less than ninety (90) Days before the Conversion Date.

12.4.3.12.7 For Switch and Trunk Side frame conversions, CLEC shall issue facility conversion ASRs to Qwest no later than thirty (30) Days before the Conversion Date for like-for-like, where CLEC mirrors their existing circuit design from the old Switch or frame to the new Switch or frame, and sixty (60) Days before the Conversion Date for addition of trunk capacity or modification of circuit characteristics (i.e., change of AML to B8ZS).

12.4.3.12.8 Frame Embargo Period. During frame conversions, service orders and ASRs shall be subject to an embargo period for services and facilities connected to the affected frame. For conversion of trunks where CLEC mirrors their existing circuit design from the old frame to the new frame on a like-for-like basis, such embargo period shall extend from thirty (30) Days prior to the Conversion Date until 5 Days after the Conversion Date. If CLEC requests the addition of trunk capacity or modification of circuit characteristics (i.e., change of AML to B8ZS) to the new frame, new facility ASRs shall be placed, and the embargo period shall extend from 60 Days prior to the Conversion Date until 5 Days after the Conversion Date. Prior to instituting an embargo period, Qwest shall identify the particular dates and locations for frame conversion embargo periods on its web site in the ICONN database described in Section 12.1.3.2.5 above.

12.4.3.12.9 Switch Embargo Period. During Switch conversions, service orders and ASRs shall be subject to an embargo period for services and facilities associated with the Trunk Side of the Switch. For conversion of trunks where

CLEC mirrors their existing circuit design from the old Switch to the new Switch on a like-for-like basis, such embargo period shall extend from thirty (30) Days prior to the Conversion Date until five (5) Days after the Conversion Date. If CLEC requests the addition of trunk capacity or modification of circuit characteristics to the new Switch, new facility ASRs shall be placed, and the embargo period shall extend from sixty (60) Days prior to the Conversion Date until five (5) Days after the Conversion Date. Prior to instituting an embargo period, Qwest shall identify the particular dates and locations for Switch conversion embargo periods on its web site in the ICONN database described in Section 12.1.3.2.5 above.

12.4.3.12.10 Switch and Frame Conversion Quiet Periods for LSRs. Switch and frame conversion quiet periods are the time period within which LSRs may not contain Due Dates, with the exception of LSRs that result in disconnect orders, including those related to LNP orders, record orders, Billing change orders for non-switched products, and emergency orders.

12.4.3.12.10.1 LSRs of any kind issued during Switch or frame conversion quiet periods create the potential for loss of End User Customer service due to manual operational processes caused by the Switch or frame conversion. LSRs of any kind issued during the Switch or frame conversion quiet periods will be handled as set forth below, with the understanding that Qwest shall use its best efforts to avoid the loss of End User Customer service. In the event that CLEC End User Customer service is disconnected in error, Qwest will restore CLEC End User Customer service through the process described in Sections 12.1.3.3.

12.4.3.12.10.2 The quiet period for Switch conversions, where no LSRs except those requesting order activity described in Section 12.4.2.12.10 are processed for the affected location, extends from five (5) Days prior to conversion until two (2) Days after the conversion and is identified in the ICONN database.

12.4.3.12.10.3 The quiet period for frame conversions, where no LSRs except those requesting order activity described in Section 12.4.2.12.10 are processed or the affected location, extends from five (5) Days prior to conversion until two (2) Days after the conversion.

12.4.3.12.10.4 LSRs, except those requesting order activity described in Section 12.4.2.12.10, (i) must be issued with a Due Date prior to or after the conversion quiet period and (ii) may not be issued during the quiet period. LSRs that do not meet these requirements will be rejected by Qwest.

12.4.3.12.10.5 LSRs requesting disconnect activity issued during the quiet period, regardless of requested Due Date, will be processed after the quiet period expires.

12.4.3.12.10.6 CLEC may request a Due Date change to a LNP related disconnect scheduled during quiet periods up to 12:00 noon Mountain Time the day prior to the scheduled LSR Due Date. Such

changes shall be requested by issuing a supplemental LSR requesting a Due Date change. Such changes shall be handled as emergency orders by Qwest.

12.4.3.12.10.7 CLEC may request a Due Date change to a LNP related disconnect order scheduled during quiet periods after 12:00 noon Mountain Time the day prior to the scheduled LSR Due Date until 12 noon Mountain Time the day after the scheduled LSR Due Date. Such changes shall be requested by issuing a supplemental LSR requesting a Due Date change and contacting the Interconnect Service Center. Such changes shall be handled as emergency orders by Qwest.

12.4.3.12.11 Switch Upgrades. Generic Switch software and hardware upgrades are not subject to the Switch conversion embargoes or quiet periods described above. If such generic Switch or software upgrades require significant activity related to translations, an abbreviated embargo and/or quiet period may be required.

12.4.3.12.12 Switch Line and Trunk Hardware Additions. Qwest shall use its best efforts to minimize CLEC service order impacts due to hardware additions and modifications to Qwest's existing Switches.

12.4.3.13 Major Switch Maintenance and Repair Hours and Notices

12.4.3.13.1 Generally, Qwest performs major Switch Maintenance and Repair activities off-hours, during certain "Maintenance and Repair windows." Major Switch Maintenance and Repair activities include Switch conversions, Switch generic upgrades and Switch equipment additions.

12.4.3.13.2 Generally, the maintenance window is between 10:00 p.m. through 6:00 am Monday through Friday, and Saturday 10:00 p.m. through Monday 6:00 am, Mountain Time. Although Qwest normally does major Switch maintenance during the above maintenance window, there will be occasions where this will not be possible. Qwest will provide notification of any and all maintenance activities that may impact CLEC ordering practices such as embargoes, moratoriums, and quiet periods in substantially the same time and manner as Qwest provides this information to itself, its End User Customers, its Affiliates, or any other party.

12.4.3.13.3 Planned generic upgrades to Qwest Switches will be available to CLEC via Qwest's Web site in the ICONN database, which is described in Section 12.1.3.2.5 above.

12.4.3.14 Impairment of Service

12.4.3.14.1 The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not: 1) interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring Carriers involved in its services; 2) cause damage to the plant of the other Party, its affiliated companies, or its connecting concurring Carriers involved in its services; 3) violate any Applicable

Law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities; or 4) create hazards to the employees of either Party or to the public. Each of these requirements is referred to as an "Impairment of Service."

12.4.3.14.2 If it is confirmed that either Party is causing an Impairment of Service, as set forth in this Section, the Party whose network or service is being impaired (the Impaired Party) shall promptly notify the Party causing the Impairment of Service (the Impairing Party) of the nature and location of the problem. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve the Impairment of Service.

12.4.3.15 Inside Wire Maintenance: Except where specifically required by state or federal regulatory mandates, Qwest will not perform any maintenance of inside wire (premises wiring beyond the End User Customer's Demarcation Point) for CLEC or its End User Customers.

12.4.4 Trouble Report Closure

12.4.4.1 When Qwest closes a trouble report, Qwest will assign a code accurately identifying the reason or cause for service problems and the action taken (i.e., a "disposition code").

12.4.4.2 Qwest will notify CLEC of the disposition code upon request. For Maintenance and Repair trouble reports, the disposition code and any remarks will also be available through electronic interface (e.g., Customer Electronic Maintenance and Repair (CEMR)). CLEC closed trouble reports will be available to CLEC via the history function in the electronic interface (e.g., CEMR).

12.4.4.3 Qwest will provide a web based tool (currently known as Maintenance and Repair Invoice Tool) that allows CLEC to access electronic copies of Qwest repair invoice information. The repair invoice information will include the time and material information that Qwest provides to its retail End User Customers on their time and material invoices. Qwest, through this tool, will provide access to at least the telephone number or circuit identification, CLEC ticket number, Qwest ticket number, End User Customer Address, End User Customer Name, USOC, Quantity, Start Date, End Date, Disposition Code, and any related remarks (comments by repair technician). Such invoice information will be available to CLEC within two (2) business days of ticket closure for POTS services and sixteen (16) business days for non-POTS services. Invoice information will be retained and available to CLEC via this tool for at least twelve (12) months.

12.5 Billing

12.5.1 For Connectivity Billing, Recording, and Exchange of Information, see Section 21.

12.6 On-Going Support for OSS

Before any CLEC implementation can begin, CLEC must completely and accurately answer the New Customer Questionnaire as required in Section 3.2 and its sub-sections. Once Qwest receives a complete and accurate New Customer Questionnaire (initial or updated), Qwest and

CLEC will mutually agree upon time frames for implementation of connectivity between CLEC and the OSS interfaces.

12.6.1 Qwest will support previous XML releases for six (6) months after the next subsequent XML release has been deployed. Exceptions to these guidelines, if any, will be considered in accordance with the CMP procedures. Qwest will use all reasonable efforts to provide sufficient support to ensure that issues that arise in migrating to the new release are handled in a timely manner.

12.6.2 Qwest will provide written notice to CLEC of the need to migrate to a new release.

12.6.3 Qwest will provide an XML Implementation Coordinator to work with CLEC for business scenario re-certification, migration and data conversion strategy definition.

12.6.4 Re-certification is the process by which CLECs demonstrate the ability to generate correct functional transactions for enhancements not previously certified. Qwest will provide the suite of tests for re-certification to CLEC with the issuance of the disclosure document.

12.6.5 Qwest shall provide training mechanisms for CLEC to pursue in educating its internal personnel. Qwest shall provide training necessary for CLEC to use Qwest's OSS interfaces and to understand Qwest's documentation, including Qwest's business rules.

12.6.6 When CLEC requests from Qwest more than fifty (50) SecurIDs for use by CLEC Customer service representatives at a single CLEC location, CLEC shall use a T1 line instead of dial-up access at that location. If CLEC is obtaining the line from Qwest, then CLEC shall be able to use SecurIDs until such time as Qwest provisions the T1 line and the line permits pre-order and order information to be exchanged between Qwest and CLEC.

12.6.7 If using the GUI interface, CLEC will take reasonable efforts to train CLEC personnel on the GUI functions that CLEC will be using. Qwest will assist CLEC as described in Section 12.1.3.

12.6.8 An exchange protocol will be used to transport XML formatted content. CLEC must perform certification testing of exchange protocol prior to using the XML interface.

12.6.9 Qwest will provide CLEC with access to a stable testing environment that mirrors production to certify that its OSS will be capable of interacting smoothly and efficiently with Qwest's OSS. Qwest has established the following test processes to assure the implementation of a solid interface between Qwest and CLEC:

12.6.9.1 Connectivity Testing – CLEC and Qwest will conduct connectivity testing. This test will establish the ability of the trading partners to send and receive XML messages effectively. This test verifies the communications between the trading partners. Connectivity is established during each phase of the implementation cycle. This test is also conducted prior to Controlled Production and before going live in the production environment if CLEC or Qwest has implemented environment changes when moving into production.

12.6.9.2 Stand-Alone Testing Environment ("SATE") – Qwest shall provide a stable, Stand-alone Testing Environment that, during a CLEC's development and implementation of XML, will take pre-order and order requests, pass them to the stand-

alone database, and return responses to CLEC that mirror the responses that would be obtained in the production environment. The SATE provides CLEC the opportunity to validate its technical development efforts built via Qwest documentation without the need to schedule test times. This testing verifies CLEC's ability to send correctly formatted XML transactions through the XML system edits successfully for both new and existing releases. Qwest will provide documentation for use with SATE that provides the CLEC information required to successfully use SATE and be certified to move into controlled production. SATE uses test account data supplied by Qwest. Qwest will provide a stable SATE no less than thirty (30) Days prior to Qwest's introduction of new OSS electronic interface capabilities to the production environment, unless otherwise agreed to pursuant to Section 16.0 of the CMP Document, including support of new test accounts, new test beds, new products and services, new interface features, and functionalities. All SATE pre-order queries and orders are subjected to the same edits as production pre-order and order transactions. This testing phase is optional when CLEC has performed Interoperability testing successfully.

12.6.9.2.1 As of the Effective Date, the SATE does not include all of the Qwest products and services CLEC may order in Qwest's production environment. In this context products and services are those items that may be ordered via XML from Qwest on an LSR. Qwest shall incorporate each such product or service into SATE once the aggregate number of transactions for all CLECs in the production environment for such product or service reaches 100 or more during a twelve-month period. Once these conditions are met, Qwest shall incorporate such product or service into the upcoming major SATE release, if feasible. If not feasible for that release, Qwest shall incorporate such product or service into the SATE by no later than the next major SATE release. A Party may submit a request through CMP to add products to SATE that do not meet the above criteria.

12.6.9.3 Interoperability Testing – CLEC has the option of participating with Qwest in Interoperability testing to provide CLEC with the opportunity to validate technical development efforts and to quantify processing results. Interoperability testing verifies CLEC's ability to send correct XML transactions through the XML system edits successfully. Interoperability testing requires the use of account information valid in Qwest production systems. All Interoperability pre-order queries and order transactions are subjected to the same edits as production orders. This testing phase is optional when CLEC has conducted Stand-Alone Testing successfully. Qwest shall process pre-order transactions in Qwest's production OSS and order transactions through the business processing layer of the XML interfaces.

