**Summary of Change:**

On May 9, 2005, Qwest will post planned updates to its Wholesale Product Catalog that include new/revised documentation for Expedites and Escalations Overview V22. These will be posted to the Qwest Wholesale Document Review Site located at <http://www.qwest.com/wholesale/cmp/review.html>.

Qwest is updating the Expedites Requiring Approval section to modify/change the existing manual process by adding three additional Expedite reasons. Qwest is limiting these changes to Business Classes of Service due to the short due date intervals that already exist for Residential Classes of Service and also due to the discussion with CR PC021904-1 around business customers that are usually being impacted. Also, language is being added related to providing the service order number that caused the expedite condition.

Further information about this Change Request is available on the Wholesale Web site at URL <http://www.qwest.com/wholesale/cmp/changerequest.html>.
