Dear Ms. Paschal,

Enclosed are revisions to the AT&T Corp. ("AT&T") Message Telecommunications Services price list. This filing adds discontinuance language for calls billed to a Commercial Credit Card and an AT&T CIID/891 card.

This price list filing discontinues calls billed to the following calling cards:

- Commercial Credit Card – calls handled over AT&T lines where a customer dials an access number listed on the back of their Commercial Credit Card, and the charges appear on their Commercial Credit Card statement.
- AT&T CIID/891 Card – calls handled over AT&T lines using an AT&T issued Calling Card that is associated with the customer's main telephone account.

AT&T Corp. is discontinuing Commercial Credit Card because the vendor is no longer providing this service. AT&T CIID/891 Card is being discontinued because of low market demand. These services have declined in popularity over the years due to the growth of other communication methods, including mobile phones, text messaging, email, and other social media applications. The discontinuance of AT&T CIID/891 cards will not impact pre-paid calling cards or pre-paid minutes.