12.6.9.4 Controlled Production – Qwest and CLEC will perform controlled production. The controlled production process is designed to validate the ability of CLEC to transmit XML data that completely meets X12 (or mutually agreed upon substitute) standards definitions and complies with all Qwest business rules. Controlled production consists of the controlled submission of actual CLEC production requests to the Qwest production environment. Qwest treats these pre-order queries and orders as production pre-order and order transactions. Qwest and CLEC use controlled production results to determine operational readiness. Controlled production requires the use of valid account and order data. All certification orders are considered to be live orders and will be provisioned. Controlled production is not required for features or products that the CLEC does not

plan on ordering. Recertification does not include new implementations such as new products and/or activity types.

12.6.9.5 If CLEC is using XML, Qwest shall provide CLEC with a pre-allotted amount of time between Qwest notification to CLEC and the sunset for CLEC's current release to complete certification of its business scenarios. Qwest will allow CLEC a reasonably sufficient amount of time negotiated by Qwest and CLEC during the day and a reasonably sufficient number of days during the week to complete certification of its business scenarios consistent with the CLEC's business plan. It is the sole responsibility of CLEC to schedule an appointment with Qwest for certification of its business scenarios. Qwest and CLEC must make every effort to comply with the agreed upon dates and times scheduled for the certification of CLEC's business scenarios. If the certification of business scenarios is delayed due to CLEC, it is the sole responsibility of CLEC to schedule new appointments for certification of its business scenarios. Qwest will make reasonable efforts to accommodate CLEC schedule. Conflicts in the schedule could result in certification being delayed. If a delay is due to Qwest, Qwest will honor CLEC's schedule through the use of alternative hours.

12.6.9.6 Comprehensive Production Testing — Comprehensive Production Testing permits a comprehensive test of the totality of Qwest's operational interfaces and processes in conjunction with the actual Pre-ordering, Ordering, Provisioning, Billing and Maintenance and Repair of Network Elements, Ancillary Services, and UNE Combinations prior to or contemporaneously with the offering by CLEC of any CLEC product or service incorporating Qwest's Network Elements, UNE Combinations or Ancillary Services. Such Comprehensive Production Testing shall be designed to permit an individual CLEC to test its own operational interfaces and processes in conjunction with Qwest's and shall be in addition to any testing processes offered or required for interface development, version changes and/or certification (.e.g. Interoperability testing). The testing described in this Section is not conditional on CLEC's commitment to enter a market with any services but is conditional on any certification on operational interfaces or processes required under this Agreement.

12.6.9.6.1 Qwest shall participate in Comprehensive Production Testing upon CLEC's request. CLEC shall notify Qwest in writing of CLEC's intent to participate in Comprehensive Production Testing. Such notice shall include a statement describing the scope of the test. CLEC and Qwest shall commence and complete Comprehensive Production Testing promptly.

12.6.9.6.2 Within ten (10) business days after CLEC's written notice to Qwest of CLEC's intent to conduct Comprehensive Production Testing, CLEC and Qwest shall meet and continue meeting no less frequently than once per week, unless otherwise agreed by Qwest and CLEC, to agree upon a process to resolve technical issues relating to Comprehensive Production Testing. Unless otherwise agreed, within ten (10) business days after CLEC's first meeting with Qwest, CLEC shall provide Qwest with a firm definition of the scope of the comprehensive testing. Within a mutually agreed period of time, which shall not exceed forty-five (45) business days after CLEC defines the scope of the comprehensive testing, Qwest and CLEC will reach agreement on the terms, guidelines and processes for executing the comprehensive testing and meeting CLEC's objectives. The agreed upon process shall include procedures for

escalating disputes and unresolved issues up through higher levels of each company's management. If (a) CLEC and Qwest do not reach agreement on such a process within forty-five (45) business days after CLEC provides Qwest with the firm scope, or (b) Qwest or CLEC has failed to meet or continue meeting regarding, or Qwest or CLEC has otherwise indicated its intention not to conduct, Comprehensive Production Testing, or (c) Qwest and CLEC cannot agree upon whether or how much of the cost of such testing is to be allocated to CLEC or (d) during any Comprehensive Production Testing either Party fails to satisfy any of the requirements set forth in this Section 12.6.9.6, any issues that have not been resolved by the Parties with respect to such process or either Party's failure to satisfy any of the requirements of this Section 12.6.9.6 shall be submitted, at the sole discretion of either Party, to either (i) the Dispute Resolution procedures set forth in Section 5.18 of this Agreement or (ii) any dispute resolution or complaint process available or permitted by or before the Commission. In any expedited dispute resolution or complaint process, the Parties shall jointly request that the decision-maker render a decision within ninety (90) Days after submission of the dispute or complaint.

12.6.9.6.2.1 The intervals for comprehensive testing apply to one comprehensive test. One comprehensive test may include overlapping testing by CLEC in more than one state within a single comprehensive testing request. If Qwest has multiple requests for comprehensive testing then the intervals for each request will be separately negotiated. Multiple requests are CLEC requests for comprehensive production testing received within the same 45 business day interval referenced above. If the CLEC is not in agreement with the given intervals and the disagreement is not resolved within ten (10) business days, the requesting CLEC may submit the matter to the dispute resolution process.

12.6.9.6.3 For the purposes of Comprehensive Production Testing, Qwest shall temporarily provision selected local Switching features for testing pursuant to the terms and conditions of this Agreement. CLEC will bear the cost of such Provisioning as called for by this Agreement.

12.6.9.6.4 For the purposes of Comprehensive Production Testing, Qwest shall provision pursuant to the terms and conditions of this Agreement or pursuant to a Qwest retail Tariff, whether singly or as part of a UNE Combination, any kind of Unbundled Loop, Resale or retail services designated by CLEC in such quantities and to any location or locations reasonably requested by CLEC. For example, Qwest shall provision, either singly or as part of a UNE Combination, a residential Loop or retail service to a commercial facility, such as an office Building. In such cases, if a Commission waiver is not required, Qwest shall not assert that Tariff limitations restrict such Provisioning, or if a Commission waiver is required, the Parties will expeditiously seek such a waiver.

12.6.9.6.5 The Parties shall provide technical staff to meet to provide required support for Comprehensive Production Testing.

12.6.9.6.6 During Comprehensive Production Testing, the Parties shall provide a single point of contact that is available during business hours Monday

through Friday for trouble status, sectionalization, resolution, escalation and closure of comprehensive testing issues. Comprehensive testing issues are those test issues which are outside the scope of routine Pre-ordering, Ordering, Provisioning, Billing, Maintenance and Repair of the services being tested. Such staff shall be adequately skilled to facilitate expeditious problem resolution.

12.6.9.6.7 Either Party may supply information about the Comprehensive Production Testing conducted pursuant to this section to regulatory agencies including the Federal Communications Commission and the Commission so long as any confidential obligation is protected pursuant to the terms of Section 5.16.

12.6.9.6.8 The costs of testing shall be assigned to the CLEC requesting the test procedures, but only to the extent that such costs exceed the costs Qwest would otherwise incur administering CLEC's pre-order, order, Billing, Maintenance and Repair activities in the production (non-test) environment or the costs Qwest would otherwise incur in Provisioning retail lines for test purposes. Prior to execution of Comprehensive Production Testing, Qwest shall provide to CLEC an itemized quotation of all costs Qwest believes it is entitled to recover from CLEC pursuant to this Section 12.6.9.6.8, including a detailed description of each activity including the Qwest underlying assumptions for which Qwest seeks recovery. CLEC shall be permitted to challenge the necessity of Qwest's activities that cause extraordinary costs to be incurred. Challenges made by CLEC that cannot be resolved by the Parties shall be resolved through the dispute resolution process outlined in this agreement at Section 5.18. At the point that the expenses of the testing reach eighty percent (80%) of the quoted amount, Qwest will notify CLEC and provide a modified quotation, at which point, CLEC can choose whether or not to continue testing. CLEC shall have 30 business days to notify Qwest if CLEC wishes to continue the comprehensive testing. If CLEC elects to discontinue the comprehensive testing, then testing will cease immediately and CLEC shall pay the amount due. If CLEC wishes to continue the testing it will accept the modifications to the quotation, or inform Qwest that CLEC disputes the modifications to the quotation but still wants the test to proceed, in writing within 30 business days and Billing will continue as agreed. Qwest shall provide to CLEC with such modified quote a detailed explanation of each change in cost and why Qwest believes CLEC is responsible for such changes in cost. This section is in addition to CLEC's responsibility to pay normal recurring and non-recurring charges (retail and wholesale) for the facilities and services identified in this Agreement and reflected in Exhibit A or a Qwest retail Tariff, if applicable, ordered during the testing. If construction is requested for the purpose of comprehensive testing, the Parties will adhere to the applicable terms and conditions relating to construction contained in this Agreement or the Qwest retail Tariff, depending on the services CLEC ordered. The parties will agree to reasonable timeframes for construction performed for comprehensive testing. If at any time the Parties are in dispute over the allocation of cost associated with testing, CLEC may request in writing that the testing proceed while the Parties work to resolve such a dispute. If CLEC agrees to pay 50% of the actual charges Qwest incurs in accordance with the agreed terms as if no dispute existed, then Qwest will proceed with the testing. If, after the dispute is resolved, CLEC has paid to Qwest any amount that exceeds the amount it owes pursuant to the resolution, Qwest agrees to credit CLEC for that excess amount. However, if the CLEC owes monies to Qwest, CLEC agrees to

pay the remaining balance pursuant to the resolution.

12.6.9.7 If CLEC is using the XML interface, CLEC must work with Qwest to certify the business scenarios that CLEC will be using in order to ensure successful transaction processing. Qwest and CLEC shall mutually agree to the business scenarios for which CLEC requires certification. Certification will be granted for the specified release of the XML interface. If a CLEC is certifying multiple products or services, CLEC has the option of certifying those products or services serially or in parallel where Technically Feasible.

12.6.9.7.1 For a new software release or upgrade, Qwest will provide CLEC a stable testing environment that mirrors the production environment in order for CLEC to test the new release. For software releases and upgrades, Qwest has implemented the testing processes set forth in Sections 12 6.9.2, 12.6.9.3 and 12.6.9.4.

12.6.9.8 New releases of the XML interface may require re-certification of some or all business scenarios. A determination as to the need for re-certification will be made by the Qwest coordinator in conjunction with the release manager of each XML release. The suite of re-certification test scenarios will be provided to CLEC with the disclosure document. If a CLEC is certifying multiple products or services, CLEC has the option of certifying those products or services serially or in parallel, where Technically Feasible.

12.6.9.9 CLEC will contact the Qwest XML Implementation Coordinator to initiate the migration process. CLEC may not need to certify to every new XML release, however, CLEC must complete the re-certification and migration to a new XML release within six (6) months of the deployment of the new release. CLEC will use reasonable efforts to provide sufficient support and personnel to ensure that issues that arise in migrating to the new release are handled in a timely manner.

12.6.9.9.1 The following rules apply to initial development and certification of XML interface versions and migration to subsequent XML interface versions:

12.6.9.9.1.1 Stand Alone and/or Interoperability testing must begin on the prior release before the next release is implemented. Otherwise, CLEC will be required to move their implementation plan to the next release.

12.6.9.9.1.2 New XML users must be certified and in production with at least one product and one order activity type on a prior release two months after the implementation of the next release. Otherwise, CLEC will be required to move their implementation plan to the next release.

12.6.9.9.1.3 Any XML user that has been placed into production on a prior release not later than two months after the next release implementation may continue certifying additional products and activities until two months prior to the retirement of the release. To be placed into production, the products/order activities must have been tested in the SATE or Interoperability environment at least four months prior to the retirement of the prior release.

12.6.9.10 CLEC will be expected to execute the re-certification test cases in the stand alone and/or Interoperability test environments. CLEC will provide Purchase Order Numbers (PONs) of the successful test cases to Qwest.

12.7 OSS Rate Elements

12.7.1 OSS charges, as applicable, will be billed at rates set forth in Exhibit A. Any such rates will be consistent with Existing Rules. Qwest shall not impose any recurring or nonrecurring OSS charges unless and until the Commission authorizes Qwest to impose such charges and/or approves applicable rates at the completion of appropriate cost docket proceedings.

12.7.2 Supplements and Canceled Service Requests - (See Section 12.2.3)

SECTION 13.0 - ACCESS TO TELEPHONE NUMBERS

13.1 Nothing in this Agreement shall be construed in any manner to limit or otherwise adversely impact either Party's right to request an assignment of any NANP number resources including, but not limited to Central Office (NXX) Codes pursuant to the Central Office Code Assignment Guidelines published by the Industry Numbering Committee (INC) as INC 95-0407-008 (formerly ICCF 93-0729-010) and Thousand Block (NXX-X) Pooling Administration Guidelines INC 99-0127-023, when these Guidelines are implemented by the FCC or Commission Order. The latest version of the Guidelines will be considered the current standard.

