Re: Beehive Telephone, Inc., Review of Tariffs and Exchange Maps per Docket No. 09-051-T01.

RECOMMENDATION: approve

ISSUES:

On September 30, 2008, the Division of Public Utilities (“Division”) petitioned the Utah Public Service Commission (“Commission”) to initiate a review of various telecommunications service provider’ tariffs and exchange maps to bring them into compliance with Commission rules. Accordingly, the Commission opened Docket No. 08-051-01for Beehive Telephone, Inc. (“Beehive”) to review its tariffs and exchange maps.

The Division has reviewed the updated changes and corrections to the tariffs and exchange maps that Beehive has submitted in the above mentioned response docket and concurs with all rewording and modernization of its tariff. The corrections in this tariff submission are all cosmetic and do not affect regulated rates that were set in previous rate hearings.

The Division therefore recommends that the Commission approve Beehive’s update to its tariff and exchange maps filed in this docket without the necessity of a formal hearing before the Commission.
