SYNOPSIS

By this Report and Order, the Public Service Commission of Utah (Commission) converts this matter to an informally adjudicated matter. Additionally, the Commission grants the request (Application) of Teltrust Corporation (Applicant) for a Certificate of Public Convenience and Necessity (Certificate) authorizing Applicant to provide public telecommunications services within Utah, excluding those local exchanges having fewer than 5,000 access lines of an incumbent telephone corporation with fewer than 30,000 access lines in the state. The Commission, having considered the record in this proceeding and the applicable law, hereby makes, adopts, and enters the following Report and Order.

By The Commission:

PROCEDURAL HISTORY

Applicant filed its verified Application on February 10, 2011, seeking a Certificate to compete as a telecommunications corporation and to compete in providing interexchange and public local exchange telecommunications services in Utah.

The Application contained detailed information regarding the technical, financial, and managerial resources and abilities of the Applicant to provide the public telecommunications services for which it applied. The Applicant's chief executive officer, Gary W. Buehner, verified the contents of the Application and its exhibits.

On March 3, 2011, the Division of Public Utilities (Division) filed a memorandum recommending approval of the Application. The Division specifically recommended the Commission waive the requirement that Applicant file proof of a \$100,000 bond, given that the Applicant will not require customer deposits or prepayments of any kind.

The Division also commented that given the type of filing, and with the information submitted by the Company, there would be no opposition to the Division's recommendation nor to the Application. It recommended the Commission adjudicate this Application informally per Utah Administrative Code R746-110-1. Together with its recommendation, it submitted the affidavit of Ronald Slusher, utility technical consultant, in support of its recommendation for approval of the Application and for informal adjudication.

Therefore, the Commission, being fully appraised in the matter, enters the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. This matter can be reasonably expected to be unopposed and uncontested. There were no intervenors and no opposition to the Application.
2. The Applicant has filed in support of its Application sworn statements and other supporting documents and has made its *prima facie* case in support of the Application.
3. Applicant is qualified to do business in Utah.
4. Applicant requests the Commission grant a Certificate authorizing it to provide public telecommunications services within Utah.

7. Applicant has sufficient technical resources and abilities to provide the public telecommunication services for which it has applied.
8. Applicant has a secure and sufficient source of funding for its Utah operations that will enable it to meet projected capital and operating expenses and to implement its business plans.
9. Applicant has sufficient financial resources and abilities to provide the public telecommunications services for which it has applied.
10. In its provision of intrastate services, Applicant will be subject to competition from other certified telecommunications services providers.
11. Applicant's service offerings will provide customers with a wider range of choices in meeting their telecommunications needs and will support the development of competition.