13.2 North American Numbering Plan Administration (NANPA) has transitioned to NeuStar. Both Parties agree to comply with Industry guidelines and Commission rules, including those sections requiring the accurate reporting of data to the NANPA.

13.3 It shall be the responsibility of each Party to program and update its own Switches and network systems pursuant to the Local Exchange Routing Guide (LERG) to recognize and Route traffic to the other Party's assigned NXX or NXX-X codes. Neither Party shall impose any fees or charges on the other Party for such activities. The Parties will cooperate to establish procedures to ensure the timely activation of NXX assignments in their respective networks.

13.4 Each Party is responsible for administering numbering resources assigned to it. Each Party will cooperate to timely rectify inaccuracies in its LERG data. Each Party is responsible for updating the LERG data for NXX Codes assigned to its Switches. Each Party shall use the LERG published by Telcordia or its successor for obtaining routing information and shall provide through an authorized LERG input agent, all required information regarding its network for maintaining the LERG in a timely manner.

13.5 Each Party shall be responsible for notifying its End User Customers of any changes in numbering or dialing arrangements to include changes such as the introduction of new NPAs.

SECTION 14.0 - LOCAL DIALING PARITY

14.1 The Parties shall provide local Dialing Parity to each other as required under Section 251(b)(3) of the Act. Qwest will provide local Dialing Parity to competing providers of telephone Exchange Service and telephone toll service, and will permit all such providers to have non-discriminatory access to telephone numbers, operator services, Directory Assistance, and directory listings, with no unreasonable dialing delays. CLEC may elect to route all of its End User Customers' calls in the same manner as Qwest routes its End User Customers' calls, for a given call type (e.g., 0, 0+, 1+, 411).

SECTION 15.0 - QWEST DEX

15.1 Qwest and CLEC agree that certain issues outside the provision of basic white page directory listings, such as yellow pages advertising, yellow pages listings, directory coverage access to call guide pages (phone service pages), applicable listings criteria, white page enhancements and publication schedules will be the subject of negotiations between CLEC and directory publishers, including Qwest Dex. Qwest acknowledges that CLEC may request Qwest to facilitate discussions between CLEC and Qwest Dex.

SECTION 16.0 - REFERRAL ANNOUNCEMENT

16.1 When an End User changes from Qwest to CLEC, or from CLEC to Qwest, and does not retain its original main/listed telephone number, the Party formerly providing service to the End User will provide a transfer of service announcement on the abandoned telephone number. Each Party will provide this referral service consistent with its Tariff. This announcement will provide details on the new number that must be dialed to reach the End User.

SECTION 17.0 - BONA FIDE REQUEST PROCESS

17.1 Any request for Interconnection or access to an Unbundled Network Element or ancillary service that is not already available as described in other sections of this Agreement, including but not limited to Exhibit F or any other Interconnection Agreement, Tariff or otherwise defined by Qwest as a product or service shall be treated as a BFR. Qwest shall use the BFR Process to determine the terms and timetable for providing the requested Interconnection, access to UNEs or ancillary services, and the Technical Feasibility of new/different points of Interconnection. Qwest will administer the BFR Process in a non-discriminatory manner.

17.2 A BFR shall be submitted in writing and on the appropriate Qwest form for BFRs. CLEC and Qwest may work together to prepare the BFR form and either Party may request that such coordination be handled on an expedited basis. This form shall be accompanied by the processing fee specified in Exhibit A of this Agreement. Qwest will refund one-half (1/2) of the processing fee if the BFR is cancelled within ten (10) business days of the receipt of the BFR form. The form will request, and CLEC will need to provide, the following information, and may also provide any additional information that may be reasonably necessary in describing and analyzing CLEC's request:

17.2.1 a technical description of each requested Network Element or new/different points of Interconnection or ancillary services;

17.2.2 the desired interface specification;

17.2.3 each requested type of Interconnection or access;

17.2.4 a statement that the Interconnection or Network Element or ancillary service will be used to provide a Telecommunications Service;

17.2.5 the quantity requested;

17.2.6 the specific location requested;

17.2.7 Intentionally Left Blank.

17.2.8 Intentionally Left Blank.

17.3 Within two (2) business days of its receipt, Qwest shall acknowledge receipt of the BFR and in such acknowledgment advise CLEC of missing information, if any, necessary to process the BFR. Thereafter, Qwest shall promptly advise CLEC of the need for any additional information required to complete the analysis of the BFR. If requested, either orally or in writing, Qwest will provide weekly updates on the status of the BFR.

17.4 Within twenty-one (21) Days of its receipt of the BFR and all information necessary to process it, Qwest shall provide to CLEC an analysis of the BFR. The analysis shall specify Qwest's conclusions as to whether or not the requested Interconnection or access to an Unbundled Network Element complies with the unbundling requirements of the Act or state law.

17.5 If Qwest determines during the twenty-one (21) Day period that a BFR does not qualify as an Unbundled Network Element or Interconnection or ancillary service that is required to be provided under the Act or state law, Qwest shall advise CLEC as soon as reasonably possible of that fact, and Qwest shall promptly, but in no case later than the twenty-one (21) period, provide a written report setting forth the basis for its conclusion.

17.6 If Qwest determines during such twenty-one (21) Day period that the BFR qualifies under the Act or state law, it shall notify CLEC in writing of such determination within ten (10) Days, but in no case later than the end of such twenty-one (21) Day period.

17.7 As soon as feasible, but in any case within forty-five (45) Days after Qwest notifies CLEC that the BFR qualifies under the Act, Qwest shall provide to CLEC a BFR quote. The BFR quote will include, at a minimum, a description of each Interconnection, Network Element, and ancillary service, the quantity to be provided, any interface specifications, and the applicable rates (recurring and non-recurring) including the separately stated development costs and construction charges of the Interconnection, Unbundled Network Element or ancillary service and any minimum volume and term commitments required, and the timeframes the request will be provisioned.

17.8 CLEC has sixty (60) business days upon receipt of the BFR quote, to either agree to purchase under the quoted price, or cancel its BFR.

17.9 If CLEC has agreed to minimum volume and term commitments under the preceding paragraph, CLEC may cancel the BFR or volume and term commitment at any time but may be subject to termination liability assessment or minimum period charges.

17.10 If either Party believes that the other Party is not requesting, negotiating or processing any BFR in good faith, or disputes a determination or quoted price or cost, it may invoke the Dispute resolution provision of this Agreement.

17.11 All time intervals within which a response is required from one Party to another under this Section are maximum time intervals. Each Party agrees that it will provide all responses to the other Party as soon as the Party has the information and analysis required to respond, even if the time interval stated herein for a response is not over.

17.12 In the event CLEC has submitted a Request for an Interconnection, Unbundled Network Elements or any combinations thereof, or ancillary services and Qwest determines in accordance with the provisions of this Section 17 that the request is Technically Feasible, subsequent requests or orders for substantially similar types of Interconnection, Unbundled Network Elements or combinations thereof or ancillary services by that CLEC shall not be subject to the BFR process. To the extent Qwest has deployed or denied a substantially similar Interconnection, Unbundled Network Elements or combinations thereof or ancillary services under a previous BFR, a subsequent BFR shall not be required and the BFR application fee shall be refunded immediately. Qwest may only require CLEC to complete a New Product Questionnaire before ordering such Interconnection, Unbundled Network Elements or combinations thereof, or ancillary services. ICB pricing and intervals will still apply for requests that are not yet standard offerings. For purposes of this Section 17.12, a "substantially similar" request shall be one with substantially similar characteristics to a previous request with respect to the information provided pursuant to Subsections 17.2.1 through 17.2.8 of Section 17.2

above. The burden of proof is upon Qwest to prove the BFR is not substantially similar to a previous BFR.

17.13 The total cost charged to CLEC shall not exceed the BFR quoted price.

17.14 Upon request, Qwest shall provide CLEC with Qwest's supporting cost data and/or studies for the Interconnection, Unbundled Network Element or ancillary service that CLEC wishes to order within seven (7) business days, except where Qwest cannot obtain a release from its vendors within seven (7) business days, in which case Qwest will make the data available as soon as Qwest receives the vendor release. Such cost data shall be treated as Confidential Information, if requested by Qwest under the non-disclosure sections of this Agreement.

17.15 Qwest shall make available a topical list of the BFRs that it has received with CLECs under this Agreement or an Interconnection agreement. The description of each item on that list shall be sufficient to allow CLEC to understand the general nature of the product, service, or combination thereof that has been requested and a summary of the disposition of the request as soon as it is made. Qwest shall also be required upon the request of a CLEC to provide sufficient details about the terms and conditions of any granted requests to allow a CLEC to take the same offering under substantially identical circumstances. Qwest shall not be required to provide information about the request initially made by the CLEC whose BFR was granted, but must make available the same kinds of information about what it offered in response to the BFR as it does for other products or services available under this Agreement. A CLEC shall be entitled to the same offering terms and conditions made under any granted BFR, provided that Qwest may require the use of ICB pricing where it makes a demonstration to the CLEC of the need therefore.

SECTION 18.0 - AUDIT PROCESS

18.1 Nothing in this Section 18 shall limit or expand the audit provisions in the Performance Assurance Plan ("PAP"). Nothing in the PAP shall limit or expand the audit provisions in this Section 18. For purposes of this section the following definitions shall apply:

18.1.1 "Audit" shall mean the comprehensive review of the books, records, and other documents used in the Billing process for services performed, including, without limitation, reciprocal compensation and facilities provided under this Agreement.

18.1.2 "Examination" shall mean an inquiry into a specific element or process related to the above. Commencing on the Effective Date of this Agreement, either Party may perform Examinations as either Party deems necessary.

18.2 This Audit shall take place under the following conditions:

18.2.1 Either Party may request to perform an Audit or Examination.

18.2.2 The Audit or Examination shall occur upon thirty (30) business days written notice by the requesting Party to the non-requesting Party.

18.2.3 The Audit or Examination shall occur during normal business hours. However, such audit will be conducted in a commercially reasonable manner and both Parties will work to minimize disruption to the business operations of the Party being audited.

18.2.4 There shall be no more than two Audits requested by each Party under this Agreement in any 12-month period. Either Party may audit the other Party's books, records and documents more frequently than twice in any twelve (12) month period (but no more than once in each quarter) if the immediately preceding audit found previously uncorrected net variances, inaccuracies or errors in invoices in the audited Party's favor with an aggregate value of at least two percent (2%) of the amounts payable for the affected services during the period covered by the Audit.

18.2.5 The requesting Party may review the non-requesting Party's records, books and documents, as may reasonably contain information relevant to the operation of this Agreement.

18.2.6 The location of the Audit or Examination shall be the location where the requested records, books and documents are retained in the normal course of business.

18.2.7 All transactions under this Agreement which are over twenty-four (24) months old will be considered accepted and no longer subject to Audit. The Parties agree to retain records of all transactions under this Agreement for at least 24 months.

18.2.8 Audit or Examination Expenses.

18.2.8.1 Each Party shall bear its own expenses in connection with conduct of the Audit or Examination. The requesting Party will pay for the reasonable cost of special data extractions required by the Party to conduct the Audit or Examination. For purposes of this section, a "Special Data Extraction"

means the creation of an output record or informational report (from existing data files) that is not created in the normal course of business. If any program is developed to the requesting Party's specification and at that Party's expense, the requesting Party will specify at the time of request whether the program is to be retained by the other Party for reuse for any subsequent Audit or Examination.

18.2.8.2 Notwithstanding the foregoing, the audited Party shall pay all of the Auditing Party's commercially reasonable expenses in the event an Audit or Examination identifies a difference between the amount billed and the amount determined by the Audit that exceeds five percent (5%) of the amount billed and results in a refund and/or reduction in the Billing to the auditing Party.

18.2.9 The Party requesting the Audit may request that an Audit be conducted by a mutually agreed-to independent auditor, which agreement will not be unreasonably withheld or delayed by the non-requesting Party. Under this circumstance, the costs of the independent auditor shall be paid for by the Party requesting the Audit subject to Section 18.2.8.2.

18.2.10 In the event that the non-requesting Party requests that the Audit be performed by an independent auditor, the Parties shall mutually agree to the selection of the independent auditor. Under this circumstance, the costs of the independent auditor shall be shared equally by the Parties. The portion of this expense borne by the Auditing Party shall be borne by the Audited Party if the terms of Section 18.2.8.2 are satisfied.

18.2.11 Adjustments, credits or payments will be made and any corrective action must commence within thirty (30) Days after the Parties receipt of the final audit report to compensate for any errors and omissions which are disclosed by such Audit or Examination and are agreed to by the Parties. The interest rate payable shall be in accordance with Commission requirements. In the event that any of the following circumstances occur within thirty (30) business days after completion of the Audit or Examination, they may be resolved at either Party's election, pursuant to the Dispute resolution Process: (i) errors detected by the Audit or Examination have not been corrected; (ii) adjustments, credits or payments due as a result of the Audit or Examination have not been made, or (iii) a dispute has arisen concerning the Audit or Examination.

