**MEMORANDUM**

**To:** Public Service Commission

**From:** Division of Public Utilities  
Philip Powlick, Director  
Bill Duncan, Telecommunications / Water Manager  
Ron Slusher, Utility Technical Consultant

**Date:** June 07, 2010

**Re:** In the Matter of the Application of Syniverse Technologies, Inc., to cancel their Certificate of Public Convenience and Necessity to provide Local Exchange Services in the State of Utah Docket No. 10-2415-01.

---

**RECOMMENDATION (Approval):**

The Division has reviewed the request by Syniverse Technologies, Inc. ("Syniverse") to have their Certificate of Public Convenience and Necessity ("CPCN") to provide Local Exchange Services in the State of Utah cancelled and recommends the Commission grant this request.

**EXPLANATION:**

On May 25, 2010, Syniverse filed with the Commission a request to have their CPCN cancelled. The Division has reviewed this request and found the following:

On February 20, 2004, in Docket No. 03-2415-01, the Public Service Commission of Utah approved TSI Telecommunications Network Services, Inc.'s, ("TSI"), application for a CPCN authorizing TSI to provide public telecommunications services within the state of Utah. On October 25, 2004 TSI changed their name to Syniverse Technologies, Inc., in Docket 04-2514-01. Syniverse attests to the fact they currently have no customers in the State of Utah and they do not plan to operate business within the state. It appears they have complied with the rules for exiting as required under Administrative Rule R746-350. Therefore, the Division recommends that the Commission cancel the CPCN of Syniverse Technologies, Inc.

cc: David J. Robinson, Regulatory Affairs Director, Syniverse Technologies, Inc.  
Michael Ginsberg, Assistant Attorney General
