**RE:** Central Utah Telephone Tariff Revisions  
Docket No. 08-040-01 (09-040-T01)

**STATUS:**

CentraCom Interactive, the parent company for Central Utah Telephone has complied with the Division's request to update and make selected revisions to the tariff and update the exchange maps on file with the Commission for Central Utah Telephone.

The revised tariff was recently filed with the Commission but there are some order/issue dates and docket numbers that are still missing from a few pages and a few improvements are still needed on the exchange maps. The maps need a bit more detail such as including streets and/or landmarks and making boundary lines darker and more readable, and including notation on the pages.

The Division is working with CentraCom to complete the revisions to the maps and include docket numbers and order dates. When the changes are completed, the appropriate pages will be provided to the Commission and the Division will issue a recommendation.