18.2.12 Neither the right to examine and audit nor the right to receive an adjustment will be affected by any statement to the contrary appearing on checks or otherwise.

18.2.13 This Section will survive expiration or termination of this Agreement for a period of two (2) years after expiration or termination of the Agreement.

18.3 All information received or reviewed by the requesting Party or the independent auditor in connection with the Audit is to be considered Proprietary Information as defined by this Agreement in Section 5.16. The non-requesting Party reserves the right to require any non-employee who is involved directly or indirectly in any Audit or the resolution of its findings as described above to execute a nondisclosure agreement satisfactory to the non-requesting Party. To the extent an Audit involves access to information of other competitors, CLEC and Qwest will aggregate such competitors' data before release to the other Party, to insure the protection of the proprietary nature of information of other competitors. To the extent a competitor is an Affiliate of the Party being audited (including itself and its subsidiaries), the Parties shall be

allowed to examine such Affiliates' disaggregated data, as required by reasonable needs of the Audit. Information provided in an Audit or Examination may only be reviewed by individuals with a need to know such information for purposes of this Section 18 and who are bound by the nondisclosure obligations set forth in Section 5.16. In no case shall the Confidential Information be shared with the Parties' retail marketing, sales or strategic planning.

18.3.1 Either Party may request an Audit of the other Party's compliance with this Agreement's measures and requirements applicable to limitations on the distribution, maintenance, and use of proprietary or other protected information that the requesting Party has provided to the other. Those Audits shall not take place more frequently than once in every three (3) years unless cause is shown to support a specifically requested audit that would otherwise violate this frequency restriction. Examinations will not be permitted in connection with investigating or testing such compliance. Other provisions of this Section that are not inconsistent herewith shall apply, except that in the case of audits, the Party to be audited may also request the use of an independent auditor.

SECTION 19.0 - CONSTRUCTION CHARGES

19.1 All rates, charges and initial service periods specified in this Agreement contemplate the provision of network Interconnection services and access to Unbundled Network Elements or ancillary services to the extent existing facilities are available. Construction is not required for requests that can be resolved through assignments, incremental facility work or other Routine Network Modifications. Except for modifications to existing facilities necessary to accommodate Interconnection and access to Unbundled Network Elements or ancillary services specifically provided for in this Agreement, such as assignments, incremental facility work or other Routine Network Modifications, Qwest will consider requests to build additional or further facilities for network Interconnection and access to Unbundled Network Elements or ancillary services, as described in the applicable Section of this Agreement.

19.2 All necessary construction will be undertaken at the discretion of Qwest, consistent with budgetary responsibilities, consideration for the impact on the general body of End Users and without discrimination among the various Carriers.

19.3 Within twenty (20) business days after CLEC requests construction, Qwest shall provide to CLEC a quote for CLEC's portion of a specific job. The quote shall include a detailed breakdown of the labor and material costs and a description of work. The quote will be in writing and will be binding on Qwest for ninety (90) business days after the issue date. If accepted, CLEC will pay to Qwest the quoted price and construction will commence after receipt of payment. If CLEC accepts a Qwest quote for construction, such acceptance is of price and scope of work only. Any additional terms incorporated into Qwest forms to request or accept a quote for construction, or to otherwise direct Qwest to proceed with construction, shall have no effect as between the Parties. The terms and conditions applicable to such construction shall be those terms and conditions set forth in this Agreement. Any such quote for construction shall be a firm quote (not to exceed a specific dollar amount) to complete the construction for the requested facilities. If CLEC chooses not to have Qwest construct the facilities, Qwest reserves the right to bill CLEC for the expense incurred for producing the engineered job design.

19.4 If Qwest agrees to construct a Network Element that satisfies the description of a UNE contained in this Agreement, that Network Element shall be deemed a UNE. If Qwest builds facilities based on a CLEC request for construction, Qwest shall, complete CLEC's order(s) for service related to such construction within the applicable service interval once construction is completed.

SECTION 20.0 - SERVICE PERFORMANCE

20.1 Performance Indicator Definitions--Performance Indicator Definitions (PIDs), in their current form as developed by the Regional Oversight Committee, are included in Exhibit B of this Agreement. Qwest will bring changes agreed to by CLECs and Qwest to the Commission for modification of Exhibit B of this Agreement. Modification of PIDs that apply to the Utah Qwest Performance Assurance Plan (QPAP), attached hereto as Exhibit K, shall be made in accordance with Section 16 of that Exhibit.

20.2 Qwest Performance Assurance Plan (QPAP)--Pursuant to Section 13.6 of Exhibit K, CLEC adopts the QPAP.

SECTION 21.0 – CONNECTIVITY BILLING, RECORDING, AND EXCHANGE OF INFORMATION

21.1 General Terms

21.1.1 Each Party will bill and record in accordance with this Agreement those charges the other Party incurs as a result of such Party's purchases under this Agreement (hereinafter "Connectivity Charges").

21.1.2 The Parties shall provide each other with timely, accurate and complete bills and call records relating to the products and services provided, the Connectivity Charges billed, and the traffic exchanged under this Agreement.

21.1.3 Connectivity Charges are set forth in Exhibit A. Terms and conditions are set forth in Section 5.4 relating to payments and deposits (including late payment charges), Section 7.3 relating to bill and keep for reciprocal compensation, and Section 22 relating to pricing.

21.2 Monthly Billing

21.2.1 Qwest and CLEC will establish monthly Bill Dates for each Billing Account Number ("BAN"), which Bill Date shall be the same day month to month. Each BAN shall remain constant from month to month, unless changed as agreed to by the Parties in writing. Each Party shall provide the other Party at least thirty (30) Days written notice prior to changing, adding or deleting a BAN. The Parties will provide one Connectivity Charges invoice associated with each BAN. Each invoice must contain a BAN number and, in CABS or SECAB format, an invoice number (which will vary from month to month). On each bill associated with a BAN, the appropriate invoice number and the charges contained on such invoice must be reflected.

21.2.2 Qwest shall assign each Unbundled Network Element (UNE), UNE Combination, resold service or other product, service or option included in this Agreement purchased by CLEC a separate and unique Billing code. These Billing codes are determined by Qwest based on industry guidelines for Universal Service Ordering Codes (USOCs) and Field Identifiers (FIDs). FIDs identify non-fielded data and, among other things, describe more detailed and specific attributes of a USOC. Qwest shall provide such USOCs to CLEC on each bill for Connectivity Charges provided by Qwest ("Connectivity Bill") in which charges for such UNEs, UNE Combinations, resold services or other products, services or options included in this Agreement appear.

21.2.3 Connectivity Bills will be provided by Qwest on a monthly basis and shall include: (a) all non-usage sensitive charges incurred for the period beginning with the current Bill Date and extending up to, but not including, the next Bill Date, (b) any known unbilled non-usage sensitive charges for prior periods providing they shall not exceed the periods set forth in Section 21.6 below, (c) unbilled usage sensitive charges for the period beginning with the last bill processing date and extending up to the processing date of the current bill, (d) any known unbilled usage sensitive charges for prior periods, or any unknown prior usage sensitive charges that are now known, for prior periods, providing they shall not exceed the periods set forth in Section 21.6 below, and (e) any known unbilled adjustments providing they shall not exceed the periods set forth in Section 21.6 below. Each Connectivity Bill shall set forth the quantity and description of

each such Unbundled Network Element, UNE Combination, resold service or other product or service under this Agreement billed to CLEC. All Connectivity Charges billed to CLEC must indicate the state from which such charges were incurred. Each Connectivity Bill shall also include:

- (a) Billing Telephone Number (BTN);
- (b) Bill Date;
- (c) the date on which the billed activity occurred ("Service Date"), including for per call activation charges the date on which the call occurred (except that individual call dates will not be provided for bulk-billed usage);
- (d) Working Telephone Number (WTN) or circuit identification (Circuit ID), whichever is applicable (except for charges for which the WTN is the same as the BTN, or for bulk-billed USOCs and order charges, if any, that do not apply at a WTN or circuit level, for which the sub-account number may be provided instead);
- (e) Billable USOCs and USOC descriptions, unless there is no USOC for the product or service, the USOC is only for non-recurring charges (in which case a descriptive bill phrase is provided), or the USOC charge amount is part of a Tax or Surcharge (in which case the tax or surcharge will be separately listed on the bill);
- (f) rate (except for toll calls and non-recurring charges);
- (g) extended charges (rate X quantity);
- (h) for Connectivity Charges that vary by zone, information necessary to identify which zone charge was billed. (Additionally, Qwest will make available to CLEC an electronic Billing Customer Service Record (CSR) which provides information necessary to allow CLEC to identify the Common Language Location Identifier (CLLI) applicable to each charge that varies by zone.);
- (i) for Non-Recurring Charges ("NRCs"), service establishment date (Billing start date) on the first bill for which the charge appears, Purchase Order Number ("PON"), service order ("SO") number and, for electronic bills, an identifier, which in the case of BillMate ASCII bills, is an identifier of Non-Recurring ("N");
- (j) for fractional charges associated with LSR or ASR activity, if any, the from and thru dates, per month charge, fractional amount, PON, SO number and, for electronic bills, an identifier, which in the case of BillMate ASCII bills, is an identifier of Fractional ("F"); and
- (k) for Maintenance and Repair charges, CLEC repair ticket number when the CLEC submitted the ticket via CEMR or MEDIACC.

21.2.3.1 During the course of this Agreement, Qwest will not convert any usage elements from detailed Billing to bulk-billing.

21.2.4 Either Party may request Connectivity Charges associated with products and services be included in separate bills, which may be sent to different billing addresses. At a minimum, a Party will comply with such a request to provide separate bills for Collocation, LIS

trunking, private line service, resale, UNE, EEL, administrative invoices, transit, and UDIT. For CLEC requests made in the normal course of business to operations channels, Qwest's obligations to comply with such requests is limited to the current capability of Qwest's OSS to support the request when the charges are provided using OSS. This provision does not limit the CLEC's ability to seek an OSS change, such as via the CMP. If separate bills are established, the Billing Party shall bill the Connectivity Charges for that product or service on the appropriate, designated BAN. At least 6,000 sub-accounts will be allowed per BAN.

21.3 Bill Format Media

21.3.1 Each Connectivity Bill shall be provided on paper, if selected by CLEC, or electronically transmitted in ASCII, EDI or Carrier Access Billing System (CABS) format, the selection of which format is to be chosen by CLEC, or in other electronic media that the Parties agree upon. CLEC shall provide its Carrier Access Bills to Qwest pursuant to CLEC's Tariff and any other bills in a spreadsheet sent by Email, or as otherwise agreed by the Parties. When an electronic format (CABS, EDI, ASCII) is available for a bill and is selected by CLEC, the electronic bill is the official bill of record. For ASCII bills, however, the electronic ASCII bills currently do not include the balance forward and total amount due. Therefore, until the electronic ASCII bills include this information, the paper bill is the official bill of record. Regardless of the bill format media selected, the Connectivity Bill shall be provided at no charge. The bill format media for Connectivity Bills is specified on the Customer Questionnaire, if it has not been previously provided, as set forth in Section 3.2.2.

21.3.2 Qwest uses the following systems to bill products and services to wholesale Customers:

21.3.2.1 **Customer Records and Information System Billing:** The Customer Records and Information System ("CRIS") summary bill represents a monthly summary of charges for most wholesale products sold by Qwest. This bill includes a total of all charges by entity plus a summary of current charges and adjustments on each sub-account. Individual sub-accounts are provided as billing detail and contain monthly, one-time charges and incremental/call detail information. The summary bill provides one bill and one payment document for CLEC. These bills are segmented by state and bill cycle. The number of bills received by CLEC is dictated by the product ordered, quantity of sub-accounts, and the Qwest region in which CLEC is operating. For CRIS output, CLEC may choose to receive bills in the following formats: paper, EDI via Network Data Mover (NDM) (dedicated circuit), EDI via Value Added Network (VAN), EDI via File Transfer Protocol (FTP) (dedicated circuit), EDI via the Web, CABS/Billing Output Specifications (CABS/BOS) format in an Extended Binary Coded Decimal Interchange Code (EBCDIC) file (for unbundled Loop type products only), American Standard Code (ASCII) files, or ASCII via the Web. If CLEC selects an EDI format, Qwest will utilize the existing EDI standard for the transmission of monthly local Billing information. EDI is an established standard under the auspices of the ANSI/ASC X12 Committee. A proper subset of this specification has been adopted by the Telecommunications Industry Forum (TCIF) as the "811 Guidelines" specifically for the purposes of Telecommunications Billing. Any deviance from these standards and guidelines shall be documented and accessible to CLEC. The billed Party may request the Billing Party to eliminate differences that impair the billed Party's processing of the bill. At CLEC's option, Qwest will provide an electronic version of the output from CRIS, known as BillMate®, to CLEC. BillMate® files are created in ASCII or EDI format, at the CLEC's option. BillMate® is available, at CLEC's option, via EDI and the Internet. Other

requirements for BillMate® in the ASCII format will be set forth in a Customer guide posted on Qwest's wholesale web site and are applicable to the extent that they do not conflict with the terms of this Agreement. The functionality of BillMate® in the ASCII format will be comparable to or greater than the functionality for BillMate® in the ASCII format reflected in the Qwest BillMate® Customer Guide that is posted on Qwest's wholesale web site as of the date of execution of this Agreement. When BillMate® is used for Billing, Qwest will also provide to CLEC a paper account summary that provides the following information not provided in BillMate® (unless and until this information is provided through BillMate®): balance forward, certain adjustments, payments posted, current charges, and total amount due.

