Re: *Manti Telephone Company's Proposed Tariff Revisions*; Docket No. 20-046-T01

Dear Ms. Mersman,

The Public Service Commission (PSC) has reviewed Manti Telephone Company's ("Manti") proposed revisions to Page No. 109.6 of its P.S.C. UTAH No. 4 Concurrences Access Services Tariff ("Tariff") filed June 8, 2020 and later amended on June 11, 2020. Manti states the proposed revisions decrease the Switched Access Service Local Switching-LTR-Intrastate Terminating Per Access Minute Rate as required by FCC order. Manti requests an effective date of July 1, 2020 for the proposed Tariff modifications.

As an initial matter, Manti did not file the proposed tariff revision at least 30 days before the requested effective date as required under Utah Admin. Code R746-405-1(C)(2). The PSC requests that Manti meet this requirement in future filings. We conclude, without prejudice to dissimilar conclusions in future filings, that in this instance this deficiency is not material enough to be a basis to suspend or deny the tariff.

The PSC also reviewed the comments of the Division of Public Utilities (DPU) filed on June 12, 2020. DPU recommends the PSC approve Manti's proposed revision to its Local Switching-LTR-Intrastate Access rate as filed. DPU states the proposed Tariff changes are consistent with the FCC's prescribed rules and transition of charges.

Based on its review of Manti's filing and DPU's comments and recommendation, the PSC approves Manti's proposed revisions to its Tariff as filed, effective July 1, 2020.

Sincerely,

/s/ Gary L. Widerburg
PSC Secretary
