Re: **Docket No. 10-2521-01**, In the Matter of Virgin Mobile USA, L.P. Petition for Limited Designation as an Eligible Telecommunications Carrier (Acknowledge).

Recommendation (Acknowledge)

The Commission should acknowledge the proposed changes in broadband data to Virgin Mobile USA, L.P. d/b/a/ Assurance Wireless' ("Virgin Mobile") Lifeline offerings in the State of Utah.

Background

On November 21, 2019 Virgin Mobile filed a petition outlining changes to their existing lifeline program. As indicated in the petition, the changes are to comply with the requirements as outlined by the FCC and R746-8-403(2)(A)(ii). Consistent with the FCC's November 19, 2019 Order, Virgin Mobile has increased its broadband Lifeline offer to include 3.0 GB of data per month for all new and existing Assurance Wireless customers.

The plan offered by Virgin Mobile meets the requirements outlined by the FCC to have 3 GB of data. Additionally the Utah requirement of unlimited text messaging and 750 voice minutes has been met, and therefore, the Commission should acknowledge receipt of the notification by Virgin Mobile.