21.3.2.2 Carrier Access Billing System Billing: The Interexchange Access Billing System ("IABS") bill represents a monthly summary of charges. This bill includes monthly and one-time charges, adjustments, and a summary of any usage charges. These bills are segmented by product, LATA or end office, BAN and bill cycle. Qwest will use the CABS/BOS format and technology for the transmission of bills for products and services billed out of IABS. For IABS output, CLEC may choose to receive bills in the following formats: paper, Bill Data Tape (BDT), internet (Web), Network Data Mover (NDM) in BDT format, or abbreviated paper bill. If both Parties agree in writing, CABS formatted bills may be provided on paper. If CABS guidelines do not exist, the Parties will bill one another using a paper medium that adheres to the other requirements of this Section 21 that do not relate to the bill format. As of the Effective Date, CLEC is not required to provide CABS Billing for Interconnection facilities ordered by Qwest. Electronically transmitted CABS formatted bills are available from Qwest for UNEs and Interconnection facilities and services except for non-recurring charges for Collocation which are not billed in a CABS format but rather in a non-CABS paper format. CABS format is not available for Qwest Resale services except for Frame Relay, which is billed in CABS format. ASCII and EDI formats are available for product offerings billed out of Qwest's CRIS system. All CABS formatted Connectivity Bills shall be in accordance with CABS guidelines and the requirements of this Section 21. The Billing Party shall document any differences from the industry guidelines, however, the billed Party may request the Billing Party to eliminate differences that impair the billed Party's processing of the CABS bill. If the Parties cannot agree on the elimination of such differences, either Party may pursue the resolution of the dispute through the Dispute resolution process as set forth in Section 5.18. Qwest shall follow industry guidelines for CABS-BOS version implementation.

21.3.2.3 Local Exchange Carrier Invoice System Billing: For Local Exchange Carrier Invoice System (LEXCIS) output, CLEC may choose to receive bills in the following formats: (1) paper, or (2) automated invoice with pay stub via Email.

21.3.2.4 Billing and Receivable Tracking Billing: For Billing and Receivable Tracking (BART) output, bills are provided only on paper. Collocation NRCs, which are billed using BART, shall be given a unique BAN and invoice number per Collocation installation or Augment. Connectivity Charges for existing products and services not billed via BART under this Agreement as of its Effective Date will not be converted to BART billing.

21.4 Bill Processing

21.4.1 For electronic bills, Qwest will: (i) process bill data and Customer Service Records ("CSRs") on the same date; (ii) perform all standard CABS BOS or CRIS edits on the UNE bills; (iii) populate activity date with the date of the activity associated with the charges (except for CABS bills, until this functionality is available in CABS); (iv) populate the adjustment thru date with the date through which the adjustment applies; (v) populate adjustment from the date with the date from which the adjustment applies; (vi) populate an audit number with the reference number provided by CLEC, which reference number is included in the transaction; (vii) populate recurring/non-recurring charge indicator with a value of "1" for CABS or "F" for ASCII bills for monthly recurring charges and a value of "2" for CABS or "N" for ASCII bills for non-recurring charges; (viii) populate service established dates with the date on which service was established (except for CABS bills, until this functionality is available in CABS); (ix) separate taxes and surcharges and populate on the appropriate records; and (x) use descriptive local use phrase codes for UNE charges and adjustments.

21.4.2 In those instances where paper bills are issued pursuant to Section 21.3, both Parties agree to accept, process and pay as set forth in Sections 5.4 and 21.8, any and all such paper bill invoices submitted by the other Party that are not in the industry standard formats. PDF (or equivalent of PDF) files that contain accurate paper bill images are considered to be equivalent to paper bills. If either Party requests an additional copy(ies) of a bill, such Party shall pay the other Party a reasonable fee per additional bill copy, unless such copy was requested due to errors, omissions, or corrections or the failure of the transmission to comply with the specifications set forth in this Agreement. If the Parties cannot agree on a fee or the reason why an additional copy is needed, Qwest shall provide the additional bill copy and then either Party may pursue Dispute resolution procedures pursuant to Section 5.18 to resolve the dispute.

21.4.3 In those instances where bills are electronically transmitted, to avoid transmission failures or the receipt of Connectivity Billing information that cannot be processed, the Parties shall provide each other with their respective process specifications and edit requirements, and mutually agree on reasonable specifications and edit requirements to be followed. CLEC and Qwest shall provide each other reasonable notice if a Connectivity Billing transmission is received that does not meet the mutually agreed specifications or that such Party cannot process. Such transmission shall be corrected and resubmitted to the other Party, at the resubmitting Party's sole expense, in a form that can be processed. The payment due date for such resubmitted transmissions will be twenty (20) Days from the date that the resubmitted transmission is received in an electronic form (regardless of the receipt of the paper bill) that can be processed and that meets the specifications set forth in this Agreement.

21.4.4 Qwest agrees that, if it transmits data to CLEC in a mechanized format, Qwest will also comply with the following specifications which are not contained in CABS or SECAB guidelines but which are necessary for CLEC to process Connectivity Billing information and data:

- (a) The BAN shall not contain embedded spaces or low values.
- (b) The Bill Date shall not contain spaces or non-numeric values.
- (c) Each Connectivity Bill must contain at least one detail record.
- (d) Any "From" Date should be equal to or less than the associated "Through" Date and neither date can contain spaces. The condition of "From" date being equal to "Through" Date is appropriate only when the incurred time frame for an expense / credit is the same calendar date.
- (e) The Invoice Number must not have embedded spaces or low values.

21.5 Bill Media Testing Requirements

21.5.1 At least thirty (30) Days prior to Qwest sending CLEC a mechanized Connectivity Bill for the first time via electronic transmission, or tape, or at least 30 Days prior to changing mechanized formats (e.g., from SECAB to CABS), Qwest shall send to CLEC Connectivity Bill data in the appropriate mechanized format for testing to ensure that the bills can be processed and that the bills comply with the requirements of this Agreement. Qwest shall also provide to CLEC, located at an address provided by CLEC, Qwest's originating or state level company code so that it may be added to CLEC's internal tables at least thirty (30) Days prior to testing or a change in the Qwest's originating or state level company code. CLEC will notify Qwest within the time period agreed to by the Parties if Connectivity Billing transmission fails to meet mutually agreed testing specifications. Qwest shall make the necessary corrections within the time period agreed to with CLEC to ensure that billing transmissions meet CLEC's testing specifications. Qwest shall not send CLEC a mechanized Connectivity Bill (except for testing) until such bills meet CLEC's testing specifications. If Qwest meets mutually agreed testing specifications, Qwest may begin sending CLEC mechanized Connectivity Bills on the next Bill Date, or within ten (10) Days, whichever is later.

21.6 Backbilling: Qwest may send bills to CLEC or CLEC may send bills to Qwest, containing Connectivity Charges found to be unbilled or underbilled ("Backbill(s)" or "Backbilling"), as follows:

21.6.1 Except as provided in Section 21.6.5 below, for erroneous failure to bill or underbilling of any charges incurred by the billed Party under this Agreement, the Billing Party may submit a Backbill to the billed Party for Charges Incurred by the billed Party up to one hundred twenty (120) Days prior to the Bill Date. Information to be contained on the bill when Backbilling occurs is described in Section 21.9. For the purposes of this Section 21.6.1, "Charges Incurred" shall mean: (i) for services charged on a usage-sensitive basis, upon the date on which the usage occurred and was recorded or should have been recorded, and (ii) for all other services, upon the date on which such service or billable activity occurred; or

21.6.2 For failure to bill or underbilling where data exchange with third party Carriers is required, the Billing Party may submit a Backbill to the billed Party for charges incurred by the billed Party up to one hundred twenty (120) Days prior to the Bill Date; or

21.6.3 Where Qwest or CLEC is required by regulatory agencies, arbitrators, courts, or legislatures to implement new pricing structures, Qwest may submit to CLEC, or CLEC may submit to Qwest, up to one hundred twenty (120) Days after the implementation date required in the regulatory action, the date of the final, non-appealable arbitration or order, or the effective date of the legislation or Tariff (each such date hereinafter referred to as a "Governmental Requirement Date"), a Backbill for charges incurred by CLEC, or incurred by Qwest, as a result of, and since the applicable Governmental Requirement Date, unless the regulatory agency, arbitrator, court, or legislature orders otherwise.

21.6.4 Qwest and CLEC will exert commercially reasonable efforts not to send Backbills from their Billing systems outside the time periods defined in Section 21.6.1 through 21.6.3, above. In any event, except as provided in Section 21.6.5 below, neither CLEC nor Qwest will be liable for charges contained in Backbills that are sent outside the time periods defined in Section 21.6.1 through Section 21.6.3.

21.6.5 The Billing Party may send Backbills outside of the time periods defined in Section 21.6.1 through Section 21.6.3, but otherwise subject to the limitations in this Agreement applicable to Billing disputes, for charges incurred by the billed Party where the failure to bill or underbilling is caused solely by the acts, failure or refusal to act, errors or omissions of the billed Party, and the billed Party shall be liable for such Backbilled charges. Where such failure to bill or underbilling is caused in part by the billed Party and in part by the Billing Party, the Parties may agree upon other time periods for Backbilling.

21.6.6 Notwithstanding the foregoing, Qwest will not process, or charge CLEC for, Maintenance and Repair charges that Qwest does not post by the second Bill Date after the Maintenance and Repair occurred.

21.7 Measurement of Connectivity Charges

21.7.1 Qwest shall bill CLEC for each Unbundled Network Element, UNE Combination, resold service or other product or service included in this Agreement supplied by Qwest to CLEC pursuant to this Agreement based on the actual Connectivity Charges incurred. Measurement of usage-based Connectivity Charges shall be in actual conversation seconds based upon a tenth of a second increment. For switched access calls originating from a UNE Switch Carrier elapsed time will be used instead of conversation time. The total conversation and elapsed second per chargeable traffic types will be totaled for the entire monthly bill cycle and then rounded to the next whole minute. For resale services provided under this Agreement, the total conversation time shall be measured and rounded in accordance with Qwest's Tariff and billed at the discounted rate called for in this Agreement.

21.8 Billing Questions, Escalations and Disputes

21.8.1 Each Party shall provide the other Party, at no additional charge, contact billing representative(s) for resolving any Billing and payment questions or problems under this Agreement.

21.8.2 If the billing representative(s) is unable to resolve the problem or provide the requested information to the Party's satisfaction, the Party may escalate through each level of the other Party's billing management organization. A Party may initiate an escalation for any issue, at any time, and at any escalation point. Resolution of the dispute is expected to occur at the first level of management resulting in a recommendation for resolution of the dispute.

21.8.3 Disputed amounts may be withheld subject to the provisions of this Section 21.8. At a minimum, CLEC and Qwest shall pay all undisputed amounts due for Connectivity Charges, as set forth in Section 5.4.

21.8.4 To dispute Connectivity Charges, a Party will follow the procedures in this Section:

21.8.4.1 Initiation of Dispute. Should CLEC or Qwest dispute, in good faith, any portion of the Connectivity Charges under this Agreement, the Parties will notify each other, in writing (which may include Email, if the Parties exchange Email addresses for this purpose), within fifteen (15) Days following the payment Due Date identifying the amount of, and reason and rationale for, such dispute. Where the format or lack of mechanization of bills makes it impracticable for a Party to dispute bill amounts by WTN or Circuit ID, a dispute based on summary records shall be acceptable.

21.8.4.2 Acknowledgement of Dispute. The Party receiving notice of a dispute will provide acknowledgement of the dispute to the disputing Party within two Business Days of receipt of the notice of dispute. The acknowledgement will contain information identifying the dispute.

21.8.4.3 Investigation and Resolution of Dispute. Both CLEC and Qwest agree to expedite the investigation of any disputed amounts, promptly provide all documentation regarding the amount disputed that is reasonably requested by the other Party, and work in good faith in an effort to resolve the dispute through informal means prior to initiating any other rights or remedies. In addition, where a dispute is based on summary records, the billing Party shall determine by WTN all the cases where discrepancies identified on a summary basis exist. If the Parties have not resolved the dispute within thirty (30) Days of receipt of the notice of dispute, the billing Party will provide the disputing Party with a written status update. If at any point the billing Party concludes that it will deny the dispute, the billing Party will provide to the disputing Party a written statement of the denial and the reasons and rationale for the denial. Qwest personnel involved in billing and disputes shall have access to all Billing data that Qwest provides to CLEC, in the format provided to CLEC (such as BillMate®), to facilitate communication about Billing matters. In the event of a Billing dispute, the Parties will endeavor to resolve the dispute within sixty (60) Days of written notice of the dispute.

