Date: July 16, 2007

Re: Docket No 07-2482-01

In the Matter of the Application of Affinity Network, Inc. to Provide Facilities Based Wholesale Interexchange Telecommunications Services Within the State of Utah

Affinity Network filed an application for a Certificate of Public Convenience and Necessity on May 14, 2007, but was lacking the information required for approval. The Division issued a data request shortly after the application was filed, though it has not received a response. The Division will therefore withhold making a recommendation until it receives a satisfactory response to its data requests and will continue to follow up with the Applicant.
