In the Matter of the Provision of Extended Area Service between All West Communications, Inc.'s Jordanelle Exchange and Qwest Corporation's Park City Exchange	Docket No. 07-2270-01 Request for Agency Action
--	---

All West Communications, Inc. ("All West"), by and through counsel and pursuant to Utah Code Ann. § 63-46b-3(1)(b), Utah Admin. Code R746-347-3A., and Utah Code Ann. § 54-7-1, requests that the Public Service Commission ("Commission") take agency action approving the attached Stipulation between All West and Qwest Corporation ("Qwest") for the provision of extended area service ("EAS") between All West's Jordanelle exchange and Qwest's Park City exchange ("Exchanges"). In addition, All West requests that the Commission waive the parts of the EAS rule that require a cost based study (Utah Admin. Code R746-347-4) and a customer survey (Utah Admin. Code R746-347-5).

In the Settlement Stipulation in Docket No. 02-2270-01 approved by the Commission November 29, 2006, All West and Qwest agreed to attempt to develop a mutually acceptable proposal for extended area service between the Exchanges. The attached Stipulation is the product of the parties' good faith negotiations. Approval of the Stipulation and waiver of the Commission's EAS rules are consistent with the public interest for the following reasons:

1. Customers in the Jordanelle exchange have a significant community of interest with customers in the Park City exchange.

2. Currently, approximately 90% of the Jordanelle customers are paying \$10 each month for foreign exchange service to call Park City customers toll free.
3. Under the terms of the Stipulation, Jordanelle customers' monthly rate for local calling to Park City will decrease to approximately \$5 which is based on All West's costs. Park City customers' rate will not change.
4. The terms of the attached Stipulation provide customers the service they desire in a way that is acceptable to both All West and Qwest.
5. Surveying the Jordanelle customers imposes a hardship on All West because of the nature of the communities in that exchange. Many of the customers are absent for long periods of time during the year making it very difficult to perform a survey in accordance with the EAS rules.

Now therefore, All West requests that the Commission waive the requirements of the EAS rule in Utah Admin. Code R746-347-4 and R-746-347-5 and approve the attached Stipulation between All West and Qwest Corporation for the provision of EAS service between the Exchanges.

Respectfully submitted this 6th day of April, 2007.