21.8.4.4 If the issues are not resolved within the allotted time frame, each of the Parties shall appoint a designated representative who has authority to settle the dispute and who is at a higher level of management than the Persons with direct responsibility for administration of this Agreement (Designated Representative). The Designated Representatives shall meet as often as they reasonably deem necessary in order to discuss the dispute and negotiate in good faith in an effort to resolve such dispute. The specific format for such discussions will be left to the discretion of the Designated Representatives; however, all reasonable requests for relevant information made by one Party to the other Party shall be honored.

21.8.4.5 If the Parties are unable to resolve issues related to the disputed amounts within forty-five (45) Days after the Parties' appointment of Designated Representatives, the dispute will be resolved in accordance with the procedures set forth in Section 5.18 of this Agreement.

21.8.5 If a Party disputes charges and does not pay such charges by the payment Due Date, such charges may be subject to late payment charges in the amount set forth in Section 5.4.8 ("Late Payment Charges"). If the disputed charges have been withheld and the dispute is resolved in favor of the Billing Party, the withholding Party shall pay the disputed amount and applicable late payment charges no later than the second Bill Date following the resolution. If the disputed charges have been withheld and the dispute is resolved in favor of the disputing Party, the Billing Party shall credit the bill of the disputing Party for the amount of the disputed charges and any late payment charges that have been assessed no later than the second Bill Date after the resolution of the dispute. If a Party pays the disputed charges and the dispute is resolved in favor of the Billing Party, no further action is required.

21.8.6 If a Party pays the charge disputed at the time of payment or at any time thereafter pursuant to Section 21.8.7, and the dispute is resolved in favor of the disputing Party, the Billing Party shall, no later than the second Bill Date after resolution of the dispute, credit the disputing

Party's invoice that contained the disputed charges for the disputed amount and any associated interest, except as described below. If the disputed amount, including interest, is greater than the undisputed past due balance on the invoice that contained the disputed charges, and the disputing Party has undisputed past due balances on other invoices, the Billing Party shall apply the credit to another invoice with an undisputed past due balance and provide to the disputing Party a notice that identifies the invoice credited, in addition to the information described in Section 21.9.2. When the dispute is resolved in favor of the disputing Party, if the disputing Party has no undisputed past due balances, or if the credit, including interest, is greater than all undisputed past due balances, the Billing Party shall pay the disputed amount (less any undisputed past due balances) and any associated interest to the disputing Party by wire transfer. The interest calculated on the disputed amounts will be the same rate as Late Payment Charges. In no event, however, shall any Late Payment Charges be assessed on any previously assessed Late Payment Charges.

21.8.7 If a Party fails to dispute a charge and discovers an error on a bill it has paid after the period set forth in Section 21.8.4.1, the Party may dispute the bill at a later time through an informal process, through the process otherwise set forth in Sections 21.8.3 and 21.8.4, through an Audit pursuant to the Audit provision of this Agreement, through the Dispute resolution provision in Section 5.18 of this Agreement, or pursuant to applicable state statutes or Commission rules.

21.9 Bill Adjustments

21.9.1 Subject to the terms of this Agreement, Qwest will reimburse CLEC for incorrect Connectivity Charges or overcharges; products or services interrupted or ordered or requested but not delivered; Resold Services, UNEs, or UNE Combinations of poor quality; and installation problems if caused by Qwest. Such reimbursements shall be set forth in the appropriate section of the Connectivity Bill.

21.9.2 When Qwest processes an adjustment or Backbilling, Qwest shall provide at least the following information: (a) amount of adjustment or Backbilling by USOC; (b) applicable Bill Dates for the bill(s) being disputed (as well as the Bill Date for the bill on which the adjustment appears); (c) USOC description or, if none, reason code or description; (d) WTN or Circuit ID, whichever is applicable; (e) for Maintenance and Repair charges, date on which the charge was incurred for charge being adjusted; (f) audit reference number when provided by CLEC; and (g) additional information reasonably necessary to identify the charge being adjusted. Each adjustment or Backbilling will be separately identified. Qwest may, however, combine adjustments or Backbilling for multiple disputes or USOCs when they are related, if Qwest provides sufficient additional information to CLEC from which CLEC can relate the adjustments to the CLEC's individual disputes.

21.10 Information Service Provider (976) Charges

Qwest does not now and will not during the term of this Agreement offer or bill 976 services in the state of Utah. If 976 service is provided by another Carrier in Utah, nothing in this Agreement obligates either Party to bill and collect any Information Service provider (976) charges from their respective End User Customers.

21.11 Alternatively Billed Calls

21.11.1 "Alternatively Billed Calls" are calls that are billed as collect calls or billed to a third number. CLEC shall place the appropriate block (or order such block from Qwest) on each of its End User Customer lines to prevent all collect and third party calls. If such blocks are not on End User Customer lines, CLEC shall be responsible for the calls at retail rates minus the wholesale discounts. When a block is in place on a line and such Alternatively Billed Calls occur, the originating Party is responsible for Billing the appropriate Carrier or End User Customer. If such charges appear on a Party's bill, the billed Party is not responsible for payment of such charges by the End User Customer or to the other Party.

21.11.2 Routing of in-region IntraLATA Collect, Calling Card, and Third Number Billed Messages - If the blocks described in Section 21.11.1 are not on End User Customer's lines, Qwest will distribute in-region IntraLATA collect, calling card, and third number billed messages to CLEC and exchange with other CLECs operating in region in a manner consistent with existing inter-company processing agreements. Whenever such blocks are not on the lines and the daily usage information is transmitted to a Carrier, it will contain these records for these types of calls as well.

21.12 UNE, UNE Combination, or Resold Service

21.12.1 CLEC shall be responsible for providing billing information to its End User Customers.

21.12.2 Qwest shall recognize CLEC as the Customer of record for all UNEs, UNE Combinations, or resold service and will send all notices, bills and other pertinent information directly to CLEC. The bill will include sufficient data to enable CLEC to reconcile the billed charges with the recorded call information furnished in accordance with the requirements of Section 21.14.1.1.

21.12.3 CLEC shall not be liable for any records packaging and transmission charges associated with call information not furnished by Qwest to CLEC (i) within thirty (30) Days after the date such usage was incurred, if recorded on a Qwest Switch, or (ii) within one hundred twenty (120) Days after the date such usage was incurred and recorded, if recorded on the Switch of a Carrier other than Qwest. In addition, CLEC shall not be liable for any Connectivity Charges which cannot be reconciled with call information received by CLEC from Qwest.

21.13 Qwest Toll Service

21.13.1 If, during the term of this Agreement, Qwest offers toll service to CLEC's End User Customers, the line will carry a 0432 PIC/LPIC and Qwest must establish its own Billing relationship with such End User Customers. Qwest may not bill CLEC, and CLEC shall have no obligation to pay Qwest, for toll service Qwest provides to CLEC's local End User Customer's when the line carries a 0432 PIC/LPIC. In addition, CLEC shall have no obligation to bill CLEC local service End User Customer's for toll service provided by Qwest. If a Qwest PIC/LPIC other than 0432 and 5123 is used, it shall be treated the same as the 0432 PIC/LPIC. When the line carries a 5123 LPIC, Qwest will treat toll usage as resold. Qwest will bill CLEC for the toll at retail rates minus the wholesale discount listed in Exhibit A. Qwest will also pass to CLEC a Category 10 ODUF record for such 5123 toll usage so that CLEC may bill its End User Customer. If at any time Qwest introduces a new PIC/LPIC code for its toll, Qwest shall notify CLEC of the new PIC and whether toll generated with that PIC will be treated as resold toll or as Qwest-billed toll. Any conversions required as a result of the new PIC will be Qwest's responsibility. Qwest will work with CLEC to convert CLEC's End User Customers on the 5123 PIC/LPIC to a different Qwest PIC/LPIC if CLEC desires. A special coded "language" has been developed within the Carrier industry so communication of subscription activity between the

Carriers and Local Operating Companies could be standardized and universal. The overall language is generally referred to as Customer Account Record Exchange (CARE) and is broken down into numeric codes to send subscription transactions back and forth. The Parties may elect to use such CARE processes. CLEC currently uses a CARE process. If a Party elects not to use or continue to use such a CARE process, the Party also has the option of not offering such toll service, unless required to do so by law. If a Party elects not to offer such toll service, that Party is responsible for contacting its End User Customers and arranging for transfer of their service.

21.14 Recording and Exchange of Call Detail and Usage Records

21.14.1 Daily Usage Files (DUF)

21.14.1.1 Qwest agrees to record call information in accordance with this Section. To the extent Technically Feasible, for resale, UNEs and UNE Combinations, Qwest shall record all call detail information associated with every call originated or terminated to the other Party's local exchange End User Customer, with the exception of terminating local calls and local calls originating from resold lines for which CLEC purchases flat rated local service, unless such originating or terminating local calls are billable to CLEC. Qwest shall provide these records to CLEC, and these records shall be formatted pursuant to OBF's EMI standards and the terms and conditions of this Agreement. Qwest agrees that it will retain, at its sole expense, copies of all EMI records transmitted to CLEC for at least one hundred and eighty (180) Days after transmission to the other Party. Switched Access records are not available on resale.

21.14.1.2 CLEC agrees to record call information in accordance with this Section. Unless Qwest notifies CLEC in writing that CLEC may discontinue doing so, CLEC shall provide to Qwest access records. The access records provide Qwest with usage by CLEC end office of originating switched access usage. These records are in industry standard Category 11 Exchange Message Interface (EMI) format. Category 1101 series records are used to exchange detail Meet Point Billed access minutes-of-use. Qwest will make accessible to CLEC through electronic means the transmission method/media types available for these mechanized records. The CLEC may charge Qwest for these records in accordance with Exhibit A.

21.14.1.3 Daily Usage File(s) (DUF) provide the accumulated set of usage records or call information (call detail) for a given day as captured or recorded by the network Switches.

21.14.1.4 CLEC may choose to receive DUF in the following media types: File Transfer Protocol (FTP) (direct only, dedicated circuit), Network Data Mover (NDM) (dedicated circuit or dial-in), or Web access. CLEC specifies the media type and method of receiving the DUF on the Customer Questionnaire, if they have not been previously provided, as set forth in Section 3.2.2.

21.14.1.5 The DUF may include unrated usage records; for alternately billed calls, rated usage records; and if applicable, access records.

21.14.1.6 Qwest shall provide DUF to CLEC in OBF Exchange Message Interface (EMI) format. This EMI format is outlined in the document SR-320, which can be obtained directly from Alliance for Telecommunication Industry Solution (ATIS).

Recorded call information will conform to EMI guidelines for each applicable recorded usage record and record type. Applicable usage records are dependent on the class of service for each account. For example, a measured class of service includes all local usage records, but a flat class of service does not include local usage.

21.14.1.7 Qwest processes recorded usage records daily. Qwest shall check recent service order activity prior to sending records to the DUF to ensure usage is processed correctly. Unless CLEC indicates otherwise, Qwest shall transmit separate DUF to CLEC daily, Monday through Friday, excluding Qwest holidays. CLEC also has the option of receiving the DUF on a weekly or monthly basis. If there is no usage recorded on a particular day, CLEC will not receive a file or any notice from Qwest that usage was not recorded, and Qwest will not transmit a file. If there was usage but Qwest did not transmit the usage to CLEC, Section 21.14.4 shall apply.

21.14.1.8 All access and non-access records shall be provided in files containing packs of data with no more than the number of records per pack provided by applicable industry standards. In addition, Qwest shall send no more than 99 packs per Regional Accounting Office (RAO) per file. In the event that the number of packs approaches 95 per RAO, Qwest agrees to negotiate the increase of the number of records per pack within a reasonable period of time after receiving written notice from CLEC.

21.14.1.9 The Daily Usage Record File contains multi-state data for the data processing center generating this information. Individual state identification information is contained with the message detail. Qwest will provide this data to CLEC with the same level of precision and accuracy it provides itself.

21.14.1.10 The DUF will be provided for Resale. The charge for this Daily Usage Record File is contained in Exhibit A of this Agreement.

21.14.1.11 Each Party shall provide timely written notification to the other Party if records are not sent according to this Section 21.14. The Party which should have sent the records will provide the other Party with a summary of the type of records that it is re-sending or that will be sent for the first time outside of the process described in this Agreement, identifying the date and manner in which the records will be sent. The Party will send the summary of the number and type of such records on the same day, or within one business day, of sending such records. The Party which was to have sent the records will provide regular status updates to the other Party regarding the record retrieval process.

21.14.1.12 At CLEC's request, Qwest shall separate the usage records and call information between Other Daily Usage Files (ODUF) and Access Daily Usage Files (ADUF).

