RE: Docket No. 17-040-T01 Central Utah Telephone, Inc. filing to revise access tariff language and rates to comply with current FCC rules governing inter-carrier compensation in WC Docket Nos. 10-90, etc (FCC 11-161).

ISSUE:

Central Utah Telephone, Inc (Central) is filing revisions to its Intrastate Access Service Tariff PSC Utah No. 2. This access service tariff change will implement the current changes in transitional intrastate access service rate reductions as mandated in the Federal Communications Commission's November 18, 2011 Report and Order and Further Notice of Proposed Rulemaking in WC Docket Nos. 10-90, etc. (FCC 11-161).

In addition to the FCC mandate, the National Exchange Carrier Association (NECA) is expected to increase interstate switched access rates effective July 1, 2017, thereby increasing the rates the carriers must match for terminating access by July 1, 2017. The proposed rates reflect the revised FCC rules and the proposed increased NECA switched access rates.

This tariff will continue to cover the three operating companies owned by Central which are Central Utah Telephone, Inc., Bear Lake Communications, Inc. and Skyline Telecom.

RECOMMENDATION: Approve New Tariff Changes

The Division reviewed the results of the tariff calculations for the required access revenue reduction, which was targeted to the local switching minutes-of-use rate element and determined that it was set to the appropriate rate levels.

The Division agrees that this Tariff change is filed in compliance with the above mentioned FCC Order 11-161, supports this change, and recommends that the tariff be approved and become effective on July 1, 2017.
