7. AT&T LOCAL EXCHANGE SERVICES

7.4 FEATURES (continued)

7.4.21 Remote Call Forwarding

(T)

Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (the terminating station). Calls forwarded with this feature will be subject to all appropriate local, local toll and/or long distance charges from the call forwarding location to the terminating station.

A. Limitations:

1. Remote Call Forwarding service is offered subject to availability of suitable facilities.
2. RCF service is not offered where the terminating number is a coin or coinless pay telephone.
3. The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
4. Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered, and applies only in the forwarding direction.

The services to which RCF calls are forwarded are provided independent of the RCF service and may not be within the Company's jurisdiction. Further, such services can be changed subsequent to the provision of an RCF service. Consequently, it is impractical to assure that such increased tandem forwarding never occurs.

Where the Company is aware of such a service configuration, it reserves the right to modify such arrangements. Modifications may include, but are not limited to, changing the associated forwarded-to number or termination of the RCF service. The RCF customer will be responsible for normal Price List charges for such changes.

7.4 FEATURES (continued)

7.4.21 Remote Call Forwarding (continued)

(T)

A. Limitations: (continued)

5. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.
6. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If in the opinion of the Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will, where appropriate, be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.
7. When the Call Forwarding number is to be located in a multi-office exchange, the Company will determine the serving central office.
8. Remote Call Forwarding will be limited to five access paths from the RCF Customer's primary business telephone number.
9. Calls can only be forwarded to the Customer's primary business telephone location.

7.4 FEATURES (continued)

7.4.21 Remote Call Forwarding (continued)

(T)

A. Limitations: (continued)

Minimum Contact Period

The minimum contract period for this service is one month.

Charges

The charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used.

Remote Call Forwarding is not represented as suitable for satisfactory transmission of data and is only available with AT&T ACC Business Service, and AT&T Business Network Service.

(T)

7.4.22 Speed Dialing 30*

This feature allows the customer to use two-digit speed calling to complete calls. Up to 30 numbers can be stored in memory. Speed Dial 30 is only available with AT&T ACC Business Service and AT&T Business Network Service.

(T)

7.4.23 Local Number Portability

Local Number Portability (LNP) Service provides end users of telecommunication service, where facilities permit, the ability to retain their existing telephone number when switching from one local exchange service provider to another provided that the end user Customer remains within the same rate center.

LNP Service provides for the completion of all calls to ported telephone numbers, as described above, regardless of where the call originates.

(D)

(D)

Monthly recurring charges for LNP service will apply to end user Business service customers receiving AT&T Business Network Service, DS-1 Digital Facilities and DS-1 ISDN PRI on AT&T Business Network Service. LNP Service charge will be assessed on all of these lines beginning July 28, 2003 and concluding on July 28, 2008. Refer to Price List for charges.

*Effective April 15, 2007, Speed Dialing 30 is not available to newly subscribed AT&T Business Network customers.

7.4 FEATURES (continued)

7.4.24 Preferential Hunt

This feature enables incoming calls to a specific number within a hunt group to hunt over a unique hunting sequence of lines within the hunting group. The unique hunting sequence is other than that encountered when a caller dials the first telephone number in the hunt group. Preferential Hunt is available to customers with two or more lines.