21.14.1.12.1 Other Daily Usage Files (ODUF)

21.14.1.12.1.1 Some types of calls generate records that are billable to CLEC End User Customers. These records shall be included in Qwest's ODUF.

21.14.1.12.1.2 Once CLEC becomes the provider of record on a line, Qwest will report to CLEC, via the ODUF, all applicable billable usage. Examples of some recorded billable usage records CLEC will receive on the ODUF are Directory

Assistance (DA), Directory Assistance Complete A Call (DACC), Busy Line Verify (BLV), Busy Line Interrupt (BLI), Local Measured Service (LMS), usage sensitive CLASS(tm) features, and Qwest provided intraLATA toll. Qwest will not report to CLEC, via the ODUF, non-billable records. Examples of some non-billable records include uncompleted calls, 911 calls, reciprocal compensation records, records that are more than ninety (90) Days old, and study records.

21.14.1.12.1.3 If CLEC establishes as a Reseller only, Qwest will only provide recorded usage records on the ODUF. A single ODUF file will be created per CRIS region (Central, Eastern or Western). The recorded usage records within each ODUF file are sorted internally by the originating number's, or for alternatively billed calls, the billing number's, Regional Account Office (RAO), creating multiple "packs" of recorded usage records in each ODUF. For example, all recorded usage records in RAO 153 are packed together with a header/trailer while all recorded usage records in RAO 062 are packed together with a different header/trailer, but both of these "packs" appear in the single ODUF file.

21.14.1.12.1.4 ODUF records shall be in industry standard Exchange Message Interface (EMI) Category 01 (rated) and 10 (unrated) formats. Category 01 and 10 records provide mechanized record formats that can be used to exchange local and originating usage information between Qwest and CLEC. Category 010101, 010104, 010105, 010116, 010118, 010119, 010125, 010131, 010132, 010135, 010137, 100101, 100116, 100118, 100119, 100131, 100132, and 100137 are common EMI record types that are used to exchange detailed local and intraLATA toll usage information.

21.14.1.12.2 Access Daily Usage File (ADUF)

21.14.1.12.2.1 Switched Access Service calls that are either originated or terminated by CLEC End User Customers create records that are billable to the Interexchange Carrier (IXC) that provides the long distance (intraLATA and interLATA) service and shall be included in Qwest's ADUF. ADUF records are those that CLEC can use to bill IXCs for Switched Access Services.

21.14.1.12.2.2 If CLEC is established as a UNE provider, Qwest will provide to CLEC originating and terminating switched access records in the ADUF. All switched access records shall be packed into a single file per CRIS region.

21.14.1.12.2.3 ADUF records will be in industry standard Exchange Message Interface (EMI) Category 11 format. Category 11 records provide mechanized record formats that can be used to exchange access usage information between Qwest and CLEC. Category 110101, 110201, 110105, and 110125 are common EMI record types that are used to exchange detailed access usage information.

21.14.2 Meet Point Billing

21.14.2.1 "Meet Point" and "Meet Point Billing" or "MPB" are defined in Section 4 of this Agreement.

21.14.2.2 As detailed in the MECAB or SECAB guidelines, Qwest and CLEC will, in a timely fashion, exchange all information necessary to accurately, reliably, and promptly bill Access Service Customers for Switched Access Services traffic jointly handled by Qwest and CLEC via the Meet Point arrangement. Information shall be exchanged in Exchange Message Interface ("EMI") format, on magnetic tape or via a mutually acceptable Electronic File Transfer protocol.

21.14.2.3 Qwest and CLEC will exchange all information necessary to enable each Party to transmit usage data to the other Party. Subsequent to the exchange of transmission information, the tandem Party, as the subsequent Billing Company, will provide the end office Party, as the initial Billing Company (IBC), detailed Exchange Access usage data (EMI Category 11-01) within ten (10) Days of the actual usage date. The IBC will perform its responsibilities, as defined by MECAB or SECAB, and provide usage data (EMI Category 11-01) within ten (10) Days of the actual usage date.

21.14.2.4 Qwest and CLEC shall work cooperatively to coordinate rendering of Meet Point bills to Access Service Customers and shall reciprocally provide each other usage data and related information. Billing to Access Service Customers for the Switched Access Services jointly provided by Qwest and CLEC via the MPB arrangement shall be according to the multiple bill/multiple Tariff method as described in the MECAB or SECAB guidelines. This means each Party will bill the Access Service Customer for the portion of service it provided at applicable rates as specified by each Party.

21.14.2.5 Should either Party desire to change the Billing/Tariff method, Qwest and CLEC may mutually agree to implement one of the following options for Billing to third parties for the Switched Access Services jointly provided by Qwest and CLEC via the MPB arrangement: single bill/single Tariff method; single bill/multiple Tariff method; or continue the multiple bill/multiple Tariff method. Should either Party prefer to change among these Billing methods, that Party shall notify the other Party in writing of such a request ninety (90) Business Days in advance of the date on which such change is desired to be implemented. If the Parties mutually agree to the change(s), such changes will be made in accordance with MECAB or SECAB guidelines.

21.14.2.6 If MPB data is not processed and delivered by either Qwest or CLEC and sent to the other Party within fifteen (15) Days of the relevant recording period and in turn such Party is unable to bill the IXC for the appropriate charges, the Party who failed to deliver the data will be held liable for the amount of the unbillable charges.

21.14.2.7 If MPB data is not submitted within fifteen (15) Days of the relevant recording period or is not in the proper format as set forth in this Agreement, and if as a result the other Party is delayed in Billing the IXC for the appropriate charges it incurs, the delaying Party shall pay the other Party a late MPB data delivery charge which will be the total amount of the delayed charges times a monthly rate that shall not exceed the Late Payment Charge set forth in Section 5.4.8, compounded daily for the number of days from the date the MPB charges should have been received to and including the date the MPB charge information is actually received.

21.14.2.8 Errors in MPB data exchange by the Parties may be discovered by CLEC, Qwest or the billable IXC. Both CLEC and Qwest agree to provide the other Party with notification of any discovered errors within two (2) Business days of the discovery. The other Party shall correct the error within eight (8) Business days of notification and

resubmit the data. In the event the errors cannot be corrected within the time period specified above, the erroneous data will be considered lost. If MPB data is lost due to uncorrectable errors or otherwise, the Parties shall follow the procedures set forth in Section 21.14.4 of this Agreement and compensate the other for the lost MPB Billing data.

21.14.3 Carrier Identification Codes

21.14.3.1 Upon either Party's request, a Party will provide valid lists and ongoing updates of all Carrier Identification Codes ("CIC") and associated Billing information for each Party's tandem to ensure accurate Billing in accordance with guidelines adopted by and contained in the OBF's MECAB, SECAB or MECOD documents (whichever is applicable).

21.14.3.2 Each Party will provide the other Party with a CIC on each EMI record transmitted to the other Party for which a CIC code is applicable.

21.14.3.2.1 When Qwest does not make available EMI records, Qwest will provide CLEC with toll usage traffic information sufficient to allow CLEC to bill Qwest for such usage. Qwest will provide this information to CLEC via a report, currently known as the Toll Usage Tracking (TUT) report, which includes the ILEC additive (for Independent Local Exchange Carrier traffic where Qwest is an IntraLATA toll Carrier) to the Qwest minutes.

21.14.4 Lost or Undelivered Data

21.14.4.1 CLEC recorded usage data determined to have been lost, damaged or destroyed as a result of an error or omission by Qwest shall, upon CLEC request, be recovered by Qwest at no charge to CLEC. In the event the data cannot be recovered by Qwest, Qwest shall estimate the messages and associated revenue, with assistance from CLEC, based upon the method described below. This method shall be applied on a consistent basis, subject to modifications agreed to by Qwest and CLEC in writing.

21.14.4.1.1 This estimate shall be used to adjust amounts CLEC owes Qwest for Category 11 or DUF record charges in Exhibit A for the records associated with the lost or undelivered data.

21.14.4.1.2 When Qwest is unable to deliver such usage to CLEC for all usage (missing records) or the usage date on messages delivered is more than ninety (90) days old (stale records), this estimate shall also be used to determine the amount Qwest owes CLEC for the usage charges that would have applied to those records when CLEC billed IXC(s). For usage that is charged on a per minute basis, such usage charges shall be computed by taking the aggregate minutes of the stale records, or an estimate of usage of missing minutes, and multiplying those minutes by the rates in the CLEC Tariff, using a fifty percent (50%) interstate use (PIU) factor, unless the Parties agree otherwise. For usage that is charged on a per message (not per minute) basis, revenue owed to CLEC shall be calculated by multiplying the number of messages by the rate in the CLEC Tariff. If there is no CLEC Tariff rate, a mutually agreed upon rate will apply.

21.14.4.1.2.1 For certain usage, Qwest bills CLEC rates pursuant to Exhibit A (e.g., directory assistance). In these instances, if Qwest has both

not billed CLEC such charges and such usage is lost or undelivered, Qwest may subtract such charges from the total amount owed to CLEC pursuant to Section 21.14.4.1.2. If Qwest subtracts charges pursuant to this Section, Qwest shall provide to CLEC an itemized list of each element(s) and rate(s) for the charges subtracted.

21.14.4.2 Partial Loss - Qwest shall review its daily controls to determine if data has been lost. When there has been a partial loss, actual message and minute volumes shall be reported, if possible. Where actual data are not available, a full day shall be estimated for the recording entity, as outlined in the following paragraphs. The amount of the partial loss is then determined by subtracting the data actually recorded for such day from the estimated total for such day.

21.14.4.3 Complete Loss - Estimated message and minute volumes for each loss consisting of an entire AMA tape or entire data volume due to its loss prior to or during processing, loss after receipt, degaussed before processing, receipt of a blank or unreadable tape, or lost for other causes, shall be reported.

21.14.4.4 Estimated Volumes - From message and minute volume reports for the entity experiencing the loss, Qwest shall secure message/minute counts for the five (5) corresponding business days of the weeks preceding that in which the loss occurred and compute an average of these volumes.

21.14.4.5 If the day of loss is not a holiday but one (1) (or more) of the preceding corresponding days is a holiday, Qwest shall use additional preceding weeks in order to procure volumes for two (2) non-holidays in the previous two (2) weeks that correspond to the day of the week that is the day of the loss.

21.14.4.6 If the loss occurs on a weekday that is a holiday (except Christmas and Mother's Day), Qwest shall use volumes from the two (2) preceding Sundays.

21.14.4.7 If the loss occurs on Mother's Day or Christmas, Qwest shall use volumes from that day in the preceding year multiplied by a growth rate mutually agreed upon by the Parties.

21.14.4.8 CLEC may also request data be provided that has previously been successfully provided by Qwest to CLEC. Qwest shall re-provide such data, if available, at a charge mutually agreed to by the Parties.

21.14.4.9 When CLEC has lost data that Qwest is entitled to under the terms of this Agreement, the above terms and conditions apply equally to CLEC.

21.14.5 Recording and Data Exchange Questions, Escalations, and Disputes

21.14.5.1 Each Party shall provide the other Party, at no additional charge, a recording and usage representative(s) for resolving any recording and data exchange questions or problems under this Agreement.

21.14.5.2 The procedures and timeframes for initiating, acknowledging, escalating, and resolving Billing disputes set forth in Section 21.8 apply equally to disputes regarding call recording and exchange of record information. Nothing in Section 21.8 or this Section

shall prevent a Party from seeking expedited resolution of an issue through escalation or Dispute resolution as needed.

SECTION 22.0 - PRICING

22.1 General Principles

22.1.1 The rates in Exhibit A apply to the services provided pursuant to this Agreement.

22.1.2 If Qwest offers discounts or other promotional terms to other CLECs pursuant to Sections 251(c) and 252 of the Act, such terms shall be made available to CLEC. Qwest will inform CLEC and/or the Commission when Qwest provides such terms to another CLEC. Regarding promotional offerings for Resale, see Section 6.2.2.1.

22.1.3 Reciprocal Charges: See Section 7.3 regarding bill and keep for reciprocal compensation. To the extent that CLEC provides services to Qwest, other than bill and keep for reciprocal compensation, or services provided pursuant to this Agreement at the rate in Exhibit A, CLEC may apply its tariffed rates as provided in Section 22.1.3.1.

22.1.3.1 In the event that one Party charges the other for a service provided under this Agreement, the other Party may also charge for that service or functionality. The rates CLEC charges for Interconnection services will be equivalent to Qwest's rates for comparable Interconnection services when CLEC reciprocally provides such a service or functionality, provided that CLEC may have higher asymmetrical rates, but must first establish its higher costs to the Commission by its own forward-looking cost study before it may depart from symmetrical charges. Rates, terms and conditions for all other services, not related to Interconnection, are set forth in the applicable CLEC Tariff, as it may be modified from time to time. CLEC shall provide a Qwest-designated representative with electronic notice of filings of such applicable CLEC Tariff at the same time they are filed with the Commission, unless otherwise specified in this Agreement.

