SCHEDULE NO. A-7

CUSTOMIZED LOCAL AREA SIGNALLING SERVICE (CLASS)

DESCRIPTION (Continued)

- A11 Selective Call Acceptance screens incoming calls and only allows access to those telephone numbers on a customer determined list (up to a maximum of 12 telephone numbers). All others will be directed to a pre-recorded message.
- A12 Selective Call Forwarding screens incoming calls and only transfers calls from those telephone numbers on a customer determined screening list (up to a maximum of 12 telephone numbers) to a predefined telephone number.
- A13 Selective Call Rejection allows a customer to block incoming calls from a maximum of 12 telephone numbers. The customer also can block incoming calls placed from the last calling number even if the number is unknown to the customer. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls.
- A14 Multiple Simultaneous Call Forward provides a business customer with the capability to specify the number of calling paths that will be forwarded from one subscriber line to another telephone number. The feature is offered where facilities permit and at no time will this service take precedent over the requirement for these facilities to provide a customer with telephone service. Multiple Simultaneous Call Forward is restricted to voice use only. The feature is available only as an enhancement to one or more of the following features: Call Forwarding, Call Forwarding Busy and Call Forward No answer. Multiple Simultaneous Call Forward is limited to ten (10) call forwarding paths per telephone number. It can be used with any of the following services: B1, PBX, Centrex and ISDN BRI.
