SECTION C - SERVICE DESCRIPTIONS AND RATES

3. METERED USE SERVICE¹

.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of separate service options under Metered Use Service. Depending on the option(s) chosen, the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Certain Metered Use Service Offerings involve, at the customer's option, a monthly subscription fee, a recurring monthly minimum charge for intrastate facility usage, or a one time initiation of service charge. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance service through the use of accounting codes, and (2) receive his or her call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. Unless otherwise noted, when a Metered Use Service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Service options and its recurring and non-recurring charges, features, applicable discounts and service availability is contained in Sections C-3 following.

Option A, B, and Q customers may enroll in the Friends & Family or Friends of the Firm Programs and become eligible for discounts in those programs in addition to discounts established elsewhere in this section. These customers are subject to the rates and provisions stated below for the Program.

.011 Service Cancellation Request Received From Local Exchange Carrier: If the Company cancels a Customer account or service at the request of the Local Exchange Carrier (LEC) serving the Customer, and the Customer continues to complete calls over the Company's network by dialing 1+ or 1010222 for a period not to exceed thirty (30) days from the date the Company first received the service cancellation request, the following provisions shall apply:

Customers who had subscribed to residential service under this Tariff will be charged the rates set forth in Section C-3.0211 for direct dial usage; Section C-3.027 for toll free service usage; and Section C-3.11 for direct dial operator assisted usage.

(D)
(D)

¹ Effective August 21, 2012, for all residential customers of Metered Use Service, all Calling Card service and Toll Free / 800 services will no longer be available to new customers.