22.2 Time and Materials – Calculation of Charges

22.2.1 If CLEC requests or approves that a Qwest technician perform special installation, maintenance, conversion, testing, escort or similar services, for which there is an hourly charge under this Agreement, CLEC will pay the labor rates for such services as specified in Exhibit A, including requests for installation or conversion outside of normal business hours for the product or service requested. Normal business hours for products and services are identified in this Agreement. If CLEC requests that Qwest perform work outside of the normal business hours for the product or service requested, CLEC will be obligated to pay appropriate overtime or premium rates for that work. If CLEC requests that work be performed during the normal business hours for the product or service requested and CLEC is prepared for Qwest to perform the work during the normal business hours, CLEC will not be subject to overtime or premium rates if Qwest determines that the work is required to be performed outside of the normal business hours for the product or service requested.

22.2.1.1 Regarding joint repair appointments, see Section 9.2.5.2.1 and Section 6.6.4.1.

22.2.2 Qwest will manage and apply such charges in a non-discriminatory manner that is equivalent to Qwest's internal management and assignment of these costs. Basic charges apply when the Qwest technician performs work during normal business hours for the product or service requested. Overtime charges apply when CLEC authorizes (or is deemed to authorize

pursuant to Section 22.2.1) the Qwest technician to perform work on a business day, but outside normal business hours for the product or service requested, or on a Saturday. Premium charges apply when CLEC authorizes (or is deemed to authorize pursuant to Section 22.2.1) the Qwest technician to perform work on either a Sunday or Qwest recognized holiday.

22.3 Changes in Retail Service Rates

Qwest will provide a notice via the CMP email distribution list of all Tariff filings on the date filed or in compliance with Commission rules, whichever is earlier, which contains a description of the filing including the section of the Tariff being amended or newly included, and a brief description of the subject matter of the Tariff as well as the effective date. If retail rates change after the Effective Date of this Agreement, the applicable discount shall be applied to the changed retail rate from the effective date of the rate change(s).

22.4 Interim Rates

22.4.1 The Parties acknowledge that only some of the prices contained in Exhibit A have been approved by the Commission in a cost case. Prices that have not been approved by the Commission shall be considered interim and subject to the following provisions.

22.4.1.1 Rates reflected on Exhibit A that have not been approved by the Commission in a cost case, including ICB rates, shall be considered as interim rates ("Interim Rates") by the Parties, applicable until changed by agreement of the Parties or by order of the Commission.

22.4.1.2 If the Interim Rates are reviewed and changed by the Commission, the Parties shall incorporate the rates established by the Commission into this Agreement pursuant to Section 2.2 of this Agreement. Such Commission-approved rates shall be effective as of the date required by a legally binding order of the Commission. Each Party reserves its rights with respect to whether Interim Rates are subject to true-up. If, however, the Commission issues an order with respect to rates that is silent on the issue of a true-up, the rates shall be implemented and applied on a prospective basis from the effective date of the legally binding Commission decision as described in Section 2.2.

22.4.1.3 Nothing in this Agreement shall waive any right of either Party to request a cost proceeding at the Commission to establish a Commission-approved rate to replace an Interim Rate.

22.5 ICB Pricing

If CLEC requests a product or service that is identified on Exhibit A as ICB, or for which Qwest would otherwise charge an ICB rate, Qwest shall develop a cost-based rate based upon the particular circumstances of the requested product or service for review by the Commission within 60 Days of offering the rate to CLEC. At the same time, Qwest may also file a written substantiation of the need for ICB pricing for any subsequent requests for the product or service. CLEC may order, and Qwest shall provision, such product or service using such Qwest proposed rate until the Commission orders a rate. The Qwest proposed rate shall be an Interim Rate under this Agreement. ICB pricing shall apply to all subsequent requests for the product or service if the Commission so determines.

SECTION 23.0 - NETWORK STANDARDS

23.1 The Parties recognize that Qwest services and Network Elements have been purchased and deployed, over time, to Telcordia and Qwest technical standards. Specification of standards is built into the Qwest purchasing process, whereby vendors incorporate such standards into the equipment Qwest purchases. Qwest supplements generally held industry standards with Qwest Technical Publications.

23.2 The Parties recognize that equipment vendors may manufacture Telecommunications Equipment that does not fully incorporate and may differ from industry standards at varying points in time (due to standards development processes and consensus) and either Party may have such equipment in place within its network. Except where otherwise explicitly stated within this Agreement, such equipment is acceptable to the Parties, provided said equipment does not pose a security, service or safety hazard to persons or property.

23.3 Generally accepted and developed industry standards which the Parties agree to support include, but are not limited to:

23.3.1 Switching

GR-954-CORE LIDB

GR-2863-CORE AIN

GR-1428-CORE Toll Free Service

GR-1432-CORE TCAP

GR-905-CORE ISUP

GR-1357-CORE Switched Fractional DS1

GR-1298-CORE AIN Switching System Generic Requirements

GR-1299-CORE AIN Service Control Point Adjunct Interface Generic Requirements

TR-NWT-001284 AIN 0.1 Switching System Generic Requirements

GR-905-CORE Common Channel Signaling Network Interface Specification

GR-1432-CORE CCS Network Interface Specification

Telcordia TR-TSY-000540, Issue 2R2

GR-305-CORE

GR-1429-CORE

GR-2863-CORE

FR-64 LATA LSSGR

GR-334-CORE Switched Access Service

TR-NWT-000335 Voice Grade Special Access Services

TR-TSY-000529 Public LSSGR

TR-NWT-000505 LSSGR Call Processing

FR-NWT-000271 OSSGR

TR-NWT-001156 OSSGR Subsystem

23.3.2 Transport

Telcordia FR-440

TR-NWT-000499 (TSGR) Transport Systems Generic Requirements

GR-820-CORE Generic Transmission Surveillance; DS1 and DS3 Performance

GR-253-CORE Synchronous Optical Network Systems (SONET)

TR-NWT-000507 Transmission

TR-NWT-000776 NID for ISDN Subscriber Access

TR-INS-000342 High Capacity Digital Special Access Service

ST-TEC-000051 & 52 Telecommunications Transmission Engineering Handbooks Volumes 1 & 2

ANSI T1.102-1993 Digital Hierarchy – Electrical Interface, Annex B.

23.3.3 Loops

TR-NWT-000057 Functional Criteria for Digital Loop Carrier Systems Issue 2

TR-NWT-000393 Generic Requirements for ISDN Basic Access Digital Subscriber Lines

GR-253-CORE SONET Common Generic Criteria

TR-NWT-000303 Integrated Digital Loop Carrier System Generic Requirements

TR-TSY-000673 Operations Interface for an IDLC System

GR-303-CORE Issue 1 Integrated Digital Loop Carrier System Generic Requirements

TR-NWT-000393 Generic Requirements for ISDN Basic Access Digital Subscriber Lines

TR-TSY-000008 Digital Interface Between the SLC 96 Digital Loop Carrier System and a Local Digital Switch

TR-NWT-008 and 303

TA-TSY-000120 Subscriber Premises or Network Ground Wire

GR-49-CORE Generic Requirements for Outdoor Telephone Network Interface Requirements

TR-NWT-000239 Indoor Telephone Network Interfaces

TR-NWT-000937 Generic Requirements for Outdoor and Indoor Building Entrance

TR-NWT-000133 Generic Requirements for Network Inside Wiring

23.3.4 Local Number Portability

Number Portability Generic Switching and Signaling Requirements for Number Portability, Issue 1.00, February 12, 1996 (Editor – Lucent Technologies, Inc.);

Generic Requirements for SCP application and GTT Function for Number Portability, Issue 0.95, Final Draft, September 4, 1996 (Editor – Ameritech Inc.);

Generic Operator Services Switching Requirements for Number Portability, Issue 1.00, Final Draft, April 12, 1996 (Editor – Nortel);

ATIS, TRQ No. 1, Technical Requirements for Number Portability Operator Services Switching Systems, April 1999;

ATIS, TRQ No. 2, Technical Requirements for Number Portability Switching Systems, April 1999;

ATIS, TRQ No. 3, Technical Requirements for Number Portability Database and Global Title Translation, April 1999;

FCC First Report and Order and Further Notice of Proposed Rulemaking; FCC 96-286; CC Docket 95-116, RM 8535; Released July 2, 1996;

FCC First Memorandum Opinion and Order on Reconsideration; FCC 97-74; CC Docket 95-116, RM 8535; Released March 11, 1997.

FCC Second Report and Order, FCC 97-298; CC Docket 95-116, RM 8535; Released August 18, 1997.

23.4 The Parties will cooperate in the development of national standards for Interconnection elements as the competitive environment evolves. Recognizing that there are no current national standards for Interconnection Network Elements, Qwest has developed its own standards for some Network Elements, including:

Qwest Interconnection – Unbundled Loop #77384

Expanded Interconnection and Collocation for Private Line Transport and Switched Access Services - #77386

Unbundled Dedicated Interoffice Transport - #77389

Telecommunications Equipment Installation Guidelines - #77350

23.5 Qwest Technical Publications have been developed to support service offerings, inform End User Customers and suppliers, and promote engineering consistency and deployment of developing technologies. Qwest provides all of its Technical Publications at no charge via web site: <http://www.qwest.com/techpub/>.

SECTION 24.0 - COMMINGLING

24.1 General Terms

24.1.1 Availability

24.1.1.1 Except as provided herein, and notwithstanding anything to the contrary in the definition of Commingling in Section 4 of this Agreement, Qwest shall permit CLEC to Commingle a UNE or Combination of UNEs with other wholesale facilities and services obtained from Qwest pursuant to any method other than unbundling under section 251(c)(3) of the Act, including any services offered for resale.

24.1.1.2 Resale. Except as provided herein, to the extent it is Technically Feasible, CLEC may Commingle Telecommunications Services purchased on a resale basis with an Unbundled Network Element or combination of Unbundled Network Elements. Services are available for Commingling under the terms and conditions of this Agreement and/or the terms and conditions of Qwest's applicable product Tariffs, price lists, or other Telecommunications Services offerings.

24.1.2 CLEC may Commingle UNEs and combinations of UNEs with wholesale services and facilities (e.g., Switched and special Access Services offered pursuant to Tariff), and upon request, Qwest shall perform the necessary functions to provision such Commingling. For Commingled services, CLEC will be required to provide the Connecting Facility Assignment (CFA) as provided in Section 9.23.6.1.4. Qwest shall not deny access to a UNE on the grounds that the UNE or UNE Combination is connected to, attached to, linked to, or combined with, a facility or service obtained from Qwest, or shares part of Qwest's network with Access Services or inputs for mobile wireless services and/or interexchange services. All requests for Commingling will be subject to the terms and conditions in this Section.

24.1.2.1 The UNE component(s) of any Commingled arrangement is governed by the applicable terms of this Agreement. The other component(s) of any Commingled arrangement is governed by the terms of the alternative service arrangement pursuant to which that component is offered (e.g., Qwest's applicable Tariffs, price lists, catalogs, or commercial agreements). Performance measurements and/or remedies under this Agreement apply only to the UNE component(s) of any Commingled arrangement. Qwest is not relieved from those measurements and remedies by virtue of the fact that the UNE is part of a Commingled arrangement.

24.2 Ratcheting Not Required

24.2.1 To the extent that CLEC requests Qwest, pursuant to this Section, to Commingle a UNE or a UNE Combination with one or more facilities or services

that CLEC has obtained at wholesale from Qwest, Qwest will not be required to bill that wholesale circuit at multiple rates, otherwise known as Ratcheting. Such Commingling will not affect the prices of UNEs or UNE Combinations involved. CLEC shall be assessed the Tariffed rate, or resale rate, or the rate from other Qwest wholesale service offerings, (including ICB offerings) as appropriate, for the non-UNE service. Although Ratcheting is not required, Qwest shall not deny access to a UNE on the ground that the UNE or UNE Combination shares part of Qwest's network with Access Services or inputs for mobile wireless services and/or interexchange services. Qwest shall not refuse to Commingle a UNE with special access or other wholesale services because Qwest multiplexes traffic for multiple Customers onto one facility within its own network.

24.2.1.1 A multiplexed facility will be ordered and billed at the rate in Exhibit A if all circuits entering the multiplexer are UNEs or the UNE Combination terminates at a Collocation, as described in Section 9.23. In all other situations when CLEC orders multiplexing with a UNE (e.g., CLEC orders a UNE Loop in combination with Qwest special access transport), the multiplexed facility will be ordered and billed pursuant to the applicable Tariff.

24.3 Commingled EELs

24.3.1 See Section 9.23.4.1 regarding Service Eligibility Criteria for High Capacity EELs, including Commingled EELs.

24.3.2 The service interval for Commingled EELs will be as follows. For the UNE component of the EEL see Exhibit C. For the tariffed component of the EEL see the applicable Tariff.

SECTION 25.0 - SIGNATURE PAGE

By signing below, and in consideration of the mutual promises set forth herein, and other good and valuable consideration, the Parties agree to abide by the terms and conditions set forth in this Interconnection Agreement.
