SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.9 Grandfathered Services (continued)

3.9.2 Business Long Distance Total Solutions<sup>1</sup> (continued)

- (F) This optional calling plan is established at the BTN level. For outbound calling, if a Customer selects a different price plan for specific WTN(s), the Customer is required to establish a separate BTN for each variation. If a Customer selects a different price plan for specific AT&T TFS Numbers, the Customer is required to establish a separate BTN for each variation.
- (G) If a Customer disconnects any of the CLEC's services described in 3.9.2 (B) of this Price List, the Customer will no longer qualify for Business Long Distance Total Solutions. The Customer will be moved to Business Long Distance and the rates and charges in Section 4.9.1 of the Price List will apply in lieu of the rates and charges in Section 4.9.2 of this Price List. For the purpose of determining the Customer's rate per minute, the Customer's price plan will be changed from Business Long Distance Total Solutions to Business Long Distance.

3.10 Miscellaneous

3.10.1 Account Codes<sup>2,3</sup>

- (A) Account codes are an optional feature associated with outbound long distance Service that provides the Customer the ability to track usage by requiring the caller enter a string of digits ("digit string"). Account codes enable the Customer to obtain call detail from the Company which is sorted and summarized based on digits entered by the caller. See Section 5.6 for the account code feature MRC.

<sup>1</sup>This Service is no longer available to new Customers or to existing Customers at new locations effective February 1, 2001.

<sup>2</sup>This feature is no longer available to new Customers effective January 12, 2015. Additionally, concurrent this change, the non-mandatory account code option is discontinued.

<sup>3</sup>Effective June 12 2015, no changes will be allowed to Account Code configurations. Network facilities supporting Account Codes are being discontinued in some areas which will impact the availability of this feature. Existing customers may continue with current Account Code configurations where network capability exists or until the Account Code billing feature is discontinued in its entirety by the Company.

SECTION 5 – MISCELLANEOUS CHARGES

5.3 Reserved for future use

5.4 Payphone Origination Charge

Pursuant to the FCC's Order in CC Docket 96-128, this charge applies only to dial-around calls, i.e., calls originating using a carrier's access code, a Customer's 800/877/888 (and other area code assignments as appropriate) number and other toll free numbers and debit card calls, from payphone instruments.

The Customer shall pay the Company a per call charge of \$0.60 per call for all such traffic.

5.5 PIC Change Rebate

If local telephone company is requested to change the subscriber's PIC from one long distance service provider to another long distance service provider, the local telephone company may charge the Customer for the PIC change. If a Customer incurs such a charge from its local telephone company for changing the PIC to the Company, the Company will rebate that charge to the Customer. The rebate will be in the form of a credit on the Customer's bill. The credit will appear within two (2) billing cycles after the Customer provides the Company proof that the local telephone company billed the Customer for the PIC change.

5.6 Account Codes<sup>1,2</sup>

|                           | MRC                 |
|---------------------------|---------------------|
| Small Business Plans      | \$00.00 per BTN/BAN |
| High Volume Calling Plans | \$00.00 per BTN/BAN |

<sup>1</sup>This feature is no longer available to new Customers effective January 12, 2015. Additionally, concurrent this change, the non-mandatory account code option is discontinued.

<sup>2</sup>Effective June 12 2015, no changes will be allowed to Account Code configurations. Network facilities supporting Account Codes are being discontinued in some areas which will impact the availability of this feature. Existing customers may continue with current Account Code configurations where network capability exists or until the Account Code billing feature is discontinued in its entirety by the Company.
